Congressional Record

PROCEEDINGS AND DEBATES OF THE 93$^{d}$ CONGRESS, FIRST SESSION

# SENATE—*Wednesday, January 3, 1973*

The third of January being the day prescribed by the Constitution of the United States for the annual meeting of the Congress the first session of the 93d Congress, commenced this day.

The Senate assembled in its Chamber at the Capitol.

The Senate was called to order by the Vice President.

## PRAYER

The Chaplain, the Reverend Edward L. R. Elson, D.D., offered the following prayer:

God of our fathers and our God, who has watched over us from generation to generation, in prosperity and adversity, in peace and in war, we thank Thee for this new year with its new horizons, fresh challenges, and high duties.

Into Thy hands we commit the Government of this Nation.

May the solemn induction of some Members of this body become the renewal of vows for all. Join us in heart, mind, and soul to concert our best efforts for the common good. Make us new men for new times.

Keep us, O God, so dedicated to Thee and so completely under Thy rulership that we may do justly, love mercy, and walk humbly with Thee all our days.

Through Jesus Christ, our Lord. Amen.

## CREDENTIALS—RESIGNATIONS AND APPOINTMENTS

The VICE PRESIDENT. The Chair lays before the Senate the letters of resignation of Senator Edwards of Louisiana, together with the certificate of appointment of Mr. J. Bennett Johnston, Jr., of Louisiana, which the clerk will read.

The legislative clerk read as follows:

November 13, 1972.

Hon. Edwin W. Edwards,
*Governor of Louisiana,*
*Baton Rouge, La.*

Dear Governor Edwards: I hereby tender my resignation as a member of the United States Senate from Louisiana, to become effective at the close of business on Monday, November 13, 1972.

Sincerely,

Elaine S. Edwards.

---

U.S. Senate,
*Washington, D.C., November 13, 1972.*

Hon. Spiro T. Agnew,
*Vice President of the United States,*
*Washington, D.C.*

My Dear Mr. Vice President: I hereby tender my resignation as a member of the United States Senate from Louisiana, to become effective at the close of business on Monday, November 13, 1972.

Sincerely yours,

Elaine S. Edwards,
*U.S. Senator.*

---

State of Louisiana,
Executive Department,
*Baton Rouge, November 14, 1972.*

To the President of the Senate of the United States and the Secretary of the Senate of the United States:

Sirs: Under and by virtue of the authority vested in me by the Constitution of the United States, particularly Amendment XVII thereof, and Section 1414 of Title 18 of the Louisiana Revised Statutes of 1950, I do hereby appoint J. Bennett Johnston, Jr., as Senator from the State of Louisiana to fill the vacancy caused by the resignation of the Honorable Elaine S. Edwards as Senator from the State of Louisiana.

Witness: His Excellency, our Governor, Edwin W. Edwards, and our Seal hereto affixed at Baton Rouge, Louisiana, this 14th day of November, in the year of Our Lord, nineteen hundred and seventy-two.

Edwin Edwards,
*Governor.*

By the Governor:

Wade O. Martin, Jr.,
*Secretary of State.*

The VICE PRESIDENT. The Chair lays before the Senate the credentials of Sam Nunn, duly chosen a Senator by the qualified electors of the State of Georgia on November 7, 1972, caused by the death of Hon. Richard Brevard Russell, which without objection is ordered to be placed on file. The clerk will read the certificate of election.

The legislative clerk read as follows:

Certificate of Election for Unexpired Term

To the President of the Senate of the United States:

This is to certify that on the 7th day of November, 1972, Honorable Sam Nunn was duly chosen by the qualified electors of the State of Georgia a Senator for the unexpired term ending at noon on the 3rd day of January, 1973, to fill the vacancy in the representation from said State in the Senate of the United States caused by the death of Honorable Richard Brevard Russell.

Witness: His Excellency our Governor, and our Seal hereto affixed at the State Capitol in Atlanta, Georgia, this 16th day of November, in the year of our Lord 1972.

Ben W. Fortson, Jr.,
*Secretary of State.*

Jimmy Carter,
*Governor.*

The VICE PRESIDENT. The Chair lays before the Senate the credentials of 33 Senators elected for 6-year terms beginning January 3, 1973. All certificates, the Chair is advised, are in the form suggested by the Senate, except the ones from Delaware and Arkansas, which used State forms but contained all the requirements of the form suggested by the Senate.

If there be no objection, the reading of the 33 certificates will be waived and they will be printed in full in the Record.

There being no objection, the reading of the 33 certificates was waived and are printed in the Record as follows:

State of South Dakota,
*Executive Department.*

To the President of the Senate of the United States:

This is to certify that on the 7th day of November, 1972, James Abourezk was duly chosen by the qualified electors of the State of South Dakota as Senator from said State to represent South Dakota in the Senate of the United States for a term of six years, beginning on the third day of January, nineteen hundred and seventy-three.

Witness: His excellency our Governor Richard F. Kneip, and our seal hereto affixed at Pierre, the Capital, this 6th day of December, in the year of our Lord nineteen hundred and seventy-two.

By the Governor:

Richard F. Kneip,
*Governor.*

Alma Larson,
*Secretary of State.*

---

To the President of the Senate of the United States:

This is to certify that on the 7th day of November, 1972, Honorable Howard H. Baker, Jr., was duly chosen by the qualified electors of the State of Tennessee a Senator from said State to represent said State in the Senate of the United States for the Term of six years, beginning on the 3d day of January, 1973.

Witness His excellency our Governor Winfield Dunn, and our seal hereto affixed at Nashville this 4th day of December, in the year of our Lord 1972.

Winfield Dunn,
*Governor.*

---

To the President of the Senate of the United States:

This is to certify that on the 7th day of November, 1972, Dewey F. Bartlett was duly chosen by the qualified electors of the State of Oklahoma a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the 3rd day of January, 1973.

Witness: His excellency our Governor David Hall, and our seal hereto affixed at Oklahoma City, Oklahoma this 21 day of December, in the year of our Lord 1972.

By the Governor of the State of Oklahoma:

David Hall.

To the President of the Senate of the United States:

Be it known. An election was held in the State of Delaware, on Tuesday, the 7th day of November, in the year of our Lord one thousand nine hundred and seventy-two that being the Tuesday next after the first Monday in said month, in pursuance of the Constitution of the United States and the Laws of the State of Delaware, in that behalf, for the election of a Senator for the people of the said State, in the Senate of the United States.

Whereas, The official certificates or returns of the said election, held in the several counties of the said State, in due manner made out, signed and executed, have been delivered to me according to the laws of the said State, by the Superior Court of the said counties; and having examined said returns, and enumerated and ascertained the number of votes for each and every candidate or person voted for, for such Senator, I have found Joseph R. Biden to be the person highest in vote, and therefore duly elected Senator of and for the said State in the Senate of the United States for the Constitutional term to commence at noon on the third day of January in the year of our Lord one thousand nine hundred and seventy-three.

I, Russell W. Peterson, Governor, do, therefore, according to the form of the Act of the General Assembly of the said State and of the Act of Congress of the United States, in such case made and provided, declare the said Joseph R. Biden, Jr., the person highest in vote at the election aforesaid, and therefore duly and legally elected Senator of and for the said State of Delaware in the Senate of the United States, for the Constitutional term to commence at noon on the third day of January in the year of our Lord one thousand nine hundred and seventy-three.

Given under my hand and the Great Seal of the said State, in obedience to the said Act of the General Assembly and of the said Act of Congress, at Dover, the twenty-first day of November in the year of our Lord one thousand nine hundred and seventy-two and in the year of the Independence of the United States of America the one hundred and ninety-seventh.

Russell W. Peterson,
*Governor.*
Walter H. Simpson,
*Secretary of State.*

---

The Commonwealth of Massachusetts.

To the President of the Senate of the United States:

This is to certify that on the seventh day of November, nineteen hundred and seventy-two, Edward W. Brooke was duly chosen by the qualified electors of the Commonwealth of Massachusetts a Senator from Said Commonwealth to represent said Commonwealth in the Senate of the United States for the term of six years, beginning on the third day of January, nineteen hundred and seventy-three.

Witness: His Excellency our Governor, Francis W. Sargent, and our seal hereto affixed at Boston, this sixth day of December, in the year of our Lord nineteen hundred and seventy-two.

By the Governor:

Francis W. Sargent,
*Governor.*

---

State of New Jersey.

To the President of the Senate of the United States:

This is to certify that on the 7th day of November, 1972, Clifford P. Case, was duly chosen by the Qualified electors of the State of New Jersey a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the 3rd day of January, 1973.

Witness: His Excellency our Acting Governor Raymond H. Bateman, and our Seal hereto affixed at Trenton, this 5th day of December, in the year of our Lord 1972.

By the Acting Governor:

Raymond H. Bateman,
*Acting Governor.*

---

State of Iowa.

## ADMINISTRATION OF OATHS

The VICE PRESIDENT. If Senators to be sworn will now present themselves at the desk in groups of four as their names are called, in alphabetical order, the Chair will administer the oath of office. The clerk will call the names.

The legislative clerk called the names of Mr. ABOUREZK, Mr. BAKER, Mr. BARTLETT, and Mr. BROOKE.

These Senators, escorted by Mr. McGOVERN, Mr. BROCK, Mr. BELLMON, and Mr. KENNEDY, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. CASE, Mr. CLARK, Mr. CURTIS, and Mr. DOMENICI.

These Senators, escorted by Mr. WILLIAMS, Mr. HUGHES, Mr. HRUSKA, and Mr. MONTOYA, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. EASTLAND, Mr. GRIFFIN, Mr. HANSEN, and Mr. HASKELL.

These Senators, escorted by Mr. STENNIS, Mr. HART, Mr. McGEE, and Mr. DOMINICK, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. HATFIELD, Mr. HATHAWAY, Mr. HELMS, and Mr. HUDDLESTON.

These Senators, escorted by Mr. PACKWOOD, Mr. MUSKIE, Mr. ERVIN, and Mr. COOK, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. JOHNSTON, Mr. McCLURE, Mr. McCLELLAN, and Mr. McINTYRE.

These Senators, escorted by Mr. LONG, Mr. CHURCH, Mr. FULBRIGHT, and Mr. COTTON, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. METCALF, Mr. MONDALE, Mr. NUNN, and Mr. PELL.

These Senators, escorted by Mr. MANSFIELD, Mr. HUMPHREY, Mr. TALMADGE, and Mr. PASTORE, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. PERCY, Mr. RANDOLPH, Mr. SCOTT of Virginia, and Mr. SPARKMAN.

These Senators, escorted by Mr. STEVENSON, Mr. ROBERT C. BYRD, Mr. HARRY F. BYRD, JR., and Mr. ALLEN, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

The legislative clerk called the names of Mr. STEVENS, Mr. THURMOND, and Mr. TOWER.

These Senators, escorted by Mr. GRAVEL, Mr. HOLLINGS, and Mr. BENTSEN, respectively, advanced to the desk of the Vice President; the oath prescribed by law was administered to them by the Vice President; and they severally subscribed to the oath in the official oath book.

[Applause, Senators rising.]

Mr. MANSFIELD. Mr. President, I suggest the absence of a quorum.

The VICE PRESIDENT. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The VICE PRESIDENT. Without objection, it is so ordered.

## APPOINTMENT TO COMMISSION ON THE ORGANIZATION OF THE GOVERNMENT FOR THE CONDUCT OF FOREIGN POLICY

The VICE PRESIDENT. The Chair, pursuant to Public Law 92–352, appoints the Senator from Montana (Mr. MANSFIELD) as a member of the Commission on the Organization of the Government for the Conduct of Foreign Policy, in lieu of the Senator from Virginia (Mr. SPONG).

## APPOINTMENT TO BOARD OF REGENTS OF THE SMITHSONIAN INSTITUTION

The VICE PRESIDENT. The Chair, pursuant to the provisions of title 20, United States Code, section 42 and 43, appoints the Senator from Washington (Mr. JACKSON) as a member of the Board of Regents of the Smithsonian Institution, in lieu of the Senator from New Mexico (Mr. ANDERSON).

## APPOINTMENTS TO JOINT COMMITTEE TO REVIEW OPERATION OF BUDGET CEILING

The VICE PRESIDENT. The Chair, pursuant to Public Law 92–599, appoints the following Senators to the Joint Committee To Review Operation of Budget Ceiling and To Recommend Procedures for Improving Congressional Control Over Budgetary Outlay and Receipt

Totals: the Senator from Louisiana (Mr. LONG), the Senator from Arkansas (Mr. FULBRIGHT), the Senator from Georgia (Mr. TALMADGE), the Senator from Indiana (Mr. HARTKE), the Senator from Utah (Mr. BENNETT), the Senator from Nebraska (Mr. CURTIS), the Senator from Arizona (Mr. FANNIN), the Senator from Arkansas (Mr. MCCLELLAN), the Senator from Mississippi (Mr. STENNIS), the Senator from Rhode Island (Mr. PASTORE), the Senator from Nevada (Mr. BIBLE), the Senator from North Dakota (Mr. YOUNG), the Senator from Nebraska (Mr. HRUSKA), the Senator from New Hampshire (Mr. COTTON), the Senator from Wisconsin (Mr. PROXMIRE), and the Senator from Delaware (Mr. ROTH).

These appointments are made on behalf of the President pro tempore.

## APPOINTMENTS TO COMMISSION ON REVISION OF THE FEDERAL APPELLATE SYSTEM

The VICE PRESIDENT. Also on behalf of the President pro tempore, the Chair, pursuant to Public Law 92–489, appoints the following Senators as members of the Commission on Revision of the Federal Court Appellate System: the Senator from Arkansas (Mr. MCCLELLAN), the Senator from North Dakota (Mr. BURDICK), the Senator from Nebraska (Mr. HRUSKA), and the Senator from Florida (Mr. GURNEY).

## APPOINTMENT TO TECHNOLOGY ASSESSMENT BOARD

The VICE PRESIDENT. The Chair, on behalf of the President pro tempore, pursuant to Public Law 92–484, appoints the Senator from New Jersey (Mr. CASE) as a member the Technology Assessment Board, in lieu of the Senator from Colorado (Mr. Allott).

## MEMORIAL SERVICE IN HONOR OF THE LATE PRESIDENT HARRY S TRUMAN

Mr. MANSFIELD. Mr. President, on behalf of the distinguished Republican leader and myself, I wish to make the following announcement:

The memorial service in honor of the late President Harry S Truman will be held Friday, January 5, 1973, at 11 a.m. in the Washington National Cathedral.

Buses will depart, under escort, from the Senate steps of the Capitol at 10:15 a.m. and return to the Capitol immediately after the services. Those using private transportation are advised to enter the Cathedral grounds from Woodley Road and proceed to the south transept entrance.

Members and their wives are invited. Contact the Office of the Sergeant at Arms for tickets and transportation arrangements.

Members of the Senate delegation are scheduled to be seated in the Cathedral at 10:45 a.m.

## ORDER FOR ADJOURNMENT

Mr. MANSFIELD. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in adjournment until the hour of 12 o'clock noon tomorrow.

The VICE PRESIDENT. Without objection, it is so ordered.

## ORDER OF BUSINESS THIS WEEK

Mr. MANSFIELD. Mr. President, for the further information of the Senate, there will be no meeting on Friday, but on Saturday there will be. It is a mandatory meeting, because the two Houses will meet for the purpose of counting the electoral votes.

Mr. SCOTT of Pennsylvania. Mr. President, will the distinguished majority leader yield?

Mr. MANSFIELD. I am delighted to yield.

Mr. SCOTT of Pennsylvania. I take it that no bills may be introduced today, but I would assume that tomorrow bills may be introduced and resolutions submitted, and that speeches will be made tomorrow for Senators to enjoy, but none today. Is that correct?

Mr. MANSFIELD. That is correct. The regular workaday day will begin tomorrow. Today is a day of swearing in and the usual resolutions which will be presented shortly; but beginning tomorrow, what the distinguished Republican leader has said is correct.

Mr. SCOTT of Pennsylvania. In other words, swearing in today; swearing at later.

## CALL OF THE ROLL

Mr. MANSFIELD. Mr. President, I suggest the absence of a quorum for the purpose of having the roll called and validating the election of the new Senators and the retention of the old ones.

The VICE PRESIDENT. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Mr. ROBERT C. BYRD. I announce that the Senator from Washington (Mr. MAGNUSON) is necessarily absent.

Mr. GRIFFIN. I announce that the Senator from Hawaii (Mr. FONG) and the Senator from Kansas (Mr. PEARSON) are necessarily absent.

The VICE PRESIDENT. A quorum is present.

## LIST OF SENATORS BY STATES

*Alabama.*—John Sparkman and James B. Allen.

*Alaska.*—Ted Stevens and Mike Gravel.

*Arizona.*—Paul J. Fannin and Barry Goldwater.

*Arkansas.*—John L. McClellan and J. W. Fulbright.

*California.*—Alan Cranston and John V. Tunney.

*Colorado.*—Peter H. Dominick and Floyd K. Haskell.

*Connecticut.*—Abraham Ribicoff and Lowell P. Weicker, Jr.

*Delaware.*—William V. Roth, Jr., and Joseph R. Biden, Jr.

*Florida*—Edward J. Gurney and Lawton Chiles.

*Georgia.*—Herman E. Talmadge and Sam Nunn.

*Hawaii.*—Hiram L. Fong and Daniel K. Inouye.

*Idaho.*—Frank Church and James A. McClure.

*Illinois.*—Charles H. Percy and Adlai E. Stevenson III.

*Indiana.*—Vance Hartke and Birch Bayh.

*Iowa.*—Harold E. Hughes and Dick Clark.

*Kansas.*—James B. Pearson and Robert Dole.

*Kentucky.*—Marlow W. Cook and Walter D. Huddleston.

*Louisiana.*—Russell B. Long and J. Bennett Johnston.

*Maine.*—Edmund S. Muskie and William D. Hathaway.

*Maryland.*—Charles McC. Mathias, Jr., and J. Glenn Beall, Jr.

*Massachusetts.*—Edward M. Kennedy and Edward W. Brooke.

*Michigan.*—Philip A. Hart and Robert P. Griffin.

*Minnesota.*—Walter F. Mondale and Hubert H. Humphrey.

*Mississippi.*—James O. Eastland and John C. Stennis.

*Missouri*—Stuart Symington and Thomas F. Eagleton.

*Montana.*—Mike Mansfield and Lee Metcalf.

*Nebraska.*—Roman L. Hruska and Carl T. Curtis.

*Nevada.*—Alan Bible and Howard W. Cannon.

*New Hampshire.*—Norris Cotton and Thomas J. McIntyre.

*New Jersey.*—Clifford P. Case and Harrison A. Williams, Jr.

*New Mexico.*—Joseph M. Montoya and Pete V. Domenici.

*New York.*—Jacob K. Javits and James L. Buckley.

*North Carolina.*—Sam J. Ervin, Jr., and Jesse Helms.

*North Dakota.*—Milton R. Young and Quentin N. Burdick.

*Ohio.*—William B. Saxbe and Robert Taft, Jr.

*Oklahoma.*—Henry Bellmon and Dewey F. Bartlett.

*Oregon.*—Mark O. Hatfield and Robert W. Packwood.

*Pennsylvania.*—Hugh Scott and Richard S. Schweiker.

*Rhode Island.*—John O. Pastore and Claiborne Pell.

*South Carolina.*—Strom Thurmond and Ernest F. Hollings.

*South Dakota.*—George McGovern and James Abourezk.

*Tennessee.*—Howard H. Baker, Jr., and Bill Brock.

*Texas.*—John G. Tower and Lloyd Bentsen.

*Utah.*—Wallace F. Bennett and Frank E. Moss.

*Vermont.*—George D. Aiken and Robert T. Stafford.

*Virginia.*—Harry F. Byrd, Jr., and William Lloyd Scott.

*Washington.*—Warren G. Magnuson and Henry M. Jackson.

*West Virginia.*—Jennings Randolph and Robert C. Byrd.

*Wisconsin.*—William Proxmire and Gaylord Nelson.

*Wyoming.*—Gale W. McGee and Clifford P. Hansen.

## NOTIFICATION TO THE PRESIDENT

Mr. MANSFIELD submitted the following resolution (S. Res. 1), which was read, considered by unanimous consent, and agreed to, as follows:

S. RES. 1

*Resolved,* That a committee consisting of two Senators be appointed by the Vice President to join such committee as may be appointed by the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

THE VICE PRESIDENT. The Chair appoints the Senator from Montana (Mr. MANSFIELD) and the Senator from Pennsylvania (Mr. SCOTT) as members of the committee on the part of the Senate to join the members of the committee on the part of the House to consult with the President and notify him that a quorum of each House is present.

## NOTIFICATION TO THE HOUSE

Mr. SCOTT of Pennsylvania submitted the following resolution (S. Res. 2), which was read, considered by unanimous consent, and agreed to, as follows:

S. RES. 2

*Resolved,* That the Secretary inform the House of Representatives that a quorum of the Senate is assembled and that the Senate is ready to proceed to business.

## HOUR OF DAILY MEETING

Mr. ROBERT C. BYRD submitted the following resolution (S. Res. 3), which was read, considered by unanimous consent, and agreed to, as follows:

S. RES. 3

*Resolved,* That the hour of daily meeting of the Senate be 12 o'clock meridian unless otherwise ordered.

## COUNT OF ELECTORAL VOTES

Mr. CANNON submitted the following concurrent resolution (S. Con. Res. 1), which was read, considered by unanimous consent, and agreed to, as follows:

S. CON. RES. 1

*Resolved by the Senate (the House of Representatives concurring),* That the two Houses of Congress shall meet in the Hall of the House of Representatives on Saturday, the 6th day of January 1973, at 1 o'clock post meridan, pursuant to the requirements of the Constitution and laws relating to the election of President and Vice President of the United States, and the President of the Senate shall be their Presiding Officer; that two tellers shall be previously appointed by the President of the Senate on the part of the Senate and two by the Speaker on the part of the House of Representatives, to whom shall be handed, as they are opened by the President of the Senate, all the certificates and papers purporting to be certificates of the electoral votes, which certificates and papers shall be opened, presented, and acted upon in the alphabetical order of the States, beginning with the letter "A"; and said tellers, having then read the same in the presence and hearing of the two Houses, shall make a list of the votes as they shall appear from the said certificates; and the votes having been ascertained and counted in the manner and according to the rules by law provided, the result of the same shall be delivered to the President of the Senate, who shall thereupon announce the state of the vote, which announcement shall be deemed a sufficient declaraiton of the persons, if any, elected President and Vice President of the United States, and, together with a list of votes, be entered on the Journals of the two Houses.

The VICE PRESIDENT. In accordance with the provisions of Senate Concurrent Resolution No. 1, the Chair appoints the Senator from Kentucky (Mr. COOK) and the Senator from Nevada (Mr. CANNON) as the tellers on the part of the Senate to count the electoral votes for President and Vice President of the United States on January 6, 1973.

## CERTIFICATION OF ELECTORS FOR PRESIDENT AND VICE PRESIDENT

The VICE PRESIDENT. The Chair lays before the Senate a number of communications from the Administrator of General Services Administration, transmitting, pursuant to law, certified copies of the final ascertainment of the electors for President and Vice President from the several States and the District of Columbia, which, with the accompanying papers, are ordered to lie on the table.

## ELECTION OF PRESIDENT PRO TEMPORE

Mr. MANSFIELD. Mr. President, I send to the desk a resolution and ask unanimous consent for its immediate consideration.

The VICE PRESIDENT. The clerk will state the resolution.

The legislative clerk read the resolution as follows:

S. RES. 4

*Resolved,* That Honorable JAMES O. EASTLAND, a Senator from the State of Mississippi, be, and he is hereby, elected President of the Senate pro tempore, to hold office during the pleasure of the Senate, in accordance with the resolution of the Senate adopted on the 12th day of March 1890 on the subject.

Without objection, the Senate proceeded to consider the resolution.

Mr. SCOTT of Pennsylvania. Mr. President, in a spirit of unwarranted optimism and conscious euphoria, I submit an amendment and ask for its immediate consideration.

The VICE PRESIDENT. The amendment will be stated.

The legislative clerk read as follows:

In the resolution strike the name of Honorable JAMES O. EASTLAND, a Senator for the State of Mississippi and insert in lieu thereof the name of Honorable GEORGE D. AIKEN, a Senator from the State of Vermont.

The VICE PRESIDENT. The question is on agreeing to the amendment offered by the Senator from Pennsylvania (putting the question).

The amendment was rejected.

The VICE PRESIDENT. The question is on agreeing to the resolution.

The resolution (S. Res. 4) was agreed to.

## ADMINISTRATION OF OATH TO PRESIDENT PRO TEMPORE

The VICE PRESIDENT. Pursuant to the provisions of Senate Resolution 4, which has just been agreed to, the Chair appoints Mr. AIKEN as a committee of one to escort the President pro tempore to the rostrum for the purpose of taking the oath of office.

Mr. EASTLAND, escorted by Mr. AIKEN, advanced to the desk of the Vice President; the oath prescribed by law was administered to him by the Vice President; and he subscribed to the oath in the Official Oath Book.

## CONSIDERATION OF RESOLUTIONS

Mr. MANSFIELD. Mr. President, I send to the desk four resolutions and ask unanimous consent that they be considered in sequence immediately.

The VICE PRESIDENT. Without objection, it is so ordered.

## NOTIFICATION TO THE PRESIDENT OF THE ELECTION OF A PRESIDENT PRO TEMPORE

The VICE PRESIDENT. The first resolution will be stated.

The legislative clerk read as follows:

S. RES. 5

*Resolved,* That the President of the United States be notified of the election of Honorable JAMES O. EASTLAND, a Senator from the State of Mississippi, as President of the Senate pro tempore.

The Senate proceeded to consider the resolution.

The VICE PRESIDENT. The question is on agreeing to the resolution.

The resolution (S. Res. 5) was agreed to.

## NOTIFICATION TO THE HOUSE OF REPRESENTATIVES OF THE ELECTION OF A PRESIDENT PRO TEMPORE

The VICE PRESIDENT. The next resolution will be stated.

The legislative clerk read as follows:

S. RES. 6

*Resolved,* That the House of Representatives be notified of the election of Honorable

JAMES O. EASTLAND, a Senator from the State of Mississippi, as President of the Senate pro tempore.

The Senate proceeded to consider the resolution.

The VICE PRESIDENT. The question is on agreeing to the resolution.

The resolution (S. Res. 6) was agreed to.

## AUTHORIZATION FOR SENATOR METCALF TO SERVE AS ACTING PRESIDENT PRO TEMPORE

The VICE PRESIDENT. The third resolution will be stated.

The legislative clerk read as follows:

S. RES. 7

*Resolved*, That, notwithstanding the provisions of paragraph 3 of rule I of the Standing Rules of the Senate, the Senator from Montana (Mr. METCALF) be, and is hereby, authorized to perform the duties of the Chair as Acting President pro tempore until otherwise ordered by the Senate.

The Senate proceeded to consider the resolution.

The VICE PRESIDENT. The question is on agreeing to the resolution.

The resolution (S. Res. 7) was agreed to.

## AUTHORIZATION FOR ADMINISTRATION OF OATH OF OFFICE TO SENATOR-ELECT BIDEN, JR., OF DELAWARE

The VICE PRESIDENT. The next resolution will be stated.

The legislative clerk read the resolution, which the Senate proceeded to consider.

The preamble was agreed to.

The resolution was agreed to.

The resolution (S. Res. 8) with its preamble, reads as follows:

S. RES. 8

Whereas Joseph R. Biden, Jr., a Senator elect from the State of Delaware, is temporarily unable, by reason of tragedy in his family, to appear in person to take the oath required by law as a Member of the Senate; and

Whereas there is no contest or question as to his election: Now therefore be it

*Resolved*, That the Secretary of the Senate be, and he is hereby, authorized to administer the oath of office to the said Joseph R. Biden Jr., and that the said oath, when administered as herein authorized, shall be accepted and received by the Senate as the oath of office of the said Joseph R. Biden Jr.

## ORDER OF BUSINESS

Mr. MANSFIELD. Mr. President, to repeat once again, in accordance with the usual practice, the Senate concurring, no morning business will be transacted today. At the next meeting of the Senate, which will be tomorrow, the Senate will proceed to transact its business as usual, since the President will not be sending his state of the Union message to Congress until after the inauguration.

Mr. HART. Mr. President, will the Senator yield?

Mr. MANSFIELD. Mr. President, I yield.

Mr. HART. Mr. President, it has been at this point, in, I believe the last eight Congresses, that reservations have been voiced of an effort to be made to reserve the right to modify rule XXII.

For the benefit of the Senate leadership and my colleagues' information, I rise to announce a renewed effort to achieve reform of rule XXII. Once again, I am proud to join the senior Senator from New York (Mr. JAVITS), who has tilled this field with patient persistence for many years.

We both remain convinced that a procedure permitting a majority of Senators to act on a measure after reasonable debate would well serve this body, and the American people. We remain committed to reform of rule XXII.

Nonetheless, we realize that several Senators who had supported changing rule XXII have now expressed second thoughts about the wisdom of that effort. Some Members have pointed out that the classic filibusters often exhausted months of the Senate calendar with extensive repetition and resort to wholly extraneous matters. They ask whether recent events suggest a greater threat from the other end of the legislative spectrum: the danger of momentous legislation being rammed through the Senate without barely adequate debate—in some cases even though there has been scant if any committee review for the benefit of the full Senate.

Others with new reservations about easing the cloture test may feel that its reform is still a desirable goal at some point, but that the accelerating imbalance of powers between the executive and legislative branches of the past decade makes it unwise to change rule XXII until that imbalance is corrected.

We are aware of these concerns and their genesis. We feel it may prove useful to give them a thorough airing in the Committee on Rules and Administration, which at this time will be considering other Senate reforms, before we seek to effect reform in this Congress. This year, the Senator from New York and I will offer a proposal designed to meet these concerns, consistent with the ultimate principle of Senate action by majority rule. Briefly, it would provide a substantial period of debate before cloture could be invoked by less than the presently requested two-thirds margin. At that point, the requirement would be eased to a three-fifths requirement, and after an additional period of debate, cloture could be obtained by majority vote. As my colleagues know this is not a brand-new concept. Similar proposals for a phased reduction in the cloture test have been made in the past by some of this body's most thoughtful Members. We feel the merits of such an approach are particularly apt now in light of the Congress I have mentioned.

We shall introduce our proposal next week, at which time we shall urge the continued desirability of changing rule XXII. But while some previous supporters of this reform wish to review the bidding, so to speak, we are prepared to ask for its orderly referral to the Rules Committee for hearings and a report, rather than presenting it for direct floor action as part of the organizational business for this new session.

In addition, it is our hope that the committee can hold hearings on rule XXII in the context of other proposed Senate reforms, so that all of us will have a clearer idea of their interrelation.

For the present, then, I wish to inform our colleagues of our intentions to offer this proposal, of our decision not to raise it for consideration at this time, and of our continued conviction and determination to attempt reform of rule XXII.

The Senator from New York and I continue to believe that modification of that rule is in the best interests of the Senate and the country.

Mr. JAVITS. Mr. President, I thank my colleague, and pay tribute to his own perseverance in this very critical matter, which substitutes for the Constitution a requirement that two-thirds of the Senate constitutes a majority before legislation can be passed.

Mr. President, I think we owe an explanation to the Senate and the country as to why we take this action. On two separate occasions, this issue has been raised in a very important way, and has had extended debate, including debate before the Vice President now presiding over the Senate. We have maintained the constitutional point that as of right, under the Constitution, we have the right to seek an amendment to the rules at the beginning of the session by a simple majority of the Senate. The Senate has not sustained that view. Indeed, on two occasions the Senate has acted the other way.

Now, succeeding generations to ours have an absolute right to persevere in that constitutional proposition, and they may have a Senate which will sustain them. The Senator from Michigan (Mr. HART) and I feel that that is a barren field right now. Therefore, we are seeking to go the legislative route for the purpose of changing rule XXII within the rules of the Senate by contending for the issue on the basis of its merits, recognizing that we face a reality, not a theory, and that we have a better chance pursuing it in a statutory way.

Mr. President, we believe that we would be helping by thorough and early hearings. It is my understanding that the other Members may feel that the matter should go to the calendar right away. The opportunity will, of course, be afforded for that procedure, and Senator HART and I certainly would not do anything to stop it, even if we could. But we had thought, in our original idea, and we still have that idea, that reference to a committee which could give thorough consideration to the rule in the light of the history and what we face today would be the most conducive to a constructive change, considering the realities which I have described.

So, Mr. President, I shall join with the distinguished Senator from Michigan in submitting such a resolution at the earliest possible time. I might say to the Senate that we are thinking in terms of a three-fifths cloture after 2 weeks of debate and a constitutional majority at any time after 1 month of debate. This is subject to change, but it is some indication to the Senate of our thinking.

Mr. GRIFFIN. Mr. President, with deference to my colleague, I want to indicate that I have been among those who have consistently voted for reform of rule XXII to allow debate to be brought to an end with a three-fifths vote instead of a two-thirds vote. I believe the Senate should consider this question at the outset of the session. Without regard to the constitutional issue, I think the rules of the Senate ought to be changed, and because I believe that, I wonder if my senior colleague from Michigan can indicate, when does he expect the Senator from New York to introduce such a resolution?

I shall be inclined to have that go to the calendar rather than the committee, because I think that the merits and arguments on this subject are well known. It would seem to me that it should go to the calendar or be brought before the Senate as rapidly as possible this session. Perhaps the Senator from Michigan can give me some indication.

Mr. HART. Mr. President, as the Senator from New York indicated, we anticipate producing a resolution within a matter of a very few days, but, having been advised by the Senator from Michigan of his own tentative feelings at least, I am sure the Senator from New York and I will make certain prior to the day of production to advise the Senator of our intention, in order to permit him, if he should feel then as he does now, to direct the resolution accordingly.

Mr. GRIFFIN. I appreciate the statement of the Senator. Of course, no other Senator is precluded from submitting a resolution and asking for its immediate consideration, in which event it could be put on the calendar.

Mr. JAVITS. Nor, if the Senator will yield, is the Senator prohibited or barred from doing the same with our resolution.

As a matter of fact, I hope we can operate with one resolution. If the Senator wishes to refer it to the calendar, he certainly can effectuate that.

### SENATE RESOLUTION 9—SUBMISSION OF A RESOLUTION TO ESTABLISH A SPECIAL COMMITTEE ON THE TERMINATION OF THE NATIONAL EMERGENCY

(Referred to the Committee on Foreign Relations.)

Mr. CHURCH (for himself and Mr. Mathias) submitted the following resolution:

S. Res. 9

Whereas the existence of the state of national emergency proclaimed by the President on December 16, 1950, is directly related to the conduct of United States foreign policy and our national security: Now, therefore, be it

*Resolved,* That (a) there is established a special committee of the Senate to be known as the Special Committee on the Termination of the National Emergency (hereinafter referred to as the "special committee").

(b) The special committee shall be composed of eight Members of the Senate equally divided between the majority and minority parties to be appointed by the President of the Senate, four of whom shall be members of the Committee on Foreign Relations.

(c) The special committee shall select two co-chairmen from among its members, one from the majority party and one from the minority party. A majority of the members of the special committee shall constitute a quorum thereof for the transaction of business, except that the special committee may fix a lesser number as a quorum for the purpose of taking testimony. Vacancies in the membership of the special committee shall not affect the authority of the remaining members to execute the functions of the special committee.

Sec. 2. It shall be the function of the special committee to conduct a study and investigation with respect to the matter of terminating the national emergency proclaimed by the President of the United States on December 16, 1950, and announced in Presidential Proclamation Numbered 2914, dated the same date. In carrying out such study and investigation the special committee shall:

(1) consult and confer with the President and his advisers;

(2) consider the problems which may arise as the result of terminating such national emergency; and

(3) consider what administrative or legislative actions might be necessary or desirable as the result of terminating such national emergency, including consideration of the desirability and consequences of terminating special legislative powers that were conferred on the President and other officers, boards, and commissions as the result of the President proclaiming a national emergency.

Sec. 3. (a) For the purposes of this resolution, the special committee is authorized in its discretion (1) to make expenditures from the contingent fund of the Senate, (2) to employ personnel, (3) to hold hearings, (4) to sit and act at any time or place during the sessions, recesses, and adjourned periods of the Senate, (5) to require, by subpena or otherwise the attendance of witnesses and the production of correspondence, books, papers, and documents, (6) to take depositions and other testimony, (7) to procure the service of individual consultants or organizations thereof, in accordance with the provisions of section 202(i) of the Legislative Reorganization Act of 1946, as amended, and (8) with the prior consent of the Government department or agency concerned and the Committee on Rules and Administration, to use on a reimbursable basis the services of personnel of any such department or agency.

(b) The co-chairmen of the special committee shall preside over meetings of the special committee, except that (1) in the absence of one of the co-chairmen, the other co-chairman may preside, and (2) in the absence of both co-chairmen, any other member of the special committee designated by both co-chairmen may preside.

(c) Either co-chairman of the special committee or any member thereof may administer oaths to witnesses.

(d) Subpenas authorized by the special committee may be issued over the signature of either co-chairman, or any other member designated by the co-chairman, and may be served by any person designated by the co-chairman or member signing the subpena.

Sec. 4. For the period from January 3, 1973, through February 28, 1974, the expenses of the special committee under this resolution shall not exceed $175,000, of which amount not to exceed $25,000 shall be available for the procurement of the services of individual consultants, or organizations thereof, as authorized by section 202(i) of the Legislative Reorganization Act of 1946, as amended.

Sec. 5. The special committee shall make a final report of its findings, with respect to such period together with such recommendations for legislation as it deems advisable, to the Senate at the earliest practicable date, but not later than Febuary 28, 1974. The special committee may also submit to the Senate such interim reports as it considers appropriate. Upon submission of its final report, the special committee shall cease to exist.

Sec. 6. Expenses of the special committee under this resolution shall be paid from the contingent fund of the Senate upon vouchers approved by the two co-chairmen of the special committee.

### MESSAGE FROM THE HOUSE OF REPRESENTATIVES RECEIVED DURING ADJOURNMENT

Under authority of the order of the Senate of October 18, 1972, the Secretary of the Senate, on October 18, 1972, received the following message from the House of Representatives:

That, pursuant to the provisions of section 1 of Public Law 84–689, the Speaker had appointed Mr. Findley as a member of the U.S. group of the North Atlantic Assembly, vice Mr. Arends, excused.

That the House had passed, without amendment, the bill (S. 3822) authorizing the city of Clinton Bridge Commission to convey its bridge structures and other assets to the State of Iowa and to provide for the completion of a partially constructed bridge across the Mississippi River at or near Clinton, Iowa, by the State Highway Commission of the State of Iowa.

That the House had receded from its disagreement to the amendment of the Senate numbered 1 to the amendment of the House to the bill (S. 2280) to amend sections 101 and 902 of the Federal Aviation Act of 1958, as amended to implement the Convention for the Suppression of Unlawful Seizure of Aircraft and to amend title XI of such act to authorize the President to suspend air service to any foreign nation which he determines is encouraging aircraft hijacking by acting in a manner inconsistent with the Convention for the Suppression of Unlawful Seizure of Aircraft and to authorize the Secretary of Transportation to revoke the operating authority of foreign air carriers under certain circumstances, and concurred therein; and that the House disagreed to the amendment to the Senate numbered 2 to the amendment of the House to the bill.

### STANDING ORDER FOR RECOGNITION OF THE MAJORITY AND MINORITY LEADERS EACH DAY

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that, during the remainder of this session, in accordance with the procedures followed in the 92d Congress, on each day, immediately following the prayer, the majority and minority leaders be recognized for not to exceed 3 minutes.

The PRESIDENT pro tempore. Without objection, it is so ordered.

### TRANSACTION OF ROUTINE MORNING BUSINESS TOMORROW

Mr. ROBERT C. BYRD. I ask unanimous consent that tomorrow, following the recognition of the two leaders under the standing order, there be a period for the transaction of routine morning business for not to exceed 2 hours, with statements therein limited to 15 minutes.

The PRESIDENT pro tempore. Without objection, it is so ordered.

### ORDER FOR ADJOURNMENT FROM TOMORROW UNTIL SATURDAY, JANUARY 6, 1973

Mr. ROBERT C. BYRD. I ask unanimous consent that when the Senate completes its business tomorrow, it stand in adjournment until 12 o'clock meridian on Saturday next.

The PRESIDENT pro tempore. Without objection, it is so ordered.

## QUORUM CALL

Mr. ROBERT C. BYRD. Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDENT pro tempore. Without objection, it is so ordered.

## REPORT OF JOINT COMMITTEE ON NOTIFICATION TO THE PRESIDENT

Mr. MANSFIELD. Mr. President, the distinguished Republican leader, the Senator from Pennsylvania (Mr. SCOTT), and I report, from the committee appointed to join a similar committee from the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and is ready to proceed to business, that the President has notified us that he proposes to report to the Congress on the state of the Union at an appropriate time.

Mr. SCOTT of Pennsylvania. Mr. President, if the distinguished majority leader will yield, I merely join in the report and express the hope that the President's nominations to which reference was made in the telephone conversation can be acted upon as soon as we have a committee structure and, hopefully, before Inauguration Day, in order that these appointees may be prepared and enabled to serve.

## ORDER FOR RECOGNITION OF SENATORS JAVITS AND HARRY F. BYRD, JR., TOMORROW

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that, on tomorrow, immediately following the recognition of the two leaders under the standing order, the distinguished Senator from New York (Mr. JAVITS) be recognized for not to exceed 15 minutes; and that he then be followed by the distinguished Senator from Virginia (Mr. HARRY F. BYRD, JR.) for not to exceed 15 minutes; and that then, at the conclusion of his remarks, the period for the transaction of routine morning business ensue.

The PRESIDENT pro tempore. Without objection, it is so ordered.

## ADJOURNMENT

Mr. ROBERT C. BYRD. Mr. President, if there be no further business to come before the Senate, I move, in accordance with the previous order, that the Senate stand in adjournment until 12 noon tomorrow.

The motion was agreed to, and, at 1:09 p.m., the Senate adjourned until tomorrow, Thursday, January 4, 1973, at 12 o'clock meridian.

---

# HOUSE OF REPRESENTATIVES—*Wednesday, January 3, 1973*

This being the day fixed by the 20th amendment of the Constitution for the annual meeting of the Congress of the United States, the Members-elect of the House of Representatives of the 93d Congress met in their Hall, and at 12 o'clock noon were called to order by the Clerk of the House of Representatives, Hon. W. Pat Jennings.

The Chaplain, Rev. Edward G. Latch, D.D., prefaced his prayer with these words of Scripture:

*Be strong and of good courage; be not afraid, neither be thou dismayed; for the Lord thy God is with thee whithersoever thou goest.*—Joshua 1: 9.

Eternal God and Father of us all, make us aware of Thy presence as we prepare ourselves for a new year together in the service of our beloved country. Bless these Representatives of our people with Thy most gracious favor and so move within their hearts that they may look to Thee for guidance and from Thee receive wisdom to walk in Thy ways, strength to stand steadfastly for the common good, and confidence to labor courageously for peace, justice, and freedom in our world. Support them all the day long as they face the responsibilities entrusted to them.

Before Thee we remember with affection and with sorrow HALE BOGGS, Frank Bow, NICK BEGICH, GEORGE COLLINS, and Harry S Truman. May these beloved colleagues and our former President find favor in Thy sight and receive the reward of work well done for our Republic. Comfort their families with the strength of Thy spirit.

Now let us unite in praying together:

*Our Father, who art in heaven, hallowed be Thy name. Thy kingdom come. Thy will be done in earth as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation, but deliver us from evil. For Thine is the kingdom, and the power, and the glory, forever. Amen.*

The CLERK. Representatives-elect, this is the day fixed by the Constitution for the meeting of the 93d Congress, and as the law directs, the Clerk of the House has prepared the official roll of Representatives-elect. Certificates of election covering the 435 seats in the 93d Congress have been received by the Clerk of the House of Representatives of the 92d Congress, and the names of those persons whose credentials show that they were regularly elected as Representatives in accordance with the laws of their respective States or of the United States will be called. As the roll is called, following the alphabetical order of States, beginning with the State of Alabama, Representatives-elect will please answer to their names to determine whether a quorum is present.

The reading clerk will call the roll.

The Clerk called the roll by States and the following Representatives-elect answered to their names:

A quorum is present.

---

## STATEMENT REGARDING CERTAIN CREDENTIALS

The Clerk. The Clerk will state that credentials regular in form have been received showing the election of the Honorable Walter E. Fauntroy as Delegate from the District of Columbia, the Honorable Antonio Borja Won Pat as Delegate from the territory of Guam, and of the Honorable Ron de Lugo as Delegate from the territory of the Virgin Islands.

The Clerk will also state that credentials regular in form have been received showing the election of the Honorable Jamie Benitez, as Resident Commissioner from the Commonwealth of Puerto Rico, for a term of 4 years, beginning January 3, 1973.

Since the last regular election of Representatives to the 93d Congress one change has occurred as a result of which a vacancy now exists in the State of Illinois, occasioned by the death of the late Honorable George W. Collins, of Illinois.

On December 20, 1972, the Speaker directed a letter to the Clerk of the House which the Clerk will read.

Washington, D.C.,
*December 20, 1972.*

Hon. W. Pat Jennings,
*Clerk, House of Representatives,*
*Washington, D.C.*

Dear Mr. Jennings: When the 93rd Congress convenes on January 3, 1973, the House will be confronted with a situation which is unprecedented in our history. I refer, of course, to the probability that the Representatives-elect from the Second Congressional District of Louisiana and from the at-large seat in Alaska will not appear to take the oath of office at noon on that day.

While it is common knowledge that Representatives-elect Hale Boggs and Nick Begich, together with Russell L. Brown and Don Jonz of the State of Alaska, departed by plane from Anchorage, Alaska, on October 16, 1972 on a flight bound for Juneau, Alaska, and have been missing since that date, any action which the House might take to declare their seats vacant, or otherwise pertaining to their status as Representatives-elect, should, I believe, be based upon the most reliable and official documentary evidence available as of January 3, 1973.

I therefore request that you obtain, for transmittal to the House when it convenes on January 3, 1973, certified copies of any judicial determination and other relevant information then available with respect to the status of the persons in question. Such documentary evidence will then enable the House to more properly discharge its constitutional responsibility in this matter.

Sincerely,

Carl Albert.

The Clerk. Pursuant to the Speaker's instructions the Clerk has forwarded to the Speaker a certified copy of the certificate of presumptive death of the Honorable Nick Begich, of Alaska.

Also contained in the certified information which the Clerk has forwarded to the Speaker is documentary evidence that the Honorable Hale Boggs, a Representative-elect from the State of Louisiana, was a passenger on a plane which disappeared on a flight from Anchorage, Alaska, to Juneau, Alaska, on October 16, 1972.

---

## ELECTION OF SPEAKER

The Clerk. The next order of business is the election of a Speaker of the House of Representatives.

Nominations are now in order.

The Clerk recognizes the gentleman from Texas (Mr. Teague).

Mr. TEAGUE of Texas. Mr. Clerk, as chairman of the Democratic caucus, I am directed by the unanimous vote of that caucus to present for election to the office of the Speaker of the House of Representatives of the 93d Congress the name of the Honorable Carl Albert, a Representative-elect from the State of Oklahoma.

The Clerk. The Clerk recognizes the gentleman from Illinois (Mr. Anderson).

Mr. ANDERSON of Illinois. Mr. Clerk, as chairman of the Republican Conference and by authority, by direction, and by unanimous vote of that conference, I nominate for Speaker of the House of Representatives the Honorable Gerald R. Ford, a Representative-elect from the State of Michigan.

The Clerk. The Honorable Carl Albert, a Representative-elect from the

State of Oklahoma, and the Honorable GERALD R. FORD, a Representative-elect from the State of Michigan, have been placed in nomination.

Are there further nominations?

There being no further nominations, the Clerk will appoint the gentleman from Ohio, Mr. HAYS, the gentleman from Ohio, Mr. DEVINE, the gentlewoman from Missouri, Mrs. SULLIVAN, and the gentlewoman from Massachusetts, Mrs. HECKLER, to act as tellers.

The tellers will please take their places at the desk in front of the Speaker's rostrum.

The roll will now be called, and those responding will indicate by surname the nominee of their choice.

The reading clerk will call the roll.

The tellers having taken their places, the House proceeded to vote for the Speaker.

The following is the result of the vote:

[Roll No. 2]

The CLERK. The tellers agree in their tally. The total number of votes cast is 424, of which the Honorable CARL ALBERT has received 236 and the Honorable GERALD R. FORD, 188. Therefore, the Honorable CARL ALBERT, a Representative-elect from the State of Oklahoma having received a majority of all the votes cast, is duly elected Speaker of the House of Representatives of the 93d Congress.

The gentleman from Michigan, Mr. GERALD R. FORD, the gentleman from Massachusetts, Mr. O'NEILL, the gentleman from Illinois, Mr. ARENDS, the gentleman from Texas, Mr. TEAGUE, the gentleman from Oklahoma, Mr. STEED, will please escort the Speaker-elect to the Chair.

The Doorkeeper announced the Speaker-elect of the House of Representatives of the 93d Congress, who was escorted to the Chair by the committee of escort.

Mr. GERALD R. FORD. Mr. Speaker and colleagues of the 93d Congress, it is a great honor to stand before you as a sort of surrogate for the Speaker of the House.

Of course, I am a little bit disappointed about losing this contest for the speakership, but after five defeats you learn to grit your teeth and smile.

First of all, I want to wish you all a Happy New Year before somebody gets up and tells you something different.

I also want to express my thanks to those who voted for me over on this side of the aisle. I understand it was unanimous and I hope we can have that same kind of minority solidarity for the next 2 years.

Finally, I would like to congratulate our distinguished Speaker and to assure him that I will support him—one thousand percent.

As I look over this historic Chamber I see many old friends and familiar faces—but also many new ones. Fifteen percent of you have just cast your first vote as Members of the House of Representatives of the U.S. Congress.

I wish to that group the fondest welcome and to that group may I say a special word or two.

When I first came to the Congress 24 years ago, I was under the handicap of having defeated in the Republican primary a very, very senior member of the Michigan delegation who naturally had many good friends in the House on both sides of the aisle.

The day I was sworn in I happened to sit down beside one of the most senior Republican Members from Michigan, introduced myself, and started a conversation I thought in a friendly spirit. That senior Member turned to me and asked this question: "Young man, do you know the definition of a Congressman?"

I naturally said, "No." His response was, "A Congressman is the shortest distance between 2 years."

You will find, I hope, that we are a much friendlier group today. For one thing, a bloc of 68 votes, Mr. Speaker, 15 percent of the House, could be decisive if all you new Members would stick together. Of course you will not. You will vote according to your best judgment and the best interests of the country and of your constituents, which is how it ought to be.

May I urge you to counsel with your colleagues in one important respect, and that is the consideration we all owe to the institution of the House itself. The longer you work here the better you will understand what I mean.

I am sure that if my very dear friend, HALE BOGGS, were here, he would say some of the things that I am saying far more eloquently than I. And NICK BEGICH, although he had served only one term, would have agreed as would have GEORGE COLLINS, another able and fine colleague. All of us on both sides of the aisle will miss HALE, NICK and GEORGE very, very much.

This is truly the People's House, as

Thomas Jefferson once said. It comes as close to being a continuous sampling of public opinion as any part of our Government. Its powers are very great. Its traditions are very strong and deeply rooted in the lessons of history. You have been entrusted by the people who elected you—by those who voted for you and by those who voted against you or did not vote at all—to represent them in shaping laws and making decisions that profoundly affect their lives and the future of their children. This is a solemn responsibility and a very, very high privilege.

The institutions of government are all under fire today, and among them the House of Representatives. This is not unique to our times. Congress has always been the target of humorists like Mark Twain and Will Rogers, and presidents from George Washington forward have not been above blaming most of the country's troubles on the legislative branch.

But I think it is fair to say that never before have we been under closer scrutiny by the public than today, with all the advances in communications and instant analysis, and with the liberalization of our own rules and procedures. So I urge you all, and particularly the new Members, to bear in mind that you represent the House itself in all that you do. I for one pray that we shall represent the House in the 93d Congress with honor and with pride.

One Member, above all, represents the House as an institution more than the rest of us. The Speaker has been called the second most powerful official of our Government, and the speakership is an office of great dignity and power demanding great diligence and ability. Only 49 Americans have occupied this Speaker's chair.

We have just elected one of my oldest and dearest friends to this high responsibility for the second time. He has shown himself to be a Speaker of scrupulous honesty and fairness, a stanch champion of the rights and privileges of all Members and of the great traditions of this body. I am deeply honored to present to my colleagues of the 93d Congress a fine friend, a dedicated American, and a distinguished son of Oklahoma, the Speaker of the House of Representatives, the Honorable Carl Albert.

Mr. ALBERT. My dear colleague and dear personal friend, Gerald Ford, and my colleagues of the 93d Congress, I am most grateful for the very generous manner in which the distinguished minority leader has introduced me. This is my 14th term in the Congress. Although it may be a confession of weakness to have a little seniority around here, it is my 14th term, and that is the best introductory speech I have ever had. In the first place Gerry Ford is a great speaker, and in the second place I do not know of any minority leader who has ever had as much practice introducing Democratic Speakers since I have been here.

Once again, my colleagues, I must, of course, thank each and everyone of you from the bottom of my heart for bestowing upon me one of the highest offices in this or any land. I accept this, mindful that the office of Speaker is a House office, not a party office alone. The Speaker is elected by all the Members of this great body, although he does not get all the votes, and I promise you that I will continue to serve all the Members of this House to the best of my ability. I shall undertake to do it with openness and with fairness regardless of party affiliation.

Under our American system the Speaker is more than a presiding officer. He is the elected leader of his party in the House. You expect him therefore when the occasion arises to speak for his party and for his party's programs, but I hope it can be said by all of my colleagues that Carl Albert is an American and is a Member of the House of Representatives and is a Democrat in that order.

If I might interject a very personal note at this point, may I observe that for me this moment of high honor is dimmed by the absence of a friend and colleague who served with me as whip and then as majority leader. We served together, Hale Boggs and I, in the leadership of the House of Representatives for 10 years. To take this office without Hale Boggs is a sad and lonely occasion for me. And, of course, I miss the other departed colleagues who are not with us today. I will miss Hale's counsel, I will miss his support, I will miss his friendship, but at this time of shared loss I draw strength and assurance from my colleagues on both sides who when the occasion demands always lend the Speaker their support.

In particular, I know that my old friend, the distinguished minority leader, Gerald Ford, will stand with me and work with me to help make the House a forum for effective national leadership, as he has indicated in his own remarks, and at the same time a responsible instrument of the people's will.

Mr. Ford and I have differed in the past; no doubt we will differ from time to time in the future. But, we have never differed on the conviction that the House of Representatives must always safeguard its constitutional role as a strong and influential branch of our National Government; in my view, the most vital branch springing from and nourished by our people.

To that end, I give you my pledge that I will work harder for that purpose in this session than I have ever worked in my life.

I am also pleased to note that my Democratic colleagues have selected a successor to Hale Boggs who is destined to become one of the great leaders of the House of Representatives.

Tip O'Neill is a big man with a heart and a mind and a sense of compassion equal to his size. He is a man of immense dedication and intense loyalty.

I am proud to have him serving with me as we begin another Congress, and I am particularly proud that he will serve as my right arm.

We are fortunate to have such men as these, Jerry Ford and Tip O'Neill, as our leaders, for the times demand much of us. Our responsibility grows with each passing year, and the years become shorter in the process. Each session our workload becomes heavier. Each session more and more legislation is brought to the floor.

At the end of the session some say that we have done too much; others say we have done too little. It is very strange that never do we hear anyone say that we have done just enough. Where does the truth lie between these points of view?

The answer to that, of course, depends upon our vision of America. Those who believe that America is as good as can be or needs to be are naturally going to be against an active Congress. Those who believe our society is perfect are bound to oppose any attempt to improve upon it.

Those who believe that the American promise of equality and equal opportunity are realities now for all of our citizens will resist our efforts to put all Americans on an equal footing.

But I personally cannot accept this view of our Nation. This is a Nation based upon equality and freedom, dedicated to human rights and human peace, and these ends we shall endeavor to accomplish in the current session of the Congress.

I do not believe that America is a finished product, a Utopia, a good stopping place, an ideal that has already been perfected.

I do not believe we are as good as we can be, or as free as we can be, or as equal as we can be, or as just as we can be.

I believe that the Bill of Rights is more than just a static set of principles. I believe it is a promise constantly renewed and expanded by each succeeding generation to meet the changing needs of time.

Consider these facts.

When Frederick Muhlenberg became our first Speaker in 1789 the Bill of Rights did not exist. Today it is an absolutely inseparable part of the very fabric of American Government.

When Henry Clay was elected Speaker in 1811 American children did not have the "right" to an education. Today they do.

When William Pennington was elected Speaker in 1859 black Americans did not have the "right" to citizenship. Today they do.

When Champ Clark was elected Speaker in 1911 American women did not have the "right" to vote. Today they do.

When Nicholas Longworth was elected Speaker in 1925 Americans did not have the "right" to Government protection in their efforts to organize and operate as unions. Today they do.

When John Garner was elected Speaker in 1931 older Americans did not have a "right" to a guaranteed income and medical care in their years of retirement. Today they do.

When Sam Rayburn was elected Speaker in 1940 our veterans did not have the "right" to an education. Today they do.

When John McCormack was elected Speaker in 1962 all Americans did not have the "right" to eat where they pleased. Today they do.

When I was elected Speaker just 2 years ago 18-year-old Americans did not have the "right" to vote. Today they do.

My colleagues, the work of America is never finished. Today as I prepare to take the oath of Speaker for the second time, Americans are talking about new "rights" which, if we do our job, will become, as other "rights," permanent parts of the American tradition.

What are some of those "rights"?

The right to breathe air that is clean, to drink water that is pure.

The right to a job for everyone who wants to work.

The right of every consumer to be protected in the marketplace.

The right of every woman to be treated as equally as every man.

The right to adequate health care regardless of age or ability to pay.

The right of every citizen to be treated as an individual no matter how large or complex our society becomes.

This expanding Bill of Rights will demand our attention in the months ahead, for a right, no matter how widely recognized it is, does not automatically become a reality.

That requires action and legislation and commitment, but that is what America and the American Congress are all about. My colleagues, I see America as a nation constantly in motion, striving, growing, building, dreaming, playing, changing, planning, reforming. I see an America that is not an end in itself, but a great and noble experiment for the betterment of all mankind.

I see Congress as a part of that experiment, not the roadblock to change, but an instrument of orderly and thoughtful progress. I see each of us, 435 elected Members of this body, carrying on our tasks and adding to the treasured sweep of American history.

I am now ready to take the oath of office.

I now ask the dean of the House of Representatives, Hon. WRIGHT PATMAN, of Texas, to administer the oath of office.

Mr. PATMAN then administered the oath of office to Mr. ALBERT, of Oklahoma.

## SWEARING IN OF MEMBERS

The **SPEAKER**. According to the precedent, the Chair will swear in all Members of the House at this time.

If the Members will rise, the Chair will now administer the oath of office.

The Members-elect and Delegates-elect and the Resident Commissioner-elect rose, and the Speaker administered the oath of office to them.

The **SPEAKER**. The gentlemen and gentlewomen are now Members of Congress.

## COMMUNICATION FROM THE CLERK OF THE HOUSE

The **SPEAKER** laid before the House the following communication from the Clerk of the House of Representatives:

WASHINGTON, D.C.,
*January 2, 1973.*

Hon. CARL ALBERT,
*The Speaker, U.S. House of Representatives.*

DEAR MR. SPEAKER: This is in further reply to your letter of December 20, 1972, wherein you requested transmittal to the House of Representatives when it convenes on January 3, 1973, certified copies of any "judicial determinations and any other relevant information available" with respect to the status of Representative-elect Nick Begich from the at-Large seat of Alaska and Representative-elect Hale Boggs from the Second Congressional District of Louisiana.

Attached herewith is a certified copy of the Certificate of Presumptive Death, the Presumptive Death Jury Verdict, and Order signed by Alaska District Court Judge Dorothy D. Tyner on December 29, 1972, for the Honorable Nick Begich, at-Large Representative for Alaska, who was one of three passengers in an airplane that departed from Anchorage on a flight bound for Juneau, Alaska on October 16, 1972, and disappeared, together with Judge Tyner's covering letter of December 29, 1972, that was received this date. I have also received this date from the Alaska District Court a certified copy of the transcript of the Presumptive Death Hearing concerning the airplane's October 16, 1972, disappearance with its pilot and passengers, together with 45 color slides depicting the search areas which were shown to the hearing jury. Your attention is respectfully invited to pages 19, 20, 21, 26, 37, 50, 103 and 106 of the hearing transcript that discuss the presence of the Honorable Hale Boggs as a passenger on the October 16, 1972, Anchorage to Juneau flight that disappeared. Additionally, I received the attached telegram this date from the Honorable William A. Egan, Governor of Alaska, confirming that on December 29, 1972, the day the Order that presumed death of the Honorable Nick Begich was signed by Judge Tyner, Governor Egan declared Alaska's only at-Large House seat vacant. It has been announced that Governor Egan also ordered a special election for March 6, 1973, to fill said vacancy.

Also attached herewith is a Certification executed by the Governor of Louisiana on December 21, 1972, and attested to by the Secretary of the State of Louisiana that contains a certified opinion of the Attorney General of Louisiana that no action has been taken by the Governor and that no action is before the courts of Louisiana that would in any way change the status of the Honorable Hale Boggs or modify the Election Proclamation for the General Election held in Louisiana on November 7, 1972, that was signed and issued by the Governor and countersigned by the Secretary of State under the seal of the State of Louisiana on December 11, 1972, certifying that the Honorable Hale Boggs was elected as Representative for the Second Congressional District of Louisiana and transmitted to the Clerk of the House in the Secretary of State's letter of December 12, 1972. I have this date received the attached telegram from the Secretary of State of Louisiana, advising that the situation in Louisiana has not changed the December 21, 1972, Certification of the Governor of Louisiana. Based on said Louisiana's Congressional Election Proclamation, the Honorable Hale Boggs has been enrolled by the Clerk of the House as the Representative-elect from the Second Congressional District of Louisiana on the roll of Representatives-elect for the Ninety-Third Congress.

In the event the Clerk of the House receives or learns of any additional information prior to the convening of the Ninety-Third Congress, such information will be transmitted to the House of Representatives promptly.

In accordance with your previous oral directions, I have prepared draft resolutions related to this matter and have separately transmitted them to the Parliamentarian of the House of Representatives.

With kindest regards, I am
Sincerely,

W. PAT JENNINGS,
*Clerk, U.S. House of Representatives.*

STATE OF LOUISIANA,
*Baton Rouge.*

*To the U.S. House of Representatives:*

I, Edwin W. Edwards, Governor of Louisiana, do hereby certify to the United States House of Representatives that the Governor of Louisiana has not taken any action nor, according to the certified opinion of William J. Guste, Jr., Attorney General of the State of Louisiana, said certification being attached and made a part hereof, are there any actions before the Courts of Louisiana, nor has any other action been taken that would in any way change the status of the Honorable Hale Boggs or modify the election proclamation for the General Election held in Louisiana on November 7, 1972 that was certified, signed and issued by the Governor and the Secretary of State over the seal of the State of Louisiana on December 11, 1972 for the Second Congressional District of Louisiana, and transmitted to the Clerk of the United States House of Representatives in the Secretary of State's letter of December 12, 1972.

EDWIN EDWARDS,
*Governor of Louisiana.*

## COMMUNICATION FROM THE CLERK OF THE HOUSE

The **SPEAKER** laid before the House the following communication from the Clerk of the House of Representatives:

WASHINGTON, D.C.,
*January 2, 1973.*

Hon. CARL ALBERT,
*The Speaker,*
*U.S. House of Representatives.*

DEAR MR. SPEAKER: This is an additional response to your letter of December 20, 1972, wherein you requested transmittal to the House of Representatives when it convenes on January 3, 1973, certified copies of any "judicial determinations and any other relevant information available" with respect to the status of Representative-Elect Nick Begich, from the at-large seat of Alaska and Representative-Elect Hale Boggs from the Second Congressional District of Louisiana.

I have this evening received from the Secretary of Defense the attached letter describing the air and sea rescue search efforts conducted by his department for the "aircraft which carried the Honorable Hale Boggs as a passenger . . . missing on a scheduled flight from Anchorage, Alaska to Juneau, Alaska since the sixteenth day of October 1972." The Secretary of Defense "determined that further search would be of no avail [and] . . . informed the Commander-in-Chief Alaska Command to suspend further active search."

In the event the Clerk of the House receives or learns of any additional information prior to the convening of the Ninety-Third Congress, such information will be transmitted to the House of Representatives promptly.

With kindest regards, I am,
Sincerely,

W. PAT JENNINGS,
*Clerk, House of Representatives.*

## CONCERNING THE HONORABLE HALE BOGGS

Mr. **TEAGUE** of Texas. Mr. Speaker, I offer a resolution (H. Res. 1) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 1

Whereas a certificate of election has been received by the Clerk of this House showing the election of Hale Boggs as a Representative in the Ninety-third Congress from the Second Congressional District in the State of Louisiana; and

Whereas Representative-elect Hale Boggs has not appeared to take the oath of office as a Member of this House; and

Whereas the Clerk of the House of Representatives, acting at the direction of the Speaker of this House for the Ninety-second Congress, has ascertained that Representatives Nick Begich and Hale Boggs, Members of the Ninety-second Congress, together with Russell L. Brown and Don E. Jonz of the State of Alaska, all of whom departed together by plane from Anchorage, Alaska, on October 16, 1972, on a flight bound for Juneau, Alaska, have been missing since that date and despite repeated and thorough searches have not been located; and

Whereas the District Court for the State of Alaska, Third Judicial District, after hearing witnesses and studying all available evidence relative to the disappearance of Representative Begich, Russell L. Brown and Don E. Jonz, has determined that these three men cannot be found alive after such a lapse of time and are presumed dead; and

Whereas as a result of the findings of the jury in the aforementioned judicial proceeding the judge of the said court has signed certificates of presumptive death with respect to Representative Begich, Russell L. Brown and Don E. Jonz; and

Whereas no evidence has been presented to this House or is known to it which distinguishes the missing status of Representative-elect Hale Boggs from that of the three men for whom the aforementioned certificates of presumptive death have been issued; Therefore be it

*Resolved,* That based on information provided by its Clerk, this House of Representatives hereby determines that there is a vacancy in the Ninety-third Congress in the representation from the Second Congressional District in the State of Louisiana because of the absence of Representative-elect Hale Boggs.

*Resolved,* That the Speaker of the House is hereby directed to notify the Governor of the State of Louisiana of the existence of this vacancy so that appropriate measures to fill this vacancy may be undertaken by the Governor pursuant to Article I, Section 2 of the Constitution of the United States.

*Resolved,* That the Speaker be authorized to appoint a delegation of Members of this House, together with such Members of the Senate as may be joined, to attend memorial services to be held for the former Majority Leader in New Orleans, Louisiana, on January 4, 1973.

*Resolved,* That the Sergeant at Arms of the House be authorized and directed to take such steps as may be necessary to carry out the provisions of these resolutions and that the necessary expenses in connection therewith, as well as any incurred by the Clerk at the Speaker's request, be paid out of the contingent fund of the House.

*Resolved,* That the Clerk communicate these resolutions to the Senate, to the Governor of the State of Louisiana, and transmit a copy to the family of the missing Representative-elect Hale Boggs.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## APPOINTMENT OF MEMBERS TO ATTEND MEMORIAL MASS FOR THE HONORABLE HALE BOGGS

The SPEAKER. The Chair appoints the following Members of the House to attend the memorial mass and tribute for the honorable Hale Boggs, the majority leader in the 92d Congress and a Representative-elect from the Second Congressional District of Louisiana to the 93d Congress: The Speaker, Mr. Hébert, the majority leader, the minority leader, the majority whip, the minority whip, Mr. Passman, Mr. Waggonner, Mr. Rarick, Mr. Breaux, Mr. Long of Louisiana, Mr. Treen, Mr. Patman, Mr. Mahon, Mr. Poage, Mr. Mills of Arkansas, Mr. Holifield, Mr. Madden, Mr. Morgan;

Mr. Price of Illinois, Mr. Teague of Texas, Mr. Blatnik, Mr. Burleson of Texas, Mr. Gross, Mr. Hays, Mr. Perkins, Mr. Rodino, Mr. Staggers, Mr. Saylor, Mr. Widnall, Mr. Broyhill of Virginia, Mr. Cederberg, Mr. Haley, Mr. Landrum, Mr. Mailliard, Mr. Rhodes, Mrs. Sullivan, Mr. Diggs, Mrs. Griffiths, Mr. Reuss, Mr. Teague of California, Mr. Vanik, Mr. Chamberlain, Mr. Collier, Mr. Ullman;

Mr. Quie, Mr. Burke of Massachusetts, Mr. Devine, Mr. Dulski, Mr. Karth, Mr. Moorhead of Pennsylvania, Mr. Nelsen, Mr. Rostenkowski, Mr. Schneebeli, Mr. Anderson of Illinois, Mr. Ashbrook, Mr. Carey of New York, Mr. Corman, Mr. Harsha, Mr. Ichord, Mr. Mosher, Mr. Fulton, Mr. Gibbons, Mr. Horton, Mr. Hutchinson, Mr. Quillen, Mr. Green of Pennsylvania, Mr. Conable, Mr. Duncan, Mr. Brown of Ohio, Mr. Matsunaga, and Mr. Brotzman.

The Sergeant at Arms has advised the Chair that it may be possible to arrange transportation for a limited number of Members who desire to attend the memorial mass in New Orleans who have not been appointed on the official list of House Members. Interested Members should contact the Sergeant at Arms.

The Chair would like to announce with regard to the arrangements being made for Members of the House to attend the memorial mass for the late Honorable House Majority Leader Hale Boggs to be held tomorrow in New Orleans that buses will be provided for transportation to Andrews Air Force Base, at the Capitol steps, at the House entrance.

Buses will leave in groups starting at 8:30 a.m. Meals will be served in flight both ways. The group is expected to return to Washington, D.C., at approximately 6:45 p.m. to 7:30 p.m.

The official delegation has been named and several aircraft have been made available to transport the group to New Orleans.

Other Members not named in the delegation have requested to join the group. While every effort has been made to accommodate everyone, seating space is limited. It is, therefore, requested that all Members desiring transportation, who have not already done so, notify the Sergeant at Arms at extension 5-2456 as soon as practicable.

Members will be assigned to specific aircraft and the ground transportation has been so coordinated. In the interest of safety, it is essential that the scheduling of departure of the several aircraft be maintained.

## MAJORITY LEADER

Mr. TEAGUE of Texas. Mr. Speaker, as chairman of the Democratic caucus, I have been directed to report to the House that the Democratic Members have selected as majority leader the gentleman from Massachusetts, the honorable Thomas P. O' Neill.

## MINORITY LEADER

Mr. ANDERSON of Illinois. Mr. Speaker, as chairman of the Republican conference, I am directed by that conference to officially notify the House that the gentleman from Michigan, the Honorable Gerald R. Ford, has been selected as the minority leader of the House.

## ELECTION OF CLERK OF THE HOUSE, SERGEANT AT ARMS, DOORKEEPER, POSTMASTER, AND CHAPLAIN

The SPEAKER. The gentleman from Texas (Mr. Teague).

Mr. TEAGUE of Texas. Mr. Speaker, I offer a resolution (H. Res. 2) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

### H. Res. 2

*Resolved,* That W. Pat Jennings, of the Commonwealth of Virginia, be, and he is hereby, chosen Clerk of the House of Representatives;

That Kenneth R. Harding, of the Commonwealth of Virginia, be, and he is hereby, chosen Sergeant at Arms of the House of Representatives;

That William M. Miller, of the State of Mississippi, be, and he is hereby, chosen Doorkeeper of the House of Representatives;

That Robert V. Rota, of the Commonwealth of Pennsylvania, be, and he is hereby, chosen Postmaster of the House of Representatives;

That Reverend Edward G. Latch, D.D., of the District of Columbia, be, and he is hereby, chosen Chaplain of the House of Representatives.

Mr. ANDERSON of Illinois. Mr. Speaker, I shall offer a substitute for the resolution just offered by the gentleman from Texas, but before doing so, request that there be a division of the question on the resolution so that we may have a separate vote on the Office of the Chaplain.

The SPEAKER. The question is on that portion of the resolution providing for the election of the Chaplain.

That portion of the resolution was agreed to.

### SUBSTITUTE AMENDMENT OFFERED BY MR. ANDERSON OF ILLINOIS

Mr. ANDERSON of Illinois. Mr. Speaker, I offer a substitute amendment for the remainder of the resolution.

The Clerk read as follows:

Amendment offered by Mr. Anderson of Illinois as a substitute for House Resolution No. 2:

*Resolved,* That Joe Bartlett, of the State of Ohio, be, and he is hereby, chosen Clerk of the House of Representatives;

That Robert T. Hartman, of the State of Maryland, be, and he is hereby, chosen Sergeant at Arms of the House of Representatives;

That William R. Bonsell, of the Commonwealth of Pennsylvania, be, and he is hereby, chosen Doorkeeper of the House of Representatives;

That Tommy Lee Winebrenner, of the State of Indiana, be, and he is hereby, chosen Postmaster of the House of Representatives.

The SPEAKER. The question is on the substitute amendment offered by the gentleman from Illinois (Mr. Anderson).

The substitute amendment was rejected.

The SPEAKER. The question is on the

resolution offered by the gentleman from Texas (Mr. TEAGUE).

The resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER. Will the officers elected present themselves in the well of the House?

The officers-elect presented themselves at the bar of the House and took the oath of office.

## NOTIFICATION TO SENATE OF ORGANIZATION OF THE HOUSE

Mr. O'NEILL. Mr. Speaker, I offer a resolution (H. Res. 3) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 3

*Resolved*, That a message be sent to the Senate to inform that body that a quorum of the House of Representatives has assembled; that Carl Albert, a Representative from the State of Oklahoma, has been elected Speaker; and W. Pat Jennings, a citizen of the Commonwealth of Virginia, Clerk of the House of Representatives of the Ninety-third Congress.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## COMMITTEE TO NOTIFY THE PRESIDENT OF THE UNITED STATES OF THE ASSEMBLY OF THE CONGRESS

Mr. O'NEILL. Mr. Speaker, I offer a resolution (H. Res. 4) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 4

*Resolved*, That a committee of two Members be appointed by the Speaker on the part of the House of Representatives to join with a committee on the part of the Senate to notify the President of the United States that a quorum of each House has been assembled, and that Congress is ready to receive any communication that he may be pleased to make.

The resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER. The Chair appoints as members on the committee on the part of the House to notify the President of the United States that a quorum of each House has been assembled, and that Congress is ready to receive any communication that he may be pleased to make, the gentleman from Massachusetts (Mr. O'NEILL) and the gentleman from Michigan (Mr. GERALD R. FORD).

## AUTHORIZING THE CLERK TO INFORM THE PRESIDENT OF THE UNITED STATES OF THE ELECTION OF THE SPEAKER AND THE CLERK OF THE HOUSE OF REPRESENTATIVES

Mr. MAHON. Mr. Speaker, I offer a resolution (H. Res. 5) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 5

*Resolved*, That the Clerk be instructed to inform the President of the United States that the House of Representatives has elected Carl Albert, a Representative from the State of Oklahoma, Speaker; and W. Pat Jennings, a citizen of the Commonwealth of Virginia, Clerk of the House of Representatives of the Ninety-third Congress.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## RULES OF THE HOUSE

Mr. MADDEN. Mr. Speaker, by direction of the caucus, I offer a resolution (H. Res. 6) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 6

*Resolved*, That the Rules of the House of Representatives of the Ninety-second Congress, together with all applicable provisions of the Legislative Reorganization Act of 1946, as amended, and the Legislative Reorganization Act of 1970, as amended, be, and they are hereby adopted as the Rules of the House of Representatives of the Ninety-third Congress, with the following amendments as part thereof, to wit:

In Rule XII, clause 2 is amended to read as follows:

"The Delegate from the District of Columbia shall be elected to serve as a member of the Committee on the District of Columbia and each Delegate to the House shall be elected to serve on standing committees of the House in the same manner as Members of the House and shall possess in all committees on which he serves the same powers and privileges as the other Members."

In Rule XVI, insert at the end of clause 4 the following:

"It shall be in order at any time during a day for the Speaker, in his discretion, to entertain a motion that when the House adjourns it stand adjourned to a day and time certain. Such a motion shall be of equal privilege with the motion to adjourn provided for in this clause and shall be determined without debate."

In Rule XXVII, clause 1 is amended to read as follows:

"No rule shall be suspended except by a vote of two-thirds of the Members voting, a quorum being present; nor shall the Speaker entertain a motion to suspend the rules except on the first and third Mondays of each month, and on the Tuesdays immediately following those days, and during the last six days of a session.

Mr. MADDEN. Mr. Speaker, I was about to move the previous question on this resolution, because the caucus on yesterday unanimously agreed on this with a few minor changes, but I have been requested by the minority to yield some time, so I yield 5 minutes to the gentleman from Nebraska (Mr. MARTIN).

Mr. MARTIN of Nebraska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have serious reservations about the third point, the rule which the gentleman has proposed, that is extending to the Tuesday after the first and third Mondays the consideration of bills under suspension. The bills under suspension, of course, are under what we might call closed rules or practically closed rules, because they cannot be amended in the House.

There is a great deal of sentiment and hue and cry about the country to open up to the will of the elected Members of the Congress and the people of the United States these bills to thorough debate and consideration on all legislative measures.

I grant, Mr. Speaker, that there are times when we should have a closed rule, but to increase by 100 percent the amount of time for consideration under suspension of the rules is contrary to the feelings of the people of this country. I am in opposition to this proposed change.

In respect to the legislative situation I would like to make this statement. I understand we cannot offer an amendment to support or oppose any particular change of these three points in the rules.

The important vote will come on the previous question. There will be a request from this side of the aisle for a rollcall vote on the previous question. If the previous question is voted down, then we will have an opportunity to offer amendments.

Mr. ANDERSON of Illinois. Mr. Speaker, will the gentleman yield?

Mr. MARTIN of Nebraska. I yield to the gentleman from Illinois (Mr. ANDERSON).

Mr. ANDERSON of Illinois. Mr. Speaker, I thank the gentleman from Nebraska for yielding to me.

I can assure the Members of this body that I regret very deeply that, on the first occasion I have to take to the well of this Chamber in this first session of the 93d Congress, it is to object to what I think are highly arbitrary and high-handed procedures that are suggested with respect to the rules of this House; the very body that has just been as correctly described as the People's Chamber, in which the people's voice is to be heard. Yet, by this action that is proposed this afternoon, we are going to limit ourselves to less than 30 minutes of debate on a very fundamental question as to how we dispatch the business of this House.

Now, the distinguished chairman of the Committee on Rules knows that I have already written him this week and asked him to consider seriously the immediate reestablishment of a Subcommittee on Legislative Reorganization of the Committee on Rules, on which I am proud to serve.

That is the proper forum before which to take this matter, and after appropriate hearings to decide the manner in which we shall fundamentally change the rules by which we do business in this House.

I could not agree more with the gentleman from Nebraska that to increase by 100 percent this type of parliamentary procedure where, after 40 minutes of debate with no amendments being tolerated, we try to ram through this Chamber important pieces of legislation is not reform at all; it is a travesty upon the cry that has gone forth through the length and breadth of this land that we reform the procedures of this House.

I stand foursquare for reform of the procedures of this House. I would not have written a letter to the distinguished chairman suggesting the immediate reestablishment of a committee on legislative reorganization if I did not subscribe wholeheartedly to the principle of reform.

But, on the initial day of the first session of this new Congress, to propose in this manner without any prior communication that I am aware of whatever with the minority side of the aisle—to propose this kind of a sweeping, far-reaching change in the rules I think is preposterous.

Let me remind some of my liberal friends with whom I voted during the last session of this Congress when a bill to deny freedom of travel in complete violation of all constitutional rights was on the suspension calendar, that we defeated that bill, as I recall, by only one or two votes. It was a bill that never belonged on the suspension calendar in the first place.

I think we ought to give some very serious consideration to what we are doing here this afternoon. I do not like to vote down the previous question, but it is the only parliamentary procedure available to us to protest this unwise and retrogressive change in the rules.

The SPEAKER. The time of the gentleman from Nebraska has expired.

Mr. ANDERSON of Illinois. Mr. Speaker, I ask the gentleman from Nebraska to yield to me for 1 additional minute.

Mr. MADDEN. I yield 1 additional minute to the gentleman from Illinois.

Mr. ANDERSON of Illinois. Mr. Speaker, I repeat, that this is the only possible parliamentary procedure available to us this afternoon who are indignant not only about the fundamental nature of the change which the gentleman seeks to make, but by the arbitrary, high-handed procedure which is sought to be employed in altering the rules of the People's Chamber.

I hope that the Members will join me on the Democratic side of the aisle as well and after some sober reflection reallize that there is time to reform the rules of this House in a proper way and in those areas where change is needed. I understand there is a move afoot in the Democratic caucus to consider over the next 2 weeks what other changes ought to be made in the rules. Let us do that in an orderly way by scheduling hearings before the Committee on Rules.

I am not suggesting that because I want to block change or block reform, but give us a chance after a fair hearing, after mature reflection and consideration, to begin the job, and what a necessary job it is, of reforming this House and its procedures.

Let us not get off on the wrong foot and start this very first day by doing something that in time we will come to repent.

Mr. MADDEN. Mr. Speaker, I yield 10 minutes to the minority leader (Mr. GERALD R. FORD).

Mr. CLEVELAND. Mr. Speaker, will the gentleman yield?

Mr. GERALD R. FORD. I yield to the gentleman from New Hampshire.

Mr. CLEVELAND. As I understand one of the proposed changes in the rules, we would have 2 more days in a month under which suspensions could be called up; is that correct?

Mr. GERALD R. FORD. It is my understanding that in one of the three provisions that would deviate from what we have had for a good many years——

Mr. CLEVELAND. There would be 2 more days?

Mr. GERALD R. FORD. There would be 2 more days a month, the Tuesdays following the first and third Mondays, which would then be open for suspensions.

Mr. CLEVELAND. And by inference, then, we could say there would be more bills brought up on the floor of the House under suspension of the rules?

Mr. GERALD R. FORD. I think that is a fair inference.

Mr. CLEVELAND. I think that not enough attention has been paid as to how bills get called up under a suspension of the rules. As I understand it, this is totally within the discretion of two people in the House, the Speaker and the chairman of the committee. I don't believe a member of a committee, has a right to vote on whether a bill would be considered under suspension of the rules, or taken to the Rules Committee. We have seen bills involving millions of dollars, enormously complex, come up under suspension of the rules. This has been done, as I understand it, by a decision of two people, the chairman of the committee and the Speaker of the House. Is that generally correct?

Mr. GERALD R. FORD. I would amend the gentleman's observation to one extent. The principal discretion rests with the Speaker of the House. As to the person he will recognize, that person does not necessarily have to be the chairman of the committee concerned. But somebody from a committee has to seek recognition, and the Speaker of the House has the discretion to recognize him, or whomever the committee chairman may designate.

Mr. CLEVELAND. And the committee has nothing to say. A member of a committe may suddenly and without any notice find an important bill from his committee coming up on the floor of the House under a suspension of the rules under which no amendment can be offered, with only 40 minutes of debate.

Mr. GERALD R. FORD. That is correct.

Mr. CLEVELAND. I think this is a serious step backward for the House. It is a step backward and a blow to those of us who have been interested in meaningful congressional reform.

I thank the gentleman for yielding.

Mr. GERALD R. FORD. Mr. Speaker, some of the details have been spelled out here in our discussion this afternoon, but let me say that we have three proposed changes in the rules of the House that ought to be discussed, and in my opinion in two instances there ought to be changes.

In the first, rule XII, clause 2, the proposal would make the delegate from the District of Columbia a member of the Committee on the District of Columbia and in addition it would provide that each delegate to the House be elected to serve on standing committees in the same manner as Members of the House, and so forth.

I do not believe there is any objection to that proposed rules change. I would not oppose that proposal under any circumstances.

Now we turn to one that I believe is vitally important. The rules of the House heretofore have said that the House shall meet every day, and there should not be more than a 3-day spread, at 12 o'clock at noon. In the past in order to get that time of meeting changed we had to have unanimous consent. This was a protection against an autocratic, dictatorial majority.

Although on some occasions I must admit I objected to the fact that a single Member would not permit us to come in at 11 o'clock or 10 o'clock, in retrospect I believe it was probably a good safeguard to protect the rights of the minority.

Now the proposal that is before us today says that the time of meeting shall be determined by a majority vote of the Members and that the Speaker can entertain a motion that has very high privilege.

Mr. Speaker, the majority will make the decision. The Speaker can recognize the individual, and the net result is that nobody in the minority, I do not think, is adequately protected—a minority on the side of the Democrats or a minority on the side of the Republicans.

Mr. Speaker, what we propose as a change in the rules—and I think it is fair—is that the Speaker be permitted to recognize a person for a change in the hour of meeting, but instead of a majority determining that issue it would require a two-thirds vote. If a two-thirds vote of this body says that we should meet at 11 o'clock or 10 o'clock, I think that is fair. But a simple majority, in my opinion, puts too much power, too much dictatorial authority in the hands of a mere majority of one.

And so, Mr. Speaker, if the previous question is beaten, we would offer an amendment that would simply change the vote from a majority to a two-thirds vote.

Mr. Speaker, the second point: I really do not understand why we have to double, increase by a hundred percent, the number of days of suspension each month.

As I understood the historical justification for suspension, it was for the purpose of considering relatively unimportant legislation or legislation where there was little or no controversy, and the net result was the rules of the House said that on every first and third Monday we should have suspension, and in addition during the last 6 days after the date of an adjournment has been set. I think that is a good rule.

But now, Mr. Speaker, to double, to increase by a hundred percent, the days on which we can have suspensions, in my judgment, is going too far, because suspensions, as all of us who have been here know, mean that you can take a bill involving billions of dollars, involving literally hundreds of thousands of words, and put it on suspension and you could not amend a dollar and you could not amend a word. And I do not believe that is the way to legislate.

Mr. Speaker, the Members talk about reform in the House proposing that we ought to open up committee hearings, and recommending other things that some of these crusaders are demanding.

If we adopt rule XXVII as it is proposed, that is a step backward from reform; it is retrogression from progress. I do not see how anybody who believes in making the House of Representatives more representative could possibly support this rule change.

Mr. Speaker, I urge that we defeat the previous question, and then we would offer an amendment which would simply strike—and I quote—"and on the Tuesday immediately following those days."

Mr. Speaker, I believe that it would be a step backward to make it more than the 2 days each month we now have.

Mr. DELLENBACK. Mr. Speaker, will the gentleman yield.

Mr. GERALD R. FORD. I yield to the gentleman from Oregon.

Mr. DELLENBACK. Mr. Speaker, I appreciate the gentleman yielding, and I join with him in support of the stand which he has taken. I regret the fact apparently that today on this critically important matter, one of the most significant things this body is going to do, in my opinion, there is going to be inadequate time for debate.

Instead of yielding the customary 30 minutes to the minority side so we could at least rise in support of those points on which our minority leader has so eloquently spoken, we have been informed by the chairman of the committee we are not going to be yielded that time, and for that reason I rise in support of our minority leader in expressing my opinion.

Mr. Speaker, I must stress the fact that in our opinion the step we are about to take is one of the most significant in this body, and what we are going to do on these rules will determine what happens during the rest of this session.

Mr. Speaker, it is not only the points on which Mr. Ford has so eloquently spoken and on which Mr. Martin, the gentleman from Nebraska, has so eloquently spoken, but it is the other factors which are involved in these rules. The gentleman in the well has made mention of the fact that everyone has had editorials written and everyone has spoken on this particular subject, and yet there is no amendment in these rules as proposed today that will bring up committee meetings any more than has been the case in the past. There is no amendment as the rule is before us now that will open up debate on the floor any more than we have it now.

There are other issues; there is the matter of staffing which we devoted some time to in the amendments of 2 years ago. Those are closed issues if we proceed today in this particular manner. There was a material step forward taken on a bipartisan basis 2 years ago. At that time the first congressional reform bill in 25 years was adopted by this House.

The SPEAKER. The time of the gentleman from Michigan has expired.

Mr. MADDEN. Mr. Speaker, I yield 2 additional minutes to the gentleman from Michigan (Mr. Gerald R. Ford).

Mr. GERALD R. FORD. I thank the gentleman from Indiana for yielding, and I yield further to the gentleman from Oregon (Mr. Dellenback).

Mr. DELLENBACK. I thank the gentleman. I will make it short.

I merely wish to say that I regret what was a forward step 2 years ago and a long step in the right direction but which was only a partial step in the direction of a revision of the rules of this House will apparently not be continued and not be able to be continued under the procedure which is before us today.

There was a fine bipartisan effort made 2 years ago in which the Committee on Rules made material contributions. I am personally deeply regretful that it is apparently the decision of the majority and the Committee on Rules that we are going to be stopped dead in the water.

It should be clearly understood where the blame lies. If we are unable to amend the rules further today, it will not be because the fault is on our side but because we will be stopped by the arbitrary decision of the majority.

Mr. GERALD R. FORD. Mr. Speaker, I yield to the gentleman from New York (Mr. Conable).

Mr. CONABLE. I thank the gentleman for yielding.

I would like to ask, as this particular proposal emerges from the Democratic caucus, if the members of the majority party are to be permitted to vote their conscience on this or if there is a unit rule in effect. Has anything been said on that point?

Mr. GERALD R. FORD. Not having been at that meeting, I am not qualified to answer the question. I just do not know.

Mr. CONABLE. It is obvious that we are just spinning our wheels if there is any implication of the unit rule being in effect here. That is what we were faced with at the beginning of the last Congress. It is apparent unless the previous question is voted down at this point we will be relying on the tender mercies of the Committee on Rules hereafter for any further consideration of ways in which the rules of the House can be improved. Is that correct?

Mr. GERALD R. FORD. That is correct.

Mr. du PONT. Mr. Speaker, will the gentleman yield?

Mr. GERALD R. FORD. I yield to the gentleman from Delaware.

Mr. du PONT. I thank the minority leader for yielding to me.

I would simply like to say that the 93d Congress is not yet 3 hours old and we are seeing a gag rule being imposed on even considering this question. Some of us have requested time to speak, but we are not even getting the 30 minutes on this side of the aisle to which we are entitled just to consider the question of amending the rules.

There are many Members on the other side of the aisle who came in, as I did, in the 92d Congress at a time when the whole question of the responsiveness of the Congress was a big issue. Where are those Members today? I do not know.

Mr. MADDEN. Mr. Speaker, may I inquire how much time the minority has used?

The SPEAKER. The minority has used 18 minutes.

Mr. MADDEN. Mr. Speaker, I yield the balance of the time to the gentleman from Nebraska.

The SPEAKER. The gentleman yields 12 minutes?

Mr. MADDEN. Twelve minutes to the gentleman from Nebraska for debate only.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa (Mr. Gross).

Mr. GROSS. Mr. Speaker, I thank the gentleman from Nebraska for yielding to me.

I am still wondering where this outrageous resolution came from. Did it come from some caucus or from the Committee on Rules?

Mr. MADDEN. Will the gentleman yield?

Mr. GROSS. I yield to the gentleman.

Mr. MADDEN. This came from the caucus that was held yesterday by the Democratic side, and it was passed, I think, practically unanimously.

Mr. GROSS. Mr. Speaker, I was here several years ago when the Committee on Rules was packed by the Democrat majority. It was alleged at that time that the packing was for the purpose of clearing legislation through the Committee on Rules. We were told at that time that everything would be lovely and the goose would hang high if additional Democrat Members were added to the Committee on Rules so that legislation could be expedited to the House floor. This would provide a detour around the Committee on Rules in order to bring legislation to the floor and under the most outrageous procedure.

I regret that there are not more of the new Members of the House on the floor this afternoon, for they must understand that now and in the years to come that adoption of this rule will rise to haunt them, because they will be confronted with legislation, as the distinguished minority leader has said, that may involve hundreds of millions, perhaps billions of dollars. To be confronted with that kind of legislation under a suspension of the rules is intolerable and a travesty on the orderly process of enacting legislation.

The SPEAKER. The time of the gentleman from Iowa has expired.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 1 minute to the gentleman from Delaware (Mr. du Pont).

Mr. du PONT. Mr. Speaker, I thank the gentleman for yielding. I would simply like to take up where I left off a moment ago, and I appreciate the distinguished chairman of the Committee on Rules granting us this additional time.

I would like to address myself very briefly again to the merits of this matter. I think it is a serious mistake to consider doubling of the time under suspension of the rules. We had a situation in the last session involving the bringing up of many controversial bills under the suspension of the rules procedure. It was not satisfactory. To double the time under the suspension procedure is in my judgment a distinct mistake.

It also would seem to me that if we are going to take a step like this we should have a full opportunity to consider it, and I do not believe that we can do that when we are confronted with this matter under today's procedure. So, as the minority leader said, I too would suggest that we vote down the previous question so that we will have an opportunity to consider the question at some length, and to consider in depth the particular amendment to the rules doubling the days for suspension of the rules.

The SPEAKER. The time of the gentleman has expired.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota (Mr. FRENZEL).

Mr. FRENZEL. Mr. Speaker, I thank the gentleman for yielding. I would like to say that I too share the extreme disappointment of seeing these rules changes being presented to us at this time, and in this fashion.

Members of the minority have only 30 minutes to question and debate these rules and they have no opportunity to amend them under this "closed rule" procedure.

The rules themselves provide for an expansion of time to handle bills under suspension: This means more bills will be worked on under another "closed rule" procedure with no amendments allowed and debate limited. Under this suspension procedure—or "closed rule" or "gag rule"—the Speaker has absolute authority to bring a bill before the House.

I can only ask—and I expect that my constituents would also want to ask—where are the liberals in the House? Where are their marvelous rules that are going to open up and make this great body be more responsive and more visible to the people of this country?

The answer is that they are certainly not on the Democratic side of the aisle, for here we are being asked to approve an extension of the "gag rule," for greater limitations of debate. The opportunity to get a bill from the Committee on Rules will depend on the decision of one man, who will be able to bring bills to the floor of the House in what may, or may not be, the regular order. This rule change would prevent amendments through the use of additional days for the suspension of the rules, which in itself is most assuredly an extension of the "gag rule."

Also, where are the liberal Members of this House with respect to minority staffing? Are we to continue, through these rules, the rape of the Reorganization Act of 1970? Originally we had thought that we would receive sufficient minority staffing, yet under these rules we will not, not even the one-third of the minority staffing which was supposed to be provided under the Reorganization Act.

Where are the liberals when it comes to opening up the visibility of this body with open meetings? They and their promises are not apparent in these rules, Mr. Speaker.

Where are the liberals who want to make this body in its legislative processes more liberal, and visible, and responsive? Certainly not on that side of the aisle, Mr. Speaker.

Mr. Speaker, I certainly will vote against the previous question. The object of these rules is an extension of the gag rule, and it is certainly a discredit to this House.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. FRELINGHUYSEN).

Mr. FRELINGHUYSEN. Mr. Speaker, the minority leader as well as other Members of the minority have asked some serious questions about the reasons for the proposed changes in the rules.

It seems to me incumbent on the majority to give some serious answers as to why these changes are being proposed.

How do they feel about the advisability of a two-thirds approval for a change in the hour of meeting?

What is the justification for the increased number of days for suspension of the rules?

Are we going to get nothing but silence from the majority? It seems to me, it is high time for the Members of the majority to explain their position, if they have a position that is reasonable. I hope we get some word of wisdom, or otherwise, from the majority before this debate concludes.

Mr. MARTIN of Nebraska. Mr. Speaker, I would like to ask the gentleman from Indiana (Mr. MADDEN) if he would like to take some time now since we still have another speaker.

Mr. MADDEN. Not at this time, no.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 2 minutes to the gentleman from New Hampshire (Mr. CLEVELAND).

(Mr. CLEVELAND asked and was given permission to revise and extend his remarks and include extraneous matter.)

Mr. CLEVELAND. Mr. Speaker, as I previously stated during the dialog with the minority leader, this is clearly a step backward. To increase by 100 percent "suspension" days is not a step forward. It is unfortunate, as some have pointed out, that there are so few Members on the floor of the House while we debate proposed changes in the rules of the House. It is also unfortunate the press gallery is almost empty. There certainly was a good deal of discussion about our rules during the recent campaign.

There is at least one aspect of this suspension matter that I think the people should be aware of.

Late in the last session we received through the whip office a list of bills that were available to come up under suspension of the rules. There were 46 bills. I am going to offer these at this point in the RECORD as it will be interesting for scholars of the legislative process and for the people of the fourth estate who think that our processes need change, to study this list of 46 bills that were dumped on our desks with no advance notice whatsoever. Some of these bills were of significance and importance. H.R. 16832 had a price tag of half a billion dollars.

The list follows:

CONSENT CALENDAR SUSPENSIONS (46 BILLS)

1. H.R. 16742—Restrict Travel to Certain Countries.
2. H.R. 15276—Amend Title 18, U.S. Code.
3. H.R. 16191—Anti-Hijacking Act of 1972.
4. H.R. 15859—Emergency Medical Services.
5. H.R. 16832—Omnibus Rivers and Harbors and Flood Control Bill.
6. H.J. Res. 1301—Extend Certain Housing Programs.
7. H.R. 16732—Small Business Investment Act Amendments.
8. H.R. 12006—Longshoremen's and Harbor Workers Compensation Act.
9. H.R. 16563—Youth Conservation Corps.
10. S.J. Res. 247—Extend Copyright Protection.
11. H.R. 8063—Economic Development of Indian Organizations.
12. H.R. 16444—Golden Gate National Urban Recreation Area.
13. H.R. 6482—Strip Mining Reclamation.
14. S. 3671—Amend Administrative Conference Act.
15. H.R. 8273—Immigration and Nationality Act Amendments (Sec. 301(b)).
16. H.R. 1536—Immigration and Nationality Act Amendments (Sec. 319).
17. S. 1943—Rabbit Meat Inspection.
18. H.R. 7287—Prohibit Futures Trading in Irish Potatoes.
19. H.R. 15352—Apple Marketing Orders.
20. H.R. 16182—Eligibility of ASC County Committee Members.
21. H.R. 15461—U.S.-Mexico Treaty Compliance.
22. H.R. 15462—International Boundary and Water Commission Expenditures.
23. H.R. 15763—To Provide for 2 Additional Members of the National Historical Publications Commission.
24. H.R. 15597—Additional Acquisition, Piscataway Park, Maryland.
25. H.R. 9859—Cumberland Island National Seashore, Georgia.
26. H.R. 8756—Hohokam Pima National Monument, Arizona.
27. H.R. 6067—Mississippi Sioux Indian Judgment.
28. H.R. 11449—Disclaims Interest, Antoine Leroux Grant.
29. H.R. 9294—Convey Title, Devils Lake Sioux Reservation.
30. H.R. 10751—To Establish the Pennsylvania Avenue Bicentennial Development Corporation.
31. H.R. 15716—To Establish Glen Canyon National Recreation Area, Arizona and Utah.
32. H.R. 15735—Ship Transfer to City of New York.
33. H.R. 15280—Increasing Annual Appropriation Authorization for NACOA.
34. H.R. 15627—Oil Pollution Act Amendments of 1972.
35. H.R. 11091—Bows and Arrows.
36. H.R. 16074—Jellyfish Appropriation.
37. H.R. 14384—Commercial Fisheries Research and Development Act.
38. H.R. 14385—Fishermen's Protective Act of 1967.
39. H.R. 15718—Sockeye Salmon Fisheries Act of 1947.
40. H.R. 15379—Canadian Fishing Vessels.
41. S. 1478—Toxic Substances Control Act.
42. H.R. 14740—Aircraft Loan Guarantees.
43. H.R. 15054—Facilitate the Payment of Transportation Charges.
44. H.R. 16675—Comprehensive Alcohol Abuse and Alcoholism Prevention.
45. H.R. 16676—Community Mental Health Centers Act.
46. H.R. 16883—Post-Secondary Education Commission.

I think it is unfortunate, extremely unfortunate, that we are now going to go into a situation where clearly the leadership on the majority side wants to have more suspension days, to give us longer lists of suspension bills that cannot be debated except for 20 minutes on each side of the aisle and that cannot be amended. As I pointed out during my dialogue with the majority leader, there is no control at all by Members of this House as to which bills get on this list and how they get on the list.

So far as my understanding is, a bill will get on the list if the committee chairman convinces the Speaker that

that is where a bill should be. If this is democracy and if this is good legislative process, I would like to have an answer from the other side? In view of all the discussions, about reforming our procedures—this to me is clearly a step backward. To limit debate and prohibit any amendment on important legislation does not meet my standards for congressional reform.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield to the gentleman from New York (Mr. CONABLE).

Mr. CONABLE. Mr. Speaker, some people talk about reform, and when the chips are down vote to backslide. Where are the cries of outrage which liberals level against what they generally call an antiquated system, a system that lacks responsiveness and is subject to structural tyranny Here we are increasing the hold of party over the will of the majority, and at the same time doubling the opportunity to bring bills to the floor under what amounts to a closed rule. That is the effect of suspensions of the rule—no amendment, and mighty little debate before the ramrod is administered.

Under the circumstances this is no way to change the rules of the House, and no direction in which to move. There is a constituency for reform in this land of ours, and this type of action, so soon after the rhetoric of the campaign has rung out with clarion promise, arrogantly squelches this constituency here in the House where the people must find their remedy.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield to the gentleman from Illinois (Mr. McCLORY).

Mr. McCLORY. Mr. Speaker, there is great public demand for the reform of Congress. There is substantial merit to move for congressional reform.

It seems to me incumbent upon us to effect as many reforms as possible. But the adoption of this change in the rules would be opposite to the direction in which we should be moving. I say that because one of the reforms that we should adopt is to open up the opportunity for floor debate and make this House a more open forum to the end that the public can see and hear what we are doing here.

To stifle the opportunity for open debate by doubling or tripling the number of bills which will be placed on the suspension calendar—will result in limiting to 40 minutes the House debate on many important bills, and will prevent the House from working its will by way of amendments to all such measures. This, it seems to me is going backward—it is regressing instead of going forward.

It is my hope that we can have progressive reforms in this Congress which can contribute to bringing greater respect and greater honor to this body.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. GUDE).

Mr. GUDE. Mr. Speaker, all through my congressional campaign the question of reforming House rules in order to make the processes of the House more responsive to the will of the people was a No. 1 issue. For example, the citizenry is most concerned that the House be able to work its will freely without gags which severely restrict debate on vital issues or deny the right to offer amendments to important bills.

Now, with the convening of Congress we find emerging from the Committee on Rules a step backward—a proposal to double the number of days in which legislation can be considered with a severe stricture on debate and no opportunity to offer amendments. Very important conservation and budgetary matters were hurriedly considered in this manner in the last session. Now we are extending an invitation for further use of these means.

It looks like the great wave of reform is dying on the beach with just a whimper. I think this is a sad day. I hope the House will rise above what has been mandated by the Democratic caucus and follow the suggestion of the minority floor leader and vote down the previous question.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield 1 minute to the gentleman from Illinois (Mr. ANDERSON).

Mr. ANDERSON of Illinois. Mr. Speaker, I take this time merely to amplify the point made earlier by the gentleman from New Hampshire (Mr. CLEVELAND). On this list of 60 suspensions that were presented to this body for action in the final weeks of this past Congress we did not have just minor bills like those involving appropriations for jellyfish. We had things like the Strip Mining Reclamation Act, one of the most important environmental measures to come before the entire 92d Congress. We had the Community Mental Health Centers Act, the Omnibus Rivers and Harbors and Flood Control Act, the Alcohol Abuse and Alcoholism Prevention program—measures involving more than $1 billion of Federal expenditures, and the gentleman talks about his desire to have the Congress recover and recapture control of Federal expenditures. How are we going to do it when we slip through bills on a Suspension Calendar of over $1 billion under a Suspension procedure where in 40 minutes we debate the entire matter and we cannot even submit an amendment to the bill? I would say that is not reform; that is retrogression of the worst possible sort.

Mr. GROSS. Mr. Speaker, will the gentleman yield?

Mr. ANDERSON of Illinois. I yield to the gentleman from Iowa.

Mr. GROSS. Mr. Speaker, I am surprised that the next chairman of the Rules Committee would be responsible for this kind of resolution.

Mr. MADDEN. Mr. Speaker, one of the Members on the other side asked where the liberals are. I am going to call upon a self-confessed liberal, the majority leader of the House, the gentleman from Massachusetts (Mr. O'NEILL), for 5 minutes.

Mr. O'NEILL. Mr. Speaker, I am truly amazed that there is so much opposition from the other side. I thought if there were really going to be any debate on this floor today, it would probably be on the policy of the war. I did not think we would debate a matter of this type.

We are discussing two bills. One is whether or not we would have 2 extra suspension days in the month. Why did we offer this particular rules change? We offered it because we thought it was good reform. This change is no secret to the Members assembled here today. The newspapers have been writing about it; various organizations who want to reform the Congress have also been discussing the proposal. They have complained because on one day we had 46 suspension bills, which made for a long night session.

Is this a way to legislate? Why should we not have quit at 8 o'clock that night and brought up the remaining suspensions the next day?

That is what we have in mind. That is what we would like to do. We do not want to go until 2 or 3 o'clock in the morning.

How does a bill get on the Suspension Calendar, the gentleman from New Hampshire wants to know. I am sure the minority leader knows. Although the chairman of the committee goes to the Speaker, he always clears the legislation with the minority member of the committee.

Mr. GERALD R. FORD. Mr. Speaker, will the gentleman yield?

Mr. O'NEILL. I yield to the gentleman from Michigan.

Mr. GERALD R. FORD. If the chairman of that committee gets permission from the Speaker to be recognized, it does not make any difference whether the ranking minority member or the minority leader is consulted at all.

Mr. O'NEILL. I appreciate that, but I will say to the gentleman, I think we have always been extremely fair along the line. When the majority whip organization calendar is made up, the Speaker inevitably says to the chairman: Is this bill going to be a controversial matter? After all, as the gentleman from Michigan knows, it takes a two-thirds vote of this Congress to pass a bill on the Suspension Calendar.

Why, if the minority member of the committee is opposed to it, rare is the occasion when a suspension goes on the calendar.

Mr. GERALD R. FORD. Mr. Speaker, will the gentleman yield?

Mr. O'NEILL. I yield to the gentleman from Michigan.

Mr. GERALD R. FORD. The point is it does not make any difference whether the ranking minority member agrees or disagrees. The discretion is with the Speaker and the person that he recognizes. We do not have any consideration as to whether it goes on suspension or does not.

Mr. O'NEILL. That is true; but we have been exceptionally fair with the gentleman. We are the majority and the majority should always be able to speak up. We are trying to give to the Members the rights that we believe are theirs. Many Members of the gentleman's own party complained last September and October because we had 46 bills on the suspension calendar.

Members asked, "Why do we have to work so late to clean up the suspension calendar?"

I can assure the gentleman from Michigan that we will all have to work late this Congress, if we do not allow time for the calendar to go over to the next day.

Mr. GERALD R. FORD. Will my friend, the gentleman from Massachusetts, yield?

Mr. O'NEILL. I yield to the gentleman from Michigan.

Mr. GERALD R. FORD. Mr. Speaker, I think one of the objections to working late is the fact that we had 46 bills on this one day and the fact that on too many occasions we had adjourned early and had not worked on Fridays. If the gentleman scheduled the program a little more evenly and if we worked Fridays we would not have to have 46 suspensions on one day.

Mr. O'NEILL. The gentleman has been around here long enough to know that in the closing days of the session things mount up like that. We have a suspension calendar primarily to dispense quickly with noncontroversial legislation, so we can have additional time to take up the more important bills that have to come before this Congress.

Let me talk about the other item for a minute. I can recall not too many years ago when the Speaker would get up and say, 'Is there any objection to the proceedings of the day"? And if one person objected we would have to have read the Record of the previous day before it could be approved. We often wasted days doing that around here. We changed the rules in the reform that came through a couple of years ago and nobody had any objections. It was the correct thing to do. The majority voted for it.

I have sat here Thursday after Thursday and watched the majority leader rise after consultation with the minority whip (Mr. Arends) the gentleman from Illinois, or somebody from the other side to ask unanimous consent that we adjourn at 7 o'clock and come in at 10 o'clock. And an arbitrary Member of the House would get up and say, "I object." We would then say, "Let us see if we can talk to him." So two or three Members on this side would go over to the gentleman and ask, "Can't you yield?" The distinguished minority leader has seen that happen many times.

So what are we proposing? Instead of the rule of unanimous consent, all we are proposing is that the time and date of our next meeting be determined by a democratic method, by the consent of the majority of the House. After the majority leader gets up and says, "I ask unanimous consent that when the House adjourns it adjourns to meet at 10 o'clock tomorrow morning," then if there is objection he moves the proposition. If by the majority process we agree to meet at 10 o'clock in the morning, I do not see how anyone could get upset about that at all.

Mr. Speaker, I yield back the balance of my time.

Mr. MADDEN. Mr. Speaker, the Members on the other side of the aisle wanted to know where the liberals were. Here is another self-confessed liberal. I yield to the gentleman from Texas (Mr. Eckhardt).

Mr. ECKHARDT. Mr. Speaker, upon the general proposition as to whether controversial bills should be on the Consent Calendar I am a conservative, but on the proposition of whether or not there should be a sufficient bracket of time to consider whatever bills are on the suspension calendar I am a liberal.

I had a little difficulty with my friends across the aisle in getting the necessary one-third of the votes to stop a bill in the last 6 days of the last session. It was very controversial. I found the gentleman from Missouri (Mr. Hall) was just about my only friend over there on the proposition that is now being espoused so universally on the Republican side. It takes only just over a third of the Members, and in many instances a good number of that third plus can be gotten from this side. But can we not stand on the principle at the time the particular issue comes up and on both sides of this aisle find at least a third of the Members who will stand on principle no matter whose ox is gored? That is the difficulty. The question we are involved with is substantially procedural but we can stop a controversial bill if there are just over a third of the Members on both sides who will stand for the principles that are being espoused here. I cannot see that a basic principle is involved in merely enlarging the bracket of time in which bills on suspension are allowed to be considered. The real evil should be cured in other ways.

The rules presently provide the method of cure. The rules presently say that if the chairman of the committee and the Speaker wrongfully put a controversial matter on the suspension docket, we can stop it; we can stop it if we want to do so.

MR. GROSS. Mr. Speaker, will the gentleman yield

Mr. ECKHARDT. I yield to the gentleman from Iowa.

Mr. GROSS. The gentleman has offered a good many amendments to bills in his time in Congress. Does he wish to foreswear the opportunity to offer amendments to important legislation on the House floor, which he will be doing if he votes for additional days for suspension of rules? It makes no difference what the nature of the bill, the House is limited to 40 minutes of debate, 20 minutes on a side, and not a single amendment can be offered. Does the gentleman really think this is good procedure?

Mr. ECKHARDT. I feel it is good procedure if the Members of the House in that 20 minutes discover that the matter is controversial and are willing to vote their consciences instead of their advantages.

The SPEAKER. The time of the gentleman from Texas has expired.

Mr. MADDEN. Mr. Speaker, one Member on the other side of the aisle mentioned a very sorrowful subject. He regretted very much that we are not following congressional reform.

The next Member that I am extending time to is the author of the best-selling book several years ago on congressional reform, the gentleman from Missouri (Mr. Bolling).

I yield the balance of my time to the gentleman from Missouri.

Mr. BOLLING. I thank my chairman. I believe I am a reformer, but I am not a best-selling author.

I am sure that it would be relatively safe to say that if the shoe were on the other foot, that our friends on the other side of the aisle might well be proposing these two controversial items and we on this side might, in the interest of preserving to the minority its greater ability to delay, might be saying essentially what the minority is saying about these two propositions.

I would like to have an opportunity to make my case. These two propositions are both liberalizing and reformist. It clearly is not in the interest of the House of Representatives to leave to one Member the decision as to the hour of meeting from day to day. Anyone who has watched this institution for any length of time knows that, and I have no intention of talking about the history of that particular provision in this rules change from last year or the year before.

At one time it was pretty unanimously agreed upon by a bipartisan group. Now, the question of suspension is relatively as simple. It is not a desire on the part of the majority to impose a majority rule in the handling of bills under suspension. The very processes of suspension say that we must have a 2 to 1 vote. There is no attempt to change that. There is no attempt to provide a procedure which is not impossible to provide whereby bills that would normally go under suspension would go on majority vote, as often is the case when a suspension bill is defeated.

Now, a number of my friends on the other side who have played an honorable, useful and helpful role in bringing about reform of this institution have indicated their concern that this will be the last opportunity. I think, without speaking out of turn, that I can assure them that they are going to have many opportunities to work in behalf of reform of this institution. There is much that needs to be done. It cannot be accomplished, as these two controversial items can, by a purely partisan majority.

I would hope that they would not seriously contend that these two relatively minor procedural amendments constitute a stopping or a forwarding of reform to any great measure.

Mr. Speaker, I should like to finish in two or three more sentences.

Those are that both of these matters have been up repeatedly. They have been discussed frequently. They have been discussed at the leadership level. They have been discussed at the rank-and-file level. They have been discussed in the Rules Committee. There is nothing new about them.

I respect the views of my friends on the other side. I respect their desire to protect as many of their options as they can. But no man can say that this is retrogression. This provides an orderly procedure for the majority to decide when the House will meet. It provides an extension of time so there can be more orderly consideration in the unusual procedure of suspending the rules, which requires a two-thirds vote.

I submit that this is entirely rational, entirely timely, and has very little to do with real reform, much more of which remains needed.

Mr. COLLIER. Mr. Speaker, will the gentleman yield?

Mr. BOLLING. I yield to the gentleman from Illinois.

Mr. COLLIER. I have always respected the gentleman from Missouri for being a man who is always candid and fair. Having said that, does not the gentleman agree that the present limit on the time when suspensions may be called up do in fact constitute a limitation on the number of bills that can be brought up under suspension of the rules? Contrarily, would not the adoption of this rule tend to encourage more bills to be brought up under suspension of the rules, which in many cases is a wrong practice?

Mr. BOLLING. I would say to the gentleman, to try to answer him honestly, that I think the increase in the amount of time for suspensions is thoroughly justified simply on the basis of the increase in the overall workload of the Congress on major and minor bills since the original rule on suspensions went in.

Mr. COLLIER. Would this not encourage more bills to be brought up?

Mr. BOLLING. I would hope it would not, because I happen to believe that one of our great dilemmas is our failure to give adequate time to critically important bills, such as, for example, Defense Appropriations, while we spend inordinate amounts of time on very unimportant bills, sometimes for objective reasons dealing with the issue, sometimes for nonobjective reasons dealing with the next issue to come up.

I honestly believe that as this would be used, and as any Speaker would use it, it will be used nearly every time in order to expedite the overall careful consideration of important matters and the disposal of less important matters, by a procedure which enables one-third to block action. It is very easy to get a vote on a bill under suspension, to get one-third plus one, and to knock it out. Not much time has been wasted, and the sense of the House has been tested.

Mr. ANDERSON of Illinois. Mr. Speaker, will the gentleman yield?

Mr. BOLLING. I yield to my colleague on the Rules Committee.

Mr. ANDERSON of Illinois. The gentleman from Missouri knows that I respect him highly. He has impressive credentials indeed in the Congress on this question of congressional reform, but I have been deeply pained and, yes, surprised, this afternoon to hear him become an apologist for the proposed change in the rules which would double the amount of time during which we can consider bills under suspension of the rules, on the ground that this is going to provide a fair and orderly way in which to deal with legislation.

I have in my hand a suspension list for the week of October 9. Would the gentleman feel, for example, that we should give precisely the same amount of time for consideration of a bill involving strip mining reclamation, which is an important measure, as we give to the consideration of a bill for the Hohokan Pima National Monument, Ariz.

It seems to me that to lump together indiscriminately major and minor measures is not to get to the root of the problem. What has happened is that the committees have not been doing their work for the year, and when we come down to the end of the year, we have all these bills up together.

Are we getting to the root of the problem by doubling the number of problems with a procedure of this kind?

Mr. BOLLING. Mr. Speaker, I should like the opportunity to answer that question.

Mr. ANDERSON of Illinois. I would appreciate an answer.

Mr. BOLLING. Mr. Speaker, I think the answer is very obvious and very simple. Except in a rare case—and there have been cases in my experience when both parties have done this—in the rare case when it was important to have a political record on a bill and there was no other way to get it than on suspension; and I have seen it done in a Republican Congress as well as in a Democratic Congress—I believe this procedure will be beneficial because it hews to the fundamental question: The degree of controversialness, the degree of opposition to a piece of legislation should have something to do with how it is considered, and if there is major opposition to any matter, it can be defeated on suspension, just as it can be defeated on the unanimous-consent calendars when it is considered to have very, very little controversy and brought up again under a rule.

So we are not talking about a final limitation on debate; we are talking about a process which may, if used, as I know it will be, intelligently, provide and will provide for the more orderly systematic consideration and allocation of the time of the House to the bill.

Mr. Speaker, I have nothing further to add to this. I think this is a reasonable approach. I could spend the afternoon yielding time on this.

Mr. Speaker, I would like to yield to my friend from Indiana (Mr. DENNIS) who has been seeking recognition for a very long time.

Mr. DENNIS. Mr. Speaker, I thank the gentleman from Missouri (Mr. BOLLING) for his courtesy in yielding.

I simply wanted to observe that it seems to me the saddest part of my good friend's presentation was his initial suggestion that perhaps the argument would be the other way around if the minority and the majority were reversed.

Now, Mr. Speaker, that is an amusing statement, and it is a good cynical, political approach to the subject, if you like, but I suggest to my friend, in all seriousness, that it just cannot be right, regardless of who is in the minority or who is in the majority, in a deliberative body, to increase the time for the consideration of matters, and the number of matters which it will be possible to consider, on suspension of the rules, with only 40 minutes of debate and without the possibility of amendment; and I will say to my friend, as far as I am personally concerned, at any rate, it would not make the slightest difference which way the majority is, and if it were turned around, as it will be some day, the right would still be with those who do not think that that kind of procedure is worthy of a deliberative body in this country.

Mr. BOLLING. Mr. Speaker, I will respond to my friend and say that I have had the good fortune to serve in a Congress controlled by the present minority party, and if they were ever as gentle in their management of the House as the Democrats consistently are, I would be utterly startled.

Mr. Speaker, they believe in majority rule, and they exercise it with great skill, and some ruthlessness.

Mr. Speaker, I was talking from experience, I repeat to my friend from Indiana, and I respect his view in the matter; I just disagree with it wholly and completely.

My view is not cynical; it is realistic, and it is based on the experience of seeing a Republican Congress which was very well managed.

Mr. Speaker, I must yield to my friend from New Jersey.

Mr. FRELINGHUYSEN. Mr. Speaker, I thank the gentleman for yielding. My remarks will be brief.

The gentleman has made the point earlier that one individual should not block the will of the House with respect to the time in which the House will meet.

I wonder how the gentleman would feel about the alternative proposed by the minority leader that one-third should be able to block rather than having this a simple majority decision.

Mr. BOLLING. Mr. Speaker, I would be delighted to answer, and I have a very quick answer.

On scheduling, I think the majority should have the right to call the turn. I would not favor any such process in terms of something besides scheduling.

In other words, I would not believe we ought to have suspensions without a two-thirds vote, but I think in setting a schedule, the majority of the House of Representatives, presumably coming from the majority, if there was a minority opposition to it, should have the right to do so.

Mr. Speaker, I think that is normal in perhaps every other parliamentary body in the developed world except this one.

Mr. GERALD R. FORD. Will the gentleman yield to me?

Mr. BOLLING. I have to yield to my friend from Michigan. I am spending the day yielding, but I am delighted to yield to him.

Mr. GERALD R. FORD. First will the gentleman ask for general leave for all Members to extend their remarks? I have had several requests for that.

### GENERAL LEAVE TO EXTEND

Mr. BOLLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 days in which to extend their remarks on this subject matter at this point in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. BOLLING. I now yield further to the gentleman from Michigan.

Mr. GERALD R. FORD. I thank the gentleman for yielding.

What concerns me on the time of the House meeting is that we have established 12 o'clock, and now at the end of a day when a mere handful might be here and many Members have left with the expectation that the next day will have a 12 o'clock meeting time we will have a mere handful stick around and decide that it will be 10 or 11 o'clock. I think some people who may vote for the previous question could very well be disappointed under these circumstances.

Mr. BOLLING. Could I comment to my good friend from Michigan?

Mr. GERALD R. FORD. Surely. It is the gentleman's time, and I know he will be fair.

Mr. BOLLING. The gentleman from Michigan is—and this is not flattery—a very able floor leader. I have had the opportunity to observe the way in which he manages the problems of his party. I notice that he always has some competent Member available right on through special orders. If there is a strong feeling that some motion like that will be put late in the afternoon, the mere threat of forcing a rollcall would prevent it. My friend knows that, and I do not disagree with his point, but the protection is there. There are days in the year when I wish we could do a better job of guarding both sides, but I think that is a part of the responsibility of legislators and legislative leaders, to see to it that adequate protection is given to their side, and I know my friend from Michigan will give it.

Mr. GERALD R. FORD. Will the gentleman yield further?

Mr. BOLLING. I will be glad to yield.

Mr. GERALD R. FORD. The gentleman has made a good point. We are not going to be oblivious to such tactics as the gentleman from Missouri indicates. That will be our only protection—the threat of a rollcall at 6:30 or 7 o'clock in the evening.

Mr. BOLLING. Let me comment on that. My friend knows that is not his only protection.

Mr. GERALD R. FORD. It is a very valid one.

Mr. BOLLING. It is a valid one.

Mr. GERALD R. FORD. And a practical one.

Mr. BOLLING. Right.

Mr. GERALD R. FORD. Which we will have to use to protect the integrity of the membership as a whole.

Mr. BOLLING. Let me comment on that, too. I do not know how much time there is left, and I do not want the time to run out at the wrong time.

Mr. GERALD R. FORD. This is a very good discussion.

Mr. BOLLING. I would like to point out that the gentleman did the Speaker the honor of introducing him and I do not believe he was using empty words when he spoke of his fairness. The gentleman and I have served the same length of time here. We have had the pleasure of serving under fair Speakers—people who were fair. I cannot conceive of the present occupant of the Chair or any other occupant of the Chair not being fair in protecting minority rights. Can the gentleman?

Mr. GERALD R. FORD. I agree wholeheartedly. I said it, and I reiterate it. The gentleman from Missouri knows, as does our Speaker, how on occasions over the past several years we have literally begged to get permission on a unanimous-consent basis to come in at an earlier hour. I am not objecting to changing it from unanimous consent, but I do believe that a two-thirds vote is a more equitable, a fairer way to handle the change in the time of meeting than a majority vote. That is my point.

Mr. BOLLING. I repeat what I said before but very briefly. I think in this day a majority vote is proper so that there could not be obstructionism.

Does my friend from New York desire me to yield to him?

Mr. CONABLE. Yes.

Mr. BOLLING. If you have any time left, I will be glad to yield to you.

Mr. CONABLE. Will the gentleman from Missouri further spell out the implications when he says that we will have further opportunity to participate in a review of the rules of the House?

Does the gentleman mean in the near future? Because this seems to be a matter peculiarly subject to party control at this point, and those of us on this side of the aisle who are interested in this subject would like to know what the gentleman means about that.

Mr. BOLLING. I would say to the gentleman from New York, and, of course, to be perfectly frank, I am not in a position to say all that I know, but I can say this: and that is that as far as the Democrats are concerned we have postponed in our caucus virtually all of the so-called reforms which are, at least in part, party matters, and some of those matters which are not partisan matters, to a meeting next Wednesday.

Of course I cannot tell the gentleman from New York what will emerge from that caucus, but I anticipate a series of caucuses. There are in other places and in the hands of other people possible propositions that will deal with the matters that are considered important both by Members inside the House, and many individuals outside, that deal with secrecy, openness, and whether the Congress really is an equal branch. I think all of those things will be coming to pass. I can guarantee nothing, but I would not stand here for a minute and suggest to the gentleman that we are going to have a lot of reform because, as the gentleman knows, we will all have to work together in order to achieve the kind of reform we all want.

Mr. CONABLE. Might I say that I hope that it will be in a forum, other than in the Democratic caucus, at which we cannot appear, if we earnestly desire to revive and renew the life of this institution.

Mr. BOLLING. I think already in this institution there are two; one is the Committee on Rules from which the reform might come, and the other is the Committee on Organization, and there will be others.

The SPEAKER. The time of the gentleman has expired.

Mr. FINDLEY. Mr. Speaker, I am disappointed that the rules now being considered do not include budgetary reform.

Almost everyone acknowledges that present budgetary practices are unsatisfactory.

Almost all municipalities and business firms—even the smallest ones—are more businesslike.

At no point during the year does the House approve a budget for the Federal Government. It receives the President's budget but never makes a decision on it. Nor does it come up with its own comprehensive budget.

Instead it deals piecemeal through the presently fragmented appropriations committee process with the President's request. This is done with little if any reference to where the money will come from. The President's recommendations are divided up among the 13 appropriations subcommittees, and the spending bills come forward separately and, for all practical purposes, independent of each other and independent also of the effect they will have on the balance—or imbalance—between total receipts and expenditures.

Periodically the House considers bills to increase the ceiling on the public debt. But this occurs after the spending process has been completed, not before.

This process, so correctly described as "hoary" and "haphazard," is one of the main reasons why the House fails so miserably to establish reasonable and proper fiscal priorities for the Nation, and why it also fails so miserably to maintain a balance between receipts and expenditures. As all Members know, the Constitution conveys special responsibilities on this body, as the place where all measures to raise money and to spend money must originate.

Because we have exercised this responsibility so poorly massive Federal deficits pile on massive Federal deficits. It is no wonder the President sought last year authority to suspend and reduce funding in order to keep total expenditures under $250 billion. The Congress refused to convey that authority to the President and he is now engaged in paring away programs within existing legislation.

Frankly, it strikes me as poor policy to grant permanently to the President such broad authority, although in light of the emergency I voted to give him the power for 1 year only.

My fervent hope is that the House will see fit this year to amend its rules to as to correct the procedural situation, to require a businesslike handling of the Federal budget each year.

With that in mind, I am today introducing a House resolution establishing rule XLV.

Here is the text of the resolution:

*Resolved*, That the rules of the House are amended by adding rule XLV as follows:

"HOUSE-AUTHORIZED FEDERAL BUDGET

"1. Not later than sixty days after the President's annual budget message has been received at the beginning of each regular session of the Congress, the Committee on Appropriations is authorized and directed to report to the House a resolution containing a House-authorized Federal budget for the ensuing fiscal year.

"The budget shall include:

"1. The total of estimated Federal receipts from all sources;

"2. The maximum amount to be provided in obligational authority in each appropriation bill or resolution and in such other legislative provisions of obligational authority as may be specified, and the estimated budget outlay related to each, including those outlays from funds provided in prior years.

"3. A table showing the relationship of total estimated receipts as shown in (1) to the aggregate of the maximum amounts to be provided in obligational authority and the aggregate of the estimated budget outlays as shown in (2).

"When the Committee on Appropriations has reported the House resolution adopting such budget, it shall be in order, after the report on the resolution has been available to the Members of the House for at least three calendar days (excluding Saturdays, Sundays, and legal holidays), for the chairman of the Committee on Appropriations to move to proceed to the consideration of such resolution in the Committee of the Whole House on the State of the Union (even though a previous motion to the same effect has been disagreed to). Such motion shall be highly priviledged and shall not be debatable. No amendment to such motion shall be in order and it shall not be in order to move to reconsider the vote.

"After general debate on the resolution, which shall not exceed ten hours, such time to be equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations, the resolution shall be read for amendment under the five-minute rule. At the conclusion of the consideration of the resolution for amendment, the Committee of the Whole shall rise and report the resolution back to the House with such amendments as may have been adopted, and the previous question shall be considered as ordered on the resolution and amendments thereto to adoption without intervening motion except one motion to recommit.

"2. No bill or resolution carrying appropriations or otherwise providing obligational authority for the present or ensuing fiscal year shall be in order for consideration by the House until the House-authorized Federal budget for such year has been approved, and the resolution required by Section 4 of this Rule has been approved.

"The report on each such bill or resolution providing obligational authority for the present and ensuing year must include a statement in one of the following forms:

"First form: 'The provisions of this bill (or resolution) conform to the requirements of the House-authorized Federal budget for fiscal year 19—. The bill (or resolution) as reported will provide $— in obligational authority, and when this amount is deducted the remaining balance for this bill (or resolution) under the House-authorized Federal budget is $—; it is estimated that budget outlays related to this bill (or resolution) as reported will be $—, and when this amount is deducted the remaining balance for this bill (or resolution) under the House-authorized Federal budget is $—. 'or

"Second form: 'The provisions of this bill (or resolution) do not conform to the requirements of the House-authorized Federal budget for fiscal 19—. As reported it will provide $— in obligational authority, and when this amount is deducted from the amount available under the House-authorized Federal budget, a deficit results in the amount of $—; (and/or) it is estimated that budget outlays for the bill (or resolution) as reported will be $— and when this amount is deducted from the amount available under the House-authorized Federal budget, a deficit results in the amount of $—.'

"Any bill or resolution carrying appropriations or otherwise providing obligational authority whose report fails to include a statement in the first form, or which, in its amended form, fails to comply with the requirement as stated in the first form, and any amendment which causes the bill or resolution to fail to comply with the requirement as stated in the first form, shall require in the House the approval of two-thirds of those Members present and voting, a quorum being present.

"3. A conference report on a bill or resolution carrying appropriations or otherwise providing obligational authority shall require the approval of two-thirds of those Members present and voting, a quorum being present, if the effect of the adoption of the report would be to provide an amount in excess of that contained in the House-authorized Federal budget for such year. Motion to dispose of amendments remaining in disagreement following adoption of a conference report on a bill or resolution carrying appropriations or otherwise providing obligational authority shall require the approval of two-thirds of those Members present and voting, a quorum being present, if the effect of the adoption of such motion would be to provide an amount in excess of that contained in the House-authorized Federal budget for such year.

"4. Within fifteen calendar days after adoption of the House-authorized Federal budget, the Committee on Ways and Means is authorized and directed to report a resolution containing recommendations as to the levels of public debt and aggregate Federal revenues necessitated by figures on outlays and receipts contained in the House-authorized Federal budget.

"When the Committee on Ways and Means has reported to the House said resolution, it shall be in order, after the report on the resolution has been available to the Members of the House for at least three calendar days (excluding Saturdays, Sundays, and legal holidays), for the chairman of the Committee on Ways and Means to move to proceed to the consideration of such resolution in the Committee of the Whole House on the State of the Union (even though a previous motion to the same effect has been disagreed to). Such motion shall be highly privileged and shall not be debatable. No amendment to such motion shall be in order and it shall not be in order to move to reconsider the vote.

"After general debate on the resolution, which shall be limited to not to exceed six hours, such time to be equally divided and controlled by the chairman and ranking minority member of the Ways and Means Committee, the resolution shall be read for amendment under the five-minute rule. At the conclusion of the consideration of the resolution for amendment, the Committee of the Whole shall rise and report the resolution back to the House with such amendments as may have been adopted, and the previous question shall be considered as ordered on the resolution and amendments thereto to adoption without intervening motion except one motion to recommit.

"The requirements of this rule shall not be waived or suspended."

This bill is the culmination of a long and arduous search to find the best way to handling the House's budgetary responsibilities. In the 92d Congress, with more than 30 Members as cosponsors—Democrats as well as Republicans—similar language was introduced.

Since then a number of experts have examined it and made suggestions. Among them are Kermit Gordon, former Director of the Budget and now president of Brookings Institution, officials of the Office of Management and Budget, the Parliamentarian of the House and his staff, as well as many Members of the House.

I believe it is a practical forward step that deserves early consideration by the House. I hope the Committee on Rules will soon schedule a day of hearings on it.

Under this proposal, the House could not consider any appropriations bill or resolution, or legislation providing obligational authority until these events have occurred:

First, the House must adopt a resolution containing a budget for the ensuing fiscal year. This resolution is to be reported by the Appropriations Committee. It must include the total of estimated Federal receipts from all sources, the maximum to be provided in obligational authority in each appropriation bill or resolution, or other legislative provision of obligational authority, together with the estimated budget outlay related to each, including those outlays from funds provided in prior years.

The resolution must also show the relationship of total receipts to the aggregate of the outlay and obligational authority figures.

Second, the House must adopt a resolution containing recommendations as to the levels of public debt and aggregate Federal revenues necessitated by figures on outlays and receipts contained in the House-authorized Federal budget. This resolution must be reported to the House by the Ways and Means Committee not more than 15 days after the budget resolution is adopted.

Once these two resolutions have been adopted, appropriation bills and other measures conveying obligational authority would be considered in the customary manner but one important exception.

Two-thirds affirmative vote would be required for the House to approve any appropriations bill, or resolution, or other bill providing obligational authority, or amendment or conference report on such bill or resolution which exceeds the provisions of the budget.

Would this requirement be just one more delay in an appropriation process that is already too slow moving?

To the contrary, it would help streamline procedures. Each Subcommittee of Appropriations would know that not later than 60 days after the President's budget has been delivered to Capitol Hill, it will be required to help draft the resolution on the House approved Federal budget. This requirement would be new incentive to press forward and make the hearings as complete as possible by the time the headline arrives. Because of the two-thirds vote requirement on overruns, subcommittee will be unlikely to spend much time dealing with requests for such. Most appropriation bills will be virtually ready for reporting to the House by May. In turn, the deadline will exert pressure on the authorizing committees to complete their work.

Will the rule produce balanced budgets?

It will certainly help. The budget resolution will bring together for approval at one time expenditure totals and revenue forecasts. If the figures are out of balance, Members voting yes will be voting for an unbalanced budget. Because this is an unappealing posture, most will be inclined to vote to keep expenditure in line with revenue—or at least to make the best possible legislative record in that direction. If the figures show a balance of revenue and expenditure, those voting yes will be voting for a balanced budget.

How will the rule affect tax levels?

If the budget shows outlay in excess of

revenue, the second resolution will provide that the difference be made up by more revenue, higher level of public debt, or a combination of the two. If it calls for $3 billion more in revenue, for example, approval of the resolution with this item in it would have the effect of directing Ways and Means Committee to come forth with measures providing the extra revenue.

How will the rule affect the ceiling on public debt?

In line with the answer just above, if the second resolution calls for meeting a budget deficit by a $3 billion increase in public debt, that would effectively settle the question of an increase in the debt ceiling at a later date. The amount of increase, of course, would be determined by how close the subsequent congressional appropriations match the provisions of the budget resolution, and the accuracy of revenue forecasts.

At what point would the proposal involve the Senate?

At no point would the involvement be direct. Indirectly, the effect would be substantial. Once the House approves the resolution on the budget, it could consider appropriations bills. But not until then. Once approved by the House—by majority vote, or two-thirds, as circumstances may require—the bills would go through customary channels. If the Senate should approve a bill providing more money than authorized in the House budget resolution, the conference report could be accepted by the House only if two-thirds of those present and voting approve.

What is the purpose of the proposed rule?

To cause the House to make basic decisions on expenditures and revenues for the ensuing fiscal year, and what to do about the difference between the two items, before it begins to appropriate money. Under present procedures, the House never at any time approves a budget for the Federal Government, even in the most general, tentative terms. It receives the President's budget message; subcommittees of the Appropriations Committee begin to hold hearings; eventually, based on these hearings, the House begins to appropriate money piecemeal. Only once in recent years—1968—did the House establish even an aggregate expenditure ceiling. It deals with the question of public debt at the wrong end of the process—after the money has been appropriated and obligated—not before. It deals with the relationship of revenue to expenditure only on those infrequent occasions when the Ways and Means Committee brings forward a bill dealing with general taxation.

In House rules from 1947 to 1970 was the requirement that the Congress approve a budget for the Federal Government. It did not work. Does this plan have better prospect of success?

Yes, because the differences are substantial. The old rule had a vital shortcoming. It had no teeth. Failure to adopt the legislative budget resolution, as provided in the rule, did not stop the appropriation process. The new proposal provides that appropriation bills are not in order until the budget resolution has been adopted. The old rule on the legislative budget had not such requirement. The old rule produced a legislative budget resolution only once—in 1947, and on two subsequent years became hopelessly mired in Senate-House conference. After 1949 no serious effort to pass a legislative budget was undertaken. The new proposal deals only with House procedures.

Would it not be better to include the Senate in the rule?

The Senate, of course, can adopt exactly the same discipline, a new discipline or no discipline. The House need not wait for Senate concurrence. Both the House and Senate have their separate responsibilities, so either body can justify special measures of self-discipline.

Mr. MADDEN. Mr. Speaker, I move the previous question on the resolution.

The SPEAKER. The question is on ordering the previous question.

Mr. GERALD R. FORD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The question was taken; and there were—yeas 208, nays 206, not voting 17, as follows:

[Roll No. 3]

So the previous question was ordered.

Mr. LENT changed his vote from "yea" to "nay."

Messrs. POAGE and BYRON changed their votes from "nay" to "yea."

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

The **SPEAKER.** The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## ANNOUNCEMENT BY THE SPEAKER CONCERNING ELECTRONIC VOTING

The **SPEAKER.** The Chair desires to make a statement, and it is a statement that is important to all of the Members of the House.

The Rules of the House provide for the use of an electronic voting system which has recently been installed in the House Chamber. The chairman of the Committee on House Administration addressed a letter to each Member advising the places, dates, and times when staff personnel from the office of the Clerk and the Committee on House Administration would be available for preparation of House of Representatives voter identification cards. The Chair urges Members to have the cards prepared and tested as soon as possible. Of course, it will take a few days to complete this project. Therefore, pursuant to the authority contained in clause 5 of rule XV, the Chair directs that until further notice all rollcall votes and quorum calls shall be taken by the Clerk calling the roll in the same manner as was the practice in the last Congress.

Members will be given sufficient notice as to when the electronic voting system will be activated.

## COMPENSATION OF CERTAIN MINORITY EMPLOYEES

Mr. **ANDERSON** of Illinois. Mr. Speaker, I offer a resolution (H. Res. 7) and ask unanimous consent for its immediate consideration.

The **SPEAKER.** Is there objection to the request of the gentleman from Illinois?

There was no objection.

The Clerk read the resolution, as follows:

H. Res. 7

*Resolved,* That pursuant to the Legislative Pay Act of 1929, as amended, six minority employees authorized therein shall be the following-named persons, effective January 3, 1973, until otherwise ordered by the House, to-wit: Joe Bartlett and Robert T. Hartmann, to receive gross compensation of $36,000.00 per annum, respectively; William R. Bonsell, to receive gross compensation of $35,886.89 per annum; Tommy Lee Winebrenner, to receive gross compensation of $31,013.37 per annum; Walter P. Kennedy (minority pair clerk), to receive gross compensation of $30,820.35 per annum; and John J. Williams (Staff Director to the Minority), to receive gross compensation of $36,000.00 per annum.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## AUTHORIZING EXPENDITURES IN CONNECTION WITH THE OFFICE OF THE LATE HONORABLE HALE BOGGS OF LOUISIANA

Mr. **HÉBERT.** Mr. Speaker, I offer a resolution (H. Res. 8) and ask unanimous consent for its immediate consideration.

The **SPEAKER.** Is there objection to the request of the gentleman from Louisiana?

There was no objection.

The Clerk read the resolution as follows:

H. Res. 8

*Resolved,* That there shall be paid from the contingent fund of the House a sum equal to the annual compensation of the Majority Leader of the House of Representatives in the 92nd Congress as a gratuity to Corinne C. Boggs (Mrs. Hale Boggs) of Louisiana.

*Resolved,* That there shall be paid from the contingent fund of the House, until otherwise provided by law, such sums as may be necessary to compensate the clerical assistants designated by former Representative Hale Boggs in the 92nd Congress and borne upon the clerk hire pay rolls of the House of Representatives at the close of the 92nd Congress at the rates of compensation then payable to said clerical assistants, until a successor is elected to fill the vacancy in the Second Congressional District of the State of Louisiana caused by the absence of Representative-elect Hale Boggs: *Provided,* that the Clerk is authorized to make, from time to time, such salary adjustments as he deems advisable with respect to all of the aforementioned employees.

*Resolved,* That effective January 3, 1973, there shall be paid from the contingent fund of the House, until otherwise provided by law, for personal services in the Office of the Majority Leader of the House, an additional sum not to exceed the minimum monthly rate now or hereafter authorized for Level 5 of the Executive Schedule as set forth in Title 5, United States Code, section 5316.

*Resolved,* That effective January 3, 1973, the Clerk of the House is authorized and directed to appoint James T. Nickens and Harry D. Debuys, two clerks on the pay roll of the Office of the Majority Leader at the close of the 92nd Congress, to the clerk hire pay rolls of the House of Representatives at the rates of compensation then payable to said clerks, until a successor is elected to fill the vacancy caused by the absence of Representative-elect Hale Boggs: *Provided,* that the Clerk is authorized to make, from time to time, such salary adjustments as he deems advisable with respect to the aforementioned two employees.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## AUTHORIZING EXPENDITURES IN CONNECTION WITH THE OFFICE OF THE LATE HONORABLE NICK BEGICH

Mr. **O'NEILL.** Mr. Speaker, I offer a resolution (H. Res. 9) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. Res. 9

*Resolved,* That there shall be paid out of the contingent fund of the House a sum equal to the annual compensation of a Representative in Congress as a gratuity to Margaret J. Begich, widow of Nick Begich, late a Representative-elect from the State of Alaska.

*Resolved,* That there shall be paid out of the contingent fund of the House, until otherwise provided by law, such sums as may be necessary to compensate the clerical assistants designated by the late Nick Begich and borne upon the clerk hire payrolls of the House of Representatives at the close of the 92d Congress at the rates of compensation then payable to said clerical assistants, until a successor is elected to fill the vacancy caused by the death of the said Nick Begich; *Provided,* That the Clerk of the House is hereby authorized to employ two additional employees, to fill the vacancy on the staff of the late Nick Begich caused by the death of Russell L. Brown of Alaska and to fill the other vacancy on that staff which has occurred since the death of the late Nick Begich, and there shall be paid from the contingent fund such additional sums as may be required to compensate the employees so designated at a rate to be determined by the Clerk: *Provided further,* that the Clerk is authorized to make, from time to time, such salary adjustments as he deems advisable with respect to all of the aforementioned employees.

*Resolved,* That there shall be paid from the contingent fund of the House, until a successor is elected to fill the vacancy caused by the death of Representative-elect Nick Begich, such sums as may be required for the Clerk of the House to:

(1) pay all necessary expenses required to maintain in operation the three offices in the State of Alaska, and the one office in the District of Columbia, operated by the late Representative Nick Begich at the close of the 92d Congress;

(2) provide such office expenses, including telephone allowance, equipment rental, stationery, and postage, as the Clerk deems essential to the proper operation of these aforementioned offices;

(3) pay the expenses of travel between Washington, D.C., and the State of Alaska, and within the State of Alaska, for such personnel as the Clerk may specifically designate and authorize to travel in connection with their official duties as clerical assistants in the aforementioned offices.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## MESSAGE FROM THE SENATE

A message from the Senate by Mr. Arrington, one of its clerks, announced that the Senate had passed a concurrent resolution and sundry resolutions of the following titles:

S. Con. Res. 1. Concurrent resolution to provide for the counting on January 6, 1973, of the electoral votes for President and Vice President of the United States.

S. Res. 1. Resolution that a committee consisting of two Senators be appointed by the Vice President to join such committee as may be appointed by the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

S. Res. 2. Resolution that the Secretary inform the House of Representatives that a quorum of the Senate is assembled and that the Senate is ready to proceed to business.

S. Res. 6. Resolution that the House of Representatives be notified of the election of the Honorable James O. Eastland, a Senator from the State of Mississippi, as President of the Senate pro tempore.

## HOUR OF MEETING OF HOUSE OF REPRESENTATIVES

Mr. MADDEN. Mr. Speaker, I offer a resolution (H. Res. 10) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 10

*Resolved*, That until otherwise ordered, the daily hour of meeting of the House of Representatives shall be at 12 o'clock meridian.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## ADMINISTRATION OF THE OATH OF OFFICE TO MRS. GREEN OF OREGON

Mr. ULLMAN. Mr. Speaker, I offer a resolution (H. Res. 11) and ask for its immediate consideration.

The Clerk read as follows:

H. Res. 11

Whereas Edith Green, a Representative-elect from the State of Oregon, from the Third District thereof, has been unable from sickness to appear in person to be sworn as a Member of the House, and there being no contest or question as to her election: Therefore be it

*Resolved*, That the Speaker, or deputy named by him, be, and he is hereby authorized to administer the oath of office to the Honorable Edith Green at Portland, Oregon, and that the said oath be accepted and received by the House as the oath of office of the said Edith Green.

The resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER. Pursuant to the authority of House Resolution 11, 93d Congress, the Chair appoints the Honorable John Beatty, judge of the circuit court, fourth district, Portland, Oreg., to administer the oath of office to the Honorable Edith Green.

## ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Speaker, pursuant to the provisions of title 2, United States Code, section 124, and the order of the House of October 18, 1972, empowering him to appoint commissions, boards, and committees authorized by law or by the House did on November 14, 1972, appoint the following Members of the House of Representatives as a committee to attend the funeral of the late Frank T. Bow, of Ohio: Mr. McCulloch, Mr. Gerald R. Ford, Mr. O'Neill, Mr. Arends, Mr. Hays, Mr. Betts, Mr. Ashley, Mr. Minshall.

Mr. Vanik, Mr. Devine, Mr. Latta, Mr. Ashbrook, Mr. Clancy, Mr. Harsha, Mr. Mosher, Mr. J. William Stanton, Mr. Brown of Ohio, Mr. Miller of Ohio, Mr. Whalen, Mr. Wylie.

Mr. Stokes, Mr. Carney, Mr. Keating, Mr. Powell, Mr. Seiberling, Mr. James V. Stanton, Mr. Rooney of New York, Mr. Steed.

Mr. Jonas, Mr. Hull, Mr. McFall, Mr. Conte, Mr. Shipley, Mr. Slack, Mr. Davis of Wisconsin, Mr. Robinson of Virginia.

## COMMUNICATION FROM THE PRESIDENT OF THE NATIONAL ASSEMBLY OF TURKEY

The SPEAKER laid before the House the following communication from the President of the National Assembly of Turkey:

Turkish Embassy,
*Washington, D.C., December 28, 1972.*

Hon Carl Albert,
*Speaker of the House of Representatives, Washington, D.C.*

Dear Mr. Speaker: I have the honor to enclose herewith the message of His Excellency Sabit Osman Avci, the President of the National Assembly of Turkey, to Your Excellency, on the occasion of the death of His Excellency Harry S. Truman, former President of the United States.

In sharing the sentiments expressed in the message, please accept, Mr. Speaker, in behalf of my wife and myself, our heartfelt condolences.

Melih Esenbel,
*Ambassador of Turkey.*

The Honorable Carl Albert,
*The Speaker of the House of Representatives, Washington, D.C.*

Dear Mr. Speaker: I am deeply grieved by the passing away of H. E. Harry S. Truman, the former President of the U.S.A.

His efforts directed towards the establishment of a sound universal peace gained him admiration all over the world and his name went in history as one of the unforgettable statesmen of all times. By means of the Truman Doctrine he pioneered a new era of friendship and alliance between Turkey and the U.S.A., and gained a special place in the minds and hearts of the Turkish people.

On this sad occasion I convey, on behalf of the members of the National Assembly of Turkey and on my own behalf, our sincere condolences to you, Mr. Speaker, and to the Members of the U.S. House of Representatives.

Sabit Osman Avci,
*President of the National Assembly of Turkey.*

## COMMUNICATION FROM THE ACTING SECRETARY, DEPARTMENT OF STATE—PROCLAMATION BY PRESIDENT NIXON ANNOUNCING THE DEATH OF FORMER PRESIDENT HARRY S TRUMAN

The SPEAKER laid before the House the following communication from the Acting Secretary of the Department of State:

Department of State,
*Washington, December 27, 1972.*

Hon. Carl Albert,
*Speaker of the House of Representatives.*

Dear Mr. Speaker: I enclose herewith a copy of the Proclamation by President Nixon officially announcing the death of Harry S Truman, former President of the United States, which occurred in Kansas City, Missouri, on Tuesday morning, December 26, 1972, at 7:50 o'clock.

Sincerely,

U. Alexis Johnson,
*Acting Secretary.*

### Announcing the Death of Harry S Truman by the President of the United States of America

### A PROCLAMATION

To the People of the United States:

It is my sad duty to announce officially the death of Harry S Truman, thirty-third President of the United States, on December 26, 1972.

Throughout his long career in public service, Harry S Truman was known as a man of forthrightness and integrity. He served with distinction in the United States Senate; and when the death of President Franklin Delano Roosevelt thrust him suddenly into the Presidency in April of 1945 at one of the most critical moments of our history, he met that moment with courage and vision. His far-sighted leadership in the postwar era has helped ever since to preserve peace and freedom in the world.

Confronted during his Presidency with a momentous series of challenges, his strength and spirit proved equal to them all. His fortitude never wavered, and his faith in America never flagged.

President Truman had a deep respect for the office he held and for the people he served. He gave himself unstintingly to the duties of the Presidency while he held it, and in the years afterward he honorably supported and wisely counseled each of his successors.

The Nation to which he gave so much will honor his memory in admiration and respect, and the other countries for which he helped keep freedom alive will remember his name with gratitude.

Now, therefore, I, Richard Nixon, President of the United States of America, in tribute to the memory of President Truman, and as an expression of public sorrow, do hereby direct that the flag of the United States be displayed at half-staff at the White House and on all buildings, grounds, and Naval vessels of the United States for a period of thirty days from the day of his death. I also direct that for the same length of time the representatives of the United States in foreign countries shall make similar arrangements for the display of the flag at half-staff over their Embassies, Legations, and other facilities abroad, including all military facilities and stations.

I hereby order that suitable honors be rendered by units of the Armed Forces under orders of the Secretary of Defense on the day of the funeral.

I do further appoint December 28, 1972 to be a National Day of Mourning throughout the United States. I recommend that the people assemble on that day in their respective places of worship, there to pay homage to the memory of President Truman and to seek God's continued blessing on our land and on His servant. I invite the people of the world who share our grief to join us in this solemn observance.

In witness whereof, I have hereunto set my hand this 26th day of December, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon.

## COMMUNICATION FROM THE CLERK OF THE HOUSE OF REPRESENTATIVES—COMMON CAUSE, JOHN W. GARDNER AGAINST W. PATRICK JENNINGS, CLERK OF THE U.S. HOUSE OF REPRESENTATIVES, AND FRANCIS VALEO, SECRETARY OF U.S. SENATE

The SPEAKER laid before the House the following communication from the Clerk of the House of Representatives:

Washington, D.C.,
*December 14, 1972.*

The Honorable Carl Albert,
*The Speaker, House of Representatives.*

Dear Sir: On this date I have been served a Summons and Complaint by the United States Marshal that was issued by the U.S. District Court for the District of Columbia. This summons and complaint is in connection with Common Cause, John W. Gardner v. W. Patrick Jennings, Clerk of the U.S. House of Representatives, and Francis Valeo, Secretary of the U.S. Senate, Civil Action No. 2379-72 (U.S.D.C. D. D.C.).

This action was instituted against the Clerk of the House as Supervisory Officer under the Federal Election Campaign Act of 1971, P.L. 92-225. The Summons requires an answer to the Complaint within sixty days after service.

It is my purpose to inform you that in accordance with House Resolution 9 of January 21, 1971, I intend to make arrangements for my defense as provided for the Officers of the U.S. House of Representatives under 2 U.S.C. 118. In my letter to the Attorney General of the United States making such arrangements I am reserving my right to appoint co-counsel at any time for my defense as Supervisory Officer as prescribed by House Resolution 955 of May 3, 1972.

The Summons and Complaint in question are herewith attached, and the matter is presented for such action as the House in its wisdom may see fit to take.

Sincerely,

W. PAT JENNINGS,
*Clerk, House of Representatives.*

---

DECEMBER 15, 1972.

Honorable RICHARD G. KLEINDIENST
*Attorney General of the United States*
*Department of Justice*
*Washington, D.C. 20530*

DEAR MR. KLEINDIENST: This refers to the letter of the Assistant Attorney General, Civil Division, of December 13, 1972 that enclosed a copy of the summons and complaint served on the Attorney General on December 5, 1972 in Common Cause, John W. Gardner v. W. Patrick Jennings, Clerk of the U.S. House of Representatives and Francis Valeo, Secretary, U.S. Senate, Civil Action No. 2379-72 (U.S.D.C. D. D.C.) that requested information concerning representation in this matter.

Upon receipt of the December 13, 1972 letter the Clerk of the House telephoned Common Cause and advised their counsel that the Clerk asserts that service of a summons and complaint on the Attorney General of the United States does not constitute service upon the Clerk of the U.S. House of Representatives. The Clerk also advised Common Cause that the matter would be considered only after appropriate service was accomplished as provided by law.

The purpose of this letter is to advise you that later that same day a U.S. Marshall served the attached summons and complaint in the forementioned case on the Clerk of the House at 4:30 P.M., December 14, 1972, and the sixty day period for answering the complaint begins to run from the time service was accomplished (as stated in the Summons) upon the Clerk of the House. I am attaching a certified copy of the Summons and Complaint served on me by the U.S. Marshall.

In accordance with 2 U.S.C. 118 I have sent a certified copy of the Summons and Complaint to the U.S. Attorney for the District of Columbia requesting that he take appropriate action for my defense under the supervision and direction of the Attorney General. In addition, I am reserving my right to appoint at any time a co-counsel for my defense as Supervisory Officer under the Federal Election Campaign Act of 1971 under House Resolution 955 of May 3, 1972. I am also sending you a copy of the letter I forwarded this date to the U.S. Attorney.

Your letter graciously advised that the Clerk's "views and other assistance" were welcome on this matter. In conformance therewith the Clerk advises that a preliminary draft regulation on "earmarked funds" has been prepared and coordinated with the other Supervisory Officers that received tentative approval from them. The Clerk is prepared to meet at a mutually agreeable time and place with representatives of the Attorney General.

With kindest regards, I am

Sincerely,

W. PAT JENNINGS,
*Clerk, U.S. House of Representatives.*

---

DECEMBER 15, 1972.

Honorable HAROLD H. TITUS, JR.
*United States Attorney for the District of Columbia*
*United States Courthouse*
*3rd and Constitution Avenue*
*Washington, D.C. 20001*

DEAR MR. TITUS: I am sending you a certified copy of a summons and complaint in a Civil Action No. 2379-72 (U.S.D.C. D. D.C.) filed against W. Patrick Jennings, Clerk, U.S. House of Representatives and Francis Valeo, Secretary of the U.S. Senate in the United States District Court for the District of Columbia and served upon me in my official capacity as Clerk of the House of Representatives by a U.S. Marshall on December 14, 1972.

In accordance with Title 2, U.S. Code, Sec. 118, I respectfully request that you take appropriate action, as deemed necessary, under the "supervision and direction of the Attorney General" of the United States in defense of this suit against The Congress of the United States.

Since this action was brought aaginst me as Clerk of the House in my capacity as Supervisory Officer under the Federal Election Campaign Act of 1971, P.L. 92-225, I reserve the right to appoint at any time a co-counsel for my defense under House Resolution 955 of May 2, 1972.

I am also sending you a copy of the letter that I forwarded this date to the Attorney General of the United States.

With kindest regards, I am

Sincerely,

W. PAT JENNINGS,
*Clerk, U.S. House of Representatives.*

---

## COMMUNICATION FROM THE CLERK OF THE HOUSE OF REPRESENTATIVES—THE UNITED STATES CONSTITUTION AGAINST SPEAKER CARL ALBERT AND THE CLERK OF THE HOUSE OF REPRESENTATIVES

The SPEAKER laid before the House the following communication from the Clerk of the House of Representatives:

WASHINGTON, D.C.,
*December 4, 1972.*

Hon. CARL ALBERT,
*The Speaker, U.S. House of Representatives.*

DEAR SIR: The Clerk of the House of Representatives received on this date from the U.S. Marshall by certified mail (No. 490074) an unattested copy of the Summons in a Civil Action together with a copy of the Complaint filed by the United States Constitution represented by Mr. Victor Sharrow v. Speaker Carl Albert, The Clerk of the United States House of Representatives and others in Civil Action File No. 72 C 4981 in the District Court for the Southern District of New York.

It is my purpose by this letter to inform you that it is my desire to be covered in the arrangements for defense as provided for the Officers of the United States House of Representatives under 2 USC 118.

The Summons does not specify how much time the defendants have to answer the Complaint. Rule 12 a of the Federal Rules of Civil Procedure give "an officer" of the United States 60 days after service to file an answer to the Complaint.

The Summons and Complaint in question are herewith attached, and the matter is presented for such action as the House in its wisdom may see fit to take.

Sincerely,

W. PAT JENNINGS,
*Clerk, U.S. House of Representatives.*

---

THE SPEAKER'S ROOMS,
U.S. HOUSE OF REPRESENTATIVES,
*Washington, D.C., December 17, 1972.*

Hon. WHITNEY NORTH SEYMOUR,
*United States Attorney for the Southern District of New York, United States Court House, Foley Square, New York, N.Y.*

DEAR MR. SEYMOUR: I am sending you a copy of a summons and Complaint in Civil Action No. 72 Civ. 4981 in the United States District Court for the Southern District of New York, against me in my official capacity as Speaker of the House of Representatives, received by certified mail on November 30, 1972.

The Clerk of the House, Honorable W. Pat Jennings, has also received by certified mail a copy of the summons and Complaint.

In accordance with the provisions of 2 U.S.C. 118, I respectfully request that you take appropriate action, as deemed necessary, under the supervision and direction of the Attorney General, in defense of this suit against the Speaker and the Clerk of the House of Representatives. I am also sending you a copy of the letter that I forwarded this date to the Attorney General of the United States.

Sincerely,

CARL ALBERT,
*The Speaker.*

---

THE SPEAKER'S ROOMS,
U.S. HOUSE OF REPRESENTATIVES,
*Washington, D.C., December 17, 1972.*

The Honorable RICHARD G. KLEINDIENST,
*Attorney General,*
*Department of Justice,*
*Washington, D.C.*

DEAR MR. ATTORNEY GENERAL: On November 30, 1972, I received by certified mail a summons and Complaint in Civil Action No. 72 Civ. 4981 in the United States District Court for the Southern District of New York, against me in my official capacity as Speaker of the House of Representatives. W. Pat Jennings, Clerk of the House of Representatives, has also received by certified mail a copy of the summons and Complaint.

In accordance with the provisions of 2 U.S.C. 118, I have sent a copy of the summons and Complaint in this action to the U.S. Attorney for the Southern District of New York requesting that he take appropriate action under the supervision and direction of the Attorney General. I am also sending you a copy of the letter I forwarded this date to the U.S. Attorney.

Sincerely,

CARL ALBERT,
*The Speaker.*

---

## REPORT OF COMMITTEE TO NOTIFY THE PRESIDENT

Mr. O'NEILL. Mr. Speaker, your committee on the part of the House to join a like committee on the part of the Senate to notify the President of the United States that a quorum of each House has been assembled and is ready to receive any communication that he may be pleased to make has performed that duty.

The President sends to the Members of Congress his best wishes for a Happy New Year and says from time to time he will send messages to this body.

### PROVIDING FOR A JOINT SESSION TO COUNT ELECTORAL VOTES

Mr. O'NEILL. Mr. Speaker, I call up a Senate concurrent resolution (S. Con. Res. 1) and ask for its immediate consideration.

The Clerk read the Senate concurrent resolution, as follows:

S. Con. Res. 1

*Resolved by the Senate (the House of Representatives concurring)*, That the two Houses of Congress shall meet in the Hall of the House of Representatives on Saturday, the 6th day of January 1973, at 1 o'clock postmeridian, pursuant to the requirements of the Constitution and laws relating to the election of President and Vice President of the United States, and the President of the Senate shall be their Presiding Officer; that two tellers shall be previously appointed by the President of the Senate on the part of the Senate and two by the Speaker on the part of the House of Representatives, to whom shall be handed, as they are opened by the President of the Senate, all the certificates and papers purporting to be certificates of the electoral votes, which certificates and papers shall be opened, presented, and acted upon in the alphabetical order of the States, beginning with the letter "A"; and said tellers, having then read the same in the presence and hearing of the two Houses, shall make a list of the votes as they shall appear from the said certificates; and the votes having been ascertained and counted in the manner and according to the rules by law provided, the result of the same shall be delivered to the President of the Senate, who shall thereupon announce the state of the vote, which announcement shall be deemed a sufficient declaration of the persons, if any, elected President and Vice President of the United States, and, together with a list of the votes, be entered on the Journals of the two Houses.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

The SPEAKER. Pursuant to the provisions of Senate Concurrent Resolution 1, the Chair appoints as tellers on the part of the House to count the electoral votes on January 6, 1973, the gentleman from Ohio (Mr. Hays) and the gentleman from Ohio (Mr. Devine).

### AUTHORIZING SPEAKER TO DECLARE A RECESS ON SATURDAY, JANUARY 6, 1973

Mr. O'NEILL. Mr. Speaker, I ask unanimous consent that on Saturday, January 6, 1973, it may be in order for the Speaker to declare a recess at any time subject to the call of the Chair.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

### PRESIDENTIAL INAUGURATION

Mr. O'NEILL. Mr. Speaker, I offer a concurrent resolution (H. Con. Res. 1) and ask for its immediate consideration.

H. Con. Res. 1

*Resolved by the House of Representatives (the Senate concurring)*, That effective from January 3, 1973, the joint committee created by Senate Concurrent Resolution 63, of the Ninety-second Congress, to make the necessary arrangements for the inauguration of the President-elect and Vice President-elect of the United States on the 20th day of January 1973, is hereby continued and for such purpose shall have the same power and authority as that conferred by such Senate Concurrent Resolution 63, of the Ninety-second Congress.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER. Pursuant to the provisions of Concurrent Resolution No. 1, 93d Congress, the Chair appoints as members of the joint committee to make the necessary arrangements for the inauguration of the President-elect and the Vice President-elect of the United States on the 20th day of January, 1973, the following Members on the part of the House: Mr. Gerald R. Ford of Michigan, Mr. Carl Albert of Oklahoma, and Mr. Thomas P. O'Neill, Jr., of Massachusetts.

### ANNOUNCEMENT BY THE SPEAKER CONCERNING INTRODUCTION OF BILLS

The SPEAKER. The Chair would like to make a statement concerning the introduction and reference of bills today. This is very important.

The Members are aware that they have the privilege today of introducing bills. Heretofore on the opening day of the new Congress, several thousand bills have been introduced.

It will be readily apparent to all Members that it may be a physical impossibility for the Speaker to examine each bill for reference today. The Chair will do its best to refer as many bills as possible, but it will ask the indulgence of the Members if it is unable to refer all the bills that may be introduced.

Those bills which are not referred and do not appear in the Record as of today will be included in the next day's Record and printed with a date as of today.

The Chair has advised all officers and employees of the House who are involved in the processing of bills that every bill, resolution, memorial, petition or other material which is placed in the hopper must bear the signature of a Member. Where a bill or resolution is jointly sponsored, the signature must be that of the Member first named thereon.

Bill clerks are instructed to return to the Member any bill which appears in the hopper without an original signature. This procedure was inaugurated in the last Congress. It worked well. The Chair believes it is essential to continue this practice to insure the integrity of the process on which legislation is introduced in the House.

### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair desires to announce that pursuant to the order of the House of October 18, 1972, empowering him to appoint commissions, boards, and committees authorized by law or by the House, he did on November 27, 1972, pursuant to the provisions of section 301 (a), title 3, Public Law 92-599, appoint as members of the joint committee to review operation of budget ceiling and to recommend procedures for improving congressional control over budgetary outlay and receipt totals the following members of the Committee on Ways and Means: Mr. Ullman of Oregon; Mr. Burke of Massachusetts; Mrs. Griffiths of Michigan; Mr. Rostenkowski of Illinois; Mr. Schneebeli of Pennsylvania; Mr. Collier of Illinois; and Mr. Broyhill of Virginia.

And the following members of the Committee on Appropriations: Mr. Mahon of Texas; Mr. Whitten of Mississippi; Mr. Rooney of New York; Mr. Sikes of Florida; Mr. Cederberg of Michigan; Mr. Rhodes of Arizona; and Mr. Davis of Wisconsin.

And the gentleman from Wisconsin (Mr. Reuss) and the gentleman from North Carolina (Mr. Broyhill).

And on November 27, 1972, pursuant to the provisions of section 2, Public Law 92-500, appoint as members of the National Study Commission under the Federal Water Pollution Control Act Amendments of 1972 the following members of the Committee on Public Works: Mr. Blatnik of Minnesota; Mr. Jones of Alabama; Mr. Wright of Texas; Mr. Harsha of Ohio; and Mr. Grover of New York.

### THE PRODUCTION OF DOCUMENTS UNDER PRIVILEGES OF THE HOUSE

Mr. O'NEILL. Mr. Speaker, I offer a resolution (H. Res. 12) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. Res. 12

Whereas, by the privileges of this House no evidence of a documentary character under the control and in the possession of the House of Representatives can, by the mandate of process of the ordinary courts of justice, be taken from such control or possession except by its permission: Therefore be it

*Resolved*, That when it appears by the order of any court in the United States or a judge thereof, or of any legal officer charged with the administration of the orders of such court or judge, that documentary evidence in the possession and under the control of the House is needful for use in any court of justice or before any judge or such legal officer, for the promotion of justice, this House will take such action thereon as will promote the ends of justice consistently with the privileges and rights of this House; be it further

*Resolved*, That during any recess or adjournment of its Ninety-third Congress, when a subpena or other order for the production or disclosure of information is by the due process of any court in the United States served upon any Member, officer, or employee of the House of Representatives, directing appearance as a witness before the said court at any time and the production of certain and sundry papers in the possession and under the control of the House of Representatives, that any such Member, officer, or employee of the House, be authorized to appear before said court at the place and time named in any such subpena or order, but no papers or documents in the possession or under the control of the House of Representatives shall be produced in response thereto; and be it further

*Resolved*, That when any said court determines upon the materiality and the relevancy of the papers or documents called for in the subpena or other order, then said court, through any of its officers or agents, shall have full permission to attend with all proper parties to the proceedings before said court and at a place under the orders and control of the House of Representatives and take copies of the said documents or papers and the Clerk of the House is authorized to supply certified copies of such documents that the court has found to be material and relevant, except that under no circumstances shall any minutes or transcripts of executive sessions, or any evidence of witnesses in respect thereto, be disclosed or copied, nor shall the possession of said documents and papers by any Member, officer, or employee of the House be disturbed or removed from their place of file or custody under said Member, officer, or employee; and be it further

*Resolved*, That a copy of these resolutions be transmitted by the Clerk of the House to any of said courts whenever such writs of subpena or other orders are issued and served as aforesaid.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## DATE FOR SUBMISSION OF BUDGET AND ECONOMIC REPORT BY PRESIDENT OF THE UNITED STATES

Mr. MAHON. Mr. Speaker, I ask unanimous consent for the immediate consideration of a joint resolution (H.J. Res. 1) relating to the transmission to the Congress by the President of the budget for fiscal year 1974 and the Economic Report.

The Clerk read the title of the joint resolution.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the joint resolution as follows:

H.J. Res. 1

*Resolved by the Senate and House of Representatives of the United States of America in Congress Assembled*, That (a) notwithstanding the provisions of section 201 of the Act of June 10, 1922, as amended (31 USC 11), the President shall transmit to the Congress not later than January 29, 1973, the Budget for the Fiscal Year 1974; (b) notwithstanding the provisions of section 3 of the Act of February 20, 1946, as amended (15 USC 1022), the President shall transmit to the Congress not later than January 31, 1973, the Economic Report; and (c) notwithstanding the provisions of clause (3) of section 5(b) of the Act of February 20, 1946 (15 USC 1024(b)), the Joint Economic Committee shall file its report on the President's Economic Report with the House of Representatives and the Senate not later than March 10, 1973.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

## MINORITY WHIP

Mr. GERALD R. FORD. Mr. Speaker, it is with a great deal of pride and it is a great privilege for me to announce that the Republican Conference this morning unanimously elected the Honorable LESLIE ARENDS, of Illinois, as our Republican whip in the 93d Congress.

## ADDITIONAL OFFICIAL REPORTER OF DEBATES

Mr. HAYS. Mr. Speaker, by direction of the Committee on House Administration, I offer a resolution (H. Res. 13) on the compensation for employment of one additional Reporter of Debates, and ask unanimous consent for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 13

*Resolved*, That there shall be paid out of the contingent fund of the House, until otherwise provided by law, compensation for the employment of one additional official reporter of debates, House of Representatives, to be appointed in the same manner, and to receive the same rate of compensation, as the other official reporters of debates.

The SPEAKER. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## ADJOURNMENT OVER TO SATURDAY, JANUARY 6, 1973

Mr. O'NEILL. Mr. Speaker, I ask unanimous consent that when the House adjourns today it adjourn to meet on Saturday next.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

## THE LATE HONORABLE HARRY S TRUMAN, FORMER PRESIDENT OF THE UNITED STATES

Mr. RANDALL. Mr. Speaker, I offer a resolution (H. Res. 14) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 14

*Resolved*, That the House has learned with regret and profound sorrow of the death of Harry S Truman, former President of the United States, who as an illustrious Member of the Senate of the United States, Vice President, and President gave so generously of his energy and wisdom and contributed so greatly to the cause of freedom.

*Resolved*, That the Clerk communicate these resolutions to the Senate and transmit a copy of the same to the family of the deceased.

The resolution was agreed to.

A motion to reconsider was laid on the table.

Mr. RANDALL. Mr. Speaker, at an appropriate time in the very near future we will ask for some time here on the floor to pay our respects to our former President. An announcement will be made to all Members at that time.

## THE LATE HONORABLE NICK BEGICH

Mr. O'NEILL. Mr. Speaker, I offer a resolution (H. Res. 15) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 15

*Resolved*, That the House has heard with profound sorrow of the death of the Honorable Nick Begich, a Representative-elect from the State of Alaska.

*Resolved*, That the Clerk communicate these resolutions to the Senate and transmit a copy thereof to the family of the deceased.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## THE LATE HONORABLE GEORGE W. COLLINS

Mr. PRICE of Illinois. Mr. Speaker, I offer a resolution (H. Res. 16) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 16

*Resolved*, That the House has heard with profound sorrow of the death of the Honorable George W. Collins, a Representative from the State of Illinois.

*Resolved*, That the Clerk communicate these resolutions to the Senate and transmit a copy thereof to the family of the deceased.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## ADJOURNMENT

Mr. O'NEILL. Mr. Speaker, out of respect to the former President of the United States, Harry S Truman, and our deceased colleagues, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 4 o'clock and 36 minutes p.m.), under its previous order, the House adjourned until Saturday, January 6, 1973, at 12 o'clock noon.

## REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

---

## EXECUTIVE COMMUNICATIONS, ETC.

*(Pursuant to House Resolution 1171, 92d Congress, the following executive communications were submitted)*

*(December 26, 1972)*

2434. A letter from the Comptroller General of the United States, transmitting a report on the financial statements of the St. Lawrence Seaway Development Corporation for the year ended December 31, 1971, pursuant to 31 U.S.C. 841 and 74 Stat. 101 (H. Doc. No. 92–378); to the Committee on Government Operations and ordered to be printed.

*(January 2, 1973)*

2435. A letter from the Comptroller General of the United States, transmitting a report on the audit of the Federal Crop Insurance Corporation, Department of Agriculture, for fiscal year 1972, pursuant to 31 U.S.C. 841 and 7 U.S.C. 1513 (H. Doc. No. 92–381); to the Committee on Government Operations and ordered to be printed.

2436. A letter from the Comptroller General of the United States, transmitting a report on the examination of the financial statements of the Federal Home Loan Bank Board, the Federal home loan banks, and the Federal Savings and Loan Insurance Corporation for the year ended December 31, 1971, pursuant to 31 U.S.C. 53, 31 U.S.C. 67, 31 U.S.C. 850 and 857, and 12 U.S.C. 1431(j) (H. Doc. No. 92–382); to the Committee on Government Operations and ordered to be printed.

2437. A letter from the Comptroller General of the United States, transmitting a report of the audit of the Commodity Credit Corporation, Department of Agriculture, for fiscal year 1972, pursuant to 31 U.S.C. 841 (H. Doc. No. 92–383); to the Committee on Government Operations and ordered to be printed.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

*(Submitted January 3, 1973)*

1. A communication from the President of the United States, transmitting notice of his determination that it is in the national interest for the Export-Import Bank of the United States to guarantee, insure, extend credit, and participate in the extension of credit in connection with the purchase or lease of any product or service by, for use in, or for sale or lease to the Polish People's Republic, pursuant to 12 U.S.C. 635(b)(2) of the Export-Import Bank Act of 1945, as amended; to the Committee on Banking and Currency.

2. A communication from the President of the United States, transmitting notice of his intention to exercise his authority under section 614(a) of the Foreign Assistance Act of 1961, as amended, to permit the procurement of rice from outside the United States for Laos and Cambodia without regard to the requirements of section 604(e) of the act, pursuant to section 652 of the act; to the Committee on Foreign Affairs.

3. A communication from the President of the United States, transmitting notice of his intention to exercise his authority under section 614(a) of the Foreign Assistance Act of 1961, as amended, to waive the restriction of section 620(m) of the act as it applies to the U.S. military assistance program for fiscal year 1973 to Spain, pursuant to section 652 of the act; to the Committee on Foreign Affairs.

4. A communication from the President of the United States, transmitting notice of his intention to exercise his authority under section 614(a) of the Foreign Assistance Act of 1961, as amended, to waive the restriction of section 620(m) of the act as it applies to the U.S. military assistance program for fiscal year 1973 to Portugal, pursuant to section 652 of the act; to the Committee on Foreign Affairs.

5. A letter from the Secretary of the Interior, transmitting the report of the Migratory Bird Conservation Commission for fiscal year 1972, pursuant to 16 U.S.C. 715b; to the Committee on Agriculture.

6. A letter from the Secretary of Defense, transmitting three reports of violations of section 3679(a), Revised Statutes, involving expenditures or obligations in excess of appropriations or apportionments, pursuant to section 3679(i)(2), Revised Statutes (31 U.S.C. 665(i)(2)); to the Committee on Appropriations.

7. A letter from the Secretary of Health, Education, and Welfare, transmitting a report of a violation of section 3679, Revised Statutes, involving overobligations of the appropriations for "Departmental management," pursuant to 31 U.S.C. 665(i)(2); to the Committee on Appropriations.

8. A letter from the Deputy Director, Office of Management and Budget, Executive Office of the President, transmitting a report that the appropriation to the Department of Justice for "Fees and expenses of witnesses" for fiscal year 1973, has been apportioned on a basis which indicates the necessity for a supplemental estimate of appropriation, pursuant to 31 U.S.C. 665; to the Committee on Appropriations.

9. A letter from the Deputy Director, Office of Management and Budget, Executive Office of the President, transmitting a report that the appropriation to the Department of Justice for "Support of U.S. prisoners" for fiscal year 1973, has been apportioned on a basis which indicates the necessity for a supplemental estimate of appropriation, pursuant to 31 U.S.C. 665; to the Committee on Appropriations.

10. A letter from the Deputy Director, Office of Management and Budget, Executive Office of the President, transmitting a report that the appropriation to the Veterans' Administration for "Readjustment benefits" for fiscal year 1973, has been apportioned on a basis which indicates the necessity for a supplemental estimate of appropriation, pursuant to 31 U.S.C. 665; to the Committee on Appropriations.

11. A letter from the Assistant Administrator, Agency for International Development, Department of State, transmitting a report of architectural and engineering fees exceeding $25,000, covering the 6 months ended December 31, 1971, pursuant to section 102 of the Foreign Assistance and Related Programs Appropriations Act (82 Stat. 1139); to the Committee on Appropriations.

12. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a report covering the period January 1 through June 30, 1972, that no use was made of foreign currencies to make payments under contracts in a foreign country, pursuant to section 737 of Public Law 92–204 and section 109 of Public Law 92–160; to the Committee on Appropriations.

13. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a report of receipts and disbursements pertaining to the disposal of surplus military supplies and for expenses involving the production of lumber and timber products, for the fourth quarter of fiscal year 1972, pursuant to section 712, Public Law 92–204; to the Committee on Appropriations.

14. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a report on support furnished to the Vietnamese, other free world forces in Vietnam, and support of local forces in Laos and Thailand, for the fourth quarter of fiscal year 1972, pursuant to section 738(b) of Public Law 92–204; to the Committee on Appropriations.

15. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a report of support furnished to the Vietnamese and other free world forces in Vietnam, and support of local forces in Laos, for the first quarter of fiscal year 1973, pursuant to section 737(b) of Public Law 92–570; to the Committee on Appropriations.

16. A letter from the Assistant Secretary of the Interior, transmitting certification that an adequate soil survey and land classification has been made of the lands in the Narrows unit (including the central Colorado Conservancy District), South Platte Division, Pick-Sloan Missouri Basin program, Colorado, pursuant to Public Law 172, 83d Congress; to the Committee on Appropriations.

17. A letter from the Assistant Secretary of the Interior, transmitting certification that an adequate soil survey has been made of the lands in the Pajoaque unit, San Juan-Chama project, New Mexico, pursuant to Public Law 172, 83d Congress; to the Committee on Appropriations.

18. A letter from the Chairman, Atomic Energy Commission, transmitting a report of an overobligation in an Atomic Energy Commission allotment account (Division of Biomedical and Environmental Research), pursuant to section 3679 of the Revised Statutes, as amended; to the Committee on Appropriations.

19. A letter from the Chairman, Atomic Energy Commission, transmitting a report of an overobligation in an Atomic Energy Commission allotment account (Nevada Operations Office), pursuant to section 3679 of the Revised Statutes, as amended; to the Committee on Appropriations.

20. A letter from the Director, Office of Emergency Preparedness, Executive Office of the President, transmitting the semiannual report on the strategic and critical materials stockpiling program for the period January 1 to June 30, 1972, pursuant to section 4, Public Law 520, 79th Congress; to the Committee on Armed Services.

21. A letter from the Assistant Secretary of State for Congressional Relations, transmitting a report showing the Laos assistance-related funds expended during the first quarter of the fiscal year beginning July 1, 1972, pursuant to section 602, Public Law 92–436; to the Committee on Armed Services.

22. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a report of contract award dates (weapon systems) for the period November 15, 1972, to February 15, 1973, pursuant to section 506, Public Law 92–156; to the Committee on Armed Services.

23. A letter from the Deputy Assistant Secretary of Defense (Installations and Housing), transmitting reports of military construction projects placed under contract in fiscal year 1972 in which it was necessary to exceed the amount authorized by more than 25 percent or to reduce the project scope in order to award within the authorization amount, pursuant to section 703(d), Public Law 92–145; to the Committee on Armed Services.

24. A letter from the Deputy Assistant Secretary of Defense (Installations and Housing), transmitting notification of 32 construction projects proposed to be undertaken for the Army National Guard, pursuant to 10 U.S.C. 2233a(1); to the Committee on Armed Services.

25. A letter from the Deputy Assistant Secretary of Defense (Installations and Housing), transmitting notification of 32 facilities projects proposed to be undertaken for Army Reserve, pursuant to 10 U.S.C. 2233a(1); to the Committee on Armed Services.

26. A letter from the Deputy Assistant Secretary of Defense (Installations and Housing), transmitting notice of various construction projects proposed to be undertaken for the Army Reserve, pursuant to 10 U.S.C. 2233a(1); to the Committee on Armed Services.

27. A letter from the Deputy Assistant Secretary of Defense (Installations and Housing), transmitting notification of 17 construction projects proposed to be undertaken for the Air National Guard, pursuant to 10 U.S.C. 2233a(1); to the Committee on Armed Services.

28. A letter from the Deputy Assistant Secretary of Defense (Installations and Housing), transmitting notification of 17 facilities projects proposed to be undertaken for the Air Force Reserve, pursuant to 10 U.S.C. 2233a(1); to the Committee on Armed Services.

29. A letter from the Deputy Assistant Secretary of Defense (Manpower and Reserve Affairs), transmitting a report for fiscal year 1972 of certain employees of the Department of Defense presently or formerly employed by certain defense contractors, pursuant to section 410(d) of Public Law 91–121; to the Committee on Armed Services.

30. A letter from the Director, Defense Civil Preparedness Agency, transmitting a report on property acquisitions of emergency supplies and equipment covering the quarter ended September 30, 1972, pursuant to section 201(h) of the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2281(h)); to the Committee on Armed Services.

31. A letter from the Acting Director, Defense Civil Preparedness Agency, transmitting a report covering the quarter ended September 30, 1972, on financial contributions to States for civil defense equipment and facilities, pursuant to section 201(i) of the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2281(i)); to the Committee on Armed Services.

32. A letter from the Secretary of the Army, transmitting reports of the number of officers on duty with Headquarters, Department of the Army and detailed to the Army General Staff on September 30, 1972, pursuant to 10 U.S.C. 3031(c); to the Committee on Armed Services.

33. A letter from the Acting Secretary of the Air Force, transmitting a report of officers on flying status above the grade of major as of October 31, 1972, pursuant to 37 U.S.C. 301(g); to the Committee on Armed Services.

34. A letter from the Acting Chief of Legislative Affairs, Department of the Navy, transmitting notice of the proposed donation of three surplus steam locomotives, pursuant to 10 U.S.C. 7545; to the Committee on Armed Services.

35. A letter from the Assistant Secretary of Transportation for Administration, transmitting a list of the purchases and contracts made by the U.S. Coast Guard for research and national defense during the period April 1 through September 30, 1972, pursuant to 10 U.S.C. 2304(e); to the Committee on Armed Services.

36. H.R. 195. A bill to establish a National Fire Data and Information Clearinghouse, and for other purposes; to the Committee on Science and Astronautics.

H.R. 196. A bill to provide for the creation of the National Fire Academy, and for other purposes; to the Committee on Science and Astronautics.

H.R. 197. A bill to provide the Secretary of Commerce with the authority to make grants to States, counties, and local communities to pay for up to one-half of the costs of training programs for firemen; to the Committee on Science and Astronautics.

H.R. 198. A bill to provide financial aid to local fire departments in the purchase of advanced firefighting equipment; to the Committee on Science and Astronautics.

H.R. 199. A bill to provide the Secretary of

Commerce with the authority to make grants to accredited institutions of higher education to pay for up to one-half of the costs of fire science programs; to the Committee on Science and Astronautics.

By Mr. DON H. CLAUSEN:

H.R. 200. A bill to establish a contiguous fishery zone (200-mile limit) beyond the territorial sea of the United States; to the Committee on Merchant Marine and Fisheries.

By Mr. KING:

H.R. 201. A bill to amend titles 10 and 14, United States Code, to require a cadet or graduate of a military academy to refund a portion of the cost of his educational training received at the Academy, if he is separated by reason of conscientious objection before completing the course of instruction at the Academy or his active duty obligation; to the Committee on Armed Services.

H.R. 202. A bill to amend the Internal Revenue Code of 1954 to allow a taxpayer a deduction from gross income for tuition and certain transportation expenses paid by him in connection with education of himself, his spouse, or any of his dependents at an institution of higher education; to the Committee on Ways and Means.

By Mr. MAILLIARD:

H.R. 203. A bill to amend title III of the National Housing Act to authorize the Government's National Mortgage Association to guarantee obligations issued by State agencies to finance low- and moderate-income housing; to the Committee on Banking and Currency.

By Mr. MELCHER (for himself, Mr. ALEXANDER, Mr. BERGLAND, Mr. BURLISON of Missouri, Mr. DENHOLM, Mr. HUNGATE, and Mr. LITTON):

H.R. 204. A bill to amend the Budget and Accounting Act of 1921 to require the advice and consent of the Senate for appointments to Director of the Office of Management and Budget; to the Committee on Government Operations.

By Mr. METCALFE:

H.R. 205. A bill to prohibit the importation, manufacture, sale, purchase, transfer, receipt, or transportation of handguns, in any manner affecting interstate or foreign commerce, except for or by members of the Armed Forces, law enforcement officials, and, as authorized by the Secretary of the Treasury, licensed importers, manufacturers, dealers, and pistol clubs; to the Committee on the Judiciary.

H.R. 206. A bill to provide for the compensation of innocent victims of violent crime in need; to make grants to States for the payment of such compensation; to authorize an insurance program and death and disability benefits for public safety officers; to provide civil remedies for victims of racketeering activity; and for other purposes; to the Committee on the Judiciary.

H.R. 207. A bill to assist in reducing crime by requiring speedy trials in cases of persons charged with violations of Federal criminal laws, to strengthen controls over dangerous defendants released prior to trial, to provide means for effective supervision and control of such defendants, and for other purposes; to the Committee on the Judiciary.

By Mrs. MINK:

H.R. 208. A bill to authorize the Secretary of Health, Education, and Welfare to make grants to conduct special educational programs and activities designed to achieve educational equity for all students, men, and women, and for other related educational purposes; to the Committee on Education and Labor.

By Mr. MURPHY of New York:

H.R. 209. A bill to amend the Communications Act of 1934 in order to provide for the regulation of networks; to the Committee on Interstate and Foreign Commerce.

By Mr. ROE:

H.R. 210. A bill to insure international cooperation in the prosecution or extradiction to the United States of persons alleged to have committed aircraft piracy against the laws of the United States or international law; to the Committee on Interstate and Foreign Commerce.

By Mr. RONCALIO of Wyoming:

H.R. 211. A bill to amend section 4182 of the Internal Revenue Code of 1954; to the Committee on Ways and Means.

H.R. 212. A bill to provide that railroad employees may retire on a full annuity at age 60 or after serving 30 years; to provide that such annuity for any month shall be not less than one-half of the individual's average monthly compensation for the 5 years of highest earnings, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 213. A bill to provide for the equalization of the retired pay of members of the uniformed services of equal grade and years of service; to the Committee on Armed Services.

H.R. 214. A bill to amend section 35 of the Mineral Leasing Act of 1920 with respect to the disposition of the proceeds of sales, bonuses, royalties, and rentals under such act; to the Committee on Interior and Insular Affairs.

H.R. 215. A bill to authorize the Secretary of the Interior to construct, operate, and maintain the Polecat Bench area of the Shoshone extensions unit, Pick-Sloan Missouri Basin program, Wyoming, and for other purposes; to the Committee on Interior and Insular Affairs.

By Mr. RUNNELS:

H.R. 216. A bill to repeal the Gun Control Act of 1968, to reenact the Federal Firearms Act, to make the use of a firearm to commit certain felonies a Federal crime where that use violates State law, and for other purposes; to the Committee on the Judiciary.

By Mrs. SULLIVAN:

H.R. 217. A bill to amend title II of the Social Security Act to provide that no reduction shall be made in old-age insurance benefit amounts to which a woman is entitled if she has 120 quarters of coverage; to the Committee on Ways and Means.

By Mr. VEYSEY:

H.R. 218. A bill to amend the Social Security Act to make certain that recipients of aid or assistance under the various Federal-State public assistance and medicaid programs (and recipients of assistance under the veterans' pension and compensation programs or any other Federal or federally assisted program) will not have the amount of such aid or assistance reduced because of increases in monthly social security benefits; to the Committee on Ways and Means.

H.R. 219. A bill to promote the use of low-pollution motor fuels by equalizing the tax treatment of liquified and compressed natural gas; to the Committee on Ways and Means.

By Mr. WYMAN:

H.R. 220. A bill to create a corporation for profit to develop commercially feasible processes for the conversion of coal to crude oil and other liquid and gaseous hydrocarbons, and for other purposes; to the Committee on Interstate and Foreign Commerce.

By Mr. YOUNG of Florida:

H.R. 221. A bill to amend title 10, United States Code, to equalize the retirement pay of members of the uniformed services of equal ranks and years of service, and for other purposes; to the Committee on Armed Services.

By Mr. KASTENMEIER:

H.R. 222. A bill to provide for the appointment of an additional district judge for the western district of Wisconsin; to the Committee on the Judiciary.

By Ms. ABZUG:

H.R. 223. A bill to amend the Food Stamp Act of 1964; to the Committee on Agriculture.

H.R. 224. A bill to amend title 10 of the United States Code to provide that abortions, sterilizations, and family planning services be performed in facilities of the uniformed services, and for other purposes; to the Committee on Armed Services.

H.R. 225. A bill to amend the Economic Stabilization Act of 1970 to exempt from its provisions fringe benefits offered in connection with a contract of employment; to the Committee on Banking and Currency.

H.R. 226. A bill to make needed housing available for the elderly; to the Committee on Banking and Currency.

H.R. 227. A bill to establish a program of direct loans to tenant and other nonprofit organizations to assist in the rehabilitation of substandard multifamily housing for occupancy by low-income and moderate-income persons; to the Committee on Banking and Currency.

H.R. 228. A bill to amend the U.S. Housing Act of 1937 to provide for grants to local public housing agencies to assist in financing security arrangements designed to prevent crimes and otherwise insure the safety and well-being of low-rent housing tenants; to the Committee on Banking and Currency.

H.R. 229. A bill to amend section 236 of the National Housing Act and section 101 of the Housing and Urban Development Act of 1965 to reduce from 25 to 20 percent of the tenant's income the maximum rent which may be charged for a dwelling unit in a section 236 project or a dwelling unit qualifying for assistance under the rent supplement program; to the Committee on Banking and Currency.

H.R. 230. A bill to establish a National Bank for Cooperative Housing to aid in financing the purchase and construction of low- and middle-income cooperative housing; to the Committee on Banking and Currency.

H.R. 231. A bill to amend the Urban Mass Transportation Act of 1964 to authorize grants and loans to private nonprofit organizations to assist them in providing transportation service meeting the special needs of elderly and handicapped persons; to the Committee on Banking and Currency.

H.R. 232. A bill to provide a comprehensive program of employment services and opportunities for middle-aged and older Americans; to the Committee on Education and Labor.

H.R. 233. A bill to provide for an immediate end to U.S. involvement in hostilities in and over Indochina, for the signing of a peace agreement with the Democratic Republic of Vietnam, and for the withdrawal of all U.S. Armed Forces and Defense Department personnel from Indochina, and for other purposes; to the Committee on Foreign Affairs.

H.R. 234. A bill to establish a Department of Elder Affairs, and for other purposes; to the Committee on Government Operations.

H.R. 235. A bill to amend the Federal Aviation Act of 1958 and the Interstate Commerce Act in order to authorize free or reduced rate transportation for persons who are 62 years of age or older; to the Committee on Interstate and Foreign Commerce.

H.R. 236. A bill to exonerate and to provide for a general and unconditional amnesty for certain persons who have violated or are alleged to have violated laws in the course of protest against the involvement of the United States in Indochina, and for other purposes; to the Committee on the Judiciary.

H.R. 237. A bill to amend the Public Works and Economic Development Act of 1965; to the Committee on Public Works.

H.R. 238. A bill to require the President to notify the Congress whenever he impounds funds, or authorizes the impounding of funds, and to provide a procedure under which the House of Representatives and the Senate may approve the President's action or require the President to cease such action; to the Committee on Rules.

H.R. 239. A bill to amend section 203(e)(2) of the Federal-State Extended Unemployment Compensation Act of 1970; to the Committee on Ways and Means.

H.R. 240. A bill to provide relief to certain individuals 62 years of age and over who own or rent their homes, through income tax credits and refunds; to the Committee on Ways and Means.

H.R. 241. A bill to amend the tariff and trade laws of the United States to promote full employment and restore a diversified production base; to amend the Internal Revenue Code of 1954 to stem the outflow of U.S. capital, jobs, technology, and production, control multinational corporations, and for other purposes; to the Committee on Ways and Means.

H.R. 242. A bill to make certain that recipients of aid or assistance under the various Federal-State public assistance and other aid programs will not have the amount of such aid or assistance reduced because of increases in monthly social security benefits; to the Committee on Ways and Means.

H.R. 243. A bill to amend title XVIII of the Social Security Act to eliminate all the deductibles, coinsurance, and time limitations presently applicable to benefits thereunder, to eliminate medicare taxes as the method of financing hospital insurance benefits and premium payments as the method of financing supplementary medical insurance benefits (so that all benefits under such title will be financed from general revenues), and to provide payment for eye care, dental care, hearing aids, prescription drugs, prosthetics, and certain other items not now covered; to the Committee on Ways and Means.

H.R. 244. A bill to amend title XIX of the Social Security Act to prohibit the imposition of any deduction, cost sharing, coinsurance, enrollment fee, premium, or similar charge with respect to individuals receiving services under a State plan for medical assistance; to the Committee on Ways and Means.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Bingham, Mr. Conte, Mr. Conyers, Mr. Corman, Mr. Fish, Mr. Gibbons, Mr. Harrington, Mr. Koch, Mr. McCloskey, Mr. Podell, Mr. Rangel, Mr. Riegel, Mr. Rosenthal, and Mr. Tiernan):

H.R. 245. A bill to exempt child care services from the ceiling on expenditures for social services; to the Committee on Ways and Means.

By Ms. ABZUG (for herself, Mr. Bell, Mr. Bingham, Mr. Conte, Mr. Corman, Mr. Gibbons, Mr. Harrington, Miss Holtzman, Mr. Koch, Mr. Lent, Mr. McCloskey, Mr. Moss, Mr. O'Hara, Mr. Podell, Mr. Rangel, Mr. Rees, Mr. Riegle, Mr. Rosenthal, Mr. Studds, and Mr. Tiernan):

H.R. 246. A bill to prohibit discrimination by any party to a federally related mortgage transaction on the basis of sex or marital status and to require all parties to any such transaction to submit appropriate reports thereon for public inspection; to the Committee on Banking and Currency.

H.R. 247. A bill to amend the Truth in Lending Act, to prohibit discrimination by creditors against individuals on the basis of sex or marital status with respect to the extension of credit; to the Committee on Banking and Currency.

H.R. 248. A bill to prohibit discrimination by any federally insured bank, savings and loan association, or credit union against any individual on the basis of sex or marital status in credit transactions and in connection with applications for credit, and for other purposes; to the Committee on Banking and Currency.

By Ms. ABZUG (for herself, Mr. Bell, Mr. Corman, Mr. Gibbons, Mr. Harrington, Miss Holtzman, Mr. Koch, Mr. Moss, Mr. O'Hara, Mr. Podell, Mr. Rangel, Mr. Riegle, Mr. Rosenthal, and Mr. Tiernan):

H.R. 249. A bill to prohibit discrimination on the basis of sex, and for other purposes; to the Committee on the Judiciary.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Conyers, Mr. Gibbons, Mr. Harrington, Mr. Koch, Mr. McCloskey, Mr. Podell, Mr. Rangel, Mr. Rees, Mr. Riegle, Mr. Rosenthal, and Mr. Tiernan):

H.R. 250. A bill to provide a comprehensive child development program in the Department of Health, Education, and Welfare; to the Committee on Education and Labor.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Conte, Mr. Conyers, Mr. Harrington, Mr. Koch, Mr. McCloskey, Mr. Podell, Mr. Rangel, Mr. Rees, Mr. Riegle, Mr. Rosenthal, and Mr. Tiernan):

H.R. 251. A bill to amend the Internal Revenue Code of 1954 in relation to deduction for business expenses for care of certain dependents; to the Committee on Ways and Means.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Conyers, Mr. Harrington, Mr. Podell, and Mr. Tiernan):

H.R. 252. A bill to amend title II of the Social Security Act to provide that an individual who resides with and maintains a household for another person or persons (while such person or any of such persons is employed or self-employed) shall be considered as performing covered services in maintaining such household and shall be credited accordingly for benefit purposes; to the Committee on Ways and Means.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Conyers, Mr. Harrington, Mr. Podell, and Mr. Rosenthal):

H.R. 253. A bill to amend title II of the Social Security Act to reduce from 20 to 5 years the length of time a divorced woman's marriage to an insured individual must have lasted in order for her to qualify for wife's or widow's benefits on his wage record; to the Committee on Ways and Means.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Conyers, Mr. Gibbons, Mr. Harrington, Mr. McCloskey, Mr. Podell, and Mr. Rangel):

H.R. 254. A bill to enforce the constitutional right of females to terminate pregnancies that they do not wish to continue; to the Committee on the Judiciary.

By Ms. ABZUG (for herself, Mr. Badillo, Mr. Gibbons, Mr. Harrington, Mr. Koch, Mr. Moss, and Mr. Podell):

H.R. 255. A bill to prohibit any instrumentality of the United States from using as a prefix to the name of any person any title which indicates marital status, and for other purposes; to the Committee on the Judiciary.

By Mr. ANDERSON of California:

H.R. 256. A bill to limit Federal payments to individual farm producers to $10,000 per crop per farm; to the Committee on Agriculture.

H.R. 257. A bill to amend title 10, United States Code, to equalize the retirement pay of members of the uniformed services of equal rank and years of service, and for other purposes; to the Committee on Armed Services.

H.R. 258. A bill to provide for public disclosure by Members of the House of Representatives, Members of the U.S. Senate, justices and judges of the U.S. courts, and policymaking officials of the executive branch as designated by the Civil Service Commission, but including the President, Vice President, and Cabinet members; and by candidates for the House of Representatives and the Senate, the Presidency, and the Vice-Presidency; and to give the House Committee on Standards of Official Conduct, the Senate Select Committee on Standards and Conduct, the Director of the Administrative Office of the U.S. Courts, and the Attorney General of the United States appropriate jurisdiction; to the Committee on the Judiciary.

H.R. 259. A bill to amend title 23 of the United States Code to authorize construction of exclusive or preferential bicycle lanes, and for other purposes; to the Committee on Public Works.

H.R. 260. A bill to provide for the establishment of a national cemetery in Los Angeles County in the State of California; to the Committee on Veterans' Affairs.

By Mr. ANDERSON of California (for himself and Mr. Matsunaga):

H.R. 261. A bill to establish the Cabinet Committee for Asian American Affairs, and for other purposes; to the Committee on Government Operations.

By Mr. ANNUNZIO:

H.R. 262. A bill to amend the Labor-Management Reporting and Disclosure Act of 1959 with respect to the terms of office of officers of local labor organizations; to the Committee on Education and Labor.

H.R. 263. A bill to amend the Legislative Reorganization Act of 1946 to provide for annual reports to the Congress by the Comptroller General concerning certain price increases in Government contracts and certain failures to meet Government contract completion dates; to the Committee on Government Operations.

H.R. 264. A bill to establish a Federal program to encourage the voluntary donation of pure and safe blood, to require licensing and inspection of all blood banks, and to establish a national registry of blood donors; to the Committee on Interstate and Foreign Commerce.

H.R. 265. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 266. A bill to authorize the Attorney General to make grants to certain law enforcement officers in reimbursement for costs incurred by such officers in certain legal actions arising out of the performance of official duties; to the Committee on the Judiciary.

H.R. 267. A bill to amend the Immigration and Nationality Act to facilitate the entry of foreign tourists into the United States, and for other purposes; to the Committee on the Judiciary.

H.R. 268. A bill to amend section 203(a)(2) of the Immigration and Nationality Act to provide that parents of lawful resident aliens shall be eligible for second preference immigrant visas; to the Committee on the Judiciary.

H.R. 269. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide a system for the redress of law enforcement officers' grievances and to establish a law enforcement officers' bill of rights in each of the several States, and for other purposes; to the Committee on the Judiciary.

H.R. 270. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide a Federal minimum death and dismemberment benefit of public safety officers or their surviving dependents; to the Committee on the Judiciary.

H.R. 271. A bill to amend the River and Harbor Act of 1970 relating to the Chicago River, Ill.; to the Committee on Public Works.

H.R. 272. A bill to amend section 109 of title 38, United States Code, to provide hospital and medical care to certain members of the armed forces of nations allied or associated with the United States in World War I or World War II; to the Committee on Veterans' Affairs.

H.R. 273. A bill to amend the Internal Revenue Code of 1954 to allow a deduction, for income tax purposes, based on expenses incurred by the taxpayer for the higher education of his children; to the Committee on Ways and Means.

H.R. 274. A bill to amend the Internal Revenue Code of 1954 to permit an exemption, in an amount not exceeding the maximum social security benefit payable in the taxable year involved, for retirement income received by a taxpayer under a public retirement system or under any other system if the taxpayer is at least 65 years of age; to the Committee on Ways and Means.

H.R. 275. A bill to amend title II of the Social Security Act to increase to $750 in all cases the amount of the lump-sum death payment thereunder; to the Committee on Ways and Means.

H.R. 276. A bill to amend title XVIII of the Social Security Act to require that Public Health Service hospitals, Veterans' Administration hospitals, and hospitals receiving assistance under the Hill-Burton Act make available to persons entitled to benefits under the medicare program, at cost, prescription drugs not covered under that program, eyeglasses, and hearing aids; to the Committee on Ways and Means.

By Mr. ANNUNZIO (for himself, Mr. Carney of Ohio, and Mr. Dent):

H.R. 277. A bill to amend the act of March 2, 1931, to provide that certain proceedings of the Italian American War Veterans of the United States, Inc., shall be printed as a House document, and for other purposes; to the Committee on House Administration.

By Mr. ASHBROOK:

H.R. 278. A bill to amend section 4 of the Internal Security Act of 1950; to the Committee on Internal Security.

H.R. 279. A bill to protect the safety and welfare of American workers by providing for a uniform system of identification for all receptacles containing compressed gas; to the Committee on Interstate and Foreign Commerce.

H.R. 280. A bill to make it a Federal crime to kill or assault a fireman or law-enforcement officer engaged in the performance of his duties when the offender travels in interstate commerce or uses any facility of interstate commerce for such purposes; to the Committee on the Judiciary.

H.R. 281. A bill to amend chapter 44 of title 18, United States Code, to exempt ammunition from Federal regulation under the Gun Control Act of 1968; to the Committee on the Judiciary.

H.R. 282. A bill to extinguish Federal court jurisdiction to require attendance at a particular school of any student, because of race, color, creed, or sex; to the Committee on the Judiciary.

H.R. 283. A bill to guarantee that every employee of the Federal Government shall have the right to refrain from union activity; to the Committee on Post Office and Civil Service.

H.R. 284. A bill to modify ammunition recordkeeping requirements; to the Committee on Ways and Means.

H.R. 285. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; to the Committee on Ways and Means.

H.R. 286. A bill to amend the Internal Revenue Code of 1954 to allow an income tax credit for tuition expenses of the taxpayer or his spouse or a dependent at an institution of higher education, and an additional credit for gifts or contributions made to any institution of higher education; to the Committee on Ways and Means.

H.R. 287. A bill to amend title II of the Social Security Act to increase to $3,000 the amount of outside earnings permitted each year without deductions from benefits thereunder; to the Committee on Ways and Means.

H.R. 288. A bill to amend the Social Security Act to provide for medical and hospital care through a system of voluntary health insurance including protection against the catastrophic expenses of illness, financed in whole for low-income groups through issuance of certificates, and in part for all other persons through allowance of tax credits; and to provide effective utilization of available financial resources, health manpower, and facilities; to the Committee on Ways and Means.

By Mr. BELL:

H.R. 289. A bill to amend the Land and Water Conservation Fund Act of 1965, as amended; to the Committee on Interior and Insular Affairs.

H.R. 290. A bill to establish in the State of California the Toyon National Urban Park; to the Committee on Interior and Insular Affairs.

By Mr. BENNETT:

H.R. 291. A bill to protect the constitutional rights of those subject to the military justice system, to revise the Uniform Code of Military Justice, and for other purposes; to the Committee on Armed Services.

H.R. 292. A bill to amend chapter 47 (Uniform Code of Military Justice) of title 10, United States Code, to make certain improvements therein; to the Committee on Armed Services.

H.R. 293. A bill to amend title 10, United States Code, to permit the recomputation of retired pay of certain members and former members of the Armed Forces; to the Committee on Armed Services.

H.R. 294. A bill to require that employee pension plans meet certain minimum vesting and funding requirements; to the Committee on Education and Labor.

H.R. 295. A bill to eliminate hunger in the United States; to the Committee on Education and Labor.

H.R. 296. A bill to amend the act of June 27, 1960 (74 Stat. 220), relating to the preservation of historical and archeological data; to the Committee on Interior and Insular Affairs.

H.R. 297. A bill to amend section 4 of the Internal Security Act of 1950; to the Committee on Internal Security.

H.R. 298. A bill to assist in combating crime by reducing the incidence of recidivism, providing improved Federal, State, and local correctional facilities and services, strengthening administration of Federal corrections, strengthening control over probationers, parolees, and persons found not guilty by reason of insanity, and for other purposes; to the Committee on the Judiciary.

H.R. 299. A bill to amend the act of February 24, 1925, incorporating the American War Mothers, to permit certain stepmothers and adoptive mothers to be members of that organization; to the Committee on the Judiciary.

H.R. 300. A bill to amend title 5, United States Code, to correct certain inequities in the crediting of service in the National Guard (including technician service) for purposes of civil service retirement; to the Committee on Post Office and Civil Service.

H.R. 301. A bill to permit a State which has completed its portion of the Interstate System to use funds from the highway trust fund for urban mass transportation projects, and to increase the Federal share of the cost of such projects; to the Committee on Public Works.

H.R. 302. A bill to provide an annual general outline of the current Federal budgetary and fiscal situation, and for other purposes; to the Committee on Rules.

H.R. 303. A bill to provide for disclosure by lobbyists and for other purposes; to the Committee on Standards of Official Conduct.

H.R. 304. A bill to amend chapter 15 of title 38, United States Code, to provide for the payment of pensions to World War I veterans and their widows, subject to $3,000 and $4,200 annual income limitations; to provide for such veterans a certain priority in entitlement to hospitalization and medical care; and for other purposes; to the Committee on Veterans' Affairs.

H.R. 305. A bill to authorize the Architect of the Capitol to accept gifts of money for the enhancement of the Capitol Building or Grounds; to the Committee on Ways and Means.

H.R. 306. A bill to amend titles II and XVIII of the Social Security Act to remove the earnings limitation, to permit benefit payments to a widow, parent, or child despite his or her marriage if such marriage is annulled, to allow an individual to have military service excluded in the computation of his benefits in order to use such service for a civil service retirement annuity, to provide coverage for certain teachers, to provide for payment of prorated benefits for the month in which a beneficiary (or the insured individual) dies, to permit State agreements for hospital insurance coverage, and to provide supplementary medical insurance coverage for certain services furnished an individual at his home by a medical technician or registered nurse; to the Committee on Ways and Means.

H.R. 307. A bill to amend the Social Security Act to provide for medical and hospital care through a system of voluntary health insurance including protection against the catastrophic expenses of illness, financed in whole for low-income groups and in part for others through the issuance of redeemable certificates; and to provide effective utilization of available financial resources, health manpower, and facilities; to the Committee on Ways and Means.

H.R. 308. A bill to encourage employment among the needy; to the Committee on Ways and Means.

By Mr. BENNETT (for himself, Mr. Charles H. Wilson of California, Mr. Stratton, Mr. King, Mr. Randall, Mr. White, Mr. Mollohan, Mr. Spence, and Mr. Harrington):

H.R. 309. A bill to amend section 203 of title 37, United States Code, to provide additional pay for permanent professors at the U.S. Military Academy, U.S. Naval Academy, U.S. Air Force Academy, and U.S. Coast Guard Academy; to the Committee on Armed Services.

By Mr. BENNETT (for himself, Mr. Bob Wilson, Mr. Matsunaga, Mr. Steiger of Wisconsin, Mr. Badillo, Mr. Hastings, Mr. Hosmer, Mr. Ware, Mr. Harrington, Mr. Latta, Mr. Mayne, Mr. Edwards of California, Mr. Whitehurst, Mr. Clark, Mr. Alexander, Mr. O'Hara, Mr. Keating, Mr. Ichord, and Mr. Broyhill of North Carolina):

H.R. 310. A bill to amend chapter 5 of title 37, United States Code, to revise the special pay structure relating to members of the uniformed services, and for other purposes; to the Committee on Armed Services.

By Mr. BEVILL:

H.R. 311. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 312. A bill to amend the Federal Trade Commission Act (15 U.S.C. 41) to provide that under certain circumstances exclusive territorial arrangements shall not be deemed unlawful; to the Committee on Interstate and Foreign Commerce.

By Mr. BIAGGI:

H.R. 313. A bill to amend the Economic Stabilization Act of 1970 to provide that rents shall not be exempted from any application of this act solely upon the ground that such rents are subject to local rent control laws; to the Committee on Banking and Currency.

H.R. 314. A bill to amend the student loan provisions of the National Defense Education Act of 1958 to provide for cancellation of student loans for service in mental hospitals and schools for the handicapped; to the Committee on Education and Labor.

H.R. 315. A bill to pay grants to students enrolled in psychology, sociology, or social work in institutions of higher education to encourage their part-time employment and clinical training in certain hospitals for mental rehabilitation; to the Committee on Education and Labor.

By Mr. BINGHAM:

H.R. 316. A bill to protect the constitutional rights of those subject to the military justice system, to revise the Uniform Code of Military Justice, and for other purposes; to the Committee on Armed Services.

H.R. 317. A bill governing the use of the Armed Forces of the United States in the absence of a declaration of war by the Congress; to the Committee on Foreign Affairs.

H.R. 318. A bill to provide for reimbursement of U.S. cities for a portion of expenses incurred in connection with the entertainment of foreign officials; to the Committee on Foreign Affairs.

H.R. 319. A bill to encourage and assist the States in registering voters and in achieving efficient and convenient conduct of elections, and to establish within the Bureau of the Census an Election Assistance and Voter Registration Administration to carry out a program of election assistance, and for other purposes; to the Committee on House Administration.

H.R. 449. A bill to make any alien who becomes a public charge within 24 months of his arrival in the United States subject to deportation, and for other purposes; to the Committee on the Judiciary.

H.R. 450. A bill to amend the Internal Revenue Code of 1954 to allow a credit against income tax to individuals for tuition expenses incurred in providing private nonprofit elementary and secondary education; to the Committee on Ways and Means.

H.R. 451. A bill to amend the Internal Revenue Code of 1954 to provide for an increase in the amount of the personal exemptions for taxable years beginning after December 31, 1973; to the Committee on Ways and Means.

H.R. 452. A bill to amend the Internal Revenue Code of 1954 to provide a basic $5,000 exemption from income tax for amounts received as annuities, pensions, or other retirement benefits; to the Committee on Ways and Means.

H.R. 453. A bill to amend title II of the Social Security Act to increase to $3,000 (subject to further increases under the automatic adjustment provisions) the amount of outside earnings permitted each year without any deductions from benefits thereunder; to the Committee on Ways and Means.

By Mr. DELLENBACK:

H.R. 454. A bill to make rules governing the use of the Armed Forces of the United States in the absence of a declaration of war by the Congress; to the Committee on Foreign Affairs.

H.R. 455. A bill to amend the Wilderness Act for the purpose of removing wilderness areas from all forms of appropriation and disposition under mining and mineral leasing laws; to the Committee on Interior and Insular Affairs.

H.R. 456. A bill to authorize the Secretary of the Interior to construct, operate, and maintain the Olalla division of the Umpqua project, Oregon, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 457. A bill for the relief of the city of Oakridge, Oreg.; to the Committee on the Judiciary.

H.R. 458. A bill to provide for a temporary increase in the membership of the House of Representatives to 437 Members; to the Committee on the Judiciary.

H.R. 459. A bill to amend the Gun Control Act of 1968 to provide that certain records of the sale or delivery of firearms and ammunition shall be maintained for a period of only 1 year and shall thereafter be destroyed; to the Committee on the Judiciary.

H.R. 460. A bill to authorize the project for the Days Creek Dam, on the South Umpqua River, Oreg., for flood protection and other purposes; to the Committee on Public Works.

H.R. 461. A bill to modify ammunition recordkeeping requirements; to the Committee on Ways and Means.

By Mr. DENT (for himself and Mr. Perkins):

H.R. 462. A bill to revise the Welfare and Pension Plan Disclosure Act; to the Committee on Education and Labor.

By Mr. DERWINSKI:

H.R. 463. A bill to authorize the Secretary of the Interior to establish national parks or national recreation areas in those States which presently do not have a national recreation area; to the Committee on Interior and Insular Affairs.

By Mr. DICKINSON:

H.R. 464. A bill to equalize the retired pay of members of the uniformed services retired prior to June 1, 1958, whose retired pay is computed on laws enacted on or after October 1, 1949; to the Committee on Armed Services.

H.R. 465. A bill to reestablish November 11 as Veterans Day; to the Committee on the Judiciary.

H.R. 466. A bill to amend title 5, United States Code, to correct certain inequities in the crediting of National Guard technician service in connection with civil service retirement, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 467. A bill to amend title II of the Social Security Act so as to remove the limitation upon the amount of outside income which an individual may earn while receiving benefits thereunder; to the Committee on Ways and Means.

H.R. 468. A bill to amend title II of the Social Security Act to provide for cost-of-living increases in the benefits payable thereunder; to the Committee on Ways and Means.

H.R. 469. A bill to amend title II of the Social Security Act to provide that a woman may become entitled to full old-age insurance benefits at age 60; to the Committee on Ways and Means.

By Mr. DINGELL (for himself, Mr. Grover, Mr. Leggett, Mr. Forsythe, Mr. Blackburn, Mr. Vigorito, Mr. Bennett, Mr. Waldie, Mr. Udall, Mr. Ware, Mr. Wyman, Mr. Hechler of West Virginia, Mr. Obey, Mr. Yatron, Mr. Long of Maryland, Mr. Annunzio, Mr. Koch, Mr. Edwards of California, Mr. Rooney of Pennsylvania, Mr. Fraser, Mr. Corman, Mr. Carney of Ohio, Mr. Rhodes, Mr. Pettis, and Mr. Rodino):

H.R. 470. A bill to provide for the conservation, protection, and propagation of species or subspecies of fish and wildlife that are threatened with extinction or likely within the foreseeable future to become threatened with extinction, and for other purposes; to the Committee on Merchant Marine and Fisheries.

By Mr. DINGELL (for himself, Mr. Fish, Mr. Addabbo, Mr. Alexander, Mr. Mollohan, Mr. Mazzoli, Mr. Lent, Mr. Hungate, Mr. Dulski, Mr. Karth, Mr. Conte, Mr. Andrews of North Dakota, Mr. Podell, Mr. Esch, Mr. Helstoski, Mr. Rees, and Mr. Preyer):

H.R. 471. A bill to provide for the conservation, protection, and propagation of species or subspecies of fish and wildlife that are threatened with extinction or likely within the foreseeable future to become threatened with extinction, and for other purposes; to the Committee on Merchant Marine and Fisheries.

By Mr. DORN:

H.R. 472. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 473. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968, as amended, to provide benefits to survivors of certain public safety officers who die in the performance of duty; to the Committee on the Judiciary.

By Mr. DUNCAN:

H.R. 474. A bill to amend the Internal Revenue Code of 1954 to clarify the provision exempting from income taxes the income of members of the Armed Forces who die while serving in a combat zone; to the Committee on Ways and Means.

By Mr. EDWARDS of Alabama:

H.R. 475. A bill to amend the Social Security Act to make certain that recipients of aid or assistance under the various Federal-State public assistance and medicaid programs (and recipients of assistance under the veterans' pension and compensation programs or any other Federal or federally assisted program) will not have the amount of such aid or assistance reduced because of increases in monthly social security benefits; to the Committee on Ways and Means.

By Mr. EDWARDS of California:

H.R. 476. A bill to carry out the recommendations of the Presidential Task Force on Women's Rights and Responsibilities, and for other purposes; to the Committee on the Judiciary.

By Mr. ERLENBORN:

H.R. 477. A bill to amend title 38, United States Code, to provide veterans a 10-year delimiting period of completing educational programs; to the Committee on Veterans' Affairs.

H.R. 478. A bill to amend the Internal Revenue Code of 1954 to allow a credit against the individual income tax for tuition paid for the elementary or secondary education of dependents; to the Committee on Ways and Means.

By Mr. FASCELL (for himself and Mr. Conyers, Mr. O'Hara, Mr. Stokes, Mr. Mayne, Mr. Bell, Mr. W. C. (Dan) Daniel, Mr. Conte, Mr. Owens, Mr. Mazzoli, Mr. Podell, Mr. Rogers, Mr. Haley, Mr. Pritchard, Mr. Harrington, and Mr. Moss):

H.R. 479. A bill to provide that meetings of Government agencies and of congressional committees shall be open to the public, and for other purposes; to the Committee on Rules.

By Mr. FINDLEY:

H.R. 480. A bill to stimulate production of natural gas; to the Committee on Interstate and Foreign Commerce.

By Mr. FISH:

H.R. 481. A bill to repeal section 15 of the Urban Mass Transit Act of 1964, to remove certain limitations on the amount of grant assistance which may be available in any one State; to the Committee on Banking and Currency.

H.R. 482. A bill to require local governmental approval for section 235 or 236 housing; to the Committee on Banking and Currency.

H.R. 483. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968, as amended, to provide benefits to survivors of police officers, prison guards, and firemen killed in the line of duty; to the Committee on the Judiciary.

H.R. 484. A bill to amend section 205 of the Flood Control Act; to the Committee on Public Works.

H.R. 485. A bill to establish a national system of solid waste management; to the Committee on Ways and Means.

H.R. 486. A bill to amend the Internal Revenue Code of 1954 to allow a credit against the individual income tax for tuition paid for the elementary or secondary education of dependents; to the Committee on Ways and Means.

H.R. 487. A bill to amend title II of the Social Security Act to increase to $2,400 a year the amount of outside earnings a beneficiary may have without the loss of benefits; to the Committee on Ways and Means.

H.R. 488. A bill to amend titles II and XVIII of the Social Security Act to include qualified drugs requiring a physican's prescription or certification and approved by a Formulary Committee, among the items and services covered under the hospital insurance program; to the Committee on Ways and Means.

H.R. 489. A bill to make permanent the existing temporary provision for disregarding income of social security and railroad retirement recipients in determining their need for public assistance and to provide that no individual presently eligible for medical assistance under a State plan approved under title XIX of the Social Security Act shall lose such eligibility by reason of the recent 20-percent increase in social security benefits; to the Committee on Ways and Means.

By Mr. FISHER:

H.R. 490. A bill to amend the Housing and Urban Development Act of 1968 to require a public notice and public hearing concerning any application, with certain findings, involving interest reduction payments (or mortgage insurance) with respect to such project, as applied to sections 235 and 236, and for other purposes; to the Committee on Banking and Currency.

H.R. 491. A bill to amend the National Labor Relations Act to provide that employers shall not be required to bargain with labor organizations whose representative status has not been established by a secret ballot election; to the Committee on Education and Labor.

H.R. 492. A bill to limit and prevent certain concerted activities by labor organizations which interfere with or obstruct or impede the free production of goods for commerce or the free flow thereof in commerce, and for other purposes; to the Committee on Education and Labor.

H.R. 493. A bill to establish the Amistad National Recreation Area in the State of Texas; to the Committee on Interior and Insular Affairs.

H.R. 494. A bill to amend the Internal Revenue Code of 1954 to provide for the valuation of a decedent's interest in a closely held business for estate tax purposes; to the Committee on Ways and Means.

H.R. 495. A bill to amend title II of the Social Security Act to permit the payment of benefits to a married couple on their combined earnings record where that method of computation produces a higher combined benefit; to the Committee on Ways and Means.

H.R. 496. A bill to amend title II of the Social Security Act to increase to $3,000 the amount of outside earnings permitted each year without any deductions from benefits thereunder; to the Committee on Ways and Means.

H.R. 497. A bill to amend title II of the Social Security Act to prevent the issuance of social security numbers to aliens who are illegally in the United States, and to prohibit the payment of aid or assistance under approved State public assistance plans, or the provision of assistance in any form under any other Federal or federally aided program, to such aliens; to the Committee on Ways and Means.

H.R. 498. A bill to amend the tariff and trade laws of the United States to encourage the growth of international trade on a fair and equitable basis; to the Committee on Ways and Means.

By Mr. FLOOD:

H.R. 499. A bill to amend the Housing and Urban Development Act of 1968 with respect to flood insurance by establishing the National Disaster Insurance Fund, and for other purposes; to the Committee on Banking and Currency.

By Mr. FLOWERS:

H.R. 500. A bill to amend title 10, United States Code, to equalize the retirement pay of members of the uniformed services of equal rank and years of service, and for other purposes; to the Committee on Armed Services.

H.R. 501. A bill to amend the black lung benefits provisions of the Federal Coal Mine Health and Safety Act of 1969 to extend those benefits to miners who incur silicosis in iron mines; to the Committee on Education and Labor.

H.R. 502. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for expenses incurred by a taxpayer in making repairs and improvements to his residence; to the Committee on Ways and Means.

By Mr. FLYNT:

H.R. 503. A bill to amend title 10 of the United States Code, to provide that personal delivery of notification of death of servicemen to the next-of-kin may be made only by officers; to the Committee on Armed Services.

H.R. 504. A bill to amend title 10, United States Code, to permit the recomputation of retired pay of certain members and former members of the Armed Forces; to the Committee on Armed Services.

H.R. 505. A bill to permit injured Federal employees to receive benefits of the Federal employees compensation program notwithstanding they are in receipt of military retired pay, and for other purposes; to the Committee on Education and Labor.

H.R. 506. A bill to amend the Occupational Safety and Health Act of 1970 to require the Secretary of Labor to recognize the difference in hazards to employees between the heavy construction industry and the light residential construction industry; to the Committee on Education and Labor.

H.R. 507. A bill to amend the Occupational Safety and Health Act of 1970 to provide that where violations are corrected within the prescribed abatement period no penalty shall be assessed; to the Committee on Education and Labor.

H.R. 508. A bill requiring that each Member of Congress be notified of the intended disposition of federally owned real property in the district he represents; to the Committee on Government Operations.

H.R. 509. A bill to amend title 44, United States Code, to provide for 98 copies of the daily edition of the Congressional Record to be furnished to each Representative, Delegate, and Resident Commissioner in Congress; to the Committee on House Administration.

H.R. 510. A bill to authorize and direct the Secretary of Agriculture to convey any interest held by the United States in certain property in Jasper County, Ga., to the Jasper County Board of Education; to the Committee on Interior and Insular Affairs.

H.R. 511. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 512. A bill to amend the Federal Trade Commission Act (15 U.S.C. 45) to provide that under certain circumstances exclusive territorial arrangements shall not be deemed unlawful; to the Committee on Interstate and Foreign Commerce.

H.R. 513. A bill to amend the Uniform Time Act; to the Committee on Interstate and Foreign Commerce.

H.R. 514. A bill to make it a Federal crime to kill or assault a fireman or law enforcement officer engaged in the performance of his duties when the offender travels in interstate commerce or uses any facility of interstate commerce for such purposes; to the Committee on the Judiciary.

H.R. 515. A bill to amend title 18 and title 28 of the United States Code with respect to the trial and review of criminal actions involving obscenity, and for other purposes; to the Committee on the Judiciary.

H.R. 516. A bill to restrict travel in violation of area restrictions; to the Committee on the Judiciary.

H.R. 517. A bill to amend title 38, United States Code; to the Committee on Veterans' Affairs.

H.R. 518. A bill to amend title 38 of the United States Code with respect to the payment of certain benefits under that title; to the Committee on Veterans' Affairs.

H.R. 519. A bill to provide for annual adjustments in monthly monetary benefits administered by the Veterans' Administration, according to changes in the Consumer Price Index; to the Committee on Veterans' Affairs.

H.R. 520. A bill to amend section 4182 of the Internal Revenue Code of 1954; to the Committee on Ways and Means.

H.R. 521. A bill to amend title II of the Social Security Act to provide that a beneficiary who dies shall (if otherwise qualified) be entitled to a prorated benefit for the month of his death; to the Committee on Ways and Means.

By Mr. WILLIAM D. FORD:

H.R. 522. A bill to assist local educational agencies to provide quality education programs in elementary and secondary schools; to the Committee on Education and Labor.

H.R. 523. A bill to amend title 39, United States Code, as enacted by the Postal Reorganization Act, to facilitate direct communication between officers and employees of the U.S. Postal Service and Members of Congress, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 524. A bill to amend title 39, United States Code, as enacted by the Postal Reorganization Act, to prohibit the mailing of unsolicited samples of cigarettes; to the Committee on Post Office and Civil Service.

By Mr. WILLIAM D. FORD (for himself, Mr. MEEDS, Mr. O'HARA, Mr. BURTON, Mr. MAZZOLI, Mr. HAWKINS, Mr. THOMPSON of New Jersey, Mr. PERKINS, Mr. DINGELL, and Mr. BRADEMAS):

H.R. 525. A bill to amend the Elementary and Secondary Education Act of 1965 to provide financial assistance to the States for improved educational services for handicapped children; to the Committee on Education and Labor.

By Mr. WILLIAM D. FORD (for himself, Mr. MEEDS, Mr. O'HARA, Mr. HAWKINS, Mr. BELL, Mr. THOMPSON of New Jersey, and Mr. PERKINS):

H.R. 526. A bill to amend the Juvenile Delinquency Prevention and Control Act of 1968 to meet the needs of runaway youths and facilitate their return to their families without resort to the law-enforcement structure; to the Committee on Education and Labor.

By Mr. WILLIAM D. FORD (for himself and Mr. BIAGGI):

H.R. 527. A bill to authorize the Attorney General to make grants to certain law-enforcement officers in reimbursement for costs incurred by such officers in certain legal actions arising out of the performance of official duties; to the Committee on the Judiciary.

By Mr. WILLIAM D. FORD (for himself, Mr. CHARLES H. WILSON of California, Mr. WALDIE, Mr. THOMPSON of New Jersey, Mr. HAWKINS, and Mr. CLAY):

H.R. 528. A bill to amend title 39, United States Code, with respect to the financing of the cost of mailing certain matter free of postage or at reduced rates of postage, and for other purposes; to the Committee on Post Office and Civil Service.

By Mr. FRASER:

H.R. 529. A bill to provide for the control of noise along existing Federal-aid highways; to the Committee on Public Works.

By Mr. FUQUA:

H.R. 530. A bill to improve the quality of child development programs by attracting and training personnel for those programs; to the Committee on Education and Labor.

H.R. 531. A bill to amend the National Defense Education Act of 1958 to permit a reduction in institution contributions to student loan funds on account of expenditures in administering the program; to the Committee on Education and Labor.

H.R. 532. A bill to amend section 620 of the Foreign Assistance Act of 1961 to suspend, in whole or in part, economic and military assistance and certain sales to any country which fails to take appropriate steps to prevent narcotic drugs, produced or processed, in whole or in part, in such country from entering the United States unlawfully, and for other purposes; to the Committee on Foreign Affairs.

H.R. 533. A bill to amend the Federal Property and Administrative Services Act of 1949 to permit donations of surplus personal property to State fish and wildlife agencies; to the Committee on Government Operations.

H.R. 534. A bill to amend the Federal Property and Administrative Services Act of 1949 to permit donations of surplus property to volunteer firefighting organizations and volunteer rescue squads, and for other purposes; to the Committee on Government Operations.

H.R. 535. A bill to amend section 552 of title 5, United States Code, known as the Freedom of Information Act; to the Committee on Government Operations.

H.R. 536. A bill to amend the Legislative Reorganization Act of 1946 to provide for annual reports to the Congress by the Comptroller General concerning certain price increases in Government contracts and certain failures to meet Government completion dates; to the Committee on Government Operations.

H.R. 537. A bill to provide for the designation of law schools as depository libraries; to the Committee on House Administration.

H.R. 538. A bill to amend the act of June 27, 1960 (74 Stat. 220) relating to the preservation of historical and archeological data; to the Committee on Interior and Insular Affairs.

H.R. 539. A bill to create a national commission to study quality controls and manufacturing procedures of medical devices, surgical instruments, artificial organs and limbs, therapeutic instruments and devices, and other medical and hospital equipment; to determine the need for and the extent of Federal regulation of such medical devices; to determine the need for clarification of the definition of medical devices in Federal laws; and to recommend to the President and to the Congress methods for determining constructive minimum performance standards and feasible methods for Federal regulation; to the Committee on Interstate and Foreign Commerce.

H.R. 540. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 541. A bill to repeal the Gun Control Act of 1968, to reenact the Federal Firearms Act, to make the use of a firearm to commit certain felonies a Federal crime where that use violates State law, and for other purposes; to the Committee on the Judiciary.

H.R. 542. A bill to amend title 28, United States Code, to provide that Madison County, Fla., shall be included in the northern judicial district of Florida; to the Committee on the Judiciary.

H.R. 543. A bill to require the Council on Environmental Quality to hold public hearings in which all points of view can be expressed prior to any final action or recommendation by such Council to the President; to the Committee on Merchant Marine and Fisheries.

H.R. 544. A bill to amend title 5, United States Code, relating to qualifications for appointment and retention in the civil service; to the Committee on Post Office and Civil Service.

H.R. 545. A bill to amend title 5, United States Code, to include as creditable service for purposes of the civil service retirement system certain periods of service performed in Federal-State cooperative programs, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 546. A bill to amend title 13, United States Code, to provide for a mid-decade census of population in the year 1975 and every 10 years thereafter; to the Committee on Post Office and Civil Service.

H.R. 547. A bill to abolish the U.S. Postal Service, to repeal the Postal Reorganization Act, to reenact the former provisions of title 39, United States Code, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 548. A bill to amend title 39, United States Code, to exclude from the mails as a special category of nonmailable matter certain material offered for sale to minors, to improve the protection of the right of privacy by defining obscene mail matter, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 549. A bill to amend the act of August 13, 1946, to increase the Federal contribution to 90 percent of the cost of shore restoration and protection projects; to the Committee on Public Works.

H.R. 550. A bill to require the Secretary of the Army, acting through the Chief of Engineers, to engage in public works for the prevention and control of water pollution; to the Committee on Public Works.

H.R. 551. A bill to amend the River and Harbor Act of 1958 with respect to control and eradication of obnoxious aquatic plants; to the Committee on Public Works.

H.R. 552. A bill to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 to provide for minimum Federal payments after July 1, 1972, for relocation assistance made available under federally assisted programs and for an extension of the effective date of the act; to the Committee on Public Works.

H.R. 553. A bill to require the President to notify the Congress whenever he impounds funds, or authorizes the impounding of funds, and to provide a procedure under which the House of Representatives and the Senate may approve the President's action or require the President to cease such action; to the Committee on Rules.

H.R. 554. A bill to amend the National Aeronautics and Space Act of 1958 to provide for certain additional reports to the Congress, and for other purposes; to the Committee on Science and Astronautics.

H.R. 555. A bill to promote the advancement of science and the education of scientists through a national program of institutional grants to the colleges and universities of the United States; to the Committee on Science and Astronautics.

H.R. 556. A bill to provide special advisory and counseling assistance to veterans at institutions of higher education and to authorize, on a trial basis, a special program to aid veterans with academic deficiencies to gain entrance to institutions of higher education; to the Committee on Veterans' Affairs.

H.R. 557. A bill to amend the Internal Revenue Code of 1954 to provide reasonable and necessary income tax incentives to encourage the utilization of recycled solid waste materials and to offset existing income tax advantages which promote depletion of virgin natural resources; to the Committee on Ways and Means.

H.R. 558. A bill to amend the Internal Revenue Code of 1954 to provide that married individuals who file separate returns shall be taxed at the same income tax rates as unmarried individuals and to provide a special rule in the case of earned income which is community income; to the Committee on Ways and Means.

H.R. 559. A bill to amend the Internal Revenue Code of 1954 and the Social Security Act to provide a comprehensive program of health care for the 1970's by strengthening the organization and delivery of health care nationwide and by making comprehensive health care insurance available to all Americans, and for other purposes; to the Committee on Ways and Means.

H.R. 560. A bill to amend section 21 of the Second Liberty Bond Act to provide for the retirement of the public debt; to the Committee on Ways and Means.

H.R. 561. A bill to amend title II of the Social Security Act to increase to $3,600 (or $4,200 in the case of a widow entitled to mother's insurance benefits) the amount of outside earnings which (subject to further increases under the automatic adjustment provisions) is permitted each year without any deductions from benefits thereunder; to the Committee on Ways and Means.

H.R. 562. A bill to amend the Social Security Act to provide for medical and hospital care through a system of voluntary health insurance including protection against the catastrophic expenses of illness, financed in whole for low-income groups through issuance of certificates, and in part for all other persons through allowance of tax credits; and to provide effective utilization of available financial resources, health manpower, and facilities; to the Committee on Ways and Means.

H.R. 563. A bill to amend the Tariff Act of 1930 to eliminate, in the case of shrimp vessels, the duty on repairs made to, and repair parts and equipments purchased for, such vessels in foreign countries, and for other purposes; to the Committee on Ways and Means.

By Mr. FUQUA (for himself and Mr. BROWN of Ohio).

H.R. 564. A bill to establish an independent Consumer Protection Agency, and for other purposes; to the Committee on Government Operations.

By Mr. GIBBONS:

H.R. 565. A bill to amend the Communications Act of 1934 to provide that renewal licenses for the operation of a broadcasting station may be issued for a term of 5 years and to establish certain standards for the consideration of applications for renewal of broadcasting licenses; to the Committee on Interstate and Foreign Commerce.

By Mr. GOODLING:

H.R. 566. A bill to amend the Federal Trade Commission Act (15 U.S.C. 41 et seq.) to provide that under certain circumstances exclusive territorial arrangements shall not be deemed unlawful; to the Committee on Interstate and Foreign Commerce.

By Mr. GOODLING (for himself and Mr. DINGELL):

H.R. 567. A bill to amend the Migratory Bird Treaty Act to prohibit during specified periods the feeding of migratory game birds and to impose penalties for such feeding, to increase the maximum fine for certain other violations of such act, and for other purposes; to the Committee on Merchant Marine and Fisheries.

By Mrs. GRASSO:

H.R. 568. A bill to amend title 38 of the United States Code to promote the care and treatment of veterans in State veterans' homes, and for other purposes; to the Committee on Veterans' Affairs.

H.R. 569. A bill to amend the Tariff Schedules of the United States in order to make specific provisions for ball or roller bearing pillow block, flange, take-up, cartridge, and hanger units; to the Committee on Ways and Means.

H.R. 570. A bill to provide for orderly trade in antifriction ball and roller bearings and parts thereof; to the Committee on Ways and Means.

By Mrs. GREEN of Oregon:

H.R. 571. A bill to provide congressional due process in questions of war powers as required by the Constitution of the United States; to the Committee on Armed Services.

H.R. 572. A bill to provide a remedy for sex discrimination by the insurance business with respect to the availability and scope of insurance coverage for women; to the Committee on Interstate and Foreign Commerce.

By Mr. GREEN of Pennsylvania:

H.R. 573. A bill to assist in community development, with particular reference to small communities; to the Committee on Banking and Currency.

H.R. 574. A bill to amend title VII of the Housing and Urban Development Act of 1965 to authorize financial assistance for the provision of street lighting facilities in aid of the prevention or reduction of crime; to the Committee on Banking and Currency.

H.R. 575. A bill to amend the Urban Mass Transportation Act of 1964 to authorize certain grants to assure adequate commuter service in urban areas, and for other purposes; to the Committee on Banking and Currency.

H.R. 576. A bill to amend the Urban Mass Transportation Act of 1964 to authorize certain emergency grants to assure adequate rapid transit and commuter railroad service in urban areas, and for other purposes; to the Committee on Banking and Currency.

H.R. 577. A bill to amend the Urban Mass Transportation Act of 1964 to provide emergency grants for operating subsidies to urban mass transportation systems on the basis of passengers serviced; to the Committee on Banking and Currency.

H.R. 578. A bill to provide a comprehensive child development program in the Department of Health, Education, and Welfare; to the Committee on Education and Labor.

H.R. 579. A bill to amend the National Public Employee Relations Act; to the Committee on Education and Labor.

H.R. 580. A bill to amend title 13, United States Code, to establish within the Bureau of the Census a National Voter Registration Administration for the purpose of administering a voter registration program through the mail, and for other purposes; to the Committee on House Administration.

H.R. 581. A bill to amend the act of June 28, 1948, to provide for the addition of certain property in Philadelphia, Pa., to Independence National Historical Park; to the Committee on Interior and Insular Affairs.

H.R. 582. A bill to amend title 42, section 246, subsection (b)(2)(A) of the United States Code; to the Committee on Interstate and Foreign Commerce.

H.R. 583. A bill to regulate interstate commerce by amending the Federal Food, Drug, and Cosmetic Act to provide for the inspection of facilities used in the harvesting and processing of fish and fishery products for commercial purposes, for the inspection of fish and fishery products, and for cooperation with the States in the regulation of intrastate commerce with respect to State fish inspection programs, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 584. A bill to regulate the interstate trafficking and sale of hypodermic needles and syringes; to the Committee on Interstate and Foreign Commerce.

H.R. 585. A bill to amend the Immigration and Nationality Act; to the Committee on the Judiciary.

H.R. 586. A bill to amend the Immigration and Nationality Act to make additional immigrant visas available for immigrants from certain foreign countries, and for other purposes; to the Committee on the Judiciary.

H.R. 587. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide increased assistance to correctional programs, to establish more detailed guidelines for such programs, and to create a streamlined administration of such assistance; to the Committee on the Judiciary.

H.R. 588. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968; to the Committee on the Judiciary.

H.R. 589. A bill to amend title 5, United States Code, to facilitate the collection of statistics with respect to the incidence of crime and to provide for the establishment of a National Crime Statistics Center, and for other purposes; to the Committee on the Judiciary.

H.R. 590. A bill to provide for the compensation of persons injured by certain criminal acts, to make grants to States for the payment of such compensation, and for other purposes; to the Committee on the Judiciary.

H.R. 591. A bill to amend the National Environmental Policy Act of 1969 to provide for citizens' suits and class actions in the U.S. district courts against persons responsible for creating certain environmental hazards; to the Committee on Merchant Marine and Fisheries.

H.R. 592. A bill to amend title 13, United States Code, to provide for a mid-decade census of population, unemployment, and housing in the year 1975 and every 10 years thereafter; to the Committee on Post Office and Civil Service.

H.R. 593. A bill to provide reimbursement to State accounts in the Unemployment Trust Fund for extraordinary unemployment compensation outlays resulting from the effects of hurricane and tropical storm Agnes, and for other purposes; to the Committee on Ways and Means.

H.R. 594. A bill to amend the Internal Revenue Code of 1954 to provide a special rule for industrial development bonds issued for reconstruction of certain disaster area losses; to the Committee on Ways and Means.

H.R. 595. A bill to amend the Internal Revenue Code of 1954 to allow a credit against the individual income tax for tuition paid for the elementary or secondary education of dependents; to the Committee on Ways and Means.

H.R. 596. A bill to amend the Internal Revenue Code of 1954 to include certain joint hospital laundry ventures among the cooperative hospital service organizations entitled to tax exemption thereunder; to the Committee on Ways and Means.

H.R. 597. A bill to require the Secretary of the Treasury to provide each taxpayer with an analysis of the proportionate dollar amounts of this taxpayment which were spent by the Federal Government, during the latest fiscal year for which data are available, for certain items; to the Committee on Ways and Means.

H.R. 598. A bill relating to withholding, for purposes of the income tax imposed by certain cities, on the compensation of Federal employees; to the Committee on Ways and Means.

H.R. 599. A bill to repeal the meat quota provisions of Public Law 88–482; to the Committee on Ways and Means.

H.R. 600. A bill to provide that office, industrial, or household appliances and equipment be conspicuously marked to show the foreign country of origin, and for other purposes; to the Committee on Ways and Means.

H.R. 601. A bill to amend the Tariff Schedules of the United States to repeal the special tariff treatment accorded to articles assembled abroad with components produced in the United States; to the Committee on Ways and Means.

H.R. 602. A bill to amend the Tariff Schedules of the United States to repeal the special tariff treatment accorded to articles assembled abroad with components produced in the United States; to the Committee on Ways and Means.

By Mr. GROSS:

H.R. 603. A bill to prohibit travel at Government expense outside the United States by defeated or retiring Members of Congress, and for other purposes; to the Committee on Foreign Affairs.

H.R. 604. A bill to create a catalog of Federal assistance programs, and for other purposes; to the Committee on Government Operations.

H.R. 605. A bill to amend the Uniform Time Act of 1966, in order to provide that daylight saving time shall be observed in the United States from the first Sunday following Memorial Day to the first Sunday following Labor Day; to the Committee on Interstate and Foreign Commerce.

H.R. 606. A bill to require judges of courts of the United States to file confidential statements with the Comptroller General of the United States, and for other purposes; to the Committee on the Judiciary.

H.R. 607. A bill to provide for a mandatory yea and nay vote on recommendations of the President fixing executive, legislative, and judicial pay; to the Committee on Post Office and Civil Service.

H.R. 608. A bill to abolish the Commission on Executive, Legislative, and Judicial Salaries established by section 225 of the Federal Salary Act of 1967, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 609. A bill to require that before import quotas on meats may be suspended or increased under subsection (d) (1) and (2) of the act, the Secretary of Agriculture must estimate that the average price expected to be received by producers for beef cattle will equal or exceed parity during the period of the suspension or increased quotas; to the Committee on Ways and Means.

By Mr. GROVER (for himself and Mr. BIAGGI):

H.R. 610. A bill to authorize the Secretary of the Interior to establish a National Law Enforcement Heroes Memorial within the District of Columbia, and for other purposes; to the Committee on House Administration.

By Mr. GUBSER:

H.R. 611. A bill to amend title 10, United States Code, to limit, and to provide more effective control with respect to the use of Government production equipment by private contractors under contracts entered into by the Department of Defense and certain other Federal agencies, and for other purposes; to the Committee on Armed Services.

H.R. 612. A bill to authorize equalization of the retired or retainer pay of certain members and former members of the uniformed services; to the Committee on Armed Services.

H.R. 613. A bill to establish a permanent Commission on Organization of the Executive Branch of the Government; to the Committee on Government Operations.

H.R. 614. A bill to provide for the erection of a monument on Alcatraz Island to serve as a western counterpart to the Statue of Liberty and commemorate the achievement of American independence; to the Committee on Interior and Insular Affairs.

H.R. 615. A bill to authorize the National Science Foundation to conduct research, educational, and assistance programs to prepare the country for conversion from defense to civilian, socially oriented research and development activities, and for other purposes; to the Committee on Science and Astronautics.

H.R. 616. A bill authorizing the Secretary of the Army to establish a national cemetery at Camp Parks, Calif., for northern California; to the Committee on Veterans' Affairs.

H.R. 617. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for purposes of the Federal estate tax for certain amounts left by the decedent to certain handicapped individuals; to the Committee on Ways and Means.

H.R. 618. A bill to permit one-half of the budget surplus for any fiscal year to be applied against the public debt and to provide that one-half of such surplus shall be applied as tax credits against individual income taxes; to the Committee on Ways and Means.

By Mr. HANSEN of Idaho:

H.R. 619. A bill to prohibit the licensing of hydroelectric projects on the Middle Snake River below Hells Canyon Dam at any time before September 30, 1978; to the Committee on Interstate and Foreign Commerce.

By Mrs. HANSEN of Washington:

H.R. 620. A bill to establish within the Department of the Interior an additional Assistant Secretary of the Interior for Indian Affairs, and for other purposes; to the Committee on Interior and Insular Affairs.

By Mr. HARRINGTON:

H.R. 621. A bill to authorize the Secretary of Labor to provide financial and other assistance to certain workers and small business firms to assist compliance with State or Federal pollution abatement requirements; to the Committee on Banking and Currency.

By Mr. HARRINGTON (for himself, Mr. Sarbanes, and Mr. William D. Ford):

H.R. 622. A bill to require the President to notify the Congress whenever he impounds funds, or authorizes the impounding of funds, and to provide a procedure under which the House of Representatives and the Senate may approve the President's action or require the President to cease such action; to the Committee on Rules.

By Mr. HASTINGS:

H.R. 623. A bill to amend the Controlled Substances Act to provide for the registration of practitioners conducting narcotic treatment programs; to the Committee on Interstate and Foreign Commerce.

By Mr. HASTINGS (for himself and Mr. Murphy of New York):

H.R. 624. A bill to provide for the humane care, treatment, habilitation, and protection of the mentally retarded in residential facilities through the establishment of strict quality operation and control standards and the support of the implementation of such standards by Federal assistance, to establish State plans which require a survey of need for assistance to residential facilities to enable them to be in compliance with such standards, seek to minimize inappropriate admissions to residential facilities and develop strategies which stimulate the development of regional and community programs for the mentally retarded which include the integration of such residential facilities, and for other purposes; to the Committee on Interstate and Foreign Commerce.

By Mr. HASTINGS (for himself and Mr. Frey):

H.R. 625. A bill to amend the act providing an exemption from the antitrust laws with respect to agreements between persons engaging in certain professional sports for the purpose of certain television contracts in order to terminate such exemption when a home game is sold out; to the Committee on the Judiciary.

By Mr. HECHLER of West Virginia:

H.R. 626. A bill to establish a system of wild areas within the lands of the national forest system; to the Committee on Agriculture.

H.R. 627. A bill to amend the Airport and Airway Development Act of 1970 to increase the U.S. share of allowable project costs under such act; to amend the Federal Aviation Act of 1958 to prohibit certain State taxation of persons in air transportation; to provide for the establishment of a Federal air transportation security force; and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 628. A bill to make use of a firearm to commit a felony a Federal crime where such use violates State law, and for other purposes; to the Committee on the Judiciary.

Mr. HEINZ:

H.R. 629. A bill to provide financial assistance for the construction and operation of senior citizens' community centers and for other purposes; to the Committee on Education and Labor.

H.R. 630. A bill to place a limitation on expenditures and net lending for the fiscal year ending June 30, 1973; to the Committee on Government Operations.

H.R. 631. A bill to improve the financial management of Federal assistance programs, to facilitate the consolidation of such programs, to strengthen further congressional review of Federal grants-in-aid, to provide a catalog of Federal assistance programs, and to extend and amend the law relating to intergovernmental cooperation; to the Committee on Government Operations.

H.R. 632. A bill to protect the individual's right of privacy by prohibiting the sale or distribution of certain information; to the Committee on the Judiciary.

H.R. 633. A bill to amend the Disaster Relief Act of 1970 to provide for the mandatory development and maintenance by States of disaster preparedness plans, to provide for the annual testing of such plans, to increase the amount of Federal assistance in the case of approved plans, and for other purposes; to the Committee on Public Works.

H.R. 634. A bill to create a demonstration project for the maintenance of safe Federal-aid highways, other than interstate, by the most feasible economical methods; to the Committee on Public Works.

H.R. 635. A bill to amend the Internal Revenue Code of 1954 to impose an excise tax on the discharge of pollutants; to the Committee on Ways and Means.

H.R. 636. A bill to insure congressional review of tax preference, and other items which narrow the income tax base, by providing now for the termination over a 3-year period of existing provisions of these types; to the Committee on Ways and Means.

H.R. 637. A bill to amend the Social Security Act to make certain that recipients of aid or assistance under the various Federal-State public assistance and medicaid programs (and recipients of assistance under the veterans' pension and compensation programs or any other Federal or federally assisted program) will not have the amount of such aid or assistance reduced because of increases in monthly social security benefits; to the Committee on Ways and Means.

By Mr. HELSTOSKI:

H.R. 638. A bill to amend title II of the Social Security Act to improve the computation of an individual's old-age, survivors, and disability insurance benefits by providing a formula under which such benefits will reflect both the current wage levels at the time of such individual's entitlement and the length of such individual's coverage; to the Committee on Ways and Means.

By Mr. HOGAN (for himself and Mrs. Holt):

H.R. 639. A bill to delay the effectiveness of court orders with respect to school busing until all appeals from such orders have been taken; to the Committee on the Judiciary.

By Mr. HOSMER:

H.R. 640. A bill to permit retired personnel of the Armed Forces to receive benefits under chapter 81 to title 5, United States Code, relating to compensation of Federal employees for work injuries; to the Committee on Education and Labor.

H.R. 641. A bill to amend and supplement the Federal reclamation laws relating to the furnishing of water service to excess lands; to the Committee on Interior and Insular Affairs.

H.R. 642. A bill to authorize the Secretary of the Interior to construct and to provide for operation and maintenance of the Peripheral Canal unit of the Delta division and to construct, operate, and maintain the Kellogg unit of the Delta division of the Central Valley project, Calif., and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 643. A bill to amend the Federal Food, Drug, and Cosmetic Act to include a definition of food supplements, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 644. A bill to provide for the U.S. District Court for the Central District of California to hold court at Santa Ana, Calif.; to the Committee on the Judiciary.

H.R. 645. A bill to designate the fourth Friday in September of every year as American Indian Day; to the Committee on the Judiciary.

H.R. 646. A bill to amend title 38 of the United States Code to provide for a pension of $100 per month for widows of veterans of World War I, and to disregard the spouse's income in determining the annual income of veterans for pension purposes under section 521 of such title; to the Committee on Veteran's Affairs.

H.R. 647. A bill to amend title 38 of the United States Code so as to provide that public or private retirement, annuity, or endowment payments (including monthly social security insurance benefits) shall not be included in computing annual income for the purpose of determining eligibility for a pension under chapter 15 of that title; to the Committee on Veterans' Affairs.

H.R. 648. A bill to amend the Internal Revenue Code of 1954 to provide that mutual fund shares and securities trust agreements shall be valued at their bid price, rather than at their asked price, for estate and gift tax purposes; to the Committee on Ways and Means.

By Mr. HUNT:

H.R. 649. A bill to limit the authority of States and their subdivisions to impose taxes with respect to income on residents of other States; to the Committee on the Judiciary.

By Mr. ICHORD:

H.R. 650. A bill to make it a Federal crime to kill or assault a fireman or law enforcement officer engaged in the performance of his duties when the offender travels in interstate commerce or uses any facility of interstate commerce for such purposes; to the Committee on the Judiciary.

H.R. 651. A bill to amend the Judiciary and Judicial Procedure Act of 1948; to the Committee on the Judiciary.

By Mr. JOHNSON of California:

H.R. 652. A bill to amend section 1331(c) of title 10, United States Code, to authorize the granting of retired pay to persons otherwise qualified who were Reserves before August 16, 1945, and who served on active duty during the so-called Berlin crisis; to the Committee on Armed Services.

H.R. 653. A bill to authorize the Secretary of the Interior to construct, operate, and maintain the Cosumnes River division, Central Valley project, California, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 654. A bill to authorize the Secretary of the Interior to construct, operate, and maintain the Allen Camp unit, Pit River division, Central Valley project, California, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 655. A bill to provide for the naming of the lake to be created by the Buchanan Dam, Chowchilla River, Calif.; to the Committee on Public Works.

By Mr. JONES of Alabama (for himself, Mr. Bevill, and Mr. Buchanan):

H.R. 656. A bill providing for the establishment of a wild area system; to the Committee on Agriculture.

By Mr. KARTH (for himself and Mr. DINGELL):

H.R. 657. A bill to amend the National Environmental Policy Act of 1969 to provide for citizens actions in the U.S. district courts against persons responsible for creating certain environmental hazards; to the Committee on Merchant Marine and Fisheries.

By Mr. KEATING:

H.R. 658. A bill to guarantee the right of criminal defendants to a speedy trial and to reduce crime and injustice by improving the supervision of persons released on bail and probation, and for other purposes; to the Committee on the Judiciary.

H.R. 659. A bill to amend chapter 235 of title 18, United States Code, to provide for the appellate review of sentences imposed in criminal cases arising in the district courts of the United States, and for other purposes; to the Committee on the Judiciary.

By Mr. KOCH:

H.R. 660. A bill to amend the Agricultural Act of 1956 to allow for the donation of certain surplus commodities by the Commodity Credit Corporation to State and local penal institutions, and for other purposes; to the Committee on Agriculture.

H.R. 661. A bill to amend the Consumer Credit Protection Act; to the Committee on Banking and Currency.

H.R. 662. A bill to amend the Truth in Lending Act to protect consumers against careless and erroneous billing, and to require that statements under open-end credit plans be mailed in time to permit payment prior to the imposition of finance charges; to the Committee on Banking and Currency.

H.R. 663. A bill to amend the Lead-Based Paint Poisoning Prevention Act, and for other purposes; to the Committee on Banking and Currency.

H.R. 664. A bill to amend the Urban Mass Transportation Act of 1964 to provide emergency grants for operating subsidies to urban mass transportation systems on the basis of passengers serviced; to the Committee on Banking and Currency.

H.R. 665. A bill to protect the constitutional rights of citizens of the United States and to prevent unwarranted invasions of privacy by prescribing procedures and standards governing the disclosure of information to Government agencies; to the Committee on Banking and Currency.

H.R. 666. A bill to amend the Elementary and Secondary Education Act of 1965 to assist school districts to carry out locally approved school security plans to reduce crime against children, employees, and facilities of their schools; to the Committee on Education and Labor.

H.R. 667. A bill to amend title 5, United States Code, to provide that persons be apprised of records concerning them which are maintained by Government agencies; to the Committee on Government Operations.

H.R. 668. A bill to restore to Federal civilian employees their rights to participate, as private citizens, in the political life of the Nation, to protect Federal civilian employees from improper political solicitations, and for other purposes; to the Committee on House Administration.

H.R. 669. A bill to amend certain provisions of the Controlled Substances Act relating to marihuana; to the Committee on Interstate and Foreign Commerce.

By Mr. KUYKENDALL:

H.R. 670. A bill to amend the Federal Aviation Act of 1958 to provide for the establishment of an air transportation security program and an air transportation security-law enforcement force adequate to assure the safety and security of passengers in air transportation, and for other purposes; to the Committee on Interstate and Foreign Commerce.

By Mr. KOCH:

H.R. 671. A bill to amend the Federal Food, Drug, and Cosmetic Act to regulate the advertising and distribution of organically grown and processed foods; to the Committee on Interstate and Foreign Commerce.

H.R. 672. A bill to amend the Public Health Service Act to direct the Secretary of Health, Education, and Welfare to prescribe radiation standards for, and conduct regular inspections of, diagnostic and other X-ray systems; to the Committee on Interstate and Foreign Commerce.

H.R. 673. A bill to amend the Public Health Service Act to provide for the protection of the public health from unnecessary medical exposure to ionizing radiation; to the Committee on Interstate and Foreign Commerce.

H.R. 674. A bill to approve and authorize amnesty or mitigation of punishment for certain persons who have illegally manifested their disapproval of U.S. participation in the Southeast Asia war; and to provide for restoration of civil and political rights that have been lost or impaired by reason of such illegal acts, and for other purposes; to the Committee on the Judiciary.

H.R. 675. A bill to amend title 18, United States Code, to conditionally suspend the application of certain penal provisions of law; to the Committee on the Judiciary.

H.R. 676. A bill to amend section 201 of title 18, United States Code, to provide that the bribery of State and local officials shall be a Federal crime; to the Committee on the Judiciary.

H.R. 677. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide for the development and operation of treatment programs for certain drug abusers who are confined to or released from correctional institutions and facilities; to the Committee on the Judiciary.

H.R. 678. A bill to prohibit the importation, manufacture, sale, purchase, transfer, receipt, or transportation of handguns, in any manner affecting interstate or foreign commerce, except for or by members of the Armed Forces, law enforcement officials, and, as authorized by the Secretary of the Treasury, licensed importers, manufacturers, dealers, and pistol clubs to the Committee on the Judiciary.

H.R. 679. A bill to require the registration of all firearms, with certain exceptions to the Committee on the Judiciary.

H.R. 680. A bill to grant a child adopted by a single U.S. citizen the same immigrant status as a child adopted by a U.S. citizen and his spouse; to the Committee on the Judiciary.

H.R. 681. A bill to amend the Immigration and Nationality Act with respect to the waiver of certain grounds for exclusion and deportation; to the Committee on the Judiciary.

H.R. 682. A bill to improve law enforcement in cities through a temporary Federal grant program for the purposes of increasing the compensation of policemen and creating additional positions on local police forces; to the Committee on the Judiciary.

H.R. 683. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide for grants to cities for improved street lighting; to the Committee on the Judiciary.

H.R. 684. A bill to provide for family visitation furloughs for Federal prisoners; to the Committee on the Judiciary.

H.R. 685. A bill to provide minimum standards in connection with certain Federal financial assistance with respect to correctional institutions and facilities; to the Committee on the Judiciary.

H.R. 686. A bill to assist in combating crime by reducing the incidence of recidivism, providing improved Federal, State, and local correctional facilities and services, strengthening administration of Federal corrections, strengthening control over probationers, parolees, and persons found not guilty by reason of insanity, and for other purposes; to the Committee on the Judiciary.

H.R. 687. A bill to assist in reducing crime by requiring speedy trials in cases of persons charged with violations of Federal criminal laws, to strengthen controls over dangerous defendants released prior to trial, to provide means for effective supervision and control of such defendants, and for other purposes; to the Committee on the Judiciary.

H.R. 688. A bill to protect the constitutional rights of citizens of the United States and to prevent unwarranted invasion of their privacy by prohibiting the use of the polygraph for certain purposes; to the Committee on the Judiciary.

H.R. 689. A bill to amend section 712 of title 18 of the United States Code, to prohibit persons attempting to collect their own debts from misusing names in order to convey the false impression that any agency of the Federal Government is involved in such collection; to the Committee on the Judiciary.

H.R. 690. A bill to amend chapter 3 of title 3, United States Code, to provide for the protection of foreign diplomatic missions; to the Commission on Public Works.

H.R. 691. A bill to improve the efficiency of the Nation's highway system, allow States and localities more flexibility in utilizing highway funds, and for other purposes; to the Committee on Public Works.

H.R. 692. A bill to amend title 23 of the United States Code to authorize construction of exclusive or preferential bicycle lanes, and for other purposes; to the Committee on Public Works.

H.R. 693. A bill to authorize the Administrator of General Services to transfer certain airspace for use for housing purposes; to the Committee on Public Works.

H.R. 694. A bill to amend title 2, United States Code, to provide that individuals be apprised of records concerning them which are maintained by the Committee on Internal Security of the House of Representatives; to the Committee on Rules.

H.R. 695. A bill to amend title 38 of the United States Code in order to permit veterans to transfer all or part of their educational assistance under chapter 34 of such title to their spouses, and to provide educational assistance at the secondary school level to widows, widowers, and spouses eligible for educational assistance under chapter 35 of such title; to the Committee on Veterans' Affairs.

H.R. 696. A bill relating to the tax treatment of transfers of rights to copyrights and literary, musical, and artistic compositions; to the Committee on Ways and Means.

H.R. 697. A bill to modify the restrictions contained in section 170(e) of the Internal Revenue Code in the case of certain contributions of literary, musical, or artistic composition, or similar property; to the Committee on Ways and Means.

H.R. 698. A bill to amend the Internal Revenue Code of 1954 to increase to $1,200 the personal income tax exemptions of a taxpayer (including the exemption for a spouse, the exemptions for dependents, and the additional exemptions for old age and blindness); to the Committee on Ways and Means.

H.R. 699. A bill to amend the Internal Revenue Code of 1954 to provide that in the case of a dependent 62 or more years of age the support test shall be satisfied if the taxpayer contributes $1,500 or more to the support of such dependent; to the Committee on Ways and Means.

H.R. 700. A bill to amend the Internal Revenue Code of 1954 to provide that blood donations shall be considered as charitable contributions deductible from gross income; to the Committee on Ways and Means.

H.R. 701. A bill to amend section 162 of the Internal Revenue Code of 1954 with respect to the deductibility of expenses for the purpose of procuring employment; to the Committee on Ways and Means.

H.R. 702. A bill to amend the Internal Revenue Code of 1954 to allow a deduction to tenants of houses or apartments for their proportionate share of the taxes and interest paid by their landlords; to the Committee on Ways and Means.

H.R. 703. A bill to amend section 216 of the Internal Revenue Code of 1954 to include corporations and others within the definition of the term "tenant-stockholder" for purposes of the provisions relating to cooperative housing corporations; to the Committee on Ways and Means.

H.R. 704. A bill to amend the Internal Revenue Code of 1954 to provide that the 4-percent excise tax on the net investment income of a private foundation shall not apply to a private foundation organized and operated exclusively as a library or museum; to the Committee on Ways and Means.

H.R. 705. A bill to amend the Internal Revenue Code of 1954 and title II of the Social Security Act to provide a full exemption (through credit or refund) from the employees' tax under the Federal Insurance Contributions Act, and an equivalent reduction in the self-employment tax, in the case of individuals who have attained age 65; to the Committee on Ways and Means.

H.R. 706. A bill to amend title II of the Social Security Act to reduce from 20 to 10 years the length of time a divorced woman's marriage to an insured individual must have lasted in order for her to qualify for wife's or widow's benefits on his wage record; to the Committee on Ways and Means.

H.R. 707. A bill to amend title II of the Social Security Act to provide that the remarriage of a widow, widower, or parent shall not terminate his or her entitlement to widow's, widower's, or parent's insurance benefits or reduce the amount thereof; to the Committee on Ways and Means.

H.R. 708. A bill to amend title V of the Social Security Act to extend for 5 years (until June 30, 1978) the period within which certain special project grants may be made thereunder; to the Committee on Ways and Means.

H.R. 709. A bill to amend title XVIII of the Social Security Act to require that public health service hospitals, Veterans' Administration hospitals, and hospitals receiving assistance under the Hill-Burton Act make available to persons entitled to benefits under the medicare program, at cost, prescription drugs not covered under that program, eyeglasses, and hearing aids; to the Committee on Ways and Means.

H.R. 710. A bill to amend the Social Security Act to provide that the Secretary of Health, Education, and Welfare (in the case of the old-age, survivors, and disability insurance program or the medicare program) or the appropriate State agency (in the case of any of the public assistance or medicaid programs) shall be liable for attorney's fees incurred by an individual in successfully challenging a decision which denies him the benefits or assistance, or reduces or limits the benefits or assistance, to which he is entitled under such program; to the Committee on Ways and Means.

H.R. 711. A bill to establish a transportation trust fund, to encourage urban mass transportation, and for other purposes; to the Committee on Ways and Means.

By Mr. KOCH (for himself and Mr. Brademas):

H.R. 712. A bill to amend the Education of the Handicapped Act to provide for comprehensive education programs for severely and profoundly mentally retarded children; to the Committee on Education and Labor.

By Mr. KOCH (for himself, Mr. Addabbo, Mr. Badillo, Mr. Bingham, Mr. Boland, Mr. Burke of Massachusetts, Mr. Drinan, Mr. Edwards of California, Mr. Fuqua, Mr. Gray, Mr. Green of Pennsylvania, Mr. Gude, Mr. Harrington, Mr. Hawkins, Mr. Hechler of West Virginia, Mr. Helstoski, Mr. Hungate, Mr. Karth, Mr. Long of Maryland, Mr. McCloskey, Mr. Mitchell of Maryland, Mr. Murphy of Illinois, Mr. Nix, Mr. Podell, and Mr. Rees):

H.R. 713. A bill to prohibit the use of funds authorized or appropriated for military actions in Indochina except for purposes of withdrawing all U.S. forces from Indochina within a 30-day period if within that period all American prisoners of war are released and American servicemen missing in action are accounted for, and to halt immediately all air bombing in Indochina; to the Committee on Foreign Affairs.

By Mr. KOCH (for himself, Mr. Eckhardt, Mr. Riegle, Mr. Rodino, Mr. Rosenthal, Mr. Roybal, Mr. Sarbanes, Mr. Seiberling, Mr. Studds, Mr. Thompson of New Jersey, Mr. Wolff, and Mr. Yatron):

H.R. 714. A bill to prohibit the use of funds authorized or appropriated for military actions in Indochina except for purposes of withdrawing all U.S. forces from Indochina within a 30-day period if within that period all American prisoners of war are released and American servicemen missing in action are accounted for, and to halt immediately all air bombing in Indochina; to the Committee on Foreign Affairs.

By Mr. KOCH (for himself, Ms. Abzug, Mr. Archer, Mr. Bell, Mr. Bingham, Mr. Boland, Mr. Brasco, Mr. Brown of Michigan, Mr. Buchanan, Mr. Carney of Ohio, Mr. Conte, Mr. Conyers, Mr. Coughlin, Mr. Crane, Mr. Downing, Mr. Drinan, Mr. Edwards of California, Mr. Eilberg, Mr. Esch, Mr. Fascell, Mr. Fish, Mr. Flood, Mrs. Grasso, Mr. Gude, and Mr. Hamilton):

H.R. 715. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; and to remove rate inequities for married persons where both are employed; to the Committee on Ways and Means.

By Mr. KOCH (for himself, Mr. Harrington, Mr. Hastings, Mr. Hawkins, Mr. Helstoski, Mr. Horton, Mr. Howard, Mr. Keating, Mr. Kemp, Mr. Lent, Mr. McClory, Mr. McCloskey, Mr. Madden, Mr. Mazzoli, Mr. Minshall of Ohio, Mr. Mollohan, Mr. Nix, Mr. Pepper, Mr. Podell, Mr. Price of Illinois, Mr. Rangel, and Mr. Rodino):

H.R. 716. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; and to remove rate inequities for married persons where both are employed; to the Committee on Ways and Means.

By Mr. KUYKENDALL:

By Mr. ADDABBO:

H.R. 718. A bill to amend the Defense Appropriations Act of 1973; to the Committee on Appropriations.

By Mr. ANDERSON of California:

H.R. 719. A bill to amend the Fishermen's Protective Act of 1967 to require the return of certain vessels of the United States; to the Committee on Merchant Marine and Fisheries.

By Mr. BROYHILL of North Carolina:

H.R. 720. A bill to provide authorizations for appropriations for the Federal Aviation Administration for fiscal year 1974, 1975, and 1976; to the Committee on Interstate and Foreign Commerce.

By Mr. LENT:

H.R. 721. A bill to amend title 10, United States Code, to permit employment of certain military personnel by foreign governments or concerns; to the Committee on Armed Services.

H.R. 722. A bill to establish a contiguous fishery zone (200-mile limit) beyond the territorial sea of the United States; to the Committee on Merchant Marine and Fisheries.

By Mr. LONG of Maryland:

H.R. 723. A bill to provide additional protection for the rights of participants in employee pension and profit-sharing-retirement plans, to establish minimum standards for pension and profit-sharing-retirement plan vesting and funding, to establish a pension plan reinsurance program, to provide for portability of pension credits, to provide for regulation of the administration of pension and other employee benefit plans, to establish a U.S. Pension and Employee Benefit Plan Commission, and for other purposes; to the Committee on Education and Labor.

By Mr. McCLORY (for himself, Mr. Blackburn, Mr. Brasco, Mr. Edwards of California, Mr. Frenzel, Mr. Helstoski, Mr. Ichord, Mr. Meeds, Mr. Michel, Mr. Moss, Mr. Pettis, Mr. Podell, Mr. Railsback, Mr. Waldie, and Mr. Ware):

H.R. 724. A bill to establish a program for the United States to convert to the metric system; to the Committee on Science and Astronautics.

By Mr. McDADE:

H.R. 725. A bill to amend the Housing and Urban Development Act of 1968 with respect to flood insurance by establishing the National Disaster Insurance Fund, and for other purposes; to the Committee on Banking and Currency.

H.R. 726. A bill to provide for the regulation of surface coal mining for the conservation, acquisition, and reclamation of surface areas affected by coal mining activities, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 727. A bill to revise and simplify the Federal disaster relief program, to assure adequate funding for such program, and for other purposes; to the Committee on Public Works.

H.R. 728. A bill to amend the Internal Revenue Code of 1954 to provide that taxpayers shall not be required to reduce the amount of casualty loss deductions by the amount of reimbursement anticipated from the cancellation of certain Federal loans made in the case of certain disasters; to the Committee on Ways and Means.

By Mr. McKINNEY:

H.R. 729. A bill to provide comprehensive vocational and rehabilitative services for individuals with spinal cord injuries through the establishment of national centers for spinal cord injuries; to the Committee on Education and Labor.

By Mr. MAILLIARD:

H.R. 730. A bill to provide protection for the fish resources of the United States including the freshwater and marine fish cultural industries against the introduction and dissemination of diseases of fish and shellfish, and for other purposes; to the Committee on Merchant Marine and Fisheries.

H.R. 731. A bill to establish wildlife, fish, and game conservation and rehabilitation programs on certain lands under the jurisdiction of the Department of the Interior, the Department of Agriculture, the Atomic Energy Commission, and the National Aeronautics and Space Administration, and for other purposes; to the Committee on Merchant Marine and Fisheries.

H.R. 732. A bill to extend to hawks, owls, and certain other raptors the protection now accorded to bald and golden eagles; to the Committee on Merchant Marine and Fisheries.

H.R. 733. A bill to extend and expand the authority for carrying out conservation and rehabilitation programs on military reservations, and to authorize the implementation of such programs on certain public lands; to the Committee on Merchant Marine and Fisheries.

H.R. 734. A bill to amend the Merchant Marine Act of 1970; to the Committee on Merchant Marine and Fisheries.

H.R. 735. A bill to revise and improve the laws relating to the documentation of vessels; to the Committee on Merchant Marine and Fisheries.

H.R. 736. A bill to confer exclusive jurisdiction on the Federal Maritime Commission over certain movements of merchandise by barge in foreign commerce; to the Committee on Merchant Marine and Fisheries.

H.R. 737. A bill to amend the National Environmental Policy Act of 1969, to provide for a national environmental data system; to the Committee on Merchant Marine and Fisheries.

H.R. 738. A bill to amend the Oil Pollution Act, 1961 (75 Stat. 402), as amended, to implement the 1969 and the 1971 amendments to the International Convention for the Prevention of the Pollution of the Sea by Oil, 1954, as amended; and for other purposes; to the Committee on Merchant Marine and Fisheries.

H.R. 739. A bill to amend the Shipping Act, 1916, to provide for the establishment of single-factor rates under a through bill of lading for the transportation of property in the foreign and domestic offshore commerce of the United States, and for other purposes; to the Committee on Merchant Marine and Fisheries.

By Mr. MANN:

H.R. 740. A bill to amend the Comprehensive Drug Abuse Prevention and Control Act of 1970 to provide increased penalties for distribution of heroin by certain persons; to the Committee on Interstate and Foreign Commerce.

By Mr. MANN (for himself, and Mr. TAYLOR of North Carolina):

H.R. 741. A bill to provide for a study of a proposed Southern Appalachian Slope National Recreation Area on the southern slope of the Appalachian Highlands in areas of the States of South Carolina, North Carolina, and Georgia; to the Committee on Interior and Insular Affairs.

By Mr. MATSUNAGA:

H.R. 742. A bill to extend the Consolidated Farmers Home Administration Act of 1961, as amended, to American Samoa; to the Committee on Agriculture.

H.R. 743. A bill to amend the act to establish Federal agricultural services to Guam; to the Committee on Agriculture.

H.R. 744. A bill to provide that poultry and meat products prepared from diseased animals shall be deemed adulterated; to the Committee on Agriculture.

H.R. 745. A bill to amend the Sugar Act of 1948 to prescribe minimum wages and conditions of employment for farmworkers, and for other purposes; to the Committee on Agriculture.

H.R. 746. A bill to authorize the Secretary of the Navy to construct and provide shoreside facilities for the education and convenience of visitors to the U.S. Ship Arizona Memorial at Pearl Harbor and to transfer responsibility for their operation and maintenance to the National Park Service; to the Committee on Armed Services.

H.R. 747. A bill to protect the political rights and privacy of individuals and organizations and to define the authority of the Armed Forces to collect, distribute, and store information about civilian political activity; to the Committee on Armed Services.

H.R. 748. A bill to amend title 10 of the United States Code to establish procedures providing members of the Armed Forces redress of grievances arising from acts of brutality or other cruelties, and acts which abridge or deny rights guaranteed to them by the Constitution of the United States, suffered by them while serving in the Armed Forces, and for other purposes; to the Committee on Armed Services.

H.R. 749. A bill to amend title 10, United States Code, to permit the recomputation of retired pay of certain members and former members of the Armed Forces; to the Committee on Armed Services.

H.R. 750. A bill to amend title 10 of the United States Code in order to authorize assistance in providing facilities and services abroad for the Veterans of Foreign Wars of the United States when the President finds such assistance to be necessary in the national interest; to the Committee on Armed Services.

H.R. 751. A bill to amend section 405 of title 37, United States Code, relating to the payment of a per diem with respect to the dependents of certain members of the uniformed services while on duty outside of the United States; to the Committee on Armed Services.

H.R. 752. A bill to prohibit federally insured financial institutions from engaging in certain promotional practices; to the Committee on Banking and Currency.

H.R. 753. A bill to amend section 5(c) of the Home Owners' Loan Act of 1933; to the Committee on Banking and Currency.

H.R. 754. A bill to amend the Truth-in-Lending Act to require that statements under open end credit plans be mailed in time to permit payment prior to the imposition of finance charges; to the Committee on Banking and Currency.

H.R. 755. A bill to amend the National Foundation on the Arts and Humanities Act of 1965 to provide for the Office of Poet Laureate of the United States; to the Committee on Education and Labor.

H.R. 756. A bill to amend the National Labor Relations Act to make its provisions applicable to certain additional territories of the United States; to the Committee on Education and Labor.

H.R. 757. A bill to amend the Occupational Safety and Health Act of 1970 to require the Secretary of Labor to recognize the difference in hazards to employees between the heavy construction industry and the light residential construction industry; to the Committee on Education and Labor.

H.R. 758. A bill to provide public service employment opportunities for unemployed and underemployed persons, to assist States and local communities in providing needed public services, and for other purposes; to the Committee on Education and Labor.

H.R. 759. A bill to strengthen interstate reporting and interstate services for parents of runaway children; to conduct research on the size of the runaway youth population; for the establishment, maintenance, and operation of temporary housing and counseling services for transient youth, and for other purposes; to the Committee on Education and Labor.

H.R. 760. A bill to permit greater involvement of American medical organizations and personnel in the furnishing of health services and assistance to the developing nations of the world, and for other purposes; to the Committee on Foreign Affairs.

H.R. 761. A bill to establish an executive department to be known as the Department of Education, and for other purposes; to the Committee on Government Operations.

H.R. 762. A bill to establish an Office of Consumer Affairs in the Executive Office of the President and a Consumer Protection Agency in order to secure within the Federal Government effective protection and representation of the interests of consumers, and for other purposes; to the Committee on Government Operations.

H.R. 763. A bill to amend title 5, United States Code, with respect to the relocation expenses of employees transferred or reemployed; to the Committee on Government Operations.

H.R. 764. A bill to provide that the President of the United States shall designate as Governor and Lieutenant Governor of American Samoa the individual who is nominated by the electors of American Samoa for each such position, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 765. A bill to amend the Federal Aviation Act of 1958 to authorize reduced rate transportation for certain additional persons on a space-available basis; to the Committee on Interstate and Foreign Commerce.

H.R. 766. A bill to amend the Federal Aviation Act of 1958 to require the Secretary of Transportation to issue regulations providing for a program for the disinsection of aircraft arriving in the United States; to the Committee on Interstate and Foreign Commerce.

H.R. 767. A bill to amend the International Travel Act of 1961 to provide for Federal regulation of the travel agency industry; to the Committee on Interstate and Foreign Commerce.

H.R. 768. A bill to provide that the Secretary of Transportation and the Interstate Commerce Commission require common carriers under their jurisdiction to prohibit smoking aboard aircraft, railroads, buses, and vessels carrying passengers, except in areas designated for that purpose; to the Committee on Interstate and Foreign Commerce.

H.R. 769. A bill to amend the Federal Food, Drug, and Cosmetic Act to regulate the advertising and distribution of organically grown and processed foods; to the Committee on Interstate and Foreign Commerce.

H.R. 770. A bill to amend the Federal Food, Drug, and Cosmetic Act to include a definition of food supplements, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 771. A bill to provide for a training program for organized crime prosecutors, an annual conference of Federal, State, and local officials in the field of organized crime, an annual report by the Attorney General on organized crime, and for other purposes; to the Committee on the Judiciary.

H.R. 772. A bill to establish an Academy of Criminal Justice and to provide for the establishment of such other Academies of Criminal Justice as the Congress may hereafter authorize: to the Committee on the Judiciary.

H.R. 773. A bill to give effect to the sixth amendment right to a speedy trial for persons charged with offenses against the United States, and to reduce the danger of recidivism by strengthening the supervision over persons released on bail, probation, or parole, and for other purposes; to the Committee on the Judiciary.

H.R. 774. A bill to provide for the compensation of persons injured by certain criminal acts; to the Committee on the Judiciary.

H.R. 775. A bill to prohibit the importation, manufacture, sale, purchase, transfer, receipt, or transportation of handguns, in any manner affecting interstate or foreign commerce, except for or by members of the Armed Forces, law enforcement officials, and, as authorized by the Secretary of the Treasury, licensed importers, manufacturers, dealers, and pistol clubs; to the Committee on the Judiciary.

H.R. 776. A bill to amend section 212(b) of the Immigration and Nationality Act to exempt from the literacy requirement of section 212(a)(25) certain additional relatives of United States citizens and permanent resident aliens; to the Committee on the Judiciary.

H.R. 777. A bill to amend section 312 of the Immigration and Nationality Act with respect to certain tests for naturalization; to the Committee on the Judiciary.

H.R. 778. A bill to repeal the "cooly trade" laws; to the Committee on the Judiciary.

H.R. 779. A bill to amend section 27 of the Merchant Marine Act, 1920, to exempt under certain conditions, from the effect of such section the transportation of merchandise between points in the State of Alaska and points in the State of Hawaii; to the Committee on Merchant Marine and Fisheries.

H.R. 780. A bill to amend the Internal Revenue Code of 1954 to provide that any resident of the Republic of the Philippines may be a dependent for purposes of the income tax deduction for personal exemptions; to the Committee on Ways and Means.

H.R. 781. A bill to provide a program of national health insurance, and for other purposes; to the Committee on Ways and Means.

By Mr. MAYNE:

H.R. 782. A bill to amend the Occupational Safety and Health Act of 1970 to define the term "employee" more precisely; to the Committee on Education and Labor.

H.R. 783. A bill to authorize the Secretary of Transportation to release restrictions on the use of certain property conveyed to the city of Algona, Iowa, for airport purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 784. A bill to amend title 5 of the United States Code with respect to the observance of Memorial Day and Veterans Day; to the Committee on the Judiciary.

H.R. 785. A bill to amend title 28, United States Code, with respect to judicial review of decisions of the Interstate Commerce Commission, and for other purposes; to the Committee on the Judiciary.

H.R. 786. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for expenses incurred by a taxpayer in making repairs and improvements to his residence; to the Committee on Ways and Means.

H.R. 787. A bill to amend the Internal Revenue Code of 1954 to allow a credit against income tax to individuals for certain expenses incurred in providing higher education; to the Committee on Ways and Means.

H.R. 788. A bill to amend the Self-Employment Contributions Act of 1954 to provide that an election to be exempt from coverage under the old-age, survivors, and disability insurance program, made by a minister, a member of a religious order, or a Christian Science practitioner, may be revoked at any time; to the Committee on Ways and Means.

By Mr. MEEDS:

H.R. 789. A bill to improve educational quality through the effective utilization of educational technology; to the Committee on Education and Labor.

By Mr. MICHEL:

H.R. 790. A bill to amend the Truth in Lending Act to eliminate the inclusion of agricultural credit; to the Committee on Banking and Currency.

H.R. 791. A bill to provide that the fiscal year of the United States shall coincide with the calendar year; to the Committee on Government Operations.

H.R. 792. A bill to amend title 18 of the United States Code to increase the penalty for committing certain crimes with a firearm or while unlawfully carrying a firearm; to the Committee on the Judiciary.

H.R. 793. A bill to provide that the majority of the membership (including the chairman) of the Committee on Government Operations of the Senate and House of Representatives, respectively, shall be composed of members of a major political party other than the political party of which the President of the United States is a member; to the Committee on Rules.

H.R. 794. A bill to break down hindrances and remove obstacles to the employment of partially disabled persons honorably discharged from our Armed Forces following service in war by making an equitable adjustment of the liability under the workmen's compensation laws which an employer must assume in hiring disabled veterans; to the Committee on Veterans' Affairs.

H.R. 795. A bill to amend the Internal Revenue Code of 1954 to encourage the construction of treatment works to control water pollution by permitting the deduction of expenditures for the construction, erection, installation, or acquisition of such treatment works; to the Committee on Ways and Means.

H.R. 796. A bill to amend the Internal Revenue Code of 1954 to allow teachers to deduct from gross income the expenses incurred in pursuing courses for academic credit and degrees at institutions of higher education and including certain travel; to the Committee on Ways and Means.

H.R. 797. A bill to amend the Internal Revenue Code of 1954 to treat adoption fees in the same manner as medical expenses for income tax purposes; to the Committee on Ways and Means.

H.R. 798. A bill to amend title I of the Social Security Act to provide that child's insurance benefits shall in all cases be payable to children upon the death of their mother without regard to the mother's insured status; to the Committee on Ways and Means.

H.R. 799. A bill to amend section 218 of the Social Security Act to provide that a policeman or fireman who has social security coverage pursuant to State agreement as an individual employee and not as a member of a State or local retirement system may elect to terminate such coverage if he is subsequently required to become a member of such a retirement system; to the Committee on Ways and Means.

By Mr. MILLS of Maryland:

H.R. 800. A bill to direct the Secretary of Agriculture to release on behalf of the United States a condition in a deed conveying certain lands to the State of Maryland, and for other purposes; to the Committee on Agriculture.

H.R. 801. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 802. A bill to declare the south prong of the Wicomico River, Md., nonnavigable; to the Committee on Interstate and Foreign Commerce.

By Mr. MINSHALL of Ohio:

H.R. 803. A bill to amend the Communications Act of 1934 to provide for more responsible news and public affairs programing; to the Committee on Interstate and Foreign Commerce.

H.R. 804. A bill to establish a Federal program to encourage the voluntary donation of pure and safe blood, to require licensing and inspection of all blood banks, and to establish a national registry of blood donors; to the Committee on Interstate and Foreign Commerce.

H.R. 805. A bill to make it a Federal crime to kill or assault a fireman or law enforcement officer engaged in the performance of his duties when the offender travels in interstate commerce or uses any facility of interstate commerce for such purpose; to the Committee on the Judiciary.

H.R. 806. A bill to extend benefits under section 8191 of title 5, United States Code to law enforcement officers and firemen not employed by the United States who are killed or totally disabled in the line of duty; to the Committee on the Judiciary.

H.R. 807. A bill to amend chapter 44 of title 18, United States Code, to strengthen the penalty provision applicable to a Federal felony committed with a firearm; to the Committee on the Judiciary.

H.R. 808. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide a system for the redress of law enforcement officers' grievances and to establish a law enforcement officers' bill of rights in each of the several States, and for other purposes; to the Committee on the Judiciary.

H.R. 809. A bill to amend title 18 of the United States Code to prohibit the transportation or use in interstate or foreign commerce, with unlawful or fraudulent intent, of counterfeit, fictitious, altered, lost, stolen, wrongfully appropriated, unauthorized, revoked, or canceled credit cards; to the Committee on the Judiciary.

H.R. 810. A bill to establish a Federal Judiciary Council; to the Committee on the Judiciary.

H.R. 811. A bill to amend title 28, United States Code, to prohibit Federal judges from receiving compensation other than for the performance of their judicial duties, except in certain instances, and to provide for the disclosure of certain financial information; to the Committee on the Judiciary.

H.R. 812. A bill to amend the Internal Revenue Code of 1954 to increase from $750 to $1,500 the personal income tax exemptions of a taxpayer; to the Committee on Ways and Means.

H.R. 813. A bill to amend the Internal Revenue Code of 1954 to increase from 13 to 16 the maximum age of a dependent child with respect to whom the deduction for child-care expenses may be allowed; to the Committee on Ways and Means.

H.R. 814. A bill to amend the Internal Revenue Code of 1954 to permit a taxpayer to deduct certain expenses paid by him in connection with his education, or the education of any of his dependents at an institution of higher learning; to the Committee on Ways and Means.

H.R. 815. A bill to amend the Internal Revenue Code of 1954 to allow a credit against the individual income tax for tuition paid for the elementary or secondary education of dependents; to the Committee on Ways and Means.

H.R. 816. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for expenses incurred by a taxpayer in making repairs and improvements to his residence; to the Committee on Ways and Means.

H.R. 817. A bill to amend the Internal Revenue Code of 1954 to provide a tax credit for homeowners, apartmentowners, small businessmen, and carowners who purchase and install certified pollution-control devices; to the Committee on Ways and Means.

H.R. 818. A bill to amend the Internal Revenue Code of 1954 to allow an incentive tax credit for a part of the cost of constructing or otherwise providing facilities or equipment for the control of water or air pollution or for processing of solid waste, and to permit the amortization of such cost within a period of from 1 to 5 years; to the Committee on Ways and Means.

H.R. 819. A bill to amend the Internal Revenue Code of 1954 to provide that the first $5,000 of compensation paid to law enforcement officers shall not be subject to the income tax; to the Committee on Ways and Means.

H.R. 820. A bill to amend the Internal Revenue Code of 1954 to restore to individuals who have attained the age of 65 the right to deduct all expenses for their medical care, and for other purposes; to the Committee on Ways and Means.

H.R. 821. A bill to amend the Social Security Act to provide for medical and hospital care through a system of voluntary health insurance including protection against the catastrophic expenses of illness, financed in whole for low-income groups through issuance of certificates, and in part for all other persons through allowances of tax credits; and to provide effective utilization of available financial resources, health manpower, and facilities; to the Committee on Ways and Means.

H.R. 822. A bill to amend titles II and XVIII of the Social Security Act to include qualified drugs, requiring a physician's prescription or certification and approved by a formulary committee, among the items and services covered under the hospital insurance program; to the Committee on Ways and Means.

By Mr. MIZELL:

H.R. 823. A bill to aid the conservation of natural water resources and protect the scenic New River by prohibiting the Federal licensing of the construction of certain types of projects on or directly affecting a certain portion of the New River in North Carolina and Virginia; to the Committee on Interstate and Foreign Commerce.

By Mr. MONTGOMERY:

H.R. 824. A bill to amend title 10 of the United States Code so as to permit members of the Reserves and the National Guard to receive retired pay at age 55 for nonregular service under chapter 67 of that title; to the Committee on Armed Services.

H.R. 825. A bill to amend titles 37 and 38, United States Code, to encourage persons to join and remain in the Reserves and National Guard by providing full-time coverages under Servicemen's Group Life Insurance for such members and certain members of the Retired Reserve up to age 60, and for other purposes; to the Committee on Veterans Affairs.

By Mr. MURPHY of New York:

H.R. 826. A bill to amend title 10 of the United States Code to prohibit contracting for the construction of vessels for U.S. Navy at places outside of the United States; to the Committee on Armed Services.

H.R. 827. A bill to authorize members of the Armed Forces to be discharged from active military service by reason of physical disability when such members are suffering from drug dependency, to authorize the civil commitment of such members after their discharge, to provide for the review of less than honorable discharges granted to certain members and the issuance of new discharges in certain cases, and for other purposes; to the Committee on Armed Services.

H.R. 828. A bill to amend title XII of the National Housing Act to provide, under the urban property protection and reinsurance program, for direct Federal insurance against losses to habitational property for which insurance is not otherwise available or is available only at excessively surcharged rates, to make crime insurance mandatory under such program, to provide assistance to homeowners to aid in reducing the causes of excessive surcharges, and for other purposes; to the Committee on Banking and Currency.

H.R. 829. A bill to amend the Small Business Act to make crime protection insurance available to small business concerns; to the Committee Banking and Currency.

H.R. 830. A bill to amend the Truth in Lending Act to require that statements under open end credit plans be mailed in time to permit payment prior to the imposition of finance charges; to the Committee on Banking and Currency.

H.R. 831. A bill to amend the Foreign Assistance Act of 1961 so as to provide for reductions in aid to countries in which property of the United States is damaged or destroyed by mob action; to the Committee on Foreign Affairs.

H.R. 832. A bill requiring that each Member of Congress be notified of the intended disposition of federally owned real property in the district he represents; to the Committee on Government Operations.

H.R. 833. A bill to amend the Federal Power Act with respect to the jurisdiction of the Federal Power Commission over streams and other bodies of water the navigable portions of which lie within a single State; to the Committee on Interstate and Foreign Commerce.

H.R. 834. A bill to amend the Federal Aviation Act of 1958 to authorize reduced rate transportation for elderly people on a space available basis; to the Commitee on Interstate and Foreign Commerce.

H.R. 835. A bill to require the Secretary of Transportation to prescribe regulations governing the humane treatment of animals transported in air commerce; to the Committee on Interstate and Foreign Commerce.

H.R. 836. A bill to amend the International Travel Act of 1961 to provide for Federal regulation of the travel agency industry; to the Committee on Interstate and Foreign Commerce.

H.R. 837. A bill to establish a registration system with respect to donors of blood, and to provide funds for research to detect serum hepatitis prior to transfusion and transmission of the disease; to the Committee on Interstate and Foreign Commerce.

H.R. 838. A bill to strengthen and clarify the law prohibiting the introduction, or manufacture for introduction, of switchblade knives into interstate commerce; to the Committee on Interstate and Foreign Commerce.

H.R. 839. A bill to amend the Federal Trade Commission Act to extend protection against fraudulent or deceptive practices, condemned by that act to consumers through civil actions, and to provide for class actions for acts in defraud of consumers; to the Committee on Interstate and Foreign Commerce.

H.R. 840. A bill to establish a grant-in-aid program to encourage the licensing by the States of motor vehicle mechanics; to the Committee on Interstate and Foreign Commerce.

H.R. 841. A bill to provide for a national educational campaign to improve safety on the highways by improving driver skill, driver attitudes, and driver knowledge of highway regulations; to the Committee on Interstate and Foreign Commerce.

H.R. 842. A bill to amend the Comprehensive Drug Abuse Prevention and Control Act to vest primary law-enforcement jurisdiction in the Attorney General; to the Committee on Interstate and Foreign Commerce.

H.R. 843. A bill to provide new procedures for the civil commitment of drug dependent persons and to expand the scope of the provisions of titles 18 and 28 of the United States Code relating to the treatment of drug dependent persons in criminal proceedings, and for other purposes; to the Committee on the Judiciary.

H.R. 844. A bill to authorize the Federal Bureau of Investigation to exchange fingerprint information with registered national security exchanges and related agencies; to the Committee on the Judiciary.

H.R. 845. A bill to amend the Gun Control Act of 1968; to the Committee on the Judiciary.

H.R. 846. A bill to amend the Immigration and Nationality Act, and for other purposes; to the Committee on the Judiciary.

H.R. 847. A bill to provide for the redistribution of unused quota numbers; to the Committee on the Judiciary.

H.R. 848. A bill to amend the Immigration and Nationality Act to make additional immigrant visas available for immigrants from certain foreign countries, and for other purposes; to the Committee on the Judiciary.

H.R. 849. A bill to prohibit assaults on State law-enforcement officers, firemen, and judicial officers; to the Committee on the Judiciary.

By Mr. KOCH:

H.R. 850. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; and to remove rate inequities for married persons where both are employed; to the Committee on Ways and Means.

By Mr. KOCH (for himself, Mr. Burke of Massachusetts, Mr. Roe, Mr. Rosenthal, Mr. Roybal, Mr. Sarbanes, Mr. James V. Stanton, Mr. J. William Stanton, Mr. Stokes, Mr. Stratton, Mr. Stuckey, Mr. Studds, Mr. Thone, Mr. Waldie, Mr. Charles H. Wilson of California, Mr. Wolff, Mr. Yates, and Mr. Yatron):

H.R. 851. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; and to remove rate inequities for married persons where both are employed; to the Committee on Ways and Means.

By Mr. MURPHY of New York:

H.R. 852. A bill to provide partial reimbursement for losses incurred by commercial fishermen as a result of restrictions imposed on domestic commercial fishing by a State or the Federal Government; to the Committee on Merchant Marine and Fisheries.

H.R. 853. A bill to amend the National Environmental Policy Act of 1969 to provide for class actions in the U.S. district courts against persons responsible for creating certain environmental hazards; to the Committee on Merchant Marine and Fisheries.

H.R. 854. A bill to provide for advance notice to the U.S. Fish and Wildlife Service and certain State agencies before the beginning of any Federal program involving the use of pesticides or other chemicals designed for mass biological controls, and for other purposes; to the Committee on Merchant Marine and Fisheries.

H.R. 855. A bill to prohibit the furnishing of mailing lists and other lists of names or addresses by Government agencies to the public in connection with the use of the U.S. mails, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 856. A bill to protect the civilian employees of the executive branch of the U.S. Government in the enjoyment of their constitutional rights and to prevent unwarranted governmental invasions of their privacy; to the Committee on Post Office and Civil Service.

H.R. 857. A bill to amend the Postal Reorganization Act of 1970, title 39, United States Code, to eliminate certain restrictions on the rights of officers and employees of the Postal Service, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 858. A bill to amend section 8335 of title 5, United States Code, to reduce the mandatory retirement age for non-U.S. citizen employees of the Panama Canal Company or the Canal Zone Government employed on the Isthmus of Panama to 62 years of age; to the Committee on Post Office and Civil Service.

H.R. 859. A bill to amend title 38 of the United States Code to permit certain active duty for training to be counted as active duty for purposes of entitlement to educational benefits under chapter 34 of such title: to the Committee on Veterans' Affairs.

H.R. 860. A bill to provide that veterans be provided employment opportunities after discharge at certain minimum salary rates; to the Committee on Veterans' Affairs.

H.R. 861. A bill to create a rebuttable presumption that a disability of a veteran of any war or certain other military service is service connected under certain circumstances; to the Committee on Veterans' Affairs.

H.R. 862. A bill to amend chapter 34 of title 38 of the United States Code to provide for the payment of tuition costs in the case of certain eligible veterans directly to the educational institutions concerned; to provide for overall increases in education benefits under such chapter; and for other purposes; to the Committee on Veterans' Affairs.

H.R. 863. A bill to amend the Internal Revenue Code of 1954 to allow a deduction from gross income for donations of blood to nonprofit blood banks and other nonprofit organizations; to the Committee on Ways and Means.

H.R. 864. A bill to amend the Internal Revenue Code of 1954 to treat a portion of tuition paid to certain educational institutions as a charitable contribution; to the Committee on Ways and Means.

H.R. 865. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for income tax purposes of certain expenses incurred by the taxpayer for the education of a dependent; to the Committee on Ways and Means.

H.R. 866. A bill to amend the Internal Revenue Code of 1954 to encourage higher education, and particularly the private funding thereof, by authorizing a deduction from gross income of reasonable amounts contributed to a qualified higher education fund established by the taxpayer for the purpose of funding the higher education of his dependents; to the Committee on Ways and Means.

H.R. 867. A bill to provide for the protection of children against physical injury caused or threatened by those who are responsible for their care; to the Committee on Ways and Means.

H.R. 868. A bill to provide for a national educational campaign to combat the lack of consciousness of the public as to the danger of improper uses of motor vehicles on the highways and to impose an additional tax of one-tenth of a cent per gallon on gasoline and other motor fuels to pay for the costs of such campaign; to the Committee on Ways and Means.

By Mr. MURPHY of New York (for himself and Mr. Hastings):

H.R. 869. A bill to provide for the humane care, treatment, habilitation and protection of the mentally retarded in residential facilities through the establishment of strict quality operation and control standards, and the support of the implementation of such standards by Federal assistance, to establish State plans which require a survey of need for assistance to residential facilities to enable them to be in compliance with such standards, seek to minimize inappropriate admissions to residential facilities and develop strategies which stimulate the development of regional and community programs for the mentally retarded which include the integration of such residential facilities, and for other purposes; to the Committee on Interstate and Foreign Commerce.

By Mr. MURPHY of New York (for himself and Mr. Pettis, Mr. Waggonner, and Mr. Rooney of Pennsylvania):

H.R. 870. A bill to amend sections 101 and 902 of the Federal Aviation Act of 1958, as amended to implement the Convention for the Suppression of Unlawful Seizure of Aircraft and to amend title XI of such act to authorize the President to suspend air service to any foreign nation which he determines is encouraging aircraft hijacking by acting in a manner inconsistent with the Convention for the Suppression of Unlawful Seizure of Aircraft and to authorize the Secretary of Transportation to revoke the operating authority of foreign air carriers under certain circumstances, and for other purposes; to the Committee on Interstate and Foreign Commerce.

By Mr. NICHOLS:

H.R. 871. A bill to amend section 1124(c) of title 10, United States Code, to remove the restriction that a member of the Armed Forces must be on active duty to be eligible for the payment of a cash award for a suggestion, invention, or scientific achievement; to the Committee on Armed Services.

H.R. 872. A bill to amend the National Trails System Act to authorize a feasibility study relating to the Bartram Trail in Alabama; to the Committee Interior and Insular Affairs.

H.R. 873. A bill to provide for the establishment of the Tuskegee Institute National Historical Park, and for other purposes; to the Committee Interior and Insular Affairs.

H.R. 874. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968, as amended, to provide benefits to survivors of certain public safety officers who die in the performance of duty; to the Committee on the Judiciary.

H.R. 875. A bill to amend title 18 of the United States Code to increase the penalty for destruction of aircraft or aircraft facilities; to the Committee on the Judiciary.

H.R. 876. A bill to provide a pension for veterans of World War I and their widows; to the Committee on Veterans' Affairs.

By Mr. NIX:

H.R. 877. A bill to amend section 117 of the Internal Revenue Code of 1954 to exclude from gross income up to $300 per month of scholarships and fellowship grants for which the performance of services is required; to the Committee on Ways and Means.

By Mr. OBEY:

H.R. 878. A bill to amend titles II and XVIII of the Social Security Act to include qualified drugs, requiring a physician's prescription or certification and approved by a formulary committee, among the items and services covered under the hospital insurance program; to the Committee on Ways and Means.

By Mr. O'HARA:

H.R. 879. A bill to assure an opportunity for employment to every American seeking work; to the Committee on Education and Labor.

H.R. 880. A bill to amend the National Labor Relations Act to secure to physically handicapped workers, employed in sheltered workshops the right to organize and bargain collectively, and for other purposes; to the Committee on Education and Labor.

H.R. 881. A bill to assure equal access for farmworkers to programs and procedures instituted for the protection of American working men and women, and for other purposes; to the Committee on Education and Labor.

H.R. 882. A bill to ban oppressive child labor in agriculture, and for other purposes; to the Committee on Education and Labor.

H.R. 883. A bill to make farmworkers eligible for unemployment compensation; to the Committee on Ways and Means.

By Mr. O'HARA (for himself and Mr. Dingell):

H.R. 884. A bill to amend the National Environmental Policy Act of 1969 to require Federal contractors, and persons contracting for federally supported activities, to observe practices which will preserve and enhance the environment and fisheries and wildlife resources, and for other purposes; to the Committee on Merchant Marine and Fisheries.

By Mr. PEPPER:

H.R. 885. A bill to provide that meetings of Government agencies shall be open to the public, and for other purposes; to the Committee on Government Operations.

H.R. 886. A bill to require the President to notify Congress whenever he impounds funds and to provide a procedure under which the Congress may disapprove such impoundment; to the Committee on Rules.

By Mr. PEPPER (for himself and Mr. Dingell):

H.R. 887. A bill to protect the Nation's consumers and to assist the commercial fishing industry through the inspection of establishments processing fish and fishery products in commerce; to the Committee on Merchant Marine and Fisheries.

By Mr. PETTIS:

H.R. 888. A bill to establish a senior citizens skill and talent utilization program; to the Committee on Education and Labor.

H.R. 889. A bill to limit the sale or distribution of mailing lists by Federal agencies; to the Committee on Government Operations.

H.R. 890. A bill to provide for the establishment of the National Conservation Area of the California Desert and to provide for the immediate and future protection, development, and administration of such public lands; to the Committee on Interior and Insular Affairs.

H.R. 891. A bill to provide for the exchange of certain public land in Napa and Sonoma Counties, Calif., for certain land within the Point Reyes National Seashore; to the Committee on Interior and Insular Affairs.

H.R. 892. A bill to convey certain federally owned land to the Twentynine Palms Park and Recreation District; to the Committee on Interior and Insular Affairs.

A bill to provide additional protection for the rights of participants in employee pension and profit-sharing retirement plans to establish minimum standards for pension and profit-sharing retirement plan vesting and funding, to establish a pension plan reinsurance program, to provide for regulation of the administration of pension and other employee benefit plans, to establish a U.S. Pension and Employee Benefit Plan Commission, to amend the Welfare and Pension Plans Disclosure Act, and for other purposes; to the Committee on Ways and Means.

By Mr. RAILSBACK (for himself, Mr. Alexander, Mr. Archer, Mr. Biester, Mr. Buchanan, Mr. Conte, Mr. Corman, Mr. Dellenback, Mr. Edwards of California, Mr. Erlenborn, Mr. Esch, Mr. Findley, Mr. Fish, Mr. Forsythe, Mr. Hansen of Idaho, Mr. Harrington, Mr. Heinz, Mr. Michel, Mr. Nichols, Mr. Pepper, Mr. Podell, Mr. Riegle, Mr. Shoup, Mr. Steiger of Wisconsin, and Mr. Charles H. Wilson of California):

H.R. 936. A bill to amend title 18 of the United States Code by adding a new chapter 404 to establish an Institute for Continuing Studies of Juvenile Justice; to the Committee on the Judiciary.

By Mr. RAILSBACK (for himself, Mr. Anderson of Illinois, Mr. Biester, Mr. Bingham, Mr. Brasco, Mr. Clay, Mr. Coughlin, Mr. Dominick V. Daniels, Mr. Gude, Mr. Hanley, Mr. Helstoski, Mr. Howard, Mr. McDade, Mr. Matsunaga, Mr. Mosher, Mr. Myers, Mr. Nix, Mr. O'Neill, Mr. Preyer, Mr. Price of Illinois, Mr. Rodino, Mr. Mr. Rosenthal, Mr. Sandman, Mr. Sarbanes, Mr. Smith of New York, and Mr. Symington):

H.R. 937. A bill to amend title 18 of the United States Code by adding a new chapter 404 to establish an Institute for Continuing Studies of Juvenile Justice; to the Committee on the Judiciary.

By Mr. RAILSBACK (for himself, Mr. Biester, Mr. Hechler of West Virginia, Mr. Hillis, Mr. Mann, Mr. Rees, Mr. Ruppe, Mr. Vander Jagt, Mr. Wyatt, and Mr. J. William Stanton).

H.R. 938. A bill to amend title 18 of the United States Code by adding a new chapter 404 to establish an Institute for Continuing Studies of Juvenile Justice; to the Committee on the Judiciary.

By Mr. RANDALL:

H.R. 939. A bill to amend the Occupational Safety and Health Act of 1970 to exempt any nonmanufacturing business, or any business having 25 or less employees, in States having laws regulating safety in such businesses, from the Federal standards created under such act; to the Committee on Education and Labor.

H.R. 940. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 941. A bill to amend the Uniform Time Act of 1966 in order to change the period during which daylight saving time shall be in effect in the United States to the period from Memorial Day to Labor Day of each year; to the Committee on Interstate and Foreign Commerce.

H.R. 942. A bill to amend the act providing an exemption from the antitrust laws with respect to agreements between persons engaging in certain professional sports for the purpose of certain television contracts in order to terminate such exemption when a home game is sold out; to the Committee on the Judiciary.

H.R. 943. A bill to prevent any court of the United States from ordering a halt on environmental grounds of certain Federal construction projects after a certain amount of work on such project is completed; to the Committee on the Judiciary.

H.R. 944. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide grants to States for the establishment, equipping, and operation of emergency communications centers to make the national emergency telephone number 911 available throughout the United States; to the Committee on the Judiciary.

H.R. 945. A bill to provide that the Secretary of the Treasury shall make a study of the overwithholding from wages of the Federal income tax and report, with legislative recommendtions, to the Congress; to the Committee on Ways and Means.

H.R. 946. A bill to amend the Internal Revenue Code of 1954 to provide interest on certain amounts withheld from wages and certain estimated payments of tax for purposes of the Federal income tax; to the Committee on Ways and Means.

H.R. 947. A bill to protect recipients of public assistance and medicaid benefits against loss of eligibility due to increases in social security benefits; to the Committee on Ways and Means.

H.R. 948. A bill to amend the Social Security Act to prohibit the payment of aid or assistance under approved State public assistance plans to aliens who are illegally within the United States; to the Committee on Ways and Means.

By Mr. RARICK:

H.R. 949. A bill to prohibit the redemption in gold of any obligations of the United States for, and to prohibit the sale of any gold of the United States to, any nation which is indebted to the United States; to the Committee on Banking and Currency.

H.R. 950. A bill to retrocede a portion of the District of Columbia to the State of Maryland; to the Committee on the District of Columbia.

H.R. 951. A bill to require the suspension of Federal financial assistance to colleges and universities failing to take appropriate corrective measures forthwith when experiencing campus disorders; and to require the suspension of Federal financial assistance to teachers participating in such disorders; to the Committee on Education and Labor.

H.R. 952. A bill to prohibit the expenditure of Federal funds by the Secretary of Health, Education, and Welfare to promote the fluoridation of public water supplies; to the Committee on Interstate and Foreign Commerce.

H.R. 953. A bill to prohibit the dissemination through interstate commerce or the mails of materials harmful to persons under the age of 18 years, and to restrict the exhibition of movies or other presentations harmful to such persons; to the Committee on the Judiciary.

H.R. 954. A bill to require judges of courts of the United States to file confidential financial statements with the Comptroller General of the United States, and for other purposes; to the Committee on the Judiciary.

H.R. 955. A bill to impose certain restrictions upon the appellate jurisdiction of the Supreme Court; to the Committee on the Judiciary.

H.R. 956. A bill to amend section 242 of ttitle 18, United States Code, to prohibit deprivation of rights under color or any statute, treaty, order, rule, or regulation implementing decisions of the United Nations; to the Committee on the Judiciary.

H.R. 957. A bill to repeal the Gun Control Act of 1968; to the Committee on the Judiciary.

H.R. 958. A bill to provide for the increase capcacity and the improvement of operations of the Panama Canal, and for other purposes; to the Committee on Merchant Marine and Fisheries.

H. R. 959. A bill to provide for the issuance of a commorative postage stamp in honor of the brave men who served on the U.S.S. *Liberty* and the U.S.S. *Pueblo;* to the Committee on Post Office and Civil Service.

H.R. 960. A bill to amend section 138 of the Legislative Reorganization Act of 1946 so as to provide for the reduction of the public debt by at least 10 percent of the estimated overall Federal receipts for each fiscal year; to the Committee on Rules.

H.R. 961. A bill to amend title 38 of the United States Code so as to entitle veterans of World War I and their widows and children to pension on the same basis as veterans of the Spanish-American War and their widows and children, respectively; to the Committee on Veterans' Affairs.

H.R. 962. A bill to amend the Internal Revenue Code of 1954 to increase from $600 to $1,800 the personal income tax exemptions of a taxpayer (including the exemption for a spouse, the exemptions for a dependent, and the additional exemptions for old age and blindness); to the Committee on Ways and Means.

H.R. 963. A bill to amend the Internal Revenue Code of 1954 to allow a credit against income tax to individuals for tuition expenses incurred in providing elementary and secondary education; to the Committee on Ways and Means.

H.R. 964. A bill to amend the Internal Revenue Code of 1954 to require each tax-exempt organization to file an annual information return showing each source (including governmental sources) of its income and other receipts, and to provide for a loss of tax exemption in the case of willful failure to file, or fraudulent statements made in connection with, such return; to the Committee on Ways and Means.

H.R. 965. A bill to amend the Internal Revenue Code of 1954 to provide that tax-exempt organizations which engage in activities of carrying on propaganda, or otherwise attempting to influence legislation, shall lose their exemption from tax; to the Committee on Ways and Means.

H.R. 966. A bill to amend the Internal Revenue Code of 1954 to provide that tax-exempt organizations which voluntarily engage in litigation for the benefit of third parties, or commit other prohibited acts, shall lose their exemption from tax; to the Committee on Ways and Means.

By Mr. REUSS (for himself, Mr. Aspin, Mr. Badillo, Mr. Bergland, Mr. Bingham, Mr. Brademas, Mr. Carney of Ohio, Mrs. Chisholm, Mr. Conyers, Mr. Diggs, Mr. Dingell, Mr. Drinan, Mr. Dulski, Mr. Eckhardt, Mr. Edwards of California, Mr. Eilberg, Mr. Fauntroy, Mr. Flood, Mr. William D. Ford, Mr. Harrington, Mr. Hechler of West Virginia, Mr. Hicks, Mr. Kastenmeier, Mr. Koch, and Mr. Kyros):

H.R. 967. A bill to amend the Internal Revenue Code of 1954 to raise needed additional revenues by tax reform; to the Committee on Ways and Means.

By Mr. REUSS (for himself, Mr. Lehman, Mr. Long of Maryland, Mr. Madden, Mr. Meeds, Mrs. Mink, Mr. Mitchell of Maryland, Mr. Moakley, Mr. Moorhead of Pennsylvania, Mr. Moss, Mr. Nedzi, Mr. Nix, Mr. Obey, Mr. Podell, Mr. Price of Illinois, Mr. Rees, Mr. Rodino, Mr. Rosenthal, Mr. Roybal, Mr. Sarbanes, Mr. Seiberling, Mr. James V. Stanton, Mr. Stark, Mr. Stokes, and Mr. Studds):

H.R. 968. A bill to amend the Internal Revenue Code of 1954 to raise needed additional revenues by tax reform; to the Committee on Ways and Means.

By Mr. REUSS (for himself, Mr. Symington, Mr. Tiernan, Mr. Waldie, Mr. Charles H. Wilson of California, Mr. Yatron, and Mr. Zablocki):

H.R. 969. A bill to amend the Internal Revenue Code of 1954 to raise needed additional revenues by tax reform; to the Committee on Ways and Means.

By Mr. RHODES (for himself, Mr. Collins, Mr. Findley, Mr. Mayne, Mr. Davis of Wisconsin, Mr. Baker, Mr. Conable, Mr. Thomson of Wisconsin, Mr. Butler, Mr. Sebelius, Mr. Shoup, Mr. Wyman, Mr. Archer, Mr. Huber, Mr. Steiger of Wisconsin, Mr. Cleveland, Mr. Talcott, Mr. Ware, Mr. Michel, Mr. Pritchard, Mr. Ketchum, Mr. Scherle, Mr. Steiger of Arizona, Mr. Mizell, and Mr. Conte):

H.R. 970. A bill to amend the Federal Salary Act of 1967, and for other purposes; to the Committee on Post Office and Civil Service.

By Mr. RHODES (for himself, Mr. Conlan, Mr. Miller of Ohio, Mr. Broyhill of North Carolina, Mr. Cronin, Mr. Robinson of Virginia, Mr. Anderson of Illinois, Mr. Young of Florida, and Mr. Kemp):

H.R. 1115. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide for the development and operation of treatment programs for certain drug abusers who are confined to or released from correctional institutions and facilities; to the Committee on the Judiciary.

H.R. 1116. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide increased assistance to correctional programs, to establish more detailed guidelines for such programs, and to create a streamlined administration of such assistance; to the Committee on the Judiciary.

H.R. 1117. A bill to provide Federal assistance to State and local governments for the purpose of developing and improving communication procedures and facilities with respect to the prompt and efficient dispatch of police, fire, rescue, and other emergency services; to the Committee on the Judiciary.

H.R. 1118. A bill to extend benefits under section 8191 of title 5, United States Code, to law enforcement officers and firemen not employed by the United States who are killed or totally disabled in the line of duty; to the Committee on the Judiciary.

H.R. 1119. A bill to amend section 1114 of title 18 of the United States Code to extend Federal protection to certain officers and employees of the General Services Administration; to the Committee on the Judiciary.

H.R. 1120. A bill to amend the Civil Rights Act of 1964 in order to prohibit discrimination on the basis of physical or mental handicap in federally assisted programs; to the Committee on the Judiciary.

H.R. 1121. A bill to amend the Immigration and Nationality Act with respect to the waiver of certain grounds for exclusion and deportation; to the Committee on the Judiciary.

H.R. 1122. A bill to amend section 242(b) of the Immigration and Nationality Act to require special deportation proceedings in connection with the voluntary departure from the United States of any alien who is a native of a country contiguous to the United States; to the Committee on Judiciary.

H.R. 1123. A bill to provide reimbursement to certain individuals for medical relief for physical injury suffered by them that is directly attributable to the explosions of the atomic bombs on Hiroshima and Nagasaki, Japan, in August 1945 and the radioactive fallout from those explosions; to the Committee on the Judiciary.

H.R. 1124. A bill to prohibit the discharge into any of the navigable waters of the United States or into international waters of any military material or other refuse without a certification by the Environmental Protection Agency approving such discharge; to the Committee on Merchant Marine and Fisheries.

H.R. 1125. A bill to protect the civilian employees of the executive branch of the U.S. Government in the enjoyment of their constitutional rights and to prevent unwarranted governmental invasions of their privacy; to the Committee on Post Office and Civil Service.

H.R. 1126. A bill to amend title 5, United States Code, to include as creditable service for civil service retirement purposes service as an enrollee of the Civilian Conservation Corps, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 1127. A bill to amend title 5 of the United States Code to extend to employees retired on account of disability prior to October 1, 1956, the minimum annuity base established for those retired after that date; to the Committee on Post Office and Civil Service.

H.R. 1128. A bill to amend the Disaster Relief Act of 1970 to provide for the mandatory development and maintenance by States of disaster preparedness plans, to provide for the annual testing of such plans, to increase the amount of Federal assistance in the case of approved plans, and for other purposes; to the Committee on Public Works.

H.R. 1129. A bill to provide for contributions by the Federal Government to repair, restore, reconstruct, or replace nonprofit hospitals under the provisions of the Disaster Relief Act of 1970; to the Committee on Public Works.

H.R. 1130. A bill to provide Federal financial assistance for the reconstruction or repair of private nonprofit medical care facilities which are damaged or destroyed by a major disaster; to the Committee on Public Works.

H.R. 1131. A bill to require the President to notify the Congress whenever he impounds funds, or authorizes the impounding of funds, and to provide a procedure under which the House of Representatives and the Senate may approve the President's action or require the President to cease such action; to the Committee on Rules.

H.R. 1132. A bill to provide for the establishment of a national cemetery in Los Angeles County in the State of California; to the Committee on Veterans' Affairs.

H.R. 1133. A bill to amend section 351 of title 38, United States Code, to enlarge the class of persons entitled to benefits thereunder to include veterans suffering injury or death as a result of natural disaster occurring while they undergo treatment in a Veterans' Administration facility, and the dependents of such veterans; to the Committee on Veterans' Affairs.

H.R. 1134. A bill to amend title 38 of the United States Code to provide that any social security benefit increases provided for by Public Law 92–336 be disregarded in determining eligibility for pension or compensation under such title; to the Committee on Veterans' Affairs.

H.R. 1135. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; to the Committee on Ways and Means.

H.R. 1136. A bill to amend the Federal Insurance Contributions Act to provide a method for assuring that social security taxes deducted from an employee's wages are actually forwarded to the Treasury and credited to such employee's account; to the Committee on Ways and Means.

H.R. 1137. A bill to amend the Social Security Act to establish a national system of minimum retirement payments for all aged, blind, and disabled individuals; to the Committee on Ways and Means.

H.R. 1138. A bill to amend the Social Security Act to establish a national system of minimum retirement payments for all aged, blind, and disabled individuals; to the Committee on Ways and Means.

H.R. 1139. A bill to require States to pass along to public assistance recipients who are entitled to social security benefits the full amount of the 1972 increase in such benefits, either by disregarding it in determining their need for assistance or otherwise; to the Committee on Ways and Means.

H.R. 1140. A bill to amend title II of the Social Security Act to increase to $750 in all cases the amount of the lump-sum death payment thereunder; to the Committee on Ways and Means.

H.R. 1141. A bill to amend section 592 of the Tariff Act of 1930, and for other purposes; to the Committee on Ways and Means.

H.R. 1142. A bill to prohibit most-favored-nation treatment and commercial and guarantee agreements with respect to any nonmarket economy country which denies to its citizens the right to emigrate or which imposes more than nominal fees upon its citizens as a condition to emigration; to the Committee on Ways and Means.

H.R. 1143. A bill to establish a Transportation Trust Fund, to encourage urban mass transportation, and for other purposes; to the Committee on Ways and Means.

H.R. 1144. A bill to authorize grants to the Deganawidah-Quetzalcoatl University; to the Committee on Education and Labor.

By Mr. ROYBAL (for himself, Mr. ANDERSON of California, Mr. BADILLO, Mr. BELL, Mr. BURTON, Mr. CONYERS, Mr. CORMAN, Mr. EDWARDS of California, Mr. HAWKINS, Mr. MCFALL, Mr. MITCHELL of Maryland, Mr. MURPHY of New York, Mr. PODELL, Mr. REES, Mr. RIEGLE, Mr. WALDIE, Mr. HELSTOSKI, and Mr. MOSS):

H.R. 1145. A bill to authorize grants to the Deganawidah-Quetzalcoatl University; to the Committee on Education and Labor.

By Mr. ROYBAL (for himself, Mr. BRASCO, Mr. CONYERS, Mr. DANIELSON, Mr. EDWARDS of California, Mr. FUQUA, Mr. HAWKINS, Mr. HECHLER of West Virginia, Mr. ROSENTHAL, Mr. CHARLES H. WILSON of California, Mr. WOLFF, and Mr. HARRINGTON):

H.R. 1146. A bill to establish a program to replace, through the cooperative efforts of Federal, State, and local governments, elementary and secondary schools which are in a dangerous location or unsafe condition or are otherwise deficient; to the Committee on Education and Labor.

By Mr. ROYBAL (for himself and Mr. EDWARDS of California):

H.R. 1147. A bill to amend section 312(1) of the Immigration and Nationality Act; to the Committee on the Judiciary.

By Mr. ROYBAL (for himself, Mr. BENNETT, Mr. BURTON, Mr. DANIELSON, Mr. HARRINGTON, Mr. MCFALL, Mrs. MINK, Mr. MURPHY of New York, Mr. REES, Mr. SISK, Mr. VAN DEERLIN, and Mr. WALDIE):

H.R. 1148. A bill to amend the Internal Revenue Code of 1954 to provide that any resident of the Republic of the Philippines may be a dependent for purposes of the income tax deduction for personal exemptions; to the Committee on Ways and Means.

By Mr. ST GERMAIN:

H.R. 1149. A bill to amend title II of the Social Security Act to provide that no reduction shall be made in the amount of any old-age insurance benefit to which an individual is entitled if such individual has 120 quarters of coverage, and to provide that an individual with 120 quarters of coverage may become entitled to medicare benefits at age 62; to the Committee on Ways and Means.

By Mr. SAYLOR:

H.R. 1150. A bill to repeal chapter 44 of title 18, United States Code (relating to firearms), and to reenact the Federal Firearms Act; to the Committee on the Judiciary.

H.R. 1151. A bill to amend section 118(c) of title 28, United States Code, to establish a place for the holding of Federal district court in Johnstown, Pa.; to the Committee on the Judiciary.

H.R. 1152. A bill to abolish the U.S. Postal Service, to repeal the Postal Reorganization Act, to reenact the former provisions of title 39, United States Code, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 1153. A bill to amend title 5, United States Code, to provide for the mandatory separation from Government service of all officers and employees thereof at the age of 70 years; to the Committee on Post Office and Civil Service.

H.R. 1154. A bill to designate the portion of the project for flood control protection on Chartiers Creek that is within Allegheny County, Pa., as the "James G. Fulton Flood Protection Project"; to the Committee on Public Works.

H.R. 1155. A bill to amend title 38 of the United States Code to provide a special pension for veterans of World War I and their widows; to the Committee on Veterans' Affairs.

H.R. 1156. A bill to provide for the establishment of a national cemetery in the Commonwealth of Pennsylvania, and for other purposes; to the Committee on Veterans' Affairs.

H.R. 1157. A bill to amend title 38 of the United States Code to provide that any 5-year level premium term plan policy of national service life insurance shall be deemed paid when premiums paid in, less dividends, equal the amount of the policy; to the Committee on Veterans' Affairs.

H.R. 1158. A bill to amend title 38 of the United States Code to provide that any 5-year level premium term plan policy of U.S. Government life insurance shall be deemed paid when premiums paid in, less dividends, equal the amount of the policy; to the Committee on Veterans' Affairs.

H.R. 1159. A bill to amend the Internal Revenue Code I of 1954 to allow a deduction for expenses incurred by a taxpayer in making repairs and improvements to his residence, and to allow the owner of rental housing to amortize at an accelerated rate the cost of rehabilitating or restoring such housing; to the Committee on Ways and Means.

H.R. 1160. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; to the Committee on Ways and Means.

H.R. 1161. A bill to provide incentives for the establishment of new or expanded job-producing industrial and commercial establishments in rural areas; to the Committee on Ways and Means.

By Mr. SCHERLE:

H.R. 1162. A bill to amend the Federal Meat Inspection Act to provide for more effective inspection of imported meat and meat products to prevent the importation of diseased, contaminated, or otherwise unwholesome meat and meat products; to the Committee on Agriculture.

H.R. 1163. A bill to amend the Federal Meat Inspection Act to require that imported meat and meat food products made in whole or in part of imported meat be labeled "imported" at all stages of distribution until delivery to the ultimate consumer; to the Committee on Agriculture.

H.R. 1164. A bill to require the Secretary of Agriculture to carry out a Rural Environmental Assistance Program; to the Committee on Agriculture.

H.R. 1165. A bill to amend title IV of the Higher Education Act of 1965 to establish a Student Loan Marketing Association; to the Committee on Education and Labor.

H.R. 1166. A bill to preserve and protect the free choice of individual employees to form, join, or assist labor organizations, or to refrain from such activities; to the Committee on Education and Labor.

H.R. 1167. A bill to amend the Occupational Safety and Health Act of 1970 to exempt any nonmanufacturing business, or any business having 15 or less employees, in States having laws regulating safety in such businesses, from the Federal standards created under such act; to the Committee in Education and Labor.

H.R. 1168. A bill to establish an executive department to be known as the Department of Education, and for other purposes; to the Committee on Government Operations.

H.R. 1169. A bill to amend the Internal Security Act of 1950 to authorize the Federal Government to institute measures for the protection of defense production and of classified information released to industry against acts of subversion, and for other purposes; to the Committee in Internal Security.

H.R. 1170. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 1171. A bill to amend the Federal Food, Drug, and Cosmetic Act to revise certain requirements for approval of new animal drugs; to the Committee on Interstate and Foreign Commerce.

H.R. 1172. A bill to amend the Federal Trade Commission Act (15 U.S.C. 41 et seq.) to provide that under certain circumstances exclusive territorial arrangements shall not be deemed unlawful; to the Committee on Interstate and Foreign Commerce.

H.R. 1173. A bill to amend the Interstate Commerce Act in order to give the Interstate Commerce Commission additional authority to alleviate freight car shortages, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 1174. A bill to make it a Federal crime to kill or assault a fireman or law enforcement officer engaged in the performance of his duties when the offender travels in interstate commerce or uses any facility of interstate commerce for such purpose; to the Committee on the Judiciary.

H.R. 1175. A bill to amend the Internal Revenue Code of 1954 to provide for the continuation of the investment tax credit for small businesses, and for other purposes; to the Committee on Ways and Means.

By Mr. SCHNEEBELI (for himself and Mr. Gerald R. Ford):

H.R. 1176. A bill to amend the Internal Revenue Code of 1954 to allow a credit against the individual income tax for tuition paid for the elementary or secondary education of dependents; to the Committee on Ways and Means.

By Mr. SHIPLEY:

H.R. 1177. A bill to amend the Soil Conservation and Domestic Allotment Act, as amended, to provide for a Wabash Valley Basin environmental conservation program; to the Committee on Agriculture.

H.R. 1178. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 1179. A bill to amend the Federal Trade Commission Act (15 U.S.C. 41 et seq.) to provide that under certain circumstances exclusive territorial arrangements shall not be deemed unlawful; to the Committee on Interstate and Foreign Commerce.

H.R. 1180. A bill to repeal the Gun Control Act of 1968, to reenact the Federal Firearms Act, to make the use of a firearm to commit certain felonies a Federal crime where that use violates State law, and for other purposes; to the Committee on the Judiciary.

H.R. 1181. A bill to amend the Internal Revenue Code of 1954 to allow a deduction for income tax purposes of expenses incurred by an individual for transportation to and from work by automobile; to the Committee on Ways and Means.

H.R. 1182. A bill to amend the Internal Revenue Code of 1954 to provide that amounts not in excess of $500 a year received by volunteer firemen shall not be subject to income tax; to the Committee on Ways and Means.

H.R. 1183. A bill to amend the Internal Revenue Code of 1954 to provide that the first $5,000 of the income of a retired teacher shall be exempt from income tax; to the Committee on Ways and Means.

H.R. 1184. A bill to permit public school teachers (and other public school employees) who do not have coverage pursuant to State agreement under the Federal old-age survivors, and disability insurance system to elect coverage under such system as self-employed individuals; to the Committee on Ways and Means.

By Mr. SMITH of Iowa (for himself and Mr. Roe):

H.R. 1185. A bill to amend the Packers and Stockyards Act of 1921, as amended, to prohibit slaughter of livestock under certain conditions which reduce the bargaining power of livestock producers generally and interfere with a free market, and for other purposes; to the Committee on Agriculture.

H.R. 1186. A bill to authorize the establishment and maintenance of reserve supplies of soybeans, corn, grain sorghum, barley, oats, and wheat for national security and to protect domestic consumers against an inadequate supply of such commodities; to maintain and promote foreign trade; to protect producers of such commodities against an unfair loss of income resulting from the establishment of a reserve supply; to assist in marketing such commodities; to assure the availability of commodities to promote world peace and understanding; and for other purposes; to the Committee on Agriculture.

H.R. 1187. A bill to amend title 37 of the United States Code in order to provide certain enlisted members and commissioned officers of the Armed Forces with transportation to and from the homes of their next of kin; to the Committee on Armed Services.

H.R. 1188. A bill to authorize loans for study at nonprofit institutions of higher education; to the Committee on Education and Labor.

H.R. 1189. A bill to amend section 715 of title 32 of the United States Code to provide that claims for damage or injury caused by members of the Army or Air National Guard shall be allowed under such section notwithstanding the availability of remedies against the States for such damage or injury; to the Committee on the Judiciary.

H.R. 1190. A bill to amend the Internal Revenue Code to regulate and prevent multiple taxation of certain kinds of income; to the Committee on the Judiciary.

H.R. 1191. A bill to require the consideration of environmental and other factors, and the stockpiling and replacement of soil on all public works projects and highway and other projects which are federally assisted, on federally held land, and on projects which affect commerce among the States, or the general welfare and quality of life of the Nation; to the Committee on Public Works.

By Mr. SMITH of Iowa (for himself and Mr. Scherle):

H.R. 1192. A bill to provide for the establishment of a veterinary biologics facility by the U.S. Department of Agriculture, and for other purposes; to the Committee on Agriculture.

By Mr. STEIGER of Arizona:

H.R. 1193. A bill to authorize the partition of the surface rights in the joint use area of the 1882 Executive Order Hopi Reservation and the surface and subsurface rights in the 1934 Navajo Reservation between the Hopi and Navajo Tribes, to provide for allotments to certain Paiute Indians, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 1194. A bill to facilitate the incorporation of the reclamation townsite of Page, Ariz., Glen Canyon unit, Colorado River storage project, as a municipality under the laws of the State of Arizona, and for other purposes; to the Committee on Interior and Insular Affairs.

H.R. 1195. A bill to amend title 18 of the United States Code to provide penalties for fixing certain horse or dog races, and for other purposes; to the Committee on the Judiciary.

H.R. 1196. A bill to provide for the taxation and registration of persons engaged in the business of conducting certain horse or dog racing meetings, and for other purposes; to the Committee on Ways and Means.

By Mr. STEIGER of Wisconsin (for himself, Mr. Biester, Mr. Railsback, and Mr. Frey):

H.R. 1197. A bill to establish a Youth Council in the Executive Office of the President; to the Committee on Education and Labor.

By Mr. STEPHENS (for himself and Mr. Landrum):

H.R. 1198. A bill to amend the Federal Trade Commission Act (15 U.S.C. 41) to provide that under certain circumstances exclusive territorial arrangements shall not be deemed unlawful; to the Committee on Interstate and Foreign Commerce.

By Mr. STOKES:

H.R. 1199. A bill to amend title II of the Social Security Act to provide that an individual may qualify for disability insurance benefits and the disability freeze if he has enough quarters of coverage to be fully insured for old-age benefit purposes, regardless of when such quarters were earned; to the Committee on Ways and Means.

By Mr. STRATTON:

H.R. 1200. A bill to amend section 6(o) of the Military Service Act of 1967 to exempt from service an individual where such individual's mother's death was service connected, and for other purposes; to the Committee on Armed Services.

H.R. 1201. A bill to amend section 3287 of title, United States Code, to authorize the crediting of prior active commissioned service in any Armed Force to officers appointed in the Regular Army; to the Committee on Armed Services.

By Mr. STRATTON (for himself, Mr. WALSH):

H.R. 1202. A bill to amend the Bank Holding Company Act Amendments of 1970 to authorize grants to Eisenhower College, Seneca Falls, N.Y.; to the Committee on Banking and Currency.

By Mr. STRATTON:

H.R. 1203. A bill to amend chapter 81 of subpart G of title 5, United States Code, relating to compensation for work injuries, and for other purposes; to the Committee on Education and Labor.

H.R. 1204. A bill to expand the membership of the Advisory Commission on Intergovernmental Relations to include elected school board officials and elected town and township officials; to the Committee on Government Operations.

H.R. 1205. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of applications for renewal of broadcast licenses; to the Committee on Interstate and Foreign Commerce.

H.R. 1206. A bill to amend the Flammable Fabrics Act to extend the provisions of that act to construction materials used in the interiors of homes, offices, and other places of assembly or accommodation, and to authorize the establishment of toxicity standards; to the Committee on Interstate and Foreign Commerce.

H.R. 1207. A bill to amend the Hazardous Materials Transportation Control Act of 1970 to require the Secretary of Transportation to issue regulations providing for the placarding of certain vehicles transporting hazardous materials in interstate and foreign commerce, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 1208. A bill to provide for the establishment of projects for the dental health of children, to increase the number of dental auxiliaries, to increase the availability of dental care through efficient use of dental personnel, and for other purposes; to the Committee on Interstate and Foreign Commerce.

H.R. 1209. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide a system for the redress of law officers grievances and to establish a law enforcement officers bill of rights in each of the several States, and for other purposes; to the Committee on the Judiciary.

H.R. 1210. A bill to provide death benefits to survivors of certain public safety and law enforcement personnel, and public officials concerned with the administration of criminal justice and corrections, and for other purposes; to the Committee on the Judiciary.

H.R. 1211. A bill to establish a National Police Academy, and for other purposes; to the Committee on the Judiciary.

H.R. 1212. A bill for the relief of Soviet Jews; to the Committee on the Judiciary.

H.R. 1213. A bill to designate the birthday of Martin Luther King, Jr., as a legal public holiday; to the Committee on the Judiciary.

H.R. 1214. A bill to amend title 5, United States Code, to correct certain inequities in the crediting of National Guard technician service in connection with civil service retirement, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 1215. A bill to amend title 5, United States Code, to provide special annuities for certain employees separated from the service as a result of reduction in force actions, closing or transfer of bases and other organizational units, and abolishment of positions, and for other purposes; to the Committee on Post Office and Civil Service.

H.R. 1216. A bill to abolish the Commission for Extension of the U.S. Capitol, to repeal the authority for the extension of the west-central front of the U.S. Capitol, and for other purposes; to the Committee on Public Works.

H.R. 1217. A bill to amend title 23 of the United States Code to authorize construction of exclusive or preferential bicycle lanes, and for other purposes; to the Committee on Public Works.

H.R. 1218. A bill to amend title III of the act of March 3, 1933, commonly known as the Buy American Act, with respect to determining when the cost of certain articles, materials, or supplies is unreasonable, and for other purposes; to the Committee on Public Works.

H.R. 1219. A bill to provide for the creation of the National Fire Academy, and for other purposes; to the Committee on Science and Astronautics.

H.R. 1220. A bill to establish a National Fire Data and Information Clearinghouse, and for other purposes; to the Committee on Science and Astronautics.

H.R. 1221. A bill to extend for 3 years the authority of the Secretary of Commerce to carry out fire research and safety programs; to the Committee on Science and Astronautics.

H.R. 1222. A bill to provide the Secretary of Commerce with the authority to make grants to accredited institutions of higher education to pay for up to one-half of the costs of fire science programs; to the Committee on Science and Astronautics.

H.R. 1223. A bill to provide the Secretary of Commerce with the authority to make grants to States, counties, and local communities to pay for up to one-half of the costs of training programs for firemen; to the Committee on Sciences and Astronautics.

H.R. 1224. A bill to provide financial aid to local fire departments in the purchase of advanced firefighting equipment; to the Committee on Science and Astronautics.

H.R. 1225. A bill to provide financial aid for local fire departments in the purchase of firefighting suits and self-contained breathing apparatus; to the Committee on Science and Astronautics.

H.R. 1226. A bill to amend section 109 of title 38, United States Code, to provide benefits for members of the Armed Forces of nations allied with the United States in World War I or World War II; to the Committee on Veterans' Affairs.

H.R. 1227. A bill to amend title 38 of the United States Code in order to establish a program providing 52 weeks of assured employment to Vietnam era veterans unable to find work; to the Committee on Veterans' Affairs.

H.R. 1228. A bill to extend to all unmarried individuals the full tax benefits of income splitting now enjoyed by married individuals filing joint returns; to the Committee on Ways and Means.

H.R. 1229. A bill to amend the Internal Revenue Code of 1954 to provide a 30-percent credit against the individual income tax for amounts paid as tuition or fees to certain public or private institutions of higher education; to the Committee on Ways and Means.

H.R. 1230. A bill to amend title II of the Social Security Act to reduce from 72 to 70 the age at which deductions on account of an individual's outside earnings will cease to be made from benefits based on such individual's wage record; to the Committee on Ways and Means.

By Mr. STUCKEY:

H.R. 1231. A bill to provide for the establishment of residential treatment centers for emotionally disturbed children in the District of Columbia; to the Committee on District of Columbia.

By Mr. SYMMS:

H.R. 1232. A bill to permit American citizens to own gold; to the Committee on Banking and Currency.

H.R. 1233. A bill to repeal certain provisions of law relating to the private carriage of letters, and for other purposes; to the Committee on Post Office and Civil Service.

By Mr. TEAGUE of Texas (for himself, Mr. MOSHER, and Mr. McCORMACK):

H.R. 1234. A bill to provide a national program in order to make the international metric system the predominant but not exclusive system of measurement in the United States and to provide for converting to the general use of such system within 10 years; to the Committee on Science and Astronautics.

By Mrs. SULLIVAN:

H.R. 1235. A bill to protect the public health by amending the Federal Food, Drug, and Cosmetic Act so as to amend certain labeling provisions of the food, drug, and cosmetic chapters to assure adequate information for consumers, including cautionary labeling of articles where needed to prevent accidental injury; expand the coverage of the Delaney clause to apply to mutagenic and teratogenic agents; eliminate the grandfather clause for pre-1958 chemical additives used in food; require nutritional labeling of foods; require labeling of all ingredients in foods, listed in order of predominance; prohibit worthless ingredients in special dietary foods; authorize the establishment of standards for medical devices; require medical devices to be shown safe and efficacious before they are marketed commercially; require all antibiotics to be certified; provide for the certification of certain other drugs; require records and reports bearing on drug safety; limit the distribution of sample drugs; require cosmetics to be shown safe before they are marketed commercially; clarify and strengthen existing inspection authority; make additional provisions of the act applicable to carriers; provide for administrative subpenas; provide for strengthening and facilitating mutual cooperation and assistance, including training of personnel, in the administration of that act and of related State and local laws; prohibit the use of carcinogenic color additives in animal feeds; safeguard the health of children by banning sweetened or flavored aspirin from commerce; authorize a system of coding for prescription drugs; establish a U.S. Drug Compendium; provide additional authority to insure the wholesomeness of fish and fishery products; and for other purposes; to the Committee on Interstate and Foreign Commerce.

By Mr. THOMPSON of New Jersey (for himself and Mr. ASHBROOK):

H.R. 1236. A bill to amend the National Labor Relations Act to extend its coverage and protection to employees of nonprofit hospitals, and for other purposes; to the Committee on Education and Labor.

By Mr. THOMSON of Wisconsin:

By Mr. MICHEL:

H.R. 1356. A bill for the relief of Ann E. Shepherd; to the Committee on the Judiciary.

By Mr. OBEY:

H.R. 1357. A bill for the relief of James J. Caldwell; to the Committee on the Judiciary.

By Mr. PEYSER:

H.R. 1358. A bill for the relief of Giuseppe Cascone and his wife, Giovanna Cascone; to the Committee on the Judiciary.

H.R. 1359. A bill for the relief of Vincenzo Lombardo and his wife, Gaetana Castrogiovanni Lombardo; to the Committee on the Judiciary.

H.R. 1360. A bill for the relief of Celestina Martorana; to the Committee on the Judiciary.

H.R. 1361. A bill for the relief of Giuseppe Praino, his wife, Vita Oranza Praino and their children Salvatore, Michele, and Marcello; to the Committee on the Judiciary.

H.R. 1362. A bill for the relief of Amy Estelle Sebro; to the Committee on the Judiciary.

H.R. 1363. A bill for the relief of Waimir Turolla; to the Committee on the Judiciary.

By Mr. QUIE:

H.R. 1364. A bill for the relief of Archie N. Stadler; to the Committee on the Judiciary.

By Mr. QUILLEN:

H.R. 1365. A bill for the relief of Carl W. Houston; to the Committee on the Judiciary.

By Mr. ROUSSELOT:

H.R. 1366. A bill for the relief of Juan Marcos Cordova-Campos; to the Committee on the Judiciary.

By Mr. ROYBAL:

H.R. 1367. A bill for the relief of Bertha Alicia Sierra; to the Committee on the Judiciary.

By Mr. SCHERLE:

H.R. 1368. A bill for the relief of Jesse Pursell and Sam Corbino; to the Committee on the Judiciary.

By Mr. SMITH of Iowa:

H.R. 1369. A bill for the relief of Giuseppe Andreano; to the Committee on the Judiciary.

By Mr. STRATTON:

H.R. 1370. A bill to authorize the President to appoint Vice Adm. Hyman G. Rickover, U.S. Navy, to the grade of admiral; to the Committee on Armed Services.

By Mr. THOMSON of Wisconsin:

H.R. 1371. A bill for the relief of Dr. and Mrs. Donald J. Alm; to the Committee on the Judiciary.

Mr. VEYSEY:

H.R. 1372. A bill to authorize and direct the Secretary of the Interior to quitclaim to Kaiser Steel Corp. the remaining interest of the United States in and to certain public lands in Riverside County, Calif.; to the Committee on Interior and Insular Affairs.

By Mr. WIDNALL:

H.R. 1373. A bill for the relief of Ikot Alfred Ekanem; to the Committee on the Judiciary.

H.R. 1374. A bill for the relief of Alfredo Federico Pizzi, Lydia Palmira Pizzi, and Lawrence Pizzi; to the Committee on the Judiciary.

By Mr. WRIGHT:

H.R. 1375. A bill for the relief of Arturo Aguirre-Alvarado, his wife, Soledad Labra de Aguirre, and their children, Graciela Aguirre Labra, Guadalupe Aguirre Labra, Alma Rosa Aguirre Labra, Arturo Aguirre Labra, Jr., Alberto Aguirre Labra, and Beatriz Aguirre Labra; to the Committee on the Judiciary.

H.R. 1376. A bill for the relief of J. B. Riddle; to the Committee on the Judiciary.

By Mr. YATRON:

H.R. 1377. A bill for the relief of Michael Joseph Wendt; to the Committee on the Judiciary.

By Mr. YOUNG of Florida:

H.R. 1378. A bill for the relief of James E. Bashline; to the Committee on the Judiciary.

H.R. 1379. A bill for the relief of Roy E. Lindquist; to the Committee on the Judiciary.

H.R. 1380. A bill for the relief of Felix R. Moss, colonel, U.S. Army; to the Committee on the Judiciary.

By Mr. GREEN of Pennsylvania:

H. Con. Res. 41. Concurrent resolution expressing the sense of the Congress in the case of Margaret A. Wunderle; to the Committee on the Judiciary.

By Mr. SAYLOR:

H. Con. Res. 42. Concurrent resolution recognizing the golf course of the Foxburg Country Club of Foxburg, Pa., as the oldest golf course in continuous use in the United States; to the Committee on the Judiciary.

By Mr. WHITEHURST:

H. Con. Res. 43. Concurrent resolution in recognition of the 225th anniversary of Washington and Lee University; to the Committee on the Judiciary.

## PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

1. By the SPEAKER: Petition of Associated Plumbing & Mechanical Contractors of Florida, Inc., relative to local plumbing codes; to the Committee on Banking and Currency.

2. Also, petition of the annual meeting of the National Association of State Park Directors, Honolulu, Hawaii, relative to the Federal Water Project Recreation Act; to the Committee on Interior and Insular Affairs.

3. Also, petition of the International Northwest Aviation Council, Seattle, Wash., relative to aircraft hijacking; to the Committee on Interstate and Foreign Commerce.

4. Also, petition of the Italian Vietnam Committee, Bertinoro, Italy, relative to settlement of the war in Vietnam; to the Committee on Foreign Affairs.

5. Also, petition of Louis Mira, Los Angeles, Calif., relative to diplomatic negotiations; to the Committee on Foreign Affairs.

6. Also, petition of members of the trade union group "Calculation" of the printing shop "New Germany", Berlin, East Germany, relative to settlement of the war in Vietnam; to the Committee on Foreign Affairs.

7. Also, petition of students of the Friedrich Engels Upper School, Karl Marx Stadt, East Germany, relative to settlement of the war in Vietnam; to the Committee on Foreign Affairs.

8. Also, petition of the City Council, Montpelier, Vt., relative to the apportionment of State legislatures; to the Committee on the Judiciary.

9. Also, petition of the delegate assembly of the Vermont State School Directors Association, Montpelier, Vt., relative to the apportionment of State legislatures; to the Committee on the Judiciary.

10. Also, petition of Sam Sotter, Athens, Greece, relative to redress of grievances; to the Committee on the Judiciary.

11. Also, petition of the City Commission, Bay City, Mich., relative to the clean water bill; to the Committee on Public Works.

14. Also, petition of A. C. Hill, Lilbourn, Mo., relative to pensions for veterans of World War I; to the Committee on Veterans' Affairs.

15. Also, petition of the City Council, Youngstown, Ohio, relative to the use of Federal revenue sharing funds for mass transit; to the Committee on Ways and Means.

16. Also, petition of the City Council, Los Angeles, Calif., relative to regulating imports; to the Committee on Ways and Means.

17. Also, petition of the City Council, Philadelphia, Pa., relative to tariff protection for the domestic garment industry; to the Committee on Ways and Means.

---

# SENATE—*Thursday January 4, 1973*

The Senate met at 12 o'clock meridian and was called to order by the President pro tempore (Mr. EASTLAND).

### PRAYER

The Chaplain, the Reverend Edward L. R. Elson, D.D., offered the following prayer:

Eternal Father, as we undertake the tasks of this day, gratefully we remember before Thee Thy servant, Harry S Truman. We thank Thee for his long and distinguished service as a Member of this body, for his high leadership as President of the Republic, for his wisdom and courage in difficult decisions, for his efforts to make and conserve the peace of the world, for his devotion to freedom and justice for all, and for his manly qualities which endeared him to so many. May some portion of the dedication which was his come upon us.

As we offer a memorial for a past President, we pray also for the present President that he may be given grace, wisdom, and strength for the burdens of this age.

We lift up to Thee the Members of this body into whose lives sorrow has so recently come. Grant to them the assurance of our brotherly sympathy and the grace, comfort, and strength of Thy pervading presence.

In the name of Him who is the resurrection and the life. Amen.

## THE JOURNAL

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the reading of the Journal of the proceedings of Wednesday, January 3, 1973, be dispensed with.

The PRESIDENT pro tempore. Without objection, it is so ordered.

## TRIBUTE TO FORMER PRESIDENT HARRY S TRUMAN

Mr. SCOTT of Pennsylvania. Mr. President, as we pay tribute to former President Harry S Truman, with whom many of us served, we recall that this was a very strong man. He made difficult decisions. He served in time of war and in time of peace. As the leader of our Nation, he did not hesitate to be strong when strength was necessary. He did what had to be done in the national interest. He did it strongly. He did it notwithstanding the criticism offered against him. He moved sturdily and steadily ahead with his purposes.

He brought about a situation which enabled the succeeding President to end a difficult war. He used the most powerful weapon available in the history of mankind, with what reluctance no one will ever know. But he did it.

The Nation honors that kind of strength, as in time they will honor the strength of every President who dares to do what he thinks is right against the second guessing of the clamorous critics.

Elizabeth Barrett Browning once wrote:

> Happy are all free peoples,
> Too strong to be dispossessed.
> But blessed are they among nations,
> Who dare to be strong for the rest.

Mr. President, that has been the role of the United States—sometimes, we think, too much. It has been the role of the United States, at times, as in the Marshall plan, to dare to be strong for the rest.

As Truman, in using the Marshall plan, held great sectors of the world free from tyranny and aggression, as Eisenhower, in the landings at Lebanon, effected the same results in maintaining the stability of the Middle East, so must each President in the loneliness of his responsibilities make these strong and difficult decisions.

I believe that Congress, concerned as it is now with its prerogatives, will need to remember that there is something more important than prerogative, something more important than protocol, something more important than headlines—and that is the security of the United States.

We customarily extend broad trust to a President in the course of the protection of the Nation. It tries our souls and stretches our patience at times when we feel that we do not know all we would like to know. It raises the question more than once that the Senate may have obligations as well.

Mr. President, in the long run, the country has found that the actions of strong Presidents, courageously taken, are apt to be ratified not only by the public through the expression of its opinion, but also that such actions may well be writ large on the history books.

So that I hope, as we enter this session and extend our mutual benisons or blessings one to another, we will at least temper our language to the point where reason may prevail and we may be able to reason together as Isaiah commands us, and as would be the course of wisdom.

So, Mr. President, I pay my tribute to Harry S Truman—strong man, brave man, zealous man, earthy man—and a good man.

We will all miss him.

## MESSAGES FROM THE PRESIDENT

Messages in writing from the President of the United States were communicated to the Senate by Mr. Geisler, one of his secretaries.

## EXECUTIVE MESSAGES REFERRED

As in executive session, the President pro tempore laid before the Senate messages from the President of the United States submitting sundry nominations, which were referred to the appropriate committees.

(The nominations received today are printed at the end of Senate proceedings.)

## MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Berry, one of its reading clerks, announced that the House had agreed to the concurrent resolution (S. Con. Res. 1) to provide for the counting on January 6, 1973, of the electoral votes for President and Vice President of the United States.

The message also announced that the House had passed a joint resolution (H.J. Res. 1) extending the time within which the President may transmit the budget message and the economic report to the Congress and extending the time within which the Joint Economic Committee shall file its report, in which it requested the concurrence of the Senate.

The message further announced that the House had agreed to a concurrent resolution (H. Con. Res. 1) making the necessary arrangements for the inauguration of the President-elect and Vice President-elect of the United States, in which it requested the concurrence of the Senate.

The message also announced that the House had agreed to a resolution (H. Res. 1) which determines that there is a vacancy in the 93d Congress in the representation from the Second Congressional District in the State of Louisiana because of the absence of Representative-elect Hale Boggs.

The message further announced that the House had agreed to a resolution (H. Res. 3) informing the Senate that a quorum of the House of Representatives has assembled; that Carl Albert, a Representative from the State of Oklahoma, has been elected Speaker; and W. Pat Jennings, a citizen of the Commonwealth of Virginia, Clerk of the House of Representatives of the 93d Congress.

The message also announced that the House had agreed to a resolution (H. Res. 14) relating to the death of Harry S Truman, former President of the United States.

The message further announced that the House had agreed to a resolution (H. Res. 15) communicating to the Senate the intelligence of the death of Hon. Nick Begich, a Representative-elect from the State of Alaska.

The message also announced that the House had agreed to a resolution (H. Res. 16) communicating to the Senate the intelligence of the death of Hon. George W. Collins, late a Representative from the State of Illinois.

## ORDER OF BUSINESS

Mr. ROBERT C. BYRD. Mr. President, if the distinguished Senator from New York (Mr. Javits) who was to be recognized following recognition of the two leaders under the standing order, will yield to me for a few seconds——

Mr. JAVITS. I am happy to yield to the Senator from West Virginia if the Chair will first recognize me. Then I shall be prepared to yield.

The PRESIDENT pro tempore. Under the previous order, the distinguished Senator from New York (Mr. Javits) is now recognized for 15 minutes.

Mr. JAVITS. I thank the Chair. I now yield to the Senator from West Virginia.

## ARRANGEMENTS FOR THE INAUGURATION OF THE PRESIDENT

Mr. ROBERT C. BYRD. Mr. President, I ask the Chair to lay before the Senate a message from the House of Representatives on House Concurrent Resolution 1.

The PRESIDENT pro tempore laid before the Senate House Concurrent Resolution 1, which was read as follows:

> H. Con. Res. 1
>
> *Resolved by the House of Representatives (the Senate concurring)*, That effective from January 3, 1973, the joint committee created by Senate Concurrent Resolution 63, of the Ninety-second Congress, to make the necessary arrangements for the inauguration of the President-elect and Vice President-elect of the United States on the 20th day of January 1973, is hereby continued and for such purpose shall have the same power and authority as that conferred by such Senate Concurrent Resolution 63, of the Ninety-second Congress.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous cousent for the immediate consideration of the concurrent resolution.

The PRESIDENT pro tempore. Is there objection to the request of the Senator from West Virginia?

There being no objection, the concurrent resolution (H. Con. Res. 1) was considered and agreed to.

## DEATH OF FORMER PRESIDENT TRUMAN

Mr. JAVITS. Mr. President, I knew President Truman very well. I join Senator Scott in his tribute, and I also add the following:

I have rarely seen a President who was better briefed than was President Truman and who had a deeper perception of the ultimate interests of the United States and the world in terms of peace. I saw him with particularity deal with the affairs of Germany at a time when it was possible to take a very limited view, such as the one described as the Morgenthau plan, which would have made Germany pastoral, or a very broad view which simply would have forgotten the past and might again have led Germany into some ultranationalistic fervor.

President Truman did neither, but approached the problems of Germany with the idea of integrating Germany into a new, united Europe, the whole thrust of the Marshall plan, and it turned out to be one of the most statesmanlike acts of the career of any President.

Also, Mr. President, I have had the honor and pleasure of knowing intimately Mrs. Daniel, his daughter, and her husband; and I have reflected with them many times upon the statesmanship, the humanity, the common decency, the sense of justice, and the enormous reservoirs of information of this man, who had a limited formal education, but became one of the truly outstanding Presidents of the United States and one of the outstanding statesmen of the world.

I join my colleagues in expressing my tribute and memorial to this distinguished man and distinguished President.

## DEATH OF LESTER PEARSON, FORMER PRIME MINISTER OF CANADA

Mr. JAVITS. Mr. President, I state with regret to the Senate the passing of Lester Pearson, former Prime Minister of Canada, winner of the Nobel Peace Prize, a world citizen of great dimensions.

He was a member of the Committee of Nine, the so-called Nine Wise Men of NATO, over which I had the honor to preside. His loss there is tremendous in terms of the world.

I have expressed for myself and my wife our condolences and sense of loss to Mrs. Pearson. I ask unanimous consent to have that letter printed in the Record as part of these memorial remarks.

There being no objection, the letter was ordered to be printed in the Record, as follows:

> Mrs. Javits and I send you our deepest condolences on the passing of Lester. He was a very dear and old friend of mine and the first to accept service on the Committee of nine distinguished parliamentarians and ex-parliamentarians established by the North Atlantic Assembly to make recommendations on the future of the North Atlantic Alliance. Even there, after so many years of service, he showed enormous spirit and competence and leadership and no meeting of the Committee without him was or will be the same. The whole cause of peace in the world has

lost a powerful and gifted friend and we shall feel it very keenly and currently in our committee. I know your loss is a grievous one, though he lived such a rich and distinguished life, but it may help to know that his colleagues like myself understood his quality and valued him so highly.

With every good wish to you and your family,

Sincerely,

JACOB K. JAVITS.

## ORDER OF BUSINESS

The PRESIDENT pro tempore. Under the previous order, the Senator from Virginia (Mr. HARRY F. BYRD, JR.) is recognized for not to exceed 15 minutes.

(The remarks of Senator HARRY F. BYRD, JR., are printed in the RECORD under Statements on Introduced Bills and Joint Resolutions.)

## TRANSACTION OF ROUTINE MORNING BUSINESS

The PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of routine morning business for not to exceed 2 hours, with statements therein limited to 15 minutes.

## CONTEMPTUOUS ATTITUDE OF EXECUTIVE DEPARTMENTS SHOWS NEED FOR CONGRESSIONAL REASSERTION OF POWER

**Mr. PROXMIRE.** Mr. President, over the last few weeks I have had a series of hearings with my Joint Economic Committee. High ranking members of the Nixon administration have refused to appear before the Joint Economic Committee of the Congress. To add insult to injury, on at least two major occasions they would allow no one else to appear in their place.

I find this not only bad manners, insulting, and arrogant, but far more important, a contemptuous attitude of the administration towards Congress.

Furthermore, it shows a distinct absence of understanding of the spirit of the Constitution of the United States, a lack of respect for the division of powers, and a failure to comprehend and carry out the fundamental principle that open debate and inquiry serve, better than any other instrument, the interests of a free people and a free society.

The three most recent instances of contempt of Congress and the Joint Economic Committee involved Secretary Romney and HUD, Secretary Volpe and the Department of Transportation, and, to a lesser degree, the Chairman of the Civil Aeronautics Board.

Mr. President, in each of these cases with respect to the Joint Economic Committee, several significant witnesses were promised to the committee. We were assured they would come, their appearance was arranged and formalized, and then, within 24 hours of the time to appear, their appearances were canceled, and no significant reason was given. It was said that the department was now in a state of transition, in the case of the Department of Transportation, for example and, therefore, they would not appear.

Mr. President, if this were an isolated instance, I would not be on the floor of the Senate raising the point this morning. It is not isolated, however. This has occurred repeatedly in my experience. It has occurred with respect to housing, it has occurred with respect to the Department of Transportation, and, as I say, it has occurred with respect to the CAB, the Civil Aeronautics Board. It has also been a matter which has very much concerned the Appropriations Subcommittee on which I have had the honor to serve as chairman, the Subcommittee on Foreign Operations. There again the administration, after indicating they would appear, refused to send even their liaison man to appear. Nobody from the administration would appear before this subcommittee of the Appropriations Committee.

Let me be specific and cite the three specific instances where a department or agency of the Government has been contemptuous to the Joint Economic Committee. Then I shall cite an additional example involving the Appropriations Committee as well as the most recent rebuff to the Foreign Relations Committee of the Senate.

### SECRETARY ROMNEY AND HUD'S REFUSAL TO APPEAR

Housing is one of the major economic issues before the country. It affects employment, unemployment, and the money markets as do few other economic enterprises.

The Joint Economic Committee is charged by the law of the land; namely, the Employment Act of 1946, "to make a continuing study of matters relating to the (President's) Economic Report" and in addition to the committee's annual report "from time to time to make such other reports and recommendations to the Senate and House of Representatives as it deems advisable."

Because of continued high unemployment, the failure of Congress to pass the Housing Act of 1972, the scandals connected with HUD's administration, and the general question of housing's effect on the recovery of the economy, the Joint Economic Committee's Subcommittee on Priorities and Economy in Government scheduled hearings on Housing for December 4, 5, and 6 of 1972.

Secretary Romney was invited to appear before the committee and agreed to testify on December 6, but later was scheduled for December 7 at his request.

Yet, a few days after he had agreed to appear, Secretary Romney informed the committee that he would not appear at all. Not only that but he also refused to make any other—I repeat—any other HUD representative available to testify.

This was especially ironic because Secretary Romney had been making speeches all over the country to private groups addressing the issues that were before the committee. It was also ironic because Secretary Romney, in a press conference at almost the precise time, complained bitterly that during the recent election political figures had failed to raise, discuss, and address themselves to what he called the "real issues" before the country. Finally, it was ironic because his own legislative liaison scheduled a private meeting on Capitol Hill during the period of the hearings at which representatives from some 40 congressional offices were invited to attend. This meeting was held to discuss HUD policy in one of the critical areas of the JEC hearings; namely, public housing policies.

Secretary Romney's statement that he felt it was not the proper time to appear was a feeble one because first, he is to continue in office until his successor is confirmed, probably until February, and second, he refused to allow anyone else to appear. At best he is telling the Congress that for a period of 3 months we have no right to question him and his policies. To state that fact is to reveal its absurdity and its impropriety.

I say that those actions were contemptuous of the Congress and the rights of Congress and the people of the United States to take testimony from those who hold stewardship over the policies of this Government.

### THE CASE OF THE DEPARTMENT OF TRANSPORTATION

On December 27 and 28 I scheduled hearings before the Joint Economic Committee's Subcommittee on Priorities and Economy in Government on the subject of possible Federal Government support for the development of a new supersonic transport.

There was good reason for this. Various groups have been pressing the Government to renew its subsidies for such a program. Long, special pleading articles have appeared in some of the leading magazines of the country. And the attempts by the aviation industry itself to resurrect this issue, especially with the advent of the Concorde, have been intense. I therefore called hearings on this important subject.

Arrangements were made for the Department of Transportation to send Dr. Robert H. Cannon, Jr., Assistant Secretary for Systems Development and Technology, and for Mr. Frampton E. Ellis, Jr., Director of the FAA's Supersonic Transport Office to appear on December 27. This was the result of my invitation to Secretary Volpe and FAA Administrator John H. Shaffer.

After confirming the arrangement by phone on December 18 and further confirming it by letter on December 21, the Department of Transportation notified me on December 26, the day before the hearings, that Messrs. Cannon and Ellis would not appear. No reason was given and no substitutes were offered or sent. It was an abject refusal of representatives of the Department to appear.

### THE FAILURE OF THE CAB TO APPEAR

In addition, I am sorry to say that my old Friend, Secor D. Browne, Chairman of the Civil Aeronautics Board, also canceled his appearance on December 27. But he did so after telling me that he had a long-standing commitment to his family and after submitting a statement. While the question of his commitment to his family did not come up when he first accepted, at least he had the good grace to phone me, offer some reason, and at least submit a statement.

This, I am unhappy to report, was not

the case with either Secretary Volpe, Mr. Shaffer, or their designated witnesses.

### AFFRONT TO CONGRESS

I consider these instances an affront to Congress by an arrogant administration. In addition, I believe that in both the case of HUD and DOT the orders were really issued from higher sources.

The point should be clear that in each case I made no demand that the Secretary of HUD or the Secretary of Transportation appear. They not only refused to appear but, in one case refused to send a substitute and in the other case, canceled the appearance of a substitute without any reason.

These three instances all happened within the last few days and involved the Joint Economic Committee.

### DEFENSE DEPARTMENT ARROGANCE

Now let me turn to an instance which occurred last year. As chairman of the Subcommittee on Foreign Operations of the Senate Appropriations Committee, I was in charge of what is called the foreign aid appropriations bill. As usual, the funds for fiscal year 1972 were in grave dispute.

Essentially what happened was this. On July 1, 1971, a continuing resolution for foreign aid was passed which allowed spending to be continued "at a rate not in excess of the current rate or the rate provided in the budget estimate, whichever is lower." That is the common language of a continuing resolution.

Subsequently, the Senate passed a military assistance provision for the bill providing $350 million. The House provided $500 million. The figures were in dispute between the two Houses.

But when we went to conference, the Senate learned that with nothing in hand but the general language of the continuing resolution, the Department of Defense went to the Treasury 5 days after it was passed and drew down 71 percent of the annual amount established by the continuing resolution. Instead of getting 10 percent or a monthly or 6 weeks' allowance, the DOD drew down almost 9 months of the yearly amount during the first 5 days of the year.

By the time the Senate went to conference with the House, the DOD had drawn down about $500 million. The issue, then between the Senate provision for $350 million and the House provision for $500 million, was rendered moot by the arbitrary action of the Department of Defense.

That in itself was, in my view, an usurpation of power unwarranted by the language of the continuing resolution and especially unwarranted by its spirit. And it was done at a time when the President and his aides were denouncing Congress as the "big spenders."

Near the end of fiscal year 1972 when a new continuing resolution was before us for fiscal year 1973, I offered an amendment which would have prevented the Department of Defense from pulling the same shenanigans again under the new continuing resolution.

The Appropriations Subcommittee wished to hear testimony from the Defense Department on this issue and the DOD were invited to appear and to explain their action of the previous year.

But they failed to appear. They refused to send a representative.

The staff director of the Appropriations Committee, Mr. Scott, who had been with the committee for 25 years, could recall no other case in which any Department had refused to appear or to send a representative when requested to by the Appropriations Committee.

At that stage our only recourse was to cut off their funds entirely. Perhaps we should have done that but we refused to do it because of our feeling of responsibility to the country and for the orderly arrangement of affairs.

This failure by the Defense Department to appear is the fourth example within a single year in which I was personally involved when a great department of Government acted contemptuously toward the Congress.

### OTHER RECENT EXAMPLES

Mr. President, there have been other recent examples, not affecting me personally or any committee I serve on, but they should alarm and concern Republicans as well as Democrats in the Senate.

The refusal this week of Secretary of State Rogers and and Mr. Henry Kissinger merely to brief the members of the Senate Foreign Relations Committee is another in the series of contemptuous actions by the executive departments towards the Congress of the United States in recent months.

In this instance, due to the delicate nature of the negotiations, they were not asked to testify formally before the committee, but merely to brief members. This they refused to do even though that committee has jurisdiction over matters, to quote from the Senate rules, relating to the "Relations of the United States with foreign nations generally."

### CONSTITUTIONAL CRISIS?

These repeated refusals either to appear or to brief Members of Congress have raised issues which are now properly described as approaching a constitutional crisis.

It has happened both in domestic and foreign affairs.

### TIME TO CALL A HALT

It is time to call a halt to this situation. Ironically it is an administration now asserting vast executive power which represents a party which has decried such usurpation of executive power for almost 40 years since the day when Franklin Roosevelt was sworn into office.

But I believe in a division of power between the branches of our Government as the Constitution authorizes. For one, I intend to assert and reassert the basic rights and responsibilities of Congress in every effective and proper way I can.

The executive branch has thrown down the gauntlet. It has made the challenge. The Congress must not only resist that challenge but must reassert its rights and obligations at every appropriate time in the future and with every proper weapon at its command.

Here is one Senator who serves notice that he intends to follow that policy.

Mr. President, it is unfortunate, and I must say I regret very much, that I feel compelled to make this kind of a speech at the opening of the session of Congress. The President just won an overwhelming mandate from the people, or at least overwhelming personal approval. He carried my State, as he did all except one State of the Union. It is a time when we wish we could work closely with the President, and I hope we can.

I think we can, but I think if the President is going to work closely with Congress, it will be necessary for him to cooperate with us far better than in the last 2 or 3 months since the election. The very least Congress should expect from the President of the United States is that he should give us necessary information.

We do not expect him to concur in all our views, any more than we would expect to concur in all of his. When the President's proper representatives are invited to appear before a committee of the Congress of the United States, it is obvious that they cannot always appear at a time the chairman would like, and it is obvious that they will sometimes have to send substitutes. But when they refuse to send anyone, and when, after having scheduled an appearance, they cancel it at the last minute, without making any kind of reasonable explanation, it seems to me that the Senate and the House of Representatives, when treated this way, simply must protest and plead with the administration to recognize that if our system is to function, it can function only with full cooperation and a willingness on the part of the administration to share their views and their positions on these vital matters with Congress.

Mr. President, I yield the floor.

---

## QUORUM CALL

Mr. McGOVERN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. SAXBE). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McGOVERN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

---

## VIETNAM

Mr. HARTKE. Mr. President, in the Democratic caucus this morning the Democrats agreed to a resolution sponsored by the Senator from Massachusetts (Mr. KENNEDY) and the Senator from Idaho (Mr. CHURCH) to bring an end to the war in Vietnam. At that time I voted present on that resolution. I am in agreement with the intent of the resolution but I am of the opinion more substantive action should be taken at this time.

I have talked to the Senator from Massachusetts (Mr. KENNEDY) and the Senator from Idaho (Mr. CHURCH). They indicated their intention to introduce the resolution today. Mr. President, I ask unanimous consent that the resolution be printed in the RECORD.

There being no objection, the resolution was ordered to be printed in the RECORD, as follows:

RESOLUTION

Whereas, the President has ordered extensive military combat operations without notification of, consultation with, or explanation to the Congress, as evidenced by the recent unprecedented and reprehensible bombing of North Vietnam which resulted in killing of civilians and a substantial increase in the numbers of American POWs and missing; and

Whereas, the U.S. has more than fulfilled any obligation it ever had to South Vietnam and the Thieu regime; and

Whereas, Section 601 of Public Law 92-156 (the Mansfield Amendment) established as U.S. policy the withdrawal of all U.S. military forces from Indochina by a date certain pending only release of American prisoners and an accounting of the missing;

Now therefore be it resolved that the Democratic members of the House of Representatives hereby declare it to be Democratic policy in the 93rd Congress that no further public funds be authorized, appropriated or expended for U.S. military combat operations in or over Indochina and that such operations be terminated immediately, subject only to arrangements necessary to insure safe withdrawal of American troops and the return of American POWs, and accounting for the missing in action.

Mr. HARTKE. Mr. President, presently there is strong public opinion against the war in Vietnam. This was not always the case. Many of us were opposed to the war, when it was not popular to be against the war. Those of us willing to take that unpopular stand at that time were chastised, criticized, and practically everything under the sun was done to make our position as uncomfortable as possible.

The situation at present is that the President has been reelected and Mr. Nixon has indicated he intends to continue his negotiations policy. A policy which is conducted unilaterally without the advice and consent of the Senate. Neither the public nor the Members of the Congress are informed or consulted when the President acts. For example, no one I know has any idea why the President resumed the bombing of North Vietnam; whether he has any hope of negotiating a settlement; and whether he has any concrete plans for a final settlement for the end of the war in Vietnam.

I have said that no President is going to end this war without having egg on his face. I repeat that statement today. This country has egg on its face. That is not a desirable position for our country. Nonetheless the United States is not viewed in its best light by the other countries of the world. The Vietnam war was a mistake in the beginning and it is a mistake now. The sooner we end that war the better.

I introduced a resolution in the last Congress which said, in effect, "out now." Mr. President, if you had heard the Democratic caucus this morning, you too would have said "out now." I do not feel this is the proper time to take action only in the caucus. I offered a motion to table the resolution offered in caucus this morning, because I believe if we are going to end the Vietnam war, the Senate must take affirmative action. The resolution that was offered in the caucus should be brought to the floor of the Senate and considered immediately by this body.

Of course, such action will not occur. The resolution will be introduced and referred to the Committee on Foreign Relations, and we will wait on action by the President. The introduction of a resolution to end the war may ease the consciences of those who feel offended by the President's inaction, but the resolution has no immediate force and effect to end the killing or end this war.

The Senate and the American public should be wary of relying on the President to act. We have waited 4 years and still no end to the war is in sight. To be sure certain activities have been put forward as somehow or another to give the feeling to the American people that the President is acting affirmatively to end the war. I think such action is a subterfuge. It is a subterfuge which the President is intentionally leading us into. For example, the Senate in the belief that an end to the war is at hand is turning to a periphal issue of whether or not we are going to do anything about the prerogatives of the President.

I have listened to people, including our candidate for President, the Senator from South Dakota (Mr. McGOVERN), speak about the constitutional question. Rather than to engage in the discourse of constitutional question we must end the war immediately.

The American people are not adequately apprised of what is happening in Vietnam. For example, there is talk of a cease-fire. A cease-fire is not a political settlement, but such is the implication made to the American people. We need affirmative action now to end the war in Vietnam. An introduction of a resolution without further action does not end the war in Vietnam now.

This resolution without immediate action is meaningless. It is meaningless to promote it in caucus and it is meaningless to introduce it in the Senate because the Committee on Foreign Relations has agreed not to act until the President is inaugurated. In other words, we are going through another useless exercise.

I have spoken about the war in Vietnam for a long time. There is not the fervor among the people that there was a few years ago when I addressed a moratorium where a half million people were present. If that meeting were called today we would be lucky to have an attendance of 5,000 people.

The reasons for the decline in interest are twofold: first, the draft is not an important issue; and second, the casualty list is not as heavy.

I think the Senator from Idaho (Mr. CHURCH) expressed it correctly in the caucus when he said the only real way to stop this military power from being used in Indochina is to cut off funds which have been appropriated and not appropriate any funds in the future. Unfortunately this Congress and this Senate is not going to take that action. Therefore, I think it is wrong to mislead the American people into believing the Congress is so inclined to act. It is high time we recognize that we either stand up and be counted as opposed to this war or say we are going to let the President do as he pleases.

I have spoken out against this war consistently since 1963. I broke with my own President, President Johnson, on February 7 of 1965, over the issue of this war, so I do not have to apologize for my opposition. But I think it is important for those who have been latecomers in their opposition to this war to do something more than make emotional speeches.

## ORDER THAT HOUSE JOINT RESOLUTION 1 REMAIN TEMPORARILY AT THE DESK

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that a message from the House of Representatives on House Joint Resolution 1 remain temporarily at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

## THE DEMOCRATIC CAUCUS ACTION ON VIETNAM

Mr. McGEE. Mr. President, the members of my party in this body have just emerged from an extended caucus which consumed the morning. One of the actions of this caucus was a very strong ratification of a proposal by the senior Senator from Massachusetts renewing several prior actions of this body to cut off funds for the war, provided our prisoners are released. I want to take this opportunity to explain for the record why I felt compelled to vote "No" on that proposal.

Most of us have been torn very badly, shocked very deeply, by the events that have transpired in Southeast Asia, particularly since election day, November last. The resumption of the bombing, the consequences of that bombing, the discouragement and further delay in arriving at a settlement in Southeast Asia—all have combined to have a shattering effect on most of us.

How, then, could one vote "No" on a proposal to cut off funds for the war? The answer is a very direct one, Mr. President. By any stretch of the imagination, no action that could be taken in a Democratic caucus, no action that could be taken on the floor of this body, under its rules, can stop the war right now.

Therefore, I think we ought to be addressing ourselves to the question of, How do we most quickly stop the war? I think there is almost no disagreement left on the importance of bringing those hostilities to an end. Well, in my judgment, the little string of hope that is yet left for stopping the war fairly soon is the recent announcement that negotiations will be resumed in Paris next Monday.

There are some of my colleagues who think this is just another hoax. There are some who believe it to be a deliberate trick to allay the critics. There are some who, like myself, just do not know. We are not that smart. We have not had that much information from the White House, for whatever curious reasons would cause it to withhold consulting with at least the Foreign Relations Committee upon request. I might add, Mr. President, that I think that was a serious misjudgment by somebody downtown. Perhaps the President himself made the decision. But be that as it may, what has been done has been done. We are not going to change a single bombing raid.

We are not going to recover a single lost life by what we do here at this particular moment. The question is how we can stop the war sooner? what is the best chance we have?

I think that we have to face the fact that our prayers will be answered—that somehow the negotiations this time may work. We have no real assurance that they will. But it is about the only hope here for the time being.

So, I raise this question. What does a resolution out of a Democratic caucus, or a Republican caucus, or a resolution out of the Senate itself contribute to stopping the war the soonest? I fail to see that it makes any contribution in any substantive way.

On the other hand, I cannot see but how it might interfere with the chances for a cease-fire. We cannot add it up in any rational way as to where it could speed up such a decision for a cease-fire. However, it may rock the boat in this delicately sensitive movement so that it could defer a settlement, or maybe the negotiations at this time.

I think it behooves a Senator—whether he be a Democrat, a Republican, a liberal, or conservative—if he is genuinely concerned with stopping the war, to be more realistic about what measure can stop the war.

The best chance at this moment is that somehow we luck out in Paris, that somehow enough pieces can be fitted together so that the horrible conflict and the killing in Indochina will come to an end.

In my judgment, this is the moment for silence on the part of Members of the Senate. It is only for that reason that I take this position. It is not a petition to delay or defer action by the Senate as long as we can come to grips with the problem of stopping the war. But we do not stop the war by resolution. We cannot stop the war by cutting off funds now because we cannot cut them off today.

The funds on which they are now operating are already in the till. They have been authorized and ratified by this body in the recent months of the last Congress. They will not run out until the fiscal year ending this next June 30. And any temporary or emergency measures we might seek to institute from here on can have no effect for many weeks.

That is why I call into question the kind of judgment that would rush into the breach here with still another resolution at the very moment when there may be negotiations about to get underway.

That was the sole reason for my voting against the resolution. It was not only poorly timed, as I assessed it, but it also comes with ill grace to offer it in such a precipitous manner.

For better or for worse, the President of the United States under the Constitution is the officer in charge as the war winds down. He is the Commander in Chief.

There is no role for this body to play which can terminate the war on any given day. And for that reason it is my petition that we try to provide an opportunity for what little chance there may be for success in the negotiations to work itself out toward the termination of this conflict.

I am prepared, as many of my colleagues are now, to readdress myself to the new standards and to the larger question of what the Senate ought to do in the days ahead of us in making policy in the future in collaboration with the Chief Executive. But those are questions quite separate from what is proposed at this particular moment. Oh, I am mindful of what the House did. I do not think that it should ever be the role of the Senate to try to run a more exciting public image race than the House of Representatives.

I think our first prerogatives are to be Senators and to be responsible Senators. We have a more particular responsibility under the Constitution as it affects the foreign policy of this country. And I think it would behoove us now at least not to foul up the chances of what may be going on in Paris toward reaching some kind of a successful end to the war. Where we go beyond that point, we will have to arrive at in our collective judgments somewhat down the road ahead. I think it is important right now that we give the President and the peace negotiators a chance and let the hopes of all peoples, whatever their side on this question, come into fruition in a termination of this bitter, costly, bloody, and tragic conflict in Southeastern Asia.

We do that best by being less rambunctious with our resolutions.

Mr. HARRY F. BYRD, JR. Mr. President, will the Senator yield?

Mr. McGEE. I am happy to yield to the Senator from Virginia.

Mr. HARRY F. BYRD, JR. Mr. President, the able Senator from Wyoming has made a powerful presentation of the reasons why many of us voted in opposition to the resolution offered by the distinguished senior Senator from Massachusetts.

The Senator from Wyoming in his remarks made the case far better than could the Senator from Virginia. The Senator from Virginia finds himself in thorough agreement with the reasoning just presented to the Senate today by the Senator from Wyoming.

What deeply concerns me about such a resolution as that presented this morning in a partisan, political caucus is what effect it may have adversely on the very delicate negotiations which our Government is now undertaking or will be undertaking come Monday.

None of us knows just how the peace negotiations might be affected by resolutions adopted by one political caucus or another within the Congress of the United States. For that reason, I took the same view as did the Senator from Wyoming and voted in the same way, in opposition to the resolution presented by the Senator from Massachusetts.

All of us want to get this war over with at the earliest possible time.

I suppose I am one of the few Members of the Senate who never at any single time in my career in the Senate has attempted to justify the putting of ground troops in Southeast Asia. It was a grave error in judgment. I have said that in this Chamber hundreds of times in the last 6 or 7 years. I want to see this war completely ended.

But I question the wisdom here at this late hour, when the negotiations for peace are hanging on such a fragile thread, that we should take action in a partisan caucus which tends to undermine our Government's negotiating efforts—which could give encouragement to our adversaries in Paris to hold out still longer in these peace negotiations.

All of us must pray that the negotiations will succeed. None of us knows just what the situation is at the moment. For that reason, I felt it desirable and appropriate as a U.S. Senator to vote, as did the distinguished and able Senator from Wyoming, in opposition to the resolution this morning.

Mr. McGEE. I thank the Senator from Virginia for his comments.

The PRESIDING OFFICER (Mr. CHILES). The time of the Senator from Wyoming has expired.

Mr. McGEE. I ask unanimous consent that I may have 4 or 5 additional minutes, so that I might yield to my colleague from Wyoming.

The PRESIDING OFFICER. The junior Senator from Wyoming can be recognized in his own right.

Mr. HANSEN. I ask unanimous consent, Mr. President, that the distinguished Senator from Wyoming might respond as he sees fit to observations I am about to make on my time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HANSEN. Mr. President, I compliment my distinguished and cherished colleague from Wyoming for having addressed this body as he just has, and wish to compliment also my very good friend from Virginia for his observations. Though, as everyone knows, I am not a member of that caucus, I must say that I share the same sentiments.

I was confronted with a somewhat similar situation in a Republican caucus yesterday as that which confronted my good friends on the other side of the aisle; and it occurs to me that something useful may well be gained by reading Vermont Royster's editorial in the Wall Street Journal. Believing as I do that Mr. Royster makes some very relevant comments to this subject, I have asked that his editorial be printed in the RECORD.

He calls attention to the career of President Truman, a great American, a man whose loss has been mourned by almost every one of his countrymen during the last few days.

He points out that at the time of Mr. Truman's occupancy of the White House, he was not the most popular of men. It was he who made the heavily weighing decision to use the atomic bomb. It was he who introduced the Marshall plan and followed through on NATO. It was he who decided that a line should be drawn in Korea.

It seems to me, as I am certain it did to Mr. Royster, to be awfully tempting, these days, to make a lot of judgments and a lot of decisions based upon the emotions that overwhelm all of us. The headlines and stories in the press and the reports on television certainly would constrain any normal person to say, "If there is some way of stopping this tragic war, let us do it."

But, as was pointed out by Mr. Royster, sometimes, were we to act upon such impulses and respond to such emotions, we might be making some very tragic errors, and I pointed out in the statement that accompanies his editorial that I am somewhat older than the average age of Members of this body, and I happen to remember pretty well the convictions and desires of a lot of people at the time of World War II who said, "If there is some way of finding a better answer than fighting yet another world war, let us do it."

I would ask my distinguished colleague, a very distinguished historian and I think one of the best speakers to have entered this Chamber for some period of time, if he does not agree with me that when you look at the alternatives, tragic though our losses now are, it might not be better to do precisely as my colleague has suggested we do than to take the actions that would follow a course recommended by some at the moment.

Mr. McGEE. I would reply to my colleague that historically, at least as I see history, the situation cries out for a little less promiscuity, or exhibitionism, or sloganizing, at the very moment when what little hope there may be, of some kind of success for the new talks in Paris, if any at all, hangs in the balance.

What similar conduct could have done to the events in World War II to which the Senator has referred, after the Battle of the Bulge had gone badly, had we tried to play general or President, would have been totally disastrous. Admittedly the circumstances are somewhat different now in historical terms, and perhaps there are those of us who are guilty of overreacting to the parallels of our earlier historical experience as they led up to World War II. But we still have to ask ourselves, even so, what are the other options, as the Senator has suggested.

What are the other options? We want to stop the war. But how do you stop it with a resolution, at the very moment when that same resolution may indeed foul up the best intentions of every one in Paris to try to get the thing stopped or at least quieted? We do not yet know what we have a right to expect.

I know what the popular position is. The popular position is to say, "I am going to stop this right now." And, God, I wish we could. I wish we had some power in the palm of our hand to do it right now.

But not one of our colleagues here has discovered what that secret is. The best chance we have is for these negotiations to succeed and get it stopped. Somewhere farther down the road—it takes a long time—we may find some legislative recourse to stop it. But we are not going to do that this week nor next week, nor the week after.

All I am saying is that there is plenty of time for resolutions. This is less a time for being popular, Mr. President, than it is a time for being responsible. Those two do not always go hand in hand. But I think our sense of responsibility should now rise and take precedence over our understandable despair and discouragement and our temptations to try to get a lot of pats on the head for saying things that all of us like to hear at this particular hour in this long conflict.

So my plea is for responsibility ahead of popularity.

Mr. HANSEN. Mr. President, I would like to express once more my appreciation to my colleague, the senior Senator from Wyoming, for articulating so well what he and I believe are the important considerations that must face any person carrying the heavy burden of responsibility.

I think that we are not equipped now, in the light and the emotions of the day and without more precise knowledge of the sensitive negotiating involved fairly to judge the wisdom of those persons making important decisions. I suspect that we are going to have to leave that to history, as we have done for a long, long time, and my guess is that history will be slow in its judgment, but it will be fairly accurate in its judgment.

In the long run, I share the opinions of my two colleagues now present in the Chamber, the distinguished Senator from Virginia (Mr. HARRY F. BYRD, JR.) and my colleague from Wyoming (Mr. McGEE), that what we should try to do is to support those in positions of power and responsibility in making judgments that will best serve the long-range interests of America, and not try to take actions which may please some of us at the moment but may, in light of future experience and access to detailed knowledge of what is at stake, turn out to have been very poor decisions.

---

## ORDER OF BUSINESS

The PRESIDING OFFICER (Mr. HUDDLESTON). Is there further morning business?

---

## AUTHORIZATION FOR INTRODUCTION OF A BILL DURING THE ADJOURNMENT OF THE SENATE

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the distinguished Senator from Hawaii (Mr. INOUYE) be authorized to introduce a bill during the adjournment of the Senate over until Saturday, that the bill be appropriately referred, and that it be printed in the RECORD of Saturday.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROBERT C. BYRD. Mr. President, by way of explanation, the bill relates to shipping strikes affecting the State of Hawaii. Senator INOUYE would have introduced the bill today, but the bill had not yet been fully prepared. He will not be able to be present on Saturday, and it is for this reason that I have made the request on his behalf.

---

## THE BOMBING OF NORTH VIETNAM

Mr. DOLE. Mr. President, the junior Senator from Kansas was not present earlier today when the senior Senator from South Dakota discussed the war in Indochina and made a reference to the recent bombing as being the "cruelest and most insane act of a long and foolish war."

At first glance, this may appear to be a new line. But if we go back to the Cambodian invasion and the mining of Haiphong Harbor and throughout President Nixon's successful Vietnamization program, we will find much the same language being used every time by those who have changed their minds about Southeast Asia and those who find it convenient to oppose the President's efforts for peace.

Mr. President, the junior Senator from Kansas, as much as anyone wants the war to end in Southeast Asia. He wants the peace to come tonight, or tomorrow, wanted it last week and a year ago. But it is only fair to look at the realities and we should be objective. There are some affirmative points that have not been made. I would assume everyone in this body is hoping that Dr. Kissinger will have good news after the negotiations which start next Monday in Paris. We all must hope that through his efforts, and particularly the efforts of President Nixon, Secretary Rogers, and others, both Republican and Democrat, there will be a negotiated settlement in the very near future.

But it is important to note that negotiations have been resumed. It is important to note that the North Vietnamese insisted only on a halt of the bombing north of the 20th parallel. It is important to note that the Chinese and the Soviets have demonstrated rather remarkable restraint in reaction to the bombing. This should not be interpreted to mean that I know the details about the bombing or that I subscribe to that policy totally.

But I do know the facts and the facts are that there are slightly more than 24,000 Americans in South Vietnam, the lowest number in 8 years. I do know that American casualties have been reduced by 98 percent or 99 percent by President Nixon. I know it is symbolic and probably, or certainly, no surprise to the President or others around the country, that when Congress reconvened there would be a great hue and cry from some and in most cases the same critics who were doing so last year. They say to cut off funds or to assert the authority of Congress. I believe we have the authority and perhaps it should be exercised at some time. But I caution my colleagues in both the Senate and the House that we are in a very delicate stage of negotiations. We are, according to Dr. Kissinger, perhaps 99 percent of the way to reaching our agreement.

Perhaps errors have been made by this administration but critics at least should accept the fact that some of the fault lies with the other side, the North Vietnamese and Vietcong.

I find it difficult to understand why some seem so quick to criticize this country, this Government, and this President, and so hesitant to criticize the Communist Government of North Vietnam, or the Vietcong, or those who supply the North Vietnamese or the Vietcong. I find it hard to believe that the critics are being fair and objective. No one wants the bombing to continue, least of all the President. But the President had to make some decision.

I wish to end on a positive note. Negotiations have been resumed. Technical discussions have been underway for the last 2 days. Next Monday, Dr. Kissinger returns to Paris, hopefully to end the war, without forcing our ally in that country to capitulate to North Vietnam and the Vietcong.

I guess many may have missed the fact that the President served notice on North Vietnam what the consequences might be if they did not pursue serious talks. I guess many may not have noted that the North Vietnamese had changed the conditions of the agreement that Dr. Kissinger spoke of on October 26. One change was to the release of American prisoners and missing in action to the release of political prisoners in South Vietnam. That was certainly a new facet in negotiations and a rather important one. We should keep the record straight.

The North Vietnamese invasion of South Vietnam on March 30 led President Nixon on May 8 to order the bombing and mining of North Vietnam. There was a great hue and cry at that time and most of that hue and cry came from the same persons who today make similar statements with reference to the bombing of North Vietnam.

At the same time the President reiterated our terms for a just and honorable peace: Unconditional release of American prisoners throughout Indochina; immediate cease-fire throughout Indochina; withdrawal of American forces at a time to be agreed upon; and agreement that the political future of South Vietnam would be left to the South Vietnamese people to determine through a peaceful political process.

Five months after the President's decision of May 8, on October 8, 1972, the North Vietnamese in secret negotiations in Paris accepted the basic framework of the President's proposal and agreed to a cease-fire. They did this without having achieved their demands that the United States overthrow its ally and impose a coalition government.

In late October, because both sides were negotiating seriously and we were close to a cease-fire agreement, the United States unilaterally cut back its bombing operations over North Vietnam to below the 20th parallel.

There were some points still unresolved at that time and they concerned the international supervisory machinery, some linguistic ambiguities, and technical details. These questions were nowhere near the difficulty or importance of the issues already settled, through the efforts of Dr. Kissinger, other American negotiators, and the North Vietnamese negotiators.

Then, suddenly, in December, Hanoi shifted gears and began a deliberate series of stalling maneuvers. According to Dr. Kissinger, whenever we were on the verge of settling the remaining issues, Hanoi reneged on points already settled and attempted to introduce unacceptable proposals. If one point were clear they would raise two others and on and on.

It was evident to Dr. Kissinger—and certainly he had more experience negotiating in this area than any man I know of, and probably more than all of us put together, and he knows more about the details—and he said at that time that it was clear that they had made a conscious and deliberate decision to in some way delay. Perhaps the North Vietnamese were waiting for Congress to reconvene; perhaps they felt Congress, the Republicans and Democrats, would join in an effort to cut off funds. Perhaps they felt in a general way that congressional pressure might give them a better settlement than they had in October. Perhaps they were seeking to exploit some new strain and difficulty between Washington and Saigon.

There are signs, I understand, that they were planning a new offensive to grab more territory before any standstill cease-fire became effective.

Let us be candid. We have some disagreement with our allies with respect to the agreement, but that question is now moot because it is Hanoi and not Saigon that has been preventing the conclusion of negotiations.

The President said on November 2—

> We are going to sign the agreement when the agreement is right, not one day before. And when the agreement is right, we are going to sign, without one day's delay.

So I would suggest that it was Hanoi's unwillingness to negotiate seriously which led to the President's suspension of the unilateral limitation on military action above the 20th parallel.

The President could not let them use the peace talks as a weapon of political warfare or as a cover for a buildup for new military offenses. As it had been since May, the bombing was limited to military targets.

At the end of December, Hanoi agreed to resume serious negotiations. As I said, technical talks had already started. Dr. Kissinger, Le Duc Tho, and Xuan Thuy are resuming the negotiations next Monday. The President has reimposed the limitation on bombing above the 20th parallel as long as serious negotiations are underway.

The junior Senator from Kansas happens to believe that only a few steps remain to be taken. Perhaps the most crucial thing required is a political decision in Hanoi to end the stalling and allow the agreement to be concluded. The few points still to be resolved are not conflicts of principle; they are points that Hanoi already agreed to in November, as I understand.

I would hope, in our eagerness as Members of Congress to seek a peace in Southeast Asia and peace elsewhere in the world, that we would understand just how near we are to an agreement. I do not believe anyone seriously disbelieves Dr. Kissinger. I believe most Americans have faith in his judgment and understand that peace was at hand when he made his statement on October 26, and also understand that he cannot control the actions on the other side when they move that peace beyond his grasp.

I would indicate, again that there are some positive signs to peace. Let us not, in our eagerness to bring peace, hopefully on a constructive basis, by legislative action, or perhaps just to be critical of President Nixon, delay that peace. Do not restrict the options our Government has, because, after all, it is our Government that is involved, not a President or a Congress or a Senator or a point of view. But the negotiations have been resumed, and this is a sign that we are again on the threshold of peace.

Everyone in this body joins me in hoping that next Tuesday or Wednesday or soon thereafter a peace announcement will come, and then those who have raised their voices will reassess their criticism of President Nixon as America and all the world realizes a lasting peace because of his efforts.

## EXTENSION OF PERIOD FOR TRANSACTION OF ROUTINE MORNING BUSINESS

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that there be an extension of the time for the transaction of routine morning business, with statements limited therein to 10 minutes, and that the time run for an additional 30 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

## "MEET THE PRESS" INTERVIEW WITH SENATOR ROBERT C. BYRD

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent to insert in the RECORD the transcript of the "Meet the Press" interview on Sunday, December 31, in which I participated. "Meet the Press" is a public service program of NBC News, and it was aired locally at 3 o'clock p.m. on WRC, channel 4, here in Washington. The mediator was Mr. Lawrence Spivak. The interviewers were Mr. Paul Duke of NBC News, Mr. Samuel Shaffer, of Newsweek, Mr. Frank vander Linden of the Nashville Banner, and Mr. Carl Leubsdorf of the Associated Press.

Mr. RANDOLPH. Mr. President, reserving the right to object—and I shall not object—it is my privilege to commend my colleague from West Virginia, Senator ROBERT C. BYRD, on his presentation on the program of last Sunday, "Meet the Press." I feel that the country generally will be informed by the counsel that he gave, not so much in confrontation, but give-and-take with the gentlemen who interviewed him on that occasion. I again express appreciation for his candor and the courage and the purpose with which my colleague addressed himself on that occasion.

Mr. ROBERT C. BYRD. I thank my distinguished senior colleague. My purpose in asking for the transcript to be placed in the RECORD lies in the fact that I have been asked by several of my colleagues for a copy of the transcript, and I shall provide such copy through this medium.

May I add, Mr. President, an explanation of what I meant in responding to a question by Mr. Duke, when I said:

> There may come a time when we would have to withdraw without any agreement.

Perhaps I should clarify and amplify my statement for the RECORD. I had reference to an agreement providing for a negotiated cease-fire in place and for removal of all foreign military forces from Laos and Cambodia so as to promote an end to the killing and fighting in all of Indochina. This is the kind of agreement we are presently seeking in the negotiations which have been resumed. Integral to such an agreement must be the return of our prisoners of war and an accounting for those missing in action. It may be that we will not be successful in getting this comprehensive agreement—though I do not believe we should give up the effort yet—but the return of our prisoners and the best possible accounting of our missing men must remain a precondition to our withdrawal of troops.

The PRESIDING OFFICER. Is there objection to the request of the Senator from West Virginia?

There being no objection, the transcript was ordered to be printed in the RECORD, as follows:

### MEET THE PRESS

(Produced by Lawrence E. Spivak)

Guest: Senator Robert C. Byrd (D.-W. Va.).

Moderator: Lawrence E. Spivak.

Panel: Samuel Shaffer, Newsweek; Carl Leubsdorf, Associated Press; Frank van der Linden, Nashville Banner; and Paul Duke, NBC News.

Mr. SPIVAK. Our guest today on Meet the Press is the Majority Whip of the Senate, Senator Robert C. Byrd, Democrat of West Virginia.

Senator Byrd served as Secretary of the Democratic Conference from 1967 through 1970. He was elected Majority Whip in 1971 in a contest against Senator Edward M. Kennedy. Senator Byrd served on three important Senate committees, Appropriations, Judiciary and Rules.

We will have the first questions now from Paul Duke of NBC News.

Mr. DUKE. Senator Byrd, anti-war legislators are vowing to push ahead for proposal to cut off funds for Vietnam even though President Nixon has now stopped the bombing.

As the Assistant Senate Democratic leader, will you support these efforts?

Senator BYRD. I have supported some of the end-the-war amendments in the past, depending upon how they were drawn. I may do so again in the future. I will not do so within the next 30 days, perhaps not within the next 60 days.

Mr. DUKE. If the negotiations at Paris drag on and no agreement is reached, will Congress finally face up to this war and cut off funds for financing it?

Senator BYRD. I don't think there is any question but that there will be these efforts. However, I think that the real hope for a workable peace and for an end to the killing lies in the negotiations which are about to be resumed.

Mr. DUKE. But if the negotiations don't succeed, will you then support efforts to cut off funds?

Senator BYRD. I may, depending upon the circumstances, the events, the situation at the time. There may come a time when we would have to withdraw, without any agreement.

Mr. DUKE. If the President had not stopped the bombing, would Congress have ordered a halt?

Senator BYRD. Well, I think there would have been that effort. I think we have got to remember that while Congress can legislate to cut off funds and to end the war, it cannot legislate the release of American POWs, and I cannot imagine Congress passing any end-the-war amendment that does not have the condition with it with respect to a release of American POWs.

Mr. DUKE. Mr. Senator, when you consider the heavy air losses, the outrage from around the world, the damage to American prestige from the spectacle of the world's greatest power attacking a small backward country, do you believe this bombing was justified?

Senator BYRD. I do not. I don't think there was any military necessity for it.

Mr. SHAFFER. Senator Byrd, it is my understanding that the Senate Democratic leadership plans to start right in when Congress convenes this coming week with its own legislative program without waiting for the President to make his State of the Union address. I don't think this has ever happened before in American history. Can't this be viewed as an affront, a calculated snub to the office of the President?

Senator BYRD. Not at all. I think the committees ought to meet quickly. The groundwork has been laid for legislation dealing with the important issues that are before the country. I feel that the Congress ought to act quickly, if possible, to reenact the legislation which the President vetoed following the adjournment of the last session, give him the opportunity to veto it again with the opportunity to the Congress to override him.

No, I think an early beginning makes for a good and early ending.

Mr. SHAFFER. How can Congress adequately present its own legislative program when, by the testimony of some of its most respected Members, it badly needs to reorganize its procedures, and some such as a good Senate man like Senator Goldwater, who is also a conservative, believes you ought to do away with the seniority system?

Senator BYRD. I don't agree that the Senate is an old creaking machine that can't act. It has shown time and again it can act quickly. As to the seniority rule, there is no such rule among the standing rules of the Senate. As a matter of fact Rule 24 provides for the balloting on the chairmanships, and any Member at any time can offer the name of any Senator he wishes to offer as the chairman of any committee and get a ballot on it, under Rule 24.

Now, the seniority system has worked in the past. I know it has its faults, but I have seen no other system that would have as great faults, or worse.

Mr. SHAFFER. I don't think anyone here on this panel has seen Rule 22 honored in the observance.

Senator BYRD. Oh, yes, it has. You are talking about Rule 24. Oh, yes.

Mr. SHAFFER. Rule 24.

Senator BYRD. Oh, yes. It has——

Mr. SHAFFER. On seniority it does not apply to the elections of the Majority Leader of the Senate and the Assistant Majority Leader. Now you, Senator Byrd, are number 25 in seniority in the Senate. Senator Mansfield, if I recall correctly, is number 13. Yet your colleagues, voting by secret ballot, chose the two of you because they figured you were the men best calculated to lead the Senate. Why shouldn't that apply to committee chairmen?

Senator BYRD. Because you have got 17 committees in the Senate, standing committees, not counting the special and select committees. You have 110 subcommittees, and if we are going to have a political campaign in each of these 110 subcommittees, in each of the 17 standing committees and each of the five select and special committees, we are going to get nothing done except logrolling and interference by the White House and lobbyists and special interest groups in the interest of their own favorites.

Mr. VAN DER LINDEN. Senator Byrd, let's talk for a moment about your future as a part of the Democrats. As you know, you have two more Senators on your side of the aisle and you have kept control of the House and yet you really got clobbered by President Nixon in November. Tell us why?

Senator BYRD. Well, the people didn't leave the party with respect to the presidential election. The party left the people. I think the people stayed with the Democratic party in that they voted for United States Senators, for members of the House and for other officials all down the line. We picked up two seats in the Senate; we picked up a governorship; we gained in most state legislatures and we held our leadership in the House, but in the presidential race, of course, you know what happened there.

I think that the party was not in the middle of the road, at least with respect to the image that it gave to the American people. Its candidate was not—with all due respect to its candidate—I don't say this in any pejorative sense in respect to Mr. McGovern, but I do say the impression the people had was that it was way off to the left. The American people have twice in recent years rejected what they thought was a candidate far to the right and now one far to the left.

Mr. VAN DER LINDEN. You think then in 1976 the Democrats will have to go back to the middle to have a chance to win?

Senator BYRD. I don't think there is any question about it. That is where the majority of the votes are, and I think we are going to have to go there to get them.

Mr. VAN DER LINDEN. Do you think Ted Kennedy could be a candidate of the middle?

Senator BYRD. I don't think there is anything to be gained by speculating on who might be a candidate in 1976, which is four years away.

Mr. LEUBSDORF. I would like to get back to Vietnam, Senator. Most of the recent decisions have taken place with an extraordinary amount of secrecy and, according to the newspaper reports, lack of consultation.

Were you or Senator Mansfield or any other members of the Senate leadership consulted or informed about any of the moves that have been taken by the President since Congress adjourned?

Senator BYRD. I was not. I know of no such contacts with the majority leader. There could have been.

Mr. LEUBSDORF. Do you think that there should have been?

Senator BYRD. I think there should have been. I was very disappointed that the Administration did not take the American people into its confidence and at least talk with the leadership of Congress with respect to the bombing—which was a major bombing—before action was taken.

Mr. LEUBSDORF. What steps do you think that you and Senator Mansfield, as the leaders of the Senate, can take to try to restore the Senate's place in getting the kind of consultation in the role in foreign policy that the Constitution specifies and that seems to have been overlooked?

Senator BYRD. I think we ought to, and will, pass again the War Powers Bill which was enacted by the Senate in the last Congress.

Mr. SPIVAK. Senator, may I ask you a question. There is a recent report in the press that you are already drawing up a list of legislation to come to the floor early in the new session. What legislation do you expect will get priority in the Senate?

Senator BYRD. I think hijacking legislation, legislation dealing with highways, trade, the extension of price and wage controls, strip mining, the energy crisis; I think the Congress will come to grips with the issue of separation of powers, and I think that it will be more assertive of its rightful place in the constitutional system of checks and balances.

Mr. SPIVAK. Do you believe there is going to be a serious struggle on the question of the separation of power?

Senator BYRD. I think it is developing, has been developing, and I think it must come to a culmination of effort on the part of the Congress.

Mr. Spivak. Based on past history, do you think you are going to be able to win that struggle?

Senator Byrd. I think we can. The struggle will take place in many areas. For example, in the area of war powers, impoundment of funds, executive privilege, and reorganization of the executive branch.

Mr. Duke. You said a moment ago, Senator, that you were concerned that the White House didn't give any explanation to the people about the bombing of Vietnam and a change in our policy which brings up a related issue which some people here in Washington are concerned about, namely the increased isolation of the President. He doesn't appear in public very often. He doesn't hold news conferences. He doesn't consult with leaders of Congress. He doesn't talk to the American people often. Does this concern you?

Senator Byrd. It does. I am not going to damn the President because he doesn't appear in a press conference every day or every ten days, but I do think that he could improve his relations with Congress and with the press and with the American people—even though he can certainly point to a vote that was over sixty per cent of the vote cast in an election in which we saw the smallest turnouts of voters since 1948—but I think he could improve his relations with the Congress by talking with the leadership of the Congress, the chairmen of the committees, getting their advice and counsel, letting them know what he is contemplating, and I think he could improve his relations with the press if he had perhaps more conferences and talked with them more.

Mr. Duke. Many members of Congress feel that the White House people look down on Congress. Do you have this feeling? Do you share this feeling?

Senator Byrd. I don't share this feeling and in talking about his relations with the press, I am not nearly as cognizant of what the true situation is except as I read it and hear it, but I think I can speak with reference to the Congress.

I have felt that not everyone in the Congress in either party is an adversary of Mr. Nixon. He has his enemies up there; he has his critics, but what President hasn't? I think it would go a long way toward insuring for himself better cooperation on the part of the Congress and in turn a better understanding on the part of the American people if he would talk with members of Congress more.

Mr. Duke. Now, one of the things which the President is doing is imposing a ceiling of $250 million on federal spending.

Senator Byrd. Billion.

Mr. Duke. Billion. Even though Congress refused to authorize such a ceiling.

Obviously the White House is doing this by withholding certain funds which Congress has decreed should be spent.

Now, isn't this an infringement on the power of Congress and is Congress going to let the President get away with this?

Senator Byrd. To begin with, the impoundment of funds has been carried on by Mr. Nixon's predecessors going back to Franklin D. Roosevelt, I suppose, during the depression, and during the war. But I think that more of it has occurred under Mr. Nixon.

As I recall in 1971, FY 1971, about twenty per cent of the controllable items, $12 billion, was impounded by the President.

Now, I think that some of these impoundments are legal and some of them are mandated by the Congress, but I think that where they are not legal and where they are made only through the discretion of the President or the executive branch, I think the Congress ought to do something about this. I think it can, and I think it will.

Mr. Shaffer. Senator, I want to ask you, in connection with that, it is all very well to deplore the President's impounding of funds that you and Congress have appropriated, but what specifically can you do about it and what are you going to do about it?

Senator Byrd. Well, we can act from a legislative standpoint and we can bring about and encourage action from a judicial standpoint.

Now, there had been a case only this year settled in the District Court of the Western District of Missouri in which the District Court ruled that the Secretary of Transportation could not impound funds supposed to have been allocated to Missouri under the Federal Aid Highway Act. That case will be appealed. The appeal will be heard on January 8th in the Eighth Circuit and Senator Irvin, who is chairman of the Subcommittee on Separation of Powers in the Senate, is going to file an amicus in support of the decision which will be on behalf of the Majority Leader and on my behalf as Majority Whip and on behalf of several, of the committee chairmen in the Senate.

Now, I think the interpretation of this—let me say this: This is the first case that I know of which deals with impoundment on the merits. I think we have to remember that it is based on an interpretation of the statute which says that such funds may not be impounded.

Mr. Shaffer. But how about acting legislatively? Now, Senator Irvin introduced a bill in 1971 which would compel the President to report to Congress whenever he planned to impound funds and give Congress thirty days in which to veto such action.

Do you expect to try to get a bill like that passed in this Congress and will you support it?

Senator Byrd. Yes, I will support it, and I think we ought to move in this direction.

The President, under the Constitution, has no role in the appropriations process except by the veto and by virtue of his being able to recommend. The Congress has the role of legislating, and I think the Congress ought to write into some of its bills strict language prohibiting the impoundment of funds. I think the intepretation would be then on the statutory intent and I think would also be based on the determination of whether the Congress had the power to prohibit such impoundment of funds. But we could get some court cases in this way.

Mr. Van Der Linden. Senator Byrd, we were saying a minute ago that the Democrats would have to move back to the middle and away from the left. Could you tell us what you specifically suggest for winning back the approximately ten million Americans who once voted for George Wallace and apparently went over to Nixon this last election?

Senator Byrd. Well, there were not only the Americans who voted for Mr. Wallace who went over to Mr. Nixon. I think that what we have got to do is get rid of the pro-welfare—giveaway image, the pro-permissiveness image, the pro-busing image the meat-ax cuts of defense funds and get back into the middle of the stream.

Mr. Van Der Linden. Would you sponsor a bill on any of those yourself?

Senator Byrd. Well, I may or may not, but I would certainly support legislation in this direction.

Mr. Van Der Linden. Would you curb busing, for example?

Senator Byrd. I have in the past.

Mr. Van Der Linden. And on defense you would fight any major cuts——

Senator Byrd. Well, I have supported some defense cuts, but I am against broad meat-ax cuts. I have supported certain selective cuts.

Mr. Leubsdorf. Senator, your statements on some of these issues sound a little bit like some of the views Governor Wallace has presented——

Senator Byrd. Well, they sound like the views that the majority of the people want to hear.

Mr. Leubsdorf. Do you think—the Charleston Gazette once said that your record and views "made you the functional equivalent of George Wallace." Do you think Wallace really represents much more than just a fringe and that he really represents the middle of the road?

Senator Byrd. Of course he represents more than just a fringe. When he said "Send them a message in Washington," this caught on. When he talked about the unfairness in the Internal Revenue taxing program, he talked about middle income Americans. When he said there are some millionaires who can make millions and not pay a penny, and yet there are middle Americans who work every day and who have to pay a high percentage of their income, he struck home.

As to the Charleston Gazette, may I say I would suggest that you ought to try quoting some of the other newspapers in the State of West Virginia once in a while.

Mr. Leubsdorf. Do you think that the Democratic Party which nominated George McGovern in 1972 could nominate a George Wallace in 1976?

Senator Byrd. I think it is too early to speculate as to what might happen in 1976. I think the people have spoken, they have indicated that they are not for any extremist fringes on the left or on the right, and I think that the Democratic Party is going to have to get back in the middle of the stream, regardless of who might be the leader of that party.

Mr. Spivak. Senator, in a television broadcast shortly after you won your election as Majority Whip, you said "I just don't think that there is a feeling of respect for the Senate as an institution."

Why do you think that?

Senator Byrd. Well, I think the Senate, through inattention, through failure to exercise its own powers, has from time to time—and certainly in recent years—created a vacuum into which a strong executive has moved. This, in the main, was what I had in mind.

Mr. Spivak. Well, what do you think the Senate can now do to win back the respect that you think it once had and lost?

Senator Byrd. Well, there are a number of things it can do. It can pass a War Powers Bill which will define the authority of Congress in connection with undeclared wars. We have already talked about the impoundment of funds. I think it can take steps that will be effective in the area of executive privilege, and it certainly ought to take steps with respect to the reorganization of the Executive Branch. It ought to give closer scrutiny to some of the President's nominees. I think our own people ought to work harder. We ought to stop getting around over the country and turn down some of the speaking engagements that we accept and stay in the Senate and work and get down to business and give our full attention and not have too much partisan bickering. Take a partisan stand when it is necessary but try to show statesmanship and get back the powers that we have given away and take our rightful place in the constitutional system.

Mr. Spivak. Gentlemen, we have less than four minutes.

Mr. Duke. Well, those are very high sounding words which you voice here today, Senator Byrd, but do you think there is now a disposition in Congress to save Congress, to prevent Congress from becoming, as one Senator said, a constitutional relic?

Senator Byrd. I don't think there is any question about it.

Mr. DUKE. And you think this session of Congress will then face up to this?

Senator BYRD. I think you will see strong efforts in this session of Congress in that direction.

Mr. SHAFFER. Senator Byrd, the President put Congress on the spot when he asked for a spending ceiling of $250 billion and Congress, specifically the Senate, refused to give it to him. He said if he couldn't limit spending to $250 billion there would have to be a tax increase.

I assume there is no politician in his right mind who is going to advocate a tax increase. So what will you do about controlling spending in the Congress if you won't let the President have that power?

Senator BYRD. Well, Congress has to do this itself. I am not against the spending ceiling, but I think Congress ought to set it. I don't think we ought to let the President set it.

Mr. SHAFFER. Well, how do you do it? It is very easy to say Congress should do it, but you have a mechanism. You have one computer in the Senate used for calculating the Senate payroll.

Senator BYRD. We don't necessarily need more computers; we need more staff people, more brain power.

Mr. VAN DER LINDEN. Senator, suppose some of your friends would start a movement to nominate you for President in 1976. Would you tell them to stop?

Senator BYRD. I would tell them to stop.

Mr. LEUBSDORF. One of the problems in 1972 is that it seems at times half of the Democrats in the Senate were running for President.

Mr. VAN DER LINDEN. Do you think a shorter election campaign might solve this problem?

Senator BYRD. I think it would help.

Mr. VAN DER LINDEN. What changes do you think should be made in the whole process of nominating and electing presidents.

Senator BYRD. Well, I think that some consideration should be given to the suggestion with respect to a national primary, and I think these campaigns ought to be shortened. The people get tired of them and the candidates get worn out, and this may be one reason why so few people turned out to vote.

Mr. SPIVAK. Senator, you made a speech in which you said that the problem is no longer how to achieve integration, but how to prevent resegregation. Is it your belief today that we have achieved integration?

Senator BYRD. I think that we have achieved what the Supreme Court set out to do in 1954. We have not only achieved that, but we have gone back in the opposite direction 180 degrees. The Supreme Court stated or took the position that no child should be denied access to any school purely on the basis of its race or color and today we are doing just that. Children are being chosen precisely on the basis of their color, whether they are white or black, and the decisions are being made for them and for their parents as to where those children would go.

I don't think there is any question but that integration has been achieved. Nobody is advocating going back to forced segregation, but I think this foolishness of running children all over town and over icy roads and using them as guinea pigs to try to prove some unworkable social experiment is an imposition on the children, an imposition on the parents; it is costly; it is foolish and it is unconstitutional.

Mr. SPIVAK. We have less than thirty seconds.

Mr. DUKE. Senator Byrd, very briefly, will Congress tend wage and price control authority?

Senator BYRD. I think it will, with some discussion, but not too much opposition.

Mr. DUKE. And will it approve a national health insurance plan?

Senator BYRD. I think it will.

Mr. DUKE. And tax reform?

Senator BYRD. There will be some tax reform, I am sure.

Mr. DUKE. And what about the President's Welfare Reform Plan?

Senator BYRD. Well, I don't know about that.

Mr. SPIVAK. I am sorry to interrupt but our time is up. Thank you, Senator Byrd, for being with us today on Meet The Press.

## ORDER FOR 15-MINUTE YEA-AND-NAY VOTES

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent—and this has been cleared with both the distinguished majority leader and the distinguished Republican leader—that, in accordance with the procedure followed during the second session of the 92d Congress, the time on any rollcall vote be limited to 15 minutes, with the warning bell to sound midway.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROBERT C. BYRD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The second assistant legislative clerk proceeded to call the roll.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ORDER FOR RECOGNITION OF SENATOR HARRY F. BYRD, JR., NEXT WEEK

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that on the first day of a Senate session next week, immediately following the prayer and the recognition of the two leaders or their designees under the standing order, the distinguished senior Senator from Virginia (Mr. HARRY F. BYRD, JR.) be recognized for not to exceed 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NUNN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The second assistant legislative clerk proceeded to call the roll.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## TRIBUTE TO NEW SENATORS

Mr. ROBERT C. BYRD. Mr. President, the people of the Nation, I think, are extremely fortunate in that we have several very enterprising and able young Senators who have been recently elected to membership in this body.

The Senate will also be fortunate in that these very capable, new Senators have come to the Senate, many of them, after having served in the other body or in the State legislatures of their respective States.

I wish to call attention to the fact that today that one such new Senator, the former very able majority leader of the senate of the great State of Kentucky is presently occupying the chair. He presides over this august body with a skill and with a degree of fairness and ability as rare as a day in June.

I also call attention to the fact that the distinguished junior Senator from Georgia (Mr. NUNN) a few moments ago capably substituted for the leadership at a moment when the leadership was otherwise occupied.

I congratulate these two Senators and the other new Senators who will from time to time be called upon to preside over this body and to assist the leadership.

I congratulate the presiding officer, the Senator from Kentucky (Mr. HUDDLESTON). I think it well that his constituents know he is performing his duties in a very admirable and capable manner, just as he did with respect to the important responsibilities which rested upon his shoulders when he served so effectively in the Kentucky Senate.

## QUORUM CALL

Mr. ROBERT C. BYRD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. I trust that the junior Senator from Georgia (Mr. NUNN) will join with me in offering no objection to the statement just made by the distinguished majority whip.

The clerk will call the roll.

The second assistant legislative clerk proceeded to call the roll.

## QUORUM CALL

Mr. GRIFFIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. HUDDLESTON). Without objection, it is so ordered.

## COMMUNICATIONS FROM EXECUTIVE DEPARTMENTS, ETC.

The PRESIDENT pro tempore laid before the Senate the following communications and letters, which were referred as indicated:

### REPORTING ON EXTENSION OF CREDIT TO THE POLISH PEOPLE'S REPUBLIC

A letter from the Ambassador of Turkey, transmitting a message by the President of the Senate of the Republic of Turkey, on the occasion of the death of Harry S Truman, former President of the United States (with an accompanying paper); ordered to lie on the table.

---

## PETITIONS

Petitions were laid before the Senate and referred as indicated:

A joint resolution of the Legislature of the State of California; to the Committee on the Judiciary:

By the PRESIDENT pro tempore:

"Senate Joint Resolution No. 20

Relative to ratification of an amendment to the Constitution of the United States, proposed by the Congress of the United States, relating to equal rights for men and women

"LEGISLATIVE COUNSEL'S DIGEST

"SJR. 20. Dymally. Equal rights.

"Ratifies proposed amendment to United States, which shall be valid to all intents and rights for men and women.

"Whereas, The 92nd Congress of the United States of America has adopted House Joint Resolution No. 208, two-thirds of each house concurring therein, proposing an amendment to the Constitution of the United States, in the following words, to wit;

"JOINT RESOLUTION

" 'Proposing an amendment to the Constitution of the United States relative to equal rights for men and women.

" 'Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein), That the following article is proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as part of the Constitution when ratified by the Legislatures of three-fourths of the several States within seven years from the date of its submission by the Congress:

" 'ARTICLE—

" ' "Section 1. Equality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex.

" ' "Sec. 2. The Congress shall have the power to enforce, by appropriate legislation, the provisions of this article.

" ' "Sec. 3. This amendment shall take effect two years after the date of ratification." ' "; and

"Whereas, Said proposed amendment will be valid as part of the Constitution of the United States when ratified by the legislatures of three-fourths of the several states; now, therefore, be it

"*Resolved by the Senate and Assembly of the State of California, jointly,* A majority of all the members elected to each house of said Legislature voting in favor thereof, that the proposed amendment be and the same is hereby ratified by the Legislature of the State of California; and be it further

"*Resolved,* That certified copies of the foregoing preamble and resolution be forwarded by the Governor of the State of California to the President of the United States, the Vice President of the United States, the Speaker of the House of Representatives of the United States, and the Administrator of General Services."

Two joint resolutions from the Legislature of the State of California; to the Committee on Labor and Public Welfare:

Senate Joint Resolution No. 31

"Relative to blind vending stand operators

"LEGISLATIVE COUNSEL'S DIGEST

"Memorializes the President and Congress not to revoke regulations under which the blind and near blind are given preference in operating vending stands in federally owned or leased buildings.

"Whereas, The Legislature of the State of California is concerned about the welfare of the blind residents of the state in striving to render themselves self-supporting and in the economic opportunities that are available to them in achieving and maintaining self-support; and

"Whereas, Pursuant to the Randolph Sheppard Act of 1938 the United States government is preparing to revoke a 44-year-old regulation under which the blind and near blind are given preference in operating vending stands in federally owned or leased buildings; and

"Whereas, The changes in regulations proposed by the General Services Administration would eliminate the preference the blind receive in bidding on the concessions, and also further restrict merchandise that could be sold at the stands; and

"Whereas, Such sweeping changes in philosophy as well as policy may have a profound as well as disastrous effect on thousands of self-supporting blind persons operating vending stands in federal facilities in this state and across the country; now, therefore, be it

"*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California memorializes the United States government not to revoke regulations under which the blind and near blind are given preference in operating vending stands in federally owned or leased buildings; and be it further

"*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, the Department of Health, Education and Welfare, the General Services Administration and the Commissioner of Public Building Service."

"Senate Joint Resolution No. 30

"Relative to Sickle Cell Anemia Programs

"LEGISLATIVE COUNSEL'S DIGEST

"Memorializes the President and Congress of the United States to take whatever action that is necessary to make federal funds available as rapidly as possible for the continued operation of urgently needed sickle cell anemia programs such as Sickle Cell Anemia Research and Education, Inc.

"Whereas, SCARE (Sickle Cell Anemia Research and Education, Inc.) provides a completely unique service program to victims of sickle cell anemia, as well as the total community of northern California, through its free screening, education and medical care projects; and

"Whereas, The residents of the City and County of San Francisco have benefited from the tireless efforts of SCARE's staff for over a year; and

"Whereas, SCARE is faced with a serious lack of funds, which situation has forced it to cut back services, such as the provision of urgently needed testing to the at-risk population, and may cause a potentially tragic interruption in SCARE's medical and emergency services for the victims of sickle cell anemia; and

"Whereas, SCARE has received the endorsement of the Department of Health, Education and Welfare and intends to apply for federal funds to continue its much needed programs; and

"Whereas, The President of the United States vetoed the appropriations bill which would have provided funds for the operation of the Department of Health, Education and Welfare for the current fiscal year; and

"Whereas, SCARE is unable to apply for funds to the Department of Health, Education and Welfare until guidelines and moneys are made available; now, therefore, be it

*"Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California memorializes the President, the Congress of the United States, and the Department of Health, Education and Welfare to take whatever action that is necessary to make federal funds available as rapidly as possible for the continued operation of urgently needed sickle cell anemia programs such as SCARE, in order to meet community needs; and be it further

*"Resolved,* That the Secretary of the Senate transmit a copy of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States and to the Department of Health, Education and Welfare."

A joint resolution from the Legislature of the State of California; to the Committee on Public Works:

"Senate Joint Resolution No. 24

"Relating to the Antioch Bridge

"Legislative Counsel's Digest

"Request the Federal Highway Administration to provide federal assistance in the construction of a new Antioch Bridge under the Federal Aid Highway Act of 1970 Bridge Replacement Program.

"Whereas, The Department of Public Works of the State of California has completed, pursuant to a request of the California Legislature, a study concerning the construction of a new crossing of the San Joaquin River near the site of the present Antioch Bridge, which is located in the Counties of Contra Costa and Sacramento in this state; and

"Whereas, The study indicates that the existing Antioch Bridge, which was constructed in the 1920's, is barely capable of tolerating legal loads, is narrow in width, that the vertical sight distance is restricted on the bridge, and that there is risk that at any time the structure could collapse as the result of a ship collision; and

"Whereas, Ship collisions nearly collapsed the bridge in 1958, 1963, and 1970, there has been flooding from time to time of the approach highway, and whenever the bridge has been closed it has resulted in a serious disruption of highway traffic and severe damage to the livelihood of many citizens and the economy of the area; and

"Whereas, The construction of a new Antioch Bridge is clearly necessary, based on the condition of the existing bridge; and

"Whereas, The bridge is number one on the priority list of bridges recommended for replacement under the Federal Aid Highway Act of 1970 Bridge Replacement Program which the Department of Public Works has submitted to the Federal Highway Administration now, therefore, be it

*"Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California respectfully requests the Federal Highway Administration to provide federal assistance in the construction of a new Antioch Bridge under the Federal Aid Highway Act of 1970 Bridge Replacement Program; and be it further

*"Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Transportation, to the Federal Highway Administrator, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

A joint resolution of the Legislature of the Commonwealth of Pennsylvania; to the Committee on the Judiciary:

"Joint Resolution No. 2

"Joint resolution ratifying the proposal amendment to the Constitution of the United States relative to equal rights for men and women

"The General Assembly of the Commonwealth of Pennsylvania hereby resolves as follows:

"Section 1. The proposed amendment to the Constitution of the United States providing as follows:

" 'Article

" 'Section 1. Equality of rights under the law shall not be denied or abridged by the United States or by any state on account of sex.

" 'Section 2. The Congress shall have the power to enforce, by appropriate legislation, the provisions of this article.

" 'Section 3. This amendment shall take effect two years after the date of ratification," is hereby ratified by the General Assembly of the Commonwealth of Pennsylvania.'

'Section 2. A certified copy of the foregoing resolution shall be forwarded to the Administrator of General Services in accordance with 1 U.S.C. § 106, to the President of the United States Senate and to the Speaker of the United States House of Representatives."

Three resolutions adopted by the National Guard Association of the United States, relating to the military posture of the United States; to the Committee on Armed Services.

A resolution adopted by the Associated Plumbing and Mechanical Contractors of Florida, Inc., relating to the use of substandard plumbing materials; to the Committee on Banking, Housing and Urban Affairs.

A petition from the Fur Takers of America, Barberton, Ohio, supporting the use of the steel trap; to the Committee on Commerce.

A resolution adopted by the Northwest Aviation Council Seattle, Washington, relating to the protection of persons traveling in interstate commerce; to the Committee on Commerce.

A resolution adopted by the Los Angeles City Council, praying for the establishment of quotas to regulate imports; to the Committee on Finance.

A resolution adopted by the Mahoning County Commissioners, Youngstown, Ohio, relating to food stamps; to the Committee on Finance.

A resolution adopted by the city council of Youngstown, Ohio, relating to revenue-sharing moneys; to the Committee on Finance.

A resolution adopted by the board of supervisors of Jackson County, Miss., commending the Federal Government for the Revenue Sharing Act; to the Committee on Finance.

Two resolutions adopted by the National Guard Association of the United States, relating to the conflict in Southeast Asia; to the Committee on Foreign Relations.

A resolution adopted by the Enlisted Association of the National Guard of the United States, in support of actions taken by the President; to the Committee on Foreign Relations.

A resolution adopted by the National Guard Association of the United States, relating to the American Revolution Bicentennial; to the Committee on the Judiciary.

The petition of P. J. Peterson, New York, N.Y., in support of the death penalty; to the Committee on the Judiciary.

A resolution adopted by the Polish American Congress, Syracuse, N.Y., relating to the forthcoming quincentennial of the birth of Mikolaj Kopernik; to the Committee on the Judiciary.

A resolution adopted by the Greater Johnstown School District, Johnstown, Pa., relating to the celebration of Veterans Day; to the Committee on the Judiciary.

A resolution adopted by the Barre City Council, Barre, Vt., relating to the apportionment of state legislatures; to the Committee on the Judiciary.

A resolution adopted by the Vermont State School Directors Association, Montpelier, Vt., relating to the apportionment of the State legislature; to the Committee on the Judiciary.

A resolution adopted by the city of Montpelier, Vt., relating to the apportionment of the State legislature; to the Committee on the Judiciary.

The petition of Mr. Moscow Minor, praying for a redress of grievances; to the Committee on the Judiciary.

A resolution adopted by the Prince Georges County Municipal Association, Bladensburg, Md., praying for the enactment of legislation relating to better distribution of funds; to the Committee on Labor and Public Welfare.

A resolution adopted by the Idaho Commission on Women's Programs, Boise, Idaho, relating to the distribution formula for Federal funds for higher education; to the Committee on Labor and Public Welfare.

A resolution adopted by the Bay City Commission, Bay City, Mich., relating to water pollution control; to the Committee on Public Works.

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first time and, by unanimous consent, the second time, and referred as indicated:

By Mr. HOLLINGS:

S. 215. A bill to amend the Internal Revenue Code of 1954 to allow a credit against income tax to individuals for certain expenses incurred in providing higher education. Referred to the Committee on Finance.

S. 216. A bill to designate certain lands in the Cape Romain National Wildlife Refuge, South Carolina, as a wilderness area under the Wilderness Act. Referred to the Committee on Interior and Insular Affairs.

S. 217. A bill to authorize the imposition of the death penalty for individuals convicted of certain crimes. Referred to the Committee on the Judiciary.

By Mr. STEVENS:

S. 218. A bill to amend the Food Stamp Act of 1964 in order to permit eligible households living in remote areas of Alaska to use food stamp coupons for the purchase of ammunition. Referred to the Committee on Agriculture and Forestry.

By Mr. McGEE:

S. 219. A bill for the relief of Robert L. Miller and Mildred M. Miller. Referred to the Committee on the Judiciary.

S. 220. A bill to authorize certain conveyances of land; and

S. 221. A bill to authorize the Secretary of the Interior to convey certain lands in the State of Wyoming. Referred to the Committee on Interior and Insular Affairs.

By Mr. McGEE (for himself and Mr. Hansen):

S. 222. A bill to establish the Women's Hall of Fame Study Commission. Referred to the Committee on the Judiciary.

S. 223. A bill to amend section 35 of the Mineral Leasing Act of 1920 with respect to the disposition of the proceeds of sales, bonuses, royalties, and rentals under such Act. Referred to the Committee on Interior and Insular Affairs.

S. 224. A bill to provide for the establishment of a national cemetery in the State of Wyoming. Referred to the Committee on Veterans' Affairs.

By Mr. HATFIELD:

S. 225. A bill to authorize the project for the Days Creek Dam, on the South Umpqua River, Oregon, for flood protection and other purposes. Referred to the Committee on Public Works.

S. 226. A bill for the relief of Eldridge H. White. Junior;

S. 227. A bill for the relief of Michael Kwok-choi Kan;

S. 228. A bill for the relief of Alemitu Feleke;

S. 229. A bill for the relief of Moo Soo Hwang; and

S. 230. A bill for the relief of Ruben Jose Naum, his wife, Elena Dalmira Magula de Naum, and their child, Diana Mirta Naum. Referred to the Committee on the Judiciary.

By Mr. BAYH (for himself and Mr. Cook):

S.J. Res. 1. A joint resolution proposing an amendment to the Constitution to provide for the direct popular election of the President and Vice President of the United States. Referred to the Committee on the Judiciary.

By Mr. NELSON:

S.J. Res. 2. A joint resolution designating April 9th through April 15th as "Earth Week, 1973." Referred to the Committee on the Judiciary.

By Mr. DOLE (for himself and Mr. Pearson):

S.J. Res. 3. A joint resolution to provide for a 1974 centennial celebration observing the introduction into the United States of Hard Red Winter wheat. Referred to the Committee on the Judiciary.

By Mr. DOLE:

S.J. Res. 4. A joint resolution to authorize and request the President to issue a proclamation designating a week as "National Welcome Home Our Prisoners Week" upon the release and return to the United States of American prisoners of war in Southeast Asia. Referred to the Committee on the Judiciary.

By Mr. BAYH:

S.J. Res. 5. A joint resolution proposing an amendment to the Constitution of the United States lowering the age requirements for membership in the Houses of Congress. Referred to the Committee on the Judiciary.

By Mr. CRANSTON (for himself, Mr. Nelson, and Mr. Tunney):

S.J. Res. 6. A joint resolution to establish the Tule Elk National Wildlife Refuge. Referred to the Committee on Commerce.

By Mr. BAKER:

S.J. Res. 7. A joint resolution proposing an agreement to the Constitution of the United States with respect to the offering of prayer in public buildings. Referred to the Committee on the Judiciary.

By Mr. HARTKE:

S.J. Res. 8. A joint resolution to protect nondisclosure of information and sources of information coming into the possession of the news media. Referred to the Committee on the Judiciary.

By Mr. GRIFFIN:

S.J. Res. 9. A joint resolution proposing an amendment to the Constitution of the United States relating to the assignment and transportation of pupils to public schools. Referred to the Committee on the Judiciary.

By Mr. SCHWEIKER (for himself and Mr. Scott of Pennsylvania):

S.J. Res. 10. A joint resolution to amend the Constitution of the United States to provide voluntary nondenominational prayer in public schools and buildings. Referred to the Committee on the Judiciary.

By Mr. HOLLINGS:

S.J. Res. 11. A joint resolution to pay tribute to law enforcement officers of this country on Law Day, May 1, 1973. Referred to the Committee on the Judiciary.

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KENNEDY (for himself, Mr. Case, Mr. Clark, Mr. Cranston, Mr. Gravel, Mr. Hart, Mr. Hughes, Mr. Humphrey, Mr. Inouye, Mr. McGee, Mr. McGovern, Mr. Metcalf, Mr. Mondale, Mr. Moss, Mr. Muskie, Mr. Pastore, Mr. Tunney and Mr. Hathaway):

S. 3. A bill to create a national system of health security. Referred to the Committee on Finance.

### NATIONAL SYSTEM OF HEALTH SECURITY

Mr. KENNEDY. Mr. President, I introduce for appropriate reference, S. 3, the Health Security Act of 1973.

This historic bill, which reflects a broad public coalition rising out of millions of Americans, the labor movement and the best thinking of some of America's most respected health professionals and economists, has been before two previous Congresses. With each submission, the bill has been improved and perfected. During the 92d Congress, important hearings were held in both the Senate and House on this and other national health insurance bills.

I believe that this 93d Congress will enact national health insurance legislation which will embody the principles of this health security program. I am encouraged in this belief by the growing public and legislative coalition supporting S. 3. I believe this coalition reflects growing public concern over the mounting health care crisis, a concern that will make the 93d Congress the health care Congress. On January 30, I will describe the new coalition behind S. 3 and file additional cosponsors to the bill. I am filing the bill itself today in order that all of my colleagues may have an opportunity to review its provisions in detail and consider cosponsorship.

The bill I am introducing today retains the historical principles of the program while making important improvements. As in the past, the program couples comprehensive health insurance coverage for all Americans with major expansion and reorganization of the health care system. It incorporates incentives for efficiency in providing health care and positive controls on inflation, while offering providers of health care the widest range of choices of how and where they will practice. It removes "ability to pay" as a consideration in whether or not a person receives good health care, and takes every possible step to assure that the same quality care is, in fact, available to everyone who needs it.

As in the past, the program aims at accomplishing these ends by making the Federal Government the health insuring agent for all Americans, with the cost of the insurance paid through payroll taxes and general revenues. This approach gives the Nation an essential lever to constructively move our health care system toward greater efficiency, lower cost, higher quality, and broader availability of services. By responsible public use of this insurance leverage, the program will bring about these changes while preserving our health care providers' and institutions' strong traditions of freedom from Government ownership and control. This Federal insurance system also allows greater equity by requiring families to pay for their insurance proportionate to their ability to pay. In this regard, the bill contains a favorable new provision exempting the first $3,000 of unearned income from tax for Americans over age 60.

There are, in addition, a number of new elements in the bill as introduced in this Congress. Based on extensive study and discussions, the Committee for National Health Insurance has strengthened the quality control and consumer representation provisions of the bill, schedules broadened insurance coverage for drugs and dental care, and establishes pilot projects in personal care services in the home and long-term institutional care. These and other changes are described below.

The health security program, I believe, incorporates basic principles that must be enacted into law if we are to assure that every American has an equal opportunity for good health at a cost he and our Nation can afford. I commend the new bill to the Senate's careful consideration.

Mr. President, I ask unanimous consent that the text of the bill be printed at this point in today's RECORD.

There being no objection, the text of the bill was ordered in the RECORD as follows:

### S. 3

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as "The Health Security Act".

### FINDINGS AND DECLARATION OF PURPOSE

SEC. 2. (a) The Congress finds that—

(1) the health of the Nation's people is the foundation of their well-being and of our Nation's strength, productivity, and wealth;

(2) adequate health care for all of our people must now be recognized as a right; and

(3) a national system of health security is the means to implement that right.

(b) The purpose of this Act is—

(1) to create a national system of health security benefits which, through national health insurance, will make comprehensive health services available to all residents of the United States, and

(2) through the operation of the system, to effect modifications in the organization and methods of delivery of health services which will increase the availability and continuity of care, will enhance its quality, will emphasize the maintenance of health as well as the treatment of illness and, by improving the efficiency and the utilization of services and by strengthening professional and financial controls, will restrain the mounting cost of care while providing fair and reasonable compensation to those who furnish it.

### INITIATION OF HEALTH SECURITY PROGRAM

SEC. 3. Health security taxes will become effective on January 1, and health services will become available on July 1, of the second calendar year after the year in which this Act is enacted. Except for the benefit and related fiscal provisions, title I of this Act is effective upon enactment. Certain federally financed or supported health programs will be terminated or curtailed when health benefits under this Act become available. Effective dates of the several provisions of this Act are set forth in sections 163, 204, 214, and 401 to 406, inclusive.

### TABLE OF CONTENTS

Sec. 1. Short title.
Sec. 2. Declaration of purpose.
Sec. 3. Initiation of health security program.

TITLE I—HEALTH SECURITY BENEFITS

PART A—ELIGIBILITY FOR BENEFITS

Sec. 11. Basic eligibility.
Sec. 12. Agreements for eligibility of other persons.

PART B—NATURE AND SCOPE OF BENEFITS; COVERED SERVICES

Sec. 21. Entitlement to have payment made for services.
Sec. 22. Physician services.
Sec. 23. Dental services.
Sec. 24. Institutional services.
Sec. 25. Pharmaceutical benefits.
Sec. 26. Devices, appliances, and equipment.
Sec. 27. Other professional and supporting services.
Sec. 28. Exclusions from covered services.

PART C—PARTICIPATING PROVIDERS OF SERVICES

Sec. 41. In general; agreements with the Board.
Sec. 42. Professional practitioners.
Sec. 43. General hospitals.
Sec. 44. Psychiatric hospitals.
Sec. 45. Skilled nursing homes.
Sec. 46. Home health service agencies.
Sec. 47. Health maintenance organizations.
Sec. 48. Professional foundations.
Sec. 49. Other health service organizations.
Sec. 50. Other providers.
Sec. 51. Utilization review.
Sec. 52. Transfer and affiliation agreements.
Sec. 53. Newly constructed facilities.
Sec. 54. Limitation on malpractice judgments.
Sec. 55. Exclusion: Federal providers of services.
Sec. 56. Restrictive State laws inoperative.

PART D—TRUST FUND; ALLOCATION OF FUNDS FOR SERVICES

Sec. 61. Health Security Trust Fund.
Sec. 62. Annual determination of fund availability.
Sec. 63. Health services account, health resources development account, administration account and general account.
Sec. 64. Regional allocations from health services account.
Sec. 65. Division of regional funds by classes of services.
Sec. 66. Funds for health service areas.
Sec. 67. Modification of fund allotments.

PART E—PAYMENT TO PROVIDERS OF SERVICES

Sec. 81. In general.
Sec. 82. Methods and amount of payment to professional practitioners.
Sec. 83. Payment to general hospitals.
Sec. 84. Payment to psychiatric hospitals.
Sec. 85. Payment to skilled nursing homes and to home health service agencies.
Sec. 86. Payment for drugs.
Sec. 87. Payment to health maintenance organizations and professional foundations.
Sec. 88. Payment to other providers.
Sec. 89. Reduction in payments on account of unnecessary capital expenditures.
Sec. 90. Methods and time of payment.

PART F—PLANNING; FUNDS TO IMPROVE SERVICES AND TO ALLEVIATE SHORTAGES OF FACILITIES AND PERSONNEL

Sec. 101. Purpose of part F; availability of funds.
Sec. 102. Planning.
Sec. 103. General policies and priorities.
Sec. 104. Organizations for the care of ambulatory patients.
Sec. 105. Recruitment, education, and training of personnel.
Sec. 106. Special improvement grants.
Sec. 107. Test of personal care services in lieu of institutional care.
Sec. 108. Loans under part F.
Sec. 109. Relation to parts E and F.

PART G—ADMINISTRATION

Sec. 121. Establishment of the Health, Security Board.
Sec. 122. Duties of the Secretary and the Board.
Sec. 123. Executive Director; delegation of authority.
Sec. 124. Regions and health service areas.
Sec. 125. National Health Security Advisory Council.
Sec. 126. Regional and local advisory councils.
Sec. 127. Professional and technical advisory committees.
Sec. 128. Participation by State agencies.
Sec. 129. Technical assistance to skilled nursing homes and home health service agencies.
Sec. 130. Dissemination of information; studies and evaluations; systems development; tests and demonstrations.
Sec. 131. Guidelines for health manpower education and training.
Sec. 132. Determinations; suspension or termination of participation.
Sec. 133. Hearings; judicial review.
Sec. 134. Directions by the Board for the better organization and coordination of services.

PART H—QUALITY OF CARE

Sec. 141. Purpose and general policies.
Sec. 142. Continuing professional education.
Sec. 143. Major surgery and other specialized services.
Sec. 144. Additional requirements for participation.

Sec. 145. Professional standards review and similar organizations.
Sec. 146. Findings of commission on medical malpractice.

PART I—MISCELLANEOUS PROVISIONS

Sec. 161. Definitions.
Sec. 162. Deputy Secretary of Health, Education, and Welfare: Under Secretary for Health and Science.
Sec. 163. Effective dates of Title I; Authorization of appropriations.
Sec. 164. Existing employer-employee health benefit plans.

TITLE II—HEALTH SECURITY TAXES

PART A—PAYROLL TAXES

Sec. 201. Rates and coverage.
Sec. 202. Conforming and technical amendments.
Sec. 203. Exclusion from gross income.
Sec. 204. Effective dates of part A.

PART B—TAXES ON SELF-EMPLOYMENT INCOME AND UNEARNED INCOME

Sec. 211. Tax on self-employment income.
Sec. 212. Tax on health security unearned income.
Sec. 213. Conforming and technical amendments.
Sec. 214. Effective dates of part B.

TITLE III—COMMISSION ON THE QUALITY OF HEALTH CARE

Sec. 301. Statement of purpose.
Sec. 302. Amendment of the Public Health Service Act.
Sec. 303. Technical amendments to the Public Health Service Act.

TITLE IV—REPEAL OR AMENDMENT OF OTHER ACTS

Sec. 401. Repeal of medicare and Federal employee health benefit statutes.
Sec. 402. Medicaid statute.
Sec. 403. Vocational Rehabilitation Act; maternal and child health and crippled children's services.
Sec. 404. Amendment of section 1122 of the Social Security Act.
Sec. 405. Repeal of Title XI, Part B, of the Social Security Act.
Sec. 406. Transfer and amendment of section 1817, and amendment of section 201(g), of the Social Security Act.
Sec. 407. Amendment of section 314 of the Public Health Service Act.
Sec. 408. Salary levels.

TITLE V—STUDIES RELATED TO HEALTH SECURITY

Sec. 501. Study of the provision of health security benefits to United States citizens in other countries.
Sec. 502. Study of coordination with other Federal health benefit programs.
Sec. 503. General Provisions.

## TITLE I—HEALTH SECURITY BENEFITS

### PART A—ELIGIBILITY FOR BENEFITS

### BASIC ELIGIBILITY

SEC. 11. Every resident of the United States and every nonresident citizen thereof is eligible, while within the United States, to receive health services under this Act; except that an alien employee (as defined in regulations) of a foreign government, of an instrumentality of a foreign government exempt from the tax imposed by section 3111 (b) of the Internal Revenue Code of 1954, or of an international organization (as defined in the International Organizations Immunity Act) is eligible only in accordance with an agreement under section 12. An alien admitted as a permanent resident and living within the United States, an alien admitted for employment and employed within the United States, or a refugee lawfully in the United States is for the purposes of this title a resident of the United States.

### AGREEMENTS FOR ELIGIBILITY OF OTHER PERSONS

SEC. 12. The Health Security Board (hereafter referred to as the "Board"), with the approval of the Secretary of Health, Education, and Welfare and the Secretary of State, is authorized to enter into agreements with foreign governments, international organizations, or other entities to extend the benefits of this title to persons within the United States not otherwise eligible therefor, in consideration of payment to the United States of the estimated cost of furnishing the benefits to such persons, or of an undertaking to furnish in a foreign country similar benefits to citizens of the United States, or of a combination of payment and such an undertaking.

### PART B—NATURE AND SCOPE OF BENEFITS: COVERED SERVICES

### ENTITLEMENT TO HAVE PAYMENT MADE FOR SERVICES

SEC. 21. Every eligible person is entitled to have payment made by the Board for any covered service furnished within the United States by a participating provider if the services is necessary or appropriate for the maintenance of health or for the diagnosis or treatment of, or rehabilitation following, injury, disability, or disease. Participating providers are providers, described in part C, who meet the conditions stated in section 41. Covered services are services described in section 22 to 27, inclusive, but are subject to the exclusions stated in section 28 and to limitations prescribed by or pursuant to part H (relating to the quality of care).

### PHYSICIAN SERVICES

SEC. 22. (a) Professional services of physicians, furnished in their offices or elsewhere, are covered services. Covered physician services include services and supplies of kind which are commonly furnished in a physician's office, with or without separate charge, as an incident to his professional services.

(b) Covered physicians' services consist of (1) primary medical services, which are the services (as defined in regulations, but including preventive services) ordinarily furnished by physicians, whether general practitioners or specialists, engaged (as determined in accordance with standards for such practice prescribed in regulations) in general or family practice for adults or for children or for both, and (2) specialized services.

(c) Psychiatric (mental health) service to an outpatient is a covered service (1) only if it constitutes an active preventive, diagnostic, therapeutic, or rehabilitative service with respect to emotional or mental disorders, and (2) only (A) if the service is furnished by a health maintenance organization, by a hospital, or by a community mental health center or other mental health clinic which furnishes comprehensive mental health services, or (B) if the service is furnished to a patient of a day care service with which the Board has an agreement under section 49(a)(3), or (c) to the extent of twenty consultations during a benefit period (as defined in regulations), if the service is furnished otherwise than in accordance with clause (A) or (B). In any community in which the available psychiatric services furnished otherwise than in accordance with clause (A) or (B) are found by the Board to be insufficient to meet the needs of the community, the Board may limit the coverage of such services by prescribing referral or other nonfinancial conditions in order to give priority of access to the services to those persons most in need of them.

### DENTAL SERVICES

SEC. 23. (a) Professional services (described in subsection (c)) of a dentist, furnished in his office or elsewhere, are covered services if they are furnished to a person who, at the time when the services are furnished, is entitled to such services in accordance with subsection (b). Covered services include services, materials, and supplies which are commonly furnished in a dentist's office, without separate charge, as an incident to his professional services.

(b) Persons who, on the effective date of health benefits, are less than fifteen years of age are entitled to covered dental services, and will remain so entitled throughout their lives. On July 1 of each of the five years immediately succeeding the year in which the effective date occurs, the following persons will become (and thereafter remain) entitled to such services: on July 1 of the first succeeding year, persons who, are then less than seventeen years of age; on July 1 of the second succeeding year, persons who are then less than nineteen years of age; on July 1 of the third succeeding year, persons who are then less than twenty-one years of age; on July 1 of the fourth succeeding year, persons who are then less than twenty-three years of age; and on July 1 of the fifth succeeding year, persons who are then less than twenty-five years of age.

(c) Covered dental services are preventive services (including personal dental health education), diagnostic services, therapeutic services (exclusive of orthodontic services other than for handicapping malocclusion), and services required for rehabilitation following injury, disability, or disease.

(d) The Board is authorized, if it finds that the availability of funds and of facilities and personnel makes it possible, to provide by regulation for acceleration of the entitlement (by age groups) to covered dental services as set forth in subsection (b). Not later than seven years after the effective date of health benefits, the Board shall by regulation provide that entitlement to dental service shall be extended, over such period of time and by such age or other groupings as it finds calculated to make the best use of available resources and personnel, to all persons not otherwise entitled to such services; and it may thereafter, from time to time, amend such regulations on the basis of further experience in the furnishing of dental services as covered services. In exercising its authority under this subsection the Board shall seek to encourage the furnishing of dental services as a part of comprehensive health services, or the furnishing of them by organizations furishing comprehensive dental services (which meet requirements set forth in regulations under section 104(a)); and to that end, the Board may limit additional entitlement to dental services, in whole or in part and temporarily or permanently, to services so furnished.

### INSTITUTIONAL SERVICES

SEC. 24. (a) Inpatient and outpatient services of a psychiatric or other hospital, the services of a skilled nursing home, and the services of a home health service agency, which are ordinarily furnished by the institution to patients for the purpose stated in section 21, are covered services, subject to the limitations stated in this section. Covered services include services furnished generally to the patients served by an institution, including pathology and radiology services and all other necessary services, whether they are furnished by the institution or by others under arrangement with the institution. To the extent provided in regulations, inpatient services of a Christian Science sanatorium are covered services.

(b) Covered services do not include personal comfort items or, unless required for medical reasons, the additional cost of accommodations more expensive than semiprivate accommodations; and do not include domiciliary or custodial care, or institutional care of a person while he is not receiving active medical treatment.

(c) Covered services do not include care in a skilled nursing home for more than one hundred and twenty days during a benefit period (as defined in regulations); except that the Board may, on such conditions as it finds appropriate to assure effective control of utilization, extend the duration of covered services, either for a stated number of days in a benefit period or indefinitely—

(1) in all skilled nursing homes for which consolidated budgets with hospitals have been approved under section 83(f), or

(2) in all participating skilled nursing homes having in effect affiliation agreements under section 52(b), if the Board finds that adequate funds and resources are available therefor and that such action will not lead to excessive utilization of nursing home services.

(d) Covered services do not include institutional care of a person as a psychiatric patient while the patient is not receiving active treatment for an emotional or mental disorder; and do not include care of a person as a psychiatric patient for more than forty-five inpatient days in either a psychiatric or another hospital during a benefit period (as defined in regulations).

(e) Covered services do not include institutional care of an inpatient unless a physician has certified to the medical necessity of the patient's admission to the institution, and do not include such care (during a continuous stay in the institution) after such period (if any) as may be specified in regulations unless a physician has certified to the continued medical necessity of such care. Regulations may specify the classes of cases in which certification of continued necessity is required, may specify different periods for different classes of cases, and may permit retroactive certification under such circumstances and to such extent as the Board deems appropriate.

(f) Covered services do not include the services of a psychiatric or other hospital or a skilled nursing home, during a benefit period (as defined in regulations), after the third day following receipt by the institution and the patient of notice of a finding by a utilization review committee pursuant to section 51(e) that further stay in the hospital or further stay in the nursing home, as the case may be, is not medically necessary.

### PHARMACEUTICAL BENEFITS

SEC. 25. (a) The Board, with the approval of the Secretary, shall establish and disseminate (and review at least annually) (1) a list of drugs for use in participating institutions, health maintenance organizations, and professional foundations, and (2) a list (for use outside such institutions, organizations, and foundations) of diseases and conditions for the treatment of which drugs may be furnished as a covered service, and a specification of the drugs that may be so furnished for each disease or condition listed. Subject to the provisions of subsections (b) and (c), the furnishing of a drug to an eligible person is a covered service if it is furnished by or on prescription of a participating physician or dentists, or by or on prescription of a physician or dentist acting on behalf of a participating institutional or other provider.

(b) The list of drugs referred to in subsection (a)(1) shall be designed to provide physicians and dentists with an armamentarium necessary and sufficient for rational drug therapy incident to comprehensive medical services or incident to covered dental services. The furnishing of a drug on this list is a covered service if it is furnished to a person who is enrolled in a participating health maintenance organization or professional foundation, or is administered within a participating hospital to an inpatient or an outpatient, or is administered to an inpatient of a participating skilled nursing home operated by a participating hospital or having in effect an affiliation agreement in accordance with section 52(b).

(c) The list of diseases and conditions referred to in subsection (a) (2) shall include those chronic diseases and conditions for which drug therapy, because of its duration and cost, commonly imposes substantial financial hardship; and may include other diseases and conditions for which the Board finds costly drug therapy to be commonly required and effective. To assure proper utilization of drugs for specific diseases or conditions, the Board may require that the physician or dentist furnishing or prescribing a listed drug be a specialist qualified to diagnose and treat that disease or condition. The furnishing of a drug (although not to a person or under circumstances described in subsection (b) is a covered service if (1) the physician or dentist furnishing or prescribing it identifies the disease or condition for which it is furnshed or prescribed, and the disease or condition is one appearing on the Board's list, (2) the physician or dentist meets specialist qualifications, if any, required by the Board, and (3) the drug is specified on the Board's list as one available for treatment of the disease or condition identified by the physician or dentist.

(d) The Board shall not list a drug under this section unless (1) the Secretary has found that it is safe and efficacious for the purposes for which it is recommended and (on the list established under subsection (c)) for the treatment of each disease or condition for which it is specified on the list, and (2) the Board finds that it is available at a reasonable cost (considering, among other factors, the existence or absence of competition in the production, distribution, and sale of the drug). Drugs shall be listed by their established names (as defined in section 502(e) of the Federal Food, Drug, and Cosmetic Act) and also, to the extent the Board deems appropriate, by trade names.

(e) In reviewing and revising lists established under this section the Board shall take into consideration (1) current information about the safety and efficacy of listed drugs, and about their cost, (2) the results of review of drug utilization under this title, (3) experience bearing on the determination of what diseases and conditions meet the criteria stated in subsection (c), and (4) such other factors as the Board deems pertinent. Drugs shall be added to or eliminated from the lists as the Board finds best calculated to effectuate the purposes of this section.

### DEVICES, APPLIANCES, AND EQUIPMENT

SEC. 26. (a) The Board, with the approval of the Secretary, shall establish and disseminate (and review at least annually) lists of the therapeutic devices, appliances, and equipment (including eyeglasses, hearing aids, and prosthetic appliances), or classes thereof, which it finds are important for the maintenance or restoration of health or of employability or self-management. The Board shall take into consideration the efficacy, reliability, and cost of each item listed, and shall attach to any item such conditions as it deems appropriate with respect to the circumstances under which or the frequency with which the item may be prescribed. In establishing and revising lists under this section the Board shall seek to avoid a rate of expenditure for the furnishing of devices, appliances, and equipment in excess of 2 per centum of the rate of expenditure for all covered services.

(b) The furnishing of a device, appliance, or equipment prescribed by a participating physician or dentist, or by a physician or dentist on behalf of a participating institutional or other provider, is a covered service if the item appears on a current list established under subsection (a) and the prescription falls within any conditions attached, on the list, to the prescribing of that item. The furnishing of any other device, appliance, or equipment so prescribed is also a covered service if, in accordance with regulations, the furnishing of it has been approved in advance by the Board. Regulations under this section may list items or classes of items which, because of lack of efficacy or reliability or because of cost, the Board had determined may not be furnished as covered services.

### OTHER PROFESSIONAL AND SUPPORTING SERVICES

SEC. 27. (a) To the extent provided in regulations, the following are covered services:

(1) the professional services of optometrists;

(2) the professional services of podiatrists;

(3) the diagnostic services of independent pathology laboratories, and diagnostic and therapeutic radiology furnished by independent radiology services;

(4) the care of a patient in a mental health day care service (A) for not more than sixty full days (or its equivalent) during or following a benefit period (as defined in regulations), when furnished by a hospital or a service affiliated with a hospital, or (B) if furnished by a health maintenance organization or by a community mental health center or other mental health center which furnishes comprehensive mental health services; or (C) if furnished by a mental health day care service with which the Board has an agreement under section 49(a)(3); and

(5) ambulance and other emergency transportation services, and such nonemergency transportation services as the Board finds essential to overcome special difficulty of access to covered services.

(b) Supporting services (such as psychological, physiotherapy, nutrition, social work, or health education services) are covered services when they are furnished on behalf of an institutional provider or when, with the approval of the Board, they are furnished on behalf of a participating health maintenance organization or professional foundation, or of an organization, agency, or center with which the Board has an agreement under section 49(a) (1), (2), or (3); but only if the persons furnishing the supporting services are compensated on a salary, stipend, or capitation basis by the provider on whose behalf they are furnished.

### EXCLUSIONS FROM COVERED SERVICES

SEC. 28. (a) Health services furnished or paid for under a workmen's compensation law of the United States or a State, or legally required to be so furnished or paid for, are not covered services. Such services, if furnished by a participating provider to an eligible person, shall nevertheless be treated as covered services in accordance with this part unless and until a determination has been made pursuant to the workmen's compensation law that the services are covered by that law, and any resulting overpayment under this title shall, when payment is made under the workmen's compensation law, be recouped in the same manner as other overpayments.

(b) Health services furnished in a primary or secondary school are covered services only to such extent and on such conditions as may be specified in regulations.

(c) Surgery performed solely for cosmetic purposes (as defined in regulations), and hospital or other services incident thereto, are not covered services.

(d) The furnishing of a drug otherwise than in accordance with section 25 is not a covered service. The furnishing of a device, appliance, or equipment otherwise than in accordance with section 26 is not a covered service unless it is furnished, in accordance with section 22(a) or section 23(a), as an incident to professional services.

(e) The Board may by regulation exclude from covered services medical or surgical procedures (and services incident thereto) which it finds both (1) are essentially experimental in character, and (2) because of cost or because of shortage of qualified personnel or facilities cannot practicably be furnished on a nationwide basis.

(f) Except as provided in regulations, services are not covered services if (1) they are furnished by another provider to a person who has enrolled in a participating health maintenance organization or in a participating professional foundation, and are within the range of services which the organization or foundation has undertaken to furnish, or (2) they are primary physicians' services or covered dental services and are furnished by another provider to a person who has chosen to be on the list of a physician or a dentist electing to be paid by the capitation method. Regulations under this subsection shall permit termination of the enrollment referred to in clause (1), or of the choice referred to in clause (2), after the enrollment or choice has been in effect for twelve months, or at an earlier time for such reasons as may be specified in the regulations.

(g) The services of a professional practitioner are not covered services if they are furnished in a hospital which is not a participating provider, or are furnished to a psychiatric inpatient of an institution at a time when the institutional services to the patient are, by reason of section 24(d), not covered services.

### PART C—PARTICIPATING PROVIDERS OF SERVICES IN GENERAL; AGREEMENTS WITH THE BOARD

SEC. 41. A person, corporation, or other entity furnishing any covered service is a participating provider if he or it (a) is a qualified provider of that service, as determined in accordance with this part, and meets such requirements as are prescribed by or pursuant to part H (relating to the quality of care), (b) furnishes the service as an independent provider and not (as employee or otherwise) on behalf of another provider entitled under part E to payment for the service, and (c) has filed with the Board an agreement (1) that services to eligible persons will be furnished without discrimination on the ground of race, color, or national origin, (2) that no charge will be made for any covered service other than for payment authorized by this title, and (3) that the provider will furnish such information and reports as may be required under this title for the making of payments, or as the Board may reasonably require for utilization review by professional peers or for statistical or other studies of the operation of the title (including information and reports required for the purposes of the Commission on the Quality of Health Care), and will permit such examinations of records as may be necessary for verification of information on which payments are based. Participation of a provider may, however, be suspended or terminated pursuant to section 132 or section 134.

### PROFESSIONAL PRACTITIONERS

SEC. 42. (a) A physician, dentist, optometrist, or podiatrist, legally authorized on the effective date of health security benefits to practice his profession in a State, is a qualified provider of covered services within the State. A practitioner first so authorized by a State after the effective date is a qualified provider in that State if, in addition, he meets national standards established by the Board (taking into consideration the criteria applied by any recognized national testing organization) for the practitioner's profession. A practitioner who is a qualified provider in one State, if he meets the national standards, is also in any other State (in accordance with the provisions of section 56(a)(1)) a qualified provider of services (1) are covered services to persons entitled thereto under this title, and (2) are of a kind which such other State authorizes to be furnished by practitioners of his profession.

(b) For the purposes of this title—

(1) A doctor of osteopathy legally authorized to practice medicine and surgery in a State is a physician.

(2) A dentist qualified in accordance with subsection (a) is a physician when performing oral surgery or other procedures which, in accordance with generally accepted professional standards, may be performed by either a physician or a dentist.

### GENERAL HOSPITALS

SEC. 43. Subject to the provisions of section 53, a hospital (other than a psychiatric hospital) is a qualified provider if it is an institution which—

(a) is primarily engaged in providing to inpatients (other than mentally ill persons) diagnostic, therapeutic, and rehabilitation services, furnished by or under the supervision of physicians, for medical diagnosis, treatment, care, and rehabilitation of injured, disabled, or sick persons;

(b) maintains adequate clinical records on all patients;

(c) has bylaws in effect with respect to its staff of physicians, and has filed with the Board an agreement that in granting or maintaing medical staff privileges it will not discriminate on any ground unrelated to professional qualifications;

(d) has a requirement that every patient must be under the care of a physician;

(e) provides twenty-four-hour nursing service rendered or supervised by a registered professional nurse, and has a licensed practical nurse or registered professional nurse on duty at all times;

(f) has a pharmacy and drug therapeutics committee which establishes policies for the selection, acquisition, and utilization of drugs;

(g) has in effect a hospital utilization plan which meets the requirements of section 51; and

(h) meets all applicable requirements of the law of the State in which it is situated.

### PSYCHIATRIC HOSPITALS

SEC. 44. Subject to the provisions of section 53, a hospital which is primarily engaged in furnishing psychiatric services to inpatients who are mentally ill is a qualified provider if it (or a distinct part of it) is an institution—

(a) in which diagnostic, therapeutic, and rehabilitative services with respect to mental illness are furnished by or under the supervision of physicians;

(b) which satisfies the requirements of subsections (b) through (h) of section 43;

(c) which, on the basis of staffing and other factors it deems pertinent, the Board finds is qualified to furnish active treatment; and

(d) which maintains such records as the Board finds necessary to determine the degree and intensity of the treatment furnished.

### SKILLED NURSING HOMES

SEC. 45. Subject to the provisions of sections 52 and 53, a skilled nursing home is a qualified provider if it (or a distinct part of it) is an institution which—

(a) is primarily engaged in providing to inpatients (other than mentally ill persons) skilled nursing care and related services for patients who require medical and nursing services;

(b) has written policies, which are developed (and reviewed from time to time) with the advice of a group of professional personnel, including one or more physicians and one or more registered professional nurses, to govern the services it provides;

(c) has a medical staff, a physician, or a registered professional nurse responsible for the execution of such policies;

(d) unless it is operated by a participating hospital, operates under the supervision of an administrator licensed by the State in which the institution is situated;

(e) has a requirement that the health care of every patient be under the supervision of a physician, and provides for having a physician available to furnish necessary medical care in case of emergency;

(f) maintains adequate clinical records on all patients;

(g) provides twenty-four-hour nursing service sufficient to meet nursing needs in accordance with the policies developed as provided in subsection (b), and has at least one registered professional nurse employed full time;

(h) provides appropriate methods and procedures for the dispensing and administering of drugs;

(i) has in effect a utilization review plan which meets the requirements of section 51; and

(j) meets all applicable requirements of the law of the State in which it is situated and, unless the Board finds that such law provides equivalent protection, meets the provisions of the Life Safety Code of the National Fire Protection Association (other than any provision of the code authorizing waiver of its requirements) applicable to nursing homes.

### HOME HEALTH SERVICE AGENCIES

SEC. 46. Subject to the provisions of section 52, a home health service agency is a qualified provider if it is a public agency or a nonprofit private organization, or a subdivision of such an agency or organization, which—

(a) is primarily engaged in furnishing, on an intermittent and visiting basis in patients' homes, skilled nursing and other therapeutic services to patients (other than mentally ill persons) who are under the care of physicians;

(b) has written policies developed (and reviewed from time to time) by a group of professional personnel associated with the agency or organization, including one or more physicians and one or more registered professional nurses, to govern the services which it furnishes, and provides for supervision of such services by a physician or registered professional nurse;

(c) maintains adequate clinical records on all patients;

(d) meets all applicable requirements of the law of the State in which it furnishes services; and

(e) has written policies and procedures which provide for a systematic evaluation of its total program at appropirate intervals in order to assure the appropriate utilization of services.

### HEALTH MAINTENANCE ORGANIZATIONS

SEC. 47. (a) A health maintenance organization is a qualified provider if—

(1) it is a public or other nonprofit organization which furnishes health services to persons enrolled in the organization;

(2) it provides at least annually an open enrollment period of not less than thirty days, during which all eligible persons living within a defined service area (or living near enough thereto to have reasonably ready access to the services of the organization), up to the capacity of the organization to furnish services, are accepted for enrollment in the order in which they apply, except that priority may be given to persons living within the service area; and it does not terminate any enrollment because of the enrollee's health status or his need or demand for health services, or for any other reason except repeated and serious violation of reasonable rules of the organization;

(3) it undertakes to provide to its enrollees, at its expense and in accordance with paragraphs (4) and (5), all of the covered services described in part B, including such supporting services as the Board may have approved under section 27(b); except that it may exclude some or all mental health services or dental services if it assures referral of its enrollees to providers of such excluded services when medically appropriate and maintains arrangements with such providers for the availability of the services to its enrollees;

(4) all physician services, and dental services if the organization undertakes to provide them, are (except for infrequently used services) furnished by a medical group which meets the following conditions, or by two or more groups each of which meets such conditions—

(A) the group consists of physicians, or of physicians and dentists, with or without other professional health personnel, sufficient in number and possessing among them the necessary qualifications to furnish all covered physicians services and the dental service (if any) which the health maintenance organization undertakes to provide (except infrequently used services); and

(B) the members of the group (i) as their principal professional activity practice their profession as a group responsibility in furnishing services to enrollees of the health maintenance organization, (ii) pool their income from practice as such members (unless they are compensated by salary or stipend paid by the health maintenance organization) and distribute it among themselves in accordance with a prearranged salary, percentage, or similar plan, and (iii) jointly use medical and other records, a substantial part of their major equipment, and the services of professional, technical, and administrative staff (including personnel furnishing supporting services approved under section 27(b));

(5) all services, other than physician services and dental services, which the organization undertakes to provide (except infrequently used services) are furnished through its own staff and facilities (or are furnished by others under contract, if the organization retains control of, and full responsibility for, the availability and quality of the services); except that institutional services may be provided through arrangements with other participating providers (either nonprofit or for-profit) for the availability of services;

(6) the organization encourages health education of its enrollees (including education in the appropriate use of health services) and the development and use of preventive health services, and furnishes and arranges services and (to the extent practicable) arranges its system of medical records in such manner as to facilitate continuity of care, and to the maximum extent feasible makes all services (including emergency services at all times) readily accessible to enrollees who live in its service area;

(7) it makes available to its enrollees and to the public full information about the services it provides and their availability, and such other information about its operations and the utilization of services as the Board may by regulation require;

(8) it provides an opportunity for representatives of its enrollees to participate effectively in the formulation of policies of the organization and in the evaluation of its operation, and provides fair and effective procedures for resolving disputes between enrollees and the organization or providers with whom it has contracted or has arrangements for the furnishing of service;

(9) it provides that a committee or committees of physicians (with other health professionals where appropriate) associated with the organization promulgate professional standards, oversee the professional aspects of the delivery of care, perform the functions of a pharmacy and drug therapeutics committee, and monitor and review the utilization and quality of all health services (including drugs);

(10) to the extent practicable and consistent with good medical practice, it employs allied health personnel and subprofessional and lay personnel in the furnishing of services;

(11) it assumes the financial responsibility, without benefit of insurance except in accordance with section 87(e), for assuring to its enrollees the services which it has undertaken to provide;

(12) its premiums or other charges for any services not paid for under this title are reasonable; and

(13) it undertakes, to the extent required by regulations with respect to services of the kinds it has undertaken to provide, to arrange for reciprocal out-of-area services by other health maintenance organizations, or to pay for health services furnished to its enrollees by other participating providers, in emergencies, within or outside the service area of the organization.

(b) A health maintenance organization, or with its approval a professional practitioner who furnishes services on its behalf, may furnish services to persons who are not enrolled in the organization. Payment for such services, if they are covered services to eligible persons, shall be made by one of the methods provided in part E for payment to independent practitioners, and shall be made to the organization unless the organization requests that it be made to the practitioner who furnishes the services and he is a participating provider.

### PROFESSIONAL FOUNDATIONS

SEC. 48. (a) A professional foundation is a qualified provider if—

(1) it is an organization sponsored by a county or other local medical society, with a service area coextensive with the area of its sponsoring society, which meets the conditions set forth in section 47(a) (relating to health maintenance organizations) other than paragraph (4) thereof;

(2) all physician services, and dental services if the foundation undertakes to furnish them, are (except for infrequently used services) furnished by professional members of the foundation, who are compensated by whatever method or methods (including fee-for-service) may be agreed upon by the foundation and its professional members; and

(3) the foundation permits any physician (or dentist, if the foundation undertakes to furnish dental services) practicing in its service area, whether or not a member of the sponsoring society, subject only to criteria (approved by the Board) of professional qualifications, to become a professional member of the foundation and to furnish services on its behalf.

(b) A professional member of a foundation, unless he has agreed otherwise with the foundation, may furnish services to persons who are not enrolled in the foundation, and payment for the services, if they are covered services to an eligible person, shall be made by one of the methods provided in part E for payment to independent practitioners. The payment shall be made to the professional member if he is a participating provider, except that if he is compensated by the foundation for services to enrollees on a salary, stipend, or capitation basis the payment shall be made to the foundation.

### OTHER HEALTH SERVICE ORGANIZATIONS

SEC. 49. (a) Pursuant to an agreement with the Board containing such terms and conditions as the Board deems proper, any of the following is a qualified provider of such services as are specified in the agreement—

(1) a public or other nonprofit agency or organization (including a hospital) which furnishes all of the covered services described in part B, including such supporting services as the Board may have approved under section 27(b), except that it may exclude some or all institutional services, mental health services, or dental services if it assures referral of its patients to providers of such services when medically appropriate and maintains arrangements with such providers for the availability of the services to its patients;

(2) a public or other nonprofit center (including a satellite center established by a hospital) which (A) furnishes, as a minimum, the services of two or more physicians engaged in general or family practice, the services of nurses and supporting personnel, and basic laboratory services, which the Board finds sufficient for the primary medical care of a substantial population living in the vicinity of the center, and (B) has arrangements with other providers of services which the Board finds assure to the population served by the center, on a coordinated basis, all components of the covered health services described in part B;

(3) a public or other nonprofit mental health center or mental health day care service;

(4) a State or local public health agency furnishing preventive or diagnostic services, or a public agency furnishing covered health services in a primary or secondary school in accordance with regulations issued under section 28(b); or

(5) a medical or dental group practice or clinic, a dental foundation, a center for the treatment and rehabilitation of alcoholic or drug addicts, or another organization or agency furnishing health services to ambulatory patients.

(b) An agreement under this section shall not, except to the extent that it specifically so provides, preclude a professional practitioner who furnishes services on behalf of the provider from furnishing also, either on behalf of the provider or as a participating independent practitioner, services which are of a kind not within the scope of the agreement or are furnished to persons not within its scope. Unless the agreement provides that payment for covered services furnished to eligible persons shall be made to the provider who has entered into the agreement, payment shall be made to the practitioner by one of the methods provided in part E for payment to independent practitioners.

### OTHER PROVIDERS

SEC. 50. (a) An independent pathology laboratory (as defined in regulations) is a qualified provider of diagnostic pathology services if (whether or not it is engaged in transactions in interstate commerce) it meets the requirements established by or pursuant to section 353 of the Public Health Service Act. An independent radiology service (as defined in regulations) is a qualified provider of diagnostic and therapeutic radiology if it meets all applicable requirements of the law of the State in which the services are furnished.

(b) A provider of drugs, devices, appliances, or equipment is a qualified provider if he meets all applicable requirements established by or pursuant to the Federal Food, Drug, and Cosmetic Act and all requirements of the law of the State in which the provider is situated.

(c) A provider of ambulance or other covered transportation services is a qualified provider if he meets all applicable requirements of the law of the State in which the services are furnished.

(d) A Christian Science sanatorium is a qualified provider of services specified in regulations prescribed under section 24(a) if it is operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Massachusetts.

### UTILIZATION REVIEW

SEC. 51. A utilization review plan of a psychiatric or other hospital or a skilled nursing home shall be considered sufficient if it provides—

(a) for the periodic review on a sample or other basis (and the maintenance of adequate records of such review) of admissions to the institution, the duration of stays, and the professional services (including drugs) furnished, (1) with respect to the medical necessity of the services, and (2) for the purpose of promoting the most efficient use of available health facilities and services; and provides for periodic reports, to the institution and the medical staff (and, when requested, to the Board), of statistical summaries of the review;

(b) in the case of a psychiatric or other hospital, for such review to be made either (1) by a staff committee of the hospital composed of two or more physicians (consulting, with respect to drug utilization, with the pharmacy and drug therapeutics committee), with or without participation of other professional personnel, or (2) by a group outside the hospital which is similarly composed and which, if practicable, is established by the local medical society and hospitals in the locality, or is established in such other manner as may be approved by the Board; but clause (1) of this subsection shall be inapplicable to any hospital where, because of its small size or for such other reason as may be specified in regulations, it is impracticable for the hospital to have a properly functioning staff committee for the purposes of this section;

(c) in the case of a skilled nursing home, for such review to be made by a committee, composed and established as provided in subsection (b), or by a committee so composed which is established by the State or local public health agency pursuant to a contract with the Board, or by the Board; except that if a consolidated budget has been approved for the nursing home and a hospital, under section 83(f), the review shall be made by the utilization review committee of the hospital;

(d) for such review, in each case of inpatient hospital services or skilled nursing home services furnished to a patient during a continuous period of extended duration, as of such days of such period (which may differ for different classes of cases) as may be specified in regulations, with such review to be made as promptly as possible after each day so specified, and in no event later than one week following such day; and

(e) for prompt notification to the institution, the patient, and his attending physician of any finding (made after opportunity for consultation afforded to such attending physician) by the physician members of such committee or group that any admission, further stay, or furnishing of particular services in the institution is not medically necessary.

### TRANSFER AND AFFILIATION AGREEMENTS

SEC. 52. (a) A skilled nursing home is a qualified provider only if it has in effect (or there is in effect a finding under subsection (c) temporarily dispensing with) a transfer agreement with at least one participating hospital, providing for the transfer of patients and of medical and other information between the institutions as medically appropriate.

(b) After two years following the effective date of health benefits, a skilled nursing home or a home health service agency will be a qualified provider only if it has in effect (or there is in effect a finding under subsection (c) temporarily dispensing with) an affiliation agreement with a participating hospital or a participating health maintenance organization, under which the medical staff of the hospital or organization (or a committee thereof) will furnish, or will assume responsibility for, the professional services in the skilled nursing home, or the professional services furnished by the home health agency, as the case may be.

(c) The requirement of a transfer agreement under subsection (a), or of an affiliation agreement under subsection (b), shall not be applicable in any case if there is in effect a finding by the Board that the lack of a suitable hospital or organization within a reasonable distance makes such an agreement impracticable, and that the services of the skilled nursing home or the home health agency are essential to avoid a critical shortage of services to eligible persons. Such a finding shall be reviewed periodically, and shall be revoked whenever the Board finds it practicable to do so.

### NEWLY CONSTRUCTED FACILITIES

SEC. 53. A psychiatric or other hospital or a skilled nursing home, or a provider operating a facility for ambulatory care, is not a participating provider if construction or substantial enlargement of the facility (whether or not in replacement of another facility) was undertaken (as defined in regulations) after December 31 of the year in which this title is enacted unless (a) the construction or enlargement has been found by a State agency designated by the Governor of the State for this purpose, or has been found by the Board, to be needed for the furnishing of adequate services to persons residing in the area to be served by the institution, or (b) in the case of enlargement of an existing facility, the Board has found (regardless of the need for the enlargement) that the facility is needed for that purpose. (For provision relating to reduction in payments in certain cases referred to in clause (b), see section 89.)

### LIMITATION ON MALPRACTICE JUDGMENTS

SEC. 54. In any litigation in any court of the United States or any State seeking damages for injury caused by negligence or other fault in the furnishing of any service covered by this Act, no damages shall be awarded to the injured party for the cost of remedial services which he was or is entitled to receive under this Act (or which he would have been, or would be, entitled to receive upon seeking them from a participating provider).

### EXCLUSION: FEDERAL PROVIDES OF SERVICES

SEC. 55. No institution of the Department of Defense, no institution of the Veterans' Administration, no institution of the Department of Health, Education, and Welfare engaged in the provision of services to merchant seamen or to Indians or Alaskan natives, and no employee of any of the foregoing acting as employee, is a participating provider. The Board shall, however, reimburse the proper appropriation for any covered services furnished by any such institution or employee to an eligible person who is not, under any Act other than this Act, eligible to receive the service from the institution or employee. The Board shall also reimburse the proper appropriation for any covered services furnished to eligible persons pursuant to section 329 of the Public Health Service Act, such reimbursement to be in lieu of payments required by section 329(b) of that Act.

### RESTRICTIVE STATE LAWS INOPERATIVE

SEC. 56. (a) In the furnishing of covered services to eligible persons (any law of a State or political subdivision to the contrary notwithstanding)—

(1) A physician, dentist, optometrist, or podiatrist who is legally authorized by a State to practice his profession and who meets national standards established by the Board pursuant to section 42(a) is hereby authorized to furnish in any other State, either as an independent participating provider or on behalf of an institutional or other participating provider, the services which such other State authorizes to be furnished by practitioners of his profession.

(2) A professional nurse, or a practitioner of another health profession or occupation designated in regulations, who meets national standards established by the Board for his profession or occupation is hereby authorized to furnish in any State, on behalf of participating providers of services, the services which that State authorizes or permits to be furnished by practitioners of his profession or occupation. National standards applicable to professional nursing, or to any other profession or occupation the practice of which is subject in all States to licensure or similar authorization, shall contain a requirement of licensure or authorization by at least one State.

(3) In a participating public or other nonprofit hospital or a participating health maintenance organization, a practitioner of any health profession other than medicine or dentistry or of any nonprofessional health occupation who meets national standards established by the Board for his profession or occupation, and meets any additional qualifications established by the Board for the performance of particular acts or procedures, is hereby authorized to perform, under the supevision and responsibility of a physician or dentist, such of the acts which might lawfully be performed by the physician or dentist as are specified in regulations.

(4) A participating public or other nonprofit hospital or a participating health maintenace organization is hereby authorized (whether or not the arrangement may be deemed to constitute corporate practice of a profession) to employ physicians, dentists, or other professional practitioners, or to obtain and compensate their services in any other manner, and the practitioners are authorized to serve such a hospital or organization as employees or in any other manner; but only if the employment or other arrangement is not of a kind which the Board finds is likely to cause lay interference with professional acts or professional judgments.

(b) If the Board finds that a proposed corporation will meet the requirements of section 47(a) for participation as a health maintenance organization, but that it cannot be incorporated in the State in which it proposes to furnish services because the State law requires that a medical society approve the incorporation of such an organization, or requires that physicians constitute all or a majority of its governing board, or requires that all physicians in the locality be permitted to participate in the services of the organization, or makes any other requirements which the Board finds incompatible with the purposes of this title, the Board may issue a certificate of incorporation to the organization, and it shall thereupon become a body corporate. The powers of the corporation shall be limited to the furnishing of services under this title, and the doing of things reasonably necessary or incident thereto. So far as the Board finds to be compatible with the purposes of this title, the certificate of incorporation shall accord with, and the corporation shall be subject to, provisions of the State law which are applicable to nonprofit corporations generally. The corporation shall not be deemed to be an instrumentality of the United States for purposes of exemption from any Federal or State law.

## PART D—TRUST FUND; ALLOCATION OF FUNDS FOR SERVICES

### HEALTH SECURITY TRUST FUND

SEC. 61. (For the text of section 61, see section 406, transferring section 1817 of the Social Security Act to this Act, redesignating it as section 61, and amending it.)

### ANNUAL DETERMINATION OF FUND AVAILABILITY

SEC. 62. (a) For each fiscal year the Board shall, not later than March 1 next preceding the beginning of the fiscal year, fix the maximum amount which may (except as provided in subsection (c)) be obligated during the fiscal year for expenditure from the Trust Fund. The amount so fixed—

(1) shall not exceed 200 per centum of the expected net receipts during the fiscal year (as estimated by the Secretary of the Treasury) from the taxes imposed by sections 1401 (b), 1403, 3101(b), and 3111(b) of the Internal Revenue Code of 1954, and

(2) for any fiscal year except the fiscal year beginning on the effective date of health benefits, shall not exceed the aggregate obligations, as estimated by the Board, incurred and to be incurred by the Trust Fund during the fiscal year current at the time when the determination is made, adjusted to re-

flect (A) any estimated change expected in the prices of goods and services which enter into the cost of living, (B) the expected change in the number of eligible persons, (C) any expected change (to the extent that the Board finds it not otherwise adequately reflected) in the number of participating professional providers, or in the number or capacity for the provision of services of institutional or other participating providers, and (D) any change in the cost of administration of this Act indicated in the President's budget estimates pursuant to section 201(g) of the Social Security Act.

(b) In fixing the amount to be available for obligation during a fiscal year, pursuant to subsection (a)—

(1) if and to the extent that (A) the Board estimates that the amount in the Trust Fund at the beginning of the fiscal year will be less than one-quarter of the obligations incurred and to be incurred during the fiscal year current at the time when the determination is made, and (B) the Board finds that restriction of the amount to be available for obligation will not materially impair the adequacy or quality of services to eligible persons, the amount fixed under subsection (a) shall be less than the maximum stated in paragraph (1) of that subsection; and

(2) if and to the extent that the Board finds that improvement in the organization and delivery of services or in the control of their utilization has lessened their aggregate cost (or has lessened an increase in their aggregate cost), the amount fixed under subsection (a) shall be less than the maximum stated in paragraph (2) of that subsection.

(c) The amount to be available for obligation during a fiscal year, fixed pursuant to subsection (a), may be modified before or during the fiscal year if the Secretary of the Treasury finds that the tax receipts referred to in subsection (a)(1) will differ from the estimate by 1 per centum or more, or if the Board finds that any of the factors of expected change referred to in subsection (a)(2), or action on the budget estimate for the cost of administration, will differ from the estimate by 5 per centum or more; or if an epidemic, disaster, or other occurrence increases the need for health services to an extent which the Board finds requires the expenditure of additional funds. If the amount fixed pursuant to subsection (a) is increased, the Board, through the Secretary, shall promptly report its action to the Congress with a statement of the reasons therefor.

### HEALTH SERVICES ACCOUNT, HEALTH RESOURCES DEVELOPMENT ACCOUNT, ADMINISTRATION ACCOUNT, AND GENERAL ACCOUNT

SEC. 63. (a) There shall be established in the Trust Fund a health services account, a health resources development account, an administration account, and a general account (consisting of all moneys in the Trust Fund which have not been transferred to another account).

(b) For each fiscal year there shall from time to time be transferred from the general account to the health resources development account the following percentage of the amount to be available for obligation during that year (as determined pursuant to section 62(a) and (b)): for the fiscal year beginning on the effective date of health benefits, and for the next succeeding fiscal year, 2 per centum; for each of the next two succeeding fiscal years, 3 per centum; for each of the next two succeeding fiscal years, 4 per centum; and for each fiscal year thereafter, 5 per centum. Funds in the health resources development account shall be used exclusively for the purposes of part F, and shall remain available for such uses until expended.

(c) The remainder of the amount to be available for obligation during a fiscal year, after deducting the amount of the President's budget estimates for the cost of administering this Act, shall from time to time be transferred from the general account to the health services account. Funds in the health services account shall be used exclusively for making payments for covered services in accordance with part E, and shall remain available for such payments until expended.

(d) As amounts available for a fiscal year for the administration of this Act are determined by the Congress, the amount available for the administration of the title shall be transferred from the general account to the administration account.

(e) From time to time any necessary adjustments shall be made in the amounts transferred to the several accounts, and in allocations previously made from the health services account.

### REGIONAL ALLOCATIONS FROM HEALTH SERVICES ACCOUNT

SEC. 64. (a) For each fiscal year the Board shall, not later than March 1 next preceding the beginning of the fiscal year, make allocations to the regions of the Department from the funds to be available for the fiscal year in the health services account. The allocation to each region shall be equal to the estimated aggregate expenditures in the region for services, described in part B as covered services, in the most recent twelve-month period for which reliable data are available, adjusted to reflect the factors of change referred to in clauses (A), (B), and (C), of section 62(a)(2), and further adjusted in accordance with subsections (b) and (c) of this section.

(b) It shall be the objective of the Board to reduce gradually, and ultimately to eliminate substantially, existing differences among the regions of the Department in the average per capita cost to health services, except as such differences reflect differences in the prices of goods and services which enter into the cost of living for people in the several regions. To this end the Board shall modify the allocations for each fiscal year determined under subsection (a) in order (1) to reduce, or to lessen any increase in, the cost of covered services in regions in which the average per capita cost is higher (to an extent greater than the difference in the estimated weighted average cost of goods and services) than the national average per capita cost, to such extent as the Board finds practicable without impairing materially the adequacy or quality of services to eligible persons, and (2) to stimulate, to such extent as the Board finds practicable and desirable, increases in the availability and utilization of covered services in regions in which the average per capita cost is lower (to an extent greater than the difference in the estimated weighted average cost of goods and services) than the national average per capita cost. In modifying allocations to the regions, the Board shall take account of regional differences in the composition of pouulations, in the prevalence and incidence of morbidity indicating need for covered services, in the available and needed resources in personnel or facilities for provision of covered services, in the costs of providing covered services, and in such other factors as the Board may deem pertinent, to the extent that such regional differences are not reflected in allocations under subsection (a) and have not already been taken into account, under this subsection, in modifying these allocations.

(c) The Board shall withhold from allocation to the regions a reserve for contingencies, in an amount not more than 5 per centum of the funds to be available for the fiscal year in the health services account. If the remaining amount to be available for the fiscal year in the account is less than the sum of the regional allocations determined pursuant to subsections (a) and (b), the allocations shall be reduced proportionately.

(d) Allocations under this section may be modified before or during a fiscal year if the amount to be available for obligation is modified pursuant to section 62(c). The contingency reserve shall be available to increase one or more regional allocations, as the Board may find necessary. From the contingency reserve, or from additional funds in the general account made available for obligation, one or more allocations may also be increased if an epidemic, disaster, or other occurrence increases the need for health services to an extent which the Board finds requires the expenditure of additional funds.

### DIVISION OF REGIONAL FUNDS BY CLASSES OF SERVICES

SEC. 65. (a) For each fiscal year the Board shall, not later than April 1 next preceding the beginning of the fiscal year, divide the allocation to each region into funds to be available, respectively, to pay the cost within the region of the following classes of services: (1) institutional services, (2) physician services, (3) dental services, (4) the furnishing of drugs, (5) the furnishing of devices, appliances, and equipment, and (6) other professional and miscellaneous services.

(b) The content, for purposes of the division of funds, of each class of services shall be defined in regulations. Within the funds to be available for miscellaneous services, the regulations shall establish subfunds, respectively, for the making of incentive payments not otherwise provided for, for supporting services described in section 27(b), for payments to optometrists, for payments to podiatrists, for payments to independent pathology laboratories, for payments to independent radiology services, and for such other purposes as the Board may determine.

(c) The amounts assigned to the several funds and sub-funds in each region shall be determined in accordance with regulations, which shall take into account, in addition to the factors considered in making the regional allocations, trends in utilization of the several services and, to the extent the Board finds it practicable, the creation of incentives to the improved utilization thereof.

### FUNDS FOR HEALTH SERVICE AREAS

SEC. 66. (a) For each fiscal year the Board shall, not later than April 1 next preceding the beginning of the fiscal year, allot among the health service areas established in each region under section 124(a), each of the funds established for the region pursuant to section 65 for a class of services. If an interstate health service area lies partly in each of two or more regions, appropriate allotments of funds from each region shall be made to it.

(b) The amount allotted to each health service area from each regional fund shall be equal to the aggregate expenditures in the area for services of the class for which the fund is to be available, as determined (or if necessary, estimated) by the Board for such twelve-month period as may be specified in regulations; modified to take account of the factors considered in making regional allocations and in dividing such allocations by classes of services (including modifications designed to further the objective of equalization within each region, in the manner set forth in section 64(b) with respect to interregional equalization).

(c) Payment for services, in accordance with part E, shall be made to participating providers in each health service area by such officer of the Board as it may designate for the purpose. There shall be established for each area such accounts as the Board may find convenient for making payment to providers of more than one class of services (such as an account for payment to hospitals, or an account for payment to health maintenance organizations), in which shall be deposited the appropriate portions of the funds for the several classes of services to be furnished by such providers.

### MODIFICATION OF FUND ALLOTMENTS

SEC. 67. Before or during a fiscal year the division of funds by classes of services pursuant to section 65, or the allotment of funds to health service areas pursuant to section 66, may be modified if the regional allocations are modified, or if the Board finds that modification is required by events occurring or information acquired after the division and allotment were made.

## PART E—PAYMENT TO PROVIDERS OF SERVICES IN GENERAL

SEC. 81. Payment shall be made to participating providers, in accordance with this part, for covered services furnished to eligible persons. Payments shall be made from the amounts allocated from the health services account in the Trust Fund, in accordance with part D, for the respective areas and purposes.

### METHODS AND AMOUNT OF PAYMENT TO PROFESSIONAL PRACTITIONERS

SEC. 82. (a) Every independent professional practitioner shall be entitled, at his election, to be paid by the fee-for-service method, consisting of the payment of a fee for each separate covered service.

(b) Every physician engaged as an independent practitioner in the general or family practice of medicine (as determined in accordance with regulations under section 22(b)), and every dentist engaged as an independent practitioner in the furnishing of covered dental services, shall be entitled, at his election, to be paid by the capitation method if he has filed with the Board an agreement (1) to furnish all necessary and appropriate primary medical services (as defined in such regulations) or covered dental services, as the case may be, to persons on a list of persons who have chosen to receive all such services from the practitioner, (2) to maintain arrangements for referral of patients to specialists, institutions, and other providers of covered services, and (3) to maintain such records and make such reports of services furnished as may be required by regulations for purposes of medical audit. A practitioner electing the capitation method is entitled to be paid by the fee-for-service method for services furnished to eligible persons who are not on his list, but not (except as provided in regulations) for specialized services furnished to persons who are on his list.

(c) When the Board deems it necessary in order to assure the availability of services or for other reasons, the Board (1) may pay an independent practitioner a full-time or part-time stipend in lieu of or as a supplement to the foregoing methods of compensation, and it may reimburse a practitioner for special costs of continuing professional education and of maintaining linkages with other providers of services (such as costs of communication and of attendance at meetings or consultations), and (2) may pay for specialized medical services a stated amount per session or per case or may utilize a combination of the methods authorized by this section.

(d) The capitation method of payment for a specified kind and scope of covered services consists of the payment to a provider of such services, of an annual capitation amount (determined for a health service area) for each person who has chosen to receive all such services from the provider.

(e) The amounts allotted for a fiscal year pursuant to part D for each health service area for physician services, for dental services, for optometrist services, and for podiatrist services, respectively, shall each be used (1) to provide for payments for professional services (made either directly to practitioners or as reimbursement to hospitals or other providers for the compensation of practitioners) to be made by the Board on a budget or stipend basis or any basis other than capitation, fee-for-service, or per case, and (2) from the remainder, to make available (for each kind of professional services) an equal per capita amount for each person resident in the area who is entitled to such services. In any area in which the Board finds that a substantial volume of services is furnished to nonresidents, it may reduce the per capita amount to such extent as it finds necessary to effect an equitable distribution of funds.

(f) The per capita amount shall constitute the annual capitation amount for purposes of payment to any organization, professional foundation, or other provider furnishing all covered services (described in part B) of the kind for which the allotment is available. Lesser capitation amounts shall be fixed, on the basis of the relative cost of the services, for primary medical services, and, as may be required, for any scope of services (less than comprehensive) which is furnished by any institutional or other provider. If the Board finds that the population served by a provider requires on the average, because of age distribution or other factor, a volume of services significantly greater or smaller than the average requirement of the population of the local health service area, the Board may, after consultation with the provider, make an appropriate adjustment in the capitation amount payable to him.

(g) For the compensation of professional practitioners who are to be paid by the Board (directly or through a delegation under this subsection) on a fee-for-service or per case basis, there shall be available—

(1) the per capita amount determined under subsection (e), multiplied by the number of residents of the health service area for whom no capitation payment (for services of the kind for which the allotment is available) is to be made under subsection (f),

(2) increased to reflect any excess resulting from a lowering of the per capita amount under subsection (e) on account of services furnished to nonresidents, or from the fixing of lesser capitation amounts under subsection (f) for services less than comprehensive, and

(3) increased or reduced to reflect adjustments under subsection (f), on the ground of age distribution or other factor, in capitation amounts payable to other providers.

The amount of payments under this subsection shall be determined in accordance with relative value scales prescribed by the Board after consultation with representatives of the respective professions in the region, State, or area, and in accordance with unit values prescribed by the Board from time to time. The Board may, on such terms as it deems appropriate, delegate to a professional society or to an agency designated by representatives of a profession in the region, State, or area the payment of fees and per session amounts under this subsection.

(h) The Board may, on an experimental or demonstration basis, enter into an agreement with a statewide or local professional society or other organization representative of independent professional practitioners to substitute another method of compensation for those set forth in this section (either for all such practitioners, for all who have elected the fee-for-service method of payments, or for all who have elected another method), if the Board is satisfied that the substitute method will not increase the cost of services and will not encourage overutilization or underutilization of covered services. The Board shall review from time to time the operation of such an agreement, and shall, after reasonable notice, terminate it if the Board finds it to have led to increased cost or to overutilization or underutilization of covered services.

### PAYMENT TO GENERAL HOSPITALS

SEC. 83. (a) A participating hospital (other than a psychiatric hospital) shall be paid its approved operating costs, determined in accordance with regulations, in the furnishing of covered services to eligible persons, as such approved costs for a fiscal year are set forth in a prospective budget approved by the Board. Regulations under this section shall specify the method or methods to be used, and the items to be included, in determining costs, and shall prescribe a nationally uniform system of cost accounting.

(b) The costs recognized in each hospital budget shall be those, determined in accordance with subsection (a), to be incurred in furnishing the covered services ordinarily furnised by the hospital to inpatients or outpatients, and in performing any other function ordinarily performed by the hospital and ordinarily financed from payments by or on behalf of patients (including the clinical aspects of education or training of professional or other health personnel), except as the scope of services or of other functions may be modified (1) by agreement of the Board and the hospital, (2) by application of guidelines for the clinical education or training of health personnel established pursuant to section 131 for the region or State in which the hospital is situated, or (3) by direction of the Board pursuant to section 134. The budget shall recognize any increase or decrease of cost resulting from a modification of the scope of services or of other functions, either by agreement or by direction of the Board.

(c) The costs recognized in the budget shall include the cost of reasonable compensation to (and other costs incident to the services of) pathologists, radiologists, and other physicians and other professional or nonprofessional personnel whose services are held out as generally available to patients of the hospital or to classes of its patients, whatever the method of compensation of such physicians and other personnel, and whether or not they are employees of the hospital.

(d) The Board shall review, through such of its officers or employees or through such boards, and in such manner, as may be provided in regulations, proposed budgets prepared and submitted to it by hospitals, and may provide for participation in such review by representatives of the hospitals in the region or health service area in which the hospital is situated. Each officer of the Board charged with final action on hospital budgets shall receive and consider written justifications of budget proposals, and may provide oral hearings thereon.

(e) A hospital budget approved under this section for a fiscal year may, in such manner as is provided in regulations, be amended before, during, or after the fiscal year if there is a substantial change in any of the factors relevant to budget approval.

(f) If a hospital (other than a psychiatric hospital) operates or has an affiliation agreement (described in section 52(b)) with a participating skilled nursing home, and also operates or has an agreement with a participating home health service agency, the Board may, on request of the institution or institutions and in accordance with regulations designed to reflect the cost of a combined operation, approve a consolidated budget and make all payments thereunder to the hospital.

### PAYMENT TO PSYCHIATRIC HOSPITALS

SEC. 84. A participating psychiatric hospital which is primarily engaged in furnishing covered services shall be paid in the same manner as other hospitals. Any other participating psychiatric hospital shall be paid an amount determined in accordance with regulations for each patient day of covered services to an eligible person. Such regulations shall take into account, with respect to any distinct part of the hospital which meets the requirements of section 44, the factors to be considered in the approval of the budgets of hospitals other than psychiatric hospitals, but with such adjustments as are necesary to provide equitable compensation to the psychiatric hospital.

PAYMENT TO SKILLED NURSING HOMES AND TO HOME HEALTH SERVICE AGENCIES

SEC. 85. (a) A participating skilled nursing home or home health service agency shall be paid, in the same manner as a hospital (other than a psychiatric hospital), except as provided in subsection (b) of this section, its approved operating costs in the furnishing to eligible persons of skilled nursing home services or home health services, as the case may be.

(b) Regulations under this section shall, for skilled nursing homes and for home health service agencies, respectively, specify the method or methods to be used, and the items to be included, in determining costs; may, to the extent the Board deems desirable, specify nationally uniform systems of cost accounting; and, taking into account the prevailing practices of such homes or such agencies, may specify services which will be recognized in budgets and services which will not be so recognized.

PAYMENT FOR DRUGS

SEC. 86. (a) For each drug appearing on either of the lists established pursuant to section 25, the Board shall from time to time determine a product price or prices which shall constitute the maximum to be recognized under this title as the cost of the drug to a provider thereof. Product prices shall be so fixed as to encourage the acquisition of drugs in substantial quantities, and differing product prices for a single drug may be established only to reflect regional differences in cost or other factors not related to the quantity purchased.

(b) Payment for a drug furnished by an independent pharmacy shall consist of its cost to the pharmacy (not in excess of the applicable product price) plus a dispensing fee. The Board, after consultation with representatives of the pharmaceutical profession, shall establish (and from time to time review and revise) schedules of dispensing fees, designed to afford reasonable compensation to independent pharmacies after taking into account variations in their cost of operation resulting from regional differences, differences in the volume of drugs dispensed, differences in services provided, and other factors which the Board finds relevant.

PAYMENT TO HEALTH MAINTENANCE ORGANIZATIONS AND PROFESSIONAL FOUNDATIONS

SEC. 87. (a) Payment to a health maintenance organization or to a professional foundation for covered services to its eligible enrollees shall consist of basic capitation payments plus additional payments (if any) determined in accordance with subsection (d).

(b) The basic capitation payment shall consist of a basic capitation amount multiplied by the number of eligible persons enrolled in the organization or foundation. The basic capitation amount shall be the sum of the appropriate capitation amount or amounts for professional services (determined under section 82(f) and a capitation amount fixed by the Board, on the basis of the average reasonable necessary cost per enrollee of the organization or foundation, for each other service or class of services which it has undertaken to furnish.

(c) Capitation amounts for institutional services shall be based on per diem rates derived from the budgets (approved under this part) of participating institutional providers or, if the services are furnished through institutions operated by the health maintenance organization or professional foundation (or are furnished by contract with institutions which are not participating providers), derived from budgets prepared and approved in like manner as for participating institutions. Per diem rates shall be determined for each fiscal year, and for that year shall be modified only if the institutional budgets are amended or if modification is necessary to avoid substantial inequities.

(d) If it appears to the satisfaction of the Board (1) that the average utilization of hospital and skilled nursing home services by eligible persons enrolled in the organization or foundation (in whatever manner such services are provided) has, during a fiscal year, been less than the average utilization of such services under comparable circumstances by comparable population groups not enrolled either in health maintenance organizations or in professional foundations, and (2) that the services provided by the organization or foundation have been of high quality and adequate to the needs of its enrollees, the Board shall make an additional payment to the organization or foundation equal to 75 per centum of the amount which the Board finds has been saved by such lesser utilization of hospital and skilled nursing home services. The amount of any such additional payment may be used by the organization or foundation for any of its purposes, including the application of such amounts to the cost of services not covered by this title.

(e) The Board may by regulation provide to health maintenance organizations and professional foundations, in consideration of premiums to be deducted from amounts otherwise payable to them under this section, insurance (1) against the cost, in excess of an amount fixed by the Board (which shall be not less than $5,000), of services furnished during a calendar year to any one enrollee, or (2) against some or all of the cost, for which the organization or foundation is responsible in accordance with section 47(a)(13), of services furnished by other providers to enrollees of the organization or foundation.

(f) In addition to the payments required by this section, the Board may pay to a health maintenance organization the cost of clinical education or training provided by the organization (otherwise than in a hospital) which the Board finds to be in accordance with guidelines established pursuant to section 131 for the region or State in which the organization is situated.

PAYMENT TO OTHER PROVIDERS

SEC. 88. (a) An agency, organization, or other entity with which the Board has entered into an agreement under section 49(a) shall be paid by such method (other than the fee-for-service method) as, in accordance with regulations, may be set forth in the agreement.

(b) An independent pathology laboratory or an independent radiology service shall be paid on the basis of a budget approved by the Board, or on such other basis as may be specified in regulations.

(c) Payment for devices, appliances, and equipment, payment for ambulance or other covered transportation services, and payment for the services of a Christian Science sanatorium shall be made on such basis as may be specified in regulations.

REDUCTION IN PAYMENTS ON ACCOUNT OF UNNECESSARY CAPITAL EXPENDITURES

SEC. 89. Whenever the Secretary, pursuant to section 1122 of the Social Security Act (relating to reduction in Federal reimbursement in cases of unnecessary capital expenditures) issues a direction to the Board with respect to any health care facility owned or operated by a participating provider, the Board shall reduce accordingly amounts otherwise payable under this part to the provider.

METHODS AND TIME OF PAYMENT

SEC. 90. The Board shall periodically determine the amount which should be paid under this part to each participating provider of services, and the provider shall be paid, from the health services account in the Trust Fund, at such time or times as the Board finds appropriate (but not less often than monthly) and prior to audit or settlement by the General Accounting Office, the amount so determined, with adjustments on account of underpayments or overpayments previously made (including appropriate retrospective adjustments following amendment of approved institutional budgets). Payment may be made in advance in such cases and to such extent as the Board finds necessary to supply providers with working funds, on such terms as it finds sufficient to protect the interests of the United States.

PART F—PLANNING; FUNDS TO IMPROVE SERVICES AND TO ALLEVIATE SHORTAGES OF FACILITIES AND PERSONNEL

PURPOSE OF PART F; AVAILABILITY OF FUNDS

SEC. 101. (a) The purpose of this part is—

(1) prior to the effective date of health security benefits, to inaugurate a program of strengthening the Nation's resources of health personnel and facilities and its system of delivery of health services, in order to enable the providers of health services better to meet the demands on them when benefits under this title become available, and to that end (A) to expand and intensify the health planning process throughout the United States, with primary emphasis on preparation of the health delivery system to meet the demands of the health security program under this title, and (B) to provide financial and other assistance (i) in alleviating shortages and maldistribution of health personnel and facilities in order to increase the supply of services, and (ii) in improving the organization of health services in order to increase their accessibility and effective delivery; and

(2) after the effective date, to reinforce the operation of the health security program under this title as a mechanism for the continuing improvement of the supply and distribution of health personnel and facilities and the organization of health services, and to that end. (A) to coordinate the health planning process throughout the United States with a view to the continuing development of plans for maximizing capabilities for the effective delivery of covered services, and (B) to assist in meeting those costs of improvement of personnel, facilities, and organization that are not met either through the normal operation of the health security program under this title or from other sources of public or private assistance.

(b) For the purposes of subsection (a)(1), there are hereby authorized to be appropriated $200,000,000 for the fiscal year beginning on July 1 of the calendar year in which this title is enacted, and $400,000,000 for the next succeeding fiscal year. Funds appropriated under this subsection shall remain available until expended.

(c) For the purposes of subsection (a)(2), the Board is authorized to make expenditures from the health resources development account in the Trust Fund, established pursuant to section 63.

PLANNING

SEC. 102. (a) In consultation with State comprehensive health planning agencies approved under section 314(a) of the Public Health Service Act, and with regional medical programs and other health planning agencies, the Secretary shall promote and support, and as necessary shall conduct within the Department of Health, Education, and Welfare, a continuous process of health service planning for the purpose of improving the supply and distribution of health personnel and facilities and the organization of health services. Except for planning with respect to the national supply of professional, technical, and skilled administrative health personnel, the planning shall proceed primarily on a State-by-State basis but without excluding more particularized planning for portions of States, for metropolitan or interstate areas, or with respect to health facilities, health manpower development, or other particular aspects of health care. If a State comprehensive health planning agency does not undertake and carry out the responsibility for utilizing and coordinating all health planning activities within the State (including coordination with planning for interstate areas), and for coordinating health planning with planning in related fields, the Secretary shall assume the responsibility for coordinating such planning activities with the States.

(b) Prior to the effective date of health benefits, the planning process shall give first consideration to identification of the most acute shortages and maldistributions of health personnel and facilities and the most serious deficiencies in the organization for delivery of covered services, and to means for the speedy alleviation of these shortcomings. Thereafter, it shall be directed to the continuing development of plans for maximizing capabilities for the effective delivery of covered services.

(For extension and enlargement of authorization of Federal grants for State and local comprehensive health planning, see section 407.)

GENERAL POLICIES AND PRIORITIES

SEC. 103. (a) In providing assistance under this part, the Board shall give priority to improving and expanding the available resources for, and assuring the accessibility of, services to ambulatory patients which are furnished as part of coordinated systems of comprehensive care. To this end the Board shall encourage and assist (1) the development or expansion of health maintenance organizations meeting the requirements of section 47(a), (2) the development or expansion of agencies, organizations and centers described in section 49(a) (1) or (2) to furnish services to persons in urban or rural areas who lack ready access to such services, (3) the recruitment and training of professional personnel to staff such organizations, agencies, and centers, (4) the recruitment and training of subprofessional and nonprofessional personnel (including the development and testing of new kinds of health personnel) to assist in the furnishing of such services, to engage in education for personal health maintenance, and to furnish liaison between such organizations, agencies, or centers and the people they serve, (5) the strengthening of coordination and linkages among institutional services (including linkages with educational institutions), among noninstitutional services, and between services of the two kinds, in order to improve the continuity of care and the assurance that patients will be referred to such services and at such times as may be medically appropriate, (6) the strengthening of coordination and cooperation between hospital medical staffs and hospital administrators, and (7) the inclusion of dental services in systems of comprehensive health care.

(b) In administering financial assistance under this part the Board shall be guided so far as possible by findings and recommendations of appropriate health planning agencies.

(c) Funds available to carry out this part shall not be used to replace other Federal financial assistance, or to supplement the appropriations for such other assistance except to meet specific needs of the health security program under this title (such as the training of physicians or medical students for the general or family practice of medicine). In administering other programs of Federal financial assistance the Secretary and other officers of the executive branch, on recommendation of the Board, shall to the extent possible utilize those programs to further the objectives of this part. To this end the Board, on such terms as it finds appropriate, may lend to an applicant or grantee not more than 90 per centum of the non-Federal funds required as a condition of assistance under any such program, and may pay all or part of the interest in excess of 3 per centum per annum on any loan made, guaranteed, or insured under any such program.

ORGANIZATIONS FOR THE CARE OF AMBULATORY PATIENTS

SEC. 104. (a) The Board is authorized to assist, in accordance with this section, the establishment, expansion, and operation of (1) health maintenance organizations which meet or will meet the requirements of section 47(a), (2) public or other nonprofit agencies, organizations, and centers described in section 49(a) (1) and (2), and (3) nonprofit organizations furnishing comprehensive dental services, which meet requirements set forth in regulations of the Board.

(b) The Board is authorized to make grants (1) to any public or nonprofit agency or organization (whether or not it is a provider of health services), for not more than 90 per centum of the cost (excluding costs of construction) of planning, developing, and establishing an organization or agency described in subsection (a) of this section; or (2) to an existing organization or agency described in subsection (a), for not more than 80 per centum of the cost (excluding costs of construction) of planning and developing an enlargement of the scope of its services or an expansion of its resources to enable it to serve more enrollees or a larger clientele. In addition to grants under this subsection, or in lieu of such grants, the Board is authorized to provide technical assistance for the foregoing purposes.

(c) The Board is authorized to make loans to organizations and agencies described in subsection (a) of this section to assist in meeting the cost of constructing (or otherwise acquiring, or improving or equipping) facilities which the Board finds will be essential to the effective and economical delivery, or to the ready accessibility, of covered services to eligible persons. No loan to a newly established agency or organization shall exceed 90 per centum and no loan to any other agency or organization shall exceed 80 per centum of such cost, or of the non-Federal share if other Federal financial assistance in meeting such cost is available.

(d) The Board is authorized to contract with an organization or agency which is described in subsection (a) of this section and which has been either newly established or substantially enlarged, to pay all or a part of any operating deficits, for not more than five years in the case of an organization described in subsection (a) (1), and until not later than the effective date of health security benefits in the case of an agency or organization described in subsection (a) (2) or (a) (3). Any such contract shall condition payments upon the contractor's making all reasonable effort to avoid or minimize operating deficits and (if such deficits exist) making reasonable progress toward becoming self-supporting.

RECRUITMENT, EDUCATION, AND TRAINING OF PERSONNEL

SEC. 105. (a) In consultation with State comprehensive health planning agencies, and with regional medical programs, the Board shall promptly establish (and from time to time review) schedules of priority for the recruitment, education, and training of personnel to meet the most urgent needs of the health security program. The schedules may differ for different parts of the United States.

(b) The Board is authorized to provide, to physicians and medical students, training for the general or family practice of medicine and training in any other medical specialty in which the Board finds that there is, for the purposes of this title, a critical shortage of qualified practitioners.

(c) The Board shall provide education or training for those classes of health personnel (professional, subprofessional, or nonprofessional) for whom it finds the greatest need, if other Federal financial assistance is not available for such education or training; and if other assistance is available but the Board deems it inadequate to meet the increased need attributable to the health security program, it may, with the approval of the Secretary, provide such education or training pending action by the Congress on a recommendation promptly made by the Secretary to increase the authorization of appropriations (or, if the authorization is deemed adequate, to increase the appropriations) for such other assistance.

(d) The training of personnel authorized by this section includes the development of new kinds of health personnel to assist in the furnishing of comprehensive health services, and also includes the training of persons to provide education for personal health maintenance, to provide liaison between the residents of an area and health organizations and personnel serving them, and to act as consumer representatives and as members of advisory bodies in relation to the operation of this title in the areas in which they reside. The Board may make grants to public or other nonprofit health agencies, institutions, or organizations (1) to pay a part of all of the cost of testing the utility of new kinds of health personnel, and (2) until the effective date of health security benefits, to pay a part of the cost of employing persons trained under this subsection who cannot otherwise readily find employment utilizing the skills imparted by such training.

(e) Education and training under this section shall be provided by the Board through contracts with appropriate educational institutions or such other institutions, agencies, or organizations as it finds qualified for this purpose. The Board may provide directly, or through the contractor, for the payment of stipends to students or trainees in amounts not exceeding the stipends payable under comparable Federal education or training programs.

(f) The Board shall undertake to recruit and train professional practitioners who will agree to practice, in urban or rural areas of acute shortage, in health maintenance organizations or in agencies, organizations, or centers referred to in section 49(a) (1) or (2). A practitioner who agrees to engage in such practice for at least five years and who enters upon practice in the area before the effective date of health benefits may until that date be paid a stipend to supplement his professional earnings, and in an appropriate case the Board may make a commitment to compensate the practitioner after that date in accordance with section 82(c).

(g) The Board shall undertake to recruit physicians to serve hospitals as their medical directors and to train such physicians (among other matters) in advising on and managing the development and implementation of medical policies and procedures and their coordination with planning and operational functions of the hospital, with its financing, and with its program of utilization review.

(h) In administering this section the Board shall seek to encourage the education and training, for the health professions and other health occupations, of persons disadvantaged by poverty, inadequate education, or membership in ethnic minorities. To this end the Board may, through contracts in accordance with subsection (e), provide to such persons remedial or supplementary education preparatory to or concurrent with education or training for the health professions or occupations, and may (directly or through such contracts) provide to such persons stipends adequate to enable them to avail themselves of such education or training.

(i) Training which the Board is authorized by this section to provide shall include retraining, either to refresh and enhance skills of trainees for positions they already hold or to equip them for positions of greater responsibility.

### SPECIAL IMPROVEMENT GRANTS

Sec. 106. (a) The Board is authorized to make grants to public or other nonprofit health agencies, institutions, and organizations to pay part or all of the cost of establishing improved coordination and linkages among institutional services (including linkages with educational institutions), among noninstitutional services, and between services of the two kinds.

(b) The Board is authorized to make grants to organizations, agencies, and centers described in section 104(a) to pay part or all of the cost of installation of improved utilization review, budget, statistical, or records and information retrieval systems, including the acquisition of equipment therefor, or to pay part or all of the cost of acquisition and installation of diagnostic or therapeutic equipment.

### TEST OF PERSONAL CARE SERVICES IN LIEU OF INSTITUTIONAL CARE

Sec. 107. (a) The Board is authorized to make grants to pay part or all of the cost (including start-up costs) of conducting tests and demonstrations of the feasibility of maintaining in their own homes, by means of comprehensive health and personal care services, persons who, by reason of disability or other health-related causes, would in the absence of such assistance require inpatient institutional services or might be expected to require such institutional services in the near future. Grants under this section may be made to participating public or other nonprofit hospitals or health maintenance organizations, or to other public or nonprofit agencies or organizations which the Board finds qualified to conduct such tests and demonstrations. Each project shall be designed to serve a substantial population, defined in the grant, in either an urban or a rural community.

(b) The services to be provided shall include, in addition to all covered health services (other than inpatient institutional services) described in part B (which may be provided by arrangement with participating providers), services which the Board deems necessary or appropriate to enable persons, found eligible for the services in accordance with subsection (c), to continue to live in their own homes or other noninstitutional places of residence. The personal care services may include homemaker services, home maintenance, laundry services, meals-on-wheels and other nutrition services, assistance with transportation and shopping, and such other services as may be appropriate in particular cases. The Board may prescribe different ranges of services in different projects.

(c) For each project the Board shall prescribe criteria (consistent with subsection (a)) for the approval of applications for assistance, and such criteria may be different in different grants. Each grant shall require the grantee to establish, or arrange for the services of, a committee to screen applications for assistance under the project, in accordance with the applicable criteria, and no assistance shall be given until an application has been approved by the committee. The committee shall also maintain a constant review of utilization of the services provided by the project, and assistance to any person shall be terminated whenever the committee finds that he no longer meets the applicable criteria. The composition of the committee shall be subject to approval by the Board, and it shall include at least one physician, one professional nurse, one professional social worker, one representative of the users of the services, and such other qualified persons as the Board may prescribe.

(d) Each grant shall require the grantee to establish procedures for the evaluation of the project, with respect both to the benefits accruing to persons receiving assistance and to the fiscal impact of the project on the health security system. The Board shall also make its own evaluation of each project, and shall include a summary thereof in its annual report to the Congress.

(e) If the Board deems it feasible on the basis of its evaluation of these projects and any other relevant information relating to needs for long term care, recommendations shall be made to Congress for expansion of covered services to include personal care services in lieu of institutional care and shall be accompanied by recommendations with respect to expansion of covered services for long term institutional care.

### LOANS UNDER PART F

Sec. 108. (a) Loans authorized under this part shall be repayable in not more than twenty years, shall bear interest at the rate of 3 per centum per annum, and (subject to the provisions of subsection (b)) shall be made on such other terms and conditions as the Board deems appropriate. Amounts paid as interest on any such loan or as repayment of principal shall, if the loan was made from funds appropriated pursuant to section 101(b), be covered into the Treasury as miscellaneous receipts, and if the loan was made from funds in the health resources development account, be deposited in the Trust Fund to the credit of that account.

(b) No loan for the construction or improvement of a facility shall be made under this part unless the borrower undertakes that all laborers and mechanics employed by contractors or subcontractors in the performance of construction or improvement on the project will be paid wages not less than those prevailing on similar work in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act (40 U.S.C. 276a—276a–5). The Secretary of Labor shall have with respect to the labor standards specified in this subsection the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 5 U.S.C. Appendix 133z–15) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c).

### RELATIONS OF PARTS E AND F

Sec. 109. Payments by the Board under this part pursuant to any grant or loan to, or any contract with, a participating provider of services shall be made in addition to, and not in substitution for, payments to which the provider is entitled under part E.

## PART G—ADMINISTRATION

### ESTABLISHMENT OF THE HEALTH SECURITY BOARD

Sec. 121. (a) There is hereby established in the Department of Health, Education, and Welfare a Health Security Board to be composed of five members to be appointed by the President, by and with the advice and consent of the Senate. During his term of membership on the Board, no member shall engage in any other business, vocation, or employment. Not more than three members of the Board shall be members of the same political party.

(b) Each member of the Board shall hold office for a term of five years, except that (1) a member appointed to fill a vacancy occurring during the term for which his predecessor was appointed shall be appointed for the remainder of that term, and (2) the terms of office of the members first appointed shall expire, as designated by the President at the time of their appointment, at the end of one, two, three, four, and five years, respectively, after the date of enactment of this Act A member who has served for two consecutive five-year terms shall not be eligible for reappointment until two years after he has ceased to serve.

(c) The President shall designate one of the members of the Board to serve, at the will of the President, as Chairman of the Board.

### DUTIES OF THE SECRETARIES AND THE BOARD

Sec. 122. (a) The Secretary of Health, Education, and Welfare, and the Board under the supervision and direction of the Secretary, shall perform the duties imposed upon them, respectively, by this title. Regulations authorized by this title shall be issued by the Board with the approval of the Secretary, in accordance with the provisions of section 553 of title 5, United States Code (relating to the publication of, and opportunity to comment on, proposed regulations).

(b) The Board shall have the duty of continuous study of the operation of this Act and of the most effective methods of providing comprehensive personal health services to all persons within the United States and to United States citizens elsewhere, and of making, with the approval of the Secretary, recommendations on legislation and matters of administrative policy with respect thereto. The Board shall make, through the Secretary, an annual report to the Congress on the administration of the functions with which it is charged. The report shall include, for periods prior to the effectve date of health benefits, an evaluation by the Board of progress in preparing for the initiation of benefits under this title, and for periods thereafter, an evaluation of the operation of the title, of the adequacy and quality of services furnished under it, of the adequacy of compensation to providers of services, and of the costs of the services and the effectiveness of measures to restrain the costs.

(c) The Board shall from time to time conduct studies of the adequacy and equity of the financing of the national system of health security established by this Act and shall, with the approval of the Secretary, report its findings to the Congress, together with any recommendations for amendment of this Act or of the provisions of the Internal Revenue Code of 1954 pertaining to such financing. The first report under this subsection shall be submitted not later than two years after the effective date of health benefits, and thereafter reports shall be submitted at intervals not greater than four years.

(d) In performing his functions with respect to the Commission on the Quality of Health Care, and his functions with respect to health manpower education and training, health research, environmental health, disability insurance, vocational rehabilitation, the regulation of food and drugs, and all other matters pertaining to health, as well as in supervising and directing the administration of this title by the Board, the Secretary shall direct all activities of the Department toward mutually complementary contributions to the health of the people. He shall include in his annual report to the Congress a report on his discharge of this responsibility.

(e) The Secretary shall make available to the Board all information available to him, from sources within the Department or from other sources, pertaining to the functions of the Board.

(f) The Civil Service Commission, in consultation with the Board, shall to the greatest extent practicable facilitate recruitment, for employment by the Board in the competitive service, of qualified persons experienced in the administration or operation of private health insurance and health prepayment plans, or experienced in other fields pertinent to the administration of this title.

(g) The Secretary is authorized to establish and fix the compensation for, within the Board, not more than fifty positions in the professional, scientific, and executive service, each such position being established to effectuate those research and development activities of the Board which require the services of specially qualified scientific, professional, and administrative personnel. The rates of compensation for positions established pursuant to the provisions of this subsection shall not be less than the minimum rate of grade 16 of the General Schedule of the Classification Act of 1949, as amended, nor more than the highest rate of grade 18 of the General Schedule of such Act, and such rates of compensation for all positions included in this proviso shall be subject to the approval of the Civil Service Commission. Positions created pursuant to this subsection shall be included in the classified civil service of the United States, but appointments to such positions shall be made without competitive examination upon approval of the proposed appointee's qualifications by the Civil Service Commission or such officers or agents as it may designate for this purpose.

### EXECUTIVE DIRECTOR; DELEGATION OF AUTHORITY

SEC. 123. (a) There is hereby established the position of Executive Director of the Health Security Board. The Executive Director shall be appointed by the Board with the approval of the Secretary, and shall serve as secretary to the Board and perform such duties in the administration of this title as the Board may assign to him.

(b) The Board is authorized to delegate to the Executive Director or to any other officer or employee of the Board or, with the approval of the Secretary (and subject to reimbursement of identifiable costs), to any other officer or employee of the Department, any of its functions or duties under this title other than (1) the issuance of regulations, or (2) the determination of the availability of funds and their allocation, under sections 62, 63, and 64.

### REGIONS AND HEALTH SERVICE AREAS

SEC. 124. (a) This title shall be administered by the Board through the regions of the Department (as they may be established from time to time) and, within each region, through such health service areas as the Board may establish. Each health service area shall consist of a State or a part of a State, except as the Board finds that patterns of the organization of health services and of the flow of patients make an interstate area a more practical unit of administration.

(b) The Board shall establish in each local health service area a local health security office and such branch offices as the Board may find necessary. The local offices and branch offices, in addition to such informational and other administrative duties as the Board may assign them, shall have the function of receiving and investigating complaints by eligible persons and by providers of services concerning the administration of this title and of taking or recommending appropriate corrective action.

### NATIONAL HEALTH SECURITY ADVISORY COUNCIL

SEC. 125. (a) There is hereby established a National Health Security Advisory Council, which shall consist of the Chairman of the Board, who shall serve as Chairman of the Council, and twenty members, not otherwise in the employ of the United States, appointed by the Secretary on recommendation of the Board, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service. The appointed members shall include persons who are representative of providers of health services, and of persons (who shall constitute a majority of the Council) who are representative of consumers of such services. Each appointed member shall hold office for a term of four years, except that (1) any member appointed to fill a vacancy occurring during the term for which his predecessor was appointed shall be appointed for the remainder of that term, and (2) the terms of the members first taking office shall expire, as designated by the Secretary at the time of appointment, five at the end of the first year, five at the end of the second year, five at the end of the third year, and five at the end of the fourth year after the date of enactment of this Act. Members of the Council who are representative of providers of health care shall be persons who are outstanding in fields related to medical, hospital, or other health activities, or who are representative of organizations or associations of professional health personnel; members who are representative of consumers of such care shall be persons, not engaged in and having no financial interest in the furnishing of health services, who are familiar with the needs of various segments of the population for personal health services and are experienced in dealing with problems associated with the furnishing of such services.

(b) The Adivsory Council is authorized to appoint such professional or technical committees, from its own members or from other persons or both, as may be useful in carrying out its functions. The Council, its members, and its committees shall be provided with such secretarial, clerical, or other assistance as may be authorized by the Board for carrying out their respective functions. The Council shall meet as frequently as the Board deems necessary, but not less than four times each year. Upon request by seven or more members it shall be the duty of the Chairman to call a meeting of the Council.

(c) It shall be the function of the Advisory Council (1) to adivse the Board on matters of general policy in the administration of this title, in the formulation of regulations, and in the performance of the Board's functions under part D, and (2) to study the operation of this title and the utilization of health services under it, with a view to recommending any changes in the administration of the title or in its provisions which may appear desirable. The Council shall make an annual report to the Board on the performance of its functions, including any recommendations it may have with respect thereto, and the Board, through the Secretary, shall promptly transmit the report to the Congress, together, with a report by the Board on any recommendations of the Council for administrative action which have not been followed, and a report by the Secretary of his views with respect to any legislative recommendations of the Council.

(d) Appointed members of the Advisory Council and members of technical or professional committees, while serving on business of the Council (inclusive of traveltime), shall receive compensation at rates fixed by the Board, but not in excess of the daily rate paid under GS-18 of the general schedule under section 5332 of title 5, United States Code; and while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in Government service employed intermittently.

### REGIONAL AND LOCAL ADVISORY COUNCILS

SEC. 126. (a) The Board shall appoint for each of the regions of the Department and for each health service area a regional or local advisory council, consisting of the regional or local representative of the Board as chairman and (in such numbers as the Board may determine) representatives of providers of health services and representatives (who shall constitute a majority of the members of each council) of consumers of such service. So far a possible, representatives of providers shall be so selected as to represent professional, subprofessional, and nonprofessional personnel, and representatives of consumers shall be so selected as to represent the major segments of the population to be served. Each council shall meet as often as its members may decide, but in no event less than four times each year. It shall be the function of each such council to advise the regional or local representative of the Board, as the case may be, on all matters directly relating to the administration of this title in the region or area, including methods and procedures followed in the handling of complaints.

(b) The provisions of section 125(d) shall be applicable to the members of councils appointed under this section.

### PROFESSIONAL AND TECHNICAL ADVISORY COMMITTEES

SEC. 127. (a) The Board shall appoint such standing professional and technical committees as it deems necessary to advise it on the administration of this title with respect to the several classes of covered services described in part B. Each such committee shall consist of experts (in such number as the Board may determine) drawn from the health professions, from medical schools or other health educational institutions, from providers of services, or from other sources, whom the Board deems best qualified to advise it with respect to the professional and technical aspects of the furnishing and utilization of, the payment for, and the evaluation of, a class of covered services designated by the Board, and with respect to the relationship of that class of services to other covered services.

(b) The Board is authorized to appoint such experts and consultants (employed in accordance with section 3109 of title 5, United States Code), and to appoint such temporary professional and technical committees, as it deems necessary to advise it on special problems not encompassed in the assignments of standing committees appointed under subsection (a), or to supplement the advice of standing committees.

(c) In connection with its duties under section 122(c), the Board is authorized to appoint such standing or temporary committees of fiscal, actuarial, and other experts as it deems necessary.

(d) Committees appointed under this section shall report from time to time to the Board, and copies of their reports shall be transmitted by the Board to the National Advisory Council.

(e) The provisions of section 125(d) shall be applicable to experts and consultants and to the members of committees appointed under this section.

### PARTICIPATION BY STATE AGENCIES

SEC. 128. (a) The Board shall (in addition to the consultation with State planning agencies required by section 102) consult from time to time wtih State health agencies or other appropriate State agencies in preparing for and in administering health security benefits, with a view to coordinating the administration of this title with State and local activities in the fields of environmental health, licensure and inspection, education for the health professions and other health careers, and other fields relating to health. Insofar as practicable, the Board shall conduct such consultation through the regional offices of the Department.

**(b) The Board shall make an agreement with any State which is able and willing to do so under which the State health agency or other appropriate State agency will be utilized by the Board in determining whether providers of services meet or continue to meet the qualifications and requirements established by or pursuant to part C or part H. Such an agreement shall fix the frequency of inspection of the several classes of providers, other than professional practitioners, and shall establish the qualifications required of persons making the inspections.**

Determinations by State agencies based upon inspections made in accordance with such agreements, and determinations with respect to professional practitioners, may be given by the Board the same effect as determinations by the Board.

(c) An agreement under subsection (b) may provide that a State agency, either directly or through local public agencies, will undertake activities, specified in the agreement, directed to the health education of the residents of the State, the maintenance and improvement of the quality of covered services furnished in the State, the maintenance of effective utilization review, or the better coordination of services of different kinds.

(d) The Board shall pay to a State, in advance or otherwise as specified in the agreement, the reasonable cost of services and activities pursuant to an agreement under this section; and may pay a part or all of the cost of training (or may train) State personnel to enable them to meet the qualifications established by the Board for inspectors.

(e) In any State which is unable or unwilling to make inspections in accordance with subsection (b), the Board shall make such inspections either through its own personnel or through contract with an organization or organizations which it finds qualified to perform this function.

(f) Within ninety days after the completion of an inspection of any provider under subsection (b) or subsection (e), the Board shall make public in readily available place and form the findings of such inspection which pertain significantly to compliance with the qualifications and requirements established by or pursuant to part C or part H; except that if the State agency or the Board, on the basis of such inspection, has made a determination respecting compliance by the provider, the publication shall be based on such determination.

### TECHNICAL ASSISTANCE TO SKILLED NURSING HOMES AND HOME HEALTH SERVICE AGENCIES

SEC. 129. The Board is authorized, either directly or through agreements with State agencies under section 128, to provide technical assistance to skilled nursing homes and home health service agencies to supplement, in regard to social services, dietetics, and other matters, the skills of the group refrered to in sections 45(b) and 46(b).

### DISSEMINATION OF INFORMATION; STUDIES AND EVALUATIONS; SYSTEMS DEVELOPMENT; TESTS AND DEMONSTRATIONS

SEC. 130. (a) The Board shall disseminate, to providers of services and to the public, information concerning the provisions of this title, persons eligible to receive the benefits of the title, and the nature, scope, and availability of covered services; and to providers of services, information concerning the conditions of participation, methods and amounts of compensation to providers, and other matters relating to their participation. With the approval of the Secretary, the Board may furnish to all professional practitioners information concerning the safety and efficacy of drugs appearing on either of the lists established under section 25, the indications for their use, and contraindications.

(b) The Board shall make, on a continuing basis after the effective date of health security benefits, a study and evaluation of the operations of this title in all its aspects, including study and evaluation of the adequacy and quality of services furnished under the title, analysis of the cost of each kind of services, and evaluation of the effectiveness of measures to restrain the costs.

(c) The Board is authorized, either directly or by contract—

(1) to make statistical and other studies, on a nationwide, regional, State, or local basis, of any aspect of the operation of this title, including studies of the effect of the title upon the health of the people of the United States and the effect of comprehensive health services upon the health of persons receiving such services;

(2) to develop and test, for use by the Board, records and information retrieval systems and budget systems for health services administration, and develop and test model systems for use by providers of services;

(3) to develop and test, for use by providers of services, records and information of health services, and equipment (such as equipment for the monitoring of patients' functions, or for multiphasic screening) useful in the furnishing of preventive or diagnostic services;

(4) to develop, in collaboration with the pharmaceutical profession, and test, improved administrative practices or improved methods for the reimbursement of independent pharmacies for the cost of furnishing drugs as a covered service; and

(5) to make such other studies as it may consider necessary or promising for the evaluation, or for the improvement, of the operation of this title.

(d) The Board is authorized to develop, and to test and demonstrate through agreements with providers of services or otherwise, methods designed to achieve, through additional incentives or in any other manner, improvement in the coordination of services furnished by providers, improvement in the adequacy, quality, or accessibility of services, or decrease in their cost; methods of peer review and peer control of the utilization of drugs, laboratory services, and other services not subject to utilization review under section 51; and methods of peer review of quality. Agreements with providers for tests or demonstrations may provide for alternative methods of reimbursement in lieu of methods prescribed by part E, but, in the case of independent professional practitioners, only in accordance with section 82(h).

### GUIDELINES FOR HEALTH MANPOWER EDUCATION AND TRAINING

SEC. 131. The Board shall make a continuing evaluation of the adequacy of the various classes of professional and other health personnel to furnish services under this title and, after consultation with national and other organizations concerned with the education and training of such personnel, and with the approval of the Secretary, shall from time to time issue guidelines designed to relate the clinical education and training conducted by providers of services more closely to the relative need for the several classes of such personnel. The guidelines shall seek to further national health manpower objectives, but shall be adapted for each region or State to take account of the capacity of providers to conduct such clinical education or training, and (to the extent the Board deems appropriate) to take account of any special manpower needs within the region or State.

### DETERMINATIONS; SUSPENSIONS OF TERMINATION OF PARTICIPATION

SEC. 132. (a) Determinations of entitlement to benefits under this title, determinations of who are participating providers of services, determinations whether services are covered services, and determinations of amounts to be paid by the Board to participating providers, shall be made by the Board in accordance with regulations. A provider or other person aggrieved by a determination under this subsection shall, in such cases and on such conditions as are specified in regulations, be entitled to an administrative appeal from it.

(b) If the Board finds that a participating provider of services no longer meets the qualifications and requirements established by or pursuant to part C and part H for services of the kinds furnished by him, or for some classes of such services, or that he has intentionally violated the provisions of this title or of regulations, or that he has failed substantially to carry out the agreement filed by him pursuant to section 41 (c), the Board may issue an order suspending or terminating (absolutely or on such conditions as the Board finds appropriate) the participation of the provider, or suspending or terminating it with respect to particular classes of services.

(c) If the Board has reason to believe that a participating professional practitioner, or a professional practitioner furnishing covered services on behalf of an institutional or other participating provider, has in a substantial number of cases—

(1) furnished professional services, or caused the furnishing of institutional or other services, which were not medically necessary but for which payment was claimed under this title,

(2) furnished to eligible persons covered services which were not of a quality meeting professionally recognized standards of care, or

(3) neglected to furnish necessary services to eligible persons who were his patients, under circumstances such that the neglect constituted a breach of his professional obligation,

or has reason to believe that a participating provider other than a professional practitioner has in a substantial number of cases—

(4) furnished services, for which payment was claimed under this title, known to the provider not to be medically necessary, or

(5) furnished to eligible persons covered services which were not of a quality meeting professionally recognized standards of care,

the Board shall submit the evidence in its possession either to an appropriate professional organization or to a committee constituted by the Board after consultation with such an organization (which committee may, when the Board deems it proper, include nonprofessional persons). The Board shall request the organization or committee, with or without further investigation, to recommend what action, if any, should be taken by the Board. Taking into consideration any recommendation so made to it, the Board may issue an order suspending or terminating (absolutely or on such conditions as the Board finds appropriate) the participation of the practitioner or other provider or, in the case of a practitioner furnishing services on behalf of another provider, requiring the other provider, as a condition of continued participation, to suspend or discontinue (absolutely or on conditions) the furnishing of covered services by the practitioner.

(d) The Board shall, either in advance or by way of reimbursement, pay to an organization or committee making a recommendation under subsection (c) its reasonable cost incurred in so doing.

(e) No determination under subsection (a) that a person, previously determined to be eligible for benefits, is not eligible therefor, and (unless the Board finds that eligible persons are endangered) no order under subsection (b) or (c), shall be effective until after the person or provider has been afforded a hearing under section 133 or an opportunity therefor.

### HEARINGS: JUDICIAL REVIEW

SEC. 133. (a) A provider of services or other person who is dissatisfied with a determination made or an order issued under section 132 shall, upon request therefor filed in accordance with regulations, be entitled to a hearing before a hearing officer or a hearing panel of the Board. The hearing shall be held as promptly as possible and at a place convenient to the provider or other person requesting the hearing. For the purpose of reviewing the determinations of hearing officers or panels, the Board shall establish regional or other intermediate appeals tribunals, and shall by regulation prescribe the jurisdiction of such tribunal or tribunals. Decisions of hearing officers or hearing panels shall, subject to appeals under this subsection, constitute final decisions of the Board.

(b) In any case in which the Board finds (on the basis of the request for hearing and the records of the Board) that a substantial issue of professional practice or conduct, in a health profession specified for this purpose in regulations, will be involved in the hearing, the hearing shall be held either before a person who is qualified in an appropriate health profession or before a panel which includes a person or persons so qualified, and an appeal in such a case shall be heard before an appellate tribunal (or a panel thereof) which includes a person or persons so qualified. In any case in which a single person qualified as a health professional, or a panel composed entirely of persons so qualified, conducts a hearing or hears an appeal, the Board shall assign an attorney to assist in the conduct of the hearing or the appeal and to advise upon the decision of issues of law.

(c)(1) Any provider of services or other persons, after any final decision of the Board made after a hearing to which he was a party, irrespective of the amount in controversy, may obtain a review of such decision by a civil action commenced within sixty days after the mailing to him of notice of such decision or within such further time as the Board may allow. Such action shall be brought in the district court of the United States, for the judicial district in which the plaintiff resides or has his principal place of business, or, if he does not reside or have his principal place of business within any such judicial district, in the District Court of the United States for the District of Columbia. As part of its answer the Board shall file a certified copy of the transcript of the record, including the evidence upon which the findings and decisions complained of are based.

(2) The Court shall have power to enter, upon the pleadings and transcript of the record, a judgment affirming, modifying or reversing the decision of the Board, with or without remanding the cause for a rehearing. The findings of the Board as to any fact, if supported by substantial evidence, shall be conclusive.

(3) Where a claim has been denied by the Board, or a decision is rendered which is adverse to a provider or other person who was a party to the hearing before the Board, because of failure of the claimant or such provider or other person to submit proof in conformity with any regulation prescribed by the Board, the court shall review only the question of conformity with the regulation and the validity of the regulation. The court shall not review a finding by the Board under subsection (b), or a refusal to find, that a substantial issue of professional practice or conduct will be involved in a hearing.

(4) The court shall, on motion of the Board made before it files its answer, remand the case to the Board for further action by the Board, and may, at any time on good cause shown, order additional evidence to be taken before the Board. The Board shall, after the case is remanded, and after hearing such additional evidence if so ordered, modify or affirm its findings of fact or its decision, or both, and shall file with the court any such additional and modified findings of fact and decision and a transcript of the additional record and testimony. Such additional or modified findings of fact and decision shall be reviewable only to the same extent as the original findings of fact and decision.

(5) The judgment of the court shall be final except that it shall be subject to review in the same manner as judgments in other civil actions.

### DIRECTIONS BY THE BOARD FOR THE BETTER ORGANIZATION AND COORDINATION OF SERVICES

SEC. 134. (a) The Board is authorized, in accordance with this section, to issue to any participating provider of services (other than an individual professional provider) a direction that the provider shall—

(1) discontinue (for purposes of payment under part E) one or more services which the provider is currently furnishing;

(2) initiate one or more covered services which the provider is not currently furnishing;

(3) initiate the furnishing of one or more covered services at a place where the provider is not currently furnishing the services; or

(4) enter into arrangements with one or more other providers of services (A) for the transfer of patients and medical records as may be medically appropriate, (B) for making available to one provider the professional and technical skills of another, or (C) for such other coordination or linkage of covered services as the Board finds will best serve the purposes of this title.

A direction under this subsection shall specify a future date on which, if the direction has not been complied with, the provider to whom it is addressed shall cease to be a participating provider.

(b) If the Board finds (1) that the services furnished by a provider of services (other than an individual professional provider) are not necessary to the availability of adequate services under this title and that their continuance as covered services is unreasonably costly, or (2) that the services are furnished inefficiently and at unreasonable cost, that effort at correction has proved unavailing, and that necessary services can be more efficiently furnished by other providers, the Board may issue a direction that on a specified future date the provider shall cease to be a participating provider.

(c) No direction shall be issued under this section except on the recommendation of, or after consultation with the State health planning agency (referred to in section 102 (a)) of the State in which the direction will be operative. No direction shall be issued under subsection (a) unless the Board finds that it can practicably be carried out by the provider to whom it is addressed.

(d)(1) No direction shall be issued under this section until the Board has published notice, in the service area of the provider or providers affected, describing in general terms the proposed action, giving a brief statement of the reasons therefor, and inviting written comment thereon. The notice shall be published in at least one newspaper circulating in the area, and the Board shall use such other means as it finds calculated to inform residents of the area of the proposed action.

(2) If objection to the proposal is made by any interested provider of services (other than an individual professional practitioner) or by an interested health planning agency or by a substantial number of interested professional practitioners or of residents of the area, the Board shall call a public hearing before a hearing officer, or hearing panel meeting the requirements of section 133(b). At the hearing the Board shall present evidence in support of the proposal, and any interested provider of services or health planning agency or any other interested person shall be entitled to participate in the hearing and to present evidence or argument or both. On the basis of evidence presented at the hearing the hearing officer or hearing panel shall make recommended findings of fact and a recommended determination either to issue the proposed direction, to modify and issue it, or to withdraw the proposal. The final determination shall be made by the Board or by a special panel designed by it for the purpose, and shall be subject to judicial review in accordance with section 133(c).

## PART H—QUALITY OF CARE

### PURPOSE AND GENERAL POLICIES

SEC. 141. (a) The Board, with the advise and assistance of the Commission on the Quality of Health Care (established by section 1201 of the Public Health Service Act), shall have the continuing responsibility to maintain and enhance the quality of health care furnished under this Act, and to that end shall—

(1) prior to the effective date of health benefits, issue regulations authorized by this part (A) to supplement the qualifications required by part C of providers of services as a condition of participation, and (B) to strengthen existing mechanisms for the control and enhancement of quality; and

(2) thereafter, continuously review such regulations with a view to (A) upgrading such requirements as rapidly as the Board finds practicable, and (B) developing recommendations to the Congress for amendments of this Act designed further to assure and enhance the quality of care.

(b) In discharging its responsibility under this part, it shall be the objective of the Board to require the highest practicable quality of care that is attainable in substantially all parts of the United States. Exceptions to requirements under this part shall be permitted only when necessary to avoid critical shortages of services, and shall be reviewed from time to time and shall be eliminated whenever, and as soon as, the Board finds it practicable to do so.

(c) The Board shall cooperate to the fullest extent possible for the Commission on the Quality of Health Care in obtaining reports and information required for the purposes of the Commission, in the development and issuance of regulations under this part, and in the development of recommendations to the Congress. If the Board fails to adopt, by regulation issued under this part, a standard which the Commission has recommended be so adopted, the matter shall be reported to the Secretary and, unless he directs the Board to follow the recommendation of the Commission, the Board shall publish a statement of the recommendation and of its reasons for failing to adopt the standard.

### CONTINUING PROFESSIONAL EDUCATION

SEC. 142. (a) Not later than two years after the effective date of health benefits, the Board shall by regulation establish for physicians, dentists, optometrists, and podiatrists such requirements of continuing education (taking into consideration standards approved by appropriate professional organizations) as it finds reasonable to maintain and enhance the quality of professional services furnished under this Act.

(b) Regulations under this section shall require the filing of such periodic reports as the Board finds necessary to assure that participating practitioners, and practitioners furnishing services on behalf of participating institutional and other providers, are in compliance with requirements established under subsection (a). The Board shall give warning to any practitioner whom such reports show to have failed to comply substantially with the requirements, and, before taking action under section 132(b), shall afford him an opportunity to explain or correct the deficiency.

### MAJOR SURGERY AND OTHER SPECIALIZED SERVICES

SEC. 143. (a) Major surgery and other specialized services designated in regulations are not covered services unless they are furnished by specialists and, to the extent specified in regulations, are either emergency services or services furnished on referral by a physician engaged in general or family practice (as determined in accordance with regulations under section 22(b)).

(b) A physician is a specialist, for the purposes of subsection (a), only if he holds a certificate from the appropriate national specialty board; except that (1) a physician who possesses the qualifications requisite to such certification may furnish services as a specialist during a period of five years after attaining such qualifications and (if later) a period of five years after the effective date of health benefits, and (2) a physician may be authorized by the Board to furnish services as a specialist if (A) prior to the effective date he has engaged in furnishing such services as a specialist or as a substantial part of his medical practice, (B) he meets standards established by the Board, and (C) where appropriate, authorization to him to furnish services as a specialist is recommended by a participating hospital in which he has engaged substantially in furnishing such services.

(c) The Board may by regulation exclude from covered services specified surgical procedures, when not required by life threatening or other acute emergencies, which have not been preceded by consultation with, and recommendation of surgery by, such appropriately qualified specialists as may be required by the regulations. Hospital and other services incident to surgery excluded by regulations under this subsection are not covered services.

(d) With respect to the performance of surgical procedures specified in regulations under subsection (c), including emergency procedures, the Board may require as a condition of payment to the provider that there be submitted to the Board a pathology report on tissue removed and a clinical abstract or discharge report of the case.

### ADDITIONAL REQUIREMENTS FOR PARTICIPATION

SEC. 144. (a) No provider on whose behalf one or more physicians, dentists, optometrists, or podiatrists furnish professional services described in section 22 or section 23 or in regulations issued under section 27(a) (1) or (2) shall be a participating provider unless every practitioner furnishing such services is a qualified provider in accordance with section 42 and meets such requirements, applicable to practitioners of his profession, as are prescribed by or pursuant to this part.

(b) The Board may by regulation establish, as conditions of participation by providers other than independent professional practitioners, requirements (additional to those specified in part C and those otherwise prescribed by or pursuant to this part) which the Board finds necessary in the interest of the quality of care and the safety of eligible persons. In establishing requirements under this subsection, the Board shall take into consideration standards or criteria established or recommended by appropriate professional or organization, in advance or otherwise as specified in the contract, the reasonable cost of services and activities of the organization under the contract.

### FINDINGS OF COMMISSION ON MEDICAL MALPRACTICE

SEC. 146. In exercising its authority under this part the Board shall give consideration to the findings, report, and recommendations of the Secretary's Commission on Medical Malpractice, and within the authority conferred by this or any other Act shall put into effect such of the recommendations of that Commission and such other measures as in the judgment of the Board will tend to reduce the incidence of malpractice, to lessen the cost or increase the availability of malpractice insurance, or to facilitate the speedy, equitable, and economical adjudication of malpractice claims.

## PART I—MISCELLANEOUS PROVISIONS

### DEFINITIONS

SEC. 161. When used in this title—

(a) The term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

(b) The term "United States" when used in a geographical sense means the State, as defined in subsection (a).

(c) The term "Secretary," except when the context otherwise requires, means the Secretary of Health, Education and Welfare.

(d) The term "Department", except when the context otherwise requires, means the Department of Health, Education, and Welfare.

(e) The term "Board" means the Health Security Board established by section 121.

### DEPUTY SECRETARY OF HEALTH, EDUCATION, AND WELFARE; UNDER SECRETARY FOR HEALTH AND SCIENCE

SEC. 162. (a) There shall be in the Department of Health, Education, and Welfare and an Under Secretary Secretaries now provided for by law, a Deputy Secretary of Health, Education, and Welfare and an Under Secretary for Health and Science each of whom shall be appointed by the President, by and with the advice and consent of the Senate, and shall perform such functions (related to health and science, in the case of such Under Secretary) as the Secretary may prescribe. The provisions of the second sentence of section 2 of Reorganization Plan Numbered 1 of 1953 shall be applicable to such Deputy Secretary to the same extent as they are applicable to the Under Secretary of Health, Education, and Welfare and shall be applicable to the Under Secretary for Health and Science to the same extent as they are applicable to the Assistant Secretaries authorized by that section.

(b)(1) The office of Under Secretary of Health, Education, and Welfare, created by section 2 of Reorganization Plan Numbered 1 of 1953 (67 Stat. 631), is hereby abolished.

(2) The President may authorize the person who immediately prior to the date of enactment of this Act occupies the office of Under Secretary of Health, Education, and Welfare to act as Deputy Secretary of Health, Education, and Welfare until that office is filled by appointment in the manner provided by subsection (a) of this section. While so acting, such person shall receive compensation at the rate now or hereafter provided by law for the Deputy Secretary of Health, Education, and Welfare.

### EFFECTIVE DATES OF TITLE I; AUTHORIZATION OF APPROPRIATIONS

SEC. 163. The effective date of health security benefits under this title shall be July 1 of the second calendar year after the year in which this title is enacted, and no service or item furnished prior to that date shall constitute a covered service. Section 406, transferring and amending section 1817 of the Social Security Act and redesignating it as section 61 of this Act, shall be effective on the effective date of health benefits, and part D (including section 61) shall be effective with respect to fiscal years beginning on or after that date. In all other respects this title shall be effective upon enactment, and appropriations for the purposes of this title (including action pursuant to section 201(g) of the Social Security Act, as amended by section 406 of this Act, to make funds available on and after the effective date of health benefits) are authorized to be made prior to the effective date of health benefits.

### EXISTING EMPLOYER-EMPLOYEE HEALTH BENEFIT PLANS

SEC. 164. (a) No provision of this Act other than this section, and no amendment of the Internal Revenue Code of 1954 made by this Act, shall affect or alter any contractual or other nonstatutory obligation of an employer to pay for or provide health services to his present and former employees and their dependents and survivors, or to any of such persons, or the amount of any obligation for payment (including any amount payable by an employer for insurance premiums or into a fund to provide for any such payment toward all or any part of the costs of such services.

(b) Any contractual or other nonstatutory obligation of the employer to pay all or part of the cost of the health services referred to in subsection (a) shall continue, and shall apply as an obligation to pay the taxes imposed on his employees by section 3101(b) of the Internal Revenue Code of 1954 (as amended by section 201(a) of this Act), but the sum of the per capita monthly amount involved in the payment of such taxes by the employer on behalf of his employees, and the per capita amount of the liability for taxes imposed on an employer by section 3111(b) of such Code (as amended by section 201(b) of this Act) shall not exceed the per capita monthly amount of the cost to the employer of providing or paying for health services (either through insurance premiums or into a fund) on behalf of persons referred to in subsection (a), for the month prior to the effective date of health security taxes (as defined in section 3121(u) of such Code, added by section 201(c) of this Act).

(c) At least for the duration of any contractual or other nonstatutory obligation of an employer referred to in subsection (a) an employer shall arrange to pay to eligible employees, former employees, and survivors subsection (a) such amounts of money by which the per capita monthly costs to the employer of providing or paying for health services referred to in subsection (a) in the month immediately preceding the effective date of health security taxes, exceed the sum of the per capita monthly costs to the employer of the taxes imposed by section 3111 (b) of such Code (as amended by section 201(b) of this Act), the employer's liability referred to in subsection (b) of this section, and any other employer contributions for health insurance premiums or health benefits or services provided by the employer after the effective date of health security benefits. By agreement between the employer and his employees or their representatives, an employer may provide other benefits of an equivalent monetary value in lieu of such payments.

(d) For purposes of subsections (b) and (c), the per capita amounts and per capita costs for an employer shall be determined by dividing the aggregate amounts and the aggregate costs by the number of eligible employees, former employees, and survivors on the date as of which the determination is made.

## TITLE II—HEALTH SECURITY TAXES

## PART A—PAYROLL TAXES

### RATES AND COVERAGE

SEC. 201. (a) Section 3101(b) of the Internal Revenue Code of 1954 (imposing a hospital insurance tax on employees) is amended to read as follows:

"(b) HEALTH SECURITY.—In addition to the tax imposed by the preceding subsection, there is hereby imposed on the income of every individual a tax equal to 1 percent of the wages (as defined in section 3121(r)) received by him on or after the effective date of health security taxes (as defined in section 3121(u)) with respect to employment (as defined in section 3121(s))."

(b) Section 3111(b) of such Code (imposing a hospital insurance tax on employers) is amended to read as follows:

"(b) HEALTH SECURITY.—In addition to the tax imposed by the preceding subsection, there is hereby imposed on every employer an excise tax, with respect to having individuals in his employ, equal to 3.5 percent of the wages (as defined in section 3121 (r)) paid by him on or after the effective date of health security taxes (as defined in section 3121(u)) with respect to employment (as defined in section 3121(s))."

(c) Section 3121 of such Code (containing definitions applicable to social security payroll taxes) is amended by adding at the end thereof the following subsections:

"(r) WAGES FOR PURPOSES OF HEALTH SECURITY TAXES.—For the purpose of section 3101 (b), and for the purpose of section 1402(b) as applied to section 1401(b), the term 'wages' shall have the meaning set forth in subsection (a) of this section (as that subsection would apply to employment as defined in subsection (s)), except that in applying paragraph (1) of subsection (a) the term 'the health security contribution base (as defined in subsection (t))' shall be substituted for the term 'the contribution and benefit base (as determined under section 230 of the Social Security Act)' each place it appears therein. For the purpose of section 3111(b), the term 'wages' shall have the same meaning, except that paragraph (1) of subsection (a) shall not be applied.

"(s) EMPLOYMENT FOR PURPOSES OF HEALTH SECURITY TAXES.—For the purposes of sections 3101(b) and 3111(b), the term 'employment' shall have the meaning set forth in subsection (b) of this section except that—

"(1) clause (B) preceding paragraph (1) of subsection (b) shall not be applied to an employee whose principal post of duty is outside the United States;

"(2) the exclusions contained in the following paragraphs of subsection (b) shall not be applied: paragraph (1) relating to foreign agricultural workers), paragraphs (5) and (6) (relating to employment by the United States or its instrumentalities) other than paragraph (6)(C)(i) (relating to the President, the Vice President, and Members of Congress) and paragraph (6)(C)(iii) through (v) (relating to certain minor employments), paragraph (8) (relating to employment by charitable and similar organizations), paragraph (9) (relating to employment covered by the railroad retirement system), and paragraph (17) (relating to employment by subversive organizations);

"(3) subsection (m) of this section (including services by members of the uniformed services in the term 'employment') shall not be applied; and

"(4) for the purposes of section 3101(b), the exclusion contained in paragraph (7) of subsection (b) of this section (relating to employment by States and their political subdivisions and instrumentalities) shall not be applied, other than paragraph (7)(C)(i) through (iv) (relating to certain minor employments by the District of Columbia).

"(t) HEALTH SECURITY CONTRIBUTIONS BASE.—The term 'health security contributions base' means, for any calendar year, $15,000 or, if higher, 125 percent of the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for such calendar year."

"(u) EFFECTIVE DATE OF HEALTH SECURITY TAXES.—The term 'effective date of health security taxes' means January 1 of the second calendar year after the year in which the Health Security Act is enacted."

### CONFORMING AND TECHNICAL AMENDMENTS

SEC. 202. (a) Section 3121(l) of the Internal Revenue Code of 1954 (relating to coverage of services performed in the employ of foreign subsidiaries of domestic corporations) is amended by striking out "sections 3101 and 3111" in paragraph (1)(A) and inserting in lieu thereof "sections 3101(a) and 3111(a)", and by inserting at the end of the subsection the following paragraph:

"(11) Nothwithstanding the provision of any agreement entered into under this subsection, no domestic corporation shall be under any obligation to pay the Secretary, with respect to services covered under the agreement and performed on or after the effective date of health security taxes (as defined in subsection (u) of this section) amounts equivalent to the taxes which would be imposed by sections 3101(b) and 3111(b) if such services constituted employment as defined in subsection (b) or subsection (s )."

(b) Sections 3122 and 3125 of such Code are amended by striking out "section 3111" wherever it appears and inserting in lieu thereof "section 3111(a)."

(c)(1) Section 3201 (relating to tax on railroad employees) and section 3211 (relating to tax employee representatives) of such Code are each amended by striking out "plus the rate imposed by section 3101(b)."

(2) Section 3221(b) of such Code (relating to tax on railroad employers) is amended by striking out "plus the rate imposed by section 3111(b)."

(d)(1) Section 6413(c)(1)(D) of such Code is amended by inserting "(i)" immediately after "(H)", by striking out "section 3101" and inserting "section 3101(a)" in lieu thereof, and by inserting immediately before the period at the end thereof: "; and (ii) during any calendar year beginning on or after the effective date of health security taxes (as defined in section 3121(u)) the wages received by him during such year exceed the health security contribution base (as defined in section 3121(t)) for that year, the employee shall be entitled (subject to the provisions of section 31(b)) to a credit or refund of any amount of tax, with respect to such wages, imposed by section 3101(b) and deducted from the employee's wages (whether or not paid to the Secretary or his delegate), which exceeds the tax with respect to an amount of such wages received in such calendar year equal to the health security contribution base for such year."

(2) Section 6413(c)(2)(A) of such Code is amended by striking out "includes for the purposes of this subsection the amount" and inserting in lieu thereof "includes for the purposes of this subsection (i) with respect to the taxes imposed by section 3101(a), the amount"; and by striking out "determined by each such head" and inserting in lieu thereof "and (ii) with respect to the taxes imposed by section 3101(b), the amount for any calendar year equal to the health security contribution base (as defined in section 3121(t)) for such calendar year; each such amount to be determined by each such head".

(e) Section 218 of the Social Security Act (relating to agreements for the coverage of serivces performed in the employ of States and their political subdivisions and instrumentalities) is amended—

(1) (A) by striking out, in subsection (e)(1)(A), "sections 3101 and 3111" and "section 3121" and inserting in lieu thereof, "sections 3101(a) and 3111(a)" and "section 3121(b)", respectively;

(B) by striking out, in subsection (e)(2)(B), "section 3111" and inserting in lieu thereof, "section 3111(a)"; and

(C) by adding at the end of subsection (e) the following paragraph:

"(3) Notwithstanding the provisions of any agreement entered into under this section, no State shall be under any obligation to pay to the Secretary of the Treasury, with respect to service covered under the agreement and performed on or after the effective date of health security taxes (as defined in section 3121(u) of the Internal Revenue Code of 1954), amounts equivalent to the taxes which would be imposed by sections 3101(b) and 3111(b) of such Code if such service constituted employment as defined in section 3121(b) or section 3121(s) of such Code."; and

(2) by striking out in subsection (h)(1), "and the Federal Hospital Insurance Trust Fund", and striking out in such subsection "subsection (a)(3) of section 201, subsection (b)(1) of such section, and subsection (a)(1) of section 1817, respectively" and inserting in lieu thereof "subsections (a)(3) and (b)(1) of section 201."

### EXCLUSION FROM GROSS INCOME

SEC. 203. (a) Section 106 of the Internal Revenue Code of 1954 (excluding from gross income employer contributions to accident and health plans for their employees) is amended by inserting immediately before the period at the end thereof: ", and payments by the employer (without deduction from the remuneration of the employees) of the tax imposed upon his employees by section 3101(b)".

(b) The heading of section 106, and the line referring to that section in the table of contents in subtitle A, chapter 1, subchapter B, part III of such Code, are each amended by adding at the end: "and employer payment of health security taxes".

### EFFECTIVE DATES OF PART A

SEC. 204. The amendments made by section 201 of this Act, and the amendments made by subsections (b) and (d) of section 202, shall be effective only with respect to remuneration received, and remuneration paid, on or after the effective date of health security taxes (as defined by section 3121(u) of the Internal Revenue Code of 1954, added by section 201(c) of this Act), and section 3121(s) of such Code shall be applicable only with respect to remuneration for services performed on or after that date. The amendments made by subsections (a), (c), and (e) of section 202 shall be effective only with respect to remuneration for services performed on or after such effective date. The amendments made by section 203 shall apply to taxable years beginning on or after such effective date.

### PART B—TAXES ON SELF-EMPLOYMENT INCOME AND UNEARNED INCOME TAX ON SELF-EMPLOYMENT INCOME

SEC. 211. (a) Section 1401(b) of the Internal Revenue Code of 1954 (imposing a hospital insurance tax on self-employed individuals) is amended to read as follows:

"(b) HEALTH SECURITY.—In addition to the tax imposed by the preceding subsection, there shall be imposed for each taxable year, on the self-employment income of every individual, a tax equal to 2.5 percent of the self-employment income for such taxable year."

(b) Section 1402(b) of such Code (defining self-employment income) is amended—

(1) by striking out "except that such term shall not include—" and inserting in lieu thereof "except that—," and by amending so much of clause (1) as precedes subclause (A) to read as follows:

"(1) for the purposes of section 1401(a), such term shall not include that part of the net earnings from self-employment which is in excess of—";

(2) by inserting, immediately after the word "wages" in each of the subclauses of clause (1), "(as defined in section 3121(b))";

(3) by striking out "or" at the end of clause (1) and inserting "and" in lieu thereof, and by striking out clause (2) and inserting in lieu thereof the following:

"(2) for the purposes of section 1401(b), such term shall not include that part of the net earnings from self-employment which is in excess of (A) an amount equal to the health security contribution base (as defined in section 3121(t)) for the calendar year in which the taxable year begins, minus (B) the amount of wages (as defined by section 3121(r) for the purpose of section 3101(b)) paid to such individual during the taxable year; and

"(3) for the purposes of both section 1401(a) and section 1401(b), such term shall not include any net earnings from self-employment if such net earnings for the taxable year are less than $400."; and

(4) by striking out "A" in the sentence following clause (3), and by changing the comma following the term "section 3121(b)" in that sentence to a period and striking out the remainder of the sentence.

(c) Section 1402(d) of the Code is amended by striking out "and the term 'wages'", and striking out "AND WAGES" in the subsection heading.

### TAX ON HEALTH SECURITY UNEARNED INCOME

SEC. 212. Section 1403 of the Internal Revenue Code of 1954 is redesignated as section 1404, and the following new section is inserted immediately after section 1402:

### "SEC. 1403. TAX ON HEALTH SECURITY UNEARNED INCOME

"(a) IMPOSITION OF TAX.—In addition to other taxes, there shall be imposed for each taxable year beginning on or after the effective date of health security taxes (as defined in section 3121(u)), on the income of every individual residing in the United States whose health security unearned income (as defined in subsection (b) of this section) for the taxable year is $400 or more, a tax equal to 1 percent of the amount of such health security unearned income for such taxable year.

"(b) DEFINITION OF HEALTH SECURITY UNEARNED INCOME.—The term 'health security unearned income' means an amount determined by deducting from the adjusted gross income of an individual for the taxable year any part of such income (whether from wages or any other source) in excess of the amount of the health security contribution base (as defined in section 3121(t)) for the calendar year in which such taxable year begins, and deducting from the remainder any part of the adjusted gross income which—

"(1) consists of wages taxable under section 3101(b), or

"(2) consists of self-employment income taxable under section 1401(b), or

"(3) consists of remuneration for services performed in the employ of the United States as President or Vice President of the United States or as a Member, Delegate, or Resident Commissioner of or to the Congress, or as a member of a uniformed service on active duty, or

"(4) consists of remuneration (not taxable under section 3101(b)) for service performed by an alien in the employ of a foreign government, an instrumentality of a foreign government, or an international organization, or

"(5) consists of payments excluded from wages taxable under section 3101(b) by reason of paragraphs (2) through (13) of section 3121(a) as incorporated in section 3121 (r), or

"(6) in the case of a taxpayer who has attained the age of 60 years before or during the taxable year, consists of any other income in an amount not exceeding $3,000."

### CONFORMING AND TECHNICAL AMENDMENTS

SEC. 213. (a) The heading and table of contents of chapter 2 of subtitle A of the Internal Revenue Code of 1954 are amended to read as follows:

"CHAPTER 2—TAXES ON SELF-EMPLOYMENT INCOME AND HEALTH SECURITY UNEARNED INCOME

"Sec. 1401. Rates of tax on self-employment income.

"Sec. 1402. Definitions relating to self-employment income.

"Sec. 1403. Tax on health security unearned income.

"Sec. 1404. Miscellaneous provisions."

(b) Section 1401 of the Code, as amended by section 211(a) of this Act, is further amended by striking out the heading of the section and inserting in lieu thereof.

"SEC. 1401. RATES OF TAX ON SELF-EMPLOYMENT INCOME."

(c) Section 1404 of the Code (as redesignated by section 212 of this Act) is amended by striking out "Self-Employment Contributions Act of 1954" and inserting in lieu thereof, "Self-Employment and Health Security Contributions Act."

(d) Section 6015 of the Code (relating to declarations of estimated income by individuals) is amended by striking out in subsection (c)(2) "the amount of the self-employment tax imposed by chapter 2" and inserting in lieu thereof "the amount of the taxes imposed by chapter 2".

(e) Section 6017 of the Code is amended—

(1) by striking out the heading of the section and inserting in lieu thereof,

"SEC. 6107. SELF-EMPLOYMENT AND HEALTH SECURITY TAX RETURNS.";

(2) by inserting, immediately after the first sentence of the section, the following sentence: "Every individual residing in the United States and having health security unearned income of $400 or more for the taxable year shall make a return with respect to the health security unearned income tax imposed by chapter 2."; and

(3) by striking out "the tax" in the sentence immediately following the insertion made by paragraph (2) and inserting in lieu thereof "the taxes", and by inserting immediately before the period at the end of that sentence, "or on the separate health security unearned income of each spouse, as the case may be".

### EFFECTIVE DATES OF PART B

SEC. 214. The amendments made by sections 211, 212, and section 213(d) and (e) (other than section 213(e)(1)) shall be effective with respect to taxable years beginning on or after the effective date of health security taxes (as defined by section 3121(u) of the Internal Revenue Code of 1954, added by section 201(c) of this Act). The amendments made by section 213 (a), (b), (c), and (e)(1) shall be effective on such effective date.

## TITLE III—COMMISSION ON THE QUALITY OF HEALTH CARE

### STATEMENT OF PURPOSE

SEC. 301. It is the purpose of this title to improve the quality of health care in the United States by establishing a Commission on the Quality of Health Care to develop parameters and standards for care of high quality, and to promote the application of such parameters and standards in assessing and enhancing the quality of care furnished under the Health Security Act.

### AMENDMENT OF THE PUBLIC HEALTH SERVICE ACT

SEC. 302. The Public Health Service Act is amended by inserting after title XI the following new title:

## "TITLE XII—COMMISSION ON THE QUALITY OF HEALTH CARE

### "ESTABLISHMENT OF THE COMMISSION

"SEC. 1201. (a) There is hereby established in the Department of Health, Education, and Welfare a Commission on the Quality of Health Care (hereinafter in this title referred to as the 'Commission'), consisting of eleven members to be appointed by the Secretary after consultation with the Health Security Board, which shall perform the functions set forth in sections 1202 and 1203.

"(b) The Commission shall consist of persons who are especially qualified by education and experience to perform the functions of the Commission, including seven persons who are representatives of providers of health services or representatives of nongovernmental organizations engaged in developing standards pertaining to the quality of health care, and four persons who are representatives of consumers of health care (who shall be persons not engaged in, and having no financial interest in, the furnishing of health services). Each member shall hold office for a term of five years, except that (1) any member appointed to fill a vacancy occurring during the term for which his predecessor was appointed shall be appointed for the remainder of that term, and (2) the terms of the members first taking office shall expire, as designated by the Board at the time of appointment, three at the end of the first year, two at the end of the second year, two at the end of the third year, and two at the end of the fourth year after the appointment and qualification of at least six members of the Commission. A majority of the members who have been appointed and qualified shall constitute a quorum for the transaction of business.

"(c) The Secretary shall designate one of the members of the Commission to serve, at the will of the Secretary, as Chairman of the Commission.

"(d) Subject to general policies established by the Secretary, and to the availability of funds, the Commission is authorized to employ such personnel as it finds necessary, including experts and consultants employed in accordance with section 3109 of title 5, United States Code, and to appoint one or more advisory committees (including a committee on the preparation and analysis of statistics) which may include officers or employees of the United States or of State or local governments. Members of committees who are not otherwise in the full-time employ of the United States, and experts and consultants employed pursuant to this subsection, while serving on business of the Commission (inclusive of travel time), shall receive compensation at rates fixed by the Commission, but not in excess of the daily rate paid under GS–18 of the General Schedule under section 5332 of title 5, United States Code; and while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in Government service employed intermittently.

### "FUNCTIONS OF THE COMMISSION

"SEC. 1202. (a) The primary responsibility of the Commission shall be the initiation and continuing development of methods of assessing the quality of health care furnished under the Health Security Act and methods of utilizing such assessments for the maintenance and improvement of quality, and the submission to the Secretary and the Health Security Board of its findings and recommendations. In discharging this responsibility the Commission shall—

"(1) undertake the systemization and nationwide collection of data bearing on (A) the qualifications of health personnel and the adequacy of health facilities to furnish care of high quality, (B) the patterns of medical and other health practice in actual episodes of care, (C) the patterns of utilization of the components of the health care system, and (D) the health of patients during and at the conclusion of episodes of health care, and the relation of the foregoing elements of health care thereto;

"(2) develop from such data (on a national or regional basis, for particular population groups, or otherwise, as the Commission may deem most useful) statistical norms and ranges with respect to aspects of health care which are comprised by each of the four elements listed in paragraph (1);

"(3) develop, on the basis of these norms and ranges, such standards (together with acceptable deviations therefrom) as will afford useful gauges of the quality of care and useful instruments for the control and improvement of quality; and

"(4) make recommendations to the Secretary and the Health Security Board for the use of standards developed under paragraph (3) in the exercise by the Board of its authority under title I, part II, of the Health Security Act, or for their use in the development of recommendations to the Congress for amendment of the Health Security Act.

In carrying out its duties under this subsection the Commission shall emphasize, and give first consideration to, care furnished for those illnesses and conditions which have relatively high incidence in the population and which are relatively amenable to medical or other care.

"(b) The Commission shall, through its staff or by contract (or both), conduct a program of research with the objectives of—

"(1) improving the technology of assessing the quality of health care, with regard for both the service input and the end result of such care;

"(2) comparing the quality of health care furnished under different systems of delivery and methods of payment;

"(3) analyzing the effects of consumer health education, and of utilization of preventive health services;

"(4) continuing the studies made by the Secretary's Commission on Medical Malpractice, and appraising the effect of measures taken by the Health Security Board pursuant to section 146 of the Health Security Act; and

"(5) obtaining other information which the Commission believes will be useful in effectuating the purposes of this title of title I, part H, of the Health Security Act.

"(c) The Commission is authorized to provide technical assistance to participating providers of health services under title I of the Health Security Act (1) in furnishing to the Health Security Board information required for purposes of the Commission, and (2) in developing and carrying out programs of quality control.

### "ADVICE TO HEALTH SECURITY BOARD PENDING DEVELOPMENT OF STANDARDS

"SEC. 1203. Pending the development of standards and recommendations pursuant to section 1202(a), the Commission shall, both before and after the effective date of health benefits under title I of the Health Security Act, on the basis of such knowledge as is available from time to time, furnish advice and recommendations to the Health Security Board on the issuance of regulations part H of such title."

"SEC. 1204. The Secretary is authorized to establish and fix the compensation for, within the Commission, not more than twenty-five positions in the professional, scientific, and executive service, each such position being established to effectuate those research and development activities of the Commission which require the services of specially qualified scientific, professional, and administrative personnel. The rates of compensation for positions established pursuant to the provisions of this subsection shall not be less than the minimum rate of grade 16 of the General Schedule of the Classification Act of 1949, as amended, nor more than the highest rate of grade 18 of the General Schedule of such Act; and such rates of compensation for all positions included in this proviso shall be subject to the approval of the Civil Service Commission. Positions created pursuant to this subsection shall be included in the classified civil service of the United States, but appointments to such positions shall be made without competitive examination upon approval of the proposed appointee's qualifications by the Civil Service Commission or such officers or agents as it may designate for this purpose."

### TECHNICAL AMENDMENTS TO THE PUBLIC HEALTH SERVICE ACT

SEC. 303. (a) Section 1 of the Public Health Service Act is amended by striking out "titles I to IX" and inserting in lieu thereof "titles I to XII".

(b) The Act of July 1, 1944 (58 Stat. 682), is further amended by renumbering title XII (as in effect prior to the date of enactment of this Act) as title XIII, and by renumbering sections 1201 through 1214 (as in effect prior to such date) and references thereto as sections 1301 through 1314, respectively.

## TITLE IV—REPEAL OF AMENDMENT OF OTHER ACTS

### REPEAL OF MEDICARE AND FEDERAL EMPLOYEE HEALTH BENEFIT STATUTES

SEC. 401. (a) Effective on the effective date of health security benefits (set forth in section 163)—

(1) Title XVIII of the Social Security Act, except section 1817 thereof, is repealed.

(2) The Act of September 28, 1959 (5 U.S.C., chap. 89), and Public Law 86–724 are repealed.

(b) Subsection (a) shall not affect any right or obligation arising out of any matter occurring before the effective date of health security benefits or any administrative or judicial proceeding (whether or not initiated before that date) for the adjudication or enforcement of any such right or obligation.

### MEDICAID STATUTE

SEC. 402. After the effective date of health security benefits no State (as defined in section 1101(a)(1) of the Social Security Act) shall be required, as a condition of approval of its State plan under title XIX of that Act, to furnish any service which constitutes a covered service under title I of this Act, and any amount expended for the furnishing of any such service to a person eligible for services under title I of this Act shall be disregarded in determining the amount of any payment to a State under such title XIX. The Secretary of Health, Education, and Welfare shall by regulation prescribe the minimum scope of services required (in lieu of the requirements of section 1902(a)(13) of the Social Security Act) as a condition of approval, after the effective date of health security benefits, of a State plan under such title XIX. Such minimum scope of services shall, to the extent the Secretary finds practicable, supplement the benefits available under title I of this Act, including supplementation with respect to the duration of skilled nursing home services during the benefit period and with respect to the furnishing of dental services and of drugs (appearing on the list established under section 25(b) of this Act) to persons not entitled to such services, or not entitled to such drugs, under title I of this Act.

### VOCATIONAL REHABILITATION ACT: MATERNAL AND CHILD HEALTH AND CRIPPLED CHILDREN'S SERVICES

SEC. 403. Funds made available under the Vocational Rehabilitation Act or under title V of the Social Security Act shall not be used, after the effective date of health security benefits, to pay for personal health services available under title I of this Act; but they may; in accordance with regulations of the Secretary of Health, Education, and Welfare, be used (a) to pay for institutional services which are either more extensive or more intensive than the services recognized in institutional budgets approved under title I of this Act, or (b) to pay for special medical or other procedures peculiar to vocational rehabilitation, or peculiar to the correction or amelioration of defects or chronic conditions of crippled children, as the case may be.

### AMENDMENT OF SECTION 1122 OF THE SOCIAL SECURITY ACT

SEC. 404. (a) Section 1122 of the Social Security Act is amended—

(1) by striking out the word "titles V, XVIII, and XIX" wherever they appear in the section and inserting in lieu thereof "titles V and XIX of this Act and title I of the Health Security Act", and striking out "title V, XVIII, or XIX" in subsection (d)(2) and inserting in lieu thereof "title V or XIX of this Act or title I of the Health Security Act";

(2) by striking out the words "in determining the Federal payments" wherever they appear in subsections (d)(1) and (e) and inserting in lieu thereof "for the purpose of determining the Federal payments";

(3) by striking out in subsection (d)(1) "not include any amount" and "exclude an amount" and inserting in lieu thereof, respectively, "not include, and shall direct the Health Security Board not to include any amount" and "exclude, and shall direct the Health Security Board to exclude, an amount";

(4) by striking out in subsection (e) "deduct the amount" and "deduct any amount" and inserting in lieu thereof, respectively, "deduct, and direct the Health Security Board to deduct, the amount", and "deduct, and direct the Health Security Board to deduct, any amount"; and

(5) by striking out in subsection (i)(2) "the Health Insurance Benefits Council" and insert in lieu thereof "the National Security Advisory Council".

(b) The amendments made by subsection (a) shall be effective upon the effective date of health security benefits except that prior to that date the Secretary of Health, Education, and Welfare may issue to the Health Security Board directions for reductions in payments to be made on and after the effective date.

### REPEAL OF TITLE XI, PART B, OF THE SOCIAL SECURITY ACT

SEC. 405. Part B of title XI of the Social Security Act (relating to Professional Standards Review), and section 249F of the Social Security Amendments of 1972 (which added that part to the Act) are repealed, effective on the effective date of health security benefits.

### TRANSFER AND AMENDMENT OF SECTION 1817, AND AMENDMENT OF SECTION 201(g), OF THE SOCIAL SECURITY ACT

SEC. 406. (a) Section 1817 of the Social Security Act (creating the Federal Hospital Insurance Trust Fund and appropriating to the fund the proceeds of the hospital insurance payroll taxes and the hospital insurance self-employment tax) is redesignated as section 61 and is transferred to this Act, to appear under the heading "HEALTH SECURITY TRUST FUND" as the first section of part D of title I; and is amended—

(1) by striking out the section heading, and by striking out the name of the trust fund appearing in subsection (a) and inserting in lieu thereof, "Health Security Trust Fund";

(2) by striking out paragraph (2) of subsection (a) (appropriating to the Trust Fund the proceeds of the self-employment tax for hospital insurance) and inserting in lieu thereof:

"(2) the taxes imposed by section 1401(b) of the Internal Revenue Code of 1954 with respect to self-employment income, and by section 1403 of the Code with respect to unearned income, reported to the Secretary of the Treasury or his delegate on tax returns under subtitle F of such Code."

(3) by striking out subsections (g) and (h), and inserting in lieu thereof:

"(g) On the effective date of health benefits, there shall be transferred to the Trust Fund all of the assets and liabilities of the Federal Supplementary Medical Insurance Trust Fund. The Health Security Trust Fund shall remain subject to the liabilities of the Federal Hospital Insurance Trust Fund existing immediately prior to such effective date.

"(h) In addition to the sums appropriated by subsection (a), there are authorized to be appropriated to the Trust Fund from time to time, out of any moneys in the Treasury not otherwise appropriated, a Government contribution equal to 100 per centum of the sums appropriated by subsection (a). There shall be deposited in the Trust Fund all recoveries of overpayments, and all receipts under loans or other agreements entered into, under this title.

"(i) The managing trustee shall pay from time to time from the Trust Fund such amounts as the Board certifies are necessary to make payments provided for by this title, and the payments with respect to administrative expenses in accordance with section 201(g) of the Social Security Act."

(b) Section 201(g) of the Social Security Act providing for annual authorization by the Congress of payment, from the respective trust funds, of the cost of administering the several national systam of social insurance) is amended—

(1) by striking out in paragraph (1)(A) "the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical In-

surance Trust Fund" and inserting in lieu thereof: "the Health Security Trust Fund";

(2) by striking out the words "title XVIII" wherever they appear in the subsection and inserting in lieu thereof: "title I of the Health Security Act"; and

(3) by striking out the words "for which the Secretary of Health, Education, and Welfare is responsible" wherever they appear in paragraph (1)(A), and inserting in lieu thereof, "for which the Secretary of Health, Education, and Welfare and the Health Security Board are responsible".

(c) All references to the Federal Hospital Insurance Trust Fund or the Federal Supplementary Medical Insurance Trust Fund, appearing in any Act other than this Act or the Social Security Act, shall be deemed to refer to the Health Security Trust Fund.

(d) For the effective date of subsections (a) and (b), see section 163 Subsection (c) shall be effective on and after the effective date of health benefits.

### AMENDMENT OF SECTION 314 OF THE PUBLIC HEALTH SERVICE ACT

SEC. 407. (a) Section 314(a) of the Public Health Service Act (authorizing grants for comprehensive State health planning) is amended—

(1) by striking out "June 30, 1973" in the first sentence of paragraph (1) and inserting "June 30, 1978" in lieu thereof, and by striking out "and" after "June 30, 1972," in the second sentence of the paragraph and inserting before the period at the end of the paragraph: "and for each of the five succeeding fiscal years, so much as may be necessary"; and

(2) by redesignating paragraphs (D) through (K) of subsection (a)(2) as paragraphs E) through (L), respectively, and by inserting immediately after paragraph (C) a new paragraph:

"(D) provide that the State agency will place emphasis on the achievement, in consultation with the Secretary, of the purposes set forth in section 102 of the Health Security Act, and will utilize and coordinate all local or particularized health planning activities within the State (including coordination with planning for interstate areas), and coordinate health planning with planning in related fields;".

(b) Paragraph (1)(A) of section 314(b) of the Public Health Service Act (authorizing project grants for areawide health planning) is amended—

(1) by striking out "June 30, 1973" in the first sentence and inserting "June 30, 1978" in lieu thereof;

(2) by inserting immediately before the last sentence, "In approving grants under this subsection the Secretary shall take into consideration the extent to which the agency or organization will supplement or otherwise contribute to the effectiveness of the planning conducted by the State agency pursuant to paragraph (D) of subsection (a)(2)." and

(3) by striking out "and" after "June 30, 1972," in the last sentence, and inserting before the period at the end of the paragraph: "and for each of the succeeding five fiscal years, so much as may be necessary".

### SALARY LEVELS

SEC. 408. (a) Section 5313, title 5, United States Code (relating to executive pay rates for positions at level II) is amended by adding at the end thereof the following new clause:

"(22) Deputy Secretary of Health, Education, and Welfare."

(b) Section 5314, title 5, United States Code (relating to executive pay rates for positions at level III) is amended by striking out clause (7) and inserting in lieu thereof:

"(7) Under Secretary for Health and Science, Department of Health, Education, and Welfare.";

and by adding at the end thereof the following new clause:

"(59) Chairman, Health Security Board, Department of Health, Education, and Welfare."

(c) Section 5315, title 5, United States Code (relating to executive pay rates for positions at level IV), is amended by adding at the end thereof the following new clause:

"(97) Members (other than the Chairman), Health Security Board, Department of Health, Education, and Welfare (4).

"(98) Members, Commission on the Quality of Health Care, Department of Health, Education, and Welfare (11)".

(d) Section 5316, title 5, United States Code (relating to executive pay rates for positions at level V) is amended by adding at the end thereof the following new clause:

"(132) Executive Director, Health Security Board, Department of Health, Education, and Welfare."

## TITLE V—STUDIES RELATED TO HEALTH SECURITY

### STUDY OF THE PROVISION OF HEALTH SECURITY BENEFITS TO U.S. CITIZENS IN OTHER COUNTRIES

SEC. 501. The Secretary of Health, Education, and Welfare, in consultation with the Secretary of State and the Secretary of the Treasury, shall study (a) the practicability and the means of making prepaid health services (or prepaid indemnification for the cost of health services) available, more widely than can be done under section 12 of this Act, to citizens of the United States who are resident in other countries or are temporarily visiting such countries, by supplementing the authority for reciprocal arrangements under section 12 with authority for payments from the Health Security Trust Fund, and (b) means of equitably financing such services (or indemnification) through the extension of health security taxes; and not later than five years after the enactment of this Act shall report to the Congress his findings and recommendations.

### STUDY OF COORDINATION WITH OTHER FEDERAL HEALTH BENEFIT PROGRAMS

SEC. 502. (a) The Secretary of Health, Education, and Welfare shall conduct studies of the most satisfactory means of coordinating the program for the health care of merchant seamen, the program for the health care of Indians and Alaskan Natives, or both, with the system of health security benefits created by this Act; the Administrator of Veterans' Affairs and the Secretary shall conduct a joint study of the most satisfactory means of coordinating with that system some or all of the programs for the health care of veterans; and the Secretary of Defense and the Secretary of Health, Education, and Welfare shall conduct a like joint study with respect to the program of health benefits furnished by civilian facilities and personnel to dependents of members of the Armed Forces. Reports of these studies, and legislative recommendations to achieve improved coordination, shall be submitted to the Congress not later than three years after the enactment of this Act.

(b) In conducting the studies required by this section, the Secretaries and the Administrator, as appropriate, shall consult with representatives of the respective beneficiary groups, and shall include in their reports to the Congress summaries of the views of such representatives.

### GENERAL PROVISIONS

SEC. 503. (a) There are hereby authorized to be appropriated such sums as may be necessary for the conduct of the studies authorized by this title.

(b) In conducting such studies the Secretary of Health, Education, and Welfare, the Secretary of Defense, and the Administrator of Veterans' Affairs are each authorized (1) to appoint such experts and consultants (employed in accordance with section 3109, of title 5, United States Code) and such advisory committees as they may deem necessary; and (2) to enter into contracts with public or private agencies or organizations for the collection of information, the conduct of research, or other purposes related to the respective studies. Experts and consultants and members of advisory committees appointed under this subsection, while serving on business related to the studies (inclusive of traveltime), shall receive compensation at rates not in excess of the daily rate paid under GS–18 of the General Schedule under section 5332 of title 5, United States Code; and while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in Government service employed intermittently.

Mr. KENNEDY. Mr. President, on behalf of myself and Mr. ABOUREZK, Mr. CASE, Mr. CLARK, Mr. CRANSTON, Mr. GRAVEL, Mr. HART, Mr. HATHAWAY, Mr. HUGHES, Mr. HUMPHREY, Mr. INOUYE, Mr. JAVITS, Mr. MCGEE, Mr. MCGOVERN, Mr. METCALF, Mr. MONDALE, Mr. MOSS, Mr. MUSKIE, Mr. PASTORE, Mr. PELL Mr. RANDOLPH, and Mr. TUNNEY, I have introduced in this body, S. 3, the Health Security Act of 1973.

This bill proposes to establish a program that will assure health security to all Americans even as legislation of the 1930's assured them social security. The bill would cover every resident of this Nation with health insurance for the vast majority of essential health services. This insurance coverage would be provided regardless of where a person lives, where he works, his medical history, his income, the size of his family, or any other factor.

Moreover, he would pay for this insurance according to his ability to pay. Contrary to present insurance practice, he would not pay a flat premium regardless of income. He would not pay more if he or his family have a history of medical problems. He would not pay more if he has a dangerous job—or lives in a bad neighborhood.

This proposed legislation is the answer to providing good health insurance to every American on an equitable basis. It is also the answer to controlling the skyrocketing costs of health care to assuring that quality health services are available and nearby when we need them, and to organizing health services in ways that help us to find the right doctor or the right service to fit our particular need.

This legislation, in other words, not only seeks to provide every American with enough insurance to enable him to purchase whatever health care he needs—it seeks also to assure that good health services are actually made available to each of us where and when we need them, and in a form that we can understand and use.

In accomplishing these goals the bill protects the rights of both doctor and patient—both provider and consumer of services. It assures that services are available by offering providers the resources and incentives to make them available. Indeed, the bill would usher in a new era of opportunity for provider and consumer alike.

### THE LESSONS OF MEDICARE AND MEDICAID

This is the only national health insurance legislation before Congress which extends insurance coverage to all Americans on so equitable a basis, and couples this with so serious an effort to reform our health care system to assure that good services are actually available. The history of medicare and medicaid has taught us that attempts to offer health insurance on a piecemeal basis to segments of our population—without major efforts to expand and reform our health care system—result in increased inflation which robs Americans of much of the benefit of the new insurance. Medicare today covers less than half of the health care costs of the elderly, due in part to rising health care costs stimulated by passage of the medicare program. Many elderly Americans today, in fact, pay more for health care under medicare than they paid before the program was passed.

This legislation which I introduce today, the health security program, does not make this same mistake. It couples increased purchasing power through improved insurance with expanded and improved services. Moreover, it establishes budgeting mechanisms designed to bring the cost of health services in America under reasonable control.

This program will ultimately assure every American of the good health care he needs at a cost he can afford—and it will do this for less cost to our Nation than our present system, or any other pending health insurance proposal.

### THE HEALTH CARE CRISIS

We are in the midst of a crisis in health care in America. There are many aspects to this crisis. But the aspect known best by every American is the crisis in costs.

### THE CRISIS IN COSTS

Hospital costs have risen. Doctor bills have risen. And insurance premiums have risen to keep pace. Every American family feels the pressure of this inflation. The average wage earner now works 1 month a year just to pay his health care and health insurance bills.

And there is no limit in sight. There is nothing at present built into our health care system that will assure an end to this inflation. Unless our Nation takes action to slow this progress, health care will cost Americans more and more each year.

The answer to this problem is not to cut back on benefits, to raise insurance premiums even more, or to simply offer more insurance to more Americans. The answer is to reform our health care system and bring these costs under control.

### THE COST OF HEALTH SECURITY

There has been a great deal of debate about the costs of national health insurance. Opponents of the health security program which I introduce today have argued the program will cost too much—as if "cost" means what appears in the Federal budget.

Well, it is true that under the health security program more money will pass through the Federal budget than under other proposals. But, that is because the Federal Government under this proposal becomes the health insurance agent for the Nation. The billions of dollars that are currently paid to insurance companies would be paid to the Federal Government under the program. Likewise, since this program covers all essential health services without deductibles, coinsurance or limitations, billions of dollars that Americans currently pay to doctors, hospitals, laboratories, dentists, drug stores, and other providers would also be paid to the Government.

The Government would collect these funds and serve as Americans' agent in paying these bills. Yes, the funds would flow through the Federal budget in this process. But, cost is not what appears in the Federal budget. Any American family will tell you that cost is what comes out of his paycheck—or out of his pocketbook.

Under the Health Security Act Americans will pay: more health insurance premiums, little or no doctor bills, little or no hospital bills, fewer dental bills, fewer drug bills, and less of many other health care costs.

Instead, Americans will pay taxes geared to their income. The average family, in the early years of the program, will pay the Government roughly the same amount for health care that it is currently paying the insurance companies, the doctors and others. The difference is, the average family will have a far better insurance policy and will get broader services for their money. Moreover, as the cost controls in the health security program take hold, the health security program will cost less than our present system would cost, even with its poorer services.

This cost saving is effected through strong budget controls over the health care system—and through such efficiencies as have been demonstrated in health maintenance organizations. A recent GAO study of health facility construction costs said:

> Various studies have shown that prepaid group practice members compared with traditional insurance plan members (1) have substantially lower hospital use rates, generally at least 20 percent less, (2) have lower surgery rates, and (3) compare favorably on other measures of health care.

The same study indicated these organizations reduce the need for hospital beds by 20 percent.

By offering incentives to providers to form health maintenance organizations, the health security program will save millions of dollars on expensive hospital care. Organizations, through these savings, can offer good care to Americans at far lower cost than under the current system.

The fact is that the health security program will cost far less out of the workingman's paycheck and pocketbook. It will cost far less to our Nation in terms of gross expenditures for health care. These are the real costs that both the average family and this Government need to come to terms with and face up to. These are the costs that will be brought under control by the health security program.

### COMMUNITIES WITHOUT DOCTORS

But the health care crisis in America is not a matter of inflation and rising costs alone. The crisis is also evident to the 5,000 American communities that have no doctor, and to patients who wait in city hospital emergency rooms 6 or 8 hours for help because they have no doctor or because they cannot reach him after hours. This legislation sets aside funds, establishes planning procedures, and creates incentives to attract health professionals and build facilities accessible to every community—and to allow imaginative professionals to offer health care in new ways designed to meet the special needs of these rural and urban communities.

### THE CRISIS OF DISORGANIZATION

The crisis is also evident to patients who spend hours waiting at the doctor's office only to be sent to a laboratory for tests, then waiting at a specialist's office perhaps only to be sent to yet another laboratory for more tests, then perhaps back to the first doctor or to a hospital or a drugstore. Each stop involves waiting, some involve traveling across town and back, and some involve making appointments way in advance. All in all, it can take days or weeks to complete the process; it can cost extra dollars for repeated tests and duplicate records, and worst of all, it can discourage the elderly, the firm, or the poor from completing the course.

And the whole process is geared more to responding to the patient for a specific disease, than to viewing the patient as a whole with the intention of preventing diseases and keeping him well.

The health security legislation encourages health professionals to reorient their efforts toward preventative care, and to offer more tightly organized forms of health care to Americans who choose it. It does this by building in long-term economic incentives to professionals who start health maintenance organizations, foundations, and other new forms of care—as well as offering the resources needed to underwrite the startup and initial operating losses of some organizations.

### THE CRISIS IN QUALITY OF CARE

The crisis is evident, too, to Americans who suffer needlessly because they can not get to the skilled services or facilities they need, or because they receive less than the best quality care. The fact is that the quality of health care varies greatly in America. There is too much unnecessary or ill-advised surgery performed. There are too many missed diagnoses. It is not necessarily due to greed, to incompetence, or to carelessness. It is simply that our Nation is trying to offer sophisticated 20th century medical care through 19th century organizations.

We have created scores of new and interrelated specialties but continue to think the physician can operate on his own with no close formal relations to other physicians of other specialties. Most physicians practice solo or in groups of the same specialty. The patients medical records, like his physicians, are scattered all over town, and sometimes it is the patient who decides what specialist he needs for a given problem. It seems clear that, in this fragmented system, a patient is likely to be treated by the specialist he chooses from the perspective of that specialty. A surgeon, for example, is more likely to pursue a surgical solution to a problem than would an internist, if other approaches are possible—especially if consultation between the specialists is cumbersome and there is no real incentive to explore all possible solutions. The delay and clumsiness of referral and consultation can also lead to missed diagnoses—as can the absence of a complete medical record to the doctor who is making the diagnosis.

Moreover, we have for the most part continued to license health professionals on a once and for all basis, while medical knowledge has literally exploded during recent decades. We have not required continuing education of physicians whose training was completed decades ago—and more importantly, we have made minimal efforts to establish continuing programs to meet these physicians' particular needs and problems.

This health security program establishes national licensure and continuing education requirements—as well as the resources for conducting these programs. It also establishes a National Quality of Care Commission in the Department of Health, Education, and Welfare to gather statistics, establish guidelines, and set standards of quality based on the advice of health professionals and it strengthens local peer review organizations to review services in their area in the light of these standards. The program further establishes referral requirements that assure a variety of treatments are considered before a patient is subjected to lengthy or costly procedures. All of these features are aimed at providing the incentives and resources to health professionals to reorganize health care in a way consistent with the enormous complexity of modern medicine—and assuring every American that he is getting the best health care possible whenever he encounters our health care system.

### THE CRISIS OF INADEQUATE HEALTH INSURANCE

But perhaps the crisis in health care is most obvious to Americans whose health insurance has run out, who cannot get insurance because of their medical history, or who simply cannot afford to buy good insurance. Many Americans of all incomes have been bankrupted by health care costs which continue after their insurance runs out. They then join the ranks of Americans whose medical history makes it impossible to buy good insurance at all, and millions of other Americans of low income who are not eligible for group plans and cannot afford decent insurance.

For these Americans who have no decent insurance every illness can turn into a financial disaster. Since every penny comes out of an already limited income, they weigh every decision as to whether or not to seek a doctor—and sometimes they wait too long and suffer needless pain.

There is no way to tell how many children grow up in America with needlessly twisted limbs, dulled minds, or other handicaps simply because fear of the cost kept his parents away from the doctor for too long. There is no way to tell how many Americans suffer needless pain and even early death simply because good health costs too much. It is clear, however, that these things can and do happen all too often for a country as advanced as America.

The problem is our hopelessly fragmented health insurance system which encourages insurance companies in the name of profit to exclude Americans who need care the most, or to limit their policies to the most profitable benefits that they can market. This crazy-quilt system also frustrates the providers of care. Doctors and hospitals are faced with providing expensive services to millions of Americans whose insurance may or may not pay—knowing frequently that if the insurance does not come through there is little hope of the patient being able to pay the bill.

The provider deserves a fair fee for his services. The answer to our health insurance dilemma is not to require the provider to offer free care—it is to create an insurance system that assures that every American is covered for basic health care. If we insist that health professionals should offer help to everyone who needs it, and Americans do insist on that, then we should make sure that every American is covered by an insurance policy that will pay the provider a fair fee for his service.

Nor should insurance coverage influence the provider's method of treatment. Too often providers are encouraged to hospitalize a patient in order that insurance will cover the cost. Insurance should be comprehensive enough to cover whatever course of treatment the physician considers medically appropriate.

The health security program assures this by covering all Americans with comprehensive health insurance coverage from the Federal Government. When this legislation is passed—

No American family will be bankrupted by the cost of care;

No American will be kept from needed care for fear of the cost;

Doctors and hospitals will not be forced to write off bills or hire bill collectors. They will bill one source on one form and know in advance that they will be paid; and

Providers will be freed to offer care in the most medically acceptable way, without regard to insurance coverage.

This program will free the patient to seek health care, and it will free the provider to be a physician and healer rather than an accountant.

### THE FEDERAL GOVERNMENT AS INSURANCE CARRIER

The health security program makes the Federal Government the insurance agent for all Americans. This is essential to the program. It is essential in order to assure that all Americans have the same comprehensive insurance coverage at a cost they can afford. It is essential also to bringing about reform in our health care system, because this role as the insurance carrier is the lever we need to control costs and improve the way health care is organized and delivered in our Nation. I say "we," because I conceive of this lever as an instrument that providers and customers of health care alike will use to establish the incentives and set aside the resources necessary to bring about change. This national program will be shaped by the best thinking and in the best interests of both providers and consumers.

I believe that the private health insurance industry has failed us. It fails to control costs. It fails to control quality. It provides partial benefits, not comprehensive benefits; acute care, not preventive care. It ignores the poor and the medically indigent.

Despite the fact that private health insurance is a giant $20 billion industry, despite more than three decades of enormous growth, despite massive sales of health insurance by thousands of private companies competing with each other for the health dollar of millions of citizens, health insurance benefits today pay only 40 percent of the total cost of private health care, leaving 60 percent to be paid out of pocket by the patient at the time of illness or as a debt thereafter, at the very time when he can least afford it.

Nearly all private health insurance is partial and limited. For most citizens, their health insurance coverage is more loophole than protection.

Too often, private carriers pay only the cost of hospital care. They force doctors and patients alike to resort to wasteful and inefficient use of hospital facilities, thereby giving further impetus to the already soaring cost of hospital care and unnecessary strains on health manpower.

Valuable hospital beds are used for routine tests and examinations which, under any rational health care system, would be conducted on an outpatient basis.

Unnecessary hospitalization and unnecessarily extended hospital care are encouraged for patients for whom any rational system would provide treatment in other, less elaborate facilities.

There is no way we can use the private health insurance industry to offer all Americans the protection they need. There is no way the Nation can use this industry as a lever to encourage change and reform in the health care system.

It is for these reasons that this legislation proposes to make the Federal Government the health insurance agent in a national program of health security.

### GUARANTEES TO THE NATION'S DOCTORS AND OTHER PROVIDERS

America's health professionals are the backbone of health care in the Nation. Without their strong and creative efforts, we will never solve any of our health care problems in America. I intend to protect the rights of America's providers, and assure them their rightful leadership role in any efforts Congress makes to improve our health care system.

The health care crisis in our Nation is as apparent to providers as to the patient. Providers are concerned with disorganization of services, with quality of care, with inadequate and fragmented insurance coverages, and with the shortage and maldistribution of health professionals and facilities. These problems frustrate providers' attempts to serve the people who need care the most. They involve them in a tangle of cumbersome referrals and cross-referrals. They occasionally have him without proper facilities and associates. And the insurance redtape frequently turns the physician into a bookkeeper.

The health security program does not

aim at taking responsibility for reform away from the providers. Rather, it offers providers the incentives and resources they need to bring about the reform both they and their patients so badly need. Indeed, the program creates a lever which I hope providers will help to use responsibly to bring about change.

The program's intent is to in fact free providers of some of the constraints that limit them. For example,

The Health Security Act allows all varieties of medical practice—whether solo, fee-for-service practice; or prepaid group practice; or anything in between. It is not the program's intent to stifle any form of practice. Instead, we want to encourage all forms of practice that improve efficiency and quality.

Let me offer a series of guarantees to protect the fundamental principles important to American physicians.

The first guarantee is that the Federal Government in this Nation must not own the hospitals or employ the physicians. I do not want to build a British health care system in the United States. I do not want socialized medicine in America.

I believe in maintaining the free enterprise system in this country and in American medicine. In fact, I would like to see even more variety, and more competition in the health care system between different forms of health care. I look forward to a day when physicians can practice in solo practice, in HMO's, in medical foundations, in large groups, or in any other way that is efficient and beneficial to the patients and doctors, too. I believe we can create a uniquely American health care system that will preserve free enterprise for the doctors, and still offer your patients the financial support and adequate care they need.

My second guarantee is that we must not remove the freedom of every physician to choose where and how he provides health care. Just as we must not remove the freedom of the patient to choose how he receives that care. I do not want to "hijack" medical students into particular specialties or locations because that is what an almighty government says they should be trained for or where they should be sent. We will never produce decent health care by methods such as that.

What we must do is create every possible incentive, every possible attraction to young physicians to enter fields of practice and sections of the country where the need for health is not being met today. We must create new patterns of care and take every possible step to assure that where the need is greatest, the opportunity for a rewarding professional career is also greatest.

Nor do I want Americans to be assigned as patients to one physician or another, or to one organization or another for their health care. In sum, I want Americans to have maximum choice in this regard. Only in this way can we produce a system that is fair to doctors and patients alike.

My third guarantee is that the Federal Government must not make medical judgments or interfere in the clinical decisions between a doctor and his patient. What we must do is encourage physicians to take the actions necessary to assure Americans that they are receiving the finest possible care that American medicine can offer.

My fourth guarantee is that we must not create an overarching Federal agency in Washington, telling every area and community in this Nation exactly how they must offer health care. What we must do is to set national guidelines and standards, within which local agencies can develop the best possible health care programs for the doctors and patients in their areas.

I subscribe completely to these guarantees, and I am confident that they will be at the heart of any national health care legislation which Congress may enact.

### COMPARISONS WITH OTHER NATIONS

The know-how exists to create a better organized system of health care in America. Other nations have in fact gone ahead of us in this regard. The United States is the only major industrial nation in the world without a system of national health insurance or a national health service. While none of these systems seem suited to America's values and society, they have, in fact, succeeded in moving their nations ahead of our country in many important areas.

In infant mortality, among the major industrial nations of the world, the United States today trails behind 14 other countries, including all the Scandinavian nations, most of the British Commonwealth, Japan, and East Germany. Half of these nations were behind us in the early 1950's.

We trail six other nations in the percentage of mothers who die in childbirth. In the early 1950's, we had the lowest rate of any industrial nation.

Tragically, the infant mortality rate for nonwhites in the United States is nearly twice the rate for whites. And nearly five times as many nonwhite mothers die in childbirth as whites—shameful evidence of the ineffective prenatal and postnatal care our minority groups receive.

The story told by other health indicators is equally dismal. The United States trails 27 other nations in life expectancy for males at age 45, and 11 other nations in life expectancy for females.

In fact, our Nation has the potential for higher levels of health than any of these nations because of our far vaster health care resources, and the brilliant record of American medical research. I believe the health security program is a uniquely American approach to organizing health care that will capitalize on these strengths and preserve the basic values of doctor and patient alike.

### THE DEVELOPMENT OF THE HEALTH SECURITY PROGRAM

Walter Reuther, the late president of the United Auto Workers, was among the first to see that financing programs like medicare and medicaid or extensions of private health insurance could not resolve the crisis of disorganization and the spiraling cost of health care. Walter Reuther understood that the Nation needed to take a bold step forward. In November 1968, he announced the formation of the Committee of One Hundred for National Health Insurance. As he said, in establishing the mandate of the committee:

> I do not propose that we borrow a national health insurance system from any other nation. No nation has a system that will meet the peculiar needs of America. I am confident that we have in America the ingenuity and the social inventiveness needed to create a system of national health insurance that will be uniquely American—one that will harmonize and make compatible the best features of the present system, with maximum freedom of choice, within the economic framework and social structure of a national health insurance system.

Joining Walter Reuther on that committee were Dr. Michael E. deBakey, president of Baylor College of Medicine; Mrs. Mary Lasker, president of the Albert and Mary Lasker Foundation; Mr. Whitney M. Young, Jr., executive director of the National Urban League; and other outstanding citizens from the fields of medicine, public health, industry, agriculture, labor, education, the social services, youth, civil rights, religious organizations, and consumer groups. I have had the honor of serving on that committee, along with my Senate colleague WILLIAM SAXBE, and my former colleagues, Ralph Yarborough and John Sherman Cooper.

In its efforts over the past 4 years, the committee has worked to develop a sound program for improving the organization, financing and delivery of health services to the American people. The committee's deliberations were based upon the premise that progress toward a more rational health system should be orderly and evolutionary. The members of the committee felt that a better system of health care for America should rest upon the positive motivations and interests of both consumers and providers of health services. They believed that no system could succeed if it were imposed by fiat through rigid legislation and administrative regulations.

Throughout its deliberations, the committee has been guided by the work of its distinguished technical subcommittee, chaired by Dr. I. S. Falk, professor emeritus of public health of Yale University and the most eminent authority in the field of health economics in the Nation. The committee consulted extensively with representatives of professional associations, consumer organizations, labor unions, business groups, and many other interested organizations. The health security program is the result of these efforts, and it gives careful consideration to the recommendations of all of these groups.

In August 1970, Senators COOPER, SAXBE, Yarborough, and I, together with 11 other Senators, introduced the original version of the health security program as S. 4297 in the 91st Congress.

At the time the bill was originally introduced, Congresswoman MARTHA GRIFFITHS of Michigan had already introduced legislation in the House of Representatives to create a national health insurance program similar in overall concept to the health security program, and her bill had received the strong endorsement of the AFL–CIO, under the leadership of President George Meany.

These two bills were combined into a strong new Health Security Act of 1971, which was introduced in the 92d Congress as S. 3 and H.R. 22. Both the Senate Finance and House Ways and Means Committees held hearings on this program, and their chairmen have indicated their intent to take further action on national health insurance in this 93d Congress.

### THE HEALTH SECURITY ACT OF 1973

The revised Health Security Act of 1973 is the product of this long and arduous process of refinement. Improvements have been made in the areas of dental benefits and long-term care in the home—as well as in the program's quality controls. Other refinements lighten the program's tax burden on the elderly.

Essentially, however, this new bill retains the basic principles of the bill introduced in the 92d Congress. I am convinced that this 93d Congress will turn primary attention to the area of health care, and will go down in history as the Health Congress. I commend this health security program to my colleagues' attention.

For my colleagues' benefit, I ask unanimous consent to have printed in the RECORD a description of the major provisions of the bill and a section-by-section analysis.

The PRESIDING OFFICER. Without objection, it is so ordered.

### MAJOR PROVISIONS OF THE HEALTH SECURITY PROGRAM

The Health Security program is intended to be comprehensive and extensive. At the conclusion of my remarks in the Congressional Record, I will include a section-by-section analysis of the bill and the text of the bill itself, so that the details of its provisions may be widely available to all. At this time, however, I would like to call attention to its main provisions:

### BASIC PRINCIPLE

Basic principle—The basic principle of the Health Security program is two-fold: to establish a system of comprehensive national health insurance for the United States, capable of bringing the same high quality health care to every resident; and, to use the program to bring about major improvements in the organization and delivery of health care in the Nation.

The Health Security program does not envisage a national health service, in which Government owns the facilities, employs the personnel, and manages all the finances of the health care system. On the contrary, the program proposes a working partnership between the public and private sectors. There will be Government financing and administrative management, accompanied by private provision of personal health services through private practitioners, institutions, and other providers of health care.

Persons eligible for benefits—Every individual residing in the United States will be eligible to receive benefits. There will be no requirement of past individual contributions, as in Social Security, or a means test, as in Medicaid.

Starting date for benefits—July 1, 1975. The 2-year tooling-up period prior to that date will be used to prepare the health care system for the program.

Covered benefits—With certain modest limitations, the program will provide comprehensive health benefits for every eligible person. The benefits available under the program will cover the entire range of personal health care services, including the prevention and early detection of disease, the care and treatment of illness, and medical rehabilitation. There are no cutoff dates, no coinsurance, no deductibles, and no waiting periods.

For example, the program provides full coverage for physicians' services, inpatient and outpatient hospital services, and home health services. It also provides full coverage for other professional and supporting services, such as optometry services, podiatry services, devices, and appliances, and certain other services under specified conditions.

The four limitations in the otherwise unlimited scope of benefits are dictated by inadequacies in existing health resources or in management potentials. They deal with nursing home care, psychiatric care, dental care, and prescription drugs, as follows:

Skilled nursing home care is limited to 120 days per benefit period. The period may be extended, however, if the nursing home is owned or managed by a hospital, and payment for care is made through the hospital's budget.

Psychiatric hospitalization is limited to 45 consecutive days of active treatment during a benefit period, and psychiatric consultations are limited to 20 visits during a benefit period. These limits do not apply, however, when benefits are provided through health maintenance organizations or comprehensive mental health care organizations.

Dental care is restricted to children through age 15 at the outset, with the covered age group increasing annually until persons through age 25 are covered. Within five years, the Board will establish a schedule for phasing in coverage of the entire adult population.

Prescribed drugs are limited to those provided through hospital in-patient or out-patient departments, or through organized patient care programs, (such as health maintenance organizations or professional foundations). For other patients, coverage extends only to drugs required for the treatment of chronic or long-term illness.

Inevitably, simply stating these four limitations gives them a prominence they do not deserve. In all other respects, covered health services will be available without limit, in accordance with medical need.

Administration—The administration of the Health Security program will be carried out by a five-member full-time Health Security Board, appointed by the President with the advice and consent of the Senate. Members of the Board will serve 5-year terms, and will be under the authority of the Secretary of Health, Education, and Welfare.

A statutory National Advisory Council will assist the Board in the development of general policy, the formulation of regulations, and the allocation of funds. Members of the Council will include representatives of both providers and consumers of health care.

A Commission on the Quality of Care, enjoying equal administrative status with the Board, will develop information regarding norms of care and regulations to safeguard the quality of services paid for by the Board.

Field administration of the program will be carried out through the 10 existing HEW regions, as well as through the approximately 100 health subareas that now exist as natural medical delivery networks in the Nation. Advisory councils on matters of administration will be established at each of these levels. However, the Board will guide the overall performance of the program. It will coordinate its functions with State and regional planning agencies, and it will account for its activities to Congress.

Financing the program—The program will be financed through a Health Security Trust Fund, similar to the Social Security Trust Fund. Income to the Fund will derive from four sources:

Fifty percent from general Federal tax revenues;

Thirty-six percent from a tax of 3.5 percent on employers' payrolls;

Twelve percent from a tax of 1 percent on employees' wages and unearned income up to $15,000 a year;

Two percent from a tax of 2.5 percent on self-employment income up to $15,000 a year.

Persons over age 60 may exempt $3,000 in unearned income from the 1% tax on income.

Employers may pay all or part of their employees' health security taxes, in accord with arrangements established under collective-bargaining agreements.

Payment mechanism—The essence of the payment mechanism and the central cost control feature of the program is that the health care system as a whole will be anchored to a budget established in advance. A given amount of money will be made available for the program each year, based on the available estimates of the needs to be met and the services to be provided, with due regard for the resources of the system. As in every area of our economic life, the health care system will be obliged to live within its budget. In this way we can end the unacceptable escalation of costs within our present system. In this way we can end the long financial binge in which health care has had a signed blank check on the whole economy of the Nation.

Each year, the Health Security Board will make an advance estimate of the total amount needed for expenditure from the Trust Fund to pay for health care services in the program. The Board will allocate funds to the several regions, and these allocations will be subdivided among categories of services in the health subareas. Advance estimates, constituting the program budgets, will be subject to adjustments in accordance with guidelines in the act. The allocations to regions and to subareas will be guided initially by the available data on current levels of expenditure. Thereafter, they will be guided by the program's own experience in making expenditures and in assessing the need for equitable health care throughout the Nation.

Compensation of doctors, hospitals, and other providers—Providers of health services will be compensated directly by the Health Security program. Individuals will not be charged for covered services.

Hospitals and other institutional providers will be paid on the basis of approved prospective budgets. Independent practitioners, including physicians, dentists, podiatrists, and optometrists, may be paid by various methods which they may elect: by fee-for-service, by capitation payments, or in some cases by retainers, stipends, or a combination of such methods. Health maintenance organizations will be paid by capitation. Other independent providers, such as pathology laboratories, radiology services, pharmacies, and providers of applicances, will be paid by methods adapted to their special characteristics.

Drug addiction and alcoholic treatment centers are specifically included as eligible providers of services under the program.

Resources Development Fund—an essential feature of the program is the Resources Development Fund, which will come into operation two years before benefits begin. In the first year of this "tooling up" period, $200 million will be appropriated for the fund; in the second year, $400 million will be made available. Once the program benefits begin, up to 5 percent of the Trust Fund—about $3 billion a year—will be set aside for resources development. These funds will be used to support innovative health programs, particularly in areas like manpower, education, training, medical and dental group practice development, and other means to improve the delivery of health care. The principal attribute of the Fund is that it can be used to channel far more money into areas like education and training than is possible under the existing system of congressional authorization and appropriation for ongoing programs.

Quality Control—The Health Security program includes various provisions designed to safeguard the quality of health care. The program will establish national standards more exacting than medicare for participating individual and institutional providers. Independent practitioners will be eligible to participate if they meet licensure and continuing education requirements. Specialty services will be covered if, upon referral, they are performed by qualified persons. Hospitals and other institutions will be eligible for participation if they meet national standards, and if they establish utilization review and affiliation arrangements.

Compliance with these standards will be monitored by the Quality Control Commission. The Commission will recommend new or revised standards as necessary.

Incentives—Financial, professional and other incentives are built into the program to move the health care delivery system toward organized arrangements for patient care, and to encourage preventive care and the early diagnosis of disease.

In the area of health manpower, the program will supplement existing Federal programs. It will provide incentives for health maintenance organizations and professional foundations, encourage the efficient use of personnel in short supply, and stimulate the progressive broadening of health services. It will provide funds for education and training programs, especially for members of minority groups and those disadvantaged by poverty. Finally, it will provide special support for the location of increased health personnel in urban and rural poverty areas.

Relation to existing programs—various Federal health programs will be superseded, in whole or in part, by the Health Security program. Since persons of age 65 or over will be covered by the program, medicare under the social security system will be terminated. Federal aid to the States for medicaid and other Federal programs will also be terminated, except to the extent that benefits under such programs are broader than under the Health Security program. However, the bill does not affect the current provisions for personal health services under the Veterans Administration, temporary disability, or workmen's compensation programs.

Cost of the program and Federal revenue sharing—on the basis of data available for the fiscal year 1972, a total of $50 billion was expended for health care benefits that would have been covered by the Health Security program had the program been in effect for that year. In other words, if the Health Security program had been in effect in 1972, the cost of the program would have been $50 billion.

The $50 billion figure represents approximately 67 percent of the total actual expenditures for personal health care in the United States for that year. These expenditures consist of $31 billion in private health insurance payments and private out-of-pocket payments, $12 billion in payments by the Federal Government, and $4 billion in payments by State and local governments.

The cost of the health security program has been the source of enormous confusion and misunderstanding since the original version of the Health Security Act was introduced last year in the 91st Congress. The crucial point is that in no sense does the hypothetical $50 billion price tag for the Health Security program in 1972 represent new money. Rather, this is what Americans are already paying for personal health care under the existing system.

Thus, the Health Security program is not a new layer of Federal expenditures on top of existing public and private spending for health care. Instead, the Health Security program simply redistributes the health expenditures that are already being made. Although, of course, Federal expenditures in 1972 would have risen from $12 billion under the existing system to $50 billion if the Health Security program had been in effect, individuals and organizations throughout the Nation would have been relieved of $34 billion of private health insurance expenses and out-of-pocket payments for health care, and State and local governments would have been relieved of $4 billion, representing costs incurred largely in medicaid and other public assistance programs, and in city and county medical programs.

In a very real sense, therefore, the Health Security program is a direct form of Federal revenue sharing. It offers $4 billion in substantial and immediate Federal financial relief to State and local governments, thereby freeing scarce State and local funds for other urgently needed purposes.

Over the long run, by revitalizing the existing health care system and ending the excessive inflation in the cost of health care, the Health Security program will be far less expensive than the amount we will spend if we simply allow the present system to continue.

Even at the beginning, moreover, the Health Security program will provide more and better services without increasing the cost, since the initial savings achieved by the program will be sufficient to offset the cost of the increased services. In other words, from the day the Health Security program begins, we will guarantee our citizens better value for their health dollar, and achieve a substantial moderation of the current exorbitant inflation in health costs. Even in the first year of the Health Security program, the comprehensive health services provided will be available for the same cost we would have paid for the partial and inefficient services of the existing system.

In 1972 for example, spending for health exceeded $83 billion. For the first time in our history, expenditures for health rose above 7.5 percent of our gross national product. If we continue to do nothing, the annual cost will exceed $120 billion in only 3 years.

---

## SECTION-BY-SECTION ANALYSIS OF THE HEALTH SECURITY ACT

### TITLE I—HEALTH SECURITY BENEFITS

### *Part A—Eligibility for benefits*

(Sections 11–12.) Every resident of the U.S. (and every non-resident citizen when in the U.S.) will be eligible for covered services. Reciprocal and "buy in" agreements will permit the coverage of groups of non-resident aliens, and in some cases benefits to U.S. residents when visiting in other countries.

### *Part B—Nature and scope of benefits: covered services*

(Section 21.) Every eligible person is entitled to have payments made by the Board for covered services provided within the United States by a participating provider.

(Section 22.) All necessary professional services of physicians (including preventive care) are covered wherever furnished, with one exception. Psychiatric services to an ambulatory patient are covered only for active preventive, diagnostic, therapeutic or rehabilitative service with respect to mental illness. If the patient seeks care in the organized setting of a health maintenance organization, a hospital out-patient clinic, or other comprehensive mental health clinic, there is no limit on the number of consultations. In these kinds of organized settings, peer review and budgetary controls can be expected to curtail unnecessary utilization.

If the patient is consulting a solo practitioner, there is a limit of 20 consultations per benefit period. In communities where psychiatric services are in especially short supply the Board may prescribe referral or other non-financial conditions to give persons most in need of services a priority of access to solo practitioners.

(Section 23.) Comprehensive dental services (exclusive of most orthodontia) are covered for children under age 15, with the covered age group increasing by two years each year until all those under age 25 are covered. (Persons once covered remain covered for the rest of their lives). This benefit is limited initially because, even with full use of dental auxiliaries, there is insufficient manpower to provide dental benefits to the entire population. However, the Board is authorized to expand the benefits more rapidly if availability of resources warrant and the Board is required, within seven years of the effective date of the legislation, to establish a time table for phasing in benefits for the entire population. To encourage the development of groups which provide comprehensive medical and dental services or comprehensive dental services the Board is authorized to phase in full dental benefits more rapidly for the enrollees of those groups than for the general population.

(Section 24.) Inpatient and outpatient hospital services and services of a home health agency are covered on the duration of the services, and skilled nursing home services are covered for limited periods. Pathology and radiology services are specifically included as parts of institutional services, thus reversing the practice of Medicare. Domiciliary or custodial care is specifically excluded in any institution, thus necessitating the two important restrictions on payments for institutional care:

(1) Payment for skilled nursing home care is limited to 120 days per benefit period except this limit may be increased when the nursing home is owned or managed by a hospital and payment for care is made through the hospital's budget. It is not practical to assume that the majority of nursing homes and extended care facilities in the country will be able to implement effective utilization review and control plans in the first years of Health Security. The demand for essentially domiciliary or custodial care in nursing homes is so overwhelming that an initial arbitrary limit on days of coverage is necessary. Extension of the benefit is authorized when this becomes feasible.

(2) Many state hospitals do not provide optimal active treatment to their psychiatric patients but rather maintain them in a custodial setting. If Health Security provided unlimited coverage for patients in these hospitals, it might tend to freeze the level of care instead of stimulating these institutions to upgrade their medical-care performance. Therefore the psychiatric hospital benefit is limited to 45 days of *active treatment* during a benefit period.

(Section 25.) The bill provides coverage for two categories of drug use: prescribed medicines administered to inpatients or outpatients within participating hospitals and skilled nursing homes or enrollees of health maintenance organizations and professional foundations, and drugs necessary for the treatment of specified chronic illnesses or conditions requiring long or expensive drug therapy. This will provide coverage of most drug costs for individuals who require costly drug therapy.

The bill requires the Board and the Secretary of HEW to establish two lists of approved drugs, taking into account the efficacy and cost of each drug. There will be a broad list of approved medicines available for use in institutions and by health maintenance organizations and professional foundations and a more restricted list which is available for use outside such organized settings. The restricted list shall stipulate which drugs on it shall be available for treatment of each of the specified chronic diseases. No such restrictions shall be placed upon drug therapy within an institutional setting.

Use of the restricted list will meet the most costly needs for drug therapy while restraining unnecessary utilization. The benefit is more liberal where adequate control mechanisms exist.

(Section 26.) The appliances benefit is

similar in concept and operation to the drug benefit, subject to a limitation on aggregate cost. The Board shall prepare lists of approved devices, appliances or equipment which it finds are important for the maintenance or restoration of health, employability or self-management (taking into consideration the reliability and cost of each item). The Board will also specify the circumstances or the frequency with which the item may be prescribed at the cost of the Health Security Program.

(Section 27.) The professional services of optometrists and podiatrists are covered, subject to regulations, as are diagnostic or therapeutic laboratory or radiology services. The care of a psychiatric patient in a mental health day care service is covered for up to 60 days (day care benefits are unlimited if furnished by a health maintenance organization, professional foundation or by a community mental health center). Ambulance and other emergency transportation services are covered, as well as non-emergency services where (as in some sparsely settled areas) transportation is essential to overcome special difficulty of access to covered services.

Supporting services such as psychological, physiotherapy, nutrition, social work and health education are covered if they are part of institutional services or are furnished by a health maintenance organization, professional foundation or certain public or non-profit agencies. This establishes the important principle that these and other supporting services should be provided as part of a coordinated programs of health maintenance and care. Psychologists, physical therapists, social workers, etc. will not be permitted to establish independent practices and bill the program on a fee-for-service basis. This is intended to assure that whenever services of this nature are provided they are part of an organized plan of treatment and germane to the over-all care of the patient.

(Section 28.) Health services furnished or paid for under a workmen's compensation law are not covered.

School health services are covered only to the extent provided in regulations.

The Board may exclude from coverage medical or surgical procedures which are essentially experimental in nature. Individuals who enroll in an HMO or enroll themselves with a primary practitioner accepting capitation payments are not entitled to seek covered services from other providers of services (except as specified in regulations). Surgery primarily for cosmetic purposes is excluded from coverage.

The services of a professional practitioner are not covered if they are furnished in a hospital which is not a participating provider. This is intended to discourage physicians from admitting patients to hospitals which cannot or will not meet standards for participation in the program.

### PART C—PARTICIPATING PROVIDERS OF SERVICES

(Section 41.) Participating providers are required to meet standards established in this title, or established by the Board under part H relating to quality of care. In addition, they must agree to provide services without discrimination, to make no charge to the patient for any covered services, and to furnish data necessary for utilization review by professional peers, statistical studies by the Board and by the Commission on the Quality of Health Care, and verification of information for payments.

(Section 42(a).) Professional practitioners licensed when the program begins are eligible to practice in the States where they are licensed. All newly licensed applicants for participation must meet national standards established by the Board in addition to those required by their State. While stopping short of creating a Federal licensure system for health professionals, this will guarantee minimum national standards. A state-licensed practitioner who meets national standards will be qualified to provide Health Security covered services in any other state. (See also Section 56(a)(1)).

(b) for purposes of this title a doctor of osteopathy is a physician, as is a dentist when performing procedures which, in generally accepted medical practice, may be performed by either a physician or a dentist.

(Section 43.) This section establishes conditions of participation for general hospitals similar to those required by Medicare. Two requirements not found in the Medicare program are: (1) that the hospital must not discriminate in granting staff privileges on any grounds unrelated to professional qualifications; (2) that the hospital establish a pharmacy and drug therapeutics committee for supervision of hospital drug therapy. Medicare allows any hospital accredited by the Joint Commission on the Accreditation of Hospitals (if it provides utilization review) to participate in the program, thus in effect delegating to the Commission the determination whether the standards are met. This title requires all participating hospitals to meet standards established by the Board.

(Section 44.) Psychiatric hospitals will be eligible to participate only if the Board finds that the hospital (or a distinct part of the hospital) is engaged in furnishing *active* diagnostic, therapeutic and rehabilitative services to mentally ill patients. Psychiatric hospitals are required to meet the same standards as those prescribed for general hospitals in Section 43, and such other conditions as the Board finds necessary to demonstrate that the institution is providing active treatment to its patients. These standards will include costs incurred by state mental institutions to the extent they serve domiciliary or custodial functions.

(Sections 45 and 46.) Section 45 establishes conditions of participation for skilled nursing homes similar to those established for skilled nursing facilities under Medicare. Important differences, however, are the requirement for affiliation with a participating hospital or health maintenance organization (see Section 52(b)), and changes in the requirements for utilization review (see Section 51). Under section 46 participation by home health agencies will be limited to public agencies and non-profit private organizations—proprietary home health agencies are specifically excluded.

(Section 47.) Subsection (a) describes a health maintenance organization which undertakes to provide an enrolled population either with complete health care or, at the least, with complete Health Security services (other than mental health or dental services) for the maintenance of health and the care of ambulatory and institutionalized patients. The bill, in its aim to improve the methods of delivery of health services, places much emphasis on the development of new organizations of this kind and the enlargement of old ones.

This section is designed to accommodate forms of organization typical of existing prepaid group practice plans. The basic essential is the assumption of responsibility for a comprehensive range of services on a continuing and coordinated basis to a group of persons who have chosen to receive all or nearly all of their health care from the organization.

Other requirements are spelled out in this section: The organization must furnish medical services (and dental services if they are included) through prepaid group practice. Other services must be furnished by staff of the organization or by contractors for whom the organization assumes responsibility, except that institutional services may be provided by arrangements with other participating providers at the expense of the health maintenance organization. The organization must be nonprofit, but it may utilize proprietary providers in fulfilling its responsibilities.

All persons living in or near a specified service area will be eligible to enroll during an annual open enrollment period, subject to the capacity of the organization to furnish care. Services must be reasonably accessible to persons living within the specified service area. Periodic consultation with representatives of enrollees is required, and they must be given opportunity to participate in policy formulation and in evaluation of operation. Professional policies and their effectuation, including monitoring the quality of services and their utilization, are to be the responsibility of a committee or committees of physicians (and other health professionals where appropriate). Health education and the use of preventive services must be stressed, and lay persons are to be employed so far as is consistent with good medical practice. Charges for any services not covered by Health Security must be reasonable. Finally, the organization must agree to pay for services furnished by other providers in emergencies, either within the service area of the organization or elsewhere, but may meet this requirement to the extent feasible through reciprocal service arrangements with other organizations of like kind.

Subsection (b) makes clear that the organization, or professionals furnishing services for it, may also serve non-enrollees, with payment to be made to the organization, or, at its request, to such professionals.

(Section 48.) A professional foundation must be a nonprofit organization, sponsored by a county or other local medical society, which meets all the conditions for participation by a health maintenance organization other than the requirement of group practice. All physicians practicing in the area (and all dentists if dental services are furnished) must be permitted to become professional members, subject only to criteria, approved by the Board, relating to professional qualifications. For professional services to enrollees, professional members may be compensated by the foundation by whatever method, including fee-for-service, may be agreed upon by it and its members.

Subsection (b) provides that a professional member may furnish services to persons not enrolled in the foundation and receive payment from the Board on the same basis as independent practitioners, except that if he is paid by capitation, salary, or stipend by the foundation, the payment for services to nonenrollees is to be made to the foundation.

(Section 49.) This section deals with several classes of health organizations that vary widely, even within a single class, in their structure and in the scope of the services which they offer. Because statutory specifications cannot well be tailored to so many variables, the section sets forth only a general statement of the kinds of organizations to which it relates and leaves participation of each organization to a case-by-case decision of the Board, on such terms as the Board deems proper.

Subsection 49(a)(1) permits the participation of community health centers or the like which, though furnishing a broad range of ambulatory services, do not serve an enrolled or otherwise predetermined population and may not meet some other requirements of section 47(a). Subsection (a)(2) authorizes the Board to deal separately with the primary care portion of a system of comprehensive care where it is necessary to rely on arrangements with other providers, rather than on a unified structure, to round out the other elements of the system. Where organizations meeting the extensive requirements of section 47(a) or 48(a) are not available, these two paragraphs of section 49(a) will give the Board flexibility in furthering one of the bill's prime objectives, the development and broad availability of comprehensive services furnished on a coordinated basis.

Because of the extent to which mental health services are separated from other health care, subsection (a)(3) permits the Board to contract directly with public or other nonprofit mental health centers and mental health day care services.

If a State or local public health agency is providing preventive or diagnostic services, such as immunization or laboratory tests, the Board may under subsection (a)(4) contract with it for the continuance of these services.

In the field of private practice, physicians or dentists or other practitioners may group themselves in a clinic, nonprofit or proprietary, in a dental foundation, or in any number of other ways, and it may be more convenient both to them and to the Board to regard them as an entity than to deal with each practitioner separately. Subsection (a)(5) permits this. The Board will have wide discretion in contracting with such entities subject only to the limitation that, like other organizations described in section 49(a), the entity may not (under section 88(a)) be paid on a fee-for-service basis. Practitioners who elect that method of payment may of course pool their bills for submission to the Board, but there is no reason to contract with a unit for the payment of fees to it.

Subsection (b) makes clear that agreements with the Board under this section shall not (unless expressly so stipulated) preclude practioners furnishing services under the agreements from furnishing other services as independent providers.

(Section 50.) This section specifies the board and general conditions under which independent pathology laboratories, independent radiological services, providers of drugs, devices, appliances, equipment, or ambulance services may qualify as providers under Health Security. As under Medicare, a Christian Science Sanatorium qualifies if operated or listed and certified, by the First Church of Christ, Scientists, Boston.

(Section 51.) The requirements of utilization review in hospitals and skilled nursing homes are in the main similar to those which Medicare has, since 1966, imposed with respect to services to aged patients. In Health Security the requirements will of course apply to the entire population. As in Medicare, the review is designed to serve a dual purpose: identification of certain specific misuses of the institutional services with a view to their termination, and a focusing of continuing attention and concern of the medical staff on the necessity for efficient utilization of institutional resources. Section 51(a) strengthens the educational aspect of the process by requiring specifically that records of reviews be maintained and statistical summaries of them be reported periodically to the institution and its medical staff (and, on request, to the Board). As under Medicare, the review committee will consist of two or more physicians, with or without other professional participation; and in the case of hospitals, will normally be drawn from the medical staff unless for some reason an outside group is required. For skilled nursing homes, on the other hand, section 51(c) departs from Medicare by permitting as an alternative that the Committee be established by the State or local public health agency under contract with the Board, or failing that, by the Board. If the nursing home operates under a consolidated budget with a hospital, the review will be made by the hospital committee. Like Medicare, Section 51 (d) and (e) call for review of specific long-stay cases as required by regulations, and notification to the institution, the attending physician, and the patient when a decision adverse to further institutional services is made.

(Section 52.) Subsection (a) of Section 52 is also like Medicare in requiring a participating skilled nursing home to have in effect an agreement with at least one participating hospital for the transfer of patients and medical and other information as medically appropriate. Subsection (b) introduces a requirement, applicable two years after the effective date of health benefits to both skilled nursing homes and home health service agencies, of affiliation with a participating hospital or comprehensive health service organization. Unless the medical staff of the hospital or organization undertakes to furnish the professional services in the nursing home or the professional services of the home health service agency, that medical staff or a committee of it must assume responsibility for these services. Subsection (c) allows the Board to waive the application of either of these requirements to a skilled nursing home or a home health agency which the Board finds essential to the provision of adequate services, if (but only for as long as) lack of a suitable hospital or organization within a reasonable distance makes a transfer or an affiliation agreement impracticable.

(Section 53.) If the construction or substantial enlargement of a hospital, skilled nursing home, or ambulatory care facility has been undertaken after December 31 of the year of enactment, without prior approval by a planning agency designated by the governor of the State or the Board, section 53 precludes the institution from participating in the Health Security program, except that in the case of enlargement, the Board may permit participation subject to reduction in reimbursement for services. This should greatly strengthen state and local planning authorities.

(Section 54.) This section prohibits double recovery in malpractice litigation by stipulating that no damages will be awarded to the injured party for remedial services which are available without cost under the Health Security program.

(Section 55.) Institutions of the Department of Defense and the Veterans Administration, and institutions of the Department of Health, Education, and Welfare serving merchant seamen or Indians or Alaskan natives, are excluded by section 55 from serving as participating providers, as is also any employee of these institutions when he is acting as an employee. The Board will, however, provide reimbursement for any services furnished (in emergencies, for example) by these institutions or agencies to eligible persons who are not a part of their normal clientele. It will also provide reimbursement for services furnished by the Public Health Service under the Emergency Health Personnel Act of 1970.

(Section 56.) This section overrides, for purposes of the Health Security program, State laws of several kinds which inhibit the utilization or the mobility of health personnel, cloud the legality of so-called "corporate practice" of health professions, or restrict the creation of group practice organizations. The authority of Congress to do this, in conjunction with a program of Federal expenditure to provide for the general welfare, flows from the Supremacy Clause of the Constitution and seems now to be clearly established. (Ivanhoe Irrigation District v. McCracken, 357 U.S. 275 (1958); King v. Smith, 392 U.S. 309 (1968)).

The first three paragraphs of subsection (a), while stopping short of creating a system of Federal licensure for health personnel, will greatly facilitate both the interstate mobility of State licensees and the effective use of ancillary personnel in the furnishing of health care. The dispensations contained in these paragraphs will be available to persons who meet national standards established by the Board.

Paragraph (1) permits a physician, dentist, optometrist, or podiatrist, licensed in one State and meeting the national standards, to furnish Health Security benefits in any other state, the scope of his permissible practice being governed by the law of the State in which he is practicing. This paragraph obviates the difficulty and cost which a practitioner may encounter especially where reciprocity of licensure is not available, in taking up practice in a State in which he has not been licensed.

Paragraph (2) grants a similar authority to other health professional and nonprofessional personnel. For occupations such as pharmacy and professional nursing, which are subject to licensure in all States, a person can avail himself of this paragraph only if he is licensed in one State and meets the national standards; in other cases, where licensure is not universally required, compliance with national standards is sufficient. Here again, impediments to mobility created by existing licensure laws will be removed.

The restrictions which many professional practice acts impose on the use of lay assistants, and the legal uncertainties which often deter such use, discourage practices that can increase greatly, without sacrifice of safety, the volume of services which professionals can render. Accordingly, paragraph (3) of subsection (a) enables the Board to permit physicians and dentists, participating in public or nonpublic hospitals and health maintenance organizations, to use ancillary health personnel, acting under professional supervision and responsibility, to assist in furnishing Health Security benefits. Such assistants may do only things which the Board has specified, and may be used only in the context of an organized medical staff or medical group. Persons employed as assistants must not only meet national standards for their respective occupations, but must also satisfy special qualifications that the Board may set for particular acts or procedures.

In the interest of encouraging salaried practice and the integration of professional practitioners into well-structured organizations for the delivery of health services, paragraph (4) of subsection (a) does away with the "corporate practice" rule insofar as concerns participating public or other nonprofit hospitals and health maintenance organizations. These institutions may employ physicians or make other arrangements for their services, unless in the unlikely event that lay interference with professional acts or judgments should be threatened. No conflict of interest results from such arrangements; in the nonprofit setting loyalty to employer and loyalty to patient run parallel.

Some state laws place restrictions of one kind or another on the incorporation of group practice organizations. When these restrictions prevent the State incorporation of an organization meeting the strict requirements of the Health Security Act, section 56 (b) empowers the Secretary to incorporate it for purposes of the Act. Except for the special restrictions, State law will govern the corporation.

### *Part D—Trust fund; allocation of funds for services*

(Section 61.) By section 406(a) of the present bill, section 1817 of the Social Security Act, creating the Federal Hospital Insurance Trust Fund, is amended and transferred to become section 61 of the Health Security Act. The fund will thus become the Health Security Trust Fund, succeeding to the assets and liabilities of both Medicare trust funds, and receiving the proceeds of the health security taxes imposed by title II of the Health Security Act and the authorized appropriations from general revenues equal to 100 percent of those tax receipts.

The Fund will also receive recoveries of overpayments, and receipts from loans and other agreements. To implement the role of the Trust Fund, the Managing Trustee (the Secretary of the Treasury) will make payments from the Trust Fund provided for under Title I, as the Board certifies, and with respect to administrative expenses as authorized annually by the Congress.

(Section 62.) The Health Security program is intended to operate on a budget basis overall. Accordingly, subsection (a) requires the Board to determine for each fiscal year the maximum amount which may be available for obligation from the Trust Fund. The amount so determined in advance (by March 1 preceding each fiscal year) shall not exceed the smaller of two stated limitations. The first limit is fixed at 200% of the expected net receipts from all the Health Security taxes (i.e., the tax receipts augmented by 100% thereof, to be appropriated into the Fund from general revenues of the Government). The second limit, applicable to each fiscal year after the first year of benefit operation (i.e., after a year's availability of covered services), is an amount equal to the estimated obligations of the current year (within which the estimate is being made), subject to certain adjustments. Such adjustments will reflect changes expected in (A) the price of goods and services; (B) the number of eligible persons; (C) the number of participating professional providers, or the number or capacity of institutional or other participating providers so far as such changes are not already adequately reflected; and (D) the expected cost of program administration.

In the interest of prudent fiscal management, subsection (b) requires the Board to restrict its estimate of the amount available for obligation in the next fiscal year (in accordance with subsection (a)) if the Board estimates that the amount in the Trust Fund at the beginning of the next fiscal year will be less than one-quarter of the total obligations to be incurred for the current year, and that such restriction will not impair the adequacy or quality of the services to be provided. Also, the Board is required to reduce its alternative estimate of the maximum amount to be available if it finds that the aggregate cost to be expected has been reduced (or an expected increase has been lessened) through improvement in organization and delivery of service or through utilization control.

Subsection (c) provides against various other contingencies which may result in increase or decrease in the estimate of the maximum amount to be available for obligation in the next fiscal year. The amount may be modified before or during the fiscal year if the Secretary of the Treasury finds that the expected Health Security tax receipts will differ by 1 percent or more from the estimate used under subsection (a), or if the Board finds that either its factors of expected change or the cost of administration is expected to differ from the estimate by 5 percent or more; or if an epidemic disaster or other occurrence compels higher expenditure than had been expected. If, as a result, the maximum estimate has to be increased (rather than being decreased), the Board (through the Secretary) shall promptly report its action to the Congress with its reasons.

(Section 63.) Subsection (a) provides that three separate accounts shall be established in the Health Security Trust Fund—a Health Services Account, a Health Resources Development Account, and an Administration Account, as well as a residual General Account. Subsection (b) provides that in each of the first two years of program operation, 2 percent of the Trust Fund shall be set aside for the Health Resources Development Fund; and the allocation shall increase by 1 percent at two-year intervals to 5 percent within the next 6 years. The money in this account will be used exclusively for the system improvement purposes described in part F.

(c) (d) After deducting the funds for development, and the amount authorized by the Congress for administration, the remainder of the monies shall be allocated to the Health Services Account, and shall be used exclusively for making payment for services in accordance with part F.

(Section 64.) This section provides for allocation of the Health Services account among the regions of the country. (a) The allocation to each region shall be based on the aggregate sum expended during the most recent 12-month period for covered services (with appropriate modification for estimated changes in the price of goods and services, the expected number of eligible beneficiaries, and the number of participating providers). (b) In allocating funds to the regions the Board shall seek to reduce, and over the years gradually eliminate, existing differences among the regions in the average per capita amount expended upon covered health services (except when these reflect differences in the price of goods and services). To accomplish this, the Board will curtail increases in allocations to high expenditure regions and stimulate an increase in the availability and utilization of services in regions in which the per capita cost is lower than the national average. (c) A contingency reserve of up to 5% may be withheld from allocation. If the remaining funds available are inadequate, allocations will be reduced pro rata. (d) Allocations may be modified before or during a fiscal year if the Board finds this is necessary.

(Section 65.) The Board will divide the allocation to each region into funds available to pay for: institutional services; physician services; dental services; furnishing of drugs; furnishing of devices, appliances and equipment; and other professional and supporting services, including subfunds for optometrists, podiatrists, independent pathology laboratories, independent radiology services, and other items. The percent allocated to each category of service may vary from region to region. In determining the allocation to these funds, it will be guided by the previous year's expenditures for each category of service but also take into account trends in the utilization of services and the desirability of stimulating improved utilization of resources. It will encourage a shift from heavy reliance on institutional care to better utilization of preventive and ambulatory services.

(Section 66.) These regional funds will be subdivided among the health service areas in each region, primarily upon the basis of the previous year's expenditure for each kind of service. Again, the Board will gradually attempt to achieve the equalization of services within each region by restraining the increase of expenditures in high cost areas and channeling funds into health service areas with a low level of expenditures.

(Section 67.) Before or during a fiscal year, the division of regional funds by classes of service or the allotments to health service areas may be modified if necessary or if indicated by newly acquired information.

*Part E—Payment to providers of services*

(Section 81.) Payments for covered services provided to eligible persons by participating providers will be made from the Health Service Account in the Trust Fund.

(Section 82.) This section delineates methods of paying professional practitioners. Every independent practitioner (physician, dentist, podiatrist, or optometrist) shall be entitled to be paid by the fee-for-service method (subsection (a)), the amounts paid being in accordance with relative value scales prescribed after consultation with the professions (subsection (g)). Each physician engaged in general or family practice may elect to be paid by the capitation method if he agrees to furnish individuals enrolled on his list with all necessary and appropriate primary services, make arrangements for referral of patients to specialists or institutions when necessary, and maintain records required for medical audit; and independent dentist practitioners may elect the capitation method of payment similarly (subsection (b)).

These requirements in connection with capitation payments are intended to assure that the physician (or dentist) provides to his patients all professional services within the range of his undertaking and secures other needed services by referral. Through regular medical audits, the Board will monitor the level and quality of care provided.

When necessary to assure the availability of services in a given area, subsection (c) permits paying an independent practitioner a full-time or part-time stipend in lieu of or as a supplement to other methods of compensation. This method of payment will be used selectively by the Board, mainly to encourage the location of practitioners in remote or deprived areas. Practitioners may also be reimbursed for the special costs of continuing education required by the Board and for maintaining linkages with other providers—for example, communication costs. Incentives operative under this provision will encourage physicians to improve the quality and continuity of patient care, even if the physician does not participate in a group practice. The Board may pay for specialized medical services on a per session, or per case basis, or may use a combination of methods authorized by this section.

Subsection (d) defines the capitation method of payment.

Subsections (e) (f) (g). These sections describe the method to be used in applying, as between practitioners electing the various methods of payment, the monies available in each health service area for payment to each category of professional providers. From the amount allocated to each service area, the Board will earmark funds sufficient to pay practitioners receiving stipends and for the professional services component of institutional budgets, such as hospitals. The remainder of the money will be divided to compute the per capita amount available for each category of service (i.e. physicians, dentists, podiatrists, optometrists) to the residents of the area. This per capita amount in each category will fix the capitation payments to organizations that undertake to provide the full range of services in that category to enrolled individuals. Lesser amounts will be fixed for more limited services. For example, if the per capita amounts available for physician and dental services are $65 and $25, respectively, primary physicians accepting capitation payments will receive the percentage of that $65 which is allocated for primary services, a medical society sponsored foundation would receive the entire $65 for physician services, dentist furnishing all covered services would receive the $25 allocated for dental services, and organizations which undertake to provide all physician and dental services to enrolled individuals will receive $90 for each enrolled individual.

The budget per capita amount for each type of covered service (physician, dental etc.) will be divided between the categories of providers of service according to the number of individuals who elect to receive care from those providers. For example, in a city of 100,000 people, 25,000 may enroll in a health maintenance organization. Using the figures cited in the example above, the Board will pay the health maintenance organization $1,625,000 ($65 x 25,000) for physician services. The other 75,000 individuals elect to receive their physician services from solo, fee-for-service practitioners. The Board will create a fund of $4,875,000 ($65 x 75,000) to pay all fee-for-service bills submitted by physicians in that community, in accordance with relative value scales and unit values fixed by the Board. The fund for fee payments will be augmented to the extent that some capitation payments have been lowered because they cover only primary services, and may be augmented further where a substantial volume of services is furnished, on a fee basis, to nonresidents of the area.

Subsection (h) authorizes the Board to experiment with other methods of reimbursement so long as the experimental method does not increase the cost of service or lead to overutilization or underutilization of services.

(Section 83.) Hospitals will be paid on the basis of a predetermined annual budget covering their approved costs. To facilitate review of these budgets, the Board will institute a national uniform accounting system. Subsection (b) stipulates that the costs recognized for purposes of the budget will be those incurred in furnishing the normal services of the institution except as changed by agreement, or by order of the Board under section 134. This will enable the Board, on the basis of State and local planning, to eliminate gradually any wasteful or duplicative services, and also to provide for an orderly expansion of hospital services where needed.

Physicians and other professional practitioners whose services are held out as available to patients generally (such as pathologists and radiologists) will be compensated through the institutional budget, whatever the method of compensation of such practitioners and whether or not they are employees of the hospital. This departs from the practice in Medicare which allowed independent billing by such physicians. The institution's budget may also be increased to reflect the cost of owning or operating an affiliated skilled nursing home, or home health service agency. Hospital budgets will be reviewed by the Board, locally or regionally, which may permit participation by representatives of the hospitals in each region. Budgets may be modified before, during or after the fiscal year if changes occur which make modification necessary.

(Section 84.) If an entire psychiatric hospital is found by the Board to be providing active treatment to its patients, and the institution is therefore primarily engaged in providing covered services to eligible beneficiaries, it will be paid on the same basis as a general hospital (on the basis of an approved annual budget). Otherwise the Board will negotiate a patient-day rate to be paid for each day of covered service provided to an eligible beneficiary.

(Section 85.) This section provides that skilled nursing homes and home health agencies will be paid in the same manner as a general hospital (on an approved annual budget basis). The Board may specify use of nationally uniform systems of accounting and may prescribe by regulation the items to be used in determining approved costs and the services which will be recognized in budgets.

(Section 86.) Reimbursement for drugs will be made to the dispensing agent on the basis of an official "product price" for each drug on the approved list, plus a dispensing fee. The official product price will be set at a level which will encourage the pharmacy to purchase substantial quantities of the drug (this should result in significant reductions in the unit cost of each drug). The official price may be modified regionally to reflect differences in costs of acquiring drugs. The Board will establish dispensing fee schedules for reimbursing independent pharmacies. These schedules will take into account regional differences in costs of operation, differences in volume, level of services provided and other factors.

(Section 87.) Subsections (a) and (b) provide that a health maintenance organization or professional foundation will be paid a basic capitation rate multiplied by the number of eligible enrollees. The amount of the capitation rate will be determined by the per capita amounts available for the several professional services in the area, and a rate fixed by the Board as the average reasonable and necessary cost per enrollee for other covered services.

Subsection (c) taxes capitation amounts for institutional services based on per diem rates derived from the budgets of participating institutional providers or institutions with whom the organization or foundation may have a contractual agreement. The organization or foundation will be entitled to share in up to 75% of any savings which are achieved by lesser utilization of institutional services by its enrollees. Entitlement to such savings is conditional upon a finding by the Board that the services of the organization or foundation have been of high quality and adequate to the needs of its enrollees, and that the average utilization of hospital or skilled nursing services by the enrollees of the health maintenance organization or foundation is less than use of such services by comparable population groups not so enrolled but under otherwise comparable circumstances. This money may be used by the organization or foundation for any of its purposes, including the provision of services which are not covered under the Health Security program.

Subsection (e) authorizes the Board to allow organizations and foundations to reinsure with the Board against catastrophic costs incurred on behalf of any one enrollee.

Subsection (f) permits the Board to make an additional payment to health maintenance organization for the cost of clinical education or training provided by the organization.

(Section 88.) Subsection (a) provided that an organization or agencies with which the Board has entered into an agreement under section 49 (such as a neighborhood health center, a nonprofit mental health center, or local public health agency furnishing preventive or diagnostic services) may be paid by any method agreed upon other than fee-for-service.

Subsection (b) provides that independent pathology or radiology services may be paid on the basis of an approved budget or such other methods as may be specified in regulations.

Subsection (c) leaves the method of payment for other types of supporting services to be specified in regulations.

(Section 89.) This section provides that the Board will reduce payments to institutional providers in accordance with findings by the Secretary that a facility or any part of a facility has not been built in compliance with the area health plan.

(Section 90.) All participating providers will be paid from the Health Services Account in the Trust Fund at such time or times as the Board finds appropriate (but not less often than monthly). The Board may make advance payment to supply providers with working funds when it deems advisable.

### *Part F—Planning; funds to improve services and to alleviate shortages of facilities and personnel*

(Section 101.) This section sets forth the general purposes of Part F and authorizes appropriations, and subsequently expenditure from the Trust Fund, for these purposes. The part envisages a substantial strengthening of the health planning process throughout the country with an eye, first, to the special needs for personnel, facilities, and organization which inauguration of the Health Security program will entail, and thereafter to continuing improvement of the capabilities for effective delivery of health services. Beyond this, the part enables the Board, through selective financial assistance, to stimulate and assist in the development of comprehensive health services, the education and training of health personnel who are in especially short supply, and the betterment of the organization and efficiency of the health delivery system. For the two-year "tooling-up" period, appropriations of $200 and $400 million are authorized for financial assistance. Beginning with the effective date of health benefits, percentages of the Trust Fund expenditures will be earmarked for such assistance (section 63). From that date on, the leverage of these expanding funds will supplement and reinforce the incentives, which are built into the normal operation of the Health Security program, for improvement of the organization and methods of delivery of health services.

(Section 102.) This section directs the Secretary, in collaboration with State comprehensive health planning agencies, regional medical programs, and other planning agencies, to institute a continuous process of health service planning. Prior to the effective date of health benefits, the planning process must give first consideration to the most acute shortages and needs for delivery of covered services under this Act. Thereafter, planning shall be focused on maximizing continuing capability for delivery of these services.

This section places primarily on the State agencies the responsibility for coordinating the work of the many health planning agencies within the States, and for coordination with interstate agencies and with agencies planning in other fields related to health, but charges the Secretary with this function in any State that fails to meet the responsibility. Section 407 of the present bill amends the Public Health Service Act to increase the authorized appropriations for State and for local health planning, to extend them to 1978, and to condition grants upon collaboration for the national purposes embodied in the Health Security Act. Thus the bill, strengthening State planning agencies, focuses in them a responsibility visualized in the "partnership-for-health" legislation but in many States not yet an operating reality, for pulling together all health planning efforts within their territories. The task will not be easy, but it is one that is lent new urgency by the Health Security program. It belongs more properly to the States than to the national Government, but if any State proves unequal to the task it must and will be assumed by the Secretary.

(Section 103.) In administering part F, this section stipulates, the Board will give priority to improving comprehensive health services for ambulatory patients through the development or expansion of organizations furnishing such services, the recruitment and training of personnel, and the strengthening of coordination among providers of services. Financial assistance will be dispensed, so far as possible, in accordance with recommendations of the appropriate health planning agencies. Funds will not be used to replace other Federal financial assistance, and may supplement other assistance only to meet specific needs of the Health Security program. Other Federal assistance programs are to be administered when possible to further the objectives of part F, and the Board may provide loans or interest subsidies to help the beneficiaries of other programs to meet the requirements for non-Federal funds.

(Section 104.) Help of several kinds will be available under this section for the creation or the enlargement of organizations and agencies providing comprehensive care to ambulatory patients—either organizations to serve an enrolled population on a capitation basis, agencies such as neighborhood health centers which need not require enrollment in advance, or organizations furnishing comprehensive dental services. Grants may be made to any public or other nonprofit organization (which need not be a health organization) to help meet the cost, other than construction cost, of establishing such organizations, and to existing organizations to help meet the cost of expansion; the maximum grants being, in the former case 90 percent of the cost, in the latter 80 percent. The Board may also provide technical assistance for these purposes. Loans may be made for the cost of necessary construction, subject to the same 90 and 80 percent limitations on amount. Finally, start-up costs of operation of these organizations may be underwritten, for five years in the case of organizations which must build up an enrollment to assure operating income, and in other cases until the Health Security program begins payment for services in the first year of entitlement to benefits. The effect of these several provisions is to reduce sharply, if not eliminate, the financial obstacles which have heretofore impeded the growth of health maintenance and similar organizations.

(Section 105.) This section contains a series of provisions to assist in the recruitment, education, and training of health personnel. The Board will establish priorities to meet the most urgent needs of the Health Security system, but the priorities will be flexible both as between different regions and from time to time. Professional practitioners will be recruited for service in shortage areas, both urban and rural, and in health maintenance organizations, and such practitioners may be given income guarantees. Other Federal assistance for health education and training will be availed of, but the Board may supplement the other assistance if the Board believes it inadequate to the needs, until Congress has had opportunity to review its adequacy. The training authorized includes retraining. It also includes the development of new kinds of health personnel to assist in furnishing comprehensive services, and the training of area residents to participate in personal health education and to serve liaison functions and serve as representatives of the community in dealing with health organizations. Grants may be made to test the utility of such personnel, and to assist in their employment before the effective date of health benefits. Education and training are to be carried out through contracts with appropriate institutions and agencies, and suitable stipends to students and trainees are authorized. Physicians will be recruited and trained to serve as hospital medical directors. Finally, special assistance may be given, both to institutions and to students, to meet the additional costs of training persons disadvantaged by poverty, membership in minority groups, or other cause.

(Section 106.) This section authorizes special improvement grants: first, to any public or other nonprofit health agency or institution to establish improved coordination and linkages with other providers of services; and, second, to organizations providing comprehensive ambulatory care, to improve their utilization review, budget, statistical, or records and information retrieval systems, to acquire equipment needed for those purposes, or to acquire equipment useful for mass screening or for other diagnostic or therapeutic purposes.

(Section 107.) The Board is authorized to make demonstration grants to test the feasibility of maintaining disabled and chronically ill persons in their homes by providing personal care services such as homemaker care, laundry service, meals-on-wheels, assistance with transportation and shopping, etc. If these tests indicate that personal care services are effective in reducing the need for institutional care and can be provided without jeopardizing the integrity of the health security program, the Board is authorized to recommend to Congress the expansion of coverage for personal care services and long-term institutional care to all eligible persons.

(Section 108.) This section provides that loans under part F are to bear 3 percent interest and to be repayable in not more than 20 years. Other terms and conditions are discretionary with the Board, except for required compliance with the Davis-Bacon Act and related laws. Repayment of loans made from general appropriations will go to the general fund of the Treasury; repayment of later loans will revert to the Health Resources Development Account in the Trust Fund.

(Section 109.) This section specifies that payments under part F shall be in addition to, and not in lieu of, payments to providers under part F.

### *Part G—Administration*

This part of the bill creates an administrative structure within the Department of Health, Education and Welfare with responsibility for administration of the Health Security program. Program policy will be made by a five-member Board, under the supervision of the Secretary of HEW. The Board will be assisted by a National Health Security Advisory Council which will recommend policy and evaluate operation of the program, and an Executive Director who will serve as Secretary to the Board and chief administrative officer for the program. Administration of the program will be greatly decentralized among the HEW Regional Offices. Regional and local health services advisory councils will advise on all aspects of the program in their regions and local areas. The Board may also appoint such professional or technical committees as it may deem necessary.

(Section 121.) This section establishes a five-member full-time Health Security Board serving under the Secretary of Health, Education and Welfare. Board members will be appointed by the President with the advice and consent of the Senate, for five-year overlapping terms. Not more than three of the five appointees may be members of the same political party. A member who has served two consecutive terms will not be eligible for reappointment until two years after the expiration of his second term. One member of the Board shall serve as chairman at the pleasure of the President.

(Section 122.) This section charges the Secretary of HEW and the Board with responsibility for performing the duties imposed by this title. The Board shall issue regulations with the approval of the Secretary. It is required to engage in the continuous study of operation of the Health Security program, and of the adequacy of its financing; and, with the approval of the Secretary, to make recommendations on legislation and matters of administrative policy, and to report to the Congress annually on administration and operation of the program. The report will include an evaluation of adequacy and quality of services, costs of services and the effectiveness of measures to restrain the costs. The Secretary of HEW is instructed to coordinate the administration of other health-related programs under his jurisdiction with the administration of Health Security, and to include in his annual report to the Congress a report on his discharge of this responsibility.

The Civil Service Commission is instructed to make every effort to facilitate recruitment and employment, to work in the Health Security Administration, of persons experienced in private health insurance administration and other pertinent fields.

Subsection (g) authorizes the Board to establish fifty positions, carrying salaries in the GS-16 to GS-18 range, in the professional, scientific, and executive service, to meet the need for highly qualified personnel both in research and development activities and in administration. It is expected that about half of these positions would be used for high-level administrative assignments, and the other half for the most responsible professional and scientific work of the Board.

(Section 123.) This section creates the position of an Executive Director, appointed by the Board with the approval of the Secretary. The Executive Director will serve as Secretary to the Board and shall perform such duties in administration of the program as the Board assigns to him. The Board is authorized to delegate to the Executive Director or other employees of HEW any of its functions or duties except the issuance of regulations and the determination of the availability of funds and their allocations to the regions.

(Section 124.) This section provides that the program will be administered through the regional offices of the Department of HEW. It also requires the establishment of local health service area offices and local offices.

A health service area will in most instances be a State or a part of a State except where patterns in the organization of health services and the flow of patients indicate that an interstate area would provide a more practical administrative unit. One of the responsibilities of local offices will be to investigate complaints about the administration of the program.

(Section 125.) Subsection (a) establishes a National Health Security Advisory Council, with the Chairman of the Board serving as the Council's Chairman and 20 additional members not in the employ of the Federal Government. A majority of the appointed members will be consumers who are not engaged in providing and have no financial interest in the provision of health services. Members of the Council representing providers of care will be persons who are outstanding in fields related to medical, hospital or other health activities or who are representatives of organizations or professional associations. Members will be appointed to four-year over-lapping terms by the Secretary upon recommendation by the Board.

Subsection (b) authorizes the Advisory Council to appoint professional or technical committees to assist in its functions. The Board will make available to the Council all necessary secretarial and clerical assistance. The Council will meet as frequently as the Board deems necessary, or whenever requested by seven or more members, but not less than four times each year.

Subsection (c) provides that the Advisory Council will advise the Board on matters of general policy in the administration of the program, the formulation of regulations and the allocation of funds for services. The Council is charged with responsibility for studying the operation of the program and utilization of services under it, with a view to recommending changes in administration or in statutory provisions. They are to report annually to the Board on the performance of their functions. The Board, through the Secretary, will transmit the Council's report to the Congress together with a report by the Board on any administrative recommendations of the Council which have not been followed, and a report by the Secretary of his views with respect to any legislative recommendations of the Council.

(Section 126.) To further provide for participation of the community, the Board will appoint an advisory council for each region and local area. Each such Council would have a composition parallel to that of the National Council; and each will have the function of advising the regional or local representative of the Board on all matters directly relating to the administration of the program.

(Section 127). The Board is authorized to appoint standing committees to advise on the professional and technical aspects of administration with respect to services, payments, evaluations, etc. These committees will consist of experts drawn from the health professions, medical schools or other health educational instiutions, providers of services, etc. The Board is also authorized to appoint experts and consultants and temporary committees to advise on special problems. The committees will report to the Board, and copies of their reports are to be made available to the National Advisory Council.

(Section 128). Subsection (a) requires the Board to consult with appropriate State health and other agencies to assure the coordination of the Health Security program with State and local activities in the fields of environmental health, licensure and inspection, health education, etc.

Subsection (b) requires the Board, whenever possible, to contract with States to survey and certify providers (other than professional practitioners) for participation in the program. This is similar to Medicare except that the Board is given authority to establish the qualifications required of persons making the inspections.

Subsection (c) authorizes the Board to contract with State agencies to undertake health education activities, supervision of utilization review programs, and programs to improve the quality and coordination of available services in that State.

Subsection (d) requires the Board to reimburse States for the reasonable cost of performing such contract activities and authorizes the Board to pay all or part of the cost of training State inspectors to meet the qualifications established by the Board.

Subsection (e) directs the Board to make inspections if a State is unable or unwilling to do so.

Subsection (f) calls for the publication of the results of inspections.

(Section 129). The Board is authorized to provide technical assistance either directly or through contract with a State to skilled nursing homes and home health agencies in regard to the planning of social services, dietetics, etc.

(Section 130). Subsection (a) charges the Board with responsibility for informing the public and providers about the administration and operation of the Health Security program. This will include informing the public about entitlement to eligibility, nature, scope, and availablity of services. Providers would be informed of the conditions of participation, methods and amounts of compensation, and administrative policies. In support of the program's effort to improve drug therapy, the Board is authorized, with the approval of the Secretary, to furnish all professional practitioners with information concerning the safety and efficacy of drugs appearing on either of the approved lists (Section 25), indications for their use, and contraindications. Information of this nature is not now always available to practioners.

Subsection (b) requires the Board to make a continuing study and evaluation of the program, including adequacy, quality and costs of services. Subsection (c) authorizes the Board directly or by contract to make detailed statistical and other studies on a national, regional, or local basis of any aspect of the operation of the title, to develop and test methods of peer review of drug utilization and of other service performances, systems of information retrieval, budget programs, instrumention for multiphasic screening or patient services, reimbursement systems for drugs, and other studies which it considers would improve the quality of services or adminstration of the program.

Subsection (d) The Board is authorized to enter into agreements with providers to experiment with alternative methods of reimbursement which offer promises of improving the co-ordination of services, their quality or accessibility.

(Section 131.) Severe discrepancies exist today between the national need for various kinds of health manpower and the availability of clinical facilities to train such personnel. Certain specialties (such as surgery) in which there is a surplus of manpower monopolize clinical training facilities to the disadvantage of specialties in short supply (such as primary or family practice), thus perpetuating the imbalance between supply and demand. This section gives the Board authority to bring the availability of clinical training facilities into balance with national or regional manpower needs by issuing training priorities for institutional providers participating in the program.

(Section 132.) This section grants authority to the Board, in accordance with regulations, to make determinations of who are participating providers of service, determinations of eligibility, of whether services are covered, and the amount to be paid to providers. The Board is granted authority to terminate participation of a provider who is not in compliance with qualifying requirements, agreements or regulations. But unless the safety of eligible individuals is endangered, the provider shall be entitled to a hearing before the termination becomes effective.

(Section 133.) This section establishes procedures for hearings, and for judicial review, similar to those under the Social Security Act.

(Section 134.) This section has one of the bill's most important provisions with respect to achieving improvement in coordination, availability, and quality of services. It greatly strengthens state and local planning agencies and gives the Board authority to curtail inefficient administration of participating institutional providers.

The Board is authorized to issue a direction to any participating provider (other than an individual professional practitioner) that, as a condition of participation, the provider add or discontinue one or more covered services. For example, if two community hospitals are operating maternity wards at low occupancy rates, the Board may require that one hospital cease to provide such service. A provider may be required to provide services in a new location, enter into arrangements for the transfer of patients and medical records, or establish such other coordination or linkages of covered services as the Board finds appropriate.

In addition, if the Board finds that services furnished by a provider are not necessary to the availability of adequate services under this title, that their continuance is unreasonably costly, or that the services are furnished inefficiently (and that efforts to correct such inefficiency have proven unavailing) the Board may terminate participation of the provider.

No direction shall be issued under this section except upon the recommendation of, or after consultation with, the appropriate state health planning agency. And no direction shall be issued under this section unless the Board finds that it can be practicably carried out by the provider to whom it is addressed. The Board is required to give due notice and to establish and observe appropriate procedures for hearings and appeals, and judicial review is provided.

(Section 146.) This section instructs the Board to give consideration to the findings and recommendations of the Secretary's Commission on Medical Malpractice.

### *Part H—Quality of care*

This part authorizes the Board, and charges it with the duty, to maintain and enhance the quality of care furnished under the Act. Section 141(a) sets forth this authority and this duty, to be discharged with the advice and assistance of, and in close collaboration with, the Commission on the Quality of Health Care created by an amendment of the Public Health Service Act contained in title III of the present bill. Regulations under the part are to be issued before health security benefits become effective, and thereafter to be upgraded as rapidly as is practicable. Subsection (b) states as the objective the highest quality of care attainable throughout the nation, with exceptions to quality requirements only when, and as long as, they are necessary to avoid acute shortages of services. Subsection (c) calls for collaboration with the Commission, and stipulates that any failure to follow its recommendations shall be submitted to the Secretary and that, unless he directs the Board to adopt the recommended regulations, the reasons for not doing so must be published by the Board.

(Section 142.) The Board is to issue regulations requiring continuing professional education for physicians, dentists, optometrists and podiatrists. Reports of compliance with the regulations will be required and, after warning, practitioners may be disciplined for failure to comply.

(Section 143.) Subsection (a) provides that major surgery, and other procedures specified in regulations, are not covered services unless they are performed by a specialist, and (except in emergencies) are, to the extent prescribed in regulations, performed on referral by a physician engaged in general practice. Specialists, according to subsection (b), are those certified by the appropriate national specialty boards, with a five-year period allowed board-qualified physicians to obtain certification, and with a "grandfather" exception for certain physicians practicing when health security benefits go into effect. Subsection (c) authorizes the Board to require, except in acute emergencies, consultation with an appropriate specialist, as a prerequisite to specified surgical procedures; in such cases subsection (d) enables the Board to require pathology reports and clinical abstracts or discharge reports.

(Section 144.) Subsection (a) requires that practitioners furnishing services on behalf of institutional or other providers meet the same qualifications that are demanded of independent practitioners. Subsection (b) authorizes the Board to make additional requirements, in the interest of the quality of care and of safety of patients, for all providers other than professional practitioners. This is like the authority given the Secretary under the Medicare law, but with the notable difference that standards of the Joint Commission on the Accreditation of Hospitals constitute a minimum for Board requirements, rather than a maximum as under Medicare. Exceptions are permitted only, as stated in section 141, to avoid acute shortages or services.

(Section 145.) Although the provisions relating to professional standards review organizations, recently added to the Social Security Act, are repealed by section 405 of the present bill, the Board is authorized, on recommendation of the Commission on the Quality of Health Care, to use organizations previously designated or conditionally designated by the Secretary for the purpose of monitoring the quality of services, either institutional or noninstitutional. The Board may also use for this purpose similar organizations approved by it in the future.

(Section 146.) In exercising its authority under part H the Board is directed to take into account the findings of the Secretary's Commission on Medical Malpractice, and to seek to reduce the incidence of malpractice and to improve the availability of malpractice insurance.

### *Part I—Miscellaneous provisions*

(Section 161.) This section contains definitions of certain terms used in the title.

(Section 162.) This section creates the offices of Deputy Secretary for Health, Education and Welfare and an Under Secretary for Health and Science in the Department of Health, Education and Welfare, and abolishes the office of Under Secretary of Health, Education and Welfare.

(Section 163.) This section stipulates that the effective date for entitlement for benefits will be July 1, of the second calendar year following enactment.

(Section 164.) Subsection (a) provides that an employer will not be relieved, by the enactment of the Health Security Act, of any existing contractual or other non-statutory obligation to provide or pay for health services to his present or former employees and their families. An employer whose cost under such a contract, immediately before health security taxes go into effect, exceeds the cost to him of paying those taxes is required by subsection (b) to apply the excess, during the remaining life of the contract, first to the payment of health security taxes on behalf of his employees. If an excess still remains after meeting this obligation, and after an allowance for the cost of any continuing obligation to pay for health services not covered by Health Security, subsection (c) requires the employer to pay the amount of this remaining excess to those employees, former employees, and survivors who are beneficiaries of the pre-existing contract; but by agreement with the employees or their representatives, these funds may be applied to other employee benefits. Computations of the amounts involved are to be made on a per capita basis, as defined in subsection (d).

### TITLE II—HEALTH SECURITY TAXES

### *Part A—Payroll taxes*

(Section 201.) Effective on January 1 of the second year after enactment, subsections (a) and (b) covert the existing Medicare hospital insurance payroll taxes into Health Security taxes, and raise the rates to 1 percent on employees and 3.5 percent on employers. Subsection (c) raises the wage base for the employee tax from $12,000 (as present law provides after 1973) to $15,000, with subsequent further increase if wage levels rise, so that the Health Security wage base will always be 125 percent of the Social Security wage base. This subsection also eliminates the wage ceiling from the employer tax, and broadens the definitions of covered employment to include foreign agricultural workers, employees of the United States and its instrumentalities (other than members of the armed forces, and the President, Vice-President, and Members of Congress), employees of charitable and similar organizations railroad employees, and (for the employee tax only) employees of States and their political subdivisions and instrumentalities.

(Section 202.) Section 202 makes a number of conforming and technical amendments. Chief among these are provisions for refund of excess taxes collected from an employee who has held two or more jobs, on wages aggregating in a year more than the amount of the new wage base; exclusion of Health Security contributions from agreements with State governments for the social security coverage of State and municipal employees (since these employees will contribute to Health Security through payroll taxes); and exclusion of Health Security contributions from agreements for the coverage of United States citizens employed by foreign subsidiaries of United States corporations (since these employees will not benefit substantially from Health Security in its present form).

(Section 203.) This section excludes from the gross income of employees, for income tax purposes, payment by their employers of part or all of the Health Security taxes on the employees.

(Section 204.) This section spells out the effective dates of the new payroll tax provisions.

### *Part B—Taxes on self-employment income and unearned income*

(Section 211.) Effective at the beginning of the second calendar year after enactment, this section converts the existing Medicare self-employment tax into a Health Security self-employment tax, raises the rate to 2.5 percent, and raises the maximum taxable self-employment income from $12,000 to $15,000 (with the same upward adjustment as in the employee tax for subsequent rises in average wage levels).

(Section 212.) Effective on the same date this section adds a new 1 percent Health Security tax on unearned income (unless such income is less than $400 a year), subject to the same maximum on taxable income as is applicable to the employee and self-employment taxes. Taxable unearned income is adjusted gross income up to the stated maximum, minus wages and self-employment income already taxed for Health Security purposes (excluding certain items of income specifically excluded from the other taxes and excluding $3,000 in unearned income for persons over age 60.)

(Sections 213, 214.) These sections make technical amendments and specify effective dates for this part.

### TITLE III—COMMISSION ON THE QUALITY OF HEALTH CARE

(Section 301.) The purpose of Title III is to create a Commission on the Quality of Health Care in order to improve health care in the United States. The Commission's function is:

To develop methods of measuring health care,

To develop standards for promoting health care of high quality,

To encourage the use of such measurements and standards under the provisions of the Health Security Act.

(Section 302.) This section adds to the Public Health Service Act a new Title XII, entitled "Commission on the Quality of Health Care."

(Section 1201, Public Health Service Act.) Subsection (a) establishes a Commission on the Quality of Health Care within the Department of Health, Education, and Welfare. The Commission will consist of eleven members who are to be appointed by the Secretary after consultation with the Health Security Board. The Commission is required to carry out the functions set forth under new sections 1202 and 1203.

Subsection (b) describes the requirements for the membership of the Commission. Seven of the members appointed must be representatives of health service providers or representatives of nongovernmental organizations that are engaged in the process of developing standards relating to the quality of health care. Four members must be representatives of consumers who are not related to and have no financial interest in the delivery of health care services. Commission members will be appointed to serve five year overlapping terms. Subsection (c) requires the Secretary to designate the Chairman of the Commission, who serves at the pleasure of the Secretary. Subsection (d) authorizes the Commission to employ needed personnel and appoint advisory committees. It also stipulates the conditions of employment and rates and terms of compensation.

(Section 1202, Public Health Service Act.) Subsection (a) defines the primary responsibilities of the Commission. The Commission is directed to initiate and continuously develop methods to assess the quality of health care delivered under the provisions of the Health Security Act; and to initiate and develop ways to use such assessments in order to maintain and improve the quality of health care delivered under that Act. The Commission is required to submit its findings and recommendations to the Secretary and the Health Security Board.

Specifically, the Commission is required to:

(1) collect data on a systematic and nationwide basis that will provide information on the (A) qualifications of health personnel and the adequacy and ability of health care facilities to provide quality health care; (B) the patterns of health care practices that are delivered in actual episodes of care; (C) the utilization patterns for components of the health care system; and (D) the health of patients during and at the end of actual episodes of care and the relationship of the various factors outlined above to the health of such patients;

(2) use the date it collects to develop statististical norms and ranges to describe the factors outlined in paragraph (1). Such norms and ranges may be developed on a national or regional basis, for particular population groups, or on any other basis deemed most useful by the Commission;

(3) use such statistical norms and ranges as a basis for developing standards (and acceptable deviation from such standards) that will be useful in measuring, controlling, and improving the quality of health care; and

(4) make recommendations to the Secretary and the Health Security Board on the proper use of standards developed under the provisions of paragraph (3) in connection with the Board's continuing resonsibility for the maintenance and improvement of the quality of the health care delivered under the Health Security Act. Such recommendations may also be used by the Secretary or the Board when developing proposals to amend the Health Security Act.

When carrying out its duties under the provisions of this subsection, the Commission is directed to give first priority to the quality of care delivered for those illnesses or conditions which have high incidence of occurrence within the population and which are responsive to medical or other treatment.

Subsection (b) requires the Commission to conduct a broad health care research program. Specifically, the objectives of the program are to:

(1) improve technologies for assessing health care quality;

(2) compare the quality of health care under alternative health delivery systems and methods of payment;

(3) analyze the effects of consumer health education and preventive health services;

(4) continue the studies made by the Secretary's Commission on Medical Malpractice. In this respect, the Commission is also required to evaluate any of the recommendations of the Secretary's Commission which the Health Security Board has put into effect, or any other measures that the Board has established, which pertain to the incidence of malpractice, malpractice insurance, or malpractice claims;

(5) obtain other information that will be useful in order to accomplish the purposes of the new title of the Public Health Service Act and title I, part H, of the Health Security Act (concerning the maintenance and improvement of the quality of health care delivered under the Health Security Act).

Subsection (c) authorizes the Commission to provide technical assistance to enable participating providers to furnish the Board with information required by it for purposes of the Commission. The Commission is also authorized to provide technical assistance to participating providers who are developing and carrying out quality control programs.

(Section 1203, Public Health Service Act.) This section directs the Commission, even before it has developed standards under the preceeding provisions, to give advice and make recommendations to the Health Security Board concerning quality health care regulations.

(Section 1204, Public Health Service Act.) This section authorizes the Commission to establish twenty-five positions, carrying salaries in the GS–16 to GS–18 range, in the professional, scientific, and executive service, to meet the need for highly qualified personnel in the research and development activities of the Commission.

(Section 303.) This section makes conforming technical amendments to the Public Health Services Act.

### TITLE IV—REPEAL OR AMENDMENT OF OTHER ACTS

(Section 401.) Subsection (a) repeals Medicare on the date benefits become effective but stipulates that this shall not affect any right or obligation incurred prior to that date.

(Section 402.) This section requires that after the effective date of benefits, no State shall be required to furnish any service covered under Health Security as a part of its State plan for participation under Medicaid, and that the Federal government will have no responsibility to reimburse any State for the cost of providing a service which is covered under Health Security. After the effective date of benefits, the Secretary of HEW shall prescribe by regulation the new minimum scope of services required as a condition of State participation under Title XIX. To the extent the Secretary finds practicaable, the new minimum benefits will be designed to supplement Health Security—especially with respect to skilled nursing home services, dental services and the furnishing of drugs.

(Section 403.) This section provides that funds available under the Vocational Rehabilitation Act or the Maternal and Child Health title of the Social Security Act shall not be used to pay for personal health services after the effective date of benefits, except (to the extent prescribed in regulations by the Secretary of HEW) to pay for services which are more extensive than those covered under Health Security.

(Section 404.) This section makes applicable to Health Security the provisions recently added to the Social Security Act requiring reduction in reimbursement for care in facilities which have made substantial capital expenditures found by a State planning agency to be inconsistent with standards developed pursuant to the Public Health Service Act. Because the provision will continue to apply to the residual programs under titles V and XIX of the Social Security Act, the reductions will continue to be determined by the Secretary and his determinations are made binding on the Board, as provided in section 89 of the bill.

(Section 405.) This section repeals the provisions recently added to the Social Security Act relating to professional standards review organizations. Section 145 of the bill permits the use of such organizations already designated by the Secretary, and approval by the Board and use of similar organizations in the future.

(Section 406.) Subsection (a) amends section 1817 of the Social Security Act, creating the Federal Hospital Insurance Trust Fund, and transfers it to become section 61 of the Health Security Act under the title "Health Security Trust Fund". The effect of this transfer is summarized in the description of title I, part D, of the present bill. Subsection (b) extends to the Health Security system the provisions of section 201(g) of the Social Security Act, authorizing annual Congressional determination of amounts to be available from the respective trust funds for the administration of the several national systems of social insurance. Subsections (c) and (d) contain conforming and technical provisions.

(Section 407.) This section contains the extension and enlargement, for the purposes of section 102 of the present bill, of sections 314 (a) and (b) of the Public Health Service Act under which support is provided for State and local comprehensive health planning.

(Section 408.) This section establishes the salary levels for the Under Secretary for Health and Science, Department of Health, Education, and Welfare, the Chairman of the Health Security Board, members of the Health Security Boards and members of the Commission on the Quality of Health Care, and the Executive Director of the Health Security Board.

### TITLE V—STUDIES RELATED TO HEALTH SECURITY

(Section 501.) This section directs the Secretary of Health, Education, and Welfare in consultation with the Secretary of State and the Secretary of the Treasury to study the coverage of health services for United States residents in other countries.

(Section 502.) Subsection (a) directs the Secretary of HEW to study means of coordinating the federal health care programs for merchant seamen, and for Indians and Alaskan natives, with the Health Security benefits program. The Secretary and the Administrator of Veterans' Affairs shall conduct a similar joint study of the means of coordinating veterans health care programs with the Health Security benefits program. A similar study is to be conducted, jointly with the Secretary of Defense, relating to the program of care, in civilian facilities, of the dependents of military personnel. Reports to the Congress and any legislative recommendations arising from the studies are required within three years after the enactment of the Health Security Act.

Subsection (b) requires the respective Secretaries and the Administrator to consult with representatives of the affected beneficiary groups, and to include a summary of their views in the reports to Congress.

With respect to the joint study to determine the most effective method of coordinating the Veterans' Administration Health Program with the Health Security program established under this bill, it is important to understand that there is no intention to require either the integration of the VA program into the Health Security program, or even the consideration of such integration. Rather, the section recognizes that any national health security or health insurance program would be so pervasive as to require other federal health programs such as those of the Veterans' Administration to be effectively coordinated with them. Through such coordination, needless duplication and expenditures should be avoided.

(Section 503.) This section authorizes the appropriation of money needed for conducting the studies authorized in this title, and the use of experts and consultants and advisory committees, and of contracts for the collection of information or the conduct of research.

Mr. KENNEDY. Mr. President, I ask unanimous consent that a summary of the bill be printed at this point in the RECORD.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

### NEW FEATURES IN THE HEALTH SECURITY ACT OF 1973, S. 3—AS INTRODUCED IN THE 93D CONGRESS

#### DENTAL BENEFITS

The Health Security Board is authorized to extend the coverage for dental services (limited to children up to age 15 at the start) faster than the timetable specified in the legislation if adequate manpower is available. In addition, the Board is required, within seven years of the effective date of the legislation, to publish a timetable for phasing in the entire adult population. To encourage the development of comprehensive medical/dental or dental group practice programs, the Board is authorized to extend coverage more rapidly to enrollees of such groups than to the population at large. The Resources Development Fund contains a new priority to develop dental group practice.

#### HEALTH MAINTENANCE ORGANIZATIONS

The name "comprehensive health service organization" is changed to "health maintenance organization." HMO's will now be required to furnish or arrange for all covered services except mental and dental services (previously they could also elect not to furnish institutional services—hospital, skilled nursing home care, home health services).

#### PROFESSIONAL FOUNDATIONS

Medical foundations are given the same expanded drug benefit previously available only in health maintenance organizations. That is, a full range of prescription drugs are now covered for all patients served through HMO's or foundations. The foundations are required to provide the same range of services as an HMO.

#### MALPRACTICE

While fully protecting patients' rights, the new Health Security bill prevents double recovery in a malpractice action by stipulating that no damages will be awarded to the injured party for the cost of remedial services which he was (or is) entitled to receive free of charge under Health Security. The recommendations of the Commission Medical Practice will be considered by the Board.

#### MANPOWER TRAINING

There is now authority to use training funds for the retraining of health workers (as well as training). Similarly, support is now available to enhance or refresh skills or for new positions of greater responsibility—"career ladders" are encouraged through grants.

#### MAINTENANCE AND LONG-TERM CARE

A new section gives the Board authority to make grants for pilot projects to test the feasibility of home maintenance care for chronically ill or disabled people. Home maintenance services include homemaker services, home maintenance, laundry services, meals on wheels, assistance with transportation and shopping, and such other services as the Board deems appropriate. If experience under these projects proves that home maintenance services reduce the need for institutional care (hospital, skilled nursing home) and can be administered in such a way as to effectively control inappropriate or unnecessary utilization, the Board is authorized to recommend expansion of these services to the entire population.

#### CONSUMER PARTICIPATION

Requires regional and local advisory councils to select consumers who (to the maximum extent feasible) reflect the composition of the state or community served.

#### PROTECTION OF PREVIOUSLY NEGOTIATED BENEFITS

Strengthens the requirement that Health Security will not alter existing employer obligations with respect to the purchase of health benefits for his employees and requires employers to absorb all or part of the employees tax if his current obligation for health benefits exceeds 3.5% of payroll.

#### INCREASING THE TAX BASE TO REFLECT INCREASES IN THE SOCIAL SECURITY TAX BASE

Provides a mechanism for increasing the Health Security tax base at the rate of 125% of the contribution and benefit base as determined under Section 230 of the Social Security Act.

#### TAX RELIEF FOR SENIOR CITIZENS

Exempts for purposes of the Health Security tax the first $3000 unearned income for persons over age 60.

#### TITLE III COMMISSION ON THE QUALITY OF CARE

This is a new section establishing a Commission on the Quality of Health care to develop parameters and standards for care of high quality. The Commission will be quasi-independent Board reporting to the Health Security Board but with authority to appeal to the Secretary of HEW if it believes the Health Security Board has failed to implement or enforce effective quality standards. Part H (Sections 141–145) brings together quality control provisions previously scattered throughout the bill.

---

By Mr. WILLIAMS (for himself and Mr. Javits, Mr. Bayh, Mr. Beall, Mr. Bible, Mr. Brooke, Mr. Burdick, Mr. Case, Mr. Cook, Mr. Cranston, Mr. Dominick, Mr. Eagleton, Mr. Gravel, Mr. Hart, Mr. Hughes, Mr. Humphrey, Mr. Inouye, Mr. Jackson, Mr. Kennedy, Mr. Magnuson, Mr. Mansfield, Mr. McGee, Mr. McGovern, Mr. McIntyre, Mr. Mondale, Mr. Montoya, Mr. Moss, Mr. Muskie, Mr. Nelson, Mr. Pastore, Mr. Pell, Mr. Percy, Mr. Randolph, Mr. Ribicoff, Mr. Schweiker, Mr. Sparkman, Mr. Stafford, Mr. Stevenson, Mr. Taft, Mr. Tunney, and Mr. Weicker):

S. 4. A bill to strengthen and improve the protections and interests of participants and beneficiaries of employee pension and welfare benefit plans. Referred to the Committee on Labor and Public Welfare.

### RETIREMENT INCOME SECURITY FOR EMPLOYEES ACT OF 1973

Mr. WILLIAMS. Mr. President, today, together with Senator Javits and other Senators, I am introducing the Retirement Income Security for Employees Act of 1973. This bill is identical to S. 3598 of the 92d Congress, and is designed to alleviate a major problem facing many older Americans by strengthening our Nation's system of private pension plans.

As chairman of the Senate Subcommittee on Labor, I have, for the past 3 years, directed a detailed study of private pension plans in the United States. That study has dramatically documented the widespread weaknesses which often deny American workers the retirement security they look forward to during a lifetime of work. The subcommittee carefully drafted the bill I am introducing today to correct the deficiencies uncovered by our study, and there is compelling evidence in favor of prompt passage of this measure.

Our study shows that private pension plans repeatedly fail to fulfill their promise of retirement security. The subcommittee provided a public forum, for the first time, for workers who have suffered because of such failures, and we listened to one heartbreaking story after another of dashed hopes, broken promises, and the bleak despair of a poverty-stricken old age. At public hearings in Washington and five other cities, workers eloquently expressed the shock and despair they felt when they learned that their dreams of living out retirement years in economic security were never going to come true.

Coupling this testimony with facts gleaned from a survey of 1,302 representative private plans, the subcommittee developed a solid case for Federal regulation of the system. For example, we documented the fact that there are a vast number of pension forfeitures as a result of weak, or nonexistent, vesting provisions.

In another phase of the study, the subcommittee examined opposition to pension legislation based on anticipated cost burdens to the plans, and to employers. Obviously, vastly increased costs would work against the best interests of all parties to the plans, possibly lowering benefits at a time when they are already very low in many plans. However, this study, conducted by an independent actuary with assistance from the GAO, found that the cost increase would come to only a few tenths of a percentage point if the minimum requirements for vesting in this bill were to be followed.

Additionally, numerous staff studies of individual plans were made, and interviews and conferences conducted, in a search for factual data. Enough evidence was accumulated by the subcommittee during 1971 and 1972 to enable it to conclude that certain aspects of pension plans must meet minimum standards if such plans are to fulfill their intended purpose. Most in need of Federal regulation are the vesting, funding, and fiduciary and disclosure requirements of plans. The subcommittee also saw a need for a Federal program of insurance against plan terminations resulting from the failure, merger, or sale of a business, and for an experimental, voluntary program of portability to which individual employers could subscribe.

Additional support for pension reform came from employer-spokesmen, and other representatives from all segments of this $152 billion industry, who testified last June about the need for some Federal authority to insure that the worthwhile goals of employers and labor organizations in establishing pension plans would be realized.

With this tremendous background of evidence derived from years of painstaking inquiry, the Retirement Income Security for Employees Act of 1972 was introduced by Senator Javits and myself, on May 11, 1972; we were ultimately joined by 46 cosponsors. The Subcommittee on Labor and the Committee on Labor and Public Welfare unanimously approved it, and S. 3598 was reported to the Senate on September 15, 1972. My colleagues will recall that, due to the urgency of other matters pending, and the proximity of national elections, that bill was not brought to the floor for a vote. However, although it was not voted upon, many Senators expressed a desire for the bill to be brought up in the next session of the Congress as soon as possible.

Mr. President, the Retirement Income Security for Employees Act of 1973 is identical to the bill reported by the Committee on Labor and Public Welfare last year. It would establish minimum standards in private pension plans for the protection and preservation of benefits which are due to workers upon retirement. The enactment of this bill will not only eliminate existing inequities, but will also contribute to strengthening our private pension system.

Under the provisions of this bill, 8 years of service will vest a worker with 30 percent of his retirement benefits; that is increased by 10 percent each year until full vesting is achieved at 15 years. Because vesting of rights to a worker without adequate funding is an empty promise, our bill will require funding of all pension benefit liabilities over a 30-year period; it also includes a Federal insurance program to assure against loss of pension benefits prior to full funding of a plan. The bill will establish a voluntary system for portability of vested benefit credits. And, it also calls for improved and more stringent fiduciary standards, and more comprehensive and understandable disclosure to plan participants of their rights and obligations.

Mr. President, this legislation is not intended as an indictment of the private pension system in this country. However, despite the effectiveness of some private pension plans, it is undeniable that substantial numbers of plans, due to nonexistent or inequitable provisions for the protection of workers, are failing to deliver the benefits promised to participants.

The weaknesses, and their tragic consequences, must be recognized and corrected. Opponents of comprehensive pension reform have often attempted, and sometimes succeeded, in clouding the basic issue involved here. That issue is simple—should American working men and women be assured of receiving the retirement benefits they are promised, and that they look forward to during a lifetime of toil? The answer is unquestionably "yes." Furthermore, I believe a majority of my colleagues in this Chamber, and a majority of the Members of the House of Representatives, share that view.

The shortcomings in pension plans documented by our Labor Subcommittee study are neither imaginary, nor exaggerated; they are very real and they continue to bring great hardships to thousands of workers. Our study clearly documented both the shortcomings and the resulting hardships, and pointed the way to meaningful change. It also underscored the fact that real improvement in this unconscionable situation will come only through comprehensive legislative action. The Retirement Income Security for Employees Act of 1973 represents that kind of comprehensive approach, and, in my judgment, would go a long way toward strengthening private pension plans.

For far too many years, American workers have suffered under pension plan vagaries and inequities. For far too many years, workers have seen life-long dreams of retirement security disappear into thin air. The changes envisioned in this bill are long, long overdue. I earnestly hope that they will be enacted by this 93d Congress; it would be an outrage if we failed to act, and asked some 35 million Americans covered by private pension plans to wait even longer for the retirement security that is rightfully theirs.

Mr. President, I ask unanimous consent that the full text of the bill together with an outline of its major provisions and a section-by-section analysis be printed in the Record at this point.

There being no objection, the material was ordered to be printed in the Record, as follows:

S. 4

A bill to strengthen and improve the protections and interests of participants and beneficiaries of employees pension and welfare benefit plans

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Retirement Income Security for Employees Act".

TITLE VII—EFFECTIVE DATES

FINDINGS AND DECLARATION OF POLICY

SEC. 2. (a) The Congress finds that private pension and other employee benefit plans and programs in the United States are intrinsically woven into the working and retirement lives of American men and women; that such plans and programs have become firmly rooted into our economic and social structure; that their operational scope and economic impact is interstate and increasingly affecting more than thirty million worker participants throughout the United States; that the pension assets of approximately $150,000,000,000 accelerating at more than $10,000,000,000 annually, represent the largest fund of virtually unregulated assets in the United States; that the growth in size, scope, and numbers of employee benefit plans is continuing rapidly and substantially; that Federal authority over the establishment, administration, and operations of these plans is fragmented and ineffective to secure adequate protection of retirement and welfare benefits due to the workers covered and affected; that deficient and inadequate provisions contained in a number of such plans are directly responsible for hardships upon working men and women who are not realizing their expectations of pension benefits upon retirement; that there have been found to be serious consequences to such workers covered by these plans directly attributable to inadequate or nonexistent vesting provisions, lack of portability to permit the transfer of earned credits by employees from one employment to another; that terminations of plans beyond the control of employees, without necessary and adequate funding for benefit payments, has deprived employees and their dependents of earned benefits; that employee participants have not had sufficient information concerning their rights and responsibilities under the plans, resulting in loss of benefits, without knowledge of same; that the lack of uniform minimum standards of conduct required of fiduciaries, administrators, and trustees has jeopardized the security of employee benefits; and that it is therefore desirable, in the interests of employees and their beneficiaries, and in the interest of the free flow of commerce, that minimum standards be prescribed to assure that private pension and employee benefit plans be equitable in character and financially sound and properly administered.

(b) It is the declared policy of this Act to protect interstate commerce, and the equitable interests of participants in private pension plans and their beneficiaries, by improving the scope, administration, and operation of such plans, by requiring pension plans to vest benefits in employees after equitable periods of service; to meet adequate minimum standards of funding; to prevent the losses of employees' earned credits resulting from change of or separation from employment; to protect vested benefits of employees against loss due to plan termination; and to require more adequate disclosure and reports to participants and beneficiaries of plan administration and operations, including financial information by the plan to the participant, as may be necessary for the employees to have a comprehensive and better understanding of their rights and obligations to receive benefits from the plans in which they are participants; to establish minimum standards of fiduciary conduct, and to provide for more appropriate and adequate remedies, sanctions, and ready access to the courts.

DEFINITIONS

SEC. 3. As used in this Act—

(1) "Secretary" means the Secretary of Labor.

(2) "Office" means the Office of Pension and Welfare Plans Administration.

(3) "Assistant Secretary" means the Assistant Secretary of Labor in charge of the Office of Pension and Welfare Plans Administration.

(4) "State" means any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, Wake Island, the Canal Zone, and Outer Continental Shelf lands defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331–1343).

(5) "Commerce" means trade, traffic, commerce, transportation, or communication among the several States, or between any foreign country and any State, or between any State and any place outside thereof.

(6) "Industry or activity affecting commerce" means any activity, business, or industry in commerce or in which a labor dispute would hinder or obstruct commerce or the free flow of commerce and includes any activity or industry affecting commerce within the meaning of the Labor-Management Relations Act, 1947, as amended, or the Railway Labor Act, as amended.

(7) "Employer" means any person acting directly as an employer or indirectly in the interest of an employer in relation to a pension or profit-sharing-retirement plan, and includes a group or association of employers acting for an employer in such capacity.

(8) "Employee" means any individual employed by an employer.

(9) "Participant" means any employee or former employee of an employer or any member or former member of an employee organization who is or may become eligible to receive a benefit of any type from a pension or profit-sharing-retirement plan, or whose beneficiaries may be eligible to receive any such benefit.

(10) "Beneficiary" means a person designated by a participant or by the terms of a pension or profit-sharing-retirement plan who is or may become entitled to a benefit thereunder.

(11) "Person" means an individual, partnership, corporation, mutual company, joint-stock company, trust, unincorporated organization, association, or employee organization.

(12) "Employee organization" means any labor union or any organization of any kind, or any agency or employee representation committee, association, group, or program, in which employees participate and which exists for the purpose in whole or in part, of dealing with employers concerning a pension or profit-sharing-retirement plan, or other matters incidental to employment relationships; or any employees' beneficiary association organized for the purpose, in whole or in part, of establishing or maintaining such a plan.

(13) The term "fund" means a fund of money or other assets maintained pursuant to or in connection with a pension or profit-sharing-retirement plan, and includes employee contributions withheld but not yet paid to the plan by the employer, or a contractual agreement with an insurance carrier. The term does not include any assets of an investment company subject to regulation under the Investment Company Act of 1940.

(14) "Pension plan" means any plan, fund, or program, other than a profit-sharing-retirement plan, which is communicated or its benefits described in writing to employees and which is established or maintained for the purpose of providing for its participants, or their beneficiaries, by the purchase of insurance or annuity contracts or otherwise, retirement benefits.

(15) "Profit - sharing - retirement plan" means a plan established or maintained by an employer to provide for the participation by the employees in the current or accumulated profits, or both the current and accumulated profits of the employer in accordance with a definite predetermined formula for allocating the contributions made to the plan among the participants and for distributing the funds accumulated under the plan upon retirement or death. Such plan may include provisions permitting the withdrawal or distribution of the funds accumulated upon contingencies other than, and in addition to, retirement and death.

(16) "Registered plan" means a pension plan or profit-sharing-retirement plan registered and certified by the Secretary as a plan established and operated in accordance with title I of this Act.

(17) "Money purchase plan" refers to a pension plan in which contributions of the employer and employee (if any) are accumulated, with interest, or other income, to provide at retirement whatever pension benefits the resulting sum will buy.

(18) The term "administrator" means—

(A) the person specifically so designated by the terms of the pension or profit-sharing-retirement plan, collective bargaining agreement, trust agreement, contract, or other instrument, under which the plan is established or operated; or

(B) in the absence of such designation, (i) the employer in the case of a pension or profit-sharing-retirement plan established or maintained by a single employer, (ii) the employee organization in the case of such plan established or maintained by an employee organization, or (iii) the association, committee, joint board of trustees, or other similar group of representatives of the parties who have established or maintain such plan, in the case of a plan established or maintained by two or more employers or jointly by one or more employers and one or more employee organizations.

(19) "Initial unfunded liability" means the amount (on the effective date of title II, or the effective date of the establishment of a pension plan or any amendment thereto, whichever is later), by which the assets of the plan are required to be augmented to insure that the plan is and will remain fully funded.

(20) "Unfunded liability" means the amount on the date when such liability is actuarially computed, by which the assets of the plan are required to be augmented to insure that the plan is and will remain fully funded.

(21) "Fully funded" with respect to any pension plan means that such plan at any particular time has assets determined, by a person authorized under section 101(b)(1), to be sufficient to provide for the payment of all pension and other benefits to participants then entitled or who may become entitled under the terms of the plan to an immediate or deferred benefit in respect to service rendered by such participants.

(22) "Experience deficiency" with respect to a pension plan means any actuarial deficit, determined at the time of a review of the plan, that is attributable to factors other than the existence of an initial unfunded liability or the failure of any employer to make any contribution required by the terms of the plan or by section 210, except insofar as such failure to make a required contribution is treated as an experience deficiency under 217(a)(1).

(23) "Funding" shall mean payment or transfer of assets into a fund, and shall also include payment to an insurance carrier to secure a contractual right pursuant to an agreement with such carrier.

(24) "Normal service cost" means the annual cost assigned to a pension plan, under the actuarial cost method in use (as of the effective date of title II or the date of establishment of a pension plan after such date), exclusive of any element representing any initial unfunded liability or interest thereon.

(25) "Special payment" means a payment made to a pension plan for the purpose of liquidating an initial unfunded liability or experience deficiency.

(26) "Nonforfeitable right" or "vested right" means a legal claim obtained to that part of an immediate or deferred life annuity which notwithstanding any conditions subsequent which could affect receipt of any benefit flowing from such right, arises from the participant's covered service under the plan, and is no longer contingent on the participant remaining covered by the plan.

(27) "Covered service" means that period of service performed by a participant for an employer or as a member of an employee organization which is recognized under the terms of the plan or the collective bargaining agreement (subject to the requirements of part A of title II) for purposes of determining a participant's eligibility to receive pension benefits or for determining the amount of such benefits.

(28) "Normal retirement benefit" means that benefit payable under a pension or profit-sharing-retirement plan in the event of retirement at the normal retirement age.

(29) "Normal retirement age" means the normal retirement age, specified under the plan but not later than age 65 or, in the absence of plan provisions specifying the normal retirement age, age 65.

(30) "Pension benefit" means the aggregate, annual, monthly, or other amounts to which a participant will become entitled upon retirement or to which any other person is entitled by virtue of such participant's death.

(31) "Accrued portion of normal retirement benefit" means that amount of benefit which, irrespective of whether the right to such benefit is nonforfeitable, is equal to—

(A) in the case of a profit-sharing-retirement plan or money purchase plan, the total amount (including all interest held in the plan) credited to the account of a participant;

(B) in the case of a unit benefit-type pension plan, the benefit units credited to a participant; or

(C) in the case of other types of pension plans, that portion of the prospective normal retirement benefit of a participant, which under rule or regulation of the Secretary is determined to constitute the participant's accrued portion of the normal retirement benefit under the terms of the appropriate plan.

(32) "Multi-employer plan" means a collectively bargained pension plan to which a substantial number of unaffiliated employers are required to contribute and which covers a substantial portion of the industry in terms of employees or a substantial number of employees in the industry in a particular geographic area.

(33) "Unaffiliated employers" means employers other than those under common ownership or control, or having the relationship of parent-subsidiary, or directly or indirectly controlling or controlled by another employer.

(34) "Qualified insurance carrier" means an insurance carrier subject to regulation and examination by the government of any State, which is determined by rule or regulation of the Secretary to be suitable for the purchase of the single premium life annuity or the annuity with survivorship options authorized under section 305(2).

(35) "Vested liabilities" means the present value of the immediate or deferred pension benefits for participants and their beneficiaries which are nonforfeitable and for which all conditions of eligibility have been fulfilled under the provisions of the plan prior to its termination.

(36) "Unfunded vested liabilities" means that amount of vested liabilities that cannot be satisfied by the assets of the plan, at fair market value, as determined by rule or regulation of the Secretary.

## TITLE I—ORGANIZATION

### PART A—ORGANIZATIONAL STRUCTURE

### POWERS AND DUTIES OF THE SECRETARY

SEC. 101. (a) It shall be the duty of the Secretary—

(1) to promote programs and plans for the establishment, administration, and operations of pension, profit-sharing-retirement, and other employee benefit plans in furtherance of the findings and policies set forth in this Act:

(2) to determine, upon application by a pension or profit-sharing-retirement plan, such plan's eligibility for registration with the Secretary under section 105 and, upon qualification, to register such plan and issue appropriate certificates of registration;

(3) to cancel certificates of registration of pension and profit-sharing-retirement plans registered under section 105, upon determination by the Secretary that such plans are not qualified for such registration;

(4)(A) to direct, administer, and enforce the provisions and requirements of this Act and the Welfare and Pension Plans Disclosure Act, except where such provisions are only enforceable by a private party;

(B) to make appropriate and necessary inquiries to determine violations of the provisions of this Act, or the Welfare and Pension Plans Disclosure Act, or any rule or regulation issued thereunder: *Provided, however*, That no periodic examination of the books and records of any plan or fund shall be conducted more than once annually unless the Secretary has reasonable cause to believe there may exist a violation of this Act or the Welfare and Pension Plans Disclosure Act or any rule or regulation thereunder;

(C) for the purpose of any inquiry provided for in subparagraph (B), the provisions of sections 9 and 10 (relating to the attendance of witnesses and the production of books, papers, and documents) of the Federal Trade Commission Act of September 1, 1914, are hereby made applicable to the jurisdiction, powers, and duties of the Secretary.

(5) to bring civil actions authorized by this Act subject to control and direction of the Attorney General;

(6) to appoint and fix the compensation of such employees as may be necessary for the conduct of his business under this Act in accordance with the provisions of title 5, United States Code, governing appointment in the competitive service, and chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, and to obtain the services of experts and consultants as necessary in accordance with section 3109 of title 5, United States Code, at rates for individuals not to exceed the per diem equivalent for GS–18;

(7) to perform such other functions as may be necessary to carry out the purposes of this Act.

(b) The Secretary is authorized to prescribe rules and regulations—

(1) establishing standards and qualifications for persons responsible for performing services under this Act as actuaries and upon application of any such person, to certify whether such person meets the standards and qualifications prescribed;

(2) establishing reasonable fees for the registration of pension and profit-sharing-retirement plans and other services to be performed by him in implementing the provisions of this Act, and all fees collected by the Secretary shall be paid into the general fund of the Treasury;

(3) establishing reasonable limitations on actuarial assumptions, based upon appropriate experience, including, but not limited to, interest rates, mortality, and turnover rates;

(4) such as may be necessary or appropriate to carry out the purposes of this Act, including but not limited to definitions of actuarial, accounting, technical, and other trade terms in common use in the subject matter of this Act and the Welfare and Pension Plans Disclosure Act; and

(5) governing the form, detail, and inspection of all required records, reports, and documents, the maintenance of books and records, and the inspection of such books and records, as may be required under this Act.

(c)(1) The Secretary is authorized and directed to undertake appropriate studies relating to pension and profit-sharing-retirement plans including but not limited to the effects of this Act upon the provisions and costs of pension and profit-sharing-retirement plans, the role of private pensions in meeting retirement security needs of the Nation, the administration and operation of pension plans, including types and levels of benefits, degree of reciprocity or portability financial characteristics and practices, methods of encouraging the growth of the private pension system, and advisability of additional coverage under this Act.

(2) The Secretary shall submit annually a report to the Congress covering his activities under this Act during the preceding fiscal year, together with the results of such studies as are conducted pursuant to this Act, or, from time to time, pursuant to other Acts of

Congress, and recommendations for such further legislation as may be advisable.

(d) Prior to promulgating rules or regulations, the Secretary shall consult with appropriate departments or agencies of the Federal Government to avoid unnecessary conflicts, duplications, or inconsistency with rules and regulations which may be applicable to such plans under other laws of the United States.

(e) In order to avoid unnecessary expense and duplication of functions among Government agencies, the Secretary may make such arrangements or agreements for cooperation or mutual assistance in the performance of his functions under this Act and the functions of any agency, Federal or State, as he may find to be practicable and consistent with law. The Secretary may utilize on a reimbursable basis the facilities or services of any department, agency, or establishment of the United States, or of any State, including services of any of its employees, with the lawful consent of such department, agency, or establishment; and each department, agency, or establishment of the United States is authorized and directed to cooperate with the Secretary, and to the extent permitted by law, to provide such information and facilities as the Secretary may request for his assistance in the performance of his functions under this Act.

### APPROPRIATIONS

SEC. 102. There are authorized to be appropriated such sums as may be necessary to enable the Secretary to carry out his functions and duties.

### OFFICE OF ADMINISTRATION

SEC. 103. (a) There is hereby established within the Department of Labor an office to be known as the Office of Pension and Welfare Plan Administration. Such Office shall be headed by an Assistant Secretary of Labor who shall be appointed by the President, by and with the advice and consent of the Senate.

(b) It shall be the duty of the Assistant Secretary of Labor under the supervision of the Secretary to exercise such power and authority as may be delegated to him by the Secretary for the administration and enforcement of this Act.

(c) Paragraph 20, of section 5315, title 5, United States Code, is amended by striking "(5)" and inserting in lieu thereof "(6)".

(d) Such functions, books, records, and personnel of the Labor Management Services Administration as the Secretary determines are related to the administration of the Welfare and Pension Plans Disclosure Act are hereby transferred to the Office of Pension and Welfare Plan Administration.

## PART B—COVERAGE, EXEMPTIONS, AND REGISTRATION

### COVERAGE AND EXEMPTIONS

SEC. 104. (a) Except as provided in subsections (b) and (c), titles II, III, and IV of this Act shall apply to any pension plan and any profit-sharing-retirement plan established or maintained by any employer engaged in interstate commerce or any industry or activity affecting interstate commerce or by any employer together with any employee organization representing employees engaged in commerce or in any industry or activity affecting such commerce or by any employee organization representing employees engaged in commerce or in any industry or activity affecting commerce.

(b) Titles II, III, and IV of this Act shall not apply to any pension plan or any profit-sharing-retirement plan if—

(1) such plan is established or maintained by the Federal Government or by the government of a State or by a political subdivision of the same or by any agency or instrumentality thereof;

(2) such plan is established or maintained by a religious organization described under section 501(c) of the Internal Revenue Code of 1954 which is exempt from taxation under the provisions of section 501(a) of such Code;

(3) such plan is established or maintained by a self-employed individual exclusively for his own benefit or for the benefit of his survivors or established or maintained by one or more owner-employers exclusively for his or their benefit or for the benefit of his or their survivors;

(4) such plan covers not more than twenty-five participants;

(5) such plan is established or maintained outside the United States primarily for the benefit of employees who are not citizens of the United States and the situs of the employee benefit plan fund established or maintained pursuant to such plan is maintained outside the United States;

(6) such plan is unfunded and is established or maintained by an employer primarily for the purpose of providing deferred compensation for a select group of management employees and is declared by the employer as not intended to meet the requirements of section 401(a) of the Internal Revenue Code; or

(7) such plan is established or maintained by an employee organization and is administered and financed solely by contributions from its members.

(c) Title IV and part B of title II shall not apply to profit-sharing-retirement plans or money purchase plans.

(d) Titles V and VI shall apply to any plan covered by the Welfare and Pension Plans Disclosure Act and any pension plan or profit-sharing-retirement plan covered by this Act.

### REGISTRATION OF PLANS

SEC. 105. (a) Every administrator of a pension or profit-sharing-retirement plan to which titles II, III, or IV apply shall file with the Secretary an application for registration of such plan. Such application shall be in such form and shall be accompanied by such documents as shall be prescribed by regulation of the Secretary. After qualification under subsection (c), the administrator of such plan shall comply with such requirements as may be prescribed by the Secretary to maintain the plan's qualification under this title.

(b) In the case of plans established on or after the effective date of this title, the filing required by subsection (a) shall be made within six months after such plan is established. In the case of plans established prior to the effective date of this title, such filing shall be made within six months after the effective date of regulations promulgated by the Secretary to implement this section but in no event later than twelve months after the date of enactment of this Act.

(c) Upon the filing required by subsection (a), the Secretary shall determine whether such plan is qualified for registration under this title, if the Secretary finds it qualified, he shall issue a certificate of registration with respect to such plan.

(d) If at any time the Secretary determines that a plan required to qualify under this title is not qualified or is no longer qualified for registration under this title, he shall notify the administrator, setting forth the deficiency or deficiencies in the plan or in its administration or operations which is the basis for the notification given, and he shall further provide the administrator, the employer of the employees covered by the plan (if not the administrator), and the employee organization representing such employees, if any, a reasonable time within which to remove such deficiency or deficiencies. If the Secretary thereafter determines that the deficiency or deficiencies have been removed, he shall issue or continue in effect the certificate, as the case may be. If he determines that the deficiency or deficiencies have not been removed, he shall enter an order denying or canceling the certificate of registration, and take such further action as may be appropriate under title VI.

(e) A pension or profit-sharing-retirement plan shall be qualified for registration under this section if it conforms to, and is administered in accordance with this Act, the Welfare and Pension Plans Disclosure Act, and in the case of a pension plan subject to title IV of this Act, applies for and maintains plan termination insurance and pays the required assessments and premiums.

### REPORTS ON REGISTERED PLANS

SEC. 106. The Secretary may, by regulations, provide for the filing of a single report satisfying the reporting requirements of this Act, and the Welfare and Pension Plans Disclosure Act.

### AMENDMENTS OF REGISTERED PLANS

SEC. 107. Where a pension or profit-sharing-retirement plan filed for registration under this title is amended subsequent to such filing, the administrator shall (pursuant to regulations promulgated by the Secretary) file with the Secretary a copy of the amendment and such additional information and reports as the Secretary by regulation may require, to determine the amount of any initial unfunded liability created by the amendment, if any, and the special payments required to remove such liability.

### CERTIFICATE OF RIGHTS

SEC. 108. The Secretary shall, by regulation, require each pension and profit-sharing-retirement plan to furnish or make available, whichever is the most practicable, to each participant, upon termination of service with a vested right to an immediate or a deferred pension benefit or other vested interest, with a certificate setting forth the benefits to which he is entitled, including, but not limited to, the name and location of the entity responsible for payment, the amount of benefits, and the date when payment shall begin. A copy of each such certificate shall be filed with the Secretary. Such certificate shall be deemed prima facie evidence of the facts and rights set forth in such certificate.

## TITLE II—VESTING AND FUNDING REQUIREMENTS

## PART A—VESTING REQUIREMENTS

### ELIGIBILITY

SEC. 201. No pension or profit-sharing-retirement plan filed for registration under this Act shall require as a condition for eligibility to participate in such a plan a period of service longer than one year or an age greater than twenty-five, whichever occurs later: *Provided, however*, That in the case of any plan which provides for immediate vesting of 100 per centum of earned benefits of participants, such plan may require as a condition for eligibility to participate in the plan, a period of service no longer than three years or an age greater than thirty, whichever occurs later.

### VESTING SCHEDULE

SEC. 202. (a) All pension or profit-sharing-retirement plans filed for registration under this Act, except as provided for in paragraphs (2) and (3) herein, shall provide under the terms of the plan with respect to covered service both before and after the effective date of the title, that:

(1) a plan participant who has been in covered service under the plan for a period of eight years is entitled upon termination of service prior to attaining normal retirement age—

(A) in the case of a pension plan, to a deferred pension benefit commencing at his normal retirement age; or

(B) in the case of a profit-sharing-retirement plan, to a nonforfeitable right to his interest in such plan

equal to 30 per centum of the accrued portion of the normal retirement benefit as provided by the plan in respect of such service, or of such interest, respectively, and such entitlement shall increase by 10 per centum per year thereafter of covered service until the completion of fifteen years of covered service after which such participant shall be entitled upon termination of service prior to attaining normal retirement age to a deferred pension benefit commencing at his normal retirement age equal to 100 per centum of the accrued portion of the normal retirement benefit as provided by the plan with respect to such service, or to the full amount of such interest in the profit-sharing-retirement plan;

(2) the requirements of paragraph (1) of this subsection need not apply with respect to accrued portions of normal retirement benefits attributable to covered service rendered prior to the effective date of this title by any plan participant who has not attained forty-five years of age on the effective date of this title and, in the event a plan is established or amendment after the effective date of this title, the requirements of paragraph (1) of this subsection need only apply to service rendered after the date of the plan's establishment or the date of such plan amendment with respect to any improvement in benefits made by such amendment.

(3) if the plan is a class year plan, then such plan shall provide that the participant shall acquire a nonforfeitable right to 100 per centum of the employer's contribution on his behalf with respect to any given year, not later than the end of the fifth year following the year for which such contribution was made. For the purposes of this paragraph, the term "class year plan" means a profit-sharing-retirement plan which provides for the separate vesting of each annual contribution made by the employer on behalf of a participant.

(4) the pension benefits provided under the terms of a pension plan, and the interest in a profit-sharing-retirement plan referred to in subparagraph (B) of paragraph (1) shall not be capable of assignment or alienation and shall not confer upon an employee, personal representative, or dependent, or any other person, any right or interest in such pension benefits or profit-sharing-retirement plan, capable of being assigned or otherwise alienated; except that where a plan fails to make appropriate provision therefor, the Secretary shall, by regulation, provide for the final disposition of plan benefits or interests when beneficiaries cannot be located or ascertained within a reasonable time.

(b) Any participant covered under a plan, for the number of years required for a vested right under this section, shall be entitled to such vested right regardless of whether his years of covered service are continuous, except that a plan may provide that—

(1) three of the eight years to qualify for the 30 per centum vested right under subsection (a) shall be continuous under standards prescribed under subsection (c),

(2) service by a participant prior to the age of twenty-five may be ignored in determining eligibility for a vested right under this section, unless such participant or an employer has contributed to the plan with respect to such service, and

(3) in the event a participant has attained a vested right equal to 100 per centum of the accrued portion of the normal retirement benefit as provided by the plan with respect to such service, or to the full amount of such interest in a profit-sharing-retirement plan, and such participant has been separated permanently from coverage under the plan and subsequently returns to coverage under the same plan, such participant may be treated as a new participant for purposes of the vesting requirements set forth in section 202(a)(1) without regard to his prior service.

(c) The Secretary shall prescribe standards, consistent with the purposes of this Act, governing the maximum number of working hours, days, weeks, or months, which shall constitute a year of covered service, or a break in service for purposes of this Act. In no case shall a participant's time worked in any period in which he is credited for a period of service for the purposes of this section, be credited to any other period of time unless the plan so provides.

(d) Notwithstanding any other provision of this Act, a pension or profit-sharing-retirement plan may allow for vesting of pension benefits after a lesser period than is required by this section.

(e) Notwithstanding any other provision of this Act where upon application and notice to affected or interested parties by the plan Administrator, the Secretary determines that the plan contains vesting provisions which are as liberal as the vesting schedule set forth in section 202(a)(1), the Secretary may waive the requirements therein as long as the vesting schedule contained in the plan remains unchanged. For the purposes of this subsection, the term "liberal" refers to a vesting formula which provides vested benefits comparable to or greater than those provided under section 202(a)(1) to the majority of the participants in the plan as indicated by the plan's actuarial experience.

### PART B—FUNDING

#### FUNDING REQUIREMENTS

SEC. 210. (a) Unless a waiver is granted pursuant to part C of this title, every pension plan filed for registration under this Act shall provide for funding, in accordance with the provisions of this part, which is adequate to provide for payment of all pension benefits which may be payable under the terms of the plan.

(b) Provisions in the plan for funding shall set forth the obligation of the employer or employers to contribute both in respect of the normal service cost of the plan and in respect of any initial unfunded liability and experience deficiency. The contribution of the employer, including any contributions made by employees, shall consist of the payment into the plan or fund of—

(1) all normal service costs; and

(2) where the plan has an initial unfunded liability, special payments consisting of no less than equal amounts sufficient to amortize such unfunded liabilities over a term not exceeding:

(A) in the case of an initial unfunded liability existing on the effective date of this title, in any plan established before that date, thirty years from such date;

(B) in the case of an initial unfunded liability resulting from the establishment of a pension plan, or an amendment thereto, on or after the effective date of this title, thirty years from the date of such establishment or amendment, except that in the event that any such amendment after the effective date of this title results in a substantial increase to any unfunded liability of the plan, as determined by the Secretary, such increase shall be regarded as a new plan for purposes of the funding schedule imposed by this subsection and the plan termination insurance requirements imposed by title IV.

(3) special payments, where the plan has an experience deficiency, consisting of no less than equal annual amounts sufficient to remove such experience deficiency over a term not exceeding five years from the date on which the experience deficiency was determined, except where the experience deficiency cannot be removed over a five-year period without the amounts required to remove such deficiency exceeding the allowable limits for a tax deduction under the Internal Revenue Code of 1954 for any particular year during which such payments must be made, the Secretary shall, consistent with the purposes of this subsection, prescribe such additional time as may be necessary to remove such deficiency within allowable tax deduction limitations.

(c) Within six months after the effective date of rules promulgated by the Secretary to implement this title (but in no event more than 12 months after the effective date of this title) or within six months after the date of plan establishment, whichever is later, the plan administrator shall submit a report of an actuary (certified under section 101(b) stating—

(1) the estimated cost of benefits in respect of service for the first plan year for which such plan is required to register and the formula for computing such cost in subsequent years up to the date of the following report;

(2) the initial unfunded liability, if any, for benefits under the pension plan as of the date on which the plan is required to be registered;

(3) the special payments required to remove such unfunded liability and experience deficiencies in accordance with subsection (b);

(4) the actuarial assumptions used and the basis for using such actuarial assumptions; and

(5) such other pertinent actuarial information required by the Secretary.

(d) The administrator of a registered pension plan shall cause the plan to be reviewed not less than once every five years by a certified actuary and shall submit a report of such actuary stating—

(1) the estimated cost of benefits in respect of service in the next succeeding five-year period and the formula for computing such cost for such subsequent five-year period;

(2) the surplus or the experience deficiency in the pension plan after making allowance for the present value of all special payments required to be made in the future by the employer as determined by previous reports;

(3) the special payments which will remove any such experience deficiency over a term not exceeding five years;

(4) the actuarial assumptions used and the basis for using such actuarial assumptions; and

(5) such other pertinent actuarial information required by the Secretary.

If any such report discloses a surplus in a pension plan, the amount of any future payments required to be made to the fund or plan may be reduced or the amount of benefits may be increased by the amount of such surplus, subject to the provisions of the Internal Revenue Code of 1954 and regulations promulgated thereunder. The reports under this subsection shall be filed with the Secretary by the administrator as part of the annual report required by section 7 of the Welfare and Pension Plans Disclosure Act, at such time that the report under such section 7 is due with respect to the last year of such five-year period.

(e) Where an insured pension plan is funded exclusively by the purchase of insurance contracts which—

(1) require level annual premium payments to be paid extending not beyond the retirement age for each individual participant in the plan, and commencing with the participant's entry into the plan (or, in the case of an increase in benefits, commencing at the time such increase becomes effective), and

(2) benefits provided by the plan are equal to the benefits provided under each contract, and are guaranteed by the insurance carrier to the extent premiums have been paid,

such plan shall be exempt from the requirements imposed by subsection (b) (2) and (3), (c), and (d) of this section.

(f) The Secretary may exempt and plan, in whole or in part, from the requirement that such reports be filed where the Secretary finds such filing to be unnecessary.

#### DISCONTINUANCE OF PLANS

SEC. 211. (a) Subject to the authority of the Secretary to provide exemptions or variances where necessary to avoid substantial hardship to participants or beneficiaries, upon complete termination or substantial termination (as determined by the Secretary), of a pension plan, and subject to the provisions of the Internal Revenue Code and regulations promulgated thereunder, relating to limitations applicable to the twenty-five highest paid employees of an employer, all assets of the plan shall be applied under the terms of the plan, as follows—

(1) first, to refund to nonretired participants in the plan the amount of contributions made by them;

(2) second, to participants in the plan who have retired prior to the date of such termination and have been receiving benefits under the plan;

(3) third, to those participants in the plan who, on the date of such termination had the right to retire and receive benefits under the plan;

(4) fourth, to those participants in the plan who had acquired vested rights under the plan prior to termination of the plan but had not reached normal retirement age on the date of such termination; and

(5) fifth, to any other participants in the plan who are entitled to benefits under the plan pursuant to the requirements of section 401(a)(7) of the Internal Revenue Code of 1954.

(b) Upon complete termination, or substantial termination (as determined by the Secretary), any party obligated to contribute to the plan pursuant to section 210(b), or to contribute on behalf of employees pursuant to a withholding or similar arrangement, shall be liable to pay all amounts that would otherwise have been required to be paid to meet the funding requirements prescribed by section 210 up to the date of such termination to the insuror, trustee, or administrator of the plan.

(c) Upon complete termination, or substantial termination (as determined by the Secretary), of a profit-sharing-retirement plan, the interests of all participants in such plan shall fully vest.

(d) In any case, the Secretary may approve payment of survivor benefits with priorities equal to those of the employees or former employees on whose service such benefits are based.

### PART C—VARIANCES

#### DEFERRED APPLICABILITY OF VESTING STANDARDS

SEC. 216. (a) The Secretary may defer, in whole or in part, applicability of the requirements of part A of this title for a period not to exceed five years from the effective date of title II, upon a showing that compliance with the requirements of part A on the part of a plan in existence on the date of enactment of this Act would result in increasing the costs of the employer or employer's contributing to the plan to such an extent that substantial economic injury would be caused to such employer or employers and to the interests of the participants or beneficiaries in the plan.

(b) For purposes of subsection (a), the term "substantial economic injury" includes, but is not limited to, a showing that (1) a substantial risk to the capability of voluntarily continuing the plan exists, (2) the plan will be unable to discharge its existing contractual obligations for benefits (3) a substantial curtailment of pension or other benefit levels or the levels of employees' compensation would result, or (4) there will be an adverse effect on the levels of employment with respect to the work force employed by the employer or employers contributing to the plan.

(c)(1) In the case of any plan established or maintained pursuant to a collective bargaining agreement, no application for the granting of the variance provided for under subsection (a) shall be considered by the Secretary unless it is submitted by the parties to the collective bargaining agreement or their duly authorized representatives.

(2) As to any application for a variance under subsection (a) submitted by the parties to a collective bargaining agreement or their duly authorized representatives, the Secretary shall accord due weight to the experience, technical competence, and specialized knowledge of the parties with respect to the particular circumstances affecting the plan, industry, or other pertinent factors forming the basis for the application.

#### VARIANCES FROM FUNDING REQUIREMENTS

SEC. 217. (a) Where, upon application and notice to affected or interested parties by the plan administrator, the Secretary determines that—

(1) any employer or employers are unable to make annual contributions to the plan in compliance with the funding requirements of section 210(b) (2) or (3), and he has reason to believe that such required payment for that annual period cannot be made by such employer or employers, the Secretary may waive the annual contribution otherwise required to be paid, and prescribe an additional period of not more than five years for the amortization of such annual funding deficiency, during which period the funding deficiency shall be removed by no less than equal annual payments. Any funding deficiency permitted under this section shall be treated for the purposes of any actuarial report required under this Act as an experience deficiency under section 210;

(2) no waiver shall be granted unless the Secretary is satisfied after a review of the financial condition of the plan and other related matters that—

(A) such waiver will not adversely affect the interests of participants or beneficiaries of such plan; or

(B) will not impair the capability of the Pension Benefit Insurance Fund to equitably underwrite vested benefit losses in accordance with title IV,

(3) waivers granted pursuant to this provision shall not exceed five consecutive annual waivers.

(b) Where a plan has been granted five consecutive waivers pursuant to subsection (a), the Secretary may—

(1) order the merger or consolidation of the deficiency funded plan with such other plan or plans or the contributing employer or employers in a manner that will result in future compliance with the funding requirements of part B of title II of this Act without adversely affecting the interests of participants and beneficiaries in all plans which may be involved;

(2) where necessary to protect the interests of participants or beneficiaries, or to safeguard the capability of the Pension Benefit Insurance Fund to equitably underwrite vested benefit losses, under title IV, order plan termination in accordance with such conditions as the Secretary may prescribe; or

(3) take such other action as may be necessary to fulfill the purposes of this Act.

(c) No amendments increasing plan benefits be permitted during any period in which a funding waiver is in effect.

(d) (1) Notwithstanding the requirements of part B of title II of this Act the Secretary shall by rule or regulation prescribe alternative funding requirements for multiemployer plans which will give reasonable assurances that the plan's benefit commitments will be met.

(2) The period of time provided to fund such multiemployer plans shall be a period which will give reasonable assurances that the plan's benefit commitments will be met and which reflects the particular circumstances affecting the plan, industry, or other pertinent factors, except that no period prescribed by the Secretary shall be less than thirty years.

(3) No multiemployer plan shall increase benefits beyond a level for which the contributions made to the plan would be determined to be adequate unless the contribution rate is commensurately increased.

(e) Upon a showing by the plan administrator of a multiemployer plan that the withdrawal from the plan by any employer or employers has or will result in a significant reduction in the rate of aggregate contributions to the plan, the Secretary may take the following steps:

(1) require the plan fund to be equitably allocated between those participants no longer working in covered service under the plan as a result of their employer's withdrawal, and those participants who remain in covered service under the plan;

(2) treat that portion of the plan fund allocable under (1) to participants no longer in covered service, as a terminated plan for the purposes of the plan termination insurance provisions of title IV; and

(3) treat that portion of the plan fund allocable to participants remaining in covered service as a new plan for purposes of the funding standards imposed by part B of title II of this Act, any variance granted by this section, and the plan termination insurance provisions of title IV.

## TITLE III—VOLUNTARY PORTABILITY PROGRAM FOR VESTED PENSIONS

#### PROGRAM ESTABLISHED

SEC. 301. (a) There is hereby established a program to be known as the Voluntary Portability Program for Vested Pensions (hereinafter referred to as the "Portability Program"), which shall be administered by and under the direction of the Secretary. The Portability Program shall facilitate the voluntary transfer of vested credits between registered pension or profit-sharing-retirement plans. Nothing in this title or in the regulations issued by the Secretary hereunder shall be construed to require participation in such Portability Program by a plan as a condition of registration under this Act.

(b) Pursuant to regulations issued by the Secretary, plans registered under this Act may apply for membership in the Portability Program, and, upon approval of such application by the Secretary, shall be issued a certificate of membership in the Portability Program (plans so accepted shall be hereinafter referred to as "member plans").

#### ACCEPTANCE OF DEPOSITS

SEC. 302. A member plan shall, pursuant to regulations prescribed by the Secretary, pay, upon request of the participant, to the fund established by section 303, a sum of money equal to the current discounted value of the participant's vested rights under the plan, which are in settlement of such vested rights, when such participant is separated from employment covered by the plan before the time prescribed for payments to be made to him or to his beneficiaries under the plan. The fund is authorized to receive such payments, on such terms as the Secretary may prescribe.

#### SPECIAL FUND

SEC. 303. (a) There is hereby created a fund to be known as the Voluntary Portability Program Fund (hereinafter referred to as the "Fund"). The Secretary shall be the trustee of the Fund. Payments made into the Fund in accordance with regulations prescribed by the Secretary under section 302 shall be held and administered in accordance with this title.

(b) With respect to such Fund, it shall be the duty of the Secretary to—

(1) administer the Fund;

(2) report to the Congress not later than the first day of April of each year on the operation and the status of the Fund during the preceding fiscal year and on its expected operation and status during the current fiscal year and the next two fiscal years and review the general polices followed in managing the Fund and recommend changes in such policies, including the necessary changes in the provisions of law which govern the way in which the Fund is to be managed; and

(3) after amounts needed to meet current and anticipated withdrawals are set

aside, deposit the surplus in interest-bearing accounts in any bank the deposits of which are insured by the Federal Deposit Insurance Corporation or savings and loan association in which the accounts are insured by the Federal Savings and Loan Insurance Corporation. In no case shall such deposits exceed 10 per centum of the total of such surplus, in any one bank, or savings and loan association.

### INDIVIDUAL ACCOUNTS

SEC. 304. The Secretary shall establish and maintain an account in the Fund for each participant for whom the Secretary receives payment under section 302. The amount credited to each account shall be adjusted periodically, as provided by the Secretary pursuant to regulations to reflect changes in the financial condition of the Fund.

### PAYMENTS FROM INDIVIDUAL ACCOUNTS

SEC. 305. Amounts credited to the account of any participant under this title shall be paid by the Secretary to—

(1) a member plan, for the purchase of credits having at least an equivalent actuarial value under such plan, on the request of such participant when he becomes a participant in such member plans;

(2) a qualified insurance carrier selected by a participant who has attained the age of sixty-five, for the purchase of a single premium life annuity in an amount having a present value equivalent to the amount credited to such participant's account, or in the event the participant selects an annuity with survivorship options, an amount determined by the Secretary to be fair and reasonable based on the amount in such participant's account; or

(3) to the designated beneficiary of a participant in accordance with regulations promulgated by the Secretary.

### TECHNICAL ASSISTANCE

SEC. 306. The Secretary shall provide technical assistance to employers, employee organizations, trustees, and administrators of pension and profit-sharing-retirement plans in their efforts to provide greater retirement protection for individuals who are separated from employment covered under such plans. Such assistance may include, but is not limited to (1) the development of reciprocity arrangements between plans in the same industry or area, and (2) the development of special arrangements for portability of credits within a particular industry or area.

## TITLE IV—PLAN TERMINATION INSURANCE

### ESTABLISHMENT AND APPLICABILITY OF PROGRAM

SEC. 401. (a) There is hereby established a program to be known as the Private Pension Plan Termination Insurance Program hereinafter referred to as the "Insurance Program", which shall be administered by and under the direction of the Secretary.

(b) Every plan subject to this title shall obtain and maintain plan termination insurance to cover unfunded vested liabilities incurred prior to enactment of the Act as well as after enactment of the Act.

### CONDITIONS OF INSURANCE

SEC. 402. (a) The insurance program shall insure participants and beneficiaries of those plans registered under this Act against loss of benefits derived from vested rights which arise from the complete or the substantial termination of such plans, as determined by the Secretary.

(b) The rights of participants and beneficiaries of a registered pension plan shall be insured under the insurance program only to the extent that—

(1) such rights as provided for in the plan do not exceed: (A) in the case of a right to a monthly retirement or disability benefit for the employee himself, the lesser of 50 per centum of the average monthly wage he received from the contributing employer in the five-year period after the registration date of the plan for which his earnings were its greatest, or $500 a month; (B) in the case of a right of one or more dependents or members of the participant's family, or in the case of a right to a lump-sum survivor benefit on account of the death of a participant, an amount no greater than the amount determined under clause (A);

(2) the plan is terminated more than three years after the date of its establishment or its initial registration with the Secretary, except that the Secretary may in his discretion authorize insurance payments in such amounts as may be reasonable to any plan terminated in less than three years after the date of its initial registration with the Secretary where (A) such plan has been established and maintained for more than three years prior to its termination, (B) the Secretary is satisfied that during the period the plan was unregistered, it was in substantial compliance with the provisions of this Act, and (C) such payments will not prevent equitable underwriting of losses of vested benefits arising from plan terminations otherwise covered by this title;

(3) such rights were created by a plan amendment which took effect more than three years immediately preceding termination of such plan; and

(4) such rights do not accrue to the interest of a participant who is the owner of 10 per centum or more of the voting stock of the employer contributing to the plan, or of the same percentage interest in a partnership contributing to the plan.

### ASSESSMENTS AND PREMIUMS

SEC. 403. (a) Upon registration with the Secretary, each plan shall pay a uniform assessment to the insurance program as prescribed by the Secretary to cover the administrative costs of the insurance program.

(b) (1) Each registered pension plan shall pay an annual premium for insurance at uniform rates established by the Secretary based upon the amount of unfunded vested liabilities subject to insurance under section 402.

(2) For the three-year period immediately following the effective date of this title such premium shall—

(A) not exceed 0.2 per centum of a plan's unfunded vested liabilities with respect to such unfunded vested liabilities incurred after the date of enactment of this Act;

(B) not exceed 0.2 per centum of a plan's unfunded vested liabilities incurred prior to the date of enactment of this Act, where such plan's median ratio of plan assets to unfunded vested liabilities was 75 per centum during the five-year period immediately preceding the enactment of this Act, or in the event of a plan established within the five-year period immediately preceding the date of enactment of this Act, where the plan has reduced the amount of such unfunded vested liabilities at the rate of at least 5 per centum each year since the plan's date of establishment;

(C) not exceed 0.4 per centum or be less than 0.2 per centum of a plan's unfunded vested liabilities incurred prior to the date of enactment of this Act where such plan does not meet the standards set forth in subparagraph (B);

(D) not exceed 0.2 per centum of a plan's unfunded vested liabilities regardless of whether such liabilities were incurred prior to or subsequent to the date of enactment of this Act with respect to multiemployer plans.

(3) (A) The Secretary is authorized to prescribe different uniform premium rates after the initial three-year period based upon experience and other relevant factors.

(B) Any new rates proposed by the Secretary shall be effective at the end of the first period of ninety calendar days of continuous session of the Congress after the date on which the proposed rates are published in the Federal Register.

(C) For the purpose of subparagraph (B)—

(i) continuity of a session is broken only by an adjournment sine die; and

(ii) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of the ninety day period.

(c) Assessments and premiums referred to in this section shall be prescribed by the Secretary only after consultation with appropriate Government agencies and private persons with expertise on matters relating to assessment and premium structures in insurance and related matters, and after notice to all interested persons and parties.

### PAYMENT OF INSURANCE

SEC. 404. (a) No plan insured under this title shall terminate without approval of the Secretary. The Secretary shall not approve a plan termination unless he is satisfied that the requirements of this Act and those of the Welfare and Pension Plans Disclosure Act have been complied with and that such termination is not designed to avoid or circumvent the purposes of this Act.

(b) As determined by the Secretary, subject to the conditions specified in section 402, the amount of insurance payable under the insurance program shall be the difference between the realized value of the plan's assets and the amount of vested liabilities under the plan.

(c) The Secretary shall, by regulation, prescribe the procedures under which the funds of terminated plans shall be wound-up and liquidated and the proceeds therefrom applied to payment of the vested benefits of participants and beneficiaries. In implementing this paragraph, the Secretary shall have authority to:

(1) transfer the terminated fund to the Pension Benefit Insurance Fund for purposes of liquidation and payment of benefits to participants and beneficiaires.

(2) purchase single-premium life annuities from qualified insurance carriers from the proceeds of the terminated plan on terms determined by the Secretary to be fair and reasonable; or

(3) take such other action as may be appropriate to assure equitable arrangements for the payment of vested benefits to participants and beneficiaries under the plan.

### RECOVERY

SEC. 405. (a) Where the employer or employers contributing to the terminating plan or who terminated the plan are not insolvent (within the meaning of section 1 (19) of the Bankruptcy Act), such employer or employers (or any successor in interest to such employer or employers) shall be liable to reimburse the insurance program for any insurance benefits paid by the program to the beneficiaries of such terminated plan to the extent provided in this section.

(b) An employer, determined by the Secretary to be liable for reimbursement under subsection (a), shall be liable to pay a percentage of the terminated plan's unfunded vested liabilities equal to 100 per centum less the percentage of the ratio of the plan's unfunded vested liabilities to the net worth of the employer: *Provided, however*, That if the ratio of the terminated plan's unfunded vested liabilities is less than 50 per centum of the employer's net worth the employer shall be liable to pay the total amount of insurance benefits paid by the insurance program.

(c) The Secretary is authorized to make arrangements with employers, liable under subsection (a), for reimbursement of insurance paid by the Secretary, including arrangements for deferred payment on such terms and for such periods as are deemed equitable and appropriate.

(d) (1) If any employer or employers liable for any amount due under subsection (a) of this section neglects or refuses to pay the same after demand, the amount (including interest) shall be a lien in favor of the United States upon all property and rights in property, whether real or personal, belonging to such employer or employers.

(2) The lien imposed by paragraph (1) of this subsection shall not be valid as against a lien created under section 6321 of the Internal Revenue Code of 1954.

(3) Notice to the lien imposed by paragraph (1) of this subsection shall be filed in a manner and form prescribed by the Secretary. Such notice shall be valid notwithstanding any other provision of law regarding the form and content of a notice of lien.

(4) The Secretary shall promulgate rules and regulations with regard to the release of any lien imposed by paragraph (1) of this subsection.

### PENSION BENEFIT INSURANCE FUND

SEC. 406. (a) There is hereby created a separate fund for pension benefit insurance to be known as the Pension Benefit Insurance Fund (hereafter in this section called the insurance fund) which shall be available to the Secretary without fiscal year limitation for the purposes of this title. The Secretary shall be the trustee of the insurance fund.

(b) All amounts received as premiums, assessments, or fees, and any other moneys, property, or assets derived from operations in connection with this title shall be deposited in the insurance fund.

(c) All claims, expenses, and payments pursuant to operation of the program under this title shall be paid from the insurance fund.

(d) All moneys of the insurance fund, may be invested in obligations of the United States or in obligations guaranteed as to principal and interest by the United States.

(e) With respect to such insurance fund, it shall be the duty of the Secretary to—

(1) administer the insurance fund; and

(2) report to the Congress not later than the first day of April of each year on the operation and the status of the insurance fund during the preceding fiscal year and on its expected operation and status during the current fiscal year and the next two fiscal years and review the general policies followed in managing the insurance fund and recommend changes in such policies, including the necessary changes in the provisions of law which govern the way in which the insurance fund is to be managed.

### TITLE V—DISCLOSURE AND FIDUCIARY STANDARDS

SEC. 501. In addition to the filing requirements of the Welfare and Pension Plans Disclosure Act, it shall be a condition of compliance with section 7 of such Act that each annual report hereinafter filed under that section shall be accompanied by a certificate or certificates in the name of and on behalf of the plan, the administrator, and any employer or employee organization participating in the establishment of the plan, designating the Secretary as agent for service of process on the persons and entities executing such certificate or certificates in any action arising under the Welfare and Pension Plans Disclosure Act or this Act.

SEC. 502. (a) Section 3 of the Welfare and Pension Plans Disclosure Act (72 Stat. 997) is amended by adding at the end thereof the following new paragraphs:

"(14) The term 'relative' means a spouse, ancestor, descendant, brother, sister, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law.

"(15) The term 'administrator' means—

"(A) the person specifically so designated by the terms of the plan, collective-bargaining agreement, trust agreement, contract, or other instrument, under which the plan is operated; or

"(B) in the absence of such designation (i) the employer in the case of an employee benefit plan established or maintained by a single employer, (ii) the employee organization in the case of a plan established or maintained by an employee organization, or (iii) the association, committee, joint board of trustees, or other similar group of representatives of the parties who established or maintained the plan, in the case of a plan established or maintained by two or more employers or jointly by one or more employers and one or more employee organizations.

"(16) The term 'employee benefit plan' or 'plan' means an employee welfare benefit plan or an employee pension benefit plan or a plan providing both welfare and pension benefits.

"(17) The term 'employee benefit fund' or 'fund' means a fund of money or other assets maintained pursuant to or in connection with an employee benefit plan and includes employee contributions withheld but not yet paid to the plan by the employer. The term does not include: (A) any assets of an investment company subject to regulation under the Investment Company Act of 1940; (B) premium, subscription charges, or deposits received and retained by an insurance carrier or service or other organization, except for any separate account established or maintained by an insurance carrier.

"(18) The term 'separate account' means an account established or maintained by an insurance company under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

"(19) The term 'adequate consideration' when used in section 15 means either (A) at the price of the security prevailing on a national securities exchange which is registered with the Securities and Exchange Commission, or (B) if the security is not traded on such a national securities exchange, at a price not less favorable to the fund than the offering price for the security as established by the current bid and asked prices quoted by persons independent of the issuer or (C) if the price of the security is not quoted by persons independent of the issuer, at a price determined to be the fair value of the security.

"(20) The term 'nonforfeitable pension benefit' means a legal claim obtained by a participant or his beneficiary to that part of an immediate or deferred pension benefit which, notwithstanding any conditions subsequent which would affect receipt of any benefit flowing from such right, arises from the participant's covered service under the plan and is no longer contingent on the participant remaining covered by the plan.

"(21) The term 'covered service' means that period of service performed by a participant for an employer or as a member of an employee organization which is recognized under the terms of the plan or the collective bargaining agreement (subject to the requirements of the Retirement Income Security for Emloyees Act), for purposes of determining a participant's eligibility to receive pension benefits or for determining the amount of such benefits.

"(22) The term 'pension benefit' means the aggregate, annual, monthly, or other amounts to which a participant will become entitled upon retirement or to which any other person is entitled by virtue of such participant's death.

"(23) The term 'accrued portion of normal retirement benefit' means that amount of such benefit which, irrespective of whether the right to such benefit is nonforfeitable, is equal to—

"(A) in the case of a profit-sharing retirement plan or money purchase plan, the total amount credited to the account of a participant;

"(B) in the case of a unit benefit-type pension plan, the benefit units credited to a participant; or

"(C) in the case of other types of pension plans, that portion of the prospective normal retirement benefit of a participant that pursuant to rule or regulation, under the Retirement Income Security for Employees Act, is determined to constitute the participant's accrued portion of the normal retirement benefit under the terms of the appropriate plan.

"(24) The term 'security' means any note, stock, treasury stock, bond, debenture, evidence of indebtedness, certificate of interest or participation in any profit-sharing agreement, collateral-trust certificate, preorganization certificate or subscription, transferable share, investement contract, voting-trust certificate, certificate of deposit for a security, fractional undivided interest in, or, in general, any interest or instrument commonly known as a security, or any certificate of interest or participation in, temporary or interim certificate for, receipt for, guarantee of, or warrant or right to subscribe to or purchase, any of the foregoing.

"(25) The term 'fiduciary' means any person who exercises any power of control, management, or disposition with respect to any moneys or other property of any employee benefit fund, or has authority or responsibility to do so.

"(26) The term 'market value' or 'value' when used in this Act means fair market value where available, and otherwise the fair value as determined pursuant to rule or regulation under this Act."

(b) Paragraph (1) of section 3 of such Act is amended by inserting the words "or maintained" after the word "established".

(c) Paragraph (2) of section 3 of such Act is amended by inserting the words "or maintained" after the word "established".

(d) Paragraph (3) of section 3 of such Act is amended by striking out the word "plan" the first time it appears and inserting in lieu thereof the word "program".

(e) Paragraphs (3), (4), (6), and (7) of section 3 of such Act are amended by striking out the words "welfare or pension" wherever they appear.

(f) Paragraph (13) of section 3 of such Act is amended to read as follows:

"(13) The term 'party in interest' means as to an employee benefit plan or fund, any administrator, officer, fiduciary, trustee, custodian, counsel, or employee of any employee benefit plan, or a person providing benefit plan services to any such plan, or an employer, any of whose employees are covered by such a plan or any person controlling, controlled by, or under common control with, such employer or officer or employee or agent of such employer or such person, or an employee organization having members covered by such plan, or an officer or employee or agent of such an employee organization, or a relative, partner, or joint venturer or any of the above-described persons. Whenever the term 'party in interest' is used in this Act, it shall mean a person known to be a party in interest.

"(14) If any moneys or other property of an employee benefit fund are invested in shares of an investment company registered under the Investment Company Act of 1940, such investment shall not cause such investment company or such investment company's investment adviser or principal underwriter to be deemed to be a 'fiduciary' or a 'party in interest' as those terms are defined in this Act, except insofar as such investment company or its investment adviser or principal underwriter acts in connection with an employee benefit fund established or maintained pursuant to an employee benefit plan covering employees of the investment company, the investment adviser, or its principal underwriter. Nothing contained herein shall limit the duties imposed on such investment company, investment adviser, or principal underwriter by any other provision of law."

SEC. 503. (a) Section 4(a) of the Welfare and Pension Plans Disclosure Act is amended by striking out the words "welfare or pension", "or employers", and "or organizations" wherever they appear.

(b) Paragraph (3) of section 4(b) of such Act is amended to read as follows:

"(3) Such plan is administered by a religious organization described under section 501(c) of the Internal Revenue Code of 1954 which is exempt from taxation under the provisions of section 501(a) of such Code;"

(c) Paragraph (4) of section 4(b) of such Act is amended by inserting before the period the following: ", except that participants and beneficiaries of such plan shall be entitled to maintain an action to recover benefits or to clarify their rights to future benefits as provided in section 604 of the Retirement Income Security for Employees Act".

(b) Section 4(b) of such Act is further amended by adding at the end thereof the following new paragraph:

"(5) such plan is established or maintained outside the United States primarily for the benefit of employees who are not citizens of the United States and the situs of the employee benefit plan fund established or maintained pursuant to such plan is maintained outside the United States."

SEC. 504. (a) Section 5(b) of the Welfare and Pension Plans Disclosure Act is amended to read as follows:

"(b) The Secretary may require the filing of special terminal reports on behalf of an employee benefit plan which is winding up its affairs, so long as moneys or other assets remain in the plan. Such reports may be required to be filed regardless of the number of participants remaining in the plan and shall be in such form and filed in such manner as the Secretary may prescribe."

(b) Section 5 of such Act is further amended by adding at the end thereof the following new subsection:

"(c) The Secretary may by regulation provide for the exemption from all or part of the reporting and disclosure requirements of this Act of any class or type of employee benefit plans if the Secretary finds that the application of such requirements to such plans is not required in order to implement the purposes of this Act."

SEC. 505. Section 6 of the Welfare and Pension Plans Disclosure Act is amended to read as follows:

"SEC. 6. (a) A description of any employee benefit plan shall be published as required herein within ninety days after the establishment of such plan or when such plan becomes subject to this Act.

"(b) The description of the plan shall be comprehensive and shall include the name and type of administration of the plan; the name and address of the administrator; the names and addresses of any person or persons responsible for the management or investment of plan funds; the schedule of benefits; a description of the provisions providing for vested benefits written in a manner calculated to be understood by the average participant; the source of the financing of the plan and identity of any organization through which benefits are provided; whether records of the plan are kept on a calendar year basis, or on a policy or other fiscal year basis, and if on the latter basis, the date of the end of such policy or fiscal year; the procedures to be followed in presenting claims for benefits under the plan and the remedies available under the plan for the redress of claims which are denied in whole or in part. Amendments to the plan reflecting changes in the data and information included in the original plan, other than data and information also required to be included in annual reports under section 7, shall be included in the description on and after the effective date of such amendments. Any change in the information required by this subsection shall be reported in accordance with regulations prescribed by the Secretary."

SEC. 506. (a) Subsection (a) of section 7 of the Welfare and Pension Plans Disclosure Act is amended by adding the number "(1)" after the letter "(a)", and by striking out that part of the first sentence which precedes the word "if" the first time it appears and inserting in lieu thereof the words "An annual report shall be published with respect to any employee benefit plan if the plan provides for an employee benefit fund subject to section 15 of this Act or".

(b) Section 7(a)(1) of such Act is further amended by striking out the word "investigation" and inserting in lieu thereof the words "notice and opportunity to be heard", by striking out the words "year (or if" and inserting in lieu thereof the words policy or fiscal year in which", adding a period after the word "kept", and striking out all the words following the word "kept".

(c) Section 7(a) of such Act is further amended by adding the following paragraphs:

"(2) If some or all of the benefits under the plan are provided by an insurance carrier or service or other organization, such carrier or organization shall certify to the administrator of such plan, within one hundred and twenty days after the end of each calendar, policy, or other fiscal year, as the case may be, such information as determined by the Secretary to be necessary to enable such administrator to comply with the requirements of this Act.

"(3) The administrator of an employee benefit plan shall cause an audit to be made annually of the employee benefit fund established in connection with or pursuant to the provisions of the plan. Such audit shall be conducted in accordance with accepted standards of auditing by an independent certified or licensed public accountant, but nothing herein shall be construed to require such an adult of the books or records of any bank, insurance company, or other institution providing insurance, investment, or related function for the plan, if such books or records are subject to periodic examination by any agency of the Federal Government or the government of any State. The auditor's opinion and comments with respect to the financial information required to be furnished in the annual report by the plan administrator shall form a part of such report."

(d) Section 7 (b) and (c) of such Act are amended to read as follows:

"(b) A report under this section shall include—

"(1) the amount contributed by each employer; the amount contributed by the employees; the amount of benefits paid or otherwise furnished; the number of employees covered; a statement of assets, liabilities, receipts, and disbursements of the plan; a detailed statement of the salaries and fees and commissions charged to the plan, to whom paid, in what amount, and for what purposes; the name and address of each fiduciary, his official position with respect to the plan, his relationship to the employer of the employees covered by the plan, or the employee organization, and any other office, position, or employment he holds with any party in interest;

"(2) a schedule of all investments of the fund showing as of the end of the fiscal year;

"(A) the aggregate cost and aggregate value of each security by issuer;

"(B) the aggregate cost and aggregate value, by type or category, of all other investments, and separately identifying (i) each investment, the value of which exceeds 3 per centum of the value of the fund and (ii) each investment in securities or properties of any person known to be a party in interest;

"(3) a schedule showing the aggregate amount, by type or security, of all purchases, sales, redemptions, and exchanges of securities made during the reporting period; a list of the issuers of such securities; and in addition, a schedule showing, as to each separate transaction with or without respect to securities issued by any person known to be a party in interest, the issuer, the type and class of security, the quantity involved in the transaction, the gross purchase price, and in the case of a sale, redemption, or exchange, the gross and net proceeds (including a description and the value of any consideration other than money) and the net gain or loss, except that such schedule shall not include distribution of stock or other distributions in kind from profitsharing or similar plans to participants separated from the plan;

"(4) a schedule of purchases, sales, or exchanges during the year covered by the report of investment assets other than securities—

"(A) by type or category of asset the aggregate amount of purchases, sales, and exchanges; the aggregate expenses incurred in connection therewith; and the aggregate net gain (or loss) on sales, and

"(B) for each transaction involving a person known to be a party in interest and for each transaction involving over 3 per centum of the fund, an indication of each asset purchased, sold, or exchanged (and, in the case of fixed assets such as land, buildings, and leaseholds, the location of the asset); the purchase or selling price; expenses incurred in connection with the purchase, sale, or exchange; the cost of the asset and the net gain (or loss) on each sale; the identity of the seller in the case of a purchase, or the identity of the purchaser in the case of a sale, and his relationship to the plan, the employer, or any employee organization;

"(5) a schedule of all loans made from the fund during the reporting year or outstanding at the end of the year, and a schedule of principal and interest payments received by the fund during the reporting year, aggregated in each case by type of loan, and in addition, a separate schedule showing as to each loan which—

"(A) was made to a party in interest, or

"(B) was in default, or

"(C) was written off during the year as uncollectable, or

"(D) exceeded 3 per centum of the value of the fund,

the original principal amount of the loan, the amount of principal and interest received during the reporting year, the unpaid balance, the identity and address of the loan obligor, a detailed description of the loan (including date of making and maturity, interest rate, the type and value of collateral and other material terms), the amount of principal and interest overdue (if any) and as to loans written off as uncollectable an explanation thereof;

"(6) a list of all leases with—

"(A) persons other than parties in interest who are in default, and

"(B) any party in interest,

including information as to the type of property leased (and, in the case of fixed assets such as land, buildings, leaseholds, and so forth, the location of the property), the identity of the lessor or lessee from or to whom the plan is leasing, the relationship of such lessors and lessees, if any, to the plan, the employer, employee organization, or any other party in interest, the terms of the lease regarding rent, taxes, insurance, repairs, expenses, and renewal options; if property is leased from persons described in (B) the amount of rental and other expenses paid during the reporting year; and if property is leased to persons described in (A) or (B), the date the leased property was purchased and its cost, the date the property was leased and its approximate value at such date, the gross rental receipts during the reporting period, the expenses paid for the leased property during the reporting period, the net receipts from the lease, and with respect to any such leases in default, their identity, the amounts in arrears, and a statement as to what steps have been taken to collect amounts due or otherwise remedy the default;

"(7) a detailed list of purchases, sales, exchanges, or any other transactions with any party in interest made during the year, including information as to the asset involved, the price, any expenses connected with the transaction, the cost of the asset, the proceeds, the net gain or loss, the identity of the other party to the transaction and his relationship to the plan;

"(8) subject to rules of the Secretary designed to preclude the filling of duplicate or unnecessary statements if some or all of the assets of a plan or plans are held in a common or collective trust maintained by a bank or similar institution or in a separate account maintained by an insurance carrier, the report shall include a statement of assets and liabilities and a statement of receipts and disbursements of such common or collective trust or separate account and such of the information required under paragraphs (2), (3), (4), (5), (6), and (7) of section 7(b) with respect to such common or collective trust or separate account as the Secretary may determine appropriate by regulation. In such case the bank or similar institution or insurance carrier shall certify to the administrator of such plan or plans, within one hundred and twenty days after the end of each calendar, policy, or other fiscal year, as the case may be, the information determined by the Secretary to be necessary to enable the plan administrator to comply with the requirements of this Act; and

"(9) in addition to reporting the information called for by this subsection, the administrator may elect to furnish other information as to investment or reinvestment of the fund as additional disclosures to the Secretary.

"(c) If the only assets from which claims against an employee benefit plan may be paid are the general assets of the employer or the employee organization, the report shall include (for each of the past five years) the benefits paid and the average number of employees eligible for participation.

(e) Section 7(d) of such Act is amended by striking out the capital "T" in the word "The" the first time it appears in paragraphs (1) and (2) and inserting in lieu thereof a lowercase "t".

(f) Section 7(e) of such Act is amended to read as follows:

"(e) Every employee pension benefit plan shall include with its annual report (to the extent applicable) the following information:

"(1) the type and basis of funding,

"(2) the number of participants, both retired and nonretired, covered by the plan,

"(3) the amount of all reserves or net assets accumulated under the plan,

"(4) the present value of all liabilities for all nonforfeitable pension benefits and the present value of all other accrued liabilities,

"(5) the ratios of the market value of the reserves and asset described in (3) above to the liabilities described in (4) above.

"(6) a copy of the most recent actuarial report, and

"(A) (1) the actuarial assumptions used in computing the contributions to a trust or payments under an insurance contract, (ii) the actuarial assumptions used in determining the level of benefits, and (iii) the actuarial assumptions used in connection with the other information required to be furnished under this subsection, insofar as any such actuarial assumptions are not included in the most recent actuarial report,

"(B) (i) if there is no such report, or (ii) if any of the actuarial assumptions employed in the annual report differ from those in the most recent actuarial report, or (iii) if different actuarial assumptions are used for computing contributions or payments then are used for any other purpose, a statement explaining same; and

"(7) such other reasonable information pertinent to disclosure under this subsection as the Secretary may by regulation prescribe."

(g) Section 7 of such Act is further amended by striking out in their entirety subsections (f), (g), and (h).

SEC. 507. (a) Section 8 of the Welfare and Pension Plans Disclosure Act is amended by striking out subsections (a) and (b) in their entirety and by redesignating subsection (c) as subsection (a). The subsection redesignated as subsection (a) is further amended by striking out the words "of plans" after the word "descriptions", striking out the word "the" before the word "annual", and adding the word "plan" before the word "descriptions".

(b) Such section is further amended by adding subsections (b), (c), and (d), to read as follows:

"(b) The administrator of any employee benefit plan subject to this Act shall file with the Secretary a copy of the plan description and each annual report. The Secretary shall make copies of such descriptions and annual reports available for public inspection.

"(c) Publication of the plan descriptions and annual reports required by this Act shall be made to participants and beneficiaries of the particular plan as follows:

"(1) the administrator shall make copies of the plan description (including all amendments or modifications thereto) and the latest annual report and the bargaining agreement, trust agreement, contract, or other instrument under which the plan was established or is operated available for examination by any plan participant or beneficiary in the principal office of the administrator.

"(2) the administrator shall furnish to any plan participant or beneficiary so requesting in writing a fair summary of the latest annual report;

"(3) the administrator shall furnish or make available, whichever is most practicable: (1) to every participant upon his enrollment in the plan and within one hundred and twenty days after each major amendment to the plan, a summary of the plan's important provisions, including the names and addresses of any person or persons responsible for the management or investment of plan funds, and requirements of the amendment, whichever is applicable, written in a manner calculated to be understood by the average participant; such explanation shall include a description of the benefits available to the participant under the plan and circumstances which may result in disqualification or ineligibility, and the requirements of the Welfare and Pension Plans Disclosure Act with respect to the availability of copies of the plan bargaining agreement, trust agreement, contract or other instrument under which the plan is established or operated; and (ii) to every participant every three years (commencing January 1, 1975), a revised up-to-date summary of the plan's important provisions and major amendments thereto, written in a manner calculated to be understood by the average participant and (iii) to each plan participant or beneficiary so requesting in writing a complete copy of the plan description (including all amendments or modifications thereto) or a complete copy of the latest annual report, or both. He shall in the same way furnish a complete copy of any bargaining agreement, trust agreement, contract, or other instrument under which the plan is established or operated. In accordance with regulations of the Secretary, an administrator may make a reasonable charge to cover the cost of furnishing such complete copies.

"(d) In the event a plan is provided a variance with respect to standards of vesting, funding, or both, pursuant to title II of the Retirement Income Security for Employees Act, the Administrator shall furnish or make available, whichever is most practicable, notice of such action to each participant in a manner calculated to be understood by the average participant, and in such form and detail and for such periods as may be prescribed by the Secretary."

SEC. 508. Section 14 of such Act is amended to eliminate the words "after first requiring certification in accordance with section 7(b)".

SEC. 509. Section 15 of such Act is amended to read as follows:

"SEC. 15. (a) (1) There is hereby established an Advisory Council on Employee Welfare and Pension Benefit Plans (hereinafter referred to as the 'Council') consisting of twenty-one members appointed by the Secretary. Not more than ten members of the Council shall be members of the same political party.

"(2) Members shall be appointed from among persons recommended by groups or organizations which they shall represent and shall be persons qualified to appraise the programs instituted under this Act and the Retirement Income Security for Employees Act.

"(3) Of the members appointed, five shall be representatives of labor organizations; five shall be representatives of management; one representative each from the fields of insurance, corporate trust, actuarial counseling, investment counseling, and the accounting field; and six representatives shall be appointed from the general public.

"(4) Members shall serve for terms of three years, except that of those first appointed, six shall be appointed for terms of one year, seven shall be appointed for terms of two years, and eight shall be appointed for terms of three years. A member may be reappointed, and a member appointed to fill a vacancy shall be appointed only for the remainder of such term. A majority of members shall constitute a quorum and action shall be taken only by a majority vote of those present.

"(5) Members shall be paid compensation at the rate of $150 per day when engaged in the actual performance of their duties except that any such member who holds another office or position under the Federal Government shall serve without additional compensation. Any member shall receive travel expenses, including per diem in lieu of subsistence as authorized by section 5703 of title 5, United States Code, for persons in the Government employed intermittently.

"(b) It shall be the duty of the Council to advise the Secretary with respect to the carrying out of their functions under this Act, and to submit to the Secretary recommendations with respect thereto. The Council shall meet at least four times each year and at such other times as the Secretary requests. At the beginning of each regular session of the Congress, the Secretary shall transmit to the Senate and House of Representatives each recommendation which he has received from the Council during the preceding calendar year and a report covering his activities under the Act for the preceding fiscal year, including full information as to the number of plans and their size, the results of any studies he may have made of such plans and the operation of this Act and such other information and data as he may deem desirable in connection with employee welfare and pension benefit plans.

"(c) The Secretary shall furnish to the

Council on executive secretary and such secretarial, clerical, and other services as are deemed necessary to conduct its business. The Secretary may call upon other agencies of the Government for statistical data, reports, and other information which will assist the Council in the performance of its duties."

SEC. 510. The Welfare and Pension Plans Disclosure Act is further amended by renumbering sections 15, 16, 17, and 18 as sections 16, 17, 18, and 19, respectively, and by inserting the following new section immediately after section 14:

"FIDUCIARY STANDARDS

"SEC. 15. (a) Every employee benefit fund established to provide for the payment of benefits under an employee's benefit plan shall be established or maintained pursuant to a duly executed written document which shall set forth the purpose or purposes for which such fund is established and the detailed basis on which payments are to be made into and out of such fund. Such fund shall be deemed to be a trust and shall be held for the exclusive purpose of (1) providing benefits to participants in the plan and their beneficiaries and (2) defraying reasonable expenses of administering the plan.

"(b)(1) A fiduciary shall discharge his duties with respect to the fund—

"(A) with the care under the circumstances then prevailing that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims; and

"(B) subject to the standards in subsection (a) and in accordance with the documents and instruments governing the fund insofar as is consistent with this Act, except that (i) any assets of the fund remaining upon dissolution or termination of the fund shall, after complete satisfaction of the rights of all beneficiaries to benefits accrued to the date of dissolution or termination, be distributed ratably to the beneficiaries thereof or, if the trust agreement so provides, to the contributors thereto; and (ii) that in the case of a registered pension or profit-sharing-retirement plan, such distribution shall be subject to the requirements of the Retirement Income Security for Employees Act.

"(2) Except as permitted hereunder, a fiduciary shall not——

"(A) rent or sell property of the fund to any person known to be a party in interest of the fund;

"(B) rent or purchase on behalf of the fund any property known to be owned by a party in interest of the fund;

"(C) deal with such fund in his own interest or for his own account;

"(D) represent any other party with such fund, or in any way act on behalf of a party adverse to the fund or adverse to the interests of its participants or beneficiaries;

"(E) receive any consideration from any party dealing with such fund in connection with a transaction involving the fund for the fiduciary's personal interest or for the personal interest of any party in interest;

"(F) loan money or other assets of the fund to any party in interest of the fund;

"(G) furnish goods, services, or facilities of the fund to any party in interest of the fund;

"(H) permit the transfer of any assets or property of the fund to, or its use by or for the benefit of, any party in interest of the fund; or

"(I) permit any of the assets of the fund to be held, deposited, or invested outside the United States unless the indicia of ownership remain within the jurisdiction of a United States District Court, except as authorized by the Secretary by rule or regulation. The Secretary, by rules or regulations or upon application of any fiduciary or party in interest, by order, shall provide for the exemption conditionally or unconditionally of any fiduciary or class of fiduciaries or transaction or class of transactions from all or part of the proscriptions contained in this subsection 15(b)(2) when the Secretary finds that to do so is consistent with the purposes of this Act and is in the interest of the fund or class of funds and the participants and beneficiaries: *Provided, however,* That any such exemption shall not relieve a fiduciary from any other applicable provisions of this Act.

"(c) Nothing in this section shall be construed to prohibit the fiduciary from—

"(1) receiving any benefit to which he may be entitled as a participant or beneficiary in the plan under which the fund was established;

"(2) receiving any reasonable compensation for services rendered, or for the reimbursement of expenses properly and actually incurred, in the performance of his duties with the fund, or receiving in a fiduciary capacity proceeds from any transaction involving plan funds, except that no person so serving who already receives full-time pay from an employer or an association of employers whose employees are participants in the plan under which the fund was established, or from an employee organization whose members are participants in such plan shall receive compensation from such fund, except for reimbursement of expenses properly and actually incurred and not otherwise reimbursed;

"(3) serving in such position in addition to being an officer, employee, agent, or other representative of a party in interest;

"(4) *engaging in the following transactions:*

"(A) holding or purchasing on behalf of the fund any security which has been issued by an employer whose employees are participants in the plan, under which the fund was established or a corporation controlling, controlled by, or under common control with such employer, except that (i) the purchase of any security is for no more than adequate consideration in money or money's worth, and (ii) that if an employee benefit fund is one which provides primarily for benefits of a stated amount, or an amount determined by an employee's compensation, an employee's period of service, or a combination of both, or money purchase type benefits based on fixed contributions which are not geared to the employer's profits, no investment shall be held or made by a fiduciary of such a fund in securities of such employer or of a corporation controlling, controlled by, or under common control with such employer, if such investment, when added to such securities already held, exceeds 10 per centum of the fair market value of the assets of the fund. Notwithstanding the foregoing, such 10 per centum limitation shall not apply to profit sharing, stock bonus, thrift and savings or other similar plans which explicitly provide that some or all of the plan funds may be invested in securities of such employer or a corporation controlling, controlled by, or under common control with such employer, nor shall said plans be deemed to be limited by any diversification rule as to the percentage of plan funds which may be invested in such securities. Profit sharing, stock bonus, thrift or other similar plans, which are in existence on the date of enactment and which allow investment in such securities without explicit provision in the plan, shall remain exempt from the 10 per centum limitation until the expiration of one year from the date of enactment of Retirement Income Security for Employees Act. Nothing contained in this subparagraph shall be construed to relieve profit sharing, stock bonus, thrift and savings or other similar plans from any other applicable requirements of this section;

"(B) purchasing on behalf of the fund any security or selling on behalf of the fund any security which is acquired or held by the fund, to or from a party in interest if (i) at the time of such purchase or sale the security is of a class of securities which is listed on a national securities exchange registered under the Securities Exchange Act of 1934 or which has been listed for more than one month (after the date of enactment of this Act) on an electronic quotation system administered by a national securities association registered under the Securities Exchange Act of 1934, (ii) no brokerage commission, fee (except for customary transfer fees), or other remuneration is paid in connection with such transaction, (iii) adequate consideration is paid, and (iv) that in the event the security is one described in subparagraph (A), the transaction has received the prior approval of the Secretary;

"(5) making any loan to participants or beneficiaries of the plan under which the fund was established where such loans are available to all participants or beneficiaries on a nondiscriminatory basis and are made in accordance with specific provisions regarding such loans set forth in the plan;

"(6) contracting or making reasonable arrangements with a party in interest for office space and other services necessary for the operation of the plan and paying reasonable compensation therefor;

"(7) following the specific instructions in the trust instrument or other document governing the fund insofar as consistent with the specific prohibitions listed in subsection (b)(2);

"(8) taking action pursuant to an authorization in the trust instrument or other document governing the fund, provided such action is consistent with the provisions of subsection (b).

"(d) Nothing in this section shall be construed to prohibit a person who is a party in interest by reason of providing benefit plan services to a plan, from providing any other services ordinarily and customarily furnished at arm's length by such person, to any fiduciary or any other party in interest to the plan, and nothing in this section shall be construed to preclude any fiduciary or party in interest in the plan from purchasing such services or contracting or making reasonable arrangements for the receipt of such services on such terms as are fair and reasonable.

"(e) Any fiduciary who breaches any of the responsibilities, obligations, or duties imposed upon fiduciaries by this Act shall be personally liable to such fund for any losses to the fund resulting from such breach, and to pay to such fund any profits which have inured to such fiduciary through use of assets of the fund.

"(f) When two or more fiduciaries undertake jointly the performance of a duty or the exercise of a power, or where two or more fiduciaries are required by an instrument governing the fund to undertake jointly the performance of a duty or the exercise of power, but not otherwise, each of such fiduciaries shall have the duty to prevent any other such cofiduciary from committing a breach of responsibility, obligation, or duty of a fiduciary or to compel such other cofiduciary to redress such a breach, except that no fiduciary shall be liable for any consequence of any act or failure to act of a cofiduciary who is undertaking or is required to undertake jointly any duty or power if he shall object in writing to the specific action and promptly file a copy of his objection with the Secretaryy.

"(g) No fiduciary may be relieved from any responsibility obligation, or duty imposed by law, agreement, or otherwise. Nothing herein shall preclude any agreement allocating specific duties or responsibilities among fiduciaries, or bar any agreement of insurance coverage or indemnification affecting fiduciaries, unless specifically disapproved by the Secretary.

"(h) A fiduciary shall not be liable for a violation of this Act committed before he became a fiduciary or after he ceased to be a fiduciary.

"(i) No individual who has been convicted of, or has been imprisoned as a result of his conviction of: robbery, bribery, extortion, embezzlement, grand larceny, burglary, arson, violation of narcotics law, murder, rape, kidnaping, perjury, assault with intent to kill, assault which inflicts grievous bodily injury any crime described in section 9(a)(1) of the Investment Company Act of 1940, or a violation of any provision of the Welfare and Pension Plan Disclosure Act, or a violation of section 302 of the Labor-Management Relations Act of 1947 (61 Stat. 157, as amended), or a violation of chapter 63 of title 18, United States Code, or a violation of section 874, 1027, 1503, 1505, 1506, 1510, 1951, or 1954 of title 18, United States Code, or a violation of the Labor-Management Reporting and Disclosure Act of 1959 (73 Stat. 519, as amended), or conspiracy to commit any such crimes or attempt to commit any such crimes or a crime in which any of the foregoing crimes is an element, shall serve—

"(1) as an administrator, officer, trustee, custodian, counsel, agent, employee (other than as an employee performing exclusive clerical or janitorial duties) or other fiduciary position of any employee benefit plan; or

"(2) as a consultant to any employee benefit plan, during or for five years after such conviction or after the end of such imprisonment, unless prior to the end of such five-year period, in the case of a person so convicted or imprisoned, (A) his citizenship rights having been revoked as a result of such conviction, have been fully restored, or (B) the Secretary determines that such person's service in any capacity referred to in clause (1) or (2) would not be contrary to the purposes of this Act. No person shall knowingly permit any other person to serve in any capacity referred to in clause (1) or (2) in violation of this subsection. Any person who willfully violates this subsection shall be fined not more than $10,000 or imprisoned for not more than one year, or both. For the purposes of this subsection, any person shall be deemed to have been 'convicted' and under the disability of 'conviction' from the date of the judgment of the trial court or the date of the final sustaining of such judgment on appeal, whichever is the later event, regardless of whether such conviction occurred before or after the date of enactment of this section. For the purposes of this subsection, the term 'consultant' means any person who, for compensation, advises or represents an employee benefit plan or who provides other assistance to such plan, concerning the establishment or operation of such plan.

"(j) All investments and deposits of the funds of an employee benefit fund and all loans made out of any such fund shall be made in the name of the fund or its nominee, and no employer or officer or employee thereof, and no labor organization, or officer or employee thereof, shall either directly or indirectly accept or be the beneficiary of any fee, brokerage, commission, gift, or other consideration for or on account of any loan, deposit, purchase, sale, payment, or exchange made by or on behalf of the fund.

"(k) In order to provide for an orderly disposition of any investment, the retention of which would be deemed to be prohibited by this Act, and in order to protect the interest of the fund and its participants and its beneficiaries, the fiduciary may in his discretion effect the disposition of such investment within three years after the date of enactment of this Act, or within such additional time as the Secretary may by rule or regulation allow, and such action shall be deemed to be in compliance with this Act."

(l) In accordance with regulations of the Secretary, every employee benefit plan subject to this Act shall—

(1) provide adequate notice in writing to any participant or beneficiary whose claim for benefits from the plan has been denied, setting forth the specific reasons for such denial, written in a manner calculated to be understood by the participant, and

(2) afford a reasonable opportunity to any participant whose claim for benefits has been denied for a full and fair review by the plan administrator of the decision denying the claim.

TITLE VI—ENFORCEMENT

SEC. 601. Whenever the Secretary—

(1) determines, in the case of a pension or profit-sharing-retirement plan required to be registered under this Act, that no application for registration has been filed in accordance with sections 102, or

(2) issues an order under section 107 denying or canceling the certificate of registration of a pension or profit-sharing-retirement plan, or

(3) determines, in the case of a pension plan subject to title II, that there has been a failure to make required contributions to the plan in accordance with the provisions of this Act or to pay required assessments or premiums under title III, or to pay such other fees or moneys as may be required under this Act,

the Secretary may petition any district court of the United States having jurisdiction of the parties, or the United States District Court for the District of Columbia, for an order requiring the employer or other person responsible for the administration of such plan to comply with the requirements of this Act as will qualify such plan for registration or compel or recover the payment of required contributions, assessments, premiums, fees, or other moneys.

SEC. 602. Whenever the Secretary has reasonable cause to believe that an employee's benefit fund is being or has been administered in violation of the requirements of the Welfare and Pension Plans Disclosure Act or the documents governing the establishment or operation of the fund, the Secretary may petition any district court of the United States having jurisdiction of the parties or the United States District Court for the District of Columbia for an order (1) requiring return to such fund of assets transferred from such fund in violation of the requirements of such Act, (2) requiring payment of benefits denied to any participant or beneficiary due to violation of the requirements of such Act, and (3) restraining any conduct in violation of the fiduciary requirements of such Act, and granting such other relief as may be appropriate to effectuate the purposes of this Act, including but not limited to, removal of a fiduciary who has failed to carry out his duties and the removal of any person who is serving in violation of the requirements of section 15(i) of the Welfare and Pension Plans Disclosure Act.

SEC. 603. Civil actions for appropriate relief, legal or equitable, to redress or restrain a breach of any responsibility, obligation or duty of a fiduciary, including but not limited to, the removal of a fiduciary who has failed to carry out his duties and the removal of any person who is serving in violation of the requirements of section 15(i) of the Welfare and Pension Plans Disclosure Act or against any person who has transferred or received any of the assets of a plan or fund in violation of the fiduciary requirements of the Welfare and Pension Plans Disclosure Act or in violation of the document or documents governing the establishment or operation of the fund, may be brought by any participant or beneficiary of any employee benefit plan or fund subject to the Welfare and Pension Plans Disclosure Act in any court of competent jurisdiction, State or Federal, or the United States District Court for the District of Columbia, without respect to the amount in controversy and without regard to the citizenship of the parties. Where such action is brought in a district court of the United States, it may be brought in the district where the plan is administered, where the breach took place, or where a defendant resides or may be found, and process may be served in any other district where a defendant resides or may be found.

SEC. 604. Suits by a participant or beneficiary entitled, or who may become entitled, to benefits from an employee benefit plan or fund, subject to the Welfare and Pension Plans Disclosure Act, as amended by this Act may be brought in any court of competent jurisdiction, State or Federal, or the United States District Court for the District of Columbia, without respect to the amount in controversy and without regard to the citizenship of the parties, against any such plan or fund to recover benefits due him required to be paid from such plan or fund pursuant to the document or documents governing the establishment or operation of the plan or fund, or to clarify his rights to future benefits under the terms of the plan. Where such action is brought in a district court of the United States, it may be brought in the district where the plan is administered, or where a defendant resides or may be found, and process may be served in any other district where a defendant resides or may be found. Such actions may also be brought by a participant or beneficiary as a representative party on behalf of all participants or beneficiaries similarly situated.

SEC. 605. (a) In any action brought under section 603 or 604, the court in its discretion may—

(1) allow a reasonable attorney's fee and costs of the action to any party;

(2) require the plaintiff to post security for payment of costs of the action and reasonable attorney's fees.

(b) A copy of the complaint in any action brought under section 603 or 604 shall be served upon the Secretary by certified mail, who shall have the right, in his discretion, to intervene in the action.

(c) Notwithstanding any other law, the Secretary shall have the right to remove an action brought under section 603 or 604 from a State court to a district court of the United States, if the action is one seeking relief of the kind the Secretary is authorized to sue for under this Act. Any such removal shall be prior to the trial of the action and shall be to a district court where the Secretary could have initiated the action.

SEC. 606. The provisions of the Act entitled "An Act to amend the Judicial Code and to define and limit the jurisdiction of courts sitting in equity, and for other purposes", approved March 23, 1932, shall not be applicable with respect to suits brought under this title.

SEC. 607. Suits by an administrator or fiduciary of a pension plan, a profit-sharing-retirement plan, or an employees' benefit fund subject to the Welfare and Pension Plans Disclosure Act, to review final order of the Secretary, to restrain the Secretary from taking any action contrary to the provisions of this Act, or to compel action required under this Act, may be brought in the name of the plan or fund in the district court of the United States for the district where the fund has its principal office, or in the United States District Court for the District of Columbia.

SEC. 608. Any action, suit, or proceeding based upon a violation of this Act or the Welfare and Pension Plans Disclosure Act shall be commenced within five years after the violation occurs. In the case of fraud or concealment, such action, suit or proceeding shall be commenced within five years of the date of discovery of such violation.

SEC. 609. (a) It is hereby declared to be the express intent of Congress that, except for actions authorized by section 604 of this title, the provisions of this Act or the Welfare and Pension Plans Disclosure Act shall supersede any and all laws of the States and of political subdivisions thereof insofar as they may now or hereafter relate to the subject matters regulated by this Act or the Welfare and Pension Plans Disclosure Act, except that nothing herein shall be construed—

(1) to exempt or relieve any employee benefit plan not subject to this Act or the Welfare and Pension Plans Disclosure Act from any law of any State;

(2) to exempt or relieve any person from any law of any State which regulates insurance, banking, or securities or to prohibit a State from requiring that there be filed with a State agency copies of reports required by this Act to be filed with the Secretary; or

(3) to alter, amend, modify, invalidate, impair, or supersede any law of the United States other than the Welfare and Pension Plans Disclosure Act or any rule or regulation issued under any law except as specifically provided in this Act.

(b) Subsection (a) of this section shall not be deemed to prevent any State court from asserting jurisdiction in any action requiring or permitting accounting by a fiduciary during the operation of an employee benefit fund subject to the Welfare and Pension Plans Disclosure Act or upon the termination thereof from asserting jurisdiction in any action by a fiduciary requesting instructions from the court or seeking an interpretation of the trust instrument or other document governing the fund. In any such action—

(1) the provisions of this Act and the Welfare and Pension Plans Disclosure Act shall supersede any and all laws of the State and of political subdivisions thereof, insofar as they may now or hereafter relate to the fiduciary, reporting, and disclosure responsibilities of persons acting for or on behalf of employee benefit plans or on behalf of employee benefit funds subject to the Welfare and Pension Plans Disclosure Act except insofar as they may relate to the amount of benefits due beneficiaries under the terms of the plan;

(2) notwithstanding any other law, the Secretary or, in the absence of action by the Secretary, a participant or beneficiary of the employee benefit plan or fund affected by this subsection, shall have the right to remove such action from a State court to a district court of the United States if the action involves an interpretation of the fiduciary, or reporting, and disclosure responsibilities of persons acting on behalf of employee benefit plans subject to the Welfare and Pension Plans Disclosure Act;

(3) the jurisdiction of the State court shall be conditioned upon—

(A) written notification, sent to the Secretary by registered mail at the time such action is filed, identifying the parties to the action, the nature of the action, and the plan involved; and satisfactory evidence presented to the court that the participants and beneficiaries have been adequately notified with respect to the action; and

(B) the right of the Secretary or of a participant or beneficiary to intervene in the action as an interested party.

### TITLE VII—EFFECTIVE DATES

SEC. 701. (a) Sections 101, 102, 103, and 104, title V, and title VI of this Act shall become effective upon the date of enactment of this Act.

(b) Title II of this Act shall become effective three years after the date of enactment of this Act, and title III and IV of this Act shall become effective one year after the date of enactment of this Act.

---

### RETIREMENT INCOME SECURITY FOR EMPLOYEES ACT

(Outline of major provisions of S. 4 (Williams-Javits pension reform bill))

The following are the major provisions of the Williams-Javits Pension Reform Bill:

1. Establishes within the Department of Labor, under the supervision and responsibility of the Secretary of Labor, an Office of Pension and Welfare Plan Administration, to be headed by an Assistant Secretary of Labor appointed by the President, with Senate advice and consent, which will be responsible for promotion, establishment, and administration and operation of employee benefit plans and enforcement of Act.

2. Prescribes minimum vesting requirements whereby an employee, after eight years of service, will acquire a vested nonforfeitable right to 30% of pension benefits, and, thereafter, each year will vest an additional 10% until, at the end of 15 years, he will have vested rights of 100%. As to plan participants who are 45 years of age on the effective date of the vesting provisions, they shall be vested with respect to such service performed before that effective date in the same manner as if the vesting schedules had been in effect during that period of time.

3. Establishes minimum funding standards for pension plans which will assure that all unfunded pension liabilities of the plan will be funded over a 30-year period.

4. Authorizes the Secretary to grant variances from funding requirements for qualifying plans under certain circumstances.

5. Establishes voluntary program for portability through a central fund, whereby employees of participating employees may transfer vested credits from one employer to another.

6. Establishes a plan termination insurance program which will guarantee that the vested pension credits of the employees will be paid when an employer goes out of business and the pension plan does not have sufficient assets to pay the workers' benefits. Insurance will cover benefits earned under the plan before the effective date and all such benefits subsequent thereto.

7. Prescribes new rules of conduct for trustees and fiduciaries controlling employee benefit funds, and prohibits conflict of interest and other unauthorized practices to prevent mishandling or loss of such funds.

8. Requires additional and more comprehensive disclosure in reports to be filed with the Federal Government, and more comprehensible explanations of the plans to workers.

9. Establishes federal jurisdiction and provides adequate remedies to both the Government and the individual worker for judicial and administrative enforcement of the bill's provisions, including recovery of pension benefits due.

---

### SUMMARY OF MAJOR PROVISIONS

### TITLE I.—ORGANIZATION, POWERS, AND DUTIES OF THE SECRETARY OF LABOR

*Section 101.*—This section requires the Secretary of Labor to promote programs and plans for the administration and operation of employee benefit plans in furtherance of the findings and policies set forth in the Act. He shall determine the eligibility for registration of such plans upon compliance with the requirements specified in the Act. Where plans are unqualified, he is authorized to cancel the registration. The Secretary is directed to administer and enforce the provisions of this Act and the Welfare and Pension Plans Disclosure Act. The Secretary is empowered to conduct inquiries reasonably necessary to ascertain violations of the Act or its regulations. He may not conduct an examination of books and records more than once annually unless he has reasonable cause to believe there has been a violation. He may use subpoena powers, if necessary, in the enforcement of the Act. The Secretary is authorized through the Attorney General to institute civil actions to enforce the provisions of the Act.

The Secretary is authorized to prescribe rules and regulations to govern standards and qualifications and actuaries performing services under the Act, and to certify actuaries as qualified for purposes of the Act. He is authorized to establish reasonable limitations on actuarial assumptions. The Secretary is directed to conduct studies on the effects of and the subjects covered in the Act and to furnish Congress with annual reports of such studies and his activities and progress under the Act.

Before promulgating regulations, the Secretary is required to consult with appropriate government agencies to avoid duplication or conflicts. He may also make arrangements with federal or state agency facilities for the purposes of enforcing the Act on a reimbursable basis.

#### *Office of Administration*

*Section 103.*—This section establishes within the Department of Labor an Office of Pension and Welfare Plan Administration headed by an Assistant Secretary of Labor appointed by the President with Senate advice and consent. Under supervision of the Secretary of Labor, he shall exercise that power and authority delegated to him by the Secretary for the purpose of administration and enforcement of the Act.

The functions, records and personnel of the Office of Labor Management Services Administration necessary for the administration of Welfare and Pension Plans Disclosure Act, are transferred to the new Office of Pension and Welfare Plan Administration.

#### *Coverage and exemptions*

*Section 104.*—This section requires that, unless exempt, the provisions of the Act apply to any pension or profit-sharing-retirement plan established or maintained by an employer, a union, or both together in any industry or activity affecting interstate commerce. The fiduciary and disclosure provisions of the Act apply to all employee benefit plans unless exempt.

The Act does not apply to plans established by federal or state governments, plans, established by religious organizations, plans for the self-employed, plans covering not more than 25 participants, plans established outside the territorial jurisdiction of the United States for citizens of other countries unless they maintain funds in the United States, certain plans for key executives, and plans for members of labor organizations which are financed exclusively from the members' dues.

The funding and plan termination insurance requirements are not applicable to profit-sharing or money purchase plans, because of the nature of these plans.

#### *Registration of plans*

*Section 105.*—This section requires administrators of pension and profit-sharing plans to file applications with the Secretary of Labor for registration of such plans. The filing by the administrator shall be within six months after a plan has been established, or, if a plan was in effect at the time of enactment of this Act, such filing shall be within six months after the effective date of regulations promulgated by the Secretary of Labor, but in no event later than 12 months.

Upon finding by the Secretary that a plan is qualified, it shall be issued a certificate of registration by the Secretary. The criterion for the grant of such certificate shall be compliance with the requirements of the Act.

Where a plan is deficient, the administrator or other appropriate person shall be given an opportunity to remove the deficiency, and in the event that such deficiency is not removed, the Secretary may order cancellation or denial of such certificate.

#### *Reports on registered plans*

*Section 106.*—This section provides that the Secretary may, by regulation, provide for the filing of one single report which will satisfy the reporting requirements of this Act and the WPPDA.

#### *Amendments of registered plans*

*Section 107.*—This section provides that amendments to pension or profit-sharing-retirement plans shall be registered with the Secretary; that copies of such amendments shall be filed with the Secretary; and that the Secretary may require additional information in order that he may determine the initial unfunded liability which has been created by the amendment and to further determine special payments which may be required to remove such liability.

### *Certificate of Rights*

*Section 108.*—This section requires the Secretary to promulgate regulations requiring each plan to furnish its participants, upon termination of service with vested rights, with a certificate reciting the benefits due to such participants and the location of the entity responsible for the payments and pertinent data relating thereto. A copy of such certificate shall be filed with the Secretary.

## TITLE II.—VESTING AND FUNDING REQUIREMENTS

### *Part A—Vesting*

*Section 201.*—This section requires that no pension or profit-sharing-retirement plan may require as a condition of eligibility to participate in the plan, a period of service longer than one year or an age greater than 25, whichever occurs later, except that any plan which provides 100 percent immediate vesting upon entry into the plan may restrict participation to those who have attained age 30, or three years of service, whichever occurs later.

*Section 202.*—This section provides that all pensions and profit-sharing-retirement plans are required to vest rights in participants with respect to service rendered both before, as well as after, the effective date of the title at the rate of a 30 percent vested interest, commencing with eight years of service, and increasing by 10 percent each year thereafter in order that 100 percent vesting is attained after 15 years of service. However, vesting of accrued benefits as to service rendered prior to the Act is required only with respect to plan participants who have attained age 45 on the effective date of the title. Vested plan benefits acquired under the Act may not be assigned or alienated except that where a plan fails to make such provision, the Secretary shall be required to provide for final disposition of such benefits.

It further provides that no more than three of the eight years required to qualify for a 30 percent vested right need be continuous, but that service prior to age 25 may be ignored in determining eligibility for a vested right unless the participant or his employer has made contributions to the plan with respect to service prior to age 25.

In addition, in the event a participant has achieved 100 percent full vesting when permanently separated from the plan and subsequently returns to coverage under the same plan, he may be treated as a new participant for purposes of vesting schedule.

Any plan may allow more liberal vesting than required by the Act. If, upon application by a plan, the Secretary determines that a plan's vesting provisions are as liberal as those required by this Act, he may waive the requirements and permit the plan's vesting schedule to remain unchanged. Liberal refers to a vesting schedule comparable to, or greater than, the one prescribed by this Act.

### *Part B—Funding*

*Section 210.*—This section requires that plans provide for compulsory funding of its obligations to its employees. Every employer is required to provide contributions for funding of his pension plan in a manner adequate to amortize all pension benefit liabilities which may accrue under the terms of the plan. Employers must fund all normal service costs annually and must fund initial unfunded liabilities existing on the effective date of this title (or in any plan established after the effective date of the title) within 30 years from the applicable date, in no less than equal amounts annually. If any amendment to the plan results in substantial increase to the plan's unfunded liabilities, the increase shall be funded separately as if it were a new plan and shall be regarded as a new plan for purposes of the plan termination insurance program established under this Act.

If a plan has an experience deficiency (resulting from actuarial error) for any particular year, the deficiency must be removed in no more than a five-year period, except that where such deficiency cannot be removed within such period without exceeding allowable limits for tax deductions under the Internal Revenue Code for a given year during such period, the Secretary may prescribe necessary additional time to permit removal of such deficiency within allowable tax deduction limitations.

Within six months after the effective date of rules promulgated by the Secretary to implement this title, but not later than 12 months after the effective date of the title, or within six months after date of plan establishment, whichever is later, the plan is required to submit a report by an actuary who has been certified by the Secretary, stating information necessary to determine the appropriate application of the funding requirements to the plan. Plans are also required to be reviewed every five years by certified actuaries who are to report the funding obligations which must be met and any surplus or experience deficiencies. The Secretary is authorized to exempt certain plans from these filing requirements if consistent with the purpose of the Act.

*Section 211.*—This section provides that subject to the authority of the Secretary to provide exemptions in cases of hardship, and certain provisions of the Internal Revenue Code, all assets of terminated pension plans must be distributed according to the following priorities:

First, to refund to nonretired participants in the plan the amount of contributions made by them; second, to retirees; third, to persons eligible to retire on date of plan termination; fourth, to participants who have vested rights under the plan but who have not reached retirement age; and fifth, to other participants. In addition, employers are held liable for contributions (including amounts withheld from employees) owing to the plan which were required to be made by virtue of the funding requirements of the Act, but which were not made as of the date of plan termination. Upon either complete or substantial termination of a profit-sharing plan, the interests of all participants shall fully vest.

The Secretary may approve payment of benefits due to survivors in accordance with priorities which are equal to those of the employees whose service had acquired such benefits.

### *Part C.—Variances*

*Section 216.*—This section authorizes the Secretary to defer, in whole or in part, applicability of the vesting provisions for a period not to exceed five years from the effective date of such requirements where a plan makes a showing that the vesting requirements would increase the employer's costs or contributions to the plan to an extent that "substantial economic injury" would result to the employer and to the interests of the participants.

The definition of "substantial economic injury" is defined to include, but not to be limited to, a substantial risk to plan continuance, inability to discharge benefit obligations, substantial curtailment of pension or other employee benefits, or the production of an adverse effect upon employment levels of the work force of the employer contributing to the plan!

In collectively-bargained plans, both employer and union are required to submit application for the variance, and where such a submission is made, the Secretary is required to give due weight to the experience, competence, and knowledge of the parties concerning the necessity for the variance.

*Section 217.*—This section provides that where an employer can make a showing to the Secretary of Labor that he cannot make the required annual contribution to the pension plan, the Secretary may waive such contributions and authorize that such deficiency be funded over a period not to exceed five years in not less than equal annual payments. However, to authorize such variance, the Secretary must be satisfied that such waiver will not have an adverse effect upon the interests of employees and will not impair the financial position of the Pension Benefit Insurance Fund. No waiver may be granted for more than five years, and when a plan has been granted five consecutive waivers, the Secretary has the authority to: (1) merge or consolidate a deficiently funded plan with another plan of the employer, if feasible; (2) order termination of a plan if necessary to protect the interests of the participants or the position of the plan termination insurance program; (3) or such other action as may be appropriate to carry out the purposes of the Act.

No amendments increasing plan benefits are permitted during any period that a funding waiver is in effect.

The Secretary is required to promulgate regulations governing funding of multi-employer plans that cover a substantial portion of the industry or employees in a specific geographic area to assure that such plans are provided with sufficient assets to cover benefits under the plan. In promulgating such regulations, the Secretary is required to set a funding period that will reflect an adequate basis for funding the plan's benefit commitments and which takes into account the particular situation pertaining to the plan, industry, and circumstances involved. In no event is the Secretary authorized to prescribe a funding period for such a multiemployer plan which is less than 30 years, and no such plan is permitted to increase benefits beyond a point for which the contribution rate would be inadequate unless such rate is increased commensurately.

The Secretary may determine also that an employer's withdrawal from a multi-employer plan will significantly reduce the rate of aggregate contributions to the plan. He may then require the fund to be allocated between the nonworking and working participants, and treat the nonworkers' share of the fund as terminated for insurance purposes, and the remaining portion of the fund as a new one for funding, variances, and insurance purposes.

## TITLE III.—VOLUNTARY PORTABILITY PROGRAM FOR VESTED PENSIONS

### *Program established*

*Section 301.*—This section establishes a voluntary program for portability of vested pension credits. The program will be administered by and under the Secretary's direction, and will be designed to facilitate the voluntary transfer of vested credits between registered plans. Plans registered under the Act may voluntarily apply for membership in the program and upon approval be issued a certificate of membership by the Secretary.

### *Acceptance of deposits*

*Section 302.*—This section requires that, upon request of a plan participant, plans which are members of this program are required to pay, to a central portability fund administered by the Secretary, monies representing the value of the participant's vested rights when he is separated from the plan prior to retirement. The Secretary will prescribe the terms and circumstances of deposits to be made.

### *Special fund*

*Section 303.*—This section establishes a Voluntary Portability Program Fund under the supervision of the Secretary into which payments will be made in accordance with regulations prescribed by the Secretary under the portability program. The Secretary shall be the trustee of the fund and shall administer the fund and report to the Congress annually of the fund's operations and fiscal status. The Secretary is authorized to deposit the amounts received in financial institutions insured by the FDIC or FSLIC but no more than 10 percent in any one financial institution.

*Individual accounts*

*Section 304.*—This section requires the Fund to establish individual accounts for each participant for whom it has received monies under the portability program.

*Payments from individual accounts*

*Section 305.*—This section provides that, at the request of a participant transferring into a new plan, the Secretary is required to pay out of his account the accumulated amounts to purchase pension credits from the new plan which are actuarially equivalent. Unless the monies in a participant's account have been transferred to another employer's plan at the participant's request, the Secretary is required to use the monies in the participant's account to purchase a single-premium life annuity from a qualified life insurance carrier when the participant reaches age 65, and in the event of the participant's death, to pay out monies in his account to his designated beneficiary.

*Technical assistance*

*Section 306.*—This section authorizes the Secretary to furnish technical assistance to unions, administrators, and all others affected by this Act who wish to develop portability or reciprocity arrangements of their own.

TITLE IV.—PLAN TERMINATION INSURANCE PROGRAM ESTABLISHED

*Section 401.*—This section establishes a Private Pension Plan Termination Insurance Program administered by the Secretary, which requires plans to insure unfunded vested liabilities incurred prior to enactment of the Act, as well as after enactment of the Act.

*Condition of insurance*

*Section 402.*—This section requires the insurance program to insure participants against loss of vested benefits arising from plan termination.

The amount of vested benefit insurance is limited to 50 percent of highest average monthly wage of participants earned over a five-year period, or $500 monthly whichever is the lesser.

No insurance shall be paid if the plan is terminated less than three years from date of establishment or registration unless the Secretary determines that a registered plan was otherwise in substantial compliance with the Act and that the reserve position of the insurance program will not be adversely affected.

Insurance will not cover vested rights created by any plan amendment which took effect less than three years prior to plan termination.

No coverage is extended to participants who own 10 percent or more of employer voting stock.

*Assessment and premiums*

*Section 403.*—This section requires plans to pay an initial uniform assessment to be prescribed by the Secretary to cover administrative costs of the program. The Secretary shall prescribe an annual premiums rate based upon unfunded vested liabilities. For the first three years, the insurance premium shall not exceed 0.2 percent of unfunded vested liabilities incurred after enactment of the Act. With respect to those unfunded vested liabilities incurred prior to enactment, the premium shall be 0.2 percent, provided that the unfunded vested liabilities of the plan were funded at least 75% during the five-year period preceding enactment.

As to plans which on date of enactment were less than five years old, the premium shall be 0.2 percent, provided that the plan had been reducing its unfunded vested liabilities at a rate of no less than 5 percent annually. In the event plans do not meet the above funding standards, they can be charged a premium not to exceed 0.4 percent or less than 0.2 percent of pre-enactment unfunded vested liabilities.

Also, in the case of multi-employer plans (as defined in the Act), the premium rate for the initial three years shall not exceed 0.2 percent of unfunded vested liabilities, regardless of when such liabilities were incurred.

After the initial three-year period, the Secretary may prescribe an annual rate based upon experience, and unless Congress objects within 90 days, the new premium shall become effective.

The Secretary is required to consult with appropriate private and government agencies on matters relating to the assessment and premium rates before prescribing rates.

*Payment of insurance*

*Section 404.*—This section requires that insured plans must receive authority from the Secretary to terminate, and the Secretary must determine that statutory requirements have been complied with and that the prospective termination is not designed to avoid or circumvent the Act.

The insurance to be paid shall be the difference between the plan's assets and unfunded vested benefits owed at the time of plan termination.

In addition, the Secretary is required to prescribe procedures under which funds of terminated plans shall be liquidated and paid out to cover vested benefits of participants. In implementing this authority, the Secretary may transfer terminated funds under his supervision or purchase annuities from qualified insurance carriers for participants or take such other action as may be appropriate.

*Recovery*

*Section 405.*—This section provides that, where employers in terminated plans are not insolvent, they or their successors-in-interest may be liable for reimbursement of a portion of insurance benefits paid. The liability of the employer is to be based on the ratio of the plan's unfunded vested liabilities to the employer's net worth, and the employer is required to reimburse the Secretary for that percentage of the unfunded vested liabilities which is represented by the foregoing ratio. However, if such ratio is less than 50% of the employer's net worth, he is required to pay the full amount.

The Secretary shall make arrangements with employers on equitable terms for the reimbursement of insurance paid.

The amount or amounts of any unpaid liability owed by an employer shall constitute a lien in favor of the government, but junior to any lien for unpaid taxes owed to the government.

*Pension benefit insurance fund*

*Section 406.*—This section establishes within the Labor Department a fund for the deposit of premiums, assessments, etc., made under the Act and for payment of such claims thereunder.

TITLE V.—DISCLOSURE AND FIDUCIARY STANDARDS

The new Disclosure and Fiduciary Requirements of this Act are accomplished by amendments to the Welfare and Pension Plans Disclosure Act. (WPPDA).

*Disclosure*

*Section 501.*—This section requires that annual reports filed are required to be accompanied by a certificate designating the Secretary as agent for service of process in any action arising under this Act.

*Section 502.*—This section amends Section 3 of the Welfare and Pension Plans Disclosure Act by adding new paragraphs containing revised definitions of terms such as "relative," "administrator," "employee benefit plan," "employee benefit fund," "separate account," "adequate consideration," "nonforfeitable pension benefit," "covered service," and various other terms which are intended to reconcile definitions contained in the Act with the new amendments.

*Section 503.*—This section amends Sec. 4 (a) of the Welfare and Pension Plans Disclosure Act by making editorial changes required by the terms of the current Act in order that the definitions of the WPPDA will be reconciled with those of the current amendments.

*Section 504.*—This section amends Sec. 5 (b) of the WPPDA by permitting the Secretary to require the filing of a special terminal report in the event that there are monies or other assets remaining in the plan. Additionally, it is amended to grant the Secretary the right to exempt from the reporting and disclosure requirements of the Act a certain class of employee benefit plan if the same does not serve the purposes of the Act.

*Section 505.*—This section amends Sec. 6 of the WPPDA and requires plan descriptions under this Act to be comprehensive and written in a language and manner calculated to be understood by the average participant. In addition, the prior filing requirements are revised to authorize plan amendments to be filed in accordance with regulations prescribed by the Secretary. Heretofore, plan amendments had to be filed within 60 days after they were effective.

*Section 506.*—This section provides for two significant changes to the WPPDA. The first is a new requirement that the annual financial report must include an opinion of the plan's financial condition by an independent accountant based upon the results of an annual audit. Second, plans must include in their reports more detailed financial information, particularly in connection with party-in-interest transactions, and more detailed actuarial information relating to the plan's funding method and its overall financial soundness.

*Section 507.*—This section broadens the WPPDA requirements by requiring administrators to furnish reports to employees or to make available (whichever is more practicable) to every participant upon his enrollment in the plan a summary of the plan's important provisions written in a manner calculated to be understood by the average participant. (This requirement covers major amendments as well). This summary should include an explanation of a participant's rights and obligations under the plan and the circumstances which may disqualify him from benefits, as well as the requirements of WPPDA. Administrators are also required to furnish or make available to participants every three years a revised, up-to-date summary of the plan's important provisions (including major amendments).

Additionally, the plan administrator must furnish to participants and beneficiaries, upon request, copies of the plan description, annual report, or bargaining agreement, trust agreement, contract, or instrument under which the plan is established and operated. The plan administrator may make a reasonable charge to cover the costs of such copies.

Plan administrators are also required to furnish participants with notices of any vesting or funding variance the plan has received under other provisions of the Act.

*Section 508.*—This section amends Section 9(d) of the WPPDA to eliminate the requirement of certification previously required to examine reports and records of a plan. The annual audit required by the Act dispenses with the need for such certification.

*Section 509.*—This section amends Section 14 of the WPPDA to restructure the Advisory Council on Employee Welfare and Pension Benefit Plans so that it will serve as an advisory council for both the WPPDA and the Retirement Income Security for Employees Act. The Advisory Council is expanded from its present number of 13 members to 21 members. New permanent categories of membership are added to include the fields of actuarial counseling, investment counseling, and accounting. Five representatives of management have also been added. The period of advisory council meetings is changed from its requirement of twice a year to meetings of at least four times a year.

### *Fiduciary standards*

*Section 510.*—This section adds new Section 15 to the WPPDA which establishes fiduciary standards for employee pension and welfare plans.

In general, this section requires plans to be established pursuant to a written document and requires plan funds to be treated as a trust for the exclusive purpose of (1) providing benefits to participants and their beneficiaries and (2) paying reasonable administrative expenses.

This section also requires a fiduciary (i.e., a person who is responsible for handling plan funds) to act as a prudent man in a similar situation and other like conditions would act. The fiduciary must adhere to trust principles established by the Act, and to trust terms which are consistent with the Act and to refrain from transactions where his personal interests would conflict with the interests of the participants and beneficiaries. However, transactions which are otherwise prohibited may be permitted by the Secretary if he finds that the participants' interests would be served by such action. A fiduciary is prohibited from investing, or maintaining investment of more than 10 percent of a pension fund's assets in securities of the employer.

In general, fiduciaries may be reasonably compensated and entitled to receive benefits which belong to them by reason of being participants in the plan and may also make certain loans to participants or beneficiaries or make reasonable arrangements with parties-in-interest for office space or other services, including providing more than one type of service to fiduciaries or other parties-in-interest which are customarily furnished.

Any fiduciary who breaches his trust is personally liable for losses resulting from such breach, and co-fiduciaries are jointly and severally liable except that a co-fiduciary may avoid liability by objecting promptly to any action which may constitute a breach of trust.

Exculpatory clauses in trust agreements are prohibited; however, fiduciaries are permitted to allocate specific responsibilities among themselves, and, thereby, subject to disapproval by the Secretary, limit the responsibility of each fiduciary.

The bill further prohibits any individual who has been convicted of certain specified crimes from serving as an administrator, officer, trustee, employee, or consultant of, or with respect to a plan, for five years following his conviction or release from imprisonment, unless the Secretary determines that a waiver is justified.

The bill also requires all investments and deposits of plan funds to be made in the name of the fund or its nominee and prohibits employees of either the employer or an employee organization from receiving commissions, or brokerage fees with respect to plan investments; and provides for a transitional period as determined by the Secretary for a plan to dispose of conflict-in-interest investments.

Finally, every plan, in accordance with regulations of the Secretary, is required to provide adequate notice in writing to a participant whose benefit claim has been denied, setting forth the specific reason for the denial in understandable language and providing reasonable review procedure with respect to any denial of benefits.

### TITLE VI.—ENFORCEMENT

*Sec. 601.*—This section empowers the Secretary to petition the federal courts to compel a pension or profit-sharing-retirement plan to comply with the Act or effect recoveries of moneys which may be due under the Act.

*Sections 602, 603, 604, and 605.*—These sections provide that when the Secretary has reason to believe that a pension, profit-sharing, or other employee benefit plan is violating the Act or the plan's governing documents, he may seek relief in the federal courts to compel the return of assets to the fund, to require payments to be made, to require the removal of a fiduciary, and to obtain other appropriate relief. Plan participants also may seek relief in federal and state courts against violations committed by a fiduciary, including his removal from office. They may also seek relief to recover benefits required to be paid under the plan in the same courts. The Secretary has the right to remove an action pending in a state court to the federal courts for relief provided under this Act.

*Sections 607 and 608.*—These sections provide that administrators and fiduciaries have the right to obtain judicial review of the actions of the Secretary. The bill provides a statute of limitations of five years for actions for relief provided under this Act.

*Section 609.*—This section provides that this Act supersedes state laws covering the same matters. However, the Act does not exempt or relieve any person from complying with any state law regulating insurance, banking, and related matters, and does not remove state jurisdiction over plans not subject to the Act. State courts are not prevented from asserting jurisdiction in compelling the accounting of a fiduciary or requiring clarification of the plan. The Secretary or a plan participant may remove such a case from the state to the federal court if it involves the applicability of the Act.

### TITLE VII.—EFFECTIVE DATES

*Section 701.*—This section provides that the registration, administration, disclosure, fiduciary, and enforcement provisions of the Act become effective upon enactment.

The vesting and funding provisions of the Act shall become effective three years after enactment of the Act, and portability and insurance provisions one year after enactment.

### PENSION AND WELFARE PLAN REFORM LEGISLATION—1973, A YEAR FOR DECISION

Mr. JAVITS. Mr. President, starting with the 90th Congress in 1967 and in each succeeding Congress thereafter, I have introduced bills to protect the benefit rights of the over 30 million workers covered by private pension and welfare plans—plans with reserve assets of more than $150 billion—growing at the rate of $10 billion annually and predicted to reach over $230 billion by 1980—the largest aggregate of virtually unregulated money in the Nation.

It is, therefore, with pride and anticipation that I speak as principal coauthor of the Williams-Javits pension and welfare plan reform bill, S. 4, introduced by the chairman today and referred to the Committee on Labor and Public Welfare. The Williams-Javits bill is a major bipartisan legislative undertaking—cosponsored by close to 50 percent of the Senate last year—which takes as its basis the bills I have authored since 1967. It is identical to S. 3598, the bill which was unanimously approved by the Senate Committee on Labor and Public Welfare in September of 1972, culminating 3 years of intense study and investigation by the Senate Labor Subcommittee.

The essential provisions of the bill are as follows:

Vesting: The bill assures that after 8 years of employment, a worker would have a nonforfeitable right to 30 percent of accrued pension benefits. This would increase at an annual rate of 10 percent to reach 100 percent after 15 years. Workers age 45 or older on the effective date of the vesting requirements would be vested in service prior to such date in accordance with the foregoing vesting schedule.

Funding: Pension plan managers would have to accumulate contributions at a rate sufficient to assure that unfunded benefit obligations could be paid in 30 years.

Federal Insurance: Every pension plan would be required to purchase Federal insurance to guarantee the payment of vested pension obligations in the event of premature plan termination.

Portability: Provision is made for an employee to take vested pension credits with him from job to job through a voluntary central clearinghouse fund administered by the Labor Department.

Fiduciary Standards and Disclosure: Existing law is strengthened to provide safeguards against corruption and conflicts of interest and more adequate communication to employees concerning their plan.

The design of these provisions was based on the principal findings of the Senate Labor Subcommittee. These principal findings were:

First. Inadequate or nonexistent vesting provisions which result in the denial of retirement benefits to employees upon termination of services, voluntary or otherwise, despite long years of employment.

Second. Inadequate accumulation of assets in funds to meet obligations and payments to workers who are entitled to benefits.

Third. Forfeiture of earned retirement benefits by employees resulting from voluntary or involuntary moves within an industry or geographical area, which restricts the mobility of the labor force.

Fourth. Instances where employers have not achieved full funding status, but through circumstances often beyond their control, must terminate the plan without adequate resources for payment of benefits due.

Fifth. The lack of uniform requirements of conduct by fiduciaries and employers in the administration and operation of their pension funds which results in abuses and unsound practices which jeopardize the security of the assets and threaten the availability of funds for employees.

Sixth. Employee participants not having full comprehension of their rights and obligations under their participating pension plans because of inadequate communication to them in booklets or other format of details of plans.

The distinctive approach of the bill can be most readily grasped by reference to the following key paragraphs from the committee's report.

> [T]he [committee] was of the opinion that, based upon its findings, it would be unwise and impractical to propose either revisions or new provisions of law in patchwork fashion. It was convinced that the nature and extent of the problems determined to exist required one omnibus legislative proposal which would embody essential and indispensable reform. . . .
>
> The committee believes that the legislative approach of establishing minimum standards and safeguards for private pensions is not only consistent with retention of the freedom of decision-making vital to pension plans, but in furtherance of the growth and development of the private pension system. At the same time, the committee recognizes the absolute need that safeguards for plan participants be sufficiently adequate and effective to prevent the numerous inequities to workers under plans which have resulted in tragic hardship to so many. The committee has vividly demonstrated this need in public hearings.
>
> The bill reported by the committee represents an effort to strike an appropriate balance between the interests of employers and labor organizations in maintaining flexibility in the design and operation of their pension programs and the need of the workers for a level of protection which will adequately protect their rights and just expectations. In adopting this approach, the committee believes it has designed a bill, which, like the National Labor Relations Act, the wage-hour laws and other labor standards laws, brings the workers' interest up to parity with those of employers.

### THE PRIORITY OF PENSION AND WELFARE REFORM LEGISLATION

As we all know, the Williams-Javits bill was referred to the Committee on Finance in the closing days of the last congressional session, where, after a week's deliberation, it was stripped of its key provisions. This was most unfortunate since this action made it virtually impossible to bring the bill to a vote on the floor in the last session. Nevertheless, it was reasuring that the leadership of both parties in the Senate—mindful of the tremendous interest and concern expressed over pension and welfare reform legislation throughout the country—pledged to give it priority status in this session of the Congress. We should now move decisively to fulfill this commitment in 1973 because I do not believe that American workers who are the backbone of our Nation's economic and social system, will continue patiently to tolerate further delays and obstacles to the attainment of their just demands for comprehensive protection of their pension rights.

In order to dispel any lingering doubt about the desirability of swift and effective action, let me briefly review the history of inadequate action by the Congress on pension reforms, despite the overwhelming evidence in support of such legislation.

As mentioned previously, I introduced the first comprehensive pension reform bill in 1967 and this was followed by then Secretary of Labor Wirtz's bill, introduced in 1968. Hearings were held in the Senate for 1 day in 1968 but no action was taken on any of these bills. In 1969 and 1970, there were House hearings on similar bills and again nothing resulted. In 1971, my comprehensive bill was reintroduced as S. 2. This was accompanied by intensive study and investigation by the Senate Labor Subcommittee. Senator WILLIAMS and I then agreed on a joint bill which was introduced in May of 1972. Legislative hearings on the Williams-Javits bill were held in June of 1972 and the bill was ultimately reported by the committee in September.

At the same time there have been numerous hearings and studies from countless perspectives in other committees on both sides of Capitol Hill. In 1966 we held hearings in the Government Operations Committee concerning the unethical diversion of certain union pension funds. In 1966 we also held hearings before the Joint Economic Committee on pension problems. There have been hearings before the Senate Special Committee on Aging and also before the House Ways and Means Committee in May of 1972.

Nor has the executive branch been silent in this area. In 1965, President Kennedy's Cabinet Committee on Corporate Pension Funds issued a report recommending vesting and funding and fiduciary reform along with a recommendation for further investigation and study in connection with problems of plan termination insurance and portability. In 1971, the White House Conference on the Aging issued a report recommending that the Federal Government require early vesting and/or portability, fiduciary responsibility, funding standards and reinsurance protection in private plans. In December of 1971 the administration transmitted to the Congress, after a joint study by the Departments of Labor and Treasury, two bills recommending, among other things, fiduciary and disclosure standards and vesting in private pension plans, and just recently—December 18, 1972, to be precise—a report of a special task force to the Secretary of Health, Education, and Welfare, entitled "Work in America," has recommended liberalization of private pension plans by mechanisms of early vesting and portablity as a means of removing inequities in the private pension system and inducing greater job satisfaction among workers.

Mr. President, if all the volumes of words on the need for pension reform legislation, if all the testimony of witnesses before congressional committees, if all the studies and reports and reams of statistical surveys were laid back to back, they would fill this entire Senate Chamber, and yet there still is no adequate pension reform law on the U.S. statute books.

Pension reform is now an area where the Congress has both the motivation and the competence to act decisively. The legislation has priority status but that is not enough to satisfy millions of dissatisfied and concerned American workers looking forward to a decent standard of living in retirement. The people cannot look with favor on a repeat performance of what transpired in the Senate in the closing days of the last session. If we are to restore confidence in the ability of the private pension plans to deliver on their promises and also maintain confidence in the capability of the Congress as an institution to deal responsibly with the important social needs of our people, then surely we can hesitate no longer on enacting effective pension and welfare reform legislation, and we should do it without any unnecessary legalistic delay. This bill deserves the highest priority as a major incentive to over 30 million American working men and women.

### CONCLUSION

Mr. President, before I close, I would like first to pay a tribute to the chairman of the Labor and Public Welfare Committee, Mr. WILLIAMS, who in an unequaled way and as a great example of public service, has worked with me in the development of this legislation. I am delighted to engage in this partnership which has been one of the most satisfying of my entire career.

Now we have a mature bill which has been termed by the New York Times "the most thoughtful measure ever devised on Capitol Hill for correcting defects in the private pension plans." A great deal of talent and hard work has gone into it. We can still strengthen the bill and improve it and I hope that we will very shortly have hearings so that we can determine what further improvements should be made and then go forward with this legislation. There is a great deal of constructive effort that has been made by a number of parties in both industry and labor and by the administration itself, which has made a valuable contribution with its proposals. We have the question also of the committees with tax jurisdiction and I believe that we can and should work out a constructive approach to resolve these problems. I know that there are many members of both the Senate Finance Committee as well as the House Ways and Means Committee who are most enthusiastic and interested in securing fundamental pension reforms.

There is plenty of room for cooperation and ample opportunity for meaningful contributions to a strong and comprehensive pension law. The public is looking to the Congress to provide the necessary leadership in this field. We will only have ourselves to blame if increasing cynicism and disillusionment with the Congress results from a failure to compose our differences and pass the legislation that over 30 million American workers are counting on for a decent income in their older years.

Mr. RIBICOFF. Mr. President, today I am joining in the introduction of S. 4, legislation to reform America's outmoded private pension system. No legislation coming before the Senate in the 93d Congress will be more important to American workers than safeguarding their retirement income.

The private pension system is a growing one. In 1940, 4 million employees were covered by private pension plans with assets of $2.4 billion. Today, more than one-half of our work force in the United States—40 million workers—are members and participants of private pension plans. Assets in these plans, numbering some 34,000, amounted to almost $130 billion in 1970. By 1980 it is expected that 42.3 million workers will participate in plans with assets skyrocketing to over $250 billion.

Despite the growth and development of these plans in the last few years, regulation of them in the public interest has been minimal. Internal Reveune Code regulations exist principally to produce tax revenue and to prevent evasion of tax obligations. The Labor-Management Relations Act regulates pensions only to prevent union officials and employers from conspiring to divert employee funds to their own use. The act is not intended to establish nor does it provide standards of funding adequacy, security of investment, or fiduciary conduct. The 1958 Welfare and Pension Plans Disclosure Act, while purporting to protect the pension participant, essentially required the administrator of a pension plan to file certain very limited information with the Secretary of Labor and furnish information to employees upon request. The act lacks substantive fiduciary standards and relies on the initiative of the individual employee to police the management of his plan.

All too often working men and women contribute to these pension plans only to find when they retire that the benefits they had been promised are denied them.

In addition, frequently the pension funds themselves are abused by those responsible for their management who manipulate them for their own purposes or make poor investments with them.

It is time controls were imposed to safeguard the workers' valuable funds. Genuine pension reform will be achieved only by Federal regulation.

In the absence of comprehensive pension reform legislation, abuses and phantom retirement security benefits have been frequent. The major problems which give rise to pension horror stories are: First, the failure of pension funds to provide necessary minimum and adequate vesting provisions; second, premature termination of pension plans without adequate insurance coverage to protect the employees; third, the failure of pension plans to have sufficient funding to meet accrued and vested liabilities; and, fourth, ineffective fiduciary requirements which threaten the safety and preservation of fund assets.

The report of the 1971 Senate Welfare and Pension Plan Study elaborated on these problems. It revealed that of all those who have worked at and then left jobs with pension plans over the last 20 years, only about 5 percent will ever receive any benefits.

A succession of witnesses coming before the Pension Study Subcommittee—mostly union workers in their late forties and fifties—told of losing their pension rights, because of plant shutdowns, transfers, store closings, and pension fund terminations. One witness, who had worked for 32 years for one company, was laid off 3 years before he was eligible for his pension. Other workers have lost their pensions when a company has shut down. Perhaps the most famous case involved the Studebaker Division of Studebaker Packard. More than 4,000 Studebaker workers aged 40 to 60 got only 15 percent of what the company owed them. Other workers lost benefits when their companies moved or when they changed jobs.

Even when the company remains solvent and stable and the worker has a vested right to receive his pension, there is a growing concern over the integrity of the pension fund assets. While most corporate pension funds are carefully managed and conservatively invested, misuse, manipulation, and poor management of pension trust funds are all too frequent. One financially ailing company tried to borrow over a million dollars from a subsidiary's pension pool for use as operating capital. Another company has a policy of investing more than half its pension fund's assets in the company's own common stock and in the real estate of a company subsidiary. And yet another firm routinely dips into its pension funds for cash to make acquisitions.

These manipulations point up the lack of real controls over the investment of pension funds. Present laws and common law trust principles have failed to come to grips with the problem.

The pension reform legislation being introduced today attempts to bring orderly regulation to a field now fraught with insecurity for the working man.

First, the legislation establishes within the Department of Labor an office of Pension and Welfare Plan Administration, to be headed by an Assistant Secretary appointed by the President with Senate advice and consent. The office will be responsible for promotion, establishment, administration, and operation of employee benefit plans, and enforcement of the act.

Second, the legislation prescribes minimum vesting requirements. Vesting refers to the nonforfeitable right or interest which an employee participant acquires in the pension fund representing contributions made to such fund. These benefit credits under the present system may vest in the employee immediately although in most cases participants do not become eligible for vesting of benefits until a stipulated age or period of service, or a combination of both, is attained.

The reform legislation we are proposing would stipulate that an employee, after 8 years of service, will acquire a vested nonforfeitable right to 30 percent of pension benefits and, thereafter, each year will vest an additional 10 percent until, at the end of 15 years, he will have vested rights of 100 percent. The past service of workers of 45 or older on the effective date of the vesting requirements would be recognized in computing the individual's vested interest.

Third, the bill establishes minimum funding standards to assure that the pension funds assets are sufficient to meet liabilities. Unfunded pension liabilities must be funded over a 30-year period. The Secretary would be empowered to grant variances for qualifying plans under certain circumstances.

Fourth, the legislation establishes a voluntary program for portability through a central fund, whereby employees of participating employers may transfer vested credits from one employer to another.

Under the present system, pensions are generally lost if an employee changes jobs. Yet in this mobile society a worker rarely stays with one company for his entire career. By making pension rights portable; that is, by allowing an employee to transfer his earned vested pension rights from job to job and at the end of his career to be able to convert all such credits into a final benefit amount reflecting all of his prior service, the private pension system would be far more equitable.

Fifth, the bill establishes a plan termination insurance program which will guarantee that the vested pension credits of the employees will be paid when an employer goes out of business and the pension plan does not have sufficient assets to pay the workers' benefit. Insurance will cover benefits earned under the plan before the effective date and all such benefits subsequently.

Sixth, the bill prescribes new rules of conduct for trustees and fiduciaries controlling employee benefit funds, and prohibits conflicts of interest and other unauthorized practices to prevent mishandling or loss of such funds.

Seventh, the bill requires additional and more comprehensive disclosure in reports to be filed with the Federal Government, and more comprehensive explanations of the plans to workers.

Finally, the legislation establishes Federal jurisdiction and provides adequate remedies to both the Government and the individual worker for judicial and administrative enforcement of the bill's provisions, including recovery of pension benefits due.

Last year, after this legislation was reported unanimously out of the Senate Committee on Labor and Public Welfare, it was referred to the Senate Finance Committee of which I am a member. Over my strong objections, the Finance Committee stripped this bill of its provisions relating to vesting, funding, portability, and plan termination insurance and the bill never passed the Senate. I will again oppose any effort to weaken this legislation when it comes before the Finance Committee.

If this crucial legislation—the Retirement Income Security for Employees Act—is enacted, the 93d Congress will justifiably be remembered as the workingman's Congress.

---

By Mr. MONDALE (for himself and Mr. JAVITS):

S. 5. A bill to promote the public welfare. Referred to the Committee on Labor and Public Welfare.

### THE FULL OPPORTUNITY AND NATIONAL GOALS AND PRIORITIES ACT

Mr. MONDALE. Mr. President, I introduce for myself and the Senator from New York (Mr. JAVITS) a bill, entitled "The Full Opportunity and National Goals and Priorities Act." This bill has had wide, bipartisan cosponsorship during the last three Congresses. We are asking our colleagues to cosponsor the measure again and I hope that a number of Senators will join us in supporting it.

Title I of the bill stems from S. 843 which I introduced almost 6 years ago and is identical to title I of S. 5, which was passed by the Senate on September 10, 1970 and, again, on July 25, 1972. Title II was first offered as an amendment to the bill by the Senator from New York (Mr. JAVITS) and was included as title II in the bill which the Senate has passed twice.

Title I of the bill establishes full social opportunity as a national goal. The goal is more fully described in the bill as embracing such areas as educational and vocational opportunities, access to housing and health care, and provision of special assistance to the handicapped and other less fortunate members of society. It establishes institutions and procedures for advancing this broad social goal, including a new Council of Social Advisers in the Executive Office of the President, and a requirement for an annual social report to be submitted by the President to the Congress.

The bill is patterned generally after the Employment Act of 1946 which, for the first time, established as a national goal the achievement of maximum employment, production, and purchasing power. To assist in achieving that goal, the Employment Act established the Council of Economic Advisers, provided for the annual Economic Report of the President, and established a Joint Economic Committee in the Congress.

It is my belief that this legislation will accomplish for the broad range of social policies what the Employment Act has done so well in the economic sector. By declaring a new national objective and increasing the quantity, quality, and visibility of information needed to pursue should markedly advance our prospects for effective social action.

Mr. President, by now we have had a series of studies by prestigious commissions which have told us about the gap which remains in our society between the promise of full opportunity and the realities of deprivation, powerlessness, and poor fortune into which millions of our citizens are born.

The increasing affluence of great segments of our society has merely sharpened the division between them and those who have not yet benefited from the phenomenal growth in our economy, in our technological and scientific base, and in our educational systems. As a result, the demands of the deprived for their fair share in the benefits of our society and the responsiveness of our political institutions have both increased dramatically. At the same time, however, we have also become acutely aware of the fundamental inadequacy of the information upon which social policies and programs are based.

Because of our information gaps, national problems go nearly unnoticed until they suddenly are forced upon us by some significant development. Thus, we learn of widespread hunger in America, of the rapid deterioration of our environment, of dangerous tensions and unrest in our great urban centers, of the shocking conditions under which migrant farmworkers live, and of the absence of decent medical care for tens of millions of our citizens. We desperately need ways to monitor our social health and to identify such problems before they destroy our society.

Another tremendously expensive consequence of our lack of adequate information is that we devise and operate programs based on myth and ignorance. The Congress has been groping with the problem of welfare reform, but it is painfully evident that we lack some of the basic information which we need in order to design a system in which we could all have confidence. Similar problems are presented with respect to urban renewal, mass transportation, air and water pollution, and health delivery systems.

Finally, after years of experimenting with such techniques as program planning and evaluation systems, we are still quite ill equipped to measure what our existing programs do accomplish. And we have no adequate means to compare the costs and effectiveness of alternative programs.

A Council of Social Advisers, dedicated to developing indicators of our social problems and progress, could well be a source of enormous savings to the taxpayer as well as of more effective solutions to the problems we face. Such a council, taking full advantage of new developments in planning, programing, and budgeting systems, in computerized data collection and statistical methodology, in systems analysis and social accounting, could unlock the enormous potential of the social sciences to assist the Congress and the executive in developing and administering public policy.

A Council of Social Advisers would not, itself, be a new decisionmaking forum. Rather, as a social monitoring, data gathering, and program evaluation agency, it would provide the Domestic Council with much of the information which that body needs to make its policy and program recommendations to the President. The Domestic Council has available to it the broad range of economic information now furnished by the Council of Economic Advisers. The Council of Social Advisers would fill a significant gap in the information system which is needed to buttress the policymaking apparatus established in 1970 under the President's reorganization authority.

While title I of the bill, with its new Council of Social Advisers and its new social report, should greatly augment the capacity of the Congress to make intelligent policy decisions, title II of the bill is even more significant with respect to strengthening the Congress.

I was delighted to cosponsor the amendment to the bill which was offered by the Senator from New York (Mr. JAVITS) in 1970 to create a new congressional staff office of goals and priorities analysis. By now, the need for some such additional staff arrangements in the Congress has become abundantly clear.

This office would be an arm of the Congress serving it in its examination of budget proposals, program costs and effectiveness, appropriations, and national priorities.

The appropriations process is the mechanism through which the Congress seeks to reflect its views on budgetary priorities. But there remains a great need to equip Congres with the kind of manpower, data, and technology that would furnish it with the information necessary if it is to fully examine and evaluate appropriations measures with regard to the relative needs of the Nation. The office would not supplant the efforts of the Appropriations Committees to determine the Nation's expenditures. Rather, it would further explain, coordinate and compare the various budgetary proposals so as to provide the overview so necessary to responsible fiscal planning. The program information it would collect and interpret would be made available to other committees and individual Members of Congress.

These services should, in concert with the other work of the office, serve to improve the legislative process. Too often, congressional procedures result in each appropriation's being considered in a piecemeal fashion.

In committees, on the floor, and in conference—over a period of months—the Government's spending priorities take shape. Yet this is done in virtual ignorance of total alternative budgets by which other priorities might be expressed. Revisions and other amendments are made, often on the floor of the Senate, each of which affects a vast range of alternatives.

Yet these alternatives are seldom really identified. An appropriation increase, for example, may be offered with excellent justification, but with no clear idea of what other equally worthwhile projects are precluded by this additional expenditure.

Currently, the Congress has only one complete, coherent budget with which to work—that submitted by the President. There is no reason, of course, why the Congress should accept this budget, item by item. The new office would, in providing Congress with hard cost-benefit and sound, need-projection data, improve the chances that the inevitable deletions, additions, and other revisions of the budget would occur as a result of informed and considered analysis of the merits of each budget proposal, and of how all spending decisions influence, and are influenced by, the condition of the total economy.

The Congress needs its own office to provide this kind of ongoing analysis and to generate comprehensive budget alternatives which could be examined in a totality. The executive branch is quite well equipped to function in such matters. With the Domestic Council and the Office of Management and Budget, and with the extensive facilities of the National Security Council, the Council on Environmental Quality, the Council of Economic Advisers—and with a new council of social advisers, the White

House is formidably equipped to present a given budget and make its case.

Meanwhile, the Congress—coequal in policymaking, and supposedly preeminent in the control over spending—has far too little resources, even in its Appropriations Committees, and has no established mechanism to help individual Senate or congressional staffs examine the policy and program evaluations reflected in the budget. The President said, when announcing his proposal to establish the Domestic Council and the Office of Management and Budget:

> A President whose programs are carefully coordinated, whose information system keeps him adequately informed and whose organizational assignments are plainly set out, can delegate authority with security and confidence.

Certainly the Congress, the branch of Government which shares with the Executive the responsibility to determine national priorities and delegate authority, should be so organized and informed. Such an office in the Congress could do much to restore the growing erosion of congressional power and give substance to the admittedly ill-defined contentions about national priorities, peace and growth dividends, and fiscal responsibility.

Last year, the Congress recognized the need to equip itself better to deal with the overall Federal expenditure issue in a coordinated manner. It established a special joint committee to make recommendations for improving congressional control of budgetary outlay and receipt totals, including procedures for establishing and maintaining an overall view of each year's budgetary outlays which is fully coordinated with an overall view of the anticipated revenues for that year.

I hope that the joint committee will consider title II of this measure as one approach to meeting the need for improved congressional control of expenditures.

Mr. President, I have now served in the Senate for over 8 years. Along with many of my colleagues, I spend most of my time dealing with the human problems with which the average American is confronted.

I never cease to be amazed by the abundance of evidence about how little we seem to know at the Federal level about what is really going on.

As one person observed, we have a natural strategy of suboptimization at the Federal level where we do better and better at little things and worse and worse at big things.

Thus, something as elementary as good nutrition, something as essential to a sound body and a sound mind—adequate and decent nutrition—was something about which the Federal Government was almost totally ignorant in 1967. We knew how many soybeans were grown. We knew how much money was being spent on the direct commodity distribution program, the food program, and so on. But no one had the slightest idea whether there was widespread hunger, and if there was, where it was to be found and why, what the cost of feeding the hungry was, what the cost of not feeding them was, or any of the other fundamental questions directly related to the issue of the most basic necessity of American life itself. The same thing was true with decent housing.

In 1967, even though we should have been warned earlier, the major American cities began to explode in our faces. Newark, Detroit, and one community after another literally blew up in an astonishing and cataclysmic explosion causing the widespread loss of human life, and human injury, and millions and millions of dollars in property damage—and an emotional and cultural shock to Americans which we are still in the throes of. None of this was anticipated by the Government.

When hearings were started, this Nation was thrashing around; Congress and the Senate were thrashing around; members of the Cabinet and leading members of the executive branch were thrashing around, all trying to find out what was causing such a fundamental occurrence as this outrageous, heartbreaking phenomenon in American life.

We could go on from this example to other examples. In the federal system we lack an institution which takes not a tactical approach but a strategic approach to human problems which this society faces. We need to chart the social health of this country and seek to go forward; not, as John Gardner said, stumbling into the future, but trying to come up with the analysis, facts, and figures, and, as someone said, the "hot data" to help us understand our society and what we must do to make it more effective than it is in meeting this Nation's human problems.

One of our most impressive witnesses was Mr. Joseph Califano who formerly served as adviser on domestic programs to President Johnson. More than any other man he was in the Nation's "hot seat" trying to develop a program to advise the highest official in the land on domestic programs.

He recounted several instances of the phenomena to which I have made reference. For example, on one occasion, the Secretary of Health, Education, and Welfare was in conference with Mr. Califano. He was asked how many people were on welfare, who they were, and all the rest. Since we are spending several billions of dollars, one would have thought that information would be immediately at hand. The Secretary thought the information would be available to him as soon as he returned to his office and that he would send it right back. As a matter of fact, it took HEW a year and a half to find out who was on welfare. Mr. Califano said this was a common experience with basic and fundamental human problems, to find that not even the President would have available to him the basic data necessary to make the choices upon which our very civilization depends.

He commented in this way about the issue of hunger:

> The even more shocking element to me is that no one in the federal government in 1965 knew how many people were hungry, where they were located geographically, and who they were. No one knew whether they were children, elderly Americans, pregnant mothers, black, white, or Indian.

He continued:

> Moreover, unless something of which I am unaware has been done since January 20, 1969, I believe that we still do not know who and where the hungry in America are with the kind of precision essential for an intelligent, effective program to feed all the hungry among us.

Then Mr. Califano concluded with this statement:

> The disturbing truth is that the basis of recommendations by American Cabinet officer on whether to begin, eliminate, or expand vast social programs more nearly resembles the intuitive judgment of a benevolent tribal chief in remote Africa than the elaborate sophisticated data with which the Secretary of Defense supports a major new weapons system. When one recognizes how many and how costly are the honest mistakes which have been made in the Defense Department, despite its sophisticated information systems, it becomes frightening to think of the mistakes which might be made on the domestic side of our Government because of lack of adequate data.

Since this bill was first proposed, it has attracted strong support from a broad spectrum of leading public figures in the Nation. Among them have been two former Secretaries of Health, Education, and Welfare—John Gardner and Wilbur Cohen. Significantly, two principal officials in the Johnson administration, who had opposed the bill in 1967 as premature, have now joined in its support. These are Charles Zwick, former Budget Director and Joseph A. Califano, Jr., former Special Assistant to President Johnson. Former Secretary of the Treasury, Joseph Barr, has testified in favor of the bill. Former Secretary of Labor Willard Wirtz has also urged enactment of the bill.

Three prominent study groups have also made recommendations along the lines of the bill. In October 1969, the Behavioral and Social Sciences Survey Committee of the National Academy of Sciences and the Social Science Research Council recommended the investment of substantial Federal funds in developing social indicators. It also proposed the preparation of an annual social report, initially outside the Government, and the eventual establishment of a council of social advisers, as a Government agency.

In December 1969, the National Commission on the Causes and Prevention of Violence, headed by Dr. Milton Eisenhower, issued its final report. I was pleased to note that among its recommendations were proposals for the development of social indicators and for the establishment of a counterpart to the Council of Economic Advisers to produce an annual social report.

Last year, the Commission on Population Growth and the American Future recommended approval of this legislation.

For more than 5 years now, I have been assured repeatedly that the executive branch favored the objectives of this legislation. However, the promising efforts of the Department of Health, Education, and Welfare, with the publication of "Toward A Social Report" in January 1969, have not been continued. Almost a year and a half ago, a witness from the Office of Management and Budget referred to a forthcoming social indicators report by that agency. It has still not been received. It now appears clear that the Congress will have to insist on a more sophisticated system for social measurement and evaluation. I hope that the House will join the Senate in this Congress in approving this measure.

Mr. President, I ask unanimous consent that the text of the proposed Full Opportunity and National Goals and Priorities Act be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 5

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Full Opportunity and National Goals and Priorities Act."

## TITLE I—FULL OPPORTUNITY

### DECLARATION OF POLICY

SEC. 101. In order to promote the general welfare, the Congress declares that it is the continuing policy and responsibility of the Federal Government, consistent with the primary responsibilities of State and local governments and the private sector, to promote and encourage such conditions as will give every American a full opportunity to live in decency and dignity, and to provide a clear and precise picture of whether such conditions are promoted and encouraged in such areas as health, education and training, rehabilitation, housing, vocational opportunities, the arts and humanities, and special assistance for the mentally ill and retarded, the deprived, the abandoned, and the criminal, and by measuring progress in meeting such needs.

### SOCIAL REPORT OF THE PRESIDENT

SEC. 102. (a) The President shall transmit to the Congress not later than February 15 of each year a report to be known as the social report, setting forth (1) the overall progress and effectiveness of Federal efforts designed to carry out the policy declared in section 101 with particular emphasis upon the manner in which such efforts serve to meet national social needs in such areas as health, education and training, rehabilitation, housing, vocational opportunities, the arts and humanities, and special assistance for the mentally ill and retarded, the deprived, the abandoned, and the criminal; (2) a review of State, local, and private efforts designed to create the conditions specified in section 101; (3) current and foreseeable needs in the areas served by such efforts and the progress of development of plans to meet such needs; and (4) programs and policies for carrying out the policy declared in section 101, together with such recommendations for legislation as he may deem necessary or desirable.

(b) The President may transmit from time to time to the Congress reports supplementary to the social report, each of which shall include such supplementary or revised recommendations as he may deem necessary or desirable to achieve the policy declared in section 101.

(c) The social report, and all supplementary reports transmitted under subsection (b) of this section, shall, when transmitted to Congress, be referred to the Committee on Labor and Public Welfare of the Senate and the Committees on Education and Labor and Interstate and Foreign Commerce of the House of Representatives. Nothing in this subsection shall be construed to prohibit the consideration of the report by any other committee of the Senate or the House of Representatives with respect to any matter within the jurisdiction of any such committee.

### COUNCIL OF SOCIAL ADVISERS TO THE PRESIDENT

SEC. 103. (a) There is created in the Executive Office of the President a Council of Social Advisers (hereinafter called the Council). The Council shall be composed of three members who shall be appointed by the President, by and with the advice and consent of the Senate, and each of whom shall be a person who, as a result of his training, experience, and attainments, is exceptionally qualified to appraise programs and activities of the Government in the light of the policy declared in section 101, and to formulate and recommend programs to carry out such policy. Each member of the Council, other than the Chairman, shall receive compensation at the rate prescribed for level IV of the Executive Schedule by section 5315 of title 5 of the United States Code. The President shall designate one of the members of the Council as Chairman who shall receive compensation at the rate prescribed for level II of such schedule.

(b) The Chairman of the Council is authorized to employ, and fix the compensation of such specialists and other experts as may be necessary for the carrying out of its functions under this Act, without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of relating to classification and General Schedule pay rates, and is authorized, subject to such provisions, to employ such other officers and employes as may be necessary for carrying out its functions under this Act, and fix their compensation in accordance with the provisions of such chapter 51 and subchapter III of chapter 53.

(c) It shall be the duty and function of the Council—

(1) to assist and advise the President in the preparation of the social report;

(2) to gather timely and authoritative information and statistical data concerning developments and programs designed to carry out the policy declared in section 101, both current and prospective, and to develop a series of social indicators to analyze and interpret such information and data in the light of the policy declared in section 101 and to compile and submit to the President studies relating to such developments and programs;

(3) to appraise the various programs and activities of the Federal Government in the light of the policy declared in section 101 of this Act for the purpose of determining the extent to which such programs and activities contribute to the achievement of such policy, and to make recommendations to the President with respect thereto;

(4) to develop priorities for programs designed to carry out the policy declared in section 101 and recommend to the President the most efficient way to allocate Federal resources and the level of government—Federal, State, or local—best suited to carry out such programs;

(5) to make and furnish such studies, reports thereon, and recommendations with respect to programs, activities, and legislation to carry out the policy declared in section 101 as the President may request.

(6) to make and furnish such studies, reports thereon, and recommendations with respect to programs, activities and legislation as the President may request in appraising long-range aspects of social policy and programing consistent with the policy declared in section 101.

(d) Recognizing the predominance of State and local governments in the social area, the President shall, when appropriate, provide for the dissemination to such States and localities of information or data developed by the Council pursuant to subsection (c) of this section.

(e) The Council shall make an annual report to the President in January of each year.

(f) In exercising its powers, functions, and duties under this Act—

(1) the Council may constitute such advisory committees and may consult with such representatives of industry, agriculture, labor, consumers, State and local governments, and other groups, organizations, and individuals as it deems advisable to insure the direct participation in the Council's planning of such interested parties;

(2) the Council shall, to the fullest extent possible, use the services, facilities, and information (including statistical information) of Federal, State, and local government agencies as well as of private research agencies, in order that duplication of effort and expense may be avoided;

(3) the Council shall, to the fullest extent possible, insure that the individual's right to privacy is not infringed by its activities; and

(4) (A) the Council may enter into essential contractual relationships with educational institutions, private research organizations, and other organizations as needed; and

(B) any reports, studies, or analyses resulting from such contractual relationships shall be made available to any person for purposes of study.

(g) To enable the Council to exercise its powers, functions, and duties under this Act, there are authorized to be appropriated (except for the salaries of the members and officers and employees of the Council) such sums as may be necessary. For the salaries of the members and salaries of officers and employees of the Council, there is authorized to be appropriated not exceeding $900,000 in the aggregate for each fiscal year.

## TITLE II—NATIONAL GOALS AND PRIORITIES

### DECLARATION OF PURPOSES

SEC. 201. The Congress finds and declares that there is a need for a more explicit and rational formulation of national goals and priorities, and that the Congress needs more detailed and current budget data and economic analysis in order to make informed priority decisions among alternative programs and courses of action. In order to meet these needs and establish a framework of national priorities within which individual decisions can be made in a consistent and considered manner, and to stimulate an informed awareness and discussion of national priorities, it is hereby declared to be the intent of Congress to establish an office within the Congress which will conduct a continuing analysis of national goals and priorities and will provide the Congress with the information, data, and analysis necessary for enlightened priority decisions.

### ESTABLISHMENT

SEC. 202. (a) There is established an Office of Goals and Priorities Analysis (hereafter referred to as the "Office") which shall be within the Congress.

(b) There shall be in the Office a Director of Goals and Priorities Analysis (hereafter referred to as the "Director") and an Assistant Director of Goals and Priorities Analysis (hereafter referred to as the "Assistant Director"), each of whom shall be appointed jointly by the majority leader of the Senate and the Speaker of the House of Representatives and confirmed by a majority vote of each House. The Office shall be under the control and supervision of the Director, and shall have a seal adopted by him. The Assistant Director shall perform such duties as may be assigned to him by the Director, and, during the absence or incapacity of the Director, or during a vacancy in that office, shall act as the Director. The Director shall designate an employee of the Office to act as Director during the absence or incapacity of the Director and the Assistant Director, or during a vacancy in both such offices.

(c) The annual compensation of the Director shall be equal to the anual compensation of the Comptroller General of the United States. The annual compensation of the Assistant Director shall be equal to that of the Assistant Comptroller General of the United States.

(d) The terms of office of the Director and the Assistant Director first appointed shall expire on January 31, 1977. The terms of office of Directors and Assistant Directors appointed shall expire in January 31 every four years thereafter. Except in the case of his removal under the provisions of subsection (e), a Director or Assistant Director may serve until his successor is appointed.

(e) The Director or Assistant Director may be removed at any time by a resolution of the Senate or the House of Representatives. A vacancy occurring during the term of the Director or Assistant Director shall be filled by appointment as provided in this section.

(f) The professional staff members, including the Director and Assistant Director, shall be persons selected without regard to political affiliations who, as a result of training, experience, and attainments, are exceptionally qualified to analyze and interpret policies and programs.

### FUNCTIONS

SEC. 203. (a) The Office shall make such studies as it deems necessary to carry out the purposes of section 201. Primary emphasis shall be given to supplying such analysis as will be most useful to the Congress in voting on the measures and appropriations which come before it, and on providing the framework and overview of priority considerations within which a meaningful consideration of individual measures can be undertaken.

(b) The Office shall submit to the Congress on March 1 of each year a national goals and priorities report and copies of such report shall be furnished to the Committee on Apropriations of the Senate and of the House of Representatives, the Joint Economic Committee, and other interested committees. The report shall include, but not be limited to—

(1) an analysis, in terms of national goals and priorities, of the programs in the annual budget submitted by the President, the Economic Report of the President, and the Social Report of the President;

(2) an examination of resources available to the Nation, the foreseeable costs and expected benefits of existing and proposed Federal programs, and the resources and cost implications of alternative sets of national priorities; and

(3) recommendations concerning spending priorities among Federal programs and courses of action, including the identification of those programs and courses of action which should be given greatest priority and those which could more properly be deferred.

(c) In addition to the national goals and priorities report and other reports and studies which the Office submits to the Congress, the Office shall provide upon request to any Member of the Congress further information, data, or analysis relevant to an informed determination of national goals and priorities.

### POWERS OF THE OFFICE

SEC. 204. (a) In the performance of its functions under this title, the Office is authorized—

(1) to make, promulgate, issue, rescind, and amend rules and regulations governing the manner of the operations of the Office;

(2) to employ and fix the compensation of such employees, and purchase or otherwise acquire such furniture, office equipment, books, stationery, and other supplies, as may be necessary for the proper performance of the duties of the Office and as may be appropriated for by the Congress;

(3) to obtain the services of experts and consultants, in accordance with the provisions of section 3109 of title 5, United States Code; and

(4) to use the United States mails in the same manner and upon the same conditions as other departments and agencies of the United States.

(b)(1) Each department, agency, and instrumentality of the executive branch of the Government, including independent agencies, is authorized and directed, to the extent permitted by law, to furnish to the Office, upon request made by the Director, such information as the Director considers necessary to carry out the functions of the Office.

(2) The Comptroller General of the United States shall furnish to the Director copies of analyses of expenditures prepared by the General Accounting Office with respect to any department or agency in the executive branch.

(3) The Office of Management and Budget shall furnish to the Director copies of special analytic studies, program and financial plans, and such other reports of a similar nature as may be required under the planning-programing-budgeting system, or any other law.

(c) Section 2107 of title 5, United States Code, is amended by—

(1) striking out the "and" at the end of paragraph (7);

(2) striking the period at the end of paragraph (8) and inserting in lieu thereof a semicolon and the word "and"; and

(3) adding at the end thereof the following new paragraph:

"(9) the Director, Assistant Director, and employees of the Office of Goals and Priorities Analysis.".

### JOINT ECONOMICS COMMITTEE HEARINGS

SEC. 205. The Joint Economic Committee of the Congress shall hold hearings on the national goals and priorities report and on such other reports and duties of the Office as it deems advisable.

### PAYMENT OF EXPENSES

SEC. 206. All expenses and salaries of the Office shall be paid by the Secretary of the Senate from funds appropriated for the Office upon vouchers signed by the Director or, in the event of a vacancy in that Office, the Acting Director.

Mr. JAVITS. Mr. President, I am pleased to join the Senator from Minnesota (Mr. MONDALE) in reintroduction of S. 5, the "Full Opportunity and National Goals and Priorities Act." This act has been passed by the Senate on two occasions, most recently on July 25, 1972 by a vote of 51 to 40, but unfortunately action has not been taken by the other body.

This bill consists of two principal parts: title I, authored by Senator MONDALE, would establish a Council of Social Advisers in the Executive Office of the President, with a requirement for an annual "Social Report" by the President to the Congress.

In essence, title I would create a procedure to deal with our social problems, parallel to that which exists in the economic field in the form of the Council of Economic Advisers. As the ranking minority member of the Committee on Labor and Public Welfare, I have seen very clearly where the Council of Economic Advisers falls short. The fact is that they are magnificient on the whole. We have had much fine experience with them on the Nation's economy but they tie into the country's social responsibilities only insofar as it bears on the economy.

We need quite clearly to have a similar focus on the crucial matters of our social needs.

Title II, which I authored, would establish within the Congress an Office of Goals and Priorities Analysis. The Director and Assistant Director of the Office are to be appointed jointly by the majority leader in the Senate and the Speaker of the House. Drawing from the social data and program evaluations generated by the Council of Social Advisers and other sources, the Office of Goals and Priorities Analysis would submit an annual report to the Congress setting forth goals and priorities in the general context of needs, costs, available resources, and program effectiveness. It would also provide information to members of the Congress on an ongoing basis.

At a time when the ability of Congress to carry out its responsibilities even in its own domain of power over the purse has been challenged, it is essential that those of us who serve in the public trust have at our disposal more adequate means of making enlightened priority decisions.

Of course, the appropriations process is the vital mechanism through which the Congress seeks to reflect its views on budgetary priorities. But there remains a great need to equip Congress with the kind of manpower, data and technology that would furnish it with the information necessary if it is to fully examine and evaluate each appropriations measure, separately and—perhaps most crucially—in view of all other appropriations measures, with regard to the relative needs of the Nation. The office proposed in title II would not supplant the efforts of the Appropriations Committees to determine the Nation's expenditures. Rather, it would further explain, coordinate and compare the various budgetary proposals so as to provide the overview so necessary to responsible fiscal planning. The program information it would collect and interpret would be made available to other committees and individual Members of Congress.

The Congress needs such an institution in order to attempt to redress the imbalance that exists in the information available to the legislative, as opposed to the executive branch, in the essential matter of expenditures.

Mr. President, since the Senate's adoption of S. 5, Public Law 92–599, the debt ceiling bill, has established a Joint Committee to Review Operation of Budget Ceilings and to Recommend Procedures for Improving Congressional Control over Budgets. Under that authority, the joint committee is required to report the results of its study and review to the Congress no later than February 15, 1973. As we proceed to consider S. 5, we will want to have the benefit of the recommendations of the joint committee in moving toward the establishment of an office along the lines that are provided under title II.

---

By Mr. WILLIAMS (for himself, Mr. MAGNUSON, Mr. RANDOLPH, Mr. PELL, Mr. STEVENSON, Mr. MONDALE, Mr. HUGHES, Mr. STAFFORD, Mr. JAVITS, Mr. BROOKE, Mr. SCHWEIKER, Mr. HUMPHREY, Mr. BENTSEN, Mr. MCGEE, Mr. MOSS, Mr. STEVENS, Mr. HART, Mr. CHILES, Mr. BIBLE, Mr. PASTORE, Mr. CANNON, Mr. HOLLINGS, Mr. TUNNEY, and Mr. KENNEDY):

S. 6. A bill to provide financial assistance to the States for improved educational services for handicapped children. Referred to the Committee on Labor and Public Welfare.

### THE EDUCATION FOR ALL HANDICAPPED CHILDREN ACT

Mr. WILLIAMS. Mr. President, I am introducing a bill entitled "The Education for All Handicapped Children Act" for myself and others. On August 1, 1972, in the District of Columbia U.S. District Court Judge Joseph C. Waddy handed down a landmark decision on the right to education of handicapped children. In that decision Judge Waddy declared that handicapped and emotionally disturbed children have a constitutional right to a public education, and ordered the District of Columbia to make available to all handicapped children within the District appropriate education services. Judge Waddy's opinion encompassed all children within the District of Columbia excluded from public schools, and carried the full weight of a U.S. District Court. His decision is the most sweeping of cases which extend the right to education for handicapped children; an earlier consent decree in the State of Pennsylvania ordered the State to provide education and full due process to all mentally retarded children.

These decisions do not stand alone. In the last year 22 cases in 16 States were filed or completed on the right to education for handicapped children. In at least four more States cases are presently being prepared, and this trend will undoubtedly continue.

One of the most recent cases, Benjamin Harrison against the State of Michigan, the judge dismissed the complaints of the plaintiffs arguing that there was a State law which insures the right of all handicapped children to a free public education by September of 1973, and that ruling on the case would cast too early a judgment on the State's compliance. But the important point in the judge's argument is this: he indicated that he would have no hesitation in ruling on the rights of the plaintiffs if the State law did not exist, that handicapped children have a constitutional right to a free public education and that the State must provide that education.

This case raises a point which is important for us here today. The public education system in this Nation is one of the strongholds of this democracy, and has been in existence for over a century. As a route to knowledge, as the delivery system for the development of skills to be used in jobs and other opportunities later in life, the public education system plays a role unsurpassed by any other institution in our society.

Yet the simple facts are that this system has not provided a free public education to all children, nor has it been subtle in its exclusion. Most statutes which declare that it is the policy to provide a free public education have an exclusionary clause which exempts handicapped children. Whether or not this exemption in the past has been for good reason, its results are patently clear: It implies that handicapped children cannot be educated. Most importantly, it has denied thousands of handicapped children their right to an education, and resulted in a situation of separate but unequal treatment. And the courts have begun to make clear that this is unconstitutional discrimination and its effects must be remedied.

Presently, there are 7 million handicapped children in the United States. Close to 60 percent of these children are denied the educational programs they need to have full equality of opportunity. One million of these children have been excluded entirely from public schools, and will not go through the educational process with their peers. For most of these children educational services are something they will receive only through the perseverance and sacrifice, at prohibitive cost, of their parents. The education that they are likely to receive will in no way prepare them for a life of independence, and in most cases their exposure to learning opportunities will be so irregular that it may have been better not to have made the effort at all.

It is inaccurate to suggest that there has been no action taken by the States to correct this horrifying disparity. In 1971 alone, some 799 bills were introduced in State legislatures which sought to provide educational services for handicapped children, and 237 of these bills were passed. States have increased their commitment to this education and have sought to improve programing for handicapped children. Yet, despite these laudable efforts we continue to operate on an outmoded philosophy of charitable deeds: of doing for handicapped children out of the goodness of our hearts rather than in recognition of their rights as members of this society. As a result of this attitude, only 40 percent of the handicapped children in the United States receive appropriate education suited to their needs, and this education varies greatly within the 50 States, and within particular disability groups.

In the 1971–72 school year, there were seven States where less than 20 percent of the population of handicapped children were provided educational services. In 19 States, 31 percent or less of the population was served. Only 17 States served more than 50 percent of all handicapped children. If we examine this data by disability group, we find the disparities more discouraging. In 1971: 57 percent of all trainable mentally retarded children; 52 percent of all speech impaired children; 14 percent of all hard of hearing children; 13 percent of all seriously emotionally disturbed children; 45 percent of all deaf children; 35 percent of all crippled or orthopedically handicapped children; 2 percent of all children with other health impairments; and 26 percent of all children with multiple handicaps received an education. These figures are national figures; figures are lower by disability for particular States. For example, in 30 States, less than 11 percent of all emotionally disturbed children are provided educational services.

It is impossible to justify these figures. Our charitable attitude toward the education of handicapped children would be rejected flatly if we were talking about any other group of children. The excuses that: "We do not have enough money," "we are extending our program so that we will be able to serve all children by," "we cannot cut into services we are providing to other children," and "there have been improvements in the last few years, and, if you just give us time" are clearly discriminatory.

The blunt truth behind these words is that too many of us are willing to condemn an entire generation of handicapped children to a life with no hope and no help. It is time for us to face up to the truth of this statement, to change our attitudes, to rid ourselves of the old myths and to begin dealing with realities. Handicapped children are children. They have the same rights as any other child to hope, to learn, and to be free. They happen to have disabilities that require certain kinds of treatment in order to be free. But in the final analysis they are children. We should be providing that treatment so that they can overcome their disabilities. And we should be providing them with services that will enable them to deal effectively with their living environment.

Adequate education services for the handicapped are available in certain schools and in certain classrooms throughout the United States. What is perhaps the most depressing, however, is that in the same city, even in the same school, you can observe classrooms in which it is obvious that the children are learning, that their disabilities are being treated, and that they are receiving education and training which will enable them to leave the school and go out into society more independently.

Yet, only a few blocks away, indeed, even a few classrooms away, the situation is the reverse. It would be perhaps a little easier to accept our failure to provide for these children if these contrasts were not so obvious and if so much could not be done. It also makes clear that the age-old arguments that our schools and institutions are not presently equipped to deal appropriately with handicapped children has no basis in fact. The schools and institutions can be changed and they must be changed. The courts are not listening to arguments of "convenience," and it is time that our public laws caught up with the courts.

Mr. President, we have made significant improvements in the education of handicapped children in the past few years, but these improvements are not enough. We have increased Federal assistance to the States for these purposes from $45 million 5 years ago to $215 million in the past fiscal year. But this has been token expenditure. Nowhere in our public law, in our public philosophy or in our budget figures do we find recognition for the right of all handicapped children to a free public education. It has been the courts who have forced us to this realization that we can delay no longer in making such a commitment.

The recent cases in Pennsylvania, Michigan, and the District of Columbia have made it absolutely clear that, if the States have in fact provided for the education of all children, they must provide an education for handicapped children. Those courts have ruled that it is up to the State to find the resources and the way to implement this challenge.

Mr. President, last May Senators MAGNUSON, RANDOLPH, and I introduced a bill which recognized that the Federal Government has a responsibility in this area which is no less than that of the States. This bill, S. 3614, provided a basic Federal commitment to assist the States and localities in providing a free and appropriate education for all handicapped children. By the time the Congress had adjourned, we were joined on this bill by 20 cosponsors, and received strong support from throughout the United States in favor of this bill. We are reintroducing this bill today on behalf of ourselves and other Senators, as a commitment to all handicapped children and their parents in the United States that their rights to a free and appropriate public education is recognized by the Congress.

Through this bill we recognize the responsibility of the States in this area. But in recognizing this responsibility we also are making a commitment to the States to assist them in providing this education. Under the bill, the Federal Government will underwrite 75 percent of the excess cost required in educating a handicapped child. This amount will be determined on the basis of the aggregate current expenditures for the education of handicapped children within the State divided by the number of handicapped children to whom the States are providing a free and appropriate education. The difference between this amount and the amount spent on a nonhandicapped child will be the State's excess cost. Thus, if the State is currently educating a handicapped child at a cost of $1,800, $1,000 of which is excess cost in a fiscal year, this bill would pay to that State $750. If in the following fiscal year, the State provides an education for two handicapped children at an excess cost of $1,000 per child, the bill would pay to the State $1,500. The State would be required to continue its full expenditure on both those children, but the bill would pay to the State $1,500 in order to extend its services to other handicapped children. The State however must guarantee that it will provide a free appropriate public education to all handicapped children by 1976.

In recognizing that the States have a responsibility to provide an education for handicapped children, the bill extends its commitment beyond the provision of financial assistance to the State to protection of the rights of handicapped children and their parents. I look on these provisions as key to providing a mechanism of oversight and accountability of the educational system. Too many cases have been brought to my attention where children have been improperly tested, excluded from schools, and improperly labelled. The result of this conduct has been great emotional hardship for the parents and children and requires the greatest of perseverance on the part of the parents to see that their children receive services appropriate to their special disability.

The costs of these mistakes are imposed fully on the child, and only somewhat less directly on the Public Treasury which has undertaken to provide appropriate services. I believe that we must allow discretion to the States and the localities in providing services in the way they deem fit. But I also believe that we must be sure that the services which we are paying for are appropriate to the needs of each child, and will provide that child with the best services that current knowledge can envision.

This bill therefore contemplates that the school system will set down its evaluation of the child in writing, the goals and objectives of educational services, the services to be provided, and the estimated time frame for reaching these goals and objectives. As a companion provision, the bill as a condition of eligibility for assistance requires the States to establish well-defined due process procedures if the school system contemplates a change in educational placement for the child and if the parents or guardian objects to such a change.

These requirements are nothing more than what is required if we are to implement the guarantees of the 14th amendment. They are nothing more than what our educational system ought to be providing right now, and what many are providing in an informal way. They are nothing more than what the courts have ordered the schools system to provide. And they are nothing less than what we should want for our children.

The education that this bill can make possible is going to cost money. It is hard to argue to the States that the Federal Government is serious about full educational opportunity when we are not willing to invest funds to make this goal a reality. If we are going to make a real commitment to free an appropriate education, and expect the States to carry through on this commitment, we will have to be willing to undertake the necessary expense. One study of education programs in five States in which have exemplary programs has indicated that the education of a handicapped child will cost on an average of 1.87 times as much as the education of a child who is not handicapped. At the very least this means that it will cost from $400 to $800 more for education if the child is handicapped. That study, done by Richard Rossmiller for the Bureau of Education for the Handicapped, estimated that the total cost of this education will be at least an additional $3 billion to State and local governments. That figure is a full 60 percent of all funds provided to the States last year under general revenue sharing.

If you consider the many other pressing fiscal needs within the States, and the constraints placed on the use of the revenue-sharing dollar for the area of education, it is clear that substantial Federal assistance to the States for the education of handicapped children is needed. That assistance is forthcoming in the bill I am introducing. Under this bill, estimated first year assistance will be in the neighborhood of $1.7 billion.

Yet, this expense is minimal compared to what it has cost this society to deny appropriate services and maintain handicapped children at a level which is far less than their potential. We must remember that these are children whose needs can be met, and who can be freed from the nuisances that are their disabilities. They are children who will go through the same pains and sufferings of growing up, as do your children and mine. Yet, the answers they often receive are not answers that we would give to our own children. They are not answers which our own children would accept, nor are they answers of which we can be proud in this Nation today. I believe that this bill provides a long needed answer to those questions. That answer must be that all children have the right to an education which meets their needs.

Mr. President, I ask unanimous consent that the text of the bill and a table explaining what this bill will mean to the States be printed following my remarks.

There being no objection the bill and table were ordered to be printed as follows:

### S. 6

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Education for All Handicapped Children Act."

#### STATEMENT OF PURPOSE

SEC. 2. (a) The Congress finds that

(1) there are more than seven million handicapped children in the United States today;

(2) close to 60 percent of these children do not receive appropriate educational services which would enable them to have full equality of opportunity;

(3) one million of these children are excluded entirely from the public school system and will not go through the educational process with their peers;

(4) the States have a responsibility to provide this education for all handicapped children; but are operating under increasingly constrained fiscal resources; therefore

(b) It is the purpose of this Act to insure that all handicapped children have available to them not later than 1976 a free appropriate public education, to insure that the rights of handicapped children and their parents or guardian are protected, to relieve the fiscal burden placed upon the States and localities when they provide for the education of all handicapped children, and to assess the effectiveness of efforts to educate handicapped children.

#### DEFINITIONS

SEC. 3. As used in this Act—

(1) the term "handicapped children" means mentally retarded, hard-of-hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled, or other health-impaired children, or children with specific learning disabilities who by reason thereof require special education, training and related services;

(2) the term "Commissioner" means the Commissioner of Education;

(3) the term "per pupil expenditure for handicapped children" means, for any State, the aggregate current expenditure during the fiscal year preceding the fiscal year for which the computation is made, of all local educational agencies in that State, plus any direct current expenditure by the State for the operation of any such agency for handicapped children, and the additional cost to the State or local educational agencies within that State for the provision of education to handicapped children in homes, institutions, and other agencies other than public elementary and secondary schools, divided by the aggregate number of handicapped children in attendance daily to whom such agency has provided free appropriate public education, and such expenditure shall not include any financial assistance received under the Education of the Handicapped Act the Elementary and Secondary Education Act of 1965, or any other Federal financial assistance;

(4) the term "per pupil expenditure for all other children" means, for any State, the aggregate current expenditure during the fiscal year preceding the fiscal year for which the computation is made, of all local educational agencies in that State, plus any direct current expenditure by the State for operation of any such agency for all other children not included in the determination made under paragraph (6) of this section, divided by the aggregate number of all other chil-

dren in attendance daily to whom such agency has provided free appropriate public education, and such expenditure shall not include any financial assistance received under the Elementary and Secondary Education Act of 1965, or any other Federal financial assistance;

(5) the term "free appropriate public education" means education, training and related services which shall be provided at public expense, under public supervision and direction and without charge, meeting the standards of the State educational agency, which shall provide an appropriate preschool, elementary, or secondary school education in the applicable State and which is provided in conformance with an individualized written program.

(6) the term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands;

(7) the term "State educational agency" means the State board of education or other agency or officer primarily responsible for the State supervision of public elementary and secondary schools, or, if there is no such officer or agency, an officer or agency designated by the Governor or by State law;

(8) the term "local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary or secondary schools, and such term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school; and

(9) The term "individualized written program" means a written educational plan for a child developed and agreed upon jointly by the local educational agency, the parents or guardians of the child and the child when appropriate, which includes (A) a statement of the child's present levels of educational performance, (B) a statement of the long-range goals for the education of the child, and the intermediate objectives related to the attainment of such goals, (C) a statement of the specific educational services to be provided to such child, (D) the projected date for initiation and anticipated duration of such services, and (E) objective criteria and evaluation procedures and schedule for determining whether intermediate objectives are being achieved.

### AUTHORIZATION

SEC. 4. (a) The Commissioner is authorized to make grants pursuant to this Act for the purpose of assisting the States in providing a free appropriate public education for handicapped children at the preschool, elementary and secondary school levels.

(b) There are authorized to be appropriated for the fiscal years beginnng July 1, 1973, and endng June 30, 1977, such sums as may be necessary for carryng out the purposes of this Act.

### BASIC GRANTS AMOUNT AND ENTITLEMENT

SEC. 5. (a) (1) From the sums appropriated pursuant to section 4 of this Act for each fiscal year each State is entitled to an amount which is equal to the amount by which the per pupil expenditure for handicapped children, aged three to twenty-one years, inclusive, exceeds the per pupil expenditure for all other children, aged five to seventeen years, inclusive, in the public elementary and secondary schools in that State, multiplied by the Federal share specified in section 8(a) (2) for each handicapped child for which the State is providing free appropriate public education during the current fiscal year. Funds so allotted shall be used by the State to initiate, expand and improve educational services for handicapped children in conformance with a State plan.

(2) The per pupil expenditure for handicapped children, aged three to twenty-one years, inclusive, and the per pupil expenditure for all other children, aged five to seventeen years, inclusive, in any State shall be determined by the Commissioner on the basis of the most recent data available to him.

(b) The portion of any State's entitlement under subsection (a) for a fiscal year which the Commissioner determines will not be required, for the period such entitlement is available, for carrying out the purposes of this Act shall be available for reallotment from time to time, on such dates during such period as the Commissioner may fix, to other States in proportion to the original entitlements to such States under subsection (a) for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum which the Commissioner estimates such State needs and will be able to use for such period for carrying out such portion of its State plan approved under this Act, and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts are not so reduced. Any amount reallotted to a State under this subsection during a year shall be deemed part of its entitlement under subsection (b) for such year.

### ELIGIBILITY

SEC. 6(a). In order to qualify for assistance under this Act in any fiscal year, a State shall demonstrate to the Commissioner that the following conditions are met.

(1) A State has in effect a policy that assures all handicapped children the right to a free appropriate public education.

(2) The State has a plan which details the procedures and implementation strategies for ensuring that a free appropriate public education will be available for all handicapped children within the State not later than 1976, and which includes a detailed timetable for accomplishing such a goal, and the necessary facilities, personnel, and services.

(3) The State has made adequate progress in meeting the timetable of its plan.

(4) Each local educational agency in the State will maintain an individualized written program for each handicapped child and review at least annually and amend when appropriate with the agreement of the parents or guardian of the handicapped child; that in the development of the individualized written program, parents or guardian are afforded due process procedures which shall include (A) prior notice to parents or guardian of the child when the local or State educational agency proposes to change the educational placement of the child, (B) an opportunity for the parents or guardian to obtain an impartial due process hearing, examine all relevant records with respect to the classification or educational placement of the child, and obtain an independent educational evaluation of the child and, (C) procedures to protect the rights of the child when the parents or guardian are not known, unavailable or the child is a ward of the State, including the assignment of an individual, not to be an employee of the State or local educational agency involved in the education or care of children, to act as a surrogate for the parents or guardian; and that when the parents or guardian refuse to agree to the provisions of the individualized written program that the decisions rendered in the impartial due process hearing are binding on all parties pending appropriate administrative or judicial appeal.

(5) Tests and other evaluation procedures utilized for the purpose of classifying children as handicapped are administered so as not to be racially or culturally discriminatory.

(6) To the maximum extent appropriate, handicapped children, including children in public or private institutions or other care facilities, are educated with children who are not handicapped, and that special classes, separate schooling, or other removal of handicapped children from the regular educational environment occurs only when the nature or severity of the handicap is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(7) An advisory panel broadly representative of individuals involved or concerned with the education of handicapped children, including teachers, parents or guardian of handicapped children, administrators of programs for handicapped children, and handicapped individuals, has (A) advises the State educational agency of unmet needs within the State in the education of handicapped children, (B) assists the State educational agency in determining priorities within the State for educational services for handicapped children; (C) reviews the State plan and reports to the State educational agency and the public on the progress made in the implementation of the plan and recommends needed amendments to the plan, (D) comments on any rules or regulations proposed for issuance by the State regarding the education of handicapped children and the procedures for distribution of funds under this Act, and (E) assists the State in developing, conducting and reporting the evaluation procedures required under section 7 of this Act.

(8) To the extent consistent with the number and location of handicapped children in the State who are enrolled in private elementary and secondary schools, provisions is made for the participation of such children in the program assisted or carried out under this Act.

(9) Federal funds made available under this Act will be so used as to supplement and increase the level of State and local funds expended for the education of handicapped children and in no case supplant such State and local funds.

(10) The State educational agency will be the sole agency for administering or supervising the preparation and administration of the State plan, and that all educational programs for handicapped children within the State will be supervised by the persons responsible for educational programs for handicapped children in the State educational agency and shall meet educational standards of the State educational agency.

(11) The State has identified all handicapped children with the State and maintains a list of the local educational agency within the State responsible for the education of each such child (whether the child remains in the area served by the local educational agency or is sent out of the jurisdiction for services), the location of the child, and the services the child receives.

(b) Any State meeting the eligibility requirements set forth in subsection (a) and desiring to participate in the program under this Act shall submit to the Commissioner and at such time, in such manner, and containing or accompanied by such information as he deems necessary. Each such application shall——

(1) set forth programs and procedures for the expenditure of the funds paid to the State under this application, either directly or through individual local educational agencies or combinations of such agencies to initiate, expand, or improve programs and projects, including preschool programs and projects, which are designed to meet the educational needs of handicapped children throughout the State;

(2) provide satisfactory assurance that the control of funds provided under this Act, and title to property derived therefrom, shall be in a public agency for the uses and purposes provided in this Act, and that a public agency will administer such funds and property;

(3) provide for (A) making such reports in such form and containing such information, as the Commissioner may require to carry out his functions under this Act, including reports of the objective measurements required by paragraph 9 of subsection (A) and (B) keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports and proper disbursement of Federal funds under this Act;

(4) provide satisfactory assurance that such fiscal control and fund accounting procedures will be adopted as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid under this Act to the State, including any such funds paid by the State to local educational agencies;

(5) provide for procedures for evaluation at least annually of the effectiveness of programs in meeting the educational needs of handicapped children, in accordance with such criteria that the Commissioner shall prescribe pursuant to section 7.

(c) The Commissioner shall approve an application and any modification thereof which—

(1) is submitted by an eligible State in accordance with subsection (a);

(2) complies with the provisions of subsections (b);

(3) provides for the distribution of funds under this Act in such a way which reflects the relative percentage contribution within each State of funds spent within the State on education of handicapped children by State and local educational agencies; and

(4) provides that the distribution of assistance under this Act within each State is made on the basis of consideration of (A) the relative need for special educational services in certain geographical areas within the State as developed under the State plan, and (B) the relative need for special educational services for certain subgroups of the population of handicapped children within the State as developed under the State plan. The Commissioner shall disapprove any application which does not fulfill all such conditions, but shall not finally disapprove a State application except after reasonable notice and opportunity for a hearing to the State.

(d) As soon as practicable after the enactment of this Act, the Commissioner shall prescribe basic criteria to be applied by State agencies in submitting an application for assistance under this Act. In addition to other matters, such basic criteria shall include—

(1) uniform criteria for determining the handicapped children to be served;

(2) uniform criteria to be used by the State in determining categories of expenditures to be utilized in calculating State and local expenditures for the education of handicapped children.

EVALUATION AND REPORTING

SEC. 7. (a) The Commissioner shall measure and evaluate the impact of the program authorized under this Act, and shall submit annually to the Congress a report on progress being made toward the goal of making available to all handicapped children a free appropriate public education by 1976. Such report shall include a detailed evaluation of the education programs provided in accordance with individualized written programs, and shall include an evaluation of the success or failure of the State and local educational agencies to meet the long-range goals and intermediate objectives for education, to deliver specific services detailed in the individualized written program and to comply with the projected timetable for the delivery of such services.

(b) The Commissioner shall also include in the report required by subsection (a)—

(1) an analysis of the procedures undertaken by each State to insure that handicapped children are to the maximum extent appropriately educated with children who are not handicapped, pursuant to paragraph (6) of subsection (a) of section (6) of this Act;

(2) an evaluation of the State's procedures for the institutionalization of handicapped children, including classification and commitment procedures, services provided within institutions, and an evaluation of whether institutionalization best meets the educational needs of such children; and

(3) recommended changes in provisions under this Act, and other Acts which provide support for the education of handicapped children which will encourage education of such children in public preschool, elementary, and secondary schools where appropriate and improve programs of instruction for handicapped children who require institutionalization.

PAYMENTS

SEC. 8. (a) (1) The Commissioner shall pay to each State from its allotment determined pursuant to section 3, an amount equal to its entitlement under that section.

(2) (A) From funds paid to it pursuant to paragraph (1) each State educational agency shall distribute to each local educational agency of the State the amount for which its application has been approved except that the aggregate amount of such payment in any State shall not exceed the amount allotted to that State pursuant to section 5(a).

(B) To the extent that any State in which the State educational agency is wholly or partially providing free appropriate public education for handicapped children, the provisions of subparagraph (A) of this paragraph shall not apply.

(b) For each fiscal year the Federal share shall be 75 per centum.

(c) (1) The Commissioner is authorized to pay to each State amounts equal to the amounts expended for the proper and efficient performance of its duties under this Act, except that the total of such payments in any fiscal year shall not exceed—

(A) 1 per centum of the total of the amounts of the grants paid under this Act for that year to the State educational agency; or

(B) $75,000, or $25,000 in the case of the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, or the Trust Territory of the Pacific Islands, whichever is greater.

(2) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subsection.

(d) Payments under this Act may be made in advance or by way of reimbursement and in such installments as the Commissioner may determine necessary.

WITHHOLDING

SEC. 9. Whenever the Commissioner, after reasonable notice and opportunity for a hearing to any State educational agency, finds that there has been a failure to comply substantially with any provision of section 6, the Commissioner shall notify the agency that payments will not be made to the State under this Act (or, in his discretion, that the State educational agency shall not make further payments under this Act to specified local educational agencies whose actions or omissions caused or are involved in such failure) until he is satisfied that there is no longer any such failure to comply. Until he is so satisfied, no payments shall be made to the State under this Act, or payments by the State educational agency under this Act shall be limited to local educational agencies whose actions did not cause or were not involved in the failure, as the case may be.

TABLE I: EXCESS COST ESTIMATES BY STATE AND ESTIMATED GRANTS TO STATES UNDER WILLIAMS BILL, S. 6

| State | Estimated average pupil expense for handicapped children | Excess cost for handicapped children | Handicapped aged 0-21 served | Percent handicapped children served | Total cost excess | 75 percent excess cost Williams bill |
|---|---|---|---|---|---|---|
| Alabama | $948 | $474 | 22, 384 | 20 | $10, 610, 016 | $7, 957, 512 |
| Alaska | 2, 122 | 1, 061 | 1, 975 | 37 | 1, 989, 375 | 1, 592, 032 |
| Arizona | 1, 362 | 681 | 12, 678 | 32 | 8, 633, 718 | 6, 475, 288 |

By Mr. RANDOLPH (for himself, Mr. CRANSTON, Mr. STAFFORD, Mr. WILLIAMS, Mr. JAVITS, Mr. TAFT, Mr. KENNEDY, Mr. MONDALE, Mr. PELL, Mr. STEVENSON, and Mr. EAGLETON):

S. 7. A bill to amend the Vocational Rehabilitation Act to extend and revise the authorization of grants to States for vocational rehabilitation services, to authorize grants for rehabilitation services to those with severe disabilities, and for other purposes. Referred to the Committee on Labor and Public Welfare.

### THE REHABILITATION ACT

Mr. RANDOLPH. Mr. President, in October of last year the Congress passed H.R. 8395; the Rehabilitation Act of 1972. The Rehabilitation Act of 1972 received extensive hearings in both the Senate and House of Representatives. Committees of both Houses gave careful and thorough consideration to its provisions in executive sessions. This measure was approved by a vote of 70 to 0 in the Senate and 327 to 0 in the House of Representatives. As I then stated, this bill represents a close cooperative bipartisan effort of many Senators and Representatives from both parties. On the Senate side in particular, the very able Senator from California (Mr. CRANSTON) who chaired the hearings and was floor manager for the bill; the Senator from Vermont (Mr. STAFFORD); ranking minority member of the subcommittee; the Senator from New Jersey (Mr. WILLIAMS) chairman of the Committee on Labor and Public Welfare; the Senator from New York (Mr. JAVITS), and the Senator from Ohio (Mr. TAFT) all contributed significantly in the development of this important humanitarian legislation.

In spite of the overwhelming bipartisan support for this measure the President refused to sign it into law. He issued a memorandum of disapproval after the Congress had adjourned, thus killing the bill by a pocket veto.

Today, Mr. President, as chairman of the Senate Subcommittee on the Handicapped, I introduce on behalf of myself and Senators CRANSTON, STAFFORD, WILLIAMS, JAVITS, TAFT, KENNEDY, MONDALE, PELL, EAGLETON, and STEVENSON, a bill which is identical to the vetoed act. A bill that was sound in October continues to be sound in January. Based on the President's memorandum of disapproval I can see no justification for changing the measure.

At this point it is my intention to discuss each argument presented in the President's memorandum of disapproval, in the hope that he will be persuaded to join the Congress in support for this important improvement in programs for handicapped people.

First, the memorandum offers the premise that the measure "would seriously jeopardize the goals of the vocational rehabilitation program and is another example of congressional fiscal irresponsibility." No serious student of the Federal-State vocational rehabilitation program would accept the idea that the Rehabilitation Act of 1972 would in any way jeopardize the goals of the program. On the contrary careful effort was expended to assure that the measure would positively improve the program in all respects. Nor is the allegation of "fiscal irresponsibility" supported by the facts. I will discuss this issue a little later in these remarks.

Second, the memorandum states that the bill's provisions "would divert this program from its basic vocational objectives into activities that have no vocational element whatsoever or are essentially medical in character." The primary focus of the existing program is vocational rehabilitation. It is the focus of the Rehabilitation Act of 1973 as well. In fact, it is the intention of the new Act to strengthen the program's ability to meet these vocational objectives. The only non-vocational approach in the bill is title II. Appropriations of $30 million are authorized for this purpose in fiscal year 1973, compared with the vocationally oriented program authorization of $800 million in the same fiscal year. This could hardly be considered a diversion from vocational objectives.

The President's objection relates to a diversion to activities which are "essentially medical in character." I assume this refers to the $25 million per year emergency program for individuals suffering from endstage renal disease. There is currently no Federal program to assist such persons. Because of a lack of funds, some 5,000 to 8,000 people die in this country each year. Their deaths could be prevented by the provision of Federal assistance. No insurmountable technological hurdle stands in the way. It is shocking to me that such a circumstance should exist in America today. In the absence of a viable legislative alternative to this provision, I will fight to retain it in this legislation.

Third, the President believes the bill would "proliferate a host of narrow categorical programs which duplicate and overlap existing authorities and programs." It cannot be denied that the Rehabilitation Act contains a number of categorical programs—services to older blind individuals, rehabilitation centers for the deaf and deaf-blind, and centers for spinal cord injured individuals. These are categories which the Congress after careful study determined are needful of special attention. These provisions are designed to serve special populations of handicapped individuals who have not been adequately served in the past.

There is no duplication or overlap contemplated. Proper administration and coordination can prevent duplication and overlap with respect to programs.

The President's message continues:

> Such provisions serve only to dilute the resources of the vocational rehabilitation program . . .

It is difficult to understand how any of the programs contemplated in the Rehabilitation Act could dilute any of the others. More specifically, the basic programs of vocational rehabilitation services are separately funded—both under the existing Vocational Rehabilitation Act and the new proposal. The categorical programs referred to by the President are related to the basic program only to the extent that they are administered by the same Federal and State agencies. Funding is separately authorized and appropriated.

The President's memorandum states that the Rehabilitation Act "would create organizational rigidities—which could undermine the ability of the Secretary of HEW to manage the program effectively." Since the President does not explain his objection, I must assume that he refers to the statutory authority for, and independence of, the Rehabilitation Services Administration and the creation of an Office for the Handicapped. The Secretary has enjoyed full flexibility in the past to organize the vocational rehabilitation program. In recent years, emphasis on other programs has resulted in the deemphasis of vocational rehabilitation. Under the late Mary Switzer the Rehabilitation Services Administration flourished, with a personnel force of about 400. Today the RSA, as an appendage of the Social and Rehabilitation Service, employs some 160 persons, clearly inadequate to the tasks assigned it. If the potential of the rehabilitation program is to be realized, it must have the attention and the resources to perform its functions. Additionally, RSA currently performs an inadequate effort in research and development programs. This is an aspect of rehabilitation in which the United States has fallen behind other nations. Such inadequacies must not continue. The Rehabilitation Act is a step in the right direction. The Congress in approving this act determined as a matter of policy that more emphasis must be placed on rehabilitation by the Federal Government, and that the only way to assure that emphasis is to give RSA a statutory basis and to outline some of its duties by law.

The new legislation also creates an Office for the Handicapped within the Office of the Secretary of HEW. Congress believes this to be highly desirable so that all 38 programs for the handicapped in HEW may be coordinated and some overall direction in such programs may be developed. The primary function of the new Office would be to provide information to, and receive it from, the handicapped and rehabilitation communities, as well as to other Federal agencies. These functions do not now exist and would be valuable additions to the Federal effort to prevent duplication of program activity and to assist handicapped individuals.

The President's memorandum states that—

> The bill also would establish numerous committees and independent commissions which are unnecessary, would waste the taxpayers' dollars, and would complicate and confuse the direction of this program.

The Rehabilitation Act of 1972, and the measure I introduce today, would establish the following: a Federal Interagency Committee on Handicapped Employees, a National Advisory Council on Rehabilitation of Handicapped Employees, a National Commission on Transportation and Housing, and an Architectural and Transportation Barriers Compliance Board. All these new offices, save one, are designed to fill voids which now exist. Handicapped people encounter difficulties in Federal employment with respect to hiring, placement, advancement, and in having their special requirements recognized by Federal officials. Many of these problems stem from ignorance of the handicapped person's needs as well as of his abilities. The committee's function is to assure that qualified handicapped individuals are hired by the Federal Government, and that they are given the same opportunities in Federal service as those without handicaps.

The National Advisory Council merely replaces a similar existing council and gives it a more meaningful role. The National Policy and Performance Council, no longer considered to be essential, has been eliminated in the new legislation.

The National Commission on Transportation and Housing and the Architectural and Transportation Barriers Compliance Board have interrelating functions. The former is a study commission while the later will utilize information developed by the Commission in recommending new legislation and administrative changes. The Compliance Board will also investigate violations of, and insure compliance with, standards established under the Architectural Barriers Act of 1968. That act has not been enforced to this point, and it must be if handicapped individuals are to have access to the same extent as those who have no handicapping conditions.

Finally, the President states that—

> The bill would authorize funding far in excess of the budget request and far beyond what can be made available and used effectively.

This is perhaps the most serious misstatement contained in the memorandum of disapproval.

It is true that the Rehabilitation Act of 1972 proposed appropriation levels are above the budget request for fiscal year 1973. Yet the total authorization levels for that year are only a little higher than the fiscal year 1972 authorization under the existing Vocational Rehabilitation Act. Under the new act, it is also true that authorizations will increase. Such increases are, however, absolutely essential to the development of the rehabilitation program. Today, only about 1 million of the estimated 7 to 12 million handicapped persons in America who could be rehabilitated have been touched by the existing vocational rehabilitation program. What of the other 6 to 11 million people who desperately need the assistance contemplated by this program?

The unfilled hopes and expectations of handicapped individuals across our land can be translated into loss of tax revenues and drains on State and Federal treasuries for welfare payments. It has been estimated that every dollar expended on vocational rehabilitation results in a benefit equal to $35. Where else in the Federal Government could such a fabulous cost-benefit ratio be demonstrated? Rehabilitation dollars are perhaps the most valuable of all the dollars spent by the Federal Government today. To chop this program down is not only merciless, it is borne of a philosophy that can only be described as pennywise and pound foolish.

It is my hope that there will be early congressional approval of this new Rehabilitation Act. The distinguished Senator from California (Mr. CRANSTON) who worked so diligently and effectively for this measure last year will begin Handicapped Subcommittee hearings on this bill in the very near future.

Mr. President, I ask unanimous consent that the Senate-House conference committee statement of last year, the President's veto message, and the measure I am introducing today be printed at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

### JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 8395) to amend the Vocational Rehabilitation Act to extend and revise the authorization of grants to States for vocational rehabilitation services, to authorize grants for rehabilitation services to those with severe disabilities, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment strikes out all of the House bill after the enacting clause and inserts a substitute. The House recedes from its disagreement to the amendment of the Senate, with an amendment which is a substitute for both the House bill and the Senate amendment. The differences between the House bill and the Senate amendment and the substitute agreed to in conference are noted in the following outline, except for incidental changes made necessary by reason of agreements reached by the conferees and minor and clarifying changes.

### DECLARATION OF PURPOSE

A number of purposes in the Senate amendment were not included in the House bill. The conferees added and amended such purposes to the conference bill to conform to the provisions of the Act as agreed to.

### REHABILITATION SERVICES ADMINISTRATION

Both the House bill and the Senate amendment established a Rehabilitation Services Administration in the Department of Health, Education, and Welfare. The House bill provided that the Administration shall be the principal agency in the Department for carrying out and administering programs and performing services related to the rehabilitation of handicapped individuals, as authorized under the Act. The Senate amendment provided that the Commissioner of the Administration shall carry out and administer all programs and direct the performance of all services for which authority is provided to the Secretary of HEW under the Act. The conference agreement adopts the provision of the Senate amendment, except that reference to the Secretary's authority is deleted throughout titles I through IV.

The Senate amendment, but not the House bill, established within the Rehabilitation Services Administration a Division of Research, Training, and Evaluation to administer title IV of the Act. The Senate amendment, but not the House bill, established within the Division of Research, Training, and Evaluation a Center of Technological Assessment and Application which is responsible for developing and supporting innovative methods of applying technology to resolve rehabilitation problems including the administration of Rehabilitation Engineering Research Centers. The conference report adopts the provisions of the Senate amendment on both these matters. The Senate amendment also increased the number of certain personnel positions authorized by the Rehabilitation Services Administration. The conference agreement retained the Senate provisions with an amendment that the Assistant Commissioner be responsible to the Commissioner and that such Assistant Commissioner be of outstanding "scientific and technical" rather than "medical or technical" as in the Senate amendment qualifications.

### *Joint funding*

Both the House bill and the Senate amendment provided for joint funding of rehabilitation projects. The provisions differed in the following ways:

The House bill provided that any one Federal agency providing funds may be designated to act for all participating agencies, whereas the Senate amendment required the administering agency to be the Federal agency principally involved. The House recedes.

The Senate amendment, but not the House bill, authorized joint funding to the extent consistent with other provisions of this Act. The House recedes.

The House bill, but not the Senate amendment, allowed a single non-Federal share requirement for projects being jointly funded. The Senate recedes.

The House bill, but not the Senate amendment, authorized a waiver of inconsistent technical grant or contract requirements where a project is being jointly funded. The conference report adopts a provision somewhat comparable to a House provision under which, when the principal agency involved is the Rehabilitation Services Administration, it may waive any grant or contract requirement, as defined by the presidential regulations, under any law other than this Act if the requirement is inconsistent with similar requirements of the administering agency under this Act.

### DEFINITIONS

The Senate amendment defined the term "criminal act" and the term "public safety officer," which are terms used in the Senate amendment in provisions describing services to be provided under the State plan for vocational rehabilitation. The conference substitute includes these provisions of the Senate amendment.

The House bill contained a definition of "evaluation and work adjustment services." The Senate amendment contained a definition for "evaluation of rehabilitation potential" which was similar, except that a provision was added requiring that once in every 90-day period an assessment be made to determine if the individual undergoing evaluation is eligible to receive rehabilitation services as a handicapped individual.

Both the House bill and the Senate amendment provided the same Federal share for the basic program (80 percent) and for construction of rehabilitation facilities. Federal shares for other programs in the House bill were prescribed in individual sections. The Senate amendment defined the term "Federal share" for the entire act (meaning 85 percent, except where otherwise provided). The conference agreement provides for the 80 percent share for the basic program except that "Federal share" shall mean 90 percent for the purposes of part C (Innovation and Expansion Grants) of title I and for title II.

The term "rehabilitation facility" is similarly defined in both the House bill and the Senate amendment, except that the Senate amendment includes in the list of provisions to be provided in such facilities orientation and mobility services to the blind. The conference substitute retains this provision.

Both the House and the Senate amendment use the term "severely handicapped individual", but defined such term in different ways in the two versions. The conference substitute drops the use of this term entirely and refers instead to handicapped individuals with "the most severe handicaps". The term "severe handicap" is defined in the conference substitute to mean a disability which requires multiple services over an extended period of time resulting from blindness, cancer, cerebral palsy, cystic fibrosis, deafness, heart disease, hemiplegia, respiratory or pulmonary dysfunction, mental retardation, multiple sclerosis, muscular dystrophy, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia and other spinal cord conditions, renal failure, and any other disability, specified by the Commissioner in regulations he shall prescribe. Individuals who are not handicapped are not eligible for services. Departmental regulations have allowed individuals without handicaps to receive services under this program by characterizing such individuals as having "behavioral disorders." The Conferees wish to make clear that such individuals in the absence of a physical or mental disability shall not be eligible for services under this Act.

The Senate amendment but not the House bill included Indian tribal organization under the definition of "local agency." The House receded.

The term "handicapped individual" was defined in the Senate amendment to mean an individual with physical or mental disability which *for such individual* constitutes *or results in a substantial* handicap to employment. The House definition did not contain the italicized words. The conference substitute retains the Senate provision with a modification to specify that eligibility for comprehensive rehabilitation services—for a nonvocational goal—is tied to services provided under titles other than title I.

### CONSOLIDATED REHABILITATION PLAN

The House bill provided that a State could submit a consolidated rehabilitation plan for its programs for vocational rehabilitation services, evaluation of rehabilitation potential, the severely handicapped and persons with developmental disabilities. There was no comparable Senate provision. The Senate recedes with amendments in conformance with agreements made in other parts of the Act, and with the following amendments:

(1) The agency administering the Developmental Disabilities Service and Facilities Construction Act must agree to the consolidated plan;

(2) The Secretary of Health, Education, and Welfare may reject any consolidated plan; and

(3) The 10 percent transferability of appropriated funds is deleted.

### AUDIT

Section 8 of the Senate amendment required grant recipients to keep such records as the Secretary may prescribe, including amounts and disposition of funds received, and other records to facilitate an effective audit. The section authorized access by the Secretary and Comptroller General to any books or records pertaining to such grants. The House had no comparable provision. The House recedes.

### NONDUPLICATION

The House bill, with respect to comprehensive services, and the Senate amendment with respect to the basic program, required that in determining the amount of a State's Federal share there shall be disregarded any portion of such expenditures which are financed by Federal funds and the amount of non-Federal funds required as a condition of receipt of such Federal funds. The conference substitute adopts both provisions and adds a third provision taken from several other provisions of both the House bill and Senate amendment which provides that no payment may be made from funds provided under one provision of the Act relating to any cost with respect to which any payment is made under any other provision of the Act.

## VOCATIONAL REHABILITATION SERVICES

### GENERAL PROVISIONS

### *Declaration of purpose; authorization of appropriations*

The House bill states that it is the purpose of the title to authorize grants to meet the needs of handicapped individuals, so that such individuals may prepare for and engage in gainful employment to the extent of their capabilities. The Senate recedes.

Under the conference substitute, there is authorized to be appropriated $800,000,000 for fiscal year 1973 and $975,000,000 for fiscal year 1974 to assist States in meeting the costs of vocational rehabilitation services and the cost of carrying out the State's plan for vocational rehabilitation services. The comparable authorizations in the House bill were $800,000,000 for fiscal year 1973, $950,000,000 for fiscal year 1974, and $1,100,000,000 for fiscal year 1975. The Senate amendment provided authorizations in one lump sum amount for both handicapped individuals and severely handicapped individuals (those for whom the provision of services is more costly and of longer duration) regardless of whether such individuals can have an employment objective. It provided that 15 percent of the amount appropriated must be used for services to the severely handicapped. The amount authorized to be appropriated by the Senate amendment was $900,000,000 for fiscal year 1973 and $1,150,000 for fiscal year 1974.

### *State plans*

Both the House bill and the Senate amendment required as a condition for the receipt of funds that a State plan be submitted. Under the House bill the plan related to the provision of vocational rehabilitation services while the provision of comprehensive rehabilitation services for the severely handicapped was controlled by a separate State plan. Under the Senate amendment the State plan which was required to be submitted annually, controlled the provision of both vocational rehabilitation services and comprehensive rehabilitation services. The conference substitute adopts the approach of the Senate amendment.

The following are the particular differences between the State plan provisions in the two versions of the bill:

(1) The House bill would permit the required matching funds to be provided only by the State and its political subdivisions while the Senate amendment would permit matching funds to be provided by the State and by "local agencies", as defined in section 7(8).

(2) The Senate amendment required the State plan to show how it proposes to expand and improve services to severely handicapped individuals. It further provided that if voca-

tional and comprehensive rehabilitation services could not be provided to all eligible persons, the plan must show the order to be followed in selecting those to whom such services will be provided and the outcome and service goals, and the time within which they may be achieved, for the rehabilitation of such individuals. The order of selection was required to place special emphasis on severely handicapped individuals, and could not be inconsistent with priorities for these matters established by regulations of the Secretary. The House bill contained no comparable provision. The conference substitute follows the Senate amendment, but with the following modifications: First, here and elsewhere in the report references to "severely handicapped individuals" is changed to "individuals with the most severe handicaps", thus conforming to the change in definition provided for in the definition section. Second, the requirement that an order of selection be shown is made to apply only to the provision of vocational rehabilitation services. Third, the requirement with respect to what must be included in the order of selection is modified to require that the order of selection be determined on the basis of serving first those individuals with the most severe handicaps and that such order must be consistent with priorities in such order of selection (which shall require serving first those with the most severe handicaps) established in regulations of the Commissioner. By providing that those with the most severe handicaps be first served, the conferees do not intend that handicapped individuals whose handicaps are not the most severe be excluded from receiving services.

(3) The Senate amendment required that the State plan provide assurances that no comprehensive rehabilitation services will be paid for unless maximum efforts have been made to secure grant assistance, in whole or in part, from other sources to pay for such services. The House bill contained no comparable provision. The conference substitute retains in a different clause the provision of the Senate amendment.

(4) Both the House bill and the Senate amendment required the State plan to contain provisions relating to the establishment and maintenance of personnel standards. The Senate amendment, but not the House bill, required such standards to be consistent with State licensure laws and regulations. This requirement is retained in the conference substitute.

(5) The House bill required the State plan to provide for evaluation of rehabilitation potential, counseling and guidance, personnel and vocational adjustment, training, maintenance, physical restoration, placement, follow-up and follow-along services. The Senate amendment requirement that the plan provide, at a minimum, for the provision of the type of vocational rehabilitation services referred to in the first three paragraphs of section 103(a) (relating to the scope of vocational rehabilitation services). The conference substitute adopts the provision of the Senate amendment.

(6) The House bill provided that services other than those referred to in the preceding paragraph may be provided only after full consideration of eligibility for any similar benefit by way of pension, compensation, and insurance. The comparable provision of the Senate amendment provided that services other than those referred to in the preceding paragraph may be provided only after full consideration of eligibility for similar benefits under any other program, but provides an exception in the case of services specified in clauses (4) and (5) of section 103(a) where such consideration would delay the provision of such services to any individual. The conference substitute adopts the Senate amendment provision.

(7) The Senate amendment required the inclusion in the State plan provisions relating to administration of a provision for the establishment of a client advocacy system as required by section 112. This provision of the Senate amendment is not included in the conference substitute.

(8) The Senate amendment provided that an individualized written rehabilitation program (required by section 102) must be developed for each handicapped individual and that vocational and comprehensive rehabilitation services be provided under the plan in accordance with such program. There was no comparable House provision. The conference report retains this provision with the addition of a requirement that records of the characteristics of each applicant will be kept specifying, as to those individuals who apply for services under this title or pursuant to title II and are determined not to be eligible therefor, the reasons for such determinations.

(9) Under the House bill State agencies were required to make such reports in such form and containing such information as the Secretary may require. The Senate amendment contained the same provision and also specified that the State agencies' reports must specifically include periodic estimates of the population of handicapped individuals eligible for services under the Act, specifications of the number of such individuals who will be served, and the outcome and service goals to be achieved for such individuals in each priority category established as required in the earlier provisions of this section, and the service costs for each category. The conference substitute adopts the Senate provision, and, in addition, the information required in the new provision referred to in the preceding paragraph must be included in such reports.

(10) Both versions of the bill required the State agency to enter into cooperative arrangements with other governmental agencies. The Senate amendment, unlike the House bill, made specific references to veterans' programs and to the Veterans' Administration. This provision of the Senate amendment is retained in the conference substitute.

(11) The Senate amendment required the plan to give assurances that in the provision of vocational rehabilitation services under the program maximum use will be made of public and other vocational or technical training facilities or other appropriate resources in the community. The House bill contained no comparable provision. The House recedes.

(12) The Senate amendment contained a requirement, which had no counterpart in the House bill, which required that special consideration be given to the rehabilitation of handicapped individuals whose handicapping conditions arose from a disability sustained in the line of duty while such individual was performing as a public safety officer and the proximate cause of such disability was an apparent criminal act or a hazardous condition resulting from the officer's performance of duty in direct connection with the enforcement, execution, and administration of law or fire prevention, firefighting, or related public safety activities. The conference substitute retains this provision.

(13) The Senate amendment required statewide studies of the needs of handicapped individuals and of how these needs may best be met, with a view toward the relative need for services to significant segments of the population of handicapped individuals. There was no House provision. The House recedes.

(14) The Senate amendment required the State plan to provide for periodic review and reevaluation of individuals placed in extended employment to determine the feasibility of their employment, or training for employment in the competitive labor market, and that maximum efforts be made to place such individuals in such employment or training. There was no comparable House provision. The conference report retains this requirement.

(15) The Senate amendment, unlike the House bill, contains in its provisions requiring consultation in the administration of the State plan the requirement that the views of groups, as well as of individuals and of parents and guardians of clients, be taken into account. This requirement is retained in the conference agreement.

(16) The House bill required the plan to provide for subsequent program evaluation, contain a clear statement of the goals of the services to be provided, and that these goals be listed in order of priority, and stated as much as possible in a form amenable to quantification. The comparable Senate provision required satisfactory assurances that such continuing studies, as well as annual evaluations of program effectiveness will form the basis for submission from time to time of appropriate amendments to the plan. The conference report follows the Senate provision.

Both versions require approval of the State plan, but the Senate amendment requires that before disapproving a plan the State shall be given notice and reasonable opportunity for a hearing. This provision is retained in the conference substitute.

The Senate amendment, unlike the House bill, permits the payments under the State plan to be reduced rather than discontinued where the plan is changed without compliance with the Act, or where there is a failure to comply with provisions of the plan. The conference substitute retains this provision.

### *Individualized written rehabilitation program*

The Senate amendment required the Secretary to insure that the individualized written rehabilitation program required under section 101 be developed jointly by the handicapped individual and the vocational rehabilitation counselor or coordinator. This understanding should include a statement of goals and other stated requirements. The individual shall be afforded an opportunity to review his program annually and renegotiate its terms. Subsection (c) of section 102 required the written program to emphasize a vocational goal or objective for the individual, and where it is determined that no such goal can be met, safeguards are required to insure that such a determination is absolutely necessary. Such a determination must be reviewed at least once each year. There were no comparable House provisions. This provision is retained in the conference report.

### *Scope of vocational rehabilitation services*

The House bill dealt with the type of services that can be provided under the title through a definition of "vocational rehabilitation services" which lists the services which may be provided. The Senate amendment in this section provided that vocational rehabilitation services provided under the Act are goods and services necessary to render a handicapped individual employable. It goes on to provide that such goods and services include, but are not limited to, goods and services subsequently described. The provision of the Senate amendment are adopted in the conference report.

The differences between the House description of the services to be provided and the Senate list (and the conferee actions) are the following:

(1) The Senate amendment includes in the description of evaluation services, examination, where appropriate, by a physician skilled in the diagnosis and treatment of emotional disorders, or by a licensed psychologist. The House recedes.

(2) The House bill and the Senate amendment both included counseling, guidance, and placement services. The Senate amendment also included referral and client advocacy services. Referral services are included in the conference substitute but client advocacy services were rejected.

(3) The House bill includes training services for handicapped individuals (including

personal and vocational adjustment, books, and other training materials). The Senate amendment added services to the families of handicapped individuals which are necessary to the adjustment and rehabilitation of such individuals. It also provided that no training services could be provided in institutions of higher education unless maximum efforts have been made to secure grant assistance from other sources to pay for such training. The conference substitute adopts the Senate provisions.

(4) Both bills included restoration services. The House bill refers only to physical restoration services while the Senate amendment refers to both physical and mental restoration services. Further, the Senate amendment includes diagnosis and treatment for mental and emotional disorders by a physician or licensed psychologist. The Senate amendment unlike the House bill includes transportation and dialysis among the special services which are available for renal diseases. In each of these respects the conference substitute includes the Senate provision.

(5) The Senate amendment lists rehabilitation teaching services and orientation and mobility services for the blind, and telecommunications, sensory and other technological aids and devices. These services are not referred to in the House bill. They are included in the conference substitute.

## TITLE I—BASIC VOCATIONAL REHABILITATION SERVICES

### *State allotments*

Both bills contain formula for allotting funds for vocational rehabilitation services among the States. They differ in that the House bill would allot on the amounts authorized to be appropriated whereas the Senate amendment would allot on the amounts appropriated. On this point, the conference substitute adopts the provisions of the House bill.

The House bill provided for a minimum allotment of $2,000,000 whereas the Senate amendment provided a minimum allotment of $2,500,000. The House provision is retained in the conference substitute.

### *Payments to States*

Both the House bill and the Senate amendment provided for reductions in allotments where the State reduces its expenditures from non-Federal sources. The House bill uses FY 1969 as the base year whereas the Senate amendment uses FY 1972 as the base year. The conference substitute adopts the Senate provision.

The Senate amendment provided a 1 percent set aside from its State allotment for establishing and maintaining a State advisory council. It limited the amount which could be expended for such purpose to not more than $150,000 or less than $50,000. The Senate recedes.

## INNOVATION AND EXPANSION GRANTS

### *Allotments to States*

Both the House bill and the Senate amendment provided programs for making innovation and expansion grants to States under a State allotment formula. The Senate amendment, unlike the House bill, provided that for FY 1973 and FY 1974 no State shall receive less under this provision than the amount necessary to cover 90 percent of the cost of continuing projects of this type assisted under section 4(a)(2)(A) of the Vocational Rehabilitation Act. This requirement is qualified in the Senate amendment by a provision that no such program may receive assistance under both this Act and the Vocational Rehabilitation Act for an aggregate period in excess of three years. The conference substitute retains this provision of the Senate amendment in a separate part C.

### *Payments to States*

The Senate amendment, but not the House bill, authorized the Secretary to require that up to 50 percent of each State's allotment be expended only in connection with projects which he has first approved. This provision is retained in the conference substitute.

The Senate amendment, but not the House bill, specified that programs to initiate or expand services to severely handicapped individuals qualify for assistance under this program. The conference substitute adopts this provision except that, as is the case in other instances in this report, the reference to "severely handicapped individuals" is modified to refer to "individuals with the most severe handicaps". Further, the Senate amendment in describing the type of handicapped individuals who may be assisted provides that such services be made available particularly to handicapped individuals who are poor. The House bill did not contain this qualification. It is included in the conference substitute.

The House bill provided that funds appropriated for these grants shall remain available through June 30, 1976. The Senate amendment did not contain this provision. The Senate recedes.

## EVALUATION OF REHABILITATION POTENTIAL

The Senate amendment provided special emphasis through part C of title I on the provision of vocational and comprehensive rehabilitation services to severely handicapped individuals by means of a 15-percent set aside of title I appropriations for supplementary funding for the provision of such services to severely handicapped individuals. The term "severely handicapped individuals" in the Senate amendment referred to those persons for whom services are appreciably more costly, and of appreciably greater duration, than those provided to the average client. Supplementary funds under part C of title I would be "triggered" when the cost of providing services to a handicapped individual exceeded 200 percent of the average cost of services.

Part C of title I in the Senate amendment was dropped in favor of providing in the basic programs State plan that those with the most severe handicaps would be served first under the basic program of vocational rehabilitation services.

The House bill provided a separate title to authorize grants to States to assist them in evaluating the rehabilitation potential of handicapped and disadvantaged individuals, including the vocational evaluation and work adjustment of disadvantaged individuals. The Senate amendment incorporated the concept of evaluating rehabilitation potential into the basic State program for rehabilitation services as a mandatory service under that program, but did not authorize a special program for disadvantaged individuals. The House recedes.

## TITLE II—COMPREHENSIVE REHABILITATION SERVICES

### *Purpose*

The House bill authorized a new title III to provide grants, supplemental to title I grants, to assist States to develop plans for meeting the needs of the severely handicapped (defined as those for whom an employment objective is not feasible), including an assessment of the disability and of rehabilitation potential, training of specialized personnel, and research. There was no comparable Senate provision, although the Senate did provide for the provision of rehabilitation services to those for whom employment is not feasible, limited to no more than 10% of title I appropriations. The Senate recedes to the approach of the House contained in a new title II, as described below and includes the House declaration of purpose.

### *Authorizations*

The House bill authorized the appropriation of $30 million for FY 1973, $50 million for FY 1974, and $80 million for FY 1975 to carry out the purposes listed above. The Senate amendment earmarked 15% of the title I appropriation for services to severely handicapped individuals (defined in the Senate amendment to mean those for whom the cost of providing services is more than double the average) or, if greater, $135 million for FY 1973 and $173 million for FY 1974.

(1) The House bill bases State allotments on population, adjusted to reflect relative per capita income, with a minimum of $50,000 per State. The conference agreement adopts a minimum of $150,000 per State which was the minimum in part C of title I in the Senate amendment.

(2) The Senate amendment provided that not more than 10% of the total funds allotted to a State under title I shall be expended for comprehensive rehabilitation services for non-vocational goals. The House bill did not open the basic title I program to non-employment objectives, but did allow the entire title III allotment to be used for that purpose.

(3) The conference agreement calls for a project grant program instead of a formula grant program in any fiscal year in which the appropriations for the program do not exceed $20,000,000.

### *State plan*

The House bill stated as a condition for receiving grants under title III that the State must submit to the Secretary a State plan.

The conference agreement provides that to receive funds for FY 1973 under this Act, a State must submit within 180 days after the date of enactment an amendment to its plan, submitted to the Secretary under section 101 or section 5 of the Vocational Rehabilitation Act, which includes a provision of comprehensive rehabilitation services, that such a program will be included in the section 101 plan submitted each subsequent year, and that services to homebound and institutional individuals be among the services that State must demonstrate it has considered.

The House recedes.

### *Federal share*

The House bill and the conference report stipulate that the Federal share for this title will be 90%. The House bill included a provision that expenditures by a political subdivision shall, subject to limitations, and conditions as prescribed by regulations, be regarded as State expenditures. The Senate recedes.

### *Definition*

The House bill defines "severely handicapped individuals" to mean any individual who has a disability so serious that it limits substantially his ability to function in his family and community and who can reasonably be expected to improve his ability to live independently if provided with comprehensive rehabilitation services.

The Senate amendment defines severely handicapped in terms of the cost and duration of the services required to enable the individual to engage in gainful employment, or his ability to function normally and independently in his family or community.

The conference report, as stated earlier in this statement, does not use the term "severely handicapped individual". Instead, for purposes of this title only, it defines the term "rehabilitation" to mean the goal of achieving, through the provision of comprehensive rehabilitation services, substantial ability to live independently or function normally with his family or community on the part of a handicapped individual who is not capable of achieving a vocational goal.

### *Special projects*

The House bill but not the Senate amendment authorizes 10%, but not more than $500,000, of sums appropriated under title III to be used by the Secretary for special projects for research, demonstration, and training relating to the rehabilitation of severely handicapped individuals. The conference report adopts the House provision.

### SPECIAL FEDERAL RESPONSIBILITIES

#### *Declaration of purpose*

The House bill but not the Senate amendment contained a declaration of purposes which listed existing Federal responsibilities in research, training, demonstrations, and other projects and cited the new centers, commissions, and services authorized as new responsibilities. This provision is retained in the conference agreement as modified to reflect the contents of the title.

#### *Grants for construction of rehabilitation facilities*

Both the House bill and the Senate amendment contained provision for Federal grants for the construction and initial staffing of rehabilitation facilities. The provisions were substantially the same except that the amounts authorized to be appropriated by the House bill were $35,000,000 for FY 1973, $45,000,000 for FY 1974, and $55,000,000 for FY 1975, while the Senate authorized $35,000,000 for FY 1973, $40,000,000 for FY 1974, and $45,000,000 for FY 1975. The conference report adopts the authorization in the Senate amendment. The Senate amendment grouped in section 313 all grant and contract requirements including those applicable to construction. This pattern is followed in the conference agreement.

#### *Vocational training services for handicapped individuals*

The conference report authorizes appropriations for grants to provide vocational training services to handicapped individuals in the amounts of $30,000,000 for FY 1973; $35,000,000 for FY 1974; and $40,000,000 for FY 1975. This provision differs from the House bill in that the authorization for this purpose in the House bill was combined with the authorization for construction of facilities under rehabilitation facilities improvement; it is the same as the Senate provision.

The conference report authorizes the Commissioner to pay 90 percent of the cost of training services to handicapped, especially those with the most severe handicaps, in rehabilitation facilities, to include occupational skill training, work evaluation and testing, provision of tools and equipment, job tryouts, and payment of weekly allowances. Allowances may not be paid to an individual for more than two years and shall not exceed $30 per week plus $10 for each dependent, or $70, whichever is the lesser. Grants may be made only if the project's purpose is to prepare the handicapped individual for gainful employment; if those to be trained are deemed suitable for such purpose by the State agency; if the full range of training services is available to all; and if the project meets other requirements the Commissioner may prescribe. The provision differs from the Senate amendment in that under the Senate amendment the Federal share would be 85 percent rather than 90 percent. It differs from the House bill in that (1) the projects must be designed to provide vocational training services especially to the severely handicapped, (2) under the House bill the allowance may not exceed $65 a week, and (3) the House phrase "fitness to engage in a remunerative occupation" is replaced by the phrase "capacity to engage in gainful and suitable employment".

The conference report also authorizes the Commissioner to make grants to rehabilitation facilities to improve management effectiveness and other assistance to improve the operation of such facilities, but prohibits grants being used for construction.

#### *Mortgage insurance for rehabilitation facilities*

Both the House bill and the Senate amendment contained provisions for mortgage insurance covering the construction of rehabilitation facilities. The House bill, but not the Senate amendment, stated it would be the purpose of the provision to assist and encourage the provision of urgently needed facilities for programs for the handicapped. The conference substitute contains the House declaration.

The Senate amendment authorized insurance for rehabilitation facilities whereas the House bill authorized insurance for multipurpose rehabilitation facilities. The conference agreement adopts the Senate provision.

The Senate amendments, but not the House bill, requires the Secretary to consult with the Secretary of Housing and Urban Development in carrying out this section. This provision is retained in the conference agreement.

The House bill authorized 100 percent of the mortgage to be insured, but provided that the mortgage may not involve a principal obligation in excess of $250,000 and may not exceed 90 percent of replacement costs. The Senate amendment, in contrast, authorized insurance of 90 percent of the mortgage. The conference agreement adopts the House provision, except that the amount of individual mortgages is limited to 100 percent of the replacement costs.

The conference report includes a provision from the Senate amendment, which had no counterpart in the House bill, allowing the Commissioner to delegate, pursuant to delegation agreement, to the Secretary of Housing and Urban Development authority to administer this mortgage insurance program, and the program of annual interest grants for mortgages for rehabilitation facilities which is provided for later in the report.

Both the House bill and the Senate amendment authorized appropriations for initial capital for the insurance fund, but the Senate amendment also provided that the total amount of outstanding mortgages insured may not exceed $250,000,000. The Senate limitation is retained in the conference agreement.

#### *Annual interest grants for mortgages for rehabilitation facilities*

Both the House bill and the Senate amendment authorized the Secretary to pay annual interest grants to States and public nonprofit agencies to reduce the cost of borrowing for construction of rehabilitation facilities. The conference report includes a provision from the Senate amendment, which had no counterpart in the House bill, which subjects this program to the general grant contract requirements which are described later in this statement. Under the House bill the grant would be not greater than the difference between the interest which would be paid on the loan if it were borrowed from other sources, and 3 percent. Under the Senate amendment the grant would be an amount sufficient to reduce by 3 percent the interest rate otherwise payable on the loan. Under the conference report the grant will be sufficient to reduce by 4 percent the interest rate otherwise payable or be one-half of such rate, whichever is the lesser.

Both versions of the bill authorize necessary appropriations for these grants. They both provide that the amount payable for FY 1973 shall not exceed $1,000,000. The House bill provides that that amount will be increased by $3,000,000 for FY 1974, and by $5,000,000 for FY 1975. In contrast, the Senate amendment would increase such amount by $1,000,000 for FY 1974, and by $2,000,000 for FY 1975. The conference agreement adopts the Senate figures.

The House bill provided that not more than 12½ percent of the funds provided for interest grants may be used in any one State. The Senate amendment sets this figure at 15 percent. The conference agreement adopts the Senate figure.

#### *Special programs and projects*

Both the House bill and the Senate amendment authorize appropriations for special projects. The House bill authorizes $100,000,000 for FY 1973, $125,000,000 for FY 1974, and $150,000,000 for FY 1975. The Senate amendment authorizes $50,000,000 for FY 1973, $100,000,000 for FY 1974, and $150,000,000 for FY 1975. The conference agreement authorizes $50,000,000 for FY 1973, $125,000,000 for FY 1974, and $150,000,000 for FY 1975.

The House bill authorized, in addition, appropriations of $10,000,000 for each year for migrant programs and provided that, if funds were not sufficient to pay at least ⅔ of the total amounts to fund approved grants, the Secretary would allocate for grants under this section the funds appropriated for other activities under the Act. The Senate amendment made available for migrant programs 10% of the appropriations for special projects for each year, but also provided that no more than $10,000,000 shall be used for that purpose and authorized the appropriation of the amount necessary to raise the funds available for migrant programs to $10,000,000 where 10% of the appropriations for special projects is less than that amount. The conference substitute adopts the Senate provision.

The conference report authorizes the Commissioner to make grants to pay 90% of the cost of projects or demonstrations for the provision of vocational and comprehensive rehabilitation services to handicapped individuals who are migratory agricultural workers or seasonal farm workers, and their families. It differs from the Senate amendment in that only 90% of the cost of providing these services will be borne by the United States, instead of the full amount as under the Senate amendment.

The conference report authorizes the Commissioner to make grants for paying part of the cost of special projects and demonstrations for establishing facilities and providing services which hold promise for expanding or otherwise improving rehabilitation services for the handicapped, especially those with the most severe handicaps, and for applying new types or patterns of services or devices (including opportunities for new careers for handicapped individuals and other individuals in programs serving handicapped individuals).

The corresponding provision of the House bill differed from the conference report in that it did not contain specific references to persons who are severely handicapped, it provided for assistance to projects making a substantial contribution to the solution of rehabilitation problems, to all or several States, and problems related to the rehabilitation of individuals with developmental disabilities and other severe handicaps.

#### *National Center for Deaf-Blind Youths and Adults*

Both the House bill and the Senate amendment contained provisions for a National Center for Deaf-Blind Youths and Adults. The House bill had open ended authorizations for FY 1973, FY 1974, and FY 1975, for this provision. The Senate amendment authorized appropriations of $5,000,000 for FY 1973 for construction, and $800,000 for that year for its operation. $1,200,000 was authorized for FY 1974 and $200,000 for FY 1975, for the operation of the center. The conference agreement adopts the Senate authorization figures.

#### *Rehabilitation Centers for Deaf Individuals*

The House bill provided for rehabilitation centers for deaf youths and adults. The Senate amendment provided for such centers for deaf individuals, made certain changes in terminology, and specified, unlike the House bill, that no services under the section may be provided to individuals who have not attained age 16 and the State age for compulsory school attendance. The House recedes. The House bill authorizes unlimited appropriations for FY 1973, FY 1974, and FY 1975, for the centers. The Senate amendment authorizes the appropriation of $5,000,000 for FY 1973, $7,500,000 for FY 1974, and $10,000,000 for FY 1975, for the centers. The conference report would authorize the appropriation of $2,000,000 for FY 1973, $4,000,000 for FY 1974, and $7,000,000 for FY 1975.

### *National Centers for Spinal Cord Injuries*

Both the House bill and the Senate amendment authorized the Secretary to enter into agreements with public and nonprofit agencies to pay part or all of the cost of establishing or operating National Center for Spinal Cord Injuries. The respective versions of the bill differ in the stated purposes of the program. Under the House bill, the purpose is to demonstrate methods of providing services to persons suffering from spinal cord injuries and the training of professional and allied personnel needed to staff these facilities, to conduct research on the problems of rehabilitating persons suffering from spinal cord injuries, and to aid in the conduct of related activities to expand and improve the services for or help improve public understanding of the problems of persons suffering from spinal cord injuries. Under the Senate amendment, the purposes of the provision are to help form a national network of centers with special competencies in providing complete rehabilitation services and acute medical care to individuals with spinal cord injuries, to assist in meeting the costs of such services to the individuals, to encourage and assist in the study and development of methods for the provision of such services, and to develop new means of achieving cooperation among concerned organizations. The conference agreement adopts the Senate provision except that the establishment of "national centers" is called for rather than a "national network of centers", and that where appropriate and desirable research and training related to the study and development of methods for the provision of these services may also be provided.

### *Grants for services for end-stage renal disease*

Both the House bill and the Senate amendment authorized grants for projects for providing special services for individuals suffering from end-stage renal disease. The House bill authorized the appropriation of $25,000,000 for FY 1973 and each of the two succeeding fiscal years for this program. The Senate bill authorized the appropriation of $20,000,000 for FY 1973; $25,000,000 for FY 1974, and $30,000,000 for FY 1975. The conference agreement adopts the level of funding provided by the House, and includes a Senate parenthetical which assures that transplantation and dialysis are included services.

### *Rehabilitation services for older blind individuals*

The Senate amendment, which had no counterpart in the House bill, authorized a program of grants for older blind individuals. It authorized the appropriation of $10,000,000 for FY 1973, $20,000,000 for FY 1974, and $30,000,000 for FY 1975, for this program. Funds were allotted among the States on a formula based on population and relative per capita income. Older blind individuals were defined as those aged 55 and over whose visual impairment makes gainful employment difficult to obtain. Special provisions are required to be included in the State's rehabilitation plan if it is to participate in this program. The conference agreement retains this provision, but modified so that the program will be administered on a project basis. Thus, the provisions for State allotments and State plans are dropped.

### *National Policy and Performance Council*

The House bill but not the Senate amendment established in the Department of HEW a National Policy and Performance Council, consisting of 12 members. The Council advises the Secretary with respect to policies and criteria for making grants for rehabilitation facility improvement; makes recommendations to the Secretary on workshop improvement and the extent of this section in carrying out its purposes, and performs other services as requested by the Secretary. The Senate amendment contained no comparable provision, but established a National Council on Rehabilitation of the Handicapped to replace and expand the authority of the National Advisory Council on Vocational Rehabilitation. The House recedes.

### *National Advisory Council on Rehabilitation of Handicapped Individuals*

Both the House bill and the Senate amendment provided for the establishment in the Department of Health, Education, and Welfare of National Advisory Councils. The Councils created by the two versions of the bill differ in the following respects:

(1) In the Senate amendment, the Council consists of 20 members appointed by the Secretary. In the House bill the Council consists of the Secretary or his designee and 15 members appointed by the Secretary.

(2) The Senate amendment, but not the House bill, required that 10 of the 20 members must be selected from leading medical, educational, or scientific authorities with outstanding qualifications in the field of rehabilitation of handicapped individuals.

(3) The Senate amendment further required that eight of the 20 members of the Council must be persons who are themselves handicapped or have received rehabilitation services. The House bill requires that ⅓ of the members must be recipients of rehabilitation services, including those who are severely handicapped.

(4) The Senate amendment, but not the House bill, required the Council to meet not less than four times a year. The House bill authorized the Council to review applications for special projects and make recommendations with respect thereto. In the Senate amendment, the Council has a much broader mandate, including policy, advice, and consultation on the planning, conduct, and review of programs authorized under the Act reviewing the administration and operation of vocational rehabilitation programs under the Act, and advising the Secretary with respect to the conduct of individual evaluations and providing such other advisory services as may be requested.

(5) The Senate amendment, but not the House bill, authorized the appropriation of $100,000 for FY 1973, and $150,000 in each of FY 1974 and FY 1975 to provide technical assistance and staff support for the Council.

(6) The Senate amendment but not the House bill, required the Council to review the possible duplication among rehabilitation programs and make recommendations.

The conference agreement includes the provisions of the Senate amendment, but with changes to make its services available to the Commissioner as well as to the Secretary.

### *State advisory councils*

The Senate amendment required each State to establish a State advisory council. Such councils were to advise the Governor or State agency on policy matters of administration of the State plan, to advise on long-range planning and studies, to evaluate programs assisted under the Act, and to submit to the Governors and the Council an annual report of its recommendations and comments. Councils must meet at least four times a year and have one public meeting each year. Under the Senate amendment the councils would have been funded from a 1% set-aside from the State's title I allotment. There are no comparable House provisions.

The conference report follows the provisions of the Senate amendment, except that (1) funding is separately authorized at $2 million for each of FY 1973, 1974, and 1975, and (2) the States are not required to establish councils in order to receive funds under the Act.

### *General grant and contract requirements*

The Senate amendment provides in one section the requirements which must be met with respect to all projects assisted under the special Federal responsibilities title, including the following:

(1) Construction projects must be used as public and nonprofit facilities for not less than 20 years;

(2) Sufficient funds must be available to meet the non-Federal share;

(3) Annual reports must be submitted;

(4) Plans and specifications must give due consideration to excellence of architecture and works of art;

(5) Plans must comply with regulations concerning occupational safety and health and comply with the Architectural Barriers Act;

(6) Applications must meet Davis-Bacon requirements;

(7) The Federal Government shall be entitled to reimbursement for facilities used for other than what we intended within 20 years after date of completion;

(8) Completion of grants may be made in advance or by reimbursement;

(9) Authorizes construction of residential accommodations when necessary in connection with workshops;

(10) Prohibits use of funds for facilities which will be used for religious worship;

(11) Requires that funds be utilized consistent with State plans;

(12) Requires the Secretary to afford State agencies reasonable opportunity to comment on applications.

Comparable House provisions are for the most part authorized in individual sections. This section is adopted in the conference substitute.

## TITLE IV—RESEARCH AND TRAINING

Title IV of the Senate bill consolidated all research and training activity in a new title. There is no comparable consolidation in the House bill. Title IV of the Senate amendment provided specific authority as follows:

### *Declaration of purpose*

The Senate amendment authorized assistance to the States to plan and conduct research, demonstration, and related activities in the rehabilitation of handicapped persons and to plan and conduct training courses to increase the number of and skills of rehabilitation personnel.

### *Authorization of appropriations*

The Senate amendment authorized the following appropriations for research:

| Fiscal year: | |
|---|---|
| 1973 | $75,000,000 |
| 1974 | 100,000,000 |
| 1975 | 150,000,000 |

The amount appropriated each fiscal year 15 per centum in FY 1973 and 25 per centum for each of the two subsequent fiscal years shall be for the priority research categories listed below.

Section 301(a)(2) of the Senate amendment authorized the following appropriations for section 303 (training):

| Fiscal year: | |
|---|---|
| 1973 | $50,000,000 |
| 1974 | 75,000,000 |
| 1975 | 100,000,000 |

All funds appropriated pursuant to this section shall remain available until expended.

### *Research*

The Senate amendment authorized grants to and contracts with States and other organizations to pay part of the cost of projects to plan and conduct research, demonstrations, and related activities to develop methods, procedures, and devices to provide vocational and comprehensive rehabilitation services to handicapped and severely handicapped individuals. Such projects may include medical, scientific and other investigations into the nature of disability, methods of analyzing it, and restorative techniques, studies and analyses of factors affecting the rehabilitation of handicapped individuals, and special problems of homebound and institutionalized individuals, and related activities which hold promise of increasing knowledge and improving methods in rehabilitating handicapped individuals.

The Senate amendment established the following priority research categories:

(1) Authorizes grants to pay part or all of the costs of activities to establish and support Rehabilitation Research and Training Centers operated with institutions of higher education to coordinate and advance programs of research and training in rehabilitation.

(2) Authorizes grants for the establishment and support of Rehabilitation Engineering Research Centers to apply advanced technology and other knowledge in solving rehabilitation problems through research, including cooperative research with other organizations designed to produce new knowledge, equipment and devices. Also provides for cooperation with the Office for the Handicapped in developing information exchange systems and coordination to promote utilization of engineering and other research.

(3) Authorizes a program for spinal injury research in support of the National Centers for Spinal Cord Injuries. The purpose of such research is to insure dissemination of research findings among all spinal and injury centers, provide encouragement and support for new approaches, and establish close working relationships with other organizations to unify and coordinate scientific efforts, encourage joint planning, and promote the interchange of data and reports among spinal cord injury investigators.

(4) Authorizes a program for international rehabilitation research, demonstration, and training to develop new knowledge in rehabilitating handicapped individuals. The purpose of such program also would be to cooperate with other nations in sharing and developing information in rehabilitation, and initiating a program to exchange experts and technical assistants with other nations.

The Senate amendment applies the general provisions of section 313, unless the context indicates to be the contrary; particularly noteworthy is the provision that funds used for direct services to handicapped individuals shall not be inconsistent with the State plan approved under section 101.

### *Training*

The Senate amendment authorized the payment of part of the cost of training and related activities to increase the number and skills of trained rehabilitation personnel.

It is provided that funds under this section will be utilized for projects in rehabilitation medicine, rehabilitation counseling, rehabilitation social work, physical therapy, occupational therapy, speech pathology, speech audiology, rehabilitation nursing, workshop and facility administration, prosthetics and orthotics, psychology, specialized personnel for deaf and blind persons, recreation for ill and handicapped individuals and other fields contributing to rehabilitation, including for homebound and institutionalized individuals. Education grants are limited to not more than 4 years.

### *Reports*

The inclusion in the annual report, of a report with respect to research and training activities undertaken pursuant to this title, is required, with emphasis on the contribution of such activities to the improvement of vocational and comprehensive rehabilitation services.

The conference report retains the Senate research and training provisions with conforming amendments.

## ADMINISTRATION AND PROGRAM AND PROJECT EVALUATION

### *Administration*

Both the House bill and the Senate amendment authorized the provision of training and instruction in technical matters relating to vocational rehabilitation services. Under the House bill training may not exceed a four-year period, whereas under the Senate bill it may not exceed a two-year period. The Senate recedes.

The House bill authorized the Secretary to make rules and regulations governing the administration of this Act. In the Senate amendment, the Secretary is authorized to make rules and regulations governing the administration of titles IV, V, and VI of the Act, and such rules and regulations and those prescribed by the Commissioner of the Rehabilitation Services Administration under titles I, II, and III are required to be published in the Federal Register on an interim basis within 90 days after enactment of the Act.

The Senate amendment, but not the House bill, required the Secretary to insure maximum coordination and consultation with the Administrator of Veterans' Affairs concerning programs for the rehabilitation of disabled veterans. This requirement is retained in the conference agreement.

### *Program and project evaluation*

Both the House bill and the Senate amendment require the Secretary to evaluate all programs authorized under the Act and to determine their effectiveness. The Senate amendment, but not the House bill, requires that in the case of research and related activities, the Secretary is to reassess priorities for such research and related activities and to review existing research and related activities to determine the basis for their continuation, revision or termination. In this connection, under the Senate amendment, the Secretary is further required to submit an annual report to the appropriate Committees of the Congress on his review of research activities. The House recedes.

Both the House bill and the Senate amendment require that the Secretary consider the extent to which standards for evaluation have been met in deciding whether to renew or supplement financial assistance. Under the Senate amendment, but not the House bill, such decisions must be made in accordance with the procedural protection governing approval and disapproval of State plans under title I. The House recedes.

The House bill requires that the Secretary publish the results of evaluative research and evaluations of program and project impact and effectiveness no later than sixty days after the completion thereof. This is also required in the Senate amendment. However, in the Senate amendment, publication is required no later than 90 days rather than 60 days, and summaries of evaluations rather than evaluations themselves are to be published. In addition, the Senate amendment but not the House bill requires that copies of all such research studies and evaluation summaries be submitted to the appropriate committees of Congress. The House recedes.

The House bill authorizes the appropriation of such sums as the Secretary may require for evaluation, but not to exceed 1 per centum of the funds appropriated under title I or $2,000,000, whichever is greater. The Senate amendment authorizes to be appropriated such sums as the Secretary may require, but not to exceed an amount equal to one-half of 1 per centum of the funds appropriated under titles I, II, and III of the Act or $2,000,000, whichever is greater. The Senate provision is retained in the conference report with conforming modifications.

Both the House bill and the Senate amendment require that the annual report include statistical data reflecting vocational rehabilitation services provided handicapped individuals. The House bill requires statistical data reflecting services provided each handicapped individual, whereas the Senate amendment requires statistical data reflecting "with the maximum feasible detail" services provided handicapped individuals. The House recedes.

The Senate amendment, but not the House bill, specifically requires that the report include a detailed evaluation of services provided to severely handicapped individuals.

The conference report retains this provision with conforming amendments.

### *Sheltered workshop study*

The House bill authorizes the Secretary to conduct a special study of sources of income and other financial support presently being received by handicapped persons employed in workshops. The Senate amendment contains similar provisions, but includes a study of the role of sheltered workshops in rehabilitation and employment of handicapped individuals. The study will incorporate guidelines in accordance with criteria in resolutions adopted by the Committee on Labor and Public Welfare, the Committee on Education and Labor, or both. The Senate amendment further requires site visits and interviews of handicapped trainees and clients and prohibits the awarding of contracts to individuals or groups with financial or direct interest in sheltered workshops. The report and recommendations will be due 24 months after enactment of the Act in the Senate amendment and not later than July 1, 1973, in the House bill. The conference report adopts the provisions of the Senate bill with an amendment that the study be "original".

The conferees generally approve the Senate committee resolution adopted September 22, 1972, which states as follows:

RESOLUTION OF THE U.S. SENATE, COMMITTEE ON LABOR AND PUBLIC WELFARE, ADOPTED SEPTEMBER 22, 1972

Whereas Section 405(a) of the Rehabilitation Act of 1972 directs the Secretary of Health, Education and Welfare to carry out a study of sheltered workshops under criteria set forth in resolutions by the Committee on Labor and Public Welfare:

Whereas the Committee finds that such study must be comprehensive in nature and has formulated a series of questions relating to the role of workshops, the number of individuals employed in workshops, the amount of funding provided to workshops under this Act, and the relationship between workshops and other programs for handicapped individuals, and programs for vocational training;

Whereas the Committee presents the following questions to be answered and by listing these questions does not intend to limit the scope of the study;

Be it resolved that the Committee on Labor and Public Welfare believes the following questions must be covered along with other pertinent information by the study:

1. What should be the role of sheltered workshops or rehabilitation facilities? To what degree does the present system of workshops fulfill this role? How does this role relate to the broader continuum of employment and day care settings?

2. How many sheltered employment settings (workshops, rehabilitation facilities, work activity centers, etc.) are now in existence? How many handicapped individuals do they employ? What is the nature and degree of their responsibilities? How many staff are employed?

What are their job functions and qualifications? Describe the work opportunities provided including a measure of the range of complexity of the jobs available in each workshop. How much money is paid by the State Vocational Rehabilitation agency to "workshops" on an individual basis by state?

3. What are the standards used by vocational rehabilitation agencies to determine that a sheltered workshop or other rehabilitation facility is the most suitable in the community or state for training or employing a handicapped individual? What alternatives are considered and what rights does a handicapped individual have in selecting the site and type of training or employment to be provided?

4. How many handicapped individuals are placed for training in workshops by state vocational rehabilitation agencies? How much money is paid by the state agency for these training services? What is the length of training? What type of training is provided? How many individuals are placed in competitive employment following training? How many handicapped individuals are placed in sheltered workshops for extended evaluation? How much money is paid by the state agency for these services? How many are placed in employment outside of a workshop, or unplaced of those evaluated? To what extent are handicapped individuals, placed in workshops by rehabilitation agencies for training purposes, integrated with extended evaluation clients and terminal employees of the workshop? What is the nature and degree of the handicaps of the individuals placed in workshops for training or extended evaluation purposes?

5. How many handicapped individuals are in extended employment in sheltered workshops? What is the nature and degree of their handicaps? What type of employment activities are provided? How many individuals are ultimately placed in competitive employment?

6. How many individuals in workshops are in terminal employment? What is the nature and degree of their handicaps? What are the standards used by rehabilitation agencies or workshop personnel for determining that these individuals are incapable of competitive employment? How might careers ladder opportunities within workshops be developed to enable handicapped individuals to move into competitive employment?

7. What are methods for the determination of wages for handicapped individuals in workshops? What distinctions are there between piece work and hourly employees? How many persons are receiving wage subsidies? What are the amounts of such subsidies and the sources of funding for such subsidies? What effect do wage payments have on the amount of public assistance received by handicapped individuals in workshops, since assistance payments vary from state to state? What is the relationship of the industrial efficiency of the workshop to the amount of wages paid? What is the relationship of the types of contract work performed by workshops to the amount of wages paid to employees? What is the relationship of the specific abilities of the employees to the contract capability and wage payments? Do workshops for any particular type of handicapped individuals generally pay higher wages than those paid in other workshops? If this is true, is it because of their contract work or because they receive their contracts through a single source? How are contracts procured? Is the type of contract pursued by a workshop related to the needs of present workers, or are workers selected by jobs available? Are there any state, regional or national procurement and coordination processes available for obtaining contracts for sheltered workshops? What should such a process entail? Compare wage payments to handicapped workers in sheltered workshops to payments made for similar employment to workers in competitive employment in comparable labor markets or otherwise.

8. Has the Wage Hour and Public Contracts Division of the Department of Labor issued certifications of exemption from the prevailing minimum wage for individual handicapped workers within workshops or have they been issued on a blanket basis per workshop? How many sheltered workshops have been issued exemptions from the minimum wage under section 6 of the Fair Labor Standards Act as work activity centers? What is the nature and degree of handicaps of handicapped individuals in such centers? To what degree has the number of such exemptions increased annually since 1967? How often do officials of the Wage Hour and Public Contracts Division inspect sheltered workshops and work activity centers to determine compliance with minimum wage requirements? How often do officials of the Department of Health, Education and Welfare inspect sheltered workshops? Officials of State agencies?

9. What fringe benefits are provided to handicapped individuals in extended or terminal employment in sheltered workshops (e.g. coverage under the Old Age, Survivors and Disability Insurance Program and Medicare of Title II and Title XVII of the Social Security Act; unemployment compensation; health care and retirement plans to which other non-handicapped workshop employees are entitled; and collective bargaining)?

10. What is being done to coordinate the wide variety of vocational training programs administered by the Rehabilitation Services Administration, the Office of Educaton and the Department of Labor for severely handicapped individuals who appear to have a high chance of requiring sheltered employment for some period of time?

11. Discuss and analyze the possible forms of wage supplements, their advantages and disadvantages, and their effects where applied.

### OFFICE FOR THE HANDICAPPED

The Senate amendment establishes an Office for the Handicapped within the office of the Secretary to be headed by a Director. This Office is charged with the preparation of a five-year planning document for the provision of services to handicapped individuals, the analysis and review of program operation and budgeting to assure progress toward implementation of such a plan, providing assistance to advisory committees and programs which serve the Secretary, the coordination and encouragement of cooperative planning among programs for handicapped individuals, taking steps to assure the prompt utilization of engineering and other research to assist in solving problems of handicapped individuals, and the evaluation of existing information systems in order to develop a coordinated system of information retrieval and dissemination. For this purpose, there is $1,000,000 authorized for FY 1973, $2,000,000 for FY 1974, and $2,000,000 for FY 1975. There are no comparable House provisions.

The conference report includes these provisions with several amendments to make clear the relationship of this Office to existing operating programs.

The Conference agreement directs the Office to prepare, with the assistance of and in consultation with agencies of the Department of Health, Education, and Welfare and other departments and agencies, handicapped individuals and public and private agencies and organizations, a long-range projection for the provision of comprehensive services to handicapped individuals, with the understanding that such projection shall relate individual agency plans to one another in order to provide maximum effectiveness, sensitivity and continuity in the provision of services to handicapped individuals. It should be clear that this long-range projection for services shall represent the direction toward which the Department intends to proceed in providing services to handicapped individuals and shall include a plan for implementation, including costs of such plans. Under no circumstances do the Conferees intend that this projection be implemented without opportunity for Congressional review and enactment of any necessary authorizing legislation.

The Conference agreement further deletes all reference to budgeting and provides language to make clear that such Office shall be vested only with advisory functions and that no authority has been provided to this Office for budgetary, policy, or program control by the Office over any program, except as such authority relates to a central clearinghouse for information and resource availability. The conferees intend that no operating program shall report to, or through such office to the Secretary.

The House bill established a National Information and Resource Center under title IV of the House bill to collect, review, organize, publish and disseminate information and data related to problems caused by handicapping conditions in title IV.

The Senate bill and the Conference agreement direct the Office for the Handicapped to serve as a clearinghouse for information and resources through the evaluation of existing information and data systems in order to develop within the Department of Health, Education, and Welfare a coordinated system of data and information retrieval and dissemination. It is the intent of the Conference agreement that maximum utilization should be made of existing information and data systems and that, as a priority, this Office will identify data, information and statistical needs. The Conferees emphasize that where data, information and statistics do not exist or are not currently available, the Office will take immediate action to ensure that such data, information and statistics are collected and will be made available for use by the Congress, the Secretary, operating programs, and interested individuals and organizations.

### TITLE VII.—MISCELLANEOUS

#### *Effect on existing laws*

The Senate amendment but not the House bill repealed the Vocational Rehabilitation Act 90 days after the date of enactment of the new Act, and further provided that references to such Act in any other provisions of law shall 90 days after enactment, be deemed to be references to the Rehabilitation Act of 1972. There were no comparable House provisions. The House recedes.

#### *Federal Interagency Committee on Handicapped Employees*

The Senate amendment established the Federal Interagency Committee on Handicapped Employees, comprised of the heads of the Civil Service Commission, the Veterans Administration, and the Departments of Labor and Health, Education, and Welfare. The Chairmen of the President's Committee on Employment of the Handicapped and of the President's Committee on Mental Retardation are ex officio members; the Commissioner of the Rehabilitation Services Administration serves as the Executive Director, and the Secretary of Health, Education, and Welfare as chairman of the Committee. The various departments and agencies in the Executive Branch are required to submit an affirmative action program concerning the hiring, placement and advancement of handicapped individuals; the Committee is to develop and recommend to the Secretary of Health, Education, and Welfare procedures for hiring the handicapped individuals. The Committee shall report to the Congress on June 30, 1973, regarding the status of the handicapped employed by the Federal Government, along with its recommendations. This section also prohibits volunteer work in a government from being considered Federal employment for certain purposes; and authorizes appropriations of $1 million for FY 1973 and $1,250,000 for FY 1974. There were no comparable House provisions. The House recedes.

#### *National Commission on Transportation and Housing for Handicapped Individuals*

The House bill established a National Commission on Transportation and Housing for the Handicapped headed by the Secretary of Health, Education, and Welfare or his designee.

The membership of the Commission is not to exceed 15 members, with the Secretary of Housing and Urban Development, the Secretary of Transportation, and the Secretary of the Treasury (or their designees) serving as ex officio members. The purpose of the Commission shall be to study problems and make recommendations with respect to transportation and housing for the handicapped. There was no comparable Senate provision.

The conference agreement retains the essential elements of the House bill by establishing a National Commission on Transportation and Housing for Handicapped Individuals and requiring the coordination of such Commission with the Architectural and Transportation Compliance Board.

### *Architectural and transportation barriers compliance board*

The Senate amendment established the Architectural and Transportation Barriers Compliance Board composed of the heads of the Departments of Health, Education, and Welfare, Transportation, Housing and Urban Development, General Services Administration, the Department of the Interior, the U.S. Postal Services, the Veterans Administration, and the Department of Labor. The function of the Board is to insure compliance with standards prescribed by GSA. The Department of Defense, and HUD pursuant to the Architectural Barriers Act of 1968, and make appropriate investigations, and issue necessary orders. The Board is authorized to appoint necessary hearing examiners and receive administrative assistance for the Board by involved agencies. An annual report to Congress and an authorization of $1 million for FY 1973, $1,250,000 for FY 1974, and $1,500,000 for FY 1975 are provided for. There were no comparable House provisions. The House recedes with a conforming amendment requiring coordination between the Board and the National Commission on Transportation and Housing of Handicapped Individuals.

### *Employee under Federal contracts*

The Senate amendment required that any Federal procurement contract contain a provision requiring Federal contractors and subcontractors to take affirmative action to employ qualified handicapped individuals. These provisions shall be implemented 90 days after enactment. A complaint may be filed by any aggrieved handicapped individual with the Department of Labor, which shall investigate and take appropriate actions. There was no comparable House provision. The House recedes.

### *Nondiscrimination under Federal grants*

The Senate amendment provided that no otherwise qualified individual shall be discriminated against or excluded from participation in or benefits of any program or activity receiving Federal assistance. There was no comparable House provision. The House recedes.

### RANDOLPH-SHEPPARD ACT FOR THE BLIND AMENDMENTS

The conference report does not include title VII from the Senate amendment, relating to the Randolph-Sheppard Act for the blind. Under the Rules of the House of Representatives, and pursuant to the Legislative Reorganization Act of 1970, such title would not be considered germane and would thus be subject to a point of order in the House.

The conferees stress that exclusion of title VII is not due to any lack of concern for, or disregard of the need for, strong and forward-looking amendments to the Randolph-Sheppard Act. The conferees expect that both committees will consider these matters in depth after the 93d Congress convenes.

The conferees are deeply concerned that the Congress has not been able to obtain any definitive information concerning legitimate uses of vending machine income on federally-controlled property. In view of this concern, the conferees urge that the General Accounting Office conclude, at the earliest possible date, its audit and study of such funds and their legitimate uses made pursuant to resolution of the Subcommittee on the Handicapped of the Senate Committee on Labor and Public Welfare; and that any recommendations of the General Accounting Office include recommendations with respect to procedures to insure full public disclosure and accountability with respect to the use of such funds.

### Rehabilitation Act of 1972—H.R. 8395

This measure would seriously jeopardize the goals of the vocational rehabilitation program and is another example of Congressional fiscal irresponsibility. Its provisions would divert this program from its basic vocational objectives into activities that have no vocational element whatsoever or are essentially medical in character. In addition, it would proliferate a host of narrow categorical programs which duplicate and overlap existing authorities and programs. Such provisions serve only to dilute the resources of the vocational rehabilitation program and impair its continued valuable achievements in restoring deserving American citizens to meaningful employment.

H.R. 8395 also would create organizational rigidities in the vocational rehabilitation program which would undermine the ability of the Secretary of HEW to manage the program effectively. The bill also would establish numerous committees and independent commissions which are unnecessary, would waste the taxpayers' dollars, and would complicate and confuse the direction of this program. Finally, the bill would authorize funding far in excess of the budget request and far beyond what can be made available and used effectively.

Richard Nixon.

The White House, *October 27, 1972.*

---

### S. 7

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act, with the following table of contents, may be cited as the "Rehabilitation Act of 1972".

### TABLE OF CONTENTS

Sec. 2. Declaration of purpose.
Sec. 3. Rehabilitation Services Administration.
Sec. 4. Advance funding.
Sec. 5. Joint funding.
Sec. 6. Consolidated rehabilitation plan.
Sec. 7. Definitions.
Sec. 8. Allotment percentage
Sec. 9. Audit.
Sec. 10. Nonduplication.

### TITLE I—VOCATIONAL REHABILITATION SERVICES

#### Part A—General Provisions

Sec. 100. Declaration of purpose: Authorization of appropriations.
Sec. 101. State plans.
Sec. 102. Individual written rehabilitation program.
Sec. 103. Scope of vocational rehabilitation services.
Sec. 104. Non-Federal share for construction.

#### Part B—Basic Vocational Rehabilitation Services

Sec. 110. State allotments.
Sec. 111. Payments to States.
Sec. 112. Client assistance

#### Part C—Innovative and Expansion Grants

Sec. 120. State allotments.
Sec. 121. Payments to States.

### TITLE II—COMPREHENSIVE REHABILITATION SERVICES

Sec. 200. Declaration of purpose: Authorization of appropriations.
Sec. 201. State allotments.
Sec. 202. Payments to States.
Sec. 203. State programs.
Sec. 204. Special projects.
Sec. 205. Definition.

### TITLE III—SPECIAL FEDERAL RESPONSIBILITIES

Sec. 300. Declaration of purpose.
Sec. 301. Grants for construction of rehabilitation facilities.
Sec. 302. Vocational training services for handicapped individuals.
Sec. 303. Mortgage insurance for rehabilitation facilities.
Sec. 304. Annual interest grants for mortgages for rehabilitation facilities.
Sec. 305. Special projects and demonstrations.
Sec. 306. National Center for Deaf-Blind Youths and Adults.
Sec. 307. Rehabilitation Centers for Deaf Individuals.
Sec. 308. Rehabilitation Centers for Spinal Cord Injuries.
Sec. 309. Grants for services for end-stage renal disease.
Sec. 310. Rehabilitation services for older blind individuals.
Sec. 311. National Advisory Council on Rehabilitation of Handicapped Individuals.
Sec. 312. State advisory councils.
Sec. 313. General grant and contract requirements.

### TITLE IV—RESEARCH AND TRAINING

Sec. 400. Declaration of purpose.
Sec. 401. Authorization of appropriations.
Sec. 402. Research.
Sec. 403. Training.
Sec. 404. Reports.

### TITLE V—ADMINISTRATION AND PROGRAM AND PROJECT EVALUATION

Sec. 500. Administration.
Sec. 501. Program and project evaluation.
Sec. 502. Obtaining information from Federal agencies.
Sec. 503. Authorization of appropriations.
Sec. 504. Reports.
Sec. 505. Sheltered workshop study.

### TITLE VI—OFFICE FOR THE HANDICAPPED

Sec. 600. Establishment of Office.
Sec. 601. Function of Office.
Sec. 602. Authorization of appropriations.

### TITLE VII—MISCELLANEOUS

Sec. 700. Effect on existing laws.
Sec. 701. Federal Interagency Committee on Handicapped Employees.
Sec. 702. National Commission on Transportation and Housing for Handicapped Individuals.
Sec. 703. Architectural and Transportation Barriers Compliance Board.
Sec. 704. Employment under Federal contracts.
Sec. 705. Nondiscrimination under Federal grants.

#### DECLARATION OF PURPOSE

Sec. 2. The purpose of this Act is to provide a statutory basis for the Rehabilitation Services Administration, to establish within the Department of Health, Education, and Welfare an Office for the Handicapped, and to authorize programs to—

(1) develop and implement comprehensive and continuing State plans for meeting the current and future needs for providing vocational rehabilitation services to handicapped individuals and to provide such services for the benefit of such individuals, serving first those with the most severe handicaps, so that they may prepare for and engage in gainful employment;

(2) evaluate the rehabilitation potential of handicapped individuals;

(3) develop, implement, and provide comprehensive rehabilitation services to meet the current and future needs of handicapped individuals for whom a vocational goal is not possible or feasible so that they may improve their ability to live with greater independence and self-sufficiency;

(4) assist in the construction and improvement of rehabilitation facilities;

(5) develop new and innovative methods of applying the most advanced medical technology, scientific achievement, and psychological and social knowledge to solve rehabilitation problems and develop new and innovative methods of providing rehabilitation services to handicapped individuals through research, special projects, and demonstrations;

(6) initiate and expand services to groups of handicapped individuals (including those who are homebound and institutionalized) who have been underserved in the past;

(7) direct the conduct of various studies and experiments to focus on long neglected problem areas;

(8) promote and expand employment opportunities in the public and private sectors such individuals in employment;

(9) establish client assistance pilot projects;

(10) provide assistance for the purpose of increasing the number of rehabilitation personnel and increasing their skills through training; and

(11) evaluate existing approaches to architectural and transportation barriers confronting handicapped individuals, develop new such approaches, enforce statutory and regulatory standards and requirements regarding barrier-free construction of public facilities and study and develop solutions to existing housing and transportation barrier impeding handicapped individuals.

REHABILITATION SERVICES ADMINISTRATION

SEC. 3. (a) There shall be in the Department of Health, Education, and Welfare a Rehabilitation Services Administration which shall be administered by a Commissioner (hereinafter referred to as the "Commissioner"). The Commissioner shall carry out and administer all programs and direct the performance of all services for which authority is provided under titles I through IV of this Act.

(b) There shall be within such Administration a Division of Research, Training, and Evaluation, which shall be responsible for carrying out programs and projects under title IV of this Act. There shall be within such Division a Center for Technology Assessment and Application, which shall be responsible for developing and supporting, and stimulating the development and utilization (including production and distribution of new and existing devices) of, innovative methods of applying advanced medical technology, scientific achievement, and psychological and social knowledge to solve rehabilitation problems, and for administration of the activities described in section 402(b)(2). Such Division shall be directed by an Assistant Commissioner, who shall be responsible to the Commissioner and shall be a person of outstanding scientific and technological achievement and learning and shall carry out his responsibilities in consultation with the National Science Foundation and the National Academy of Sciences, and shall be assigned at least ten full-time positions, five of which shall be filled by professionals of qualifications similar to the Assistant Commissioner.

(c) The Secretary shall take whatever action is necessary to insure that funds appropriated pursuant to this Act, as well as unexpended appropriations for carrying out the Vocational Rehabilitation Act (29 U.S.C. 31–42), are expended only for the programs, personnel, and administration of programs carried out under this Act.

(d) In order to carry out the purposes of this Act—

(1) the number of positions authorized by section 5108(a) of title 5, United States Code, and assigned to the Rehabilitation Services Administration, is increased by ten, and

(2) the authorized level of full-time personnel, or the equivalent, assigned to the Rehabilitation Services Administration to carry out duties related to the administration of this Act, is increased by sixty.

ADVANCE FUNDING

SEC. 4. (a) For the purpose of affording adequate notice of funding available under this Act, appropriations under this Act are authorized to be included in the appropriation Act for the fiscal year preceding the fiscal year for which they are available for obligation.

(b) In order to effect a transition to the advance funding method of timing appropriation action, the authority provided by subsection (a) of this section shall apply notwithstanding that its initial application will result in the enactment in the same year (whether in the same appropriation Act or otherwise) of two separate appropriations, one for the then current fiscal year, and one for the succeeding fiscal year.

JOINT FUNDING

SEC. 5. Pursuant to regulations prescribed by the President, and to the extent consistent with the other provisions of this Act, where funds are provided for a single project by more than one Federal agency to an agency or organization assisted under this Act, the Federal agency principally involved may be designated to act for all in administering the funds provided, and, in such cases, a single non-Federal share requirement may be established according to the proportion of funds advanced by each agency. When the principal agency involved is the Rehabilitation Services Administration, it may waive any grant or contract requirement (as defined by such regulations) under or pursuant to any law other than this Act, which requirement is inconsistent with the similar requirements of the administering agency under or pursuant to this Act.

CONSOLIDATED REHABILITATION PLAN

SEC. 6. (a) In order to secure increased flexibility to respond to the varying needs and local conditions within the State, and in order to permit more effective and interrelated planning and operation of its rehabilitation programs, the State may submit a consolidated rehabilitation plan which includes the State's plan under section 101(a) of this Act and its program for persons with developmental disabilities under the Developmental Disabilities Services and Facilities Construction Amendments of 1970: *Provided,* That the agency administering such State's program under such Act concurs in the submission of such a consolidated rehabilitation plan.

(b) Such a consolidated rehabilitation plan must comply with, and be administered in accordance with, all the requirements of this Act and the Developmental Disabilities Services and Facilities Construction Amendments of 1970. If the Secretary finds that all such requirements are satisfied, he may approve the plan to serve in all respects as the substitute for the separate plans which would otherwise be required with respect to each of the programs included therein, or he may advise the State to submit separate plans for such programs.

(c) Findings of noncompliance in the administration of an approved consolidated rehabilitation plan, and any reductions, suspensions, or terminations of assistance as a result thereof, shall be carried out in accordance with the procedures set forth in subsections (c) and (d) of section 101 of this Act.

DEFINITIONS

SEC. 7. For the purposes of this Act:

(1) The term "comprehensive rehabilitation services" means vocational rehabilitation services and any other goods (including aids and devices) or services provided with funds under titles II, III, or IV of this Act that will make a substantial contribution in helping a handicapped individual to improve his ability to live independently or function normally with his family and community.

(2) The term "construction" means the construction of new buildings, the acquisition, expansion, remodeling, alteration, and renovation of existing buildings, and initial equipment of such buildings, and the term "cost of construction" includes architects' fees and acquisition of land in connection with construction but does not include the cost of offsite improvements.

(3) The term "criminal act" means any crime, including an act, omission, or possession under the laws of the United States or a State or unit of general local government which poses a substantial threat of personal injury, notwithstanding that by reason of age, insanity, intoxication or otherwise the person engaging in the act, omission, or possession was legally incapable of committing a crime.

(4) The term "establishment of a rehabilitation facility" means, the acquisition, expansion, remodeling, or alteration of existing buildings necessary to adapt them to rehabilitation facility purposes or to increase their effectiveness for such purposes (subject, however, to such limitations as the Commissioner may determine, in accordance with regulations he shall prescribe, in order to prevent impairment of the objectives of, or duplication of, other Federal laws providing Federal assistance in the construction of such facilities), and the initial equipment for such buildings, and may include the initial staffing thereof.

(5) The term "evaluation of rehabilitation potential" means, as appropriate in each case:

(A) a preliminary diagnostic study to determine that the individual has a substantial handicap to employment, and that vocational or comprehensive services are needed;

(B) a diagnostic study consisting of a comprehensive evaluation of pertinent medical, psychological, vocational, educational, cultural, social, and environmental factors which bear on the individual's handicap to employment and rehabilitation potential including, to the degree needed, an evaluation of the individual's personality, intelligence level, educational achievements, work experience, vocational aptitudes and interests, personal and social adjustments, employment opportunities, and other pertinent data helpful in determining the nature and scope of services needed;

(C) an appraisal of the individual's patterns of work behavior and ability to acquire occupational skill, and to develop work attitudes, work habits, work tolerance, and social and behavior patterns suitable for successful job performance, including the utilization of work, simulated or real, to assess and develop the individual's capacities to perform adequately in a work environment;

(D) any other goods or services provided for the purpose of ascertaining the nature of the handicap and whether it may reasonably be expected that the individual can benefit from vocational rehabilitation services or comprehensive rehabilitation services;

(E) referral;

(F) the administration of these evaluation services; and

(G) (i) the provision of vocational rehabilitation services or the provision of comprehensive rehabilitation services to any individual for a total period not in excess of eighteen months for the purpose of determining whether such individual is a handicapped individual, a handicapped individual for whom a vocational goal is not possible or feasible (as determined in accordance with section 102(c)), or neither such individual; and (ii) an assessment, at least once in every ninety-day period during which such services are provided, of the results of the provision of such services to an individual to ascertain whether any of the determinations described in subclause (i) may be made.

(6) The term "Federal share" means 80 per centum, except that it shall mean 90 per centum for the purposes of part C of title I and title II of this Act and section 301: *Provided*, That with respect to payments pursuant to part B of title I of this Act to any State which are used to meet the costs of construction of those rehabilitation facilities identified in section 103(b)(2) in such State, the Federal share shall be the percentages determined in accordance with the provisions of section 301(b)(3) applicable with respect to that State and that, for the purpose of determining the non-Federal share with respect to any State, expenditures by a political subdivision thereof or by a local agency shall, subject to such limitations and conditions as the Commissioner shall by regulation prescribe, be regarded as expenditures by such State.

(7) The term "handicapped individual" means any individual who (A) has a physical or mental disability which for such individual constitutes or results in a substantial handicap to employment and (B) can reasonably be expected to benefit from vocational services, or comprehensive rehabilitation services provided pursuant to title II, III, or IV of this Act.

(8) The term "local agency" means an agency of a unit of general local government or of an Indian tribal organization (or combination of such units or organizations) which has an agreement with the State agency designated pursuant to section 101(a)(1) to conduct a vocational rehabilitation program under the supervision of such State agency in accordance with the State plan approved under section 101. Nothing in the preceding sentence of this paragraph or in section 101 shall be construed to prevent the local agency from utilizing another local public or nonprofit agency to provide vocational or comprehensive rehabilitation services: *Provided*, That such an arrangement is made part of the agreement specified in this paragraph.

(9) The term "nonprofit", when used with respect to a rehabilitation facility, means a rehabilitation facility owned and operated by a corporation or association, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual and the income of which is exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1954.

(10) The term "public safety officer" means a person serving the United States or a State or unit of general local government, with or without compensation, in any activity pertaining to—

(A) the enforcement of the criminal laws, including highway patrol, or the maintenance of civil peace by the National Guard or the Armed Forces.

(B) a correctional program, facility, or institution where the activity is potentially dangerous because of contact with criminal suspects, defendants, prisoners, probationers, or parolees.

(C) a court having criminal or juvenile delinquent jurisdiction where the activity is potentially dangerous because of contact with criminal suspects, defendants, prisoners, probationers, or parolees, or

(D) firefighting, fire prevention, or emergency rescue missions.

(11) The term "rehabilitation facility" means a facility which is operated for the primary purpose of providing vocational rehabilitation or comprehensive rehabilitation services to handicapped individuals, and which provides singly or in combination one or more of the following services for handicapped individuals: (A) vocational and comprehensive rehabilitation services which shall include, under one management, medical, psychological, social, and vocational services, (B) testing, fitting, or training in the use of prosthetic and orthotic devices, (C) prevocational conditioning or recreational therapy, (D) physical and occupational therapy, (E) speech and hearing therapy, (F) psychological and social services, (G) evaluation of rehabilitation potential, (H) personal and work adjustment, (I) vocational training with a view toward career advancement (in combination with other rehabilitation services), (J) evaluation or control of specific disabilities, (K) orientation and mobility services to the blind, and (L) extended employment for those handicapped individuals who cannot be readily absorbed in the competitive labor market, except that all medical and related health services must be prescribed by, or under the formal supervision of, persons licensed to prescribe or supervise the provision of such services in the State.

(12) The term "Secretary", except when the context otherwise requires, means the Secretary of Health, Education, and Welfare.

(13) The term "severe handicap" means the disability which requires multiple services over an extended period of time and results from amputation, blindness, cancer, cerebral palsy, cystic fibrosis, deafness, heart disease, hemiplegia, respiratory or pulmonary dysfunction, mental retardation, mental illness, multiple sclerosis, muscular dystrophy, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia and other spinal cord conditions, renal failure, and any other disability specified by the Commissioner in regulations he shall prescribe.

(14) The term "State" includes the District of Columbia, the Virgin Islands, Puerto Rico, Guam, American Samoa, and the Trust Territory of the Pacific Islands, and for the purposes of American Samoa and the Trust Territory of the Pacific Islands, the appropriate State agency designated as provided in section 101(a)(1) shall be the Governor of American Samoa or the High Commissioner of the Trust Territory of the Pacific Islands, as the case may be.

(15) The term "vocational rehabilitation services" means those services identified in section 103 which are provided to handicapped individuals under this Act.

#### ALLOTMENT PERCENTAGE

SEC. 8. (a)(1) The allotment percentage for any State shall be 100 per centum less than percentage which bears the same ratio to 50 per centum as the per capita income of such State bears to the per capita income of the United States, except that (A) the allotment percentage shall in no case be more than 75 per centum or less than 33⅓ per centum, and (B) the allotment percentage for the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands shall be 75 per centum.

(2) The allotment percentages shall be promulgated by the Commissioner between July 1 and September 30 of each even-numbered year, on the basis of the average of the per capita incomes of the States and of the United States for the three most recent consecutive years for which satisfactory data are available from the Department of Commerce. Such promulgation shall be conclusive for each of the two fiscal years in the period beginning on the July 1 next succeeding such promulgation.

(3) The term "United States" means (but only for purposes of this subsection) the fifty States and the District of Columbia.

(b) The population of the several States and of the United States shall be determined on the basis of the most recent data available, to be furnished by the Department of Commerce by October 1 of the year preceding the fiscal year for which funds are appropriated pursuant to statutory authorizations.

#### AUDIT

SEC. 9. Each recipient of a grant or contract under this Act shall keep such records as the Secretary may prescribe, including records which fully disclose the amount and disposition by such recipient of the proceeds of such grant or contract, the total cost the project or undertaking in connection with which such grant or contract is made or funds thereunder used, the amount of that portion of the cost of the project or undertaking supplied by other sources, and such records as will facilitate an effective audit. The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient of any grant or contract under this Act which are pertinent to such grant or contract.

#### NONDUPLICATION

SEC. 10. In determining the amount of any State's Federal share of expenditures for planning, administration, and services incurred by it under a State plan approved in accordance with section 101 or for the purposes of providing comprehensive rehabilitation services pursuant to title II of this Act, there shall be disregarded (1) any portion of such expenditures which are financed by Federal funds provided under any other provision of law, and (2) the amount of any non-Federal funds required to be expended as a condition of receipt of such Federal funds. No payment may be made from funds provided under one provision of this Act relating to any cost with respect to which any payment is made under any other provision of this Act.

## TITLE I—VOCATIONAL REHABILITATION SERVICES

### PART A—GENERAL PROVISIONS

#### DECLARATION OF PURPOSE; AUTHORIZATION OF APPROPRIATIONS

SEC. 100. (a) The purpose of this title is to authorize grants to assist States to meet the current and future needs of handicapped individuals, so that such individuals may prepare for and engage in gainful employment to the extent of their capabilities.

(b)(1) For the purpose of making grants to States under part B of this title to assist them in meeting costs of vocational rehabilitation services provided in accordance with State plans under section 101, there is authorized to be appropriated $800,000,000 for the fiscal year ending June 30, 1973, and $975,000,000 for the fiscal year ending June 30, 1974.

(2) For the purpose of making grants under section 120, relating to grants to States and public and nonprofit agencies to assist them in meeting the costs of projects to initiate or expand services to handicapped individuals (especially those with the most severe handicaps) there is authorized to be appropriated $50,000,000 for the fiscal year ending June 30, 1973, $60,000,000 for the fiscal year ending June 30, 1974, and $75,000,000 for the fiscal year ending June 30, 1975.

#### STATE PLANS

SEC. 101. (a) For each fiscal year in which a State desires to participate in programs under this title and pursuant to title II of this Act, a State shall submit to the Commissioner for his approval an annual plan for vocational and comprehensive rehabilitation services which shall—

(1) (A) designate a State agency as the sole State agency to administer the plan, or to supervise its administration by a local agency, except that (i) where under the State's law the State agency for the blind or other agency which provides assistance or services to the adult blind, is authorized to provide vocational and comprehensive rehabilitation services to such individuals, such agency may be designated as the sole State agency to administer the part of the plan under which vocational and comprehensive rehabilitation services are provided for the blind (or to supervise the administration of such part by a local agency) and a separate State agency may be designated as the sole State agency with respect to the rest of the State plan, and (ii) the Secretary, upon the request of a State, may authorize such agency to share funding and administrative responsibility with another agency of the State or with a local agency in order to permit such agencies to carry out a joint program to provide services to handicapped individuals, and may waive compliance with respect to vocational rehabilitation services furnished under such programs with the requirement of clause (4) of this subsection that the plan be in effect in all political subdivisions of the State;

(B) provide that the State agency so designated to administer or supervise the administration of the State plan, or (if there are two State agencies designated under subclause (A) of this clause) to supervise or administer the part of the State plan that does not relate to services for the blind, shall be (i) a State agency primarily concerned with vocational rehabilitation, or vocational and other rehabilitation, of handicapped individuals, (ii) the State agency administering or supervising the administration of education or vocational education in the State, or (iii) a State agency which includes at least two other major organizational units each of which administers one or more of the major public education, public health, public welfare, or labor programs of the State;

(2) provide, except in the case of agencies decribed in clause (1) (B) (i)—

(A) that the State agency designated pursuant to paragraph (1) (or each State agency if two are so designated) shall include a vocational rehabilitation bureau, division, or other organizational unit which (i) is primarily concerned with vocational rehabilitation, or vocational and other rehabilitation of handicapped individuals, and is responsible for the vocational rehabilitation program of such State agency, (ii) has a full-time director, and (iii) has a staff employed on such rehabilitation work of such organizational unit all or substantially all of whom are employed full time on such work; and

(B) (i) that such unit shall be located at an organizational level and shall have an organizational status within such State agency comparable to that of other major organizational units of such agency, or (ii) in the case of an agency described in clause (1) (B) (ii), either that such unit shall be so located and have such status, or that the director of such unit shall be the executive officer of such State agency; except that, in the case of a State which has designated only one State agency pursuant to clause (1) of this subsection, such State may, if it so desires, assign responsibility for the part of the plan under which vocational and comprehensive rehabilitation services are provided for the blind to one organizational unit of such agency and assign responsibility for the rest of the plan to another organizational unit of such agency, with the provisions of this clause applying separately to each of such units;

(3) provide for financial participation by the State, or if the State so elects, by the State and local agencies to meet the amount of the non-Federal share;

(4) provide that the plan shall be in effect in all political subdivisions, except that in the case of any activity which, in the judgment of the Commissioner, is likely to assist in promoting the vocational rehabilitation of substantially larger numbers of handicapped individuals or groups of handicapped individuals the Commissioner may waive compliance with the requirement herein that the plan be in effect in all political subdivisions of the State to the extent and for such period as may be provided in accordance with regulations prescribed by him, but only if the non-Federal share of the cost of such vocational rehabilitation services is met from funds made available by a local agency (including, to the extent permitted by such regulations, funds contributed to such agency by a private agency, organization, or individual);

(5) (A) contain the plans, policies, and methods to be followed in carrying out the State plan and in its administration and supervision, including a description of the method to be used to expand and improve services to handicapped individuals with the most severe handicaps; and, in the event that vocational rehabilitation services cannot be provided to all eligible handicapped individuals who apply for such services, show (i) the order to be followed in selecting individuals to whom vocational rehabilitation services will be provided, and show the order to be followed in selecting individuals to whom comprehensive rehabilitation services will be provided, and (ii) the outcomes and service goals, and the time within which they may be achieved, for the rehabilitation of such individuals, which order of selection for the provision of vocational rehabilitation services shall be determined on the basis of serving first those individuals with the most severe handicaps and shall be consistent with priorities in such order of selection so determined, and outcome and service goals for serving handicapped individuals, established in regulations prescribed by the Commissioner, and

(B) provide satisfactory assurances to the Commissioner that the State has studied and considered a broad variety of means for providing services to individuals with the most severe handicaps;

(6) (A) contain the plans, policies, and methods to be followed in providing comprehensive rehabilitation services pursuant to title II of this Act, and

(B) provide satisfactory assurances that no such comprehensive rehabilitation services shall be paid for with funds under title II of this Act unless maximum efforts have been made to secure grant assistance, in whole or in part, from other sources to pay for such services;

(7) provide for such methods of administration, other than methods relating to the establishment and maintenance of personnel standards, as are found by the Commissioner to be necessary for the proper and efficient administration of the plan;

(8) contain (A) provisions relating to the establishment and maintenance of personnel standards, which are consistent with any State licensure laws and regulations, including provisions relating to the tenure, selection, appointment, and qualifications of personnel, and (B) provisions relating to the establishment and maintenance of minimum standards governing the facilities and personnel utilized in the provision of vocational and comprehensive rehabilitation services, but the Commissioner shall exercise no authority with respect to the selection, method of selection, tenure of office, or compensation of any individual employed in accordance with such provisions;

(9) provide, at a minimum, for the provision of the vocational rehabilitation services specified in clauses (1) through (3) of subsection (a) of section 103, and the remainder of such services specified in such section after full consideration of eligibility for similar benefits under any other program, except that, in the case of the vocational rehabilitation services specified in clauses (4) and (5) of subsection (a) of such section, such consideration shall not be required where it would delay the provision of such services to any individual;

(10) provide that (A) an individualized written rehabilitation program meeting the requirements of section 102 will be developed for each handicapped individual eligible for vocational or comprehensive rehabilitation services under this Act, (B) such services will be provided under the plan in accordance with such program, and (C) records of the characteristics of each applicant will be kept specifying, as to those individuals who apply for services under this title or pursuant to title II of this Act and are determined not to be eligible therefor, the reasons for such determinations;

(11) provide that the State agency will make such reports in such form, containing such information (including the data described in subclause (C) of clause (10) of this subsection, periodic estimates of the population of handicapped individuals eligible for services under this Act in such State, specifications of the number of such individuals who will be served with funds provided under this Act and the outcomes and service goals to be achieved for such individuals in each priority category specified in accordance with clause (5) of this subsection, and the service costs for each such category), and at such time as the Commissioner may require to carry out his functions under this title, and comply with such provisions as he may find necessary to assure the correctness and verification of such reports;

(12) provide for entering into cooperative arrangements with, and the utilization of the services and facilities of, the State agencies administering the State's public assistance programs, other programs for handicapped individuals, veterans programs, manpower programs, and public employment offices, and the Social Security Administration of the Department of Health, Education, and Welfare, the Veterans' Administration, and other Federal, State, and local public agencies providing services related to the rehabilitation of handicapped individuals;

(13) provide satisfactory assurances to the Commissioner that in the provision of vocational rehabilitation and comprehensive rehabilitation services, maximum utilization shall be made of public or other vocational or technical training facilities or other appropriate resources in the community;

(14) (A) provide that vocational rehabilitation and comprehensive rehabilitation services provided under the State plan shall be available to any civil employee of the United States disabled while in the performance of his duty on the same terms and conditions as apply to other persons, and

(B) provide that special consideration will be given to the rehabilitation under this Act of a handicapped individual whose handicapping condition arises from a disability sustained in the line of duty while such individual was performing as a public safety officer and the proximate cause of such disability was a criminal act, apparent criminal act, or a hazardous condition resulting directly from the officer's performance of duties in direct connection with the enforcement, execution, and administration of law or fire prevention, firefighting, or related public safety activities;

(15) provide that no residence require-

ment will be imposed which excludes from services under the plan any individual who is present in the State;

(16) provide for continuing statewide studies of the needs of handicapped individuals and how these needs may be most effectively met (including the State's needs for rehabilitation facilities) with a view toward the relative need for services to significant segments of the population of handicapped individuals and the need for expansion of services to those individuals with the most severe handicaps;

(17) provide for (A) periodic review and reevaluation of the status of handicapped individuals placed in extended employment in rehabilitation facilities (including workshops) to determine the feasibility of their employment, or training for employment, in the competitive labor market, and (B) maximum efforts to place such individuals in such employment or training whenever it is determined to be feasible;

(18) provide that where such State plan includes provisions for the construction of rehabilitation facilities—

(A) the Federal share of the cost of construction thereof for a fiscal year will not exceed an amount equal to 10 per centum of the State's allotment for such year.

(B) the provisions of section 313 shall be applicable to such construction and such provisions shall be deemed to apply to such construction, and

(C) there shall be compliance with regulations the Commissioner shall prescribe designed to assure that no State will reduce its efforts in providing other vocational rehabilitation services (other than for the establishment of rehabilitation facilities) because its plan includes such provisions for construction;

(19) provide satisfactory assurances to the Commissioner that the State agency designated pursuant to clause (1) (or each State agency if two are so designated) and any sole local agency administering the plan in a political subdivision of the State will take into account, in connection with matters of general policy arising in the administration of the plan, the views of individuals and groups thereof who are recipients of vocational or comprehensive rehabilitation services (or, in appropriate cases, their parents or guardians), working in the field of vocational rehabilitation, and providers of vocational and comprehensive rehabilitation services; and

(20) provide satisfactory assurances to the Commissioner that the continuing studies required under clause (16) of this subsection, as well as an annual evaluation of the effectiveness of the program in meeting the goals and priorities set forth in the plan, will form the basis for the submission, from time to time as the Commissioner may require, of appropriate amendments to the plan.

(b) The Commissioner shall approve any plan which he finds fulfills the conditions specified in subsection (a) of this section, and he shall disapprove any plan which does not fulfill such conditions. Prior to such disapproval, the Commissioner shall notify a State of his intention to disapprove its plan, and he shall afford such State reasonable notice and opportunity for hearing.

(c) Whenever the Commissioner, after reasonable notice and opportunity for hearing to the State agency administering or supervising the administration of the State plan approved under this section, finds that—

(1) the plan has been so changed that it no longer complies with the requirements of subsection (a) of this section; or

(2) in the administration of the plan there is a failure to comply substantially with any such provision,

the Commissioner shall notify such State agency that no further payments will be made to the State under this title (or, in his discretion, that such further payments will be reduced, in accordance with regulations the Commissioner shall prescribe, or that further payments will not be made to the State only for the projects under the parts of the State plan affected by such failure), until he is satisfied there is no longer any such failure. Until he is so satisfied, the Commissioner shall make no further payments to such State under this title (or shall limit payments to projects under those parts of the State plan in which there is no such failure).

(d) If any State is dissatisfied with the Commissioner's action under subsection (b) or (c) of this section, such State may appeal to the United States district court for the district where the capital of such State is located and judicial review of such action shall be on the record in accordance with the provisions of chapter 7 of title 5, United States Code.

### INDIVIDUALIZED WRITTEN REHABILITATION PROGRAM

SEC. 102. (a) The Commissioner shall insure that the individualized written rehabilitation program required by section 101(a) (10) in the case of each handicapped individual is developed jointly by the vocational rehabilitation counselor or coordinator and the handicapped individual (or, in appropriate cases, his parents or guardians), and that such program meets the requirements set forth in subsection (b) of this section. Such written program shall set forth the terms and conditions, as well as the rights and remedies, under which goods and services will be provided to the individual.

(b) Each individualized written rehabilitation program shall be reviewed on an annual basis at which time each such individual (or, in appropriate cases, his parents or guardians) will be afforded an opportunity to review such program and renegotiate its terms. Such program shall include, but not be limited to (1) a statement of long-range rehabilitation goals for the individual and intermediate rehabilitation objectives related to the attainment of such goals, (2) a statement of the specific vocational or comprehensive rehabilitation services to be provided, (3) the projected date for the initiation and the anticipated duration of each such service, (4) objective criteria and an evaluation procedure and schedule for determining whether such objectives and goals are being achieved, and, (5) where appropriate, a detailed explanation of the availability of a client assistance project established in such area pursuant to section 112.

(c) The Commissioner shall also insure that (1) in developing and carrying out the individualized written rehabilitation program required by section 101 in the case of each handicapped individual primary emphasis is placed upon the determination and achievement of a vocational goal for such individual, (2) a decision that such an individual is not capable of achieving such a goal, and thus not eligible for vocational rehabilitation services provided with assistance under this part, is made only in full consultation with such individual (or, in appropriate cases, his parents or guardians), and only upon the certification, as an amendment to such written program, that the evaluation of rehabilitation potential has demonstrated beyond any reasonable doubt that such individual is not then capable of achieving such a goal, and

(3) any such decision shall be reviewed at least annually in accordance with the procedure and criteria established in this section.

### SCOPE OF VOCATIONAL REHABILITATION SERVICES

SEC. 103. (a) Vocational rehabilitation services provided under this Act are any goods or services necessary to render a handicapped individual employable, including, but not limited to, the following:

(1) evaluation of rehabilitation potential including diagnostic and related services, incidental to the determination of eligibility for, and the nature and scope of, services to be provided, including, where appropriate, examination by a physician skilled in the diagnosis and treatment of emotional disorders, or by a licensed psychologist in accordance with State laws and regulations, or both;

(2) counseling, guidance, referral, and placement services for handicapped individuals, including follow-up, follow-along, and other postemployment services necessary to assist such individuals to maintain their employment and services designed to help handicapped individuals secure needed services from other agencies, where such services are not available under this Act;

(3) vocational and other training services for handicapped individuals, which shall include personal and vocational adjustment, books, and other training materials, and services to the families of such individuals as are necessary to the adjustment or rehabilitation of such individuals: *Provided*, That no training services in institutions of higher education shall be paid for with funds under this title or title II of this Act unless maximum efforts have been made to secure grant assistance, in whole or in part, from other sources to pay for such training;

(4) physical and mental restoration services, including, but not limited to, (A) corrective surgery or therapeutic treatment necessary to correct or substantially modify a physical or mental condition which is stable or slowly progressive and constitutes a substantial handicap to employment, but is of such nature that such correction or modification may reasonably be expected to eliminate or substantially reduce the handicap within a reasonable length of time, (B) necessary hospitalization in connection with surgery or treatment, (C) prosthetic or orthotic devices, (D) eyeglasses and visual services as prescribed by a physician skilled in the diseases of the eye or by an optometrist, whichever the individual may select, (E) special services (including transplantation and dialysis), artificial kidneys, and supplies necessary for the treatment of individuals suffering from end-stage renal disease, and (F) diagnosis and treatment for mental and emotional disorders by a physician or licensed psychologist in accordance with State licensure laws;

(5) maintenance, not exceeding the estimated cost of subsistence, during rehabilitation;

(6) interpreter services for the deaf, and reader services for those individuals determined to be blind after an examination by a physician skilled in the diseases of the eye or by an optometrist, whichever the individual may select;

(7) recruitment and training services for handicapped individuals to provide them with new employment opportunities in the fields of rehabilitation, health, welfare, public safety, and law enforcement, and other appropriate service employment;

(8) rehabilitation teaching services and orientation and mobility services for the blind;

(9) occupational licenses, tools, equipment, and initial stocks and supplies;

(10) transportation in connection with the rendering of any vocational rehabilitation service; and

(11) telecommunications, sensory, and other technological aids and devices.

(b) Vocational rehabilitation services, when provided for the benefit of groups of individuals, may also include the following:

(1) in the case of any type of small business operated by individuals with the most severe handicaps the operation of which can be improved by management services and supervision provided by the State agency, the provision of such services and supervi-

sion, alone or together with the acquisition by the State agency of vending facilities or other equipment and initial stocks and supplies; and

(2) the construction or establishment of public or nonprofit rehabilitation facilities and the provision of other facilities and services which promise to contribute substantially to the rehabilitation of a group of individuals but which are not related directly to the individualized rehabilitation written program of any one handicapped individual.

NON-FEDERAL SHARE FOR CONSTRUCTION

SEC. 105. For the purpose of determining the amount of payments to States for carrying out part B of this title, the non-Federal share, subject to such limitations and conditions as may be prescribed in regulations by the Commissioner, shall include contributions of funds made by any private agency, organization, or individual to a State or local agency to assist in meeting the costs of construction or establishment of a public or nonprofit rehabilitation facility, which would be regarded as State or local funds except for the condition, imposed by the contributor, limiting use of such funds to construction or establishment of such facility.

## PART B—BASIC VOCATIONAL REHABILITATION SERVICES

STATE ALLOTMENTS

SEC. 110. (a) For each fiscal year, each State shall be entitled to an allotment of an amount bearing the same ratio to the amount authorized to be appropriated under subsection (b)(1) of section 100 for allotment under this section as the product of (1) the population of the State and (2) the square of its allotment percentage bears to the sum of the corresponding products for all the States. The allotment to any State (other than Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands) under the first sentence of this subsection for any fiscal year which is less than one-quarter of 1 per centum of the amount appropriated under section 100(b)(1), or $2,000,000, whichever is greater, shall be increased to that amount, the total of the increases thereby required being derived by proportionately reducing the allotments to each of the remaining such States under the first sentence of this subsection, but with such adjustments as may be necessary to prevent the allotment of any such remaining States from being thereby reduced to less than that amount.

(b) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this title, he shall make such amount available for carrying out the purposes of this title to one or more other States to the extent he determines such other State will be able to use such additional amount during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purposes of this part, be regarded as an increase of such State's allotment (as determined under the preceding provisions of this section) for such year.

PAYMENTS TO STATES

SEC. 111. (a) From each State's allotment under this part for any fiscal year, the Commissioner shall pay to such State an amount equal to the Federal share of the cost of vocational rehabilitation services under the plan for such State approved under section 101, including expenditures for the administration of the State plan, except that the total of such payments to such State for such fiscal year may not exceed its allotment under subsection (a) of section 110 for such year and such payments shall not be made in an amount which would result in a violation of the provisions of the State plan required by clause (18) of section 101(a), and except that the amount otherwise payable to such State for such year under this section shall be reduced by the amount (if any) by which expenditures from non-Federal sources during such year under this title are less than expenditures under the State plan for the fiscal year ending June 30, 1972, under the Vocational Rehabilitation Act.

(b) The method of computing and paying amounts pursuant to subsection (a) shall be as follows:

(1) The Commissioner shall, prior to the beginning of each calendar quarter or other period prescribed by him, estimate the amount to be paid to each State under the provisions of such subsection for such period, such estimate to be based on such records of the State and information furnished by it, and such other investigation, as the Commissioner may find necessary.

(2) The Commissioner shall pay, from the allotment available therefor, the amount so estimated by him for such period, reduced or increased, as the case may be, by any sum (not previously adjusted under this paragraph) by which he finds that his estimate of the amount to be paid the State for any prior period under such subsection was greater or less than the amount which should have been paid to the State for such prior period under such subsection. Such payment shall be made prior to audit or settlement by the General Accounting Office, shall be made through the disbursing facilities of the Treasury Department, and shall be made in such installments as the Commissioner may determine.

CLIENT ASSISTANCE

SEC. 112. (a) The Commissioner shall set aside out of funds appropriated under section 305 for special projects and demonstrations up to $2,500,000 but not less than $1,000,000 for the fiscal year ending on June 30, 1973, and up to $5,000,000 but no less than $1,000,000 each for the two succeeding fiscal years to establish in no less than 10 nor more than 20 geographically dispersed regions client assistance pilot projects (hereinafter in this section referred to as "projects") to provide counselors to inform and advise all clients and client applicants in the project area of all available benefits under this Act and to assist them in their relationships with projects, programs, and facilities providing services to them under this Act.

(b) The Commisisoner shall prescribe regulations which shall include the following requirements:

(1) All employees of such projects shall not be presently serving as staff consultants or receiving benefits of any kind directly or indirectly from any rehabilitation project, program or facility.

(2) The staff of such projects shall be afforded reasonable access to policy-making and administrative personnel in State and local rehabilitation programs, projects, and facilities.

(3) The project shall submit an annual report, through the State agency designated pursuant to section 101, to the Commissioner on the operation of the project during the previous year, including a summary of the work done and a uniform statistical tabulation of all cases handled by such project. A copy of each such report shall be submitted to the appropriate committees of the Congress by the Commissioner, together with a summary of such reports and his evaluation of such projects, including appropriate recommendations.

(4) Each State agency may enter into cooperative arrangements with institutions of higher education to secure the services in such projects of graduate students who are undergoing clinical training activities in related fields. No compensation with funds appropriated under this Act shall be provided to such students.

(5) Reasonable assurance shall be given by the appropriate State agency that all clients or client applicants within the project area shall have the opportunity to receive adequate service under the project and shall not be pressured against or otherwise discouraged from availing themselves of the services available under such project.

(6) The project shall be funded, administered, and operated directly by the State agency designated pursuant to section 101.

## PART C—INNOVATION AND EXPANSION GRANTS

STATE ALLOTMENTS

SEC. 120. (a)(1) From the sums available pursuant to section 100(b)(2) for any fiscal year for grants to States to assist them in meeting the costs described in section 121, each State shall be entitled to an allotment of an amount bearing the same ratio to such sums as the population of the State bears to the population of all the States. The allotment to any State under the preceding sentence for any fiscal year which is less than $50,000 (or such other amount as may be specified as a minimum allotment in the Act appropriating such sums for such year) shall be increased to that amount, and for the fiscal years ending June 30, 1973 and June 30, 1974, no State shall receive less than the amount necessary to cover up to 90 per centum of the cost of continuing projects assisted under section 4(a)(2)(A) of the Vocational Rehabilitation Act, except that no such project may receive financial assistance under both the Vocational Rehabilitation Act and this Act for a total period of time in excess of three years. The total of the increase required by the preceding sentence shall be derived by proportionately reducing the allotments to each of the remaining States under the first sentence of this section, but with such adjustments as may be necessary to prevent the allotment of any of such remaining States from thereby being reduced to less than $50,000.

(b) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this section, he shall make such amount available for carrying out the purposes of this section to one or more other States which he determines will be able to use additional amounts during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for purposes of this part, be regarded as an increase of such State's allotment (as determined under the preceding provisions of this section) for such year.

PAYMENTS TO STATES

SEC. 121. (a) From each State's allotment under this part for any fiscal year, the Commissioner shall pay to such State or, at the option of the State agency designated pursuant to section 101(a)(1), to a public or nonprofit organization or agency, a portion of the cost of planning, preparing for, and initiating special programs under the State plan approved pursuant to section 101 to expand vocational rehabilitation services, including programs to initiate or expand such services to individuals with the most severe handicaps, or of special programs under such State plan to initiate or expand services to classes of handicapped individuals who have unusual and difficult problems in connection with their rehabilitation, particularly handicapped individuals who are poor and responsibility for whose treatment, education, and rehabilitation is shared by the State agency designated in section 101 with other agencies. The Commissioner may require that any portion of a State's allotment under this section, but not more than 50 per centum of such allotment, may be expended in connection with only such projects as have first been approved by the Commissioner. Any grant of funds under this section which will be used for direct services to handicapped individuals or for establishing or maintaining facilities which will render direct services to such individuals must have the prior approval of the appropriate State agency designated pursuant to section 101.

(b) Payments under this section with respect to any project may be made for a period of not to exceed three years beginning with the commencement of the project as approved, and sums appropriated for grants under this section shall remain available for such grants through the fiscal year ending June 30, 1976. Payments with respect to any project may not exceed 90 per centum of the cost of such project. The non-Federal share of the cost of a project may be in cash or in kind and may include funds spent for project purposes by a cooperating public or nonprofit agency provided that it is not included as a cost in any other federally financed program.

(c) Payments under this section may be made in advance or by way of reimbursements for services performed and purchases made, as may be determined by the Commissioner, and shall be made on such conditions as the Commissioner finds necessary to carry out the purposes of this section.

## TITLE II—COMPREHENSIVE REHABILITATION SERVICES

### DECLARATION OF PURPOSE; AUTHORIZATION OF APPROPRIATIONS

SEC. 20. (a) The purpose of this title is to authorize grants (supplementary to grants for vocational rehabilitation services under title I of this Act) to assist the several States in developing and implementing continuing plans for meeting the current and future needs of handicapped individuals for whom a vocational goal is not possible or feasible, including the assessment of disability and rehabilitation potential, and for the training of specialized personnel needed for the provision of services to such individuals and research related thereto.

(b) In order to make grants to carry out the purposes of this title, there is authorized to be appropriated $30,000,000 for the fiscal year ending June 30, 1973, $50,000,000 for the fiscal year ending June 30, 1974, and $80,000,000 for the fiscal year ending June 30, 1975.

### STATE ALLOTMENTS

SEC. 201. (a) From sums appropriated to carry out the provisions of this title for each fiscal year, less the amounts reserved by the Commissioner for projects under section 204, each State shall be entitled to an allotment of an amount bearing the same ratio to such sums as the product of (1) the population of the State, and (2) its allotment percentage bears to the sum of the corresponding products for all of the States. The allotment to any State under the preceding sentence for any fiscal year which is less than $150,000 shall be increased to that amount, the total of the increases thereby required being derived by proportionately reducing the allotments to each of the remaining States under the preceding sentence, but with such adjustments as may be necessary to prevent the allotment of any such remaining States from being thereby reduced to less than that amount.

(b) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this section, he shall make such amount available for carrying out the purposes of this section to one or more other States to the extent he determines such other State will be able to use additional amounts during such year for carrying out such purpose. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purpose of this title, be regarded as an increase in the State's allotment (as determined under the preceding provisions of this section) for such year.

(c) In any fiscal year for which appropriations pursuant to this section do not exceed $20,000,000, the Commissioner, subsections (a) and (b) of this section and section 202 (a) to the contrary notwithstanding and subject to the provisions of section 313, shall carry out the purposes of this title by making grants to States and public or nonprofit organizations and agencies to pay the Federal share of the expenditures for such projects. Projects receiving such grants shall be carried out under the State plan approved under section 101 (except for the priorities in the order of selection required by section 101 (a)(5)(A)) in a manner consistent with the State program submitted under section 203.

### PAYMENTS TO STATES

SEC. 202. (a) From each State's allotment under this title for any fiscal year, the Commissioner shall pay to such State the Federal share of the expenditures incurred during such year under its State program submitted under section 203 and approved as part of the State plan approved under section 101. Such payments may be made (after necessary adjustments on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments and on such conditions as the Commissioner may determine.

(b) The Federal share with respect to any State shall be 90 per centum of the expenditures incurred by the State during such year under its State program submitted under section 203 and approved as part of the State plan under section 101.

### STATE PROGRAMS

SEC. 203. As a condition for receiving grants under this Act for the fiscal year ending June 30, 1973, a State must submit within one hundred and eighty days after the date of enactment of this Act an amendment to its plan submitted to the Commissioner under section 101 or to the Secretary under section 5 of the Vocational Rehabilitation Act which includes a program for provision of comprehensive rehabilitation services to about the rehabilitation of handicapped individuals under this title. A State shall also include such a program in its plan under section 101 submitted for each subsequent fiscal year. Such program, in addition to those requirements provided in section 101(a)(6), shall (1) designate the State agency or agencies administering the State plan for vocational rehabilitation as the agency or agencies to administer funds provided under this title; (2) provide that comprehensive rehabilitation services will be provided for the rehabilitation of handicapped individuals only in accordance with the individualized written rehabilitation program required by section 102 and only after the requirements of subsection (c) of such section have been met; (3) describe the quality, scope, and extent of the services being provided; (4) demonstrate that the State has studied and considered a broad variety of means for providing comprehensive rehabilitation services under this title, including but not limited to, regional and community centers, halfway houses, services to homebound and institutionalized individuals, and patient-release programs, where such programs are appropriate and beneficial; (5) be approved or disapproved under the criteria and procedures provided with respect to the State plan submitted under section 101; and (6) conform to such other requirements as the Commissioner by regulation may prescribe.

### SPECIAL PROJECTS

SEC. 204. From sums appropriated under section 200(b), the Commissioner may retain not to exceed 10 per centum or $500,000, whichever is smaller, to enable him to make grants to States and public and nonprofit agencies or organizations to pay part of the cost of projects for research and demonstration and training which hold promise of making a substantial contribution to the solution of problems related to the rehabilitation of individuals under this title.

### DEFINITION

SEC. 205. For the purposes of this title, the term "rehabilitation" means the goal of achieving, through the provision of comprehensive rehabilitation services, substantial improvement in the ability to live independently or function normally with his family or community on the part of a handicapped individual, who, according to a certification under section 102(c), is not then capable of achieving a vocational goal.

## TITLE III—SPECIAL FEDERAL RESPONSIBILITIES

### DECLARATION OF PURPOSE

SEC. 300. The purpose of this title is to—

(1) authorize grants and contracts to assist in the construction and initial staffing of rehabilitation facilities;

(2) authorize grants and contracts to assist in the provision of vocational training services to handicapped individuals;

(3) to insure mortgages covering the construction of certain nonprofit rehabilitation facilities and authorize annual interest grants to help meet the costs of making principal payments in connection with such mortgages, whether so insured or not;

(4) authorize grants for special projects and demonstrations which hold promise of expanding or otherwise improving rehabilitation services to handicapped individuals, which experiment with new types or patterns of services or devices for the rehabilitation of handicapped individuals (including opportunities for new careers for handicapped individuals, and for other individuals in programs serving handicapped individuals) and which provide vocational and comprehensive rehabilitation services to handicapped migratory agricultural workers or seasonal farmworkers;

(5) establish and operate a National Center for Deaf-Blind Youths and Adults;

(6) authorize grants and contracts to establish and operate Rehabilitation Centers for Deaf Individuals;

(7) establish and operate National Centers for Spinal Cord Injuries;

(8) provide services for the treatment of individuals suffering from end-stage renal disease;

(9) authorize grants and contracts to assist in the provision of rehabilitation services to older blind individuals and in the application of new types or patterns of services or devices for the benefit of such individuals;

(10) establish a National Advisory Council on Rehabilitation of Handicapped Individuals to advise the Commissioner and Secretary and conduct reviews with respect to programs carried out under this Act;

(11) establish State Advisory Councils to advise Governors and State agencies in carrying out State plans approved under this Act; and

(12) establish uniform grant and contract requirements for programs assisted under this title and certain other provisions of this Act.

### GRANTS FOR CONSTRUCTION OF REHABILITATION FACILITIES

SEC. 301. (a) For the purpose of making grants and contracts under this section for construction of rehabilitation facilities, initial staffing, and planning assistance, there is authorized to be appropriated $35,000,000 for the fiscal year ending June 30, 1973; $40,000,000 for the fiscal year ending June 30, 1974; and $45,000,000 for the fiscal year ending June 30, 1975. Amounts so appropriated shall remain available for expenditure with respect to construction projects funded or initial staffing grants made under this section prior to July 1, 1977.

(b)(1) The Commissioner is authorized to make grants to assist in meeting the costs of construction of public or nonprofit rehabilitation facilities. Such grants may be made to States and public or nonprofit organizations and agencies for projects for which applications are approved by the Commissioner under this section.

(2) To be approved, an application for a grant for a construction project under this section must conform to the provisions of section 313.

(3) The amount of a grant under this section with respect to any construction project in any State shall be equal to the same percentage of the cost of such project as the Federal share which is applicable in the case of rehabilitation facilities (as defined in section 645(g) of the Public Health Service Act (42 U.S.C. 291o(a)), in such State, except that if the Federal share with respect to rehabilitation facilities in such State is determined pursuant to subparagraph (b)(2) of section 645 of such Act (42 U.S.C. 291o(b)(2)), the percentage of the cost for purposes of this section shall be determined in accordance with regulations prescribed by the Commissioner designed to achieve as nearly as practicable results comparable to the results obtained under such subparagraph.

(c) The Commissioner is also authorized to make grants to assist in the initial staffing of any public or nonprofit rehabilitation facility constructed after the date of enactment of this section (whether or not such construction was financed with the aid of a grant under this section) by covering part of the costs (determined in accordance with regulations the Commissioner shall prescribe) of compensation of professional or technical personnel of such facility during the period beginning with the commencement of the operation of such facility and ending with the close of four years and three months after the month in which such operation commenced. Such grants with respect to any facility may not exceed 75 per centum of such costs for the period ending with the close of the fifteenth month following the month in which such operation commenced, 60 per centum of such costs for the first year thereafter, 45 per centum of such costs for the second year thereafter, and 30 per centum of such costs for the third year thereafter.

(d) The Commissioner is also authorized to make grants upon application approved by the State agency designated under section 101 to administer the State plan, to public or nonprofit agencies, institutions, or organizations to assist them in meeting the cost of planning rehabilitation facilities and the services to be provided by such facilities.

### VOCATIONAL TRAINING SERVICES FOR HANDICAPPED INDIVIDUALS

SEC. 302. (a) For the purpose of making grants and contracts under this section, there is authorized to be appropriated $30,000,000 for the fiscal year ending June 30, 1973; $35,000,000 for the fiscal year ending June 30, 1974; and $40,000,000 for the fiscal year ending June 30, 1975.

(b)(1) The Commissioner is authorized to make grants to State and public or nonprofit organizations and agencies to pay up to 90 per centum of the cost of projects for providing vocational training services to handicapped individuals, especially those with the most severe handicaps, in public or nonprofit rehabilitation facilities.

(2)(A) Vocational training services for purposes of this subsection shall include training with a view toward career advancement; training in occupational skills; related services, including work evaluation, work testing, provision of occupational tools and equipment required by the individual to engage in such training, and job tryouts; and payment of weekly allowances to individuals receiving such training and related services.

(B) Such allowances may not be paid to any individual for any period in excess of two years, and such allowances for any week shall not exceed $30 plus $10 for each of the individual's dependents, or $70, whichever is less. In determining the amount of such allowances for any individual, consideration shall be given to the individual's need for such an allowance, including any expenses reasonably attributable to receipt of training services, the extent to which such an allowance will help assure entry into and satisfactory completion of training, and such other factors, specified by the Commissioner, as will provide such individual's capacity to engage in gainful and suitable employment.

(3) The Commissioner may make a grant for a project pursuant to this subsection only on his determination that (A) the purpose of such project is to prepare handicapped individuals, especially those with the most severe handicaps, for gainful and suitable employment; (B) the individuals to receive training services under such project will include only those who have been determined to be suitable for and in need of such training services by the State agency or agencies designated as provided in section 101(a)(1) of the State in which the rehabilitation facility is located; (C) the full range of training services will be made available to each such individual, to the extent of his need for such services; and (D) the project, including the participating rehabilitation facility and the training services provided, meet such other requirements as he may prescribe in regulations for carrying out the purposes of this subsection.

(c)(1) The Commissioner is authorized to make grants to public or nonprofit rehabilitation facilities, or to an organization or combination of such facilities, to pay the Federal share of the cost of projects to analyze, improve, and increase their professional services to handicapped individuals, their management effectiveness, or any other part of their operations affecting their capacity to provide employment and services for such individuals.

(2) No part of any grant made pursuant to this subsection may be used to pay costs of acquiring, constructing, expanding, remodeling, or altering any building.

### MORTGAGE INSURANCE FOR REHABILITATION FACILITIES

SEC. 303. (a) It is the purpose of this section to assist and encourage the provision of urgently needed facilities for programs for handicapped individuals.

(b) For the purpose of this section the terms "mortgage", "mortgagor", "mortgagee", "maturity date", and "State" shall have the meanings respectively set forth in section 207 of the National Housing Act.

(c) The Commissioner, in consultation with the Secretary of Housing and Urban Development, and subject to the provisions of section 313, is authorized to insure up to 100 per centum of any mortgage (including advances on such mortgage during construction) in accordance with the provisions of this section upon such terms and conditions as he may prescribe and make commitments for insurance of such mortgage prior to the date of its execution or disbursement thereon, except that no mortgage of any public agency shall be insured under this section if the interest from such mortgage is exempt from Federal taxation.

(d) In order to carry out the purpose of this section, the Commissioner is authorized to insure any mortgage which covers construction of a public or nonprofit rehabilitation facility, including equipment to be used in its operation, subject to the following conditions:

(1) The mortgage shall be executed by a mortgagor, approved by the Commissioner, who demonstrates ability successfully to operate one or more programs for handicapped individuals. The Secretary may in his discretion require any such mortgagor to be regulated or restricted as to minimum charges and methods of financing, and, in addition thereto, if the mortgagor is a corporate entity, as to capital structure and rate of return. As an aid to the regulation or restriction of any mortgagor with respect to any of the foregoing matters, the Commissioner may make such contracts with and acquire for not to exceed $100 such stock of interest in such mortgagor as he may deem necessary. Any stock or interest so purchased shall be paid for out of the Rehabilitation Facilities Insurance Fund (established by subsection (h) of this section), and shall be redeemed by the mortgagor at par upon the termination of all obligations of the Commissioner under the insurance.

(2) The mortgage shall involve a principal obligation in an amount not to exceed 90 per centum of the estimated replacement cost of the property or project, including equipment to be used in the operation of the rehabilitation facility, when the proposed improvements are completed and the equipment is installed, but not including any cost covered by grants in aid under this Act or any other Federal Act.

(3) The mortgage shall—

(A) provide for complete amortization by periodic payments within such term as the Commissioner shall prescribe, and

(B) bear interest (exclusive of premium charges for insurance and service charges, if any) at not to exceed such per centum per annum on the principal obligation outstanding at any time as the Commissioner finds necessary to meet the mortgage market.

(e) The Commissioner shall fix and collect premium charges for the insurance of mortgages under this section which shall be payable annually in advance by the mortgagee, either in cash or in debentures of the Rehabilitation Facilities Insurance Fund (established by subsection (h) of this section) issued at par plus accrued interest. In the case of any mortgage such charge shall be not less than an amount equivalent to one-fourth of 1 per centum per annum nor more than an amount equivalent to 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any one time, without taking into account delinquent payments or prepayments. In addition to the premium charge herein provided for the Commissioner is authorized to charge and collect such amounts as he may deem reasonable for the appraisal of a property or project during construction; but such charges for appraisal and inspection shall not aggregate more than 1 per centum of the original principal face amount of the mortgage.

(f) The Commissioner may consent to the release of a part or parts of the mortgaged property or project from the lien of any mortgage insured under this section upon such terms and conditions as he shall by regulation prescribe.

(g)(1) The Commissioner shall have the same functions, powers, and duties (insofar as applicable) with respect to the insurance of mortgages under this section as the Secretary of Housing and Urban Development has with respect to the insurance of mortgages under title II of the National Housing Act. The Commissioner may, pursuant to a formal delegation agreement containing regulations prescribed by him, delegate to the Secretary of Housing and Urban Development authority to administer this section and section 304 of this Act in accordance with such delegation agreement.

(2) The provisions of subsections (e), (g), (h), (i), (j), (k), (l), and (n) of section 207 of the National Housing Act shall apply to mortgages insured under this section; except that, for the purposes of their application with respect to such mortgages, all references in such provisions to the General Insurance Fund shall be deemed to refer to the

Rehabilitation Facilities Insurance Fund (established by subsection (h) of this section) and all references in such provisions to "Secretary" shall be deemed to refer to the Commissioner of the Rehabilitation Services Administration within the Department of Health, Education, and Welfare.

(h) (1) There is hereby created a Rehabilitation Facilities Insurance Fund which shall be used by the Commissioner as a revolving fund for carrying out all the insurance provisions of this section. All mortgages insured under this section shall be insured under and be the obligation of the Rehabilitation Facilities Insurance Fund.

(2) The general expenses of the operations of the Rehabilitation Services Administration relating to mortgages insured under this section may be charged to the Rehabilitation Facilities Insurance Fund.

(3) Moneys in the Rehabilitation Facilities Insurance Fund not needed for the current operations of the Rehabilitation Services Administration with respect to mortgages insured under this section shall be deposited with the Treasurer of the United States to the credit of such fund, or invested in bonds or other obligations of, or in bonds or other obligations guaranteed as to principal and interest by, the United States. The Commissioner may, with the approval of the Secretary of the Treasury, purchase in the open market debentures issued as obligations of the Rehabilitation Facilities Insurance Fund. Such purchases shall be made at a price which will provide an investment yield of not less than the yield obtainable from other investments authorized by this section. Debentures so purchased shall be canceled and not reissued.

(4) Premium charges, adjusted premium charges, and appraisals and other fees received on account of the insurance of any mortgage under this section, the receipts derived from property covered by such mortgages and from any claims, debts, contracts, property, and security assigned to the Commissioner in connection therewith, and all earnings as the assets of the fund, shall be credited to the Rehabilitation Facilities Insurance Fund. The principal of, and interest paid and to be paid on, debentures which are the obligation of such fund, cash insurance payments and adjustments, and expeneses incurred in the handling, management, renovation, and disposal of properties acquired, in connection with mortgages insured under this section, shall be charged to such fund.

(5) There are authorized to be appropriated to provide initial capital for the Rehabilitation Facilities Insurance Fund, and to assure the soundness of such fund thereafter, such sums as may be necessary, except that the total amount of outstanding mortgages insured shall not exceed $250,000,000.

### ANNUAL INTEREST GRANTS FOR MORTGAGES FOR REHABILITATION FACILITIES

SEC. 304. (a) To assist States and public or nonprofit agencies and organizations to reduce the cost of borrowing from other sources for the construction of rehabilitation facilities, the Commissioner, subject to the provisions of section 313, may make annual interest grants to such agencies.

(b) Annual interest grants under this section with respect to any rehabilitation facility shall be made over a fixed period not exceeding forty years, and provision for such grants shall be embodied in a contract guaranteeing their payment over such period. Each such grant shall be in an amount sufficient to reduce by 4 per centum the net effective interest rate otherwise payable on the loan or to equal one-half of such rate, whichever is the lesser amount: *Provided*, That the amount on which such grant is based shall be approved by the Commissioner.

(c) (1) There are authorized to be appropriated to the Commissioner such sums as may be necessary for the payment of annual interest grants in accordance with this section.

(2) Contracts for annual interest grants under this section shall not be entered into in an aggregate amount greater than is authorized in appropriation Acts; and in any event the total amount of annual interest grants which may be paid pursuant to contracts entered into under this section shall not exceed $1,000,000 with respect to contracts entered into prior to June 30, 1973; $2,000,000 with respect to contracts entered into prior to June 30, 1974; and $4,000,000 with respect to contracts entered into prior to June 30, 1975.

(3) Not more than 15 per centum of the funds expended under this section may be used within any one State in any one fiscal year.

### SPECIAL PROJECTS AND DEMONSTRATIONS

SEC. 305. (a) (1) For the purpose of making grants under this section for special projects and demonstrations (and research and evaluation connected therewith), there is authorized to be appropriated $50,000,000 for the fiscal year ending June 30, 1973, $125,000,000 for the fiscal year ending June 30, 1974, and $150,000,000 for the fiscal year ending June 30, 1975.

(2) Of the amounts appropriated pursuant to paragraph (1) of this subsection, 10 per centum, but in no event more than $10,000,000, in each such fiscal year shall be available only for the purpose of making grants under subsection (c) of this section, and there is authorized to be appropriated in each such fiscal year such additional amount as may be necessary to equal, when added to the amount made available for the purpose of making grants under such subsection, an amount of $10,000,000 to be available for each such fiscal year.

(b) The Commissioner, subject to the provisions of section 313, shall make grants to States and public or nonprofit agencies and organizations for paying part of the cost of special projects and demonstrations (and research and evaluation in connection therewith) (1) for establishing facilities and providing services which, in the judgment of the Commissioner, hold promise of expanding or otherwise improving rehabilitation services to handicapped individuals, especially those with the most severe handicaps, and (2) for applying new types or patterns of services or devices (including opportunities for new careers for handicapped individuals and for other individuals in programs servicing handicapped individuals).

(b) The Commissioner, subject to the provisions of section 313, is authorized to make grants to any State agency designated pursuant to a State plan approved under section 101, or to any local agency participating in the administration of such a plan, to pay up to 90 per centum of the cost of projects or demonstrations for the provision of vocational or comprehensive rehabilitation services to handicapped individuals who, as determined in accordance with rules prescribed by the Secretary of Labor, are migratory agricultural workers or seasonal farmworkers, and to members of their families (whether or not handicapped) who are with them, including maintenance and transportation of such individuals and members of their families where necessary to the rehabilitation of such individuals. Maintenance payments under this section shall be consistent with any maintenance payments made to other handicapped individuals in the State under this Act. Such grants shall be conditioned upon satisfactory assurance that in the provision of such services there will be appropriate cooperation between the grantee and other public or nonprofit agencies and organizations having special skills and experience in the provision of services to migratory agricultural workers, seasonal farmworkers, or their families. This subsection shall be administered in coordination with other programs serving migrant agricultural workers and seasonal farmworkers, including programs under title I of the Elementary and Secondary Education Act of 1965, section 311 of the Economic Opportunity Act of 1964, the Migrant Health Act, and the Farm Labor Contractor Registration Act of 1963.

(d) The Commissioner is authorized to make contracts or jointly financed cooperative arrangements with employers and organizations for the establishment of projects designed to prepare handicapped individuals for gainful and suitable employment in the competitive labor market under which handicapped individuals are provided training and employment in a realistic work setting and such other services (determined in accordance with regulations prescribed by the Commissioner) as may be necessary for such individuals to continue to engage in such employment.

(e) (1) The Commissioner is authorized, directly or by contract with State vocational rehabilitation agencies or experts or consultants or groups thereof, to provide technical assistance (A) to rehabilitation facilities, and (B) for the purpose of removal of architectural and transportation barriers, to any public or nonprofit agency, institution, organization, or facility.

(2) Any such experts or consultants shall, while serving pursuant to such contracts, be entitled to receive compensation at rates fixed by the Commissioner, but not exceeding the pro rata pay rate for a person employed as a GS–18, under section 5332 of title 5, United States Code, including traveltime, and while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

### NATIONAL CENTER FOR DEAF-BLIND YOUTHS AND ADULTS

SEC. 306. (a) For the purpose of establishing and operating a National Center for Deaf-Blind Youths and Adults, there is authorized to be appropriated $5,000,000 for construction, which shall remain available until expended, and $800,000 for operations for the fiscal year ending June 30, 1973; $1,200,000 for operations for the fiscal year ending June 30, 1974; and $2,000,000 for operations for the fiscal year ending June 30, 1975.

(b) In order—

(1) to demonstrate methods of (A) providing the specialized intensive services, and other services, needed to rehabilitate handicapped individuals who are both deaf and blind, and (B) training the professional and allied personnel needed adequately to staff facilities specially designed to provide such services and training to such personnel who have been or will be working with deaf-blind individuals;

(2) to conduct research in the problems of, and ways of meeting the problems of rehabilitating, deaf-blind individuals; and

(3) to aid in the conduct of related activities which will expand or improve the services for or help improve public understanding of the problems of deaf-blind individuals;

the Commissioner, subject to the provisions of section 313, is authorized to enter into an agreement with any public or nonprofit agency or organization for payment by the United States of all or part of the costs of the establishment and operation, including construction and equipment, of a center for vocational rehabilitation of handicapped individuals who are both deaf and blind, which center shall be known as the National Center for Deaf-Blind Youths and Adults.

(c) Any agency or organization desiring to enter into such agreement shall submit a proposal therefor at such time, in such manner, and containing such information as may be prescribed in regulations by the Commissioner. In considering such proposals the Commissioner shall give preference to proposals which (1) give promise of maximum effectiveness in the organization and operation of such Center, and (2) give promise of offering the most substantial skill, experience, and capability in providing a broad program of service, research, training, and related activities in the field of rehabilitation of deaf-blind individuals.

### REHABILITATION CENTERS FOR DEAF INDIVIDUALS

SEC. 307. (a) For the purpose of making grants and contracts for the expansion and improvement of vocational or comprehensive rehabilitation services for deaf individuals (through the establishment of centers or other means), there is authorized to be appropriated $2,000,000 for the fiscal year ending June 30, 1973; $4,000,000 for the fiscal year ending June 30, 1974; and $7,000,000 for the fiscal year ending June 30, 1975. Funds appropriated pursuant to this subsection shall remain available until expended.

(b) In order to—

(1) demonstrate methods of (A) providing the specialized services needed to rehabilitate and make maximum use of the vocational potential of deal individuals, and (B) training the specialized professional and allied personnel required adequately to staff facilities designed to provide such services and training personnel who have been or will be working with such individuals;

(2) conduct research in the nature and prevention of the problems of such deaf individuals and in the rehabilitation of these individuals; and

(3) improve the understanding of the general public, employers in particular, of both the assets and problems of such deaf individuals;

the Commissioner, subject to the provisions of section 313, is authorized to make grants to or contracts with any public or nonprofit agency or organization for payment by the United States of all or part of the costs of the establishment and operation, including construction and equipment, of one or more centers for the vocational rehabilitation of deaf individuals whose maximum vocational potential has not been achieved, which shall be known as Rehabilitation Centers for Deaf Individuals.

(c) Any agency or organization desiring to receive a grant or enter into a contract under this section shall submit a proposal therefor at such time, in such manner, and containing such information as may be prescribed in regulations by the Commissioner. In considering such proposals the Commissioner shall give preference to proposals which (1) give promise of maximum effectiveness in the organization and operation of a Rehabilitation Center for Deaf Individuals, and (2) give promise of offering the substantial capability in providing a broad program of service and related research, training, and other activities in the field of rehabilitation of deaf individuals whose maximum vocational potential has not been achieved.

(d) For the purposes of this section, the Commissioner shall prescribe regulations to—

(1) provide a means of determining the population of deaf individuals whose maximum vocational potential has not been achieved;

(2) insure that, in carrying out the purposes of this section, provision has been made for coordination between the agency or organization receiving funds under this section on the one hand, and the State and local educational agencies in the area to be served on the other; and

(3) provide that an advisory board, comprised of qualified professional and expert individuals in the fields of rehabilitation and education of deaf individuals, be appointed to assure proper functioning of a Center established under this section in accordance with its stated objectives and to provide assistance in professional, technical, and other related areas; and that at least one-third of the members of such board shall be deaf individuals.

(e) To be eligible to receive vocational or comprehensive rehabilitation services under this section, a deaf individual must be sixteen years of age or older, must have reached the age at which the compulsory school attendance laws of the State in which he resides are no longer applicable to him, and must be an individual whose maximum vocational potential (as defined in regulations which the Commissioner shall prescribe) has not been achieved.

(f) Programs carried out under this section shall be coordinated with programs carried out by the Bureau of Education for the Handicapped within the Office of Education in order to achieve a consistent education and rehabilitation philosophy, to provide for continuity of services and program purpose, and to avoid unnecessary duplication or overlap of programs.

### NATIONAL CENTERS FOR SPINAL CORD INJURIES

SEC. 308. (a) For the purpose of establishing and operating National Centers for Spinal Cord Injuries, there is authorized to be appropriated $15,000,000 for the fiscal year ending June 30, 1973; $25,000,000 for the fiscal year ending June 30, 1974; and $30,000,000 for the fiscal year ending June 30, 1975. Funds appropriated under this section shall remain available until expended.

(b) In order—

(1) to help establish national centers with special competencies in providing prompt, complete vocational and comprehensive rehabilitation services and acute medical care to individuals with spinal cord injuries;

(2) to assist in meeting the costs of such services to such individuals;

(3) to encourage and assist the study and development of methods for the provision of such services and, where appropriate and desirable, to carry out necessary related research and training; and

(4) to develop new methods of achieving cooperation with and among community and other public and nonprofit organizations concerned with the problems of spinal cord injury;

the Commissioner, subject to the provisions of section 313, is authorized to enter into an agreement with any public or nonprofit agency or organization to pay all or part of the costs of the establishment and operation, including construction and equipment, of centers to carry out the purposes of this subsection, which centers shall be known as National Centers for Spinal Cord Injuries.

(c) Any agency or organization desiring to enter into such an agreement shall submit a proposal therefore at such time, in such manner, and containing such information as may be prescribed in regulations by the Commissioner. In considering such proposals the Commissioner shall provide an opportunity for submission of comments by the State agency administering the State plan under section 101, and shall give preference to proposals which (1) give promise of maximum effectiveness in the organization and operation of National Centers for Spinal Cord Injuries, and which include provisions to—

(A) establish, on an appropriate regional basis, a multidisciplinary system of providing vocational and comprehensive rehabilitation services, specifically designed to meet the special needs of individuals with spinal cord injuries including, but not limited to, acute medical care and periodic inpatient or outpatient followup;

(B) demonstrate and evaluate the benefits to individuals with spinal cord injuries served in, and the degree of cost effectiveness of, such a regional system;

(C) demonstrate and evaluate existing, new, and improved methods and equipment essential to the care, management, and rehabilitation of individuals with spinal cord injuries;

(D) demonstrate and evaluate methods of community outreach for individuals with spinal cord injuries and community education in connection with the problems of such individuals in areas such as housing, transportation, recreation, employment, and community activities;

and (2) give promise of offering substantial skill, experience, and capability in providing a comprehensive program of services and related activities in the field of rehabilitation of individuals with spinal cord injuries.

### GRANTS FOR SERVICES FOR END-STAGE RENAL DISEASE

SEC. 309. (a) For the purpose of providing services under this section for the treatment of individuals suffering from end-stage renal disease there is authorized to be appropriated $25,000,000 for the fiscal year ending June 30, 1973, $25,000,000 or the fiscal year ending June 30, 1974; and $25,000,000 for the fiscal year ending June 30, 1975. Funds appropriated under this subsection shall remain available until expended.

(b) From sums available pursuant to subsection (a) of this section for any fiscal year, the Commissioner shall make grants to States and public and nonprofit agencies and organizations and agencies for paying part of the cost of projects for providing special services (including transportation and dialysis), artificial kidneys, and supplies necessary for the rehabilitation of individuals suffering from end-stage renal disease.

(e) Payments under this section may be made in advance or by way of reimbursement for services performed and purchases made, as may be determined by the Commissioner, and shall be made on such conditions as the Commissioner finds necessary to carry out the purposes of this section.

### REHABILITATION SERVICES FOR OLDER BLIND INDIVIDUALS

SEC. 310. (a) For the purpose of providing rehabilitation services to older blind individuals, there is authorized to be appropriated $10,000,000 for the fiscal year ending June 30, 1973: $20,000,000 for the fiscal year ending June 30, 1974; and $30,000,000 for the fiscal year ending June 30, 1975.

(b) In order—

(1) to demonstrate methods of (A) providing the specialized intensive services, as well as other services, needed to rehabilitate older blind individuals, and (B) training the professional and allied personnel needed to provide such services;

(2) to conduct research in the problems of, and ways of meeting the problems of rehabilitating older blind individuals; and

(3) to aid in the conduct of related activities which will expand or improve the services for, and help improve public understanding of, the problems of older blind individuals,

the Commissioner, subject to the provisions of section 313, is authorized to make grants to and contracts with States and public and nonprofit agencies to pay all or part of the costs of projects and demonstrations (1) for providing vocational or comprehensive rehabilitation services to older blind individuals which, in the judgment of the Commissioner, hold promise of expanding or otherwise improving such services, and (2) for applying new types or patterns of such services or devices to, or for the benefit of, older blind individuals.

(c) For the purpose of this section, the term "older blind individuals" means individuals, age fifty-five and older, whose severe visual impairment makes gainful employment less readily attainable in the light of current employment practices.

### NATIONAL ADVISORY COUNCIL ON REHABILITATION OF HANDICAPPED INDIVIDUALS

SEC. 311. (a) There is established in the Department of Health, Education, and Welfare, a National Advisory Council on Rehabilitation of Handicapped Individuals (hereinafter referred to in this section as the "Council") consisting of twenty members appointed by the Commissioners without regard to civil service laws shall be from among persons who are leaders in fields concerned with rehabilitation or in public affairs, and ten of such twenty shall be selected from among leading medical, educational, or scientific authorities with outstanding qualifications in the rehabilitation of handicapped individuals. Eight of such twenty members shall be persons who are themselves handicapped or who have received vocational rehabilitation services. Each such member of the Council shall hold office for a term of four years, except that any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor is appointed shall be appointed for the remainder of such term and except that, of the members first appointed, five shall hold office for a term of two years, and five shall hold office for a term of one year, as designated by the Commissioner at the time of appointment. None of such members shall be eligible for reappointment until a year has elapsed after the end of his preceding term. The Council shall meet not less than four times a year at the call of the Chairman, who shall be selected from among its membership by the members.

(b) The Council shall—

(1) provide policy advice and consultation to the Secretary and the Commissioner on the planning (including determination of priorities), conduct, and review of programs (including research and training) authorized under this Act;

(2) review the administration and operation of vocational rehabilitation (including research and training) programs under this Act, including the effectiveness of such programs in meeting the purposes for which they are established and operated and the integration of research and training activities with service program goals and priorities, make recommendations with respect thereto, and make annual reports of its findings and recommendations (including recommendations for changes in the provisions of this Act) to the Secretary and the Commissioner for annual transmittal to the Congress;

(3) advise the Secretary and the Commissioner with respect to the conduct of independent evaluations of programs (including research and training) carried out under this Act; and

(4) provide such other advisory services as the Secretary and the Commissioner may request.

(c) (1) Adequate technical assistance and support staff for the Council shall be provided from the Office for the Handicapped, the Rehabilitation Services Administration, or from any other Federal agency, as the Council may reasonably request.

(2) There is authorized to be appropriated for the purpose of carrying out this section $100,000 for the fiscal year ending June 30, 1973, and $150,000 for each of the two succeeding fiscal years.

(d) The Council shall review the possible duplication among vocational rehabilitation programs and other programs serving handicapped individuals within the same geographical areas and shall make annual reports of the extent to which unnecessary duplication or overlap exists, together with its findings and recommendations, concurrently to the Commissioner and the Congress. In making these reports, the Council shall seek the opinions of persons familiar with vocational rehabilitation and the employment of persons who have received vocational and comprehensive rehabilitation services in each State as well as persons familiar with labor, business and industry, education and training, health, and manpower programs.

(e) Members of the Council, while attending meetings or conferences thereof, or otherwise serving on business of the Council, or at the request of the Commissioner, shall be entitled to receive compensation at rates fixed by the Commissioner, but not exceeding the daily pay rate for a person employed as a GS-18 under section 5332 of title 5, United States Code, including traveltime, and while so serving away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

### STATE ADVISORY COUNCILS

SEC. 312. (a) For the purpose of establishing State Advisory Councils, there is authorized to be appropriated $2,000,000 for the fiscal year ending June 30, 1973, and for each of the two succeeding fiscal years.

(b) Any State which receives assistance under this Act may establish and maintain a State Advisory Council, which shall be appointed by the Governor, or, in the case of a State in which members of the State board which governs vocational rehabilitation are elected (including election by the State legislature), by such board.

(c) (1) Such a State Advisory Council shall include as members persons who are familiar with problems of vocational rehabilitation in the State and the administration of vocational rehabilitation programs, and who are experienced in the education and training of handicapped individuals; persons who are representative of labor and management, including persons who have knowledge of the employment of persons who have received vocational rehabilitation services and of the employment of handicapped individuals; and individuals who are handicapped and who are receiving or who have received vocational rehabilitation services and who shall constitute a majority of the total membership of the State Advisory Council.

(2) Such a State Advisory Council, in accordance with regulations prescribed by the Commissioner, shall—

(A) advise the Governor and the State agency on the development of, and policy matters arising in, the administration of the State plan approved pursuant to section 101;

(B) advise with respect to long-range planning and studies to evaluate vocational rehabilitation programs, services, and activities assisted under this Act; and

(C) prepare and submit to the Governor through the State agency having authority over vocational rehabilitation programs, and to the National Advisory Council on Rehabilitation of Handicapped Individuals established pursuant to section 311, an annual report of its recommendations, accompanied by such additional comments of the State agency as that agency deems appropriate.

(d) Upon the appointment of any such Advisory Council the appointing authority under subsection (b) of this section shall inform the Commissioner of the establishment of, and membership of, its State Advisory Council. The Commissioner shall, upon receiving such information, certify that each such council is in compliance with the membership requirements set forth in subsection (b) (1) of this section.

(e) Each such State Advisory Council shall meet within thirty days after certification has been accepted by the Commissioner under subsection (d) of this section and select from among its membership a chairman. The time, place, and manner of subsequent meetings shall be provided by the rules of the State Advisory Council, except that such rules must provide that each such council meet at least four times each year, including at least one public meeting at which the public is given the opportunity to express views concerning vocational rehabilitation.

(f) Each such State Advisory Council is authorized to obtain the services of such professional, technical, and clerical personnel as may be necessary to enable them to carry out their functions under this section.

### GENERAL GRANT AND CONTRACT REQUIREMENTS

SEC. 313. (a) The provisions of this section shall apply to all projects (including annual interest grants) approved and assisted under this title. The Commissioner shall insure compliance with this section prior to making any grant or entering into any contract or agreement under this title, except projects authorized under sections 302, 309, 311, and 312.

(b) To be approved, an application for assistance for a construction project under this title must—

(1) contain or be supported by reasonable assurances that (A) for a period of not less than twenty years after completion of construction of the project it will be used as a public or nonprofit facility, (B) sufficient funds will be available to meet the non-Federal share of the cost of construction of the project, and (C) sufficient funds will be available, when construction of the project is completed, for its effective use for its intended purpose;

(2) provide that Federal funds provided to any agency or organization under this title will be used only for the purposes for which provided and in accordance with the applicable provisions of this section and the section under which such funds are provided:

(3) provide that the agency or organization receiving Federal funds under this title will make an annual report to the Commissioner, which he shall summarize and comment upon in the annual report to the Congress submitted under section 504;

(4) be accompanied or supplemented by plans and specifications in which due consideration shall be given to excellence of architecture and design, and to the inclusion of works of art (not representing more than 1 per centum of the cost of the project), and which comply with regulations prescribed by the Commissioner related to minimum standards of construction and equipment (promulgated with particular emphasis on securing compliance with the requirements of the Architectural Barriers Act of 1968 (Public Law 90–480)), and with regulations of the Secretary of Labor relating to occupational health and safety standards for rehabilitation facilities; and

(5) contain or be supported by reasonable assurance that any laborer or mechanic employed by any contractor or subcontractor in the performance of work on any construction aided by payments pursuant to any grant under this section will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with Davis-Bacon Act, as amended (40 U.S.C. 276a–276a5); and the Secretary of Labor shall have, with respect to the labor standards specified in this paragraph, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176) and section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c).

(c) Upon approval of any application for a grant or contract for a project under this title, the Commissioner shall reserve, from any appropriation available therefore, the amount of such grant or contract determined under this title. In case an amendment to an approval application is approved, or the estimated cost of a project is revised upward, any additional payment with respect thereto may be made from the appropriation from which the original reservation was made or the appropriation for the fiscal year in which such amendment or revision is approved.

(d) If, within twenty years after completion of any construction project for which funds have been paid under this title, the facility shall cease to be a public or nonprofit facility, the United States shall be entitled to recover from the applicant or other owner of the facility the amount bearing the same ratio to the then value (as determined by agreement of the parties or by action brought in the United States district court for the district in which such facility is situated) of the facility, as the amount of the Federal participation bore to the cost of construction of such facility.

(e) Payment of assistance or reservation of funds made pursuant to this title may be made (after necessary adjustment on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments and on such conditions, as the Commissioner may determine.

(f) A project for construction of a rehabilitation facility which is primarily a workshop may, where approved by the Commissioner as necessary to the effective operation of the facility, include such construction as may be necessary to provide residential accommodations for use in connection with the rehabilitation of handicapped individuals.

(g) No funds provided under this title may be used to assist in the construction of any facility which is or will be used for religious worship or any sectarian activity.

(h) When in any State, funds provided under this title will be used for providing direct services to handicapped individuals or for establishing facilities which will provide such services, such services must be carried out in a manner not inconsistent with the State plan approved pursuant to section 101.

(i) Prior to making any grant or entering into any contract under this title, the Commissioner shall afford reasonable opportunity to the appropriate State agency or agencies designated pursuant to section 101 to comment on such grant or contract.

(j) With respect to any obligation issued by or on behalf of any public agency for which the issuer has elected to receive the benefits of mortgage insurance under section 303 or annual interest grants under section 304, the interest paid on such obligations and received by the purchaser thereof (or his successor in interest) shall be included in gross income for the purposes of chapter 1 of the Internal Revenue Code of 1954.

## TITLE IV—RESEARCH AND TRAINING

### DECLARATION OF PURPOSE

SEC. 400. The purpose of this title is to authorize Federal assistance to State and public or nonprofit agencies and organizations to—

(a) plan and conduct research, demonstrations, and related activities in the rehabilitation of handicapped individuals, and

(b) plan and conduct courses of training and related activities designed to provide increased numbers of trained rehabilitation personnel, to increase the levels of skills of such personnel, and to develop improved methods of providing such training.

### AUTHORIZATION OF APPROPRIATIONS

SEC. 401. (a) In order to make grants and contracts to carry out the purposes of this title, there is authorized to be appropriated:

(1) For the purpose of carrying out section 402 of this title, $75,000,000 for the fiscal year ending June 30, 1973, $100,000,000 for the fiscal year ending June 30, 1974, and $150,000,000 for the fiscal year ending June 30, 1975, of which 15 per centum, 25 per centum, and 25 per centum of the amounts appropriated in the first, second, and third such fiscal years, respectively, shall be available for the purpose of carrying out activities under section 402(b)(2).

(2) For the purpose of carrying out section 403 of this title, $50,000,000 for the fiscal year ending June 30, 1973, $75,000,000 for the fiscal year ending June 30, 1974, and $100,000,000 for the fiscal year ending June 30, 1975.

(b) Funds appropriated under this title shall remain available until expended.

### RESEARCH

SEC. 402. (a) The Commissioner is authorized to make grants to and contracts with State and public or nonprofit agencies and organizations, including institutions of higher education, to pay part of the cost of projects for the purpose of planning and conducting research, demonstrations, and related activities which bear directly on the development of methods, procedures, and devices to assist in the provision of vocational and comprehensive rehabilitation services to handicapped individuals, especially those with the most severe handicaps, under this Act. Such projects may include medical and other scientific, technical, methodological, and other investigations into the nature of disability, methods of analyzing it, and restorative techniques; studies and analyses of industrial, vocational, social, psychological, economic, and other factors affecting rehabilitation of handicapped individuals; special problems of homebound and institutionalized individuals; studies and analyses of architectural and engineering design adapted to meet the special needs of handicapped individuals; and related activities which hold promise of increasing knowledge and improving methods in the rehabilitation of handicapped individuals and individuals with the most severe handicaps.

(b) In addition to carrying out projects under subsection (a) of this section, the Commissioner is authorized to make grants to pay part or all of the cost of the following specialized research activities:

(1) Establishment and support of Rehabilitation Research and Training Centers to be operated in collaboration with institutions of higher education for the purpose of providing coordinated and advanced programs of research in rehabilitation and training of rehabilitation research personnel, including, but not limited to, graduate training. Grants may include funds for services rendered by such a center to handicapped individuals in connection with such research and training activities.

(2) Establishment and support of Rehabilitation Engineering Research Centers to (A) develop innovative methods of applying advanced medical technology, scientific achievement, and psychological and social knowledge to solve rehabilitation problems through planning and conducting research, including cooperative research with public or private agencies and organizations, designed to produce new scientific knowledge, equipment, and devices suitable for solving problems in the rehabilitation of handicapped individuals and for reducing environment barriers, and to (B) cooperate with the Office for the Handicapped and State agencies designated pursuant to section 101 in developing systems of information exchange and coordination to promote the prompt utilization of engineering and other scientific research to assist in solving problems in the rehabilitation of handicapped individuals.

(3) Conduct of a program for spinal cord injury research in support of the National Centers for Spinal Cord Injuries established pursuant to section 308 which will (A) insure dissemination of research findings among all such centers, (B) provide encouragement and support for initiatives and new approaches by individual and institutional investigators, and (C) establish and maintain close working relationships with other governmental and voluntary institutions and organizations engaged in similar efforts, in order to unify and coordinate scientific efforts, encourage joint planning, and promote the interchange of data and reports among spinal cord injury investigators.

(4) Conduct of a program for international rehabilitation research, demonstration, and training for the purpose of developing new knowledge and methods in the rehabilitation of handicapped individuals in the United States, cooperating with and assisting in developing and sharing information found useful in other nations in the rehabilitation of handicapped individuals, and initiating a program to exchange experts and technical assistance in the field of rehabilitation of handicapped individuals with other nations as a means of increasing the levels of skill of rehabilitation personnel.

(c) The provisions of section 313 shall apply to assistance provided under this section, unless the context indicates to the contrary.

### TRAINING

SEC. 403. (a) The Commissioner is authorized to make grants to and contracts with States and public or nonprofit agencies and organizations, including institutions of higher education, to pay part of the cost of projects for training, traineeships, and related activities designed to assist in increasing the numbers of personnel trained in providing vocational and comprehensive rehabilitation services to handicapped individuals and in performing other functions necessary to the development of such services.

(b) In making such grants or contracts, funds made available for any year will be utilized to provide a balanced program of assistance to meet the medical, vocational, and other personnel training needs of both public and private rehabilitation programs and institutions, to include projects in rehabilitation medicine, rehabilitation nursing, rehabilitation counseling, rehabilitation social work, rehabilitation psychology, physical therapy, occupational therapy, speech pathology and audiology, workshop and facility administration, prosthetics and orthotics, specialized personnel in services to the blind and the deaf, recreation for ill and handicapped individuals, and other fields contributing to the rehabilitation of handicapped individuals, including homebound and institutionalized individuals. No grant shall be made under this section for furnishing to an individual any one course of study extending for a period in excess of four years.

### REPORTS

SEC. 404. There shall be included in the annual report to the Congress required by section 504 a full report on the research and training activities carried out under this title and the extent to which such research and training has contributed directly to the development of methods, procedures, devices, and trained personnel to assist in the provision of vocational or comprehensive rehabilitation services to handicapped individuals and those with the most severe handicaps under this Act.

## TITLE V—ADMINISTRATION AND PROGRAM AND PROJECT EVALUATION

### ADMINISTRATION

SEC. 500. (a) In carrying out his duties under this Act, the Commissioner shall—

(1) cooperate with, and render technical assistance (directly or by grant or contract) to States in matters relating to the rehabilitation of handicapped individuals;

(2) provide short-term training and instruction in technical matters relating to vocational and comprehensive rehabilitation services, including the establishment and maintenance of such research fellowships and traineeships, with such stipends and allowances (including travel and subsistence expenses), as he may deem necessary, except that no such training or instruction (or fellowship or scholarship) shall be provided any individual for any one course of study for a

period in excess of four years, and such training, instruction, fellowships, and traineeships may be in the fields of rehabilitation counseling, rehabilitation social work, rehabilitation psychology, physical therapy, occupational therapy, speech pathology and audiology, prosthetics and orthotics, recreation for ill and handicapped individuals, and other specialized fields contributing to the rehabilitation of handicapped individuals; and

(3) disseminate information relating to vocational and comprehensive rehabilitation services, and otherwise promote the cause of the rehabilitation of handicapped individuals and their greater utilization in gainful and suitable employment.

(b) The Secretary is authorized to make rules and regulations governing the administration of this title and titles VI and VI of this Act, and to delegate to any officer or employee of the United States such of his powers and duties under such titles, except the making of rules and regulations, as he finds necessary to carry out the provisions of such titles. Such rules and regulations, as well as those prescribed by the Commissioner of the Rehabilitation Services Administration under titles I, II, III, and IV of this Act shall be published in the Federal Register, on at least an interim basis, no later than ninety days after the date of enactment of this Act.

(c) The Secretary is authorized (directly or by grants or contracts) to conduct studies, investigations, and evaluation of the programs authorized by this Act, and to make reports, with respect to abilities, aptitudes, and capacities of handicapped individuals, development of their potentialities, their utilization in gainful and suitable employment, and with respect to architectural, transportation, and other environmental and attitudinal barriers to their rehabilitation, including the problems of homebound, institutionalized, and older blind individuals.

(d) There is authorized to be included for each fiscal year in the appropriation for the Department of Health, Education, and Welfare such sums as are necessary to administer the provisions of this Act.

(e) In carrying out their duties under this Act, the Secretary and the Commissioner, respectively, shall insure the maximum coordination and consultation, at both national and local levels, with the Administrator of Veterans' Affairs and his designees with respect to programs for and relating to the rehabilitation of disabled veterans carried out under title 38, United States Code.

(f) With respect to the administration of the program authorized by section 309, the Secretary shall insure that the provision of services under such section is coordinated with similar services provided or paid for under health programs pursuant to other Federal laws.

### PROGRAM AND PROJECT EVALUATION

SEC. 501. (a)(1) The Secretary shall measure and evaluate the impact of all programs authorized by this Act, in order to determine their effectiveness in achieving stated goals in general, and in relation to their cost, their impact on related programs, and their structure and mechanisms for delivery of services, including, where appropriate, comparisons with appropriate control groups composed of persons who have not participated in such programs. Evaluations shall be conducted by persons not immediately involved in the administration of the program or project evaluated.

(2) In carrying out his responsibilities under this subsection, the Secretary, in the case of research, demonstrations, and related activities carried out under section 402, shall, after taking into consideration the views of State agencies designated pursuant to section 101, on an annual basis—

(A) reassess priorities to which such activities should be directed; and

(B) review present research, demonstration, and related activities to determine, in terms of the purpose specified for such activities by subsecton (a) of such section 402, whether and on what basis such activities should be continued, revised or terminated.

(3) The Secretary shall, within 12 months after the date of enactment of this Act, and on each April 1 thereafter, prepare and furnish to the appropriate committees of the Congress a complete report on the determination and review carried out under paragraph (2) of this subsection, together with such recommendations, including any recommendations for additional legislation, as he deems appropriate.

(b) Effective after June 30, 1973, before funds for the programs and projects covered by this Act are released, the Secretary shall develop and publish general standards for evaluation of the program and project effectiveness in achieving the objectives of this Act. He shall consider the extent to which such standards have been met in deciding, in accordance with procedures set forth in subsections (b), (c), and (d) of section 101, whether to renew or supplement financial assistance authorized under any section of this Act. Reports submitted pursuant to section 504 shall describe the actions taken as a result of these evaluations.

(c) In carrying out evaluations under this title, the Secretary shall, whenever possible, arrange to obtain the specific views of persons participating in and served by programs and projects assisted under this Act about such programs and projects.

(d) The Secretary shall publish the results of evaluative research and summaries of evaluative research and summaries of evaluations of program and project impact and effectiveness no later than ninety days after the completion thereof. The Secretary shall submit to the appropriate committees of the Congress copies of all such research studies and evaluation summaries.

(e) The Secretary shall take the necessary action to assure that all studies, evaluations, proposals, and data produced or developed with assistance under this Act shall become the property of the United States.

### OBTAINING INFORMATION FROM FEDERAL AGENCIES

SEC. 502. Such information as the Secretary may deem necessary for purposes of the evaluations conducted under this title shall be made available to him, upon request, by the agencies of the executive branch.

SEC. 502. Such information as the Secretary may deem necessary for purposes of the evaluations conducted under this title shall be made available to him, upon request, by the agencies of the executive branch.

### AUTHORIZATION OF APPROPRIATIONS

SEC. 503. There is authorized to be appropriated with sums as the Secretary may require, but not to exceed an amount equal to one-half of 1 per centum of the funds appropriated under titles I, II, III, and IV of this Act or $2,000,000, whichever is greater, to be available to conduct program and project evaluations as required by this title.

### REPORTS

SEC. 504. Not later than one hundred and twenty days after the close of each fiscal year, the Secretary shall prepare and submit to the President and to the Congress a full and complete report on the activities carried out under this Act. Such annual reports shall include (1) statistical data reflecting, with the maximum feasible detail, vocational and comprehensive rehabilitation services provided handicapped individuals during the preceding fiscal year, (2) specifically distinguish among rehabilitation closures attributable to physical restoration, placement in competitive employment, extended or terminal employment in a sheltered workshop or rehabilitation facility, employment as a homemaker or unpaid family worker, and provision of comprehensive rehabilitation services, and (3) include a detailed evaluation of services provided with assistance under title I of this Act to those with the most severe handicaps and of comprehensive rehabilitation services provided pursuant to title II of this Act.

### SHELTERED WORKSHOP STUDY

SEC. 505. (a) The Secretary shall conduct an original study of the role of sheltered workshops in the rehabilitation and employment of handicapped individuals, including a study of wage payments in sheltered workshops. The study shall incorporate guidelines which are consistent with criteria provided in resolutions adopted by the Committee on Labor and Public Welfare of the United States Senate or the Committee on Education and Labor of the United States House of Representatives, or both.

(b) The study shall include site visits to sheltered workshops, interviews with handicapped trainees or clients, and consultations with interested individuals and groups and State agencies designated pursuant to section 101.

(c) Any contracts awarded for the purpose of carrying out all or part of this study shall not be made with individuals or groups with a financial or other direct interest in sheltered workshops.

(d) The Secretary shall report to the Congress his findings and recommendations with respect to such study within twenty-four months after the date of enactment of this Act.

## TITLE VI—OFFICE FOR THE HANDICAPPED

### ESTABLISHMENT OF OFFICE

SEC. 600. There is established within the Office of the Secretary in the Department of Health, Education, and Welfare an Office for the Handicapped (hereinafter in this title referred to as the "Office"). The Office shall be headed by a Director, who shall serve as a Special Assistant to the Secretary and shall report directly to him, and shall be provided such personnel as are necessary to carry out the functions set forth in section 601. In selecting personnel to fill all positions in the Office, the Secretary shall give special emphasis to qualified handicapped individuals.

### FUNCTION OF OFFICE

SEC. 601. It shall be the function of the Office, with the assistance of agencies within the Department, other departments and agencies within the Federal Government, handicapped individuals, and public and private agencies and organizations, to—

(1) prepare and submit to the Secretary, for submission to the Congress within eighteen months after the date of enactment of this Act, a long-range projection for the provision of comprehensive services to handicapped individuals and for programs of research, evaluation, and training related to such services and individuals;

(2) analyze on a continuing basis and submit to the Secretary, for inclusion in his report submitted under section 504, a report on the results of such analysis, program operation to determine consistency with applicable provisions of law, progress toward meeting the goals and priorities set forth in the projection required under clause (1), and the effectiveness of all programs providing services to handicapped individuals, and the elimination of unnecessary duplication and overlap in such programs under the jurisdiction of the Secretary;

(3) encourage coordinated and cooperative planning designed to produce maximum effectiveness, sensitivity, and continuity in the provision of services for handicapped individuals by all programs under the jurisdiction of the Secretary;

(4) provide assistance (including staff assistance) to the National Advisory Council on Rehabilitation of the Handicapped established by section 311 of this Act, the National Advisory Council on the Education of the Handicapped established by section 604 of the Education of the Handicapped Act (title VI, Public Law 91–230), and other committees advising the Secretary on programs for handicapped individuals;

(5) develop means of promoting the prompt utilization of engineering and other scientific research to assist in solving problems in education (including promotion of the development of curriculums stressing barrier free design and the adoption of such curriculums by schools of architecture, design, and engineering), health, employment, rehabilitation, architectural and transportation barriers, and other areas so as to bring about the full integration of handicapped individuals into all aspects of society;

(6) provide a central clearinghouse for information and resource availability for handicapped individuals through (A) the evaluation of systems within the Department of Health, Education, and Welfare, other departments and agencies of the Federal Government, public and private agencies and organizations, and other sources, which provide (i) information and data regarding the location, provision, and availability of services and programs for handicapped individuals, regarding research and recent medical and scientific developments bearing on handicapping conditions (and their prevention, amelioration, cause, and cures), and regarding the current numbers of handicapped individuals and their needs, and (ii) any other such relevant information and data which the Office deems necessary; and (B) utilizing the results of such evaluation and existing information systems, the development within such Department of a coordinated system of information and data retrieval, which will have the capacity and responsibility to provide general and specific information regarding the information and data referred to in subclause (A) of this clause to the Congress, public and private agencies and organizations, handicapped individuals and their families, professionals in fields serving such individuals, and the general public; and

(7) carry out such additional advisory functions and responsibilities, consistent with the provisions of this title, as may be assigned to it by the Secretary or the President, except that such function or any other function carried out under clauses (1) through (5) of this section shall not include budgetary, policy, or program control by the Office over any program.

### AUTHORIZATION OF APPROPRIATIONS

SEC. 602. There is authorized to be appropriated for the purposes of this title $1,000,000 for the fiscal year ending June 30, 1973, $2,000,000 for the fiscal year ending June 30, 1974, and $2,000,000 for the fiscal year ending June 30, 1975.

## TITLE VII—MISCELLANEOUS

### EFFECT ON EXISTING LAWS

SEC. 700. The Vocational Rehabilitation Act (29 U.S.C. 31 et seq.) is repealed ninety days after the date of enactment of this Act and references to such Vocational Rehabilitation Act in any other provision of law shall, ninety days after such date, be deemed to be references to the Rehabilitation Act of 1972. Unexpended appropriations for carrying out the Vocational Rehabilitation Act may be made available to carry out this Act, as directed by the President. Approved State plans for vocational rehabilitation, approved projects, and contractual arrangements authorized under the Vocational Rehabilitation Act will be recognized under comparable provisions of this Act so that there is no disruption of ongoing activities for which there is continuing authority.

### FEDERAL INTERAGENCY COMMITTEE ON HANDICAPPED EMPLOYEES

SEC. 701. (a) There is established within the Federal Government an Interagency Committee on Handicapped Employees (hereafter in this section referred to as the "Committee"), comprised of the following (or their designees whose positions are Executive Level IV or higher); the Chairman of the Civil Service Commission, the Administrator of Veterans' Affairs, and the Secretaries of Labor and Health, Education, and Welfare. The Chairman of the President's Committee on Employment of the Handicapped and the Chairman of the President's Committee on Mental Retardation shall serve as ex officio members of the Interagency Committee, and the Secretary of Health, Education, and Welfare shall serve as Chairman of the Committee. The resources of such President's Committees shall be made fully available to the Committee established pursuant to this section. The Commissioner shall serve as Executive Director of the Committee. It shall be the purpose and function of the Committee to insure, through the establishment of affirmative action programs, the adequacy of hiring, placement, and advancement practices with respect to handicapped individuals, by each department, agency, and instrumentality in the executive branch of Government, and that the special needs of such individuals are being met.

(b) Each department, agency, and instrumentality in the executive branch shall, within one hundred and eighty days after the date of enactment of this Act, submit to the Committee an affirmative action program plan for the hiring, placement, and advancement of handicapped individuals in such department, agency, or instrumentality. Such plan shall include a description of the extent to which and methods whereby the special needs of handicapped employees are being met.

(c) The Committee shall develop and recommend to the Secretary for referral to the appropriate State agencies, policies and procedures which will facilitate the hiring, placement, and advancement in employment of individuals who have received rehabilitation services under State vocational rehabilitation programs, veterans' programs, or any other program for handicapped individuals, including the promotion of job opportunities for such individuals. The Secretary shall encourage such State agencies to adopt and implement such policies and procedures.

(d) The Committee shall, on June 30, 1973, and at the end of each subsequent fiscal year, make a complete report to the appropriate committees of the Congress with respect to the practices of hiring, placement, and advancement of handicapped individuals by each department, agency, and instrumentality and the effectiveness of the affirmative action programs required by subsection (b) of this section, together with recommendations as to legislation or other appropriate action to insure the adequacy of such practices. Such report shall also include a description of the effectiveness of the Committee's activities under subsection (c) of this section.

(e) An individual who, as a part of his individualized written rehabilitation program under a State plan approved under this Act, participates in a program of unpaid work experience in a Federal agency, shall not, by reason thereof, be considered to be a Federal employee or to be subject to the provisions of law relating to Federal employment, including those relating to hours of work, rates of compensation, leave, unemployment compensation, and Federal employee benefits.

(f) (1) The Secertary of Labor and the Secretary of Health, Education, and Welfare are authorized and directed to cooperate with the President's Committee on Employment of the Handicapped in carrying out its functions.

(2) There are authorized to be appropriated for salaries and expenses of the President's Committee on Employment of the Handicapped $1,000,000 for the fiscal year ending June 30, 1973, and $1,250,000 for the fiscal year ending June 30, 1974. In selecting personnel to fill all positions on the President's Committee on Employment of the Handicapped, special consideration shall be given to qualified handicapped individuals.

### NATIONAL COMMISSION ON TRANSPORTATION AND HOUSING FOR HANDICAPPED INDIVIDUALS

SEC. 702. (a) There is established in the Department of Health, Education, and Welfare a National Commission on Transportation and Housing for Handicapped Individuals, consisting of the Secretary of Health, Education, and Welfare (or his designee), who shall be Chairman, the Secretary of Housing and Urban Development, the Secretary of Transportation and the Secretary of the Treasury (or their respective designees), and not more than fifteen members appointed by the Secretary of Health, Education, and Welfare without regard to the civil service laws. The fifteen appointed members shall be representative of the general public, of handicapped individuals, and of private and professional groups having an interest in, and able to contribute to the solution of, the transportation and housing problems which impede the rehabilitation of handicapped individuals.

(b) The Commission, in consultation with the Architectural and Transportation Compliance Board established pursuant to section 703, shall (1) (A) determine how and to what extent transportation barriers impede the mobility of handicapped individuals and aged handicapped individuals and consider ways in which travel expenses in connection with transportation to and from work for handicapped individuals can be met or subsidized when such individuals are unable to use mass transit systems or need special equipment in private transportation, and (B) consider the housing needs of handicapped individuals; (2) determine what measures are being taken especially by public and other nonprofit agencies and groups having an interest in and a capacity to deal with such problems, (A) to eliminate barriers from public transportation systems (including vehicles used in such systems), and to prevent their incorporation in new or expanded transportation systems and (B) to make housing available and accessible to handicapped individuals or to meet sheltered housing needs; and (3) prepare plans and proposals for such further action as may be necessary to the goals of adequate transportation and housing for handicapped individuals, including proposals for bringing together in a cooperative effort, agencies, organizations, and groups already working toward such goals or whose cooperation is essential to effective and comprehensive action.

(c) The Commission is authorized to appoint such special advisory and technical experts and consultants, and to establish such committees, as may be useful in carrying out its functions, to make studies, and to contract for studies or demonstrations to assist it in performing its functions. The Secretary shall make available to the Commission such technical, administrative, and other assistance as it may require to carry out its functions.

(d) Appointed members of the Commission and special advisory and technical experts and consultants appointed pursuant to subsection (c) shall, while attending meetings or conference thereof or otherwise serving on business of the Commission, be entitled to receive compensation at rates fixed by the Secretary, but exceeding the not daily pay rate, for a person employed as a GS–18 under section 5332 of title 5, United States Code, including traveltime and while so serving away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu subsistence as authorized by section 5703 of such title 5 for persons in the Government service employed intermittently.

(e) The Commission shall prepare two final reports of its activities. One such report shall be on its activities in the field of transportation carriers of handicapped individuals, and the other such report shall be on its activities in the field of the housing needs of handicapped individuals. The Commission shall, prior to January 1, 1975, submit each such report, together with its recommendations for further carrying out the purposes of this section, to the Secretary for transmittal by him, together with his recommendations, to the President and the Congress. The Commission shall also prepare for such submission an interim report of its activities in each such field within eighteen months after the date of enactment of this Act and such additional interim reports as the Secretary may request.

(f) The Commission shall on a frequent and continuing basis, provide to the Architectural and Transportation Barriers Compliance Board established pursuant to section 703, such data and information as it has acquired or developed during the course of its investigations and studies and such reports as it has submitted under subsection (e) of this section. Such Board shall also provide to the Commission such data and information acquired by it as the Commission may reasonably request.

### ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SEC. 703. (a) There is established within the Federal Government the Architectural and Transportation Barriers Compliance Board (hereinafter referred to as the "Board") which shall be composed of the heads of each of the following departments or agencies (or their designees whose positions are Executive Level IV or higher):

(1) Department of Health, Education, and Welfare;

(2) Department of Transportation;

(3) Department of Housing and Urban Development;

(4) Department of Labor;

(5) Department of the Interior;

(6) General Services Administration;

(7) United States Postal Service; and

(8) Veterans' Administration.

(b) It shall be the function of the Board to: (1) insure compliance with the standards prescribed by the General Services Administration, the Department of Defense, and the Department of Housing and Urban Development pursuant to the Architectural Barriers Act of 1968 (Public Law 90–480), as amended by the Act of March 5, 1970 (Public Law 91–205); (2) investigate and examine alternative approaches to the architectural, transportation, and attitudinal barriers confronting handicapped individuals, particularly with respect to public buildings and monuments, parks and parklands, public transportation (including air, water, and surface transportation whether interstate, foreign, intrastate, or local), and residential and institutional housing; (3) determine what measures are being taken by Federal, State, and local governments and by other public or non-profit agencies to eliminate the barriers described in clause (2) of this subsection; (4) promote the use of the International Accessibility Symbol in all public facilities that are in compliance with the standards prescribed by the Administrator of the General Services Administration, the Secretary of Defense, and the Secretary of Housing and Urban Development pursuant to the Architectural Barriers Act of 1968; (5) make reports to the President and to Congress, which shall describe in detail the results of its investigations under clauses (2) and (3) of this subsection; and (6) make to the President and to the Congress such recommendations for legislation and administration as it deems necessary or desirable to eliminate the barriers described in clause (2) of this subsection.

(c) In carrying out its functions under this section, the Board shall conduct investigations, hold public hearings, and issue such orders as it deems necessary to insure compliance with the provisions of the Acts cited in subsection (b). The provisions of subchapter II of chapter 5, and chapter 7 of title 5, United States Code, shall apply to procedures under this section, and an order of compliance issued by the Board shall be a final order for purposes of judicial review.

(d) The Board is authorized to appoint as many hearing examiners as are necessary for proceedings required to be conducted under this section. The provisions applicable to hearing examiners appointed under section 3105 of title 5, United States Code, shall apply to hearing examiners appointed under this subsection.

(e) The departments or agencies specified in subsection (a) of this section shall make available to the Board such technical, administrative, or other assistance as it may require to carry out its functions under this section, and the Board may appoint, under the terms and conditions specified in subsection (d) of section 702, such other advisers, technical experts, and consultants as it deems necessary to assist it in carrying out its functions under this section.

(f) The Board shall, at the end of each fiscal year, report its activities during the preceding fiscal year to the Congress. Such report shall include an assessment of the extent of compliance with the Acts cited in subsection (b) of this section, along with a description and analysis of investigations made and actions taken by the Board, and the reports and recommendations described in clauses (4) and (5) of subsection (b) of this section.

(g) There is authorized to be appropriated for the purpose of carrying out the duties and functions of the Board under this section $1,000,000 for the fiscal year ending June 30, 1973; $1,250,000 for the fiscal year ending June 30, 1974; and $1,500,000 for the fiscal year ending June 30, 1975.

### EMPLOYMENT UNDER FEDERAL CONTRACTS

SEC. 704. (a) Any contract entered into by any Federal department or agency for the procurement of personal property and nonpersonal services (including construction) for the United States shall contain a provision requiring that, in employing persons to carry out such contract the party contracting with the United States shall take affirmative action to employ and advance in employment qualified handicapped individuals as defined in section 7(7). The provisions of this section shall apply to any subcontract entered into by a prime contractor in carrying out any contract for the procurement of personal property and nonpersonal services (including construction) for the United States. The President shall implement the provisions of this section by promulgating regulations within ninety days after the date of enactment of this section.

(b) If any handicapped individual believes any contractor has failed or refuses to comply with the provisions of his contract with the United States, relating to employment of handicapped individuals, such individual may file a complaint with the Department of Labor. The Department shall promptly investigate such complaint and shall take such action thereon as the facts and circumstances warrant consistent with the terms of such contract and the laws and regulations applicable thereto.

### NONDISCRIMINATION UNDER FEDERAL GRANTS

SEC. 705. No otherwise qualified handicapped individual in the United States, as defined in section 7(7), shall solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

---

By Mr. WILLIAMS:

S. 12. A bill to amend title VII of the Housing Act of 1961 to establish an Urban Parkland Heritage Corporation to provide funds for the acquisition and operation of open-space land, and for other purposes. Referred to the Committee on Banking, Housing and Urban Affairs.

### URBAN PARK LAND HERITAGE BILL

Mr. WILLIAMS. Mr. President, in "National Parks for the Future," a report commissioned by the National Park Centennial Commission and the National Park Service, the Conservation Foundation rather eloquently summarized the state of our land and natural resources:

> The United States in 1972 is, despite its continental vastness, an urban nation becoming ever more urbanized—with all of the confinement, lack of opportunity, and environmental insult that this condition implies in a specialized, technological age. Further, despite its affluence, the United States has become a nation whose land and resources are now understood to be finite; the frontier is at our backs, the Mesabi played out, our oil reserves en route to depletion, and the population is consuming land and resources at an increasing rate, with commensurate despoliation and pollution. Finally, the United States—a nation built on the foundation of individual industry, of sacrifice and long hours—has become a nation . . . in which leisure time has become not so much a brief respite from productive labor, but a vast plain of boredom, of impatience about opportunities out of reach, of endless hours confronting a society unprepared for the constructive use of discretionary time.

Today, seven of every 10 Americans live in a relatively few large metropolitan areas—on 1.5 percent of our Nation's land area, but only 3 percent of our public recreation lands are within 1 hour's driving time from the center of the major metropolitan areas. The resources for outdoor recreation are simply not available to our urban dwellers, but the overwhelming majority of recreation is sought close to home in the after-work, after-school hours or on short 1-day outings.

It is interesting to note that only two of our 50 largest cities are within a 50-mile range of a national park and only five more major cities are within a 100-mile range of a national park. The magnitude of the popular support for the Gateway National Recreation Area in New Jersey and similar projects elsewhere is due in large part to the fact that the parks will be accessible to residents of crowded urban areas.

In recent years pollution, development, and suburbanization have taken a heavy toll on urban outdoor recreational sites. The days are gone when one could go for a swim in the city's river or take the trolley to the amusement park at the end of the line. The inequities that exist in the distribution of outdoor recreation resources are severe, and they are steadily becoming more pressing.

In the face of diminishing opportunities, Department of the Interior studies show that most Americans now participate in some form of outdoor recreation. Furthermore, participation is increasing at the rate of 10 percent per year, and conservative projections indicate that with rising income and more leisure time, participation will increase fourfold by the year 2000.

The inadequacy of urban recreational facilities is felt most keenly by those at the lower end of the income scale. These people are almost entirely dependent upon nearby public facilities. On the other hand, many more opportunities are available to affluent city dwellers because of their ability to take advantage of private recreational facilities and because of their increased mobility. Studies by the Department of Interior, for example, have shown that those using the national parks are most likely to be better educated, white, young, well off economically, and live in suburban areas. In fact, however, our major parks are out of reach for most Americans.

While we have a number of Federal and State programs designed to provide urban parkland, our situation is often similar to that of Alice in Wonderland. We must run as fast as we can to stay in the same place. At the same time we are converting some urban land into parks, we are allowing existing parks to be taken for highways, schools, utilities, and housing. More than 22,000 acres of urban parkland have been gobbled up over the the past 7 years, and in many instances this means that a greater number of people are brought into an area to share a reduced supply of parks and recreational facilities.

In 1969, the Bureau of Outdoor Recreation estimated that it would require at least $25 billion above existing expenditure levels to afford urban dwellers the same amount of nearby recreation opportunity by 1975 that was available on the average in 1965. While conceding that it would not meet total needs the Department of the Interior recommended in its unpublished nationwide outdoor recreation plan for 1969 that an additional $6.3 billion should be requested over the next 5 years to meet the urban recreation problem. At that time it was hoped that the additional dollars would make possible a redress of highest priority imbalances that existed between the largest cities and the rest of the Nation. Unfortunately, President Nixon did not find it expedient to follow the recommendations of his own administration or even to release the results of their study. Nevertheless, the need is manifest.

A task force of the Conservation Foundation recommended a $100 billion bond issue for a "buy back America" program for the purpose of land acquisition, capital development, and improvement of the National, State, city, and county park systems.

Similarly, in a letter which I recently received from the National Recreation and Park Association, Dwight Rettie, the executive director, stated:

> The needs for open spaces and recreation areas are enormous because we must naturally undo deficits that have been accumulating for nearly half a century.

Mr. Rettie further indicated that a program which would fully deal with urban open space needs would involve capital investments over the next 10 years of $15 billion for acquisition and development, and an equal sum for operation and maintenance costs.

Mr. President, I ask unanimous consent that the entire text of the letter from the National Recreation and Park Association be printed in the RECORD at this point.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

NATIONAL RECREATION
AND PARK ASSOCIATION,
*Arlington, Va., October 13, 1972.*

Hon. HARRISON A. WILLIAMS,
*U.S. Senate,*
*Washington, D.C.*

DEAR SENATOR WILLIAMS: This is in response to your request for information about studies that have been made relating to the national need for recreation, parks and open spaces.

No comprehensive inventory of national recreation and park needs has ever been made in this country. Surveys made in this area have been extrapolations of very limited data or they have been projections of needs based on relatively narrow definitions of open space, parks or recreation facilities.

Most of the work done to date has been limited to large facilities at the national, state and regional scale. All present figures are not only out of date but fail to represent a comprehensive assessment of open space and recreation needs ranging from mini parks and tot lots at the suburban neighborhood scale to national parks and wildlife refuges of significance to the whole country.

The needs for open spaces and recreation areas are enormous because we must naturally undo deficits that have been accumulating for nearly half a century. Although many recreation areas were developed during the 1930's, very little land acquisition took place to increase the national inventory of parks and recreation assets. Almost nothing was done in the 1940's. The 1950's saw the first initial acquisitions, largely at the Federal level. By the early 1960's the HUD open space land programs, and later the program of grants through the Land and Water Conservation Fund, began to redress the imbalances that had accumulated during the nation's period of growth and development following World War II—a period during which public recreation sources were largely ignored in the process of suburban growth.

The National Recreation and Park Association is now engaged in an assessment of central city open space needs—the results of that study will not be available until January 1973. We will be pleased to furnish you the results of that study just as soon as they are available. An estimate of open space needs should take account of the plans already developed by more than 20,000 separate units of local government—no analysis has yet been made of these plans.

As the United States moves into the 1970's and prepared for the decade of the 80's we are engaged in a transition that invisions large changes in our understandings and attitudes toward the place of recreation and parks in our national life. Large blocks of discretionary time, flowing in part from a reduced work week, in part from increasing affluence, and in part from our growing understanding that we must meet the recreational needs of many of our citizens faced with involuntary leisure (such as the handicapped and the unemployed) and the critical need to deal with the leisure crisis among those in our society who have less time for recreation than they have had in the past.

Nevertheless, and recognizing the hazard of such estimates, the National Recreation and Park Association believes the magnitude of this effort would involve capital investments over the next ten years on the order of 15 billion dollars for land acquisition and development. Operation and maintenance costs would probably approximate an equal sum, although they would lag behind capital costs by approximately one to three years.

The National Recreation and Park Association would be pleased to assist you and the committee in development of firm estimates and we sincerely hope hearings can shed additional light on both the dimension of need and the breadth of public support for action.

Park lands and open spaces can no longer be regarded as amenities to only be expected if all other wants are met. We know today that these assets can prevent the spread of urban blight, can enhance and protect the value of healthy neighborhoods, and can preserve the identity and the mental health of people. The real issue is not how much land we save, but how many people will benefit from saving land and recreational resources that the people can use to enrich their lives every day and to give them a sense of identity and fulfillment.

Sincerely,

DWIGHT F. RETTIE,
*Executive Director.*

Mr. WILLIAMS. The need for open space lands is both basic and critical. The need to preserve natural beauty and to provide a readily available escape from the noise, crowding, odors, and other discomforts of urban living are closely bound up with our mental and emotional well being. Moreover, parks can reduce the noise and dirt of highways, and large areas of open land act as air recharge or mixing areas where the noxious air of the cities can be diluted with fresher air. The lack of open space or green areas can increase the flood potential of a city and even destroy the purity of its fresh water supply.

Mr. President, I was the author of the original open space law which was passed in 1961. The bill stemmed from the realization that green space in our urban areas was rapidly disappearing, and the open space law was designed to provide, preserve, and develop open space land. Over the past 11 years Congress has appropriated $578.5 million for the open space program, and the money has been used primarily for the acquisition and development of parks and recreational facilities. Many complementary State programs, such as New Jersey's green acres program, have been established in response to this Federal effort.

Since the establishment of the open space program, Congress has also enacted the Land and Water Conservation Fund Act for the purpose of providing Federal grants for State and local outdoor recreation planning and land acquisition and development. The Land and Water Conservation Fund Act is administered by the Bureau of Outdoor Recreation within the Department of the Interior, but unlike the open space program it is not geared toward providing money for urban park programs. Indeed, BOR analyses indicate that densely populated counties received the least funds per capita from the LWCF and sparsely populated counties received the most funds. In an evaluation of all Federal outdoor recreation programs the General Accounting Office stated flatly that:

> The LWCF formula for apportioning grant funds to the States does not meet the needs of the people living in urban areas.

Nevertheless, the appropriations for the LWCF have been more than twice as great as the appropriations for the open space program for the past several years.

The GAO study goes on to state that:

> Grant projects financed under HUD and BOR programs have met and will continue to meet some of the outdoor recreation needs of the Nation. Greater benefits could have been achieved had more projects been located in densely populated, low-income areas having few outdoor recreation opportunities and whose residents were limited by low income from traveling to areas having more abundant facilities and opportunities.

I think that the findings of the GAO, the Department of the Interior, the National Recreation and Parks Association, and others lead one to the inevitable conclusion that our efforts—through the open space program and other Federal programs—are no longer sufficient to meet the current critical needs for urban parkland. Consequently, I am today introducing the Urban Parkland Heritage Act of 1973.

This bill will substantially increase the amount of Federal funds available for the acquisition and development of park lands and recreational facilities. It replaces the open space program through which $74,000,000 was appropriated in fiscal year 1971 and $100,000,000 was appropriated in 1972 with a program under which $1 billion per year will be available for a 5-year period.

The Urban Parkland Heritage Act will for the first time make Federal funds available for the operation and maintenance of open space areas. This provision is especially critical if we are to reap the full benefits of a park and recreation program. Too often parks are acquired because the money is available, but, unfortunately, recreation budgets are the first to be cut when municipalities encounter financial difficulties. Thus, when no money is forthcoming for operational expenses, the potential for public enjoyment of the acquired facilities is seriously impaired. Programs such as "Summer in the Parks" in the District of Columbia have generated massive citizen interest and this bill will provide an opportunity for increased enjoyment of our open space land by urban dwellers.

Under the open space program the Federal Government currently provides grants of up to 50 percent of the total cost of acquiring or developing open space land, and, on its face, this would seem to be sufficient. The GAO study of Federal recreation programs, however, indicated that many cities have such serious fiscal problems that they are unable to take advantage of the program, and the problems seem to be greatest in the areas with the greatest density of population and the highest incidence of poverty. Consequently, the Urban Parkland Heritage Act will allow the Federal Government to assume a greater share of the cost of any individual project. Grants will generally be available in amounts of up to 75 percent of the cost of acquiring or developing open space land. Low interest loans in amounts of up to 50 percent of the cost of eligible projects will also be available, and it is hoped that a flexible combination of grants and loans can be used in order to meet the varying needs of the individual applicants. The combination of grants and loans would never be allowed to exceed 90 percent of the eligible project cost.

In situations where the applicant's need is especially great and its resources are especially limited the bill also provides for grants of 90 percent of the cost of acquiring and developing open space land.

The new program is to be administered by an independent governmental corportation with the Secretary of the Department of Housing and Urban Development serving as the Chairman of the Board. The Board will consist of the Secretary of the Department of Interior, the Administrator of the Environmental Protection Agency, and representatives of State and local governments and the public at large.

One of the most serious problems with the current programs dealing with open space land acquisition is the length of time it takes to guide a proposal through the administrative jungle. Land appreciates in value quite rapidly, and time is quite literally money when one is attempting to acquire attractive land. The Urban Parkland Heritage Corporation has few if any of the incumbrances inherent in the various Federal bureaucratic structures. Its only priority is the efficient administration of the urban parkland heritage program. Furthermore, the corporation may obligate the funds authorized under this program by contract authority, and this should further enhance its ability to get funds into the hands of applicants speedily.

While this bill replaces many of the provisions of the current open space law, it should be noted that it leaves the operation of the land and water conservation fund intact. The function of that fund has been, and should continue to be, one of providing money for the acquisition and development of State and Federal parks and recreational facilities.

I am pleased to announce that the distinguished Congressman from Illinois and the recipient of the National Park and Recreation Association 1972 National Congressional Award, DAN ROSTENKOWSKI, is introducing a companion bill to S. 12 in the House of Representatives.

> Mr. President, I believe this is the first time that legislation of this kind has been introduced in Congress. It derives from a growing awareness—if not alarm—over the chaotic and enormously wasteful sprawl of our urban areas, and the consequent disappearance of our lovely old farms and pastures, quiet streams and wooded hills under the onrushing blade of the bulldozer.
>
> It is intended to help preserve some of nature in our metropolis and arrest the cancer or urban sprawl and the blight of deterioration following in its wake.

I made that statement over 11 years ago before this body when I introduced the first open space bill. Despite the enactment and many successes of that bill, we continue to see forests defoliated in the West and land defiled in the East. If anything, the situation today is much worse than it was in 1961. Unless we act swiftly, nothing will remain of our parkland heritage.

Mr. President, I ask unanimous consent that the text of the bill be printed in full following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 12

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That (a) title VII of the Housing Act of 1961 is amended to read as follows:

"FINDINGS AND PURPOSE

"SEC. 701. (a) The Congress finds that—

"(1) the rapid expansion of the Nation's urban areas and the rapid growth of population within such areas has resulted in severe problems of urban and suburban living for a substantial majority of the Nation's present and future population, including the lack of valuable open-space land for recreational and other purposes;

"(2) there is a need for additional parks and other open space in the build-up portions of urban areas, especially in low-income neighborhoods and communities, and a need for greater and more coordinated State and local efforts to make available and improve open space land throughout entire urban areas;

"(3) there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value so that these remaining evidences of our history and heritage are not lost or destroyed through the expansion and development of urban areas; and

"(4) the welfare of the Nation and the well-being of its citizens require substantial expansion of the scope and level of Federal assistance for the development and preservation of open space lands.

"(b) It is the purpose of this title to help control urban sprawl by assisting States and local governments in developing a balanced urban environment, to prevent the spread of urban blight and deterioration, to encourage more economic, environmentally sound urban development, to assist in preserving areas and properties of historic or architectural value, and to help provide necessary recreational, conservation, and scenic areas by assisting State and local public bodies in taking prompt action to—

"(1) provide, preserve, and develop open-space land in a manner consistent with the planned long-range development of the Nation's urban areas;

"(2) acquire, improve, and restore areas, sites, and structures of historic or architectural value;

"(3) develop and improve open-space and other public urban land, in accordance with programs to encourage and coordinate local public and private efforts toward this end; and

"(4) operate and maintain open-space and other public land in a manner which best meets the needs of the residents of that State or locality.

"DEFINITIONS

"SEC. 702. As used in this title—

"(1) The term 'open-space land' means any land located in an urban area which has value for (A) park and recreational purposes, (B) conservation of land and other natural resources, or (C) historic, architectural, or scenic purposes.

"(2) The term 'urban area' means any area which is urban in character, including those surrounding areas which, as determined by the Corporation, form an economically and socially related region, taking into consideration such factors as present and future population trends and patterns of urban growth, location of transportation facilities and systems, and distribution of industrial, commercial, residential, governmental, institutional, and other activities.

"(3) The term 'State' means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

"(4) The term 'local public body' means any public body (including a political subdivision) created by or under the laws of a State or two or more States, or a combination of such bodies, and includes Indian tribes, bands, groups, and nations (including Alaska Indians, Aleuts, and Eskimos) of the United States.

"(5) The term 'open-space uses' means any use of open-space land for (A) park and recreational purposes, (B) conservation of land and other natural resources, or (C) historic, educational, architectural or scenic purposes.

"(6) The term 'Corporation' means the Urban Parkland Heritage Corporation established by section 703 of this title.

### "URBAN PARKLAND HERITAGE CORPORATION

"SEC. 703. (a) To carry out the provisions of this title, there is established an independent establishment in the executive branch which shall be known as the Urban Parkland Heritage Corporation, and which shall carry out its functions subject to the direction and supervision of a Board of Directors (hereinafter referred to as the 'Board'). The Board shall consist of—

"(1) the Secretary of Housing and Urban Development, who shall serve as Chairman;

"(2) the Secretary of the Interior;

"(3) the Administrator of the Environmental Protection Agency;

"(4) four officials of State government, appointed by the President, by and with the advice and consent of the Senate, two of whom shall be elected officials, and two of whom shall hold positions related to urban development and the management of open-space lands;

"(5) four officials of local government, appointed by the President, by and with the advice and consent of the Senate, two of whom shall be elected officials, and two of whom shall hold positions related to urban development and the management of open-space lands; and

"(6) four members of the general public, appointed by the President, by and with the advice and consent of the Senate, who have substantial experience in urban development, land use planning, and the management of open-space lands.

Not more than two of the members referred to in each of clauses (4), (5), and (6) may be members of the same political party. Not more than one member referred to in clauses (4), (5), and (6) may be a resident of any one State.

"(b) It shall be the duty of the Corporation to furnish assistance in accordance with the provisions of this title. All grants and loans made by the Corporation shall be approved by the Board, and for the purpose of any such approval, a quorum of the Board shall consist of two-thirds of the members who must be actually present and voting. The Board shall meet not less than four times annually.

"(c)(1) A member of the Board who is otherwise an officer or employee of the United States shall serve without additional compensation, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties of the Corporation.

"(2) A member of the Board who is not otherwise an officer or employee of the United States shall receive compensation for his service as a member the per diem equivalent to the rate for level IV of the Executive Schedule under section 5315 of title 5, United States Code, when engaged in the performance of duties of the Corporation, and shall receive reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of such duties.

"(d) The Corporation may employ an Executive Director who shall be paid at an annual rate equal to the annual rate of pay for an individual occupying a position under level V of the Executive Schedule under section 5316 of title 5, United States Code.

"(e) Section 5108 (c) of title 5, United States Code, is amended by adding at the end thereof the following:

"'(11) the Urban Parkland Heritage Corporation may place a total of three positions in GS–16, 17, and 18.'

"(f) The Corporation may appoint such other employees as may be necessary to carry out its functions.

"(g) (1) The functions of the Corporation may not be delegated or transferred to any other agency, and no functions other than those conferred by this title may be delegated or transferred to the Corporation.

"(2) Section 902 (1) of title 5, United States Code, is amended by inserting before the semicolon at the end thereof the following: 'or the Urban Parkland Heritage Corporation'.

"(h) There are hereby authorized to be appropriated such sums as may be necessary for the operation of the Corporation.

### "GRANTS AND LOANS FOR ACQUISITION, DEVELOPMENT, AND OPERATION OF OPEN-SPACE LAND

"SEC. 704. (a) (1) The Corporation is authorized to make grants and loans pursuant to section 709 to States and local public bodies to help finance (A) the acquisition of title to, or other interest in, open-space land in urban areas, and (B) the development of open-space or other land in urban areas for open-space uses.

"(2) The amount of any grant under this section shall not exceed 75 per centum of the eligible project cost, as approved by the Corporation, of such acquisition and development. If, however, the project involves the acquisition of interests in undeveloped or predominantly undeveloped land which, if withheld from commercial, industrial, and residential development, would have special significance in helping to shape economic and desirable patterns of urban growth (including growth outside of existing urban areas which is directly related to the development of new communities or the expansion and revitalization of existing communities), or if the State or local public body could not otherwise reasonably meet its need for open-space lands, the Corporation may make grants to State and local public bodies in an amount not to exceed 90 per centum of the eligible project cost of the acquisition and development of such lands. The amount of any such loan shall not exceed 50 per centum of such eligible project cost.

"(3) Any loan under this section shall bear interest at a rate not less than the average annual interest rate on all interest-bearing obligations of the United States then forming a part of the public debt as computed at the end of the fiscal year next preceding the date of the loan and adjusted to the nearest one-eighth of one per centum, and each such loan shall be secured by such real or personal property as the Corporation may require.

"(4) In no case shall the combined amount of grants and loans made by the Corporation pursuant to this title to any State or local public body exceed 90 per centum of the eligible project cost for the acquisition and development of open-space lands.

"(b) The Corporation is authorized to make grants pursuant to section 709 to States and local public bodies to help finance the operation and maintenance of open-space or other land in urban areas for open-space uses for the first four fiscal years of the operation of such lands. The amount of any such grant shall not exceed 75 per centum of the eligible project cost, as approved by the Corporation, of such operation and maintenance for the first fiscal year of operation, 60 per centum of such costs for the second fiscal year of operation, 45 per centum of such costs for the third fiscal year of operation and 30 per centum of such costs for the fourth fiscal year of operation. The eligible project costs for the operation and maintenance of open-space land shall be those costs which are incurred for equipment and supplies used on the site of such open-space land and for the payment of salaries to employees who manage and carry out the programs on the site of such open-space land.

"(c) No grant or loan under this title shall be made to acquire and clear developed land in built-up areas unless the local governing body determines that adequate open-space land cannot be effectively provided through the use of existing undeveloped land.

"(d) The Corporation may prescribe such further terms and conditions for assistance under this title as it determines to be desirable.

"(e) The Corporation shall consult with appropriate agencies and officers of the Federal Government to establish and operate a program to furnish technical assistance, upon request, to States and local public bodies. The Secretary of Housing and Urban Development, the Secretary of the Interior, and the Administrator of the Environmental Protection Agency are authorized to furnish to the Corporation such advice and assistance as may be necessary to carry out the provisions of this subsection.

### "PLANNING AND GRANT REQUIREMENTS

"SEC. 705. (a) The Corporation shall make a grant or loan under section 704 only if it finds that such grant or loan is needed for carrying out a unified or officially coordinated program, which provides for citizen participation, and which meets criteria established by the Corporation for the provision and development of open-space land which is a part of, or is consistent with, the comprehensively planned development of the urban area.

"(b) In carrying out its duties, the Corporation shall also take into account—

"(1) the accessibility of major Federal or State outdoor recreational facilities or parklands to the area surrounding the proposed open-space land;

"(2) the availability or proposed availability of public transportation for the proposed open-space land;

"(3) the extent of urbanization (as determined by the Corporation) in the communities surrounding the proposed open-space land; and

"(4) the ability of the States or local public body applying for a grant or loan to acquire open-space land in a timely and efficient manner.

### "CONVERSION TO OTHER USES

"SEC. 706. No open-space land for the acquisition of which a grant or loan has been made under section 704 shall be converted to uses not originally approved by the Corporation without satisfactory compliance with regulations established by the Corporation. Such regulations shall require findings, after public participation (including public hearings in a location proximate to the open-space land), that—

"(1) there is adequate assurance of the substitution of other open-space land of as nearly as feasible equivalent usefulness, location, and fair market value at the time of the conversion;

"(2) the conversion and substitution are needed for orderly growth and development;

"(3) the proposed uses of the converted and substituted land are for the benefit of the public and in accordance with the applicable comprehensive plan for the urban area; and

"(4) any profits received as a result of such conversion are applied to the Urban Parkland Heritage program.

"LABOR STANDARDS

"SEC. 707. (a) The Corporation shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed with the assistance of grants under this title shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended. The Corporation shall not approve any such grant without first obtaining adequate assurance that these labor standards will be maintained upon the construction work.

"(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z–15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c).

"MAINTENANCE OF EFFORT

"SEC. 708. No grant or loan shall be made to any State or local public body in any fiscal year unless the State or local public body makes assurances to the Corporation that the amount available for expenditure by such State or local public body from non-Federal sources for the purposes described in section 704 (a) (1) (A) and (B) in that fiscal year will not be less than the amount expended for such purposes from non-Federal sources during the preceding fiscal year.

"CONTRACT AUTHORITY

"SEC. 709. (a) To finance grants and loans under this title, the Corporation is authorized to incur obligations on behalf of the United States in amounts aggregating not to exceed $5,000,000,000. This amount shall become available for obligation on July 1, 1973, and shall remain available until obligated. There are authorized to be appropriated for the liquidation of the obligations incurred under this section not to exceed $1,000,000,000 prior to July 1, 1974, not to exceed an aggregate of $2,000,000,000 prior to July 1, 1975, not to exceed an aggregate of $3,000,000,000 prior to July 1, 1976, not to exceed an aggregate of $4,000,000,000 prior to July 1, 1977, and not to exceed an aggregate of $5,000,000,000 prior to July 1, 1978. Sums so appropriated shall remain available until expended."

(b) The amendment made by subsection (a) shall become effective on July 1, 1973. After June 30, 1973, no new grants or loans shall be made pursuant to title VII of the Housing Act of 1961 as such title was in effect on June 30, 1973, except with respect to projects or programs for which funds have been committed on or before that date.

---

By Mr. KENNEDY (for himself and Mr. WILLIAMS, Mr. JAVITS, Mr. BROOKE, Mr. CRANSTON, Mr. HART, Mr. HUGHES, Mr. HUMPHREY, Mr. METCALF, Mr. MONDALE, Mr. MOSS, Mr. PELL, Mr. RANDOLPH, Mr. RIBICOFF, Mr. STEVENSON, and Mr. TUNNEY):

S. 14. A bill to amend the Public Health Service Act to provide assistance and encouragement for the establishment and expansion of health maintenance organizations, health-care resources, and the establishment of a Quality Health Care Commission, and for other purposes. Referred to the Committee on Labor and Public Welfare.

### HEALTH MAINTENANCE ORGANIZATION AND RESOURCES DEVELOPMENT ACT OF 1973

Mr. KENNEDY. Mr. President, I am proud to be able to introduce the Health Maintenance Organization and Resources Development Act of 1973, which passed the Senate last September by a vote of 60 to 14.

The Subcommittee on Health has held extensive hearings into the general subject of health maintenance organizations. This legislation was originally introduced into the Senate on March 13, 1972. After extensive hearings, it was reported, in amended form, by the Committee on Labor and Public Welfare to the Senate on July 21, 1972.

Unfortunately, the House of Representatives was unable to complete work on HMO legislation during the 92d Congress. For that reason, no further action was taken on the legislation.

Mr. President, I am reintroducing the Health Maintenance Organization and Resources Development Act of 1972. It is, except for technical changes, identical to the bill which passed the Senate last year. A complete record of the transactions which occurred in the Senate, and resulted in the passage of this legislation, can be found in the CONGRESSIONAL RECORD of Wednesday, September 20, 1972.

Mr. President, the fundamental intent of this bill is to make assistance available to groups interested in initiating health maintenance organizations and which comply with the definitions contained herein. It has been drafted in such a way that preference is given those types of health maintenance organizations which have already demonstrated their success in delivering high quality health services. The intent of this legislation is to use Federal funds to facilitate the development of alternative forms of health care delivery—in order to create a truly pluralistic health care system—within the United States.

At the present time, approximately 96 percent of all personal health services are delivered in the solo or small group practice, fee-for-service modality. For that reason, most Americans at the present time have no real options concerning how their health services are to be received. In those parts of the country where HMO's have developed in the past, such as California, Hawaii, Washington, and several other States, they have had a salutary impact on all forms of health delivery in the area. The goal of this legislation is to foster that healthy competitive situation in many parts of the United States.

I think it is important to note that there is nothing coercive about this legislation. It simply makes Federal funds available to applicants who wish to apply for assistance and who are willing to comply with its requirements.

I hope the Senate will act expeditiously on this legislation. Many developing HMO's in the field will shortly be in need of Federal assistance to continue their development. For that reason, I hope this legislation will be passed by both Houses of Congress promptly, and we can look forward to the time in the near future when meaningful HMO legislation is signed into law.

As chairman of the Health Subcommittee, I will do my best to see that this legislation is reported out of committee and brought before the full Senate as soon as possible.

I would like to take this opportunity to offer my assistance and that of my staff to any of our new Senate colleagues or their staffs who wish to have additional information concerning this important legislation.

---

By Mr. McCLELLAN (for himself, Mr. HRUSKA, and Mr. THURMOND):

S. 15. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide a Federal death benefit to the surviving dependents of public safety officers. Referred to the Committee on the Judiciary.

Mr. THURMOND. Mr. President, today Senator MCCLELLAN, Senator HRUSKA and I are introducing a bill to provide benefits to public safety officers or their surviving dependents if they are killed or dismembered in the line of duty.

This legislation would provide a $50,000 benefit payable in the event of death or multiple dismemberment and a $25,000 benefit in the event of single dismemberment. In the event of death the benefit would be paid to the spouse, dependent children or dependent parents of any person serving in any activity pertaining to the enforcement of the criminal laws, fire fighting, correctional programs or institutions, or a court having criminal jurisdiction where the activity is potentially dangerous because of contact with criminal suspects.

In recent years many of our public safety officers have been killed by felonious assaults, and it is increasingly apparent that violent crime is spreading. Crime knows no jurisdictional boundary, nor respects the color of a law-enforcement officer's uniform. Each officer, whether sheriff, deputy, highway patrolman, or policeman, must be fully cognizant that death may come to him in the performance of his sworn duties.

The administration supports this measure and believes it is warranted because police officers throughout the country are facing a rising tide of violence and need a minimum death benefit that is not tied into State or local compensation programs.

Public safety officers, dedicated to their law-enforcement careers, are not nearly so concerned with their low salaries as they are of maintaining and preserving the security of their families. The law enforcement officer's group life insurance program, passed in the 91st Congress, was but the first step in providing this group of persons some security.

In the case of the average law-enforcement officer, group insurance protection is only nominal because the amount of private insurance he can purchase with his low salary is normally insufficient to provide for the needs of his dependents. The approach of this bill should adequately meet the security needs of these officers.

This bill passed the Senate on September 5, 1972, as S. 2087 and went to conference because of differences between the Senate and House passed bills. On October 17, 1972, the conference filed its reports with the House of Representatives, but because the House failed to act, this important legislation died. Action must be taken on this proposal promptly as the situation continues to worsen. I hope that the Senate and House can put aside minor differences as to approach and enact some legislation to meet this vital need.

The alarming trend of crime can only be reversed by professional police officers, who are assured that they and their families will be compensated in a manner commensurate with the risks inherent in law enforcement. Law-enforcement careers must be made more acceptable and attractive to our qualified citizens. We cannot ask decent, hardworking men to face the constant risk of murder and mayhem time after time and then ignore their rightful request that their families be protected from financial calamity.

Mr. President, I sincerely hope this bill will receive prompt attention.

---

By Mr. SCHWEIKER:

S. 16. A bill to amend the Communications Act of 1934 to establish orderly procedures for the consideration of application for renewal of broadcast licenses. Referred to the Committee on Commerce.

### THE BROADCAST LICENSE ACT OF 1973

Mr. SCHWEIKER. Mr. President, today I introduce the "Broadcast License Act of 1973."

This bill would amend the Communications Act of 1934 to, first, extend from 3 to 5 years the licensing period terms for radio and television broadcasting stations, and second, provide that actual good performance by an existing licensee shall entitle that licensee to license renewal, so long as that licensee is otherwise qualified to operate the broadcasting station, and has not "demonstrated a callous disregard for law or regulations of the Federal Communications Commission."

This bill, which is designed to enhance responsiveness by broadcasters to the public interest, is identical to the Broadcast License Act I introduced in the last Congress, S. 3551.

The purpose of the license renewal term is to insure the use of the limited number of broadcasting licenses in the public interest by enabling each station to make longer range commitments, to develop more comprehensive community service plans, and to not spend an inordinate amount of time and energy on bureaucratic paperwork. At the same time, all public service requirements under law and under Federal Communications Commission regulations must still be strictly adhered to, and all challenges for license renewal and applications to take over a license can still be exercised at the end of the 5-year term just as currently can be done at the end of a 3-year term.

The 3-year broadcast license term was devised nearly half a century ago, when the broadcasting industry was totally different from today. With the enormous communications explosion of the last 2 decades, we have all seen the critical importance of communications, and the broadcast media, as vital influences on the capacity of the people of this country to receive necessary information about government, about trends in the country, and about the many needs and demands of society at large. Under broadcast licensing regulatory authority, it is important to insure that all broadcasting stations live up to the serious responsibilities demanded in the public interest demands.

At the same time, those of us responsible for our Nation's laws, must insure that we too remain responsive to modern conditions, and do not remain saddled by archaic regulatory procedures that no longer function as efficiently as before.

The second part of my bill reflects a similar recognition that public service and economic requirements upon a broadcast licensee today are much more stringent than when licensing regulations were initially devised. We must be conscious of the enormous investment that is now required by any broadcasting station in both manpower and sophisticated equipment. I do not feel that we can demand increased responsiveness to the public interest by privately owned broadcasting stations, a policy which I support, without at the same time taking cognizance of the economic investment that is required to support and carry out public interest and community oriented programing. Accordingly, I think it is only reasonable that the actual performance and good faith efforts of a licensee during the license term be a paramount consideration in any license renewal proceedings, and that such demonstrated excellence should receive emphasis over mere promises of performance by a competing applicant. In no way does this insulate a licensee from challenge, or guarantee a license. It only provides a greater incentive for the public service programing that everyone seeks and can help to create a climate for even greater public performance by all existing licensees.

Passage of this bill can be an important contribution to the public interest in today's complex era, and the broadcasting industries obligations to serve the public interest, and I urge speedy consideration by the Congress.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD at this time.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 16

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* that this Act shall be known as the "Broadcast License Act of 1973."

SECTION 2. Section 307(d) shall be amended by striking the first two sentences and inserting the following: "No license granted for the operation of any class of station shall be for a longer term than five years and any license granted may be revoked as hereinafter provided. Upon the expiration of any license, upon application therefore, a renewal of such license may be granted from time to time for a term of not to exceed five years if the Commission finds that public interest, convenience, and necessity would be served thereby: *Provided however,* That in any hearing for the renewal of a broadcast license an applicant for renewal who is legally, financially, and technically qualified shall be awarded the grant if such applicant shows that its broadcast service during the preceding license period has reflected a good-faith effort to serve the needs and interests of its area as represented in its immediately preceding and pending license renewal applications and if it has not demonstrated a callous disregard for law or the Commission's regulations: *Provided further,* That if the renewal applicant fails to make such a showing or has demonstrated a callous disregard for law or the Commission's regulations, such failure or demonstration shall be weighed against the renewal applicant.

---

By Mr. SCHWEIKER:

S. 17. A bill to amend the Public Health Service Act to provide for greater and more effective efforts in research and public education with regard to diabetes mellitus. Referred to the Committee on Labor and Public Welfare.

### NATIONAL DIABETES RESEARCH AND EDUCATION ACT

Mr. SCHWEIKER. Mr. President, although the statistics are uncertain and varied, there are now approximately 6 to 8 million people in the United States with diabetes according to the last survey done in 1968. For each person with the disease, it is estimated that there are three or four who will eventually come down with it and the number of people affected by diabetes becomes a possible future total of 24 million Americans. There are good indications that nearly one person in 20 is either an actual or potential diabetic. It is possible that one-fifth of the population are carriers and have a 50-percent chance of passing the trait of diabetes on to their children although they themselves do not develop the disease. By 1980 it is estimated that one in five people will have diabetes or its trait.

The problem of the incidence of diabetes is one to which we must devote our full attention. Studies show that there is a 9-percent increase each year in the diabetic population which is an accelerating increase because each year the diabetic population becomes 9 percent larger. Studies show that the incidence of diabetes is increasing dramatically as the population becomes older, fatter, more affluent, and more urbanized.

An important factor in the increase are our very own diabetic children. In 1921 diabetic children died. After the discovery of insulin in 1921, children and young adults survived, grown to maturity and have been producing children with diabetes or with a strong inherited factor for diabetes. There are now approximately 6 to 8 million diabetics with a chance of producing diabetic children.

Statistics on diabetes are vague because diabetes is not a reportable disease. Diabetes is the fifth leading cause of death in the United States. It is probably second or third if you consider the fact that diabetes is the major factor contributing to many chronic and disabling illnesses—primarily cardiovascular, renal, hypertensive, and neurological. The man who dies of a heart attack is listed in the death statistics as a victim of heart disease, but many times it is actually diabetes which caused the heart attack and the vascular complications. The same can be said of cases involving kidney disease and stroke. Diabetes has become a major cause of blindness in our country. There are nearly 155,000 people blind from diabetic retinopathy, and estimates are that by the year 2000 there will be 574,000 blind from this disorder because of the accelerated increase in the number of people with diabetes and the fact that 50 percent of people with diabetes for 20 years will develop retinopathy and 95 percent of people who have had diabetes for over 30 years will develop this disease.

Insulin has preserved the life of the diabetic; but because he has lived longer, he has encountered the complications of diabetes over a longer life span. This is a problem we did not have to cope with before. Hence, the rise in diabetic blindness is a function of the very fact that the diabetic lives longer.

The discovery of insulin, if we are to face the facts, was not a cure, as was originally believed, but only one step in the battle against diabetes. It is unfortunate that we as a nation have not come to grips with the problem. It is ironic that diabetes now dominates the medical scene, yet so little is known or being done to solve the mysteries of this illness.

It is necessary, in order to understand fully the problems we are facing, to have proper statistics. Diabetes should be made a reportable disease so that it can be studied according to population and geographical areas, and the impact of instances of heredity can be noted. My only fear is that we will be overwhelmed when and if correct data is made available.

Mr. President, today I introduce the National Diabetes Research and Education Act. It is the purpose of this legislation to establish a national program to: First, expand and coordinate the national effort against diabetes; and second, to advance activities and patient education, professional education, public education which will alert the citizens of the United States to the early indications of diabetes, and to emphasize the significance of early detection, proper control, and complications which may evolve from the disease.

In this legislative proposal, the Director of the National Institute of Arthritis, Metabolism, and Digestive Diseases shall establish a National Task Force on Diabetes to formulate a long-range plan to combat diabetes with specific recommendations concerning the utilization and organization of national resources for that purpose after conducting a comprehensive study and survey, investigating the magnitude of diabetes mellitus, its epidemiology, its economic and social consequences, and an evaluation of available scientific information and the national resources capable of dealing with the problem. The recommendations of the task force will be the basis for the inauguration of a national program on diabetes.

In addition, the Director of the National Institute of Arthritis, Metabolic, and Digestive Diseases will be authorized to conduct and render assistance to appropriate public authorities and scientific institution in the conduct of research, training, and public and professional education programs.

Grants to or contracts with States, political subdivisions, universities, hospitals, or other public and nonprofit private institutions or agencies are authorized for projects and programs for research, demonstration, training, public and professional education for early diagnosis, management, and treatment of diabetes.

The legislation calls for the establishment of a very limited number of model diabetes research, treatment, and education clinics throughout the United States to determine the feasibility of operating such clinics for the development of improved methods of detecting diabetes, the development of improved methods of intervention against high risk factors which cause diabetes, and the development of highly skilled manpower in diabetes diagnosis, prevention, and treatment.

Mr. President, our knowledge of diabetes has been pitiful to date, and the millions of people who suffer from this metabolic disorder feel neglected. In my judgment, they are justified. Up to now we have not had a single Federal research center devoted to diabetes. It is time that we faced up to this problem and I am hopeful that new diabetes-related research efforts can begin as soon as possible. The elimination of diabetes will mean an end to its dread complications.

Mr. President, it is my hope that the Federal Government will give a much greater attention to this disease.

I ask unanimous consent that the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 17

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "National Diabetes Research and Education Act".

#### FINDINGS AND DECLARATION OF PURPOSE

SEC. 2. (a) The Congress hereby finds and declares—

(1) that diabetes mellitus is a major health problem in the United States;

(2) that diabetes mellitus contributes to many other health problems, and may significantly decrease life expectancy;

(3) that the citizens of the United States should have a full understanding of the nature and impact of diabetes mellitus;

(4) that there is striking evidence that the known prevalence of diabetes mellitus has increased dramatically in the past decade;

(5) that the severity of diabetes mellitus in children and most adolescents is greater than in adults, which in most cases involves greater problems in the management of diabetes mellitus;

(6) that the attainment of better methods of early diagnosis and treatment of diabetes mellitus deserves the highest priority;

(7) that the determination of the most effective program for discovering the magnitude of the disease its causes, cures and treatments must be given immediate attention; and

(8) that in order to provide for the most effective program in diabetes mellitus it is important to mobilize the resources of the National Institutes of Health as well as the public and private organizations capable of the necessary research and public education in diabetes mellitus.

(b) It is the purpose of this Act to establish a national program to—

(1) expand and coordinate the national effort against diabetes mellitus;

(2) advance activities of patient education, professional education, and public education which will alert the citizens of the United States to the early indications of diabetes mellitus; and

(3) to emphasize the significance of early detection, proper control, and complications which may evolve from the disease.

#### DIABETES PROGRAM

SEC. 3. Part D of title IV of the Public Health Service Act is amended by adding at the end thereof the following new sections:

"NATIONAL TASK FORCE ON DIABETES

"SEC. 435. (a) The Director of the National Institute of Arthritis, Metabolism, and Digestive Disease shall establish a National Task Force on Diabetes to formulate a long-range plan to combat diabetes with specific recommendations concerning the utilization and organization of national resources for that purpose after conducting a comprehensive study and survey investigating the magnitude of diabetes mellitus, its epidemiology, its economic and social consequences, and an evaluation of available scientific information and the national resources capable of dealing with the problem.

"(b) The program to be recommended by the Task Force shall include but not be limited to:

"(1) a coordinated research program encompassing the programs of the National Institute of Arthritis, Metabolism, and Digestive Diseases, related programs of the other research institutes, and other Federal and non-federal programs;

"(2) the utilization of existing research facilities and personnel of the National Institutes of Health for accelerated exploration of opportunities of special promise in scientific areas related to the known complications of diabetes mellitus;

"(3) a system for the collection, analysis, and dissemination of all data useful in the prevention, diagnosis and treatment of diabetes mellitus, including the establishment of a diabetes research data bank to collect, catalog, store, and disseminate insofar as is practicable the results of diabetes research undertaken for the use of any person involved in diabetes research.

"(4) support of manpower programs of training in fundamental sciences and clinical disciplines to provide an expanded and continuing manpower base from which to select investigators, physicians, and allied health professions personnel, for participation in clinical and basic research and treatment programs relating to diabetes, including where appropriate, the use of training stipends, fellowships, and career awards.

"(5) budget estimates and projections reflecting the funds required to fully implement the recommended plan;

"(6) methods of education for persons having diabetes, the general public and for the professions, designed to increase the national awareness of diabetes and the nutritional, genetic, environmental, and social factors, which bear on it; and

"(7) an emphasis on the counseling to persons, especially children, having diabetes and to their families with regard to adjustments and medical regimen required of such persons.

"(c) The Task Force shall be composed of fifteen members who are eminently qualified to serve on such task force and who have demonstrated an interest in achieving through research and clinical experience, practical means for preventing and treating diabetes, with a knowledge of the requirements for productive research, and education, and with an understanding of the need for and disciplines involved in such research and education, as follows:

"(1) ten members shall be scientists or physicians representing the various specialties and disciplines involving diabetes mellitus and related endocrine and metabolic diseases;

"(2) five members from the general public.

"(d) (1) The Task Force shall publish and transmit to the Congress a final report within 18 months after the enactment of this Act. Such report shall recommend a detailed national program as required in subsection (a).

"(2) The Task Force may hold such hearings, take such testimony, and sit and act at such times and places as the Task Force deems advisable to develop a national program on diabetes.

"(e) The Director shall—

"(1) designate a member of the staff of the Institute to act as Executive Secretary of the Task Force;

"(2) make available to the Task Force such staff, information and other assistance as it may require;

"(3) designate one of the appointed members of the Task Force to serve as chairman.

"(f) Members of the Task Force who are officers or employees of the Federal Government shall serve as members of the Commission without compensation in addition to that received in their regular public employment. Members of the Task Force who are not officers or employees of the Federal Government shall each receive compensation at the rate of $100 per day for each day they are engaged in the performance of their duties as members of the Task Force. All members of the Task Force shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties as members of the Task Force.

"(g) There are authorized to be appropriated to carry out the purposes of this section $1,000,000.

### "IMPLEMENTATION OF DIABETES PROGRAM

"SEC. 436. (a) As soon as practicable after the Task Force submits its report and recommendations to the Congress, the Director shall submit to the President for transmittal to the Congress a report outlining the actions required as well as the Institute's staff requirements to carry out the program and a request for such additional appropriations (including increased authorizations) as required to pursue immediately the full implementation of the program recommended by the Task Force for which regularly appropriated funds are not available.

### "DIABETES CONTROL PROGRAMS

"SEC. 437. (a) The Director shall establish programs for cooperation with State and other health agencies in the early diagnosis and treatment of diabetes as well as programs of public, professional, and patient education.

"(b) There are authorized to be appropriated to carry out the purpose of this section $5,000,000 for the fiscal year ending June 30, 1973, and a like sum for each of the next two succeeding fiscal years, and such sums as may be necessary thereafter.

### "PROJECTS AND PROGRAMS FOR THE DETECTION AND EDUCATION OF DIABETES MELLITUS

"SEC. 438. (a) (1) The Director is authorized to make grants to, or contract with States, political subdivisions, universities, hospitals, and other public or non-profit private institutions, agencies, institutions, or organizations which are community oriented, for projects and programs for the conduct of any or all of the following: research, demonstration, training, in and utilization of allied health personnel, or public and professional education for the early diagnosis and treatment of diabetes mellitus, or counseling and assistance in self management.

"(2) In making such grants the Director shall give a priority to those applicants which emphasize the use of allied health personnel.

"(b) A grant (not to exceed 75 per centum of the cost) under this section may be made upon application to the Director at such time, in such manner, containing and accompanied by such information as the Director deems necessary. Each applicant shall—

"(1) provide that the programs and activities for which assistance is sought will be administered by or under the supervision of the applicant;

"(2) describe with particularity the programs and activities for which assistance is sought;

"(3) provide for strict confidentiality of test results, medical records, and other information regarding screening, counseling, or treatment of any person treated except for (A) such information as the patient (or his guardian) consents to be released; or (B) statistical data compiled without reference to the identity of any such patient;

"(4) set forth such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting for Federal funds paid to the applicant under this title;

"(5) provide for such reports in such form and containing such information as the Director may reasonably require.

"(c) There are authorized to be appropriated to carry out the purposes of this section $25,000,000 for the fiscal year ending June 30, 1973, and a like sum for each of the next two succeeding fiscal years, and such sums as may be necessary thereafter.

### "DIABETES RESEARCH, TREATMENT AND EDUCATION CLINICS

"SEC. 439. (a) The Director is authorized to establish not more than six model diabetes research, treatment and education clinics throughout the United States within the framework of existing programs. The purpose of such clinics shall be to test the feasibility of such clinics with regard to—

"(1) the development of improved methods of detecting diabetics;

"(2) the development of improved methods of intervention against high risk factors which cause diabetes; and

"(3) the development of highly skilled manpower in diabetes diagnosis, prevention, and treatment.

"(b) Such clinics shall be served by a central coordinating unit that shall be responsible for the development of standardized procedures for diagnosis, treatment, and data collection in relation to diabetes mellitus. Such clinics are to be located at or in affiliation with a major medical center as determined by the Director.

"(c) (1) There are authorized to be appropriated for the establishment of the clinics authorized under this section $6,000,000 for the fiscal year ending June 30, 1973, and a like sum for each of the next two succeeding fiscal years and such sums as are necessary thereafter.

"(2) In no case shall more than $1,000,000 be expended on any one clinic in a fiscal year.

"(d) The Director, under existing National Institutes of Health policy, may enter into cooperative agreements with public or nonprofit private agencies or institutions to pay all or part of the cost of planning or establishing, and providing basic operating support for these clinics. Federal payments in support of such agreements may be used for—

"(1) construction;

"(2) staffing and other operating costs;

"(3) training with emphasis on allied health personnel;

"(4) demonstration purposes.

"(e) As soon as practicable the Director shall evaluate the performance and effect of such clinics, and determine the necessity and utility of expanding such clinics on a continuing basis and submit a report thereon with recommendations, if any, for legislation required to implement such a program.

### "DEFINITIONS

"SEC. 440. For the purposes of this part the term—

"(1) 'Director' means the Director of the National Institute of Arthritis, Metabolism, and Digestive Diseases; and

"(2) 'Task Force' means the National Task Force on Diabetes."

---

By Mr. RIBICOFF:

S. 18. A bill to amend the Internal Revenue Code of 1954 to allow a credit against income tax to individuals for certain expenses incurred in providing higher education. Referred to the Committee on Finance.

### TUITION TAX CREDITS FOR HIGHER EDUCATION

Mr. RIBICOFF. Mr. President, over 9 years ago I introduced legislation to provide tax relief for those families burdened with the rising costs of higher education. Since then the Senate has approved that legislation three times. Unfortunately, the House of Representatives has failed to follow the Senate's leadership in this area.

The basic costs of going to college have risen dramatically over the last 5 years. The median annual cost of attending a large State or land-grant university has risen 26 percent—for a nonresident it rose 37 percent. A nonresident attending a small State college would have seen his tuition go up 48 percent while students at an Ivy League school would have suffered a 40-percent increase.

Because there is no end in sight to this spiral, it will soon cost between $10,000 and $20,000 to earn a bachelor's degree. Not many families can afford such expenses—especially if they have more than one child in college at any one time.

A constituent of mine recently wrote of the plight in which the soaring costs of education has placed his family.

One child has completed a year of college at the cost of several thousand dollars. Next year, twin sons will be of college age. One wants to be a veterinarian.

Both parents work full time. The children work during the summers. Family income cannot be expanded. Available scholarships and loans are exhausted. Educational expenses in tens of thousands of dollars must be paid in the next few years.

My constituent asks only one question,

> How can I send my children to college?

Unless something is done soon, the answer will be:

> You can't—unless you suddenly become wealthy or willing to go deep into debt.

Because it is unrealistic to expect tuitions to decrease, my legislation is designed to help parents better afford them by providing income tax credits of up to $325 for each college student.

The credit would be computed on the basis of 100 percent of the first $200 of qualifying expenditures for tuition fees, and books; 25 percent of the next $300; and 5 percent of the subsequent $1,000. No credit would be allowed for student costs above $1,500.

The resulting credit would be allowed against the Federal income tax of any person who paid the expenses of education for himself or another person at a qualified educational institution. A qualified institution includes recognized colleges, universities, graduate schools, vocational and business schools.

The available credit would begin to be phased out when the taxpayer's adjusted gross income reached $15,000. Two percent of the amount by which a taxpayer's adjusted gross income exceeded $15,000 would be deducted from the credit available to that taxpayer. Thus, no taxpayer with an adjusted gross income above $31,250 would be eligible for a credit.

I ask unanimous consent that a table outlining the available benefits to various income groups be printed at this point in the Record.

There being no objection, the table was ordered to be printed in the Record, as follows:

AVAILABILITY OF TUITION CREDIT BY AMOUNT OF QUALIFIED EXPENSES AND INCOME LEVEL (PER STUDENT)

| Qualified expense | Adjusted gross income | | | | | |
|---|---|---|---|---|---|---|
| | $10,000 | $15,000 | $20,000 | $25,000 | $30,000 | $35,000 |
| $100 | $100.00 | $100.00 | 0 | 0 | 0 | |
| $200 | 200.00 | 200.00 | $100.00 | 0 | 0 | |
| $300 | 225.00 | 225.00 | 125.00 | $25.00 | 0 | |
| $400 | 250.00 | 250.00 | 150.00 | 50.00 | 0 | |
| $500 | 275.00 | 275.00 | 175.00 | 75.00 | 0 | |
| $750 | 287.50 | 287.50 | 187.50 | 87.50 | 0 | |
| $1,000 | 300.00 | 300.00 | 200.00 | 100.00 | 0 | |
| $1,250 | 312.50 | 312.50 | 212.90 | 112.50 | $12.50 | |
| $1,500 | 325.00 | 325.00 | 225.00 | 125.00 | 25.00 | |

Mr. RIBICOFF. Mr. President, this bill is not the final answer to the rising costs of education. It would, however, strengthen the ability of families to finance their son's or daughter's college education.

The future of America depends on the ability of its young people—no matter what their social or economic background—to obtain the best education available. I am hopeful that the 93d Congress will help guarantee a bright future by finally enacting this important legislation.

I ask unanimous consent that the text of S. 18 be printed in the Record at this point.

There being no objection, the bill was ordered to be printed in the Record, as follows:

S. 18

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That—

Sec. 7. Credit for Expenses of Higher Education.—

(a) Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1954 (relating to credits allowable) is amended by renumbering section 40 as 41 and by inserting after section 39 the following new section:

"Sec. 40. Expenses of Higher Education.—

"(a) General Rule.—There shall be allowed to an individual, as a credit against the tax imposed by this chapter for the taxable year, an amount, determined under subsection (b), of the expenses of higher education paid by him during the taxable year to one or more institutions of higher education in providing an education above the twelfth grade for himself or for any other individual.

"(b) Limitations.—

"(1) Amount per individual.—The credit under subsection (a) for expenses of higher education of any individual paid during the taxable year shall be an amount equal to the sum of—

"(A) 100 percent of so much of such expenses as does not exceed $200,

"(B) 25 percent of so much of such expenses as exceeds $200 but does not exceed $500, and

"(C) 5 percent of so much of such expenses as exceeds $500 but does not exceed $1,500.

"(2) Proration of credit where more than one taxpayer pays expenses.—If expenses of higher education of an individual are paid by more than one taxpayer during the taxable year, the credit allowable to each such taxpayer under subsection (a) shall be the same portion of the credit determined under paragraph (1) which the amount of expenses of higher education of such individual paid by the taxpayer during taxable year is of the total amount of expenses of higher education of such individual paid by all taxpayers during the taxable year.

"(3) Reduction of credit.—The credit under subsection (a) for expenses of higher education of any individual paid during the taxable year, as determined under paragraphs (1) and (2) of this subsection, shall be reduced by an amount equal to 2 percent of the amount by which the adjusted gross income of the taxpayer for the taxable year exceeds $15,000.

"(c) Definitions.—For purposes of this section—

"(1) Expenses of higher education.—The term 'expenses of higher education' means—

"(A) tuition and fees required for the enrollment or attendance of a student at a level above the twelfth grade at an institution of higher education, and

"(B) fees, books, supplies, and equipment required for courses of instruction above the twelfth grade at an institution of higher education.

Such term does not include any amount paid, directly or indirectly for meals, lodging, or similar personal, living, or family expenses. In the event an amount paid for tuition or fees includes an amount for meals, lodging, or similar expenses which is not separately stated, the portion of such amount which is attributable to meals, lodging, or similar expenses shall be determined under regulations prescribed by the Secretary or his delegate.

"(2) Institution of higher education.—The term 'institution of higher education' means—

"(A) an educational institution (as defined in section 151(e) (4))—

"(i) which regularly offers education at a level above the twelfth grade; and

"(ii) contributions to or for the use of which constitute charitable contributions within the meaning of section 170(c); or

"(B) a business or trade school, or technical institution or other technical or vocational school, in any State which (i) is legally authorized to provide, and provides within that State, a program of postsecondary vocational or technical education designed to fit individuals for useful employment in recognized occupations, (ii) is accredited by a nationally recognized accrediting agency or association listed by the United States Commissioner of Education, and (iii) has been in existence for 2 years or has been specially accredited by the Commissioner as an institution meeting the other requirements of this subparagraph.

"(d) Special Rules.—

"(1) Adjustment for certain scholarships and veterans' benefits.—The amounts otherwise taken into account under subsection (a) as expenses of higher education of any individual during any period shall be reduced (before the application of subsection (b)) by any amounts received by such individual during such period as—

"(A) scholarship or fellowship grant (within the meaning of section 117(a)(1)) which under section 117 is not includible in gross income, and

"(B) educational assistance allowance under chapter 35 of title 38 of the United States Code or education and training allowance under chapter 33 of title 38 of the United States Code.

"(2) Noncredit and recreational, etc., courses.—Amounts paid for expenses of higher education of any individual shall be taken into account under subsection (a)—

"(A) in the case of an individual who is a candidate for a baccalaureate or higher degree, only to the extent such expenses are attributable to courses of instruction necessary to fulfill requirements for the attainment of a predetermined and identified educational, professional, or vocational objective.

"(3) Application with other credits.—The credit allowed by subsection (a) to the taxpayer shall not exceed the amount of the tax imposed on the taxpayer for the taxable year by this chapter, reduced by the sum of the credits allowable under this subpart (other than under this section and section 31).

"(e) Disallowance of Expenses as Deduction.—No deduction shall be allowed under section 162 (relating to trade or business expenses) for any expense of higher education which (after the application of subsection (b)) is taken into account in determining the amount of any credit allowed under subsection (a). The preceding sentence shall not apply to the expenses of higher education of any taxpayer who, under regulations prescribed by the Secretary or his delegate, elects not to apply the provisions of this section with respect to such expenses for the taxable year.

"(f) Regulations.—The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the provisions of this section."

(b) The table of sections for such subpart A is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 40. Expenses of higher education.
"Sec. 41. Overpayments of tax."

(c) The amendments made by this section shall apply to taxable years beginning after December 31, 1972.

---

By Mr. HOLLINGS: (for himself and Mr. Stevens):

S. 19. A bill to authorize a program to develop and demonstrate low-cost means of preventing shoreline erosion. Referred to the Committee on Public Works.

Mr. HOLLINGS. Mr. President, today, I am introducing a bill to authorize $6 million for a 5-year program to develop and demonstrate low-cost means to prevent the eradication of one of our most valuable natural resources—the ocean and the Great Lakes shorelines. This bill directs the Corps of Engineers to administer this program, and directs the Secretary of the Army to establish a 15-member shoreline erosion advisory panel which will recommend criteria for selection of demonstration sites, make periodic reviews of the program, and more importantly, suggest methods to disseminate the information learned about the shoreline erosion control devices that are developed.

The erosion of our shorelines is fast becoming a serious national problem. The U.S. Atlantic, Pacific, and Arctic coastlines total 88,633 miles, and there are 10,980 miles of U.S. coast bordering the Great Lakes. Although there is wide physical diversity of these shorelines, approximately 50 percent of the coastline is susceptible to erosion. The interest in combating this problem is, of course, shared by private landowners, conservation interests, the Federal Government, and the States. Unfortunately, rapidly intensified use of our coastal shoreline has surpassed the capabilities and the technology of private interests and local governments to properly preserve the shoreline and effectively prevent erosion.

As in most coastal and Great Lake States, my State of South Carolina has suffered many costly problems and, in many cases, irreparable harm as a result of shoreline erosion. Marine life has been altered or destroyed, navigable channels have been blocked, and land has literally been lost. Many of these problems, of course, are caused by the natural elements such as waves, tides, currents, land water drainage, and wind. Man has also caused many of these problems through the development of navigational facilities, housing sites, industrial projects, and other programs which have not taken into account the byproduct of shoreline erosion. The fight against this problem is an ancient one, and the list of attempts to combat these forces range from seawalls and dikes to more sophisticated methods of planting artificial seaweed.

While we have the technology to establish elaborate seawalls, jetties, and the like, the high cost of these methods make it impossible to use them as extensively as is necessary. Hence, the real need is for the technical expertise to employ low-cost devices and programs. Too often the technical and financial limitations have resulted in ill-advised and ineffective attempts to control erosion.

As chairman of the Subcommittee on Oceans and Atmosphere, I introduced legislation, which is now Public Law 92-583, calling for the development of management plans and programs for our coastal and estuarine zone areas in the United States. The modest effort contained in this shoreline erosion bill has already met the approval of the House and Senate during the last session of Congress, but was vetoed by the President as a part of the Omnibus Rivers and Harbors Act of 1972. The veto message indicated that the objection was not to the shoreline erosion provisions but rather to the high cost of the remainder of the bill. Also this legislation is complementary to the Coastal Zone Management Act in an overall effort to preserve, restore and develop a natural resource that we cannot afford to be irrevocably lost—the shoreline. Therefore, I ask my colleagues for favorable consideration of this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 19

A bill to authorize a program to develop and demonstrate low-cost means of preventing shoreline erosion

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Shoreline Erosion Control Demonstration Act of 1973."

#### FINDINGS AND PURPOSE

SEC. 2. The Congress finds that because of the importance and increasing interest in the coastal and estuarine zone of the United States, the deterioration of the shoreline within this zone due to erosion, the harm to water quality and marine life from shoreline erosion, the loss of recreational potential due to such erosion, the financial loss to private and public landowners resulting from shoreline erosion, and the inability of such landowners to obtain satisfactory financial and technical assistance to combat such erosion, it is essential to develop, demonstrate, and disseminate information about low-cost means to prevent and control shoreline erosion. It is therefore the purpose of this Act to authorize a program to develop and demonstrate such means to combat shoreline erosion.

#### SHORELINE EROSION PROGRAM

SEC. 3. (a) The Secretary of the Army shall establish and conduct for a period of five fiscal years a national shoreline erosion control development and demonstration program. The program shall consist of planning, constructing, operating, evaluating, and demonstrating prototype shoreline erosion control devices, both engineered and vegetative.

(b) The program shall be carried out in cooperation with the Secretary of Agriculture particularly with respect to vegetative means of preventing and controlling shoreline erosion, and in cooperation with Federal, State, and local agencies, private organizations, and the Shoreline Erosion Advisory Panel established pursuant to section 4.

(c) Demonstration projects established pursuant to this section shall emphasize the development of low-cost shoreline erosion control devices located on sheltered or inland waters. Such projects shall be undertaken at no less than two sites on the shoreline of the Atlantic, Gulf, and Pacific coasts and at not less than one site on the Great Lakes. Sites selected should, to the extent possible, reflect a variety of geographical and climatic conditions.

(d) Such demonstration projects may be carried out on private or public lands except that no funds appropriated for the purpose of this Act may be expended for the acquisition of privately owned lands. In the case of sites located on private or non-Federal public lands, the demonstration projects shall be undertaken in cooperation with a non-Federal sponsor or sponsors who shall pay at least 25 per centum of construction costs at each site and assume operation and maintenance costs upon completion of the project.

#### SHORELINE EROSION ADVISORY PANEL

SEC. 4. (a) No later than one hundred and twenty days after the date of enactment of this Act the Secretary of the Army shall establish a Shoreline Erosion Advisory Panel. The Secretary shall appoint fifteen members to such Panel from among individuals who are knowledgeable with respect to various aspects of shoreline erosion, with representatives from various geographical areas, institutions of higher education, professional organizations, State and local agencies, and private organizations: *Provided,* That such individuals shall not be regular full-time employees of the United States. The Panel shall meet and organize within ninety days from the date of its establishment, and shall select a Chairman from among its members. The Panel shall then meet at least once each six months thereafter and shall expire ninety days after termination of the five-year program established pursuant to section 3.

(b) The Panel shall—

(1) advise the Secretary of the Army generally in carrying out the provisions of this Act;

(2) recommend criteria for the selection of development and demonstration sites;

(3) recommend alternative institutional, legal, and financial arrangements necessary to effect agreements with non-Federal sponsors of project sites;

(4) make periodic reviews of the progress of the program pursuant to this Act;

(5) recommend means by which the knowledge obtained from the project may be made readily available to the public; and

(6) perform such functions as the Secretary of the Army may designate.

(c) Members of the Panel of the United States shall, while serving on business of the Panel, be entitled to receive compensation at rates fixed by the Secretary of the Army, but not in excess of $100 per day, including traveltime; and, while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 of the United States Code for persons in Government service employed intermittently.

(d) The Panel is authorized, without regard to the civil service laws, to engage such technical and other assistance as may be required to carry out its functions.

#### PROGRAM PROGRESS REPORT

SEC. 5. The Secretary of the Army shall prepare and submit annually a program progress report, including therein contributions of the Shoreline Erosion Advisory Panel, to the chairman of the Senate and House of Representatives Committees on Public Works. The fifth and final report shall be submitted sixty days after the fifth fiscal year of funding and shall include a comprehensive evaluation of the national shoreline erosion control and demonstration program.

#### APPROPRIATIONS

SEC. 6. There is authorized to be appropriated for the fiscal year ending June 30, 1974, and the succeeding four fiscal years, a total of not to exceed $6,000,000 to carry out the provisions of this Act. Sums appropriated pursuant to this section shall remain available until expended.

---

By Mr. PROXMIRE:

S. 20. A bill to provide that appointments to the Office of Director of the Office of Management and Budget shall be subject to confirmation by the Senate. Referred to the Committee on Government Operations.

Mr. PROXMIRE. Mr. President, I send to the desk and ask for appropriate reference of a bill to provide that the appointment to the office of Director of the Office of Management and Budget—OMB—shall be subject to confirmation by the Senate.

I have worded my bill in such a way that even it if does not become law until after Mr. Roy Ash takes on the job, Mr. Ash would have to be confirmed by the Senate before he could continue.

### OVERSIGHT THAT DIRECTOR IS NOT CONFIRMED

It is an oversight that the Director of the OMB does not have to be confirmed by the Senate. Originally he was merely a personal adviser to the President with a relatively small staff. Now that Office has grown tremendously. He no longer functions in that merely personal capacity to the President. Over time the Office has grown and grown. He now runs one of the major agencies of the Government.

### LIFE-AND-DEATH POWER OVER APPROPRIATIONS

He has life-and-death power over the appropriatons of virtually every department. In erecting the budget, subject only to the President, he determines our priorities. He has the power not only to spend, but to speed up, withhold, slow down, and impound funds. With the possible exception of the Secretary of Defense, he is the single most powerful man in the Government except the President. The Director of OMB should be confirmed by the Senate.

### IMPORTANT TO REVIEW MR. ASH'S QUALIFICATIONS

But it is even more important that the Senate review the qualifications of Mr. Roy Ash. While he has had considerable business success, great controversy also swirls around his head.

As head of Litton Industries he was in charge of two of the most wasteful and inefficient Navy contracts—the LHA and DD963 contracts—any private company has held with the Government.

His company has made claims of over $160 million against the Navy for which the Navy has allowed only a pittance. But Mr. Ash nonetheless threatened to "go to the President" on behalf of those claims. Now, as the head of OMB he is in a position inside the Government to effect those claims. Congress must inquire about that.

Furthermore, the man who protected the public interest and blew the whistle on Mr. Ash and his claims, Mr. Gordon Rule, has now been demoted and assigned an insignificant job. Meanwhile, Mr. Ash has been given power over the entire spending program of the Federal Government.

### MR. ASH HAS IRONIC ASSIGNMENT

More ironic, not only has Mr. Ash been designated as Director of the OMB but the President has also assigned him the duty to oversee a program to bring efficiency to Government.

For all these reasons I am introducing my bill. It states simply:

> That effective on the day after the date of enactment of this Act, the Director of the Office of Management and Budget (originally established by section 207, of the Budget and Accounting Act, 1921, and redesignated by section 102 of Reorganization Plan No. 2 of 1970) shall be appointed by the President by and with the advice and consent of the Senate.

---

By Mr. BEALL:

S. 21. A bill to prevent the forced transportation of elementary and secondary students during the course of the school year, and for other purposes. Referred to the Committee on Labor and Public Welfare.

### CONTINUITY OF EDUCATION ACT

Mr. BEALL. Mr. President, I introduce today the Continuity of Education Act. This measure merely prevents the implementation of busing orders during the school year. It applies to all court or administrative orders not implemented at the beginning of the 1972–73 school year. It is a measure which I believe can and should be supported by all of my colleagues in the Senate.

Mr. President, recently the U.S. district court in Maryland ordered Prince Georges County, the Nation's 10th largest school system, to move approximately one-fifth of its pupil population, effective January 29, in order to achieve racial balance.

In my judgment, this decision is educationally unsound and administratively indefensible. Busing is one of the most controversial issues facing the Nation. The majority of our citizens clearly oppose forced busing to achieve racial balance. Implementation of such orders is difficult at best and becomes even more controversial when commonsense is tossed out the window. The situation in Prince Georges County underscores the need for congressional action on the busing issue during this session of Congress.

Mr. President, personally, I oppose forced busing to achieve racial balance. Children should be allowed to attend their neighborhood school and neighborhoods should be open to all people regardless of race, creed, or color.

I have repeatedly supported efforts to prevent such business. Unfortunately, all such proposals pressed in the Senate in the last Congress were defeated, some by the narrowest of margins. The administration submitted in the previous Congress legislation to establish reform guidelines and to place uniform limits on busing, but no action was taken on the proposal by the Congress. Congress cannot continue to ignore this problem. It will not go away. The judicial and administrative excesses in this area must be restrained.

While the Prince Georges County situation prompted the proposal I advance today, this is not the first occasion that I have encountered and opposed transfers and busing during the school year. I will relate to my colleagues two separate occasions, one of which had nothing to do with racial matters, involving such transfers which I successfully fought.

In the first example, I was contacted by a parochial school in Baltimore County, Md., which employed as a sixth grade teacher, a lady from the Philippines. I was advised that the Labor Department was refusing to extend this foreign teacher's alien employment certification to permit her to complete the school year. In this instance, I agreed with the principle of the Labor Department's ruling namely, that foreign citizens should not be allowed to continue to stay if there exists a surplus of qualified teachers in the United States. But, I was also concerned that the educational process of these elementary students would be harmed and that the special relationship and rapport, which everyone said existed between that teacher and her class, would be sacrificed to the detriment of the elementary children. I pleaded with the Labor Department to extend the foreign teacher's deportation. The Department, however, did not agree and I was forced to introduce legislation allowing the teacher to remain. The teacher thus was able to complete the school year and the education process of the students was uninterrupted. Upon the completion of the school year, the teacher departed for the Philippines.

The second contact I had with the problem of transfers during the school term involved Somerset County, Md. This case was unbelievable and, I think, indicative of the bureaucratic excesses, just as the Prince Georges situation reflects judicial excesses. In the Somerset County case, the school system had achieved the integration of the student body, but that was not enough, according to the Department of Health, Education, and Welfare officials. They demanded that the black-white teacher ratio in each of the county's schools equal the overall black-white teacher ratio that existed in the county, and what is more incredible, to achieve this ratio, HEW was requiring the complete transfer of teachers 9 weeks prior to the close of the school year: I immediately requested a meeting in my office with the HEW and Somerset officials. As a result of this meeting, HEW agreed to postpone the teacher transfers and delayed their implementation order until September.

As I have indicated, I personally do not favor forced busing to achieve racial balance. I have consistently voted against it in the Senate. Many of my colleagues feel otherwise. The Senate was almost evenly divided on the busing question in the last Congress. I am convinced, based on my discussions with some of the proponents of busing, that they would not support or condone decisions and the examples of the type I have cited. I also believe that Members of Congress, even if they believe in busing, want such orders to be educationally and administratively sound, with a minimum of dislocation and disruption to the educational process of the students and the school system. The Supreme Court has declared there are obvious limits to busing. One such example was when busing significantly impinged on the education process of the students. I believe that massive midyear busing is inimical to the educational process of all the students. It causes disruption and harms the continuity of the education process and breaks the special relationship and rapport teachers develop with their pupils. This is true for all students, but particularly for elementary pupils. It causes serious scheduling problems for junior and senior high school students and it increases problems of reorganizing special compensatory education programs for disadvantaged children, as well as other real and practical problems such as a catastrophic effect on extra curricular activities. It should be pointed out that, although academic considerations are primary, extracurricular activities are also very important not only to the development of a cohesive and unified school spirit, but also to the development of the child as an individual and in his relationship to his classmates. Under midyear busing orders, the players of a basketball team would be dispersed among different schools and the spirit that took almost an entire season to develop would be lost. Yearbook and newspaper staffs and other club and class activities will be disrupted.

In addition, midterm busing orders could hamper the growth of the individual student who has established himself in an extracurricular activity and at this point in time has gained confidence as a member of a particular peer group and is suddenly uprooted from his social grouping to be placed in an alien atmosphere.

Not only is this harmful to the student, but it is also inconvenient to parents and pupils alike. Granted, some of these problems are presented when the order takes effect at the commencement of the school year; nevertheless, midterm orders, to borrow an old expression, are like "throwing salt on a wound." I believe that when courts rule they should attempt to minimize the inherent problems, not magnify them, as would be the case with a midyear effective date.

I want to make a special plea to the citizens of Prince Georges County. I know that there is no greater concern for any parent than that his youngster receive the best possible education.

I know that many parents have purchased the home in which they are now living only after surveying the schools nearby. They had every right to believe that their son or daughter would attend this neighborhood school. I, like the majority of the citizens in Prince Georges County, still believe that the neighborhood school concept is a valid one. I do urge the citizens of Prince Georges County to keep their "cool" notwithstanding their strenuous opposition to the court's decision. We are a nation of laws and we must abide by that process and work within the system to correct abuses or excesses.

Finally, as a member of the Education Subcommittee, I want to reiterate a concern that I share with respect to the busing issue. I am deeply bothered that the controversy over busing is preventing us from addressing the great educational deficiencies and needs that exist in many of the schools in this country. I believe that there would be public support for correcting such deficiencies and doing, in general, what is necessary to make certain that all our schools are quality schools. Yet, too much of our energy and effort is being centered and dissipated on the busing issue rather than focusing on quality education.

I strongly urge my colleagues, no matter what their position on the busing issue, to join with me in this small step to eliminate what I regard as a clear excess in this area and to make certain that all of our students might be able to have an education that is not disrupted in the middle of the school year.

Mr. President, it is imperative that Congress move quickly on this proposal. Time is of the essence in order to prevent educationally and administratively unsound midyear busing. Under the court's decision, Prince Georges County is required to implement its plan on January 29. It is my understanding that there are other school districts facing similar midyear busing orders.

Congress, at the very least, should move to prevent the disruption of the education process by requiring that judicial and administrative orders commence at the beginning of a school year.

---

By Mr. AIKEN (for himself, Mr. ALLEN, Mr. SPARKMAN, Mr. TALMADGE, and Mr. HUMPHREY):

S. 22. A bill to establish a system of wild areas within the lands of the national forest system. Referred to the Committee on Agriculture and Forestry.

### THE NATIONAL FOREST WILD AREAS ACT OF 1973

Mr. AIKEN. Mr. President, I join today with Senators TALMADGE, ALLEN, SPARKMAN, and HUMPHREY in introducing the National Forest Wild Areas Act of 1973.

The Senate will recall that on September 26, S. 3973, the National Forest Wild Areas Act of 1972, was passed. There was no action in the House, so this measure died with the 92d Congress.

The draft of the bill that we are introducing today reflects discussions over the last several months with the Forest Service, conservation groups, and representatives of the forest products industry. We are introducing it today and expect hearings will soon begin.

As in S. 3973, this new draft of the National Forest Wild Areas Act of 1973 makes it clear that none of the areas designated as a wild area will meet the criteria for "wilderness" as set forth in section 2(c) of the Wilderness Act. In other words, this legislation is not an attempt to turn potential wilderness areas into wild areas, a matter that I know has been of concern to many.

Rather it is an attempt to protect certain areas in the eastern national forest system from commercial exploitation.

Mr. President, I ask unanimous consent that the text of the bill and a section-by-section analysis of the bill be printed at this point in the RECORD.

There being no objection, the bill and analysis were ordered to be printed in the RECORD, as follows:

### S. 22

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, that this Act may be cited as "The National Forest Wild Areas Act of 1973."

### TITLE I

### STATEMENT OF FINDINGS AND ESTABLISHMENT OF A WILD AREA SYSTEM

SEC. 101. (a) Congress hereby finds that:

(1) In the eastern portion of the United States, containing the majority of the nation's population, there is but a small portion of the nation's publicly owned land;

(2) The national forest system represents a major federally owned land area in the Eastern United States;

(3) There is a growing need for the broad range of recreational opportunities which can be provided within the national forest system, within the framework of the purposes and objectives of the Weeks Act of March 1, 1911 (36 Stat. 961), as amended (16 U.S.C.) and the Multiple Use and Sustained Yield Act of June 12, 1960 (74 Stat. 215, 16 U.S.C. 528–31).

(4) Among these opportunities is the opportunity for present and future generations to enjoy primitive recreation in a spacious, natural and wild setting.

(5) The eastern national forests have been acquired largely from private ownership and have been subject for the most part to highly developed works of man; however, there exists within the national forest system areas which have been restored or are in the process of restoration to a near natural condition and which appear predominantly primitive and undisturbed in character.

(6) Statutory designation as wild areas of certain lands within the national forest system affording such opportunities is consistent with the Multiple Use Sustained Yield Act of 1960 and the Wilderness Act of 1964.

(b) In accord with these findings there is hereby created a system of federally owned, national forest wild areas designated by Congress within the national forest system, east of one hundredth meridian to be managed by the Secretary of Agriculture (hereinafter referred to as the "Secretary") as a part of the national forest system. Areas designated under this Act shall be known as wild areas and shall be administered to restore, maintain, and protect the natural, primitive, and wild character of the areas for public recreational use and enjoyment and for scientific, and educational purposes by present and future generations of the American people.

No area shall be designated as a wild area except as provided for in this Act or a subsequent Act.

### DEFINITION

SEC. 102. (a) The term "wild area" as used in this Act is an area primarily primitive and natural in character although man and his works may have been present or are present, and wherein the marks of man's activities are subject to restoration to the appearance of a predominantly primitive and natural condition; is large enough so that the primitive and natural values can be preserved; and the area provides outstanding opportunities for public use and enjoyment in a primitive setting.

### ESTABLISHMENT OF AREAS

SEC. 103. (a) The following areas, as generally depicted on maps appropriately referred and available for public inspection in the office of the Chief, Forest Service, USDA, are hereby designated as components of the National Forest Wild Areas System:

*Area, State and national forest*

1. James River Face, Virginia, Jefferson.
2. Gee Creek, Tennessee, Cherokee.
3. Ramsey's Draft, Virginia, George Washington.
4. Beaver Creek, Kentucky, Daniel Boone.
5. Ellicott's Rock, South Carolina, Sumpter.
6. Lye Brook, Vermont, Green Mountain.
7. Bristol Cliffs, Vermont, Green Mountain.
8. Rainbow Lake, Wisconsin, Chequamegon.
9. Presidential Range, New Hampshire, White Mountain.
10. Rock Pile Mountain, Missouri, Clark.
11. Big Island Lake, Michigan, Hiawatha.
12. Hercules, Missouri, Mark Twain.

(b) The Secretary shall within one year from the date of this Act establish detailed boundaries and plans for each component designated in subsection (a) of this section; said boundaries and plans shall be published in the Federal Register and shall not become effective until ninety days after they have been forwarded to the President of the Senate and Speaker of the House of Representatives.

(c) The following areas are selected as study areas for potential addition to the National Forest Wild Areas System:

### "STUDY" WILD AREAS

*Area, State, and national forest*

1. Alexander Springs, Florida, Ocala.
2. Kisatchie Hills, Louisiana, Kisatchie.
3. Saline Bayou, Louisiana, Kisatchie.
4. Big Slough, Texas, Davy Crockett.
5. Chambers Ferry, Texas, Sabine.
6. Belle Starr Cave, Arkansas, Ouachita.
7. Dry Creek, Arkansas, Ouachita.
8. Mountain Lake, Virginia, Jefferson.
9. Mill Creek, Virginia, Jefferson.

10. Peters Mountain, Virginia, Jefferson.
11. Big Frog, Tennessee, Cherokee.
12. Yellow Cliff, Kentucky, Daniel Boone.
13. Pocosin, North Carolina, Croatan.
14. Craggy Mountain, North Carolina, Pisgah.
15. Wambau, South Carolina, Francis Marion.
16. Sturgeon River, Michigan, Ottawa.
17. Rock River Canyon, Michigan, Hiawatha.
18. Bell Mountain, Missouri, Clark.
19. Whisker Lake, Wisconsin, Nicolet.
20. Round Lake, Wisconsin, Chequamegon.
21. Flynn Lake, Wisconsin, Chequamegon.
22. LaRue-Pine Hills, Illinois, Shawnee.
23. Lusk Creek, Illinois, Shawnee.
24. Hickory Creek, Pennsylvania, Allegheny.
25. Tracy Ridge, Pennsylvania, Allegheny.
26. Clear Fork, Ohio, Wayne.
27. Kilkenny, New Hampshire, White Mountain.

(d) The Secretary shall within five years from the date of this Act, send to the President his recommendations concerning the study areas selected in subsection (c) of this section. The President shall advise the United States Senate and House of Representatives of his recommendations with respect to the designation as a "wild area" of each area submitted. Each recommendation of the President for designation of an area as a "wild area" shall become effective only if so provided by an Act of Congress.

(e) To the extent practicable, those study wild areas selected in subsection (c) of this section shall be managed in accordance with section 104 of this Act until the President has either recommended their incorporation into the National Forest Wild Areas System, or has recommended against their inclusion in his annual message to Congress, in accordance with section 110 of this Act.

(f) The Chief of the Forest Service shall review within five years from the date of this Act, in a systematic fashion and with full opportunity for public involvement, and as an integral part of national forest land use planning under the Multiple-Use-Sustained Yield Act of 1950, the opportunities for designation of wild areas in each of the eastern national forests, and shall select as new study areas those lands he believes contain the potential to be added to the National Forest Wild Areas System as new designated wild areas, or as additions to existing designated wild areas or already selected study wild areas.

(g) The Secretary shall, within two years of any selection made in accordance with subsection (f) of this section, send to the President his recommendations concerning such selected areas. The President shall advise the United States Senate and the House of Representatives of his recommendations with respect to the designation as a "wild area" of each area submitted. Each recommendation of the President for designation of an area as a "wild area" shall become effective only if so provided by an Act of Congress.

(h) To the extent practicable, these areas selected in subsection (f) of this section shall be managed in accordance with section 104 of this Act until the President has either recommended their incorporation into the National Forest Wild Areas System, or has recommended against their incorporation in his annual message to Congress, in accordance with section 110 of this Act.

(i) Prior to the submission of recommendations in any area provided for in subsections (c) and (f) of this section the Secretary shall make a specific determination that the area recommended for "wild area" classification does not meet the criteria for wilderness as set forth in section 2(c) of the Wilderness Act. Such determination shall be contained in the report accompanying each proposal provided for in subsection (j) of this section.

(j) The Secretary's recommendations for each study area as provided in subsections (d) and (g) of this section shall be accompanied by a report including maps and illustrations showing among other things the boundaries of the study area; the characteristics which make or do not make the area worthy for classification as wild area, including scenic, natural and wild attraction of the area, restorability of the area to near natural conditions, current and expected patterns of landownership, and surface and subsurface rights not held or controlled by the public; foreseeable potential uses of the land and water which would be enhanced, foreclosed, or curtailed if the area were included in the wild area system; the environmental, economic and social consequences of designation as a wild area; the interrelationship of the classification of a wild area to the total management of the particular National Forest under the applicable multiple use management plans.

(k)(1) Prior to submitting any recommendations to the President with respect to the suitability of any area for designation as a wild area the Secretary shall:

(A) give such public notice of the proposed action as he deems appropriate, including publication in the Federal Register and in a newspaper having general circulation in the area or areas in the vicinity of the affected land;

(B) hold a public hearing or hearings at a location or locations convenient to the area affected and in the nearest large metropolitan area. The hearings shall be announced through such means as the Secretary deems appropriate, including notices in the Federal Register and in newspapers of general circulation in the area: *Provided*, That if the lands involved are located in more than one State, at least one hearing shall be held in each State in which a portion of the land lies;

(C) at least thirty days before the date of a hearing advise the Governor of each State, the governing board of each county, parish, town, and municipality in which the lands are located, the governing board of each appropriate substate multijurisdictional general purpose planning and development agency that has been officially designated as a clearinghouse agency under Office of Management and Budget Circular A–95, and the governing board of each appropriate established environmental protection district, and Federal departments and agencies concerned, and invite such officials and Federal agencies to submit their views on the proposed action at the hearing or by no later than thirty days following the date of the hearing.

(2) Any views submitted to the Secretary under the provisions of (1) of this subsection with respect to any area shall be included with any recommendations to the President and to Congress with respect to such area.

(1) Any modification or adjustment of boundaries of any wild area shall be recommended by the Secretary after public notice of such proposal and public hearing or hearings as provided in subsection (k) of this section. The proposed modification or adjustment shall then be recommended with map and description thereof to the President. The President shall advise the U.S. Senate and the House of Representatives of his recommendations with respect to such modification or adjustment and such recommendations shall become effective only if so provided by an act of Congress.

### ADMINISTRATION

SEC. 104(a). The Secretary shall administer units of the wild area system in accord with the following provisions:

(1) Primitive, natural, and wild conditions will be restored, maintained, and protected to provide for public use and enjoyment for recreation, scientific, and educational purposes in a natural setting free from the activities and highly developed works of man, wherein natural attractions prevail in an atmosphere of spacious solitude.

(2) Public use shall be permitted consistent with the ability of the area to support such use and retain its primitive, natural and wild characteristics.

(3) Subject to existing private rights there shall be no permanent road within any wild area designated by this Act and, except as necessary to meet the minimum requirements for the administration of the area for the purpose of this Act (including measures required in emergencies involving the health and safety of persons within the area), there shall be no temporary road, no use of motor vehicles, motorized equipment or motorboats, no landing of aircraft, no other form of mechanical transport, and no structure or installation within any such area.

(4) Within wild areas designated by this Act such measures may be taken as may be necessary in the control of fire, insects, and diseases, subject to such conditions as the Secretary deems desirable.

(5) No timber stand modification shall be permitted except as provided for in subsection (4).

(6) No grazing of domestic livestock shall be allowed except riding stock where permitted.

(7) No commercial services shall be allowed except those necessary to achieve the purposes of the Act.

(b) The Secretary shall prepare a management plan for each unit of the wild area system in accordance with the Act, utilizing a multidisciplinary approach and providing for appropriate public involvement.

### ACQUISITION

SEC. 105. (a) Within areas of the wild area system, the Secretary may acquire by purchase with donated or appropriated funds, by gift, exchange, condemnation, or otherwise, such lands, waters, or interests therein as he determines necessary or desirable for the purpose of this Act. All lands acquired under provisions of this section shall become national forest lands.

(b) In exercising the exchange authority granted by subsection (a) of this section, the Secretary may accept title to non-Federal property for federally owned property located in the same State, of substantially equal value, or if not of substantially equal value, the value shall be equalized by the payment of money to the grantor or to the Secretary as the circumstances require.

(c) The head of any Federal department or agency having jurisdiction over any lands or interests in lands within the boundaries of any wild area is authorized to transfer to the Secretary jurisdiction over such lands for administration in accordance with provisions of this Act.

### MINERALS

SEC. 106. Subject to existing valid claims, federally owned lands within units of the wild area system are hereby withdrawn from all forms of appropriation under the mining laws and from disposition under all laws pertaining to mineral leasing or disposition of mineral materials.

SEC. 107. The Secretary shall permit hunting, fishing, and trapping on the lands and waters under his jurisdiction within wild areas in accordance with applicable Federal and State laws; except that the Secretary may issue regulations designating zones where and establishing periods when no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, or public use and enjoyment. Except in emergencies, any regulations pursuant to this section shall be issued only after consultation with the wildlife agency of the State or States affected.

SEC. 108. The Secretary shall cooperate with the States and political subdivisions thereof in the administration of wild areas and in the administration and protection of lands within or adjacent to the wild area owned or controlled by the State or political subdivision thereof. Nothing in this Act shall deprive any State or any political subdivision thereof of its right to exercise civil and criminal jurisdiction within the wild area, or of its right to tax persons, corporations, franchises, or other non-Federal property, including mineral or other interests, in or on lands or waters within the wild area.

SEC. 109. Citizen's Advisory Committee.

(a) The Secretary shall establish National Forest Wild Areas Citizen's Advisory Committee to advise, consult with, and make recommendations to the Secretary on matters of policy concerning the National Forest Wild Areas System. Such Committee shall be composed of nine persons who are not regular employees of the Federal Government.

(b) Members of the Committee shall serve for three years, except that one-third of the initial appointees shall serve for three years, one-third for two years, and one-third for one year. The Committee shall appoint a Chairman and such other officers as it wishes.

(c) The Committee shall meet not less often than two times every year.

(d) Members of the Committee while serving on the business of the Committee, including travel time, may receive compensation at rates not exceeding $100 per diem; and while serving away from their homes or regular places of business may be allowed travel expenses, including per diem in lieu of subsistence.

SEC. 110. Annual report.

At the opening of each session of Congress, the Secretary shall report to the President for transmission to Congress on the status of the National Forest Wild Areas System, including:

(1) descriptions of those selected study wild areas that are recommended for designation as components of the System, in accordance with the procedures specified in Section 103(j) of this Act;

(2) descriptions of those portions of selected study wild areas that are recommended not be included within the System, together with the reasons for said recommendation;

(3) the recommendations, if any, made by the National Forest Wild Areas Citizen's Advisory Committee during the preceding year;

(4) a list and description of the Areas in the System, regulations in effect, and such other pertinent information and recommendations as he cares to make.

SEC. 111. The Secretary is authorized to make such rules and regulations as he deems necessary to carry out the purposes of this Act.

## TITLE II

### ESTABLISHMENT OF THE SIPSEY WILD AREA WITHIN THE BANKHEAD NATIONAL FOREST, STATE OF ALABAMA, AND FOR OTHER PURPOSES

SEC. 201. Congress hereby finds that the Sipsey Area of the Bankhead National Forest, as described herein, is an area of national forest land which, although once subject to the works and activities of man, has been restored or is in the process of restoration to a predominantly primitive and natural condition, appears predominantly primitive and undisturbed in character, and is chiefly valuable for the purpose of providing present and future generations primitive recreation opportunities in a spacious, scenic, natural, and wild setting, removed from activities and highly developed works of man. In order to provide permanent protection and enhancement of the resource values which contribute to public enjoyment of said area, and to provide an equal or greater degree of protection than could be afforded if the area were qualified and part of the national wilderness preservation system, there is hereby established the Sipsey Wild Area within the Bankhead National Forest, State of Alabama. The Sipsey Wild Area shall consist of approximately twelve thousand acres as shown on a map entitled "Proposed Sipsey Wild Area" dated September 1972, which is on file and available for public inspection in the Office of the Chief, Forest Service, Department of Agriculture and to which is attached and hereby made a part thereof a description of the exterior boundaries. The Secretary may by publication of a revised map or description in the Federal Register correct clerical or typographical errors in said map or description.

SEC. 202. The administration, protection, and management of the Sipsey Wild Area shall be by the Secretary of Agriculture as a part of the national forest system and the Bankhead National Forest and shall be in accord with the provisions of title I of this Act, except that the management plan for the Sipsey Wild Area shall provide that there shall be no commercial enterprise and no permanent road within such area and, except as necessary to meet minimum requirements for the administration of the area for the purpose of this Act (including measures required in emergencies involving the health and safety of persons within the area), and that there shall be no temporary road, no use of motor vehicles, motorized equipment or motorboats, no landing of aircraft, no other form of mechanical transport, and no structure or installation within any such area.

---

## SECTION-BY-SECTION ANALYSIS

### TITLE I

Section 101(a) expresses Congressional findings that the eastern United States contains the majority of the nation's population but only a small portion of the publicly owned land; the national forest system represents the major federally owned land in this area; there is a growing need for recreational opportunities within the national forest system within the framework of the purposes and objectives of the laws under which the nation's forests were acquired and are administered, among which is the opportunity for present and future generations to enjoy primitive recreation in a spacious, natural and wild setting; there exist within the eastern national forests areas which have been restored or are in the process of restoration to a near natural condition and which appear predominantly primitive and undisturbed in character; and statutory designation of wild areas within the national forest system will be consistent with the Multiple-Use-Sustained Yield Act of 1960 and the Wilderness Act of 1964.

Section 101(b) creates a system of wild areas designated by Congress within national forests east of the 100th Meridian to be administered by the Secretary of Agriculture as a part of the national forest system.

The areas designated as wild areas would be administered to restore, maintain, and protect the natural, primitive, and wild character of the areas for public recreational use and enjoyment and for scientific and educational purposes by present and future generations of the American people.

Section 102 defines "wild area" as an area of outstanding beauty, primarily primitive and natural in character, wherein any past works of man are subject to restoration, large enough so that primitive values can be preserved, and providing outstanding opportunities for public use and enjoyment in a primitive setting.

This section in effect recognizes and affirms the distinction that wild areas can be subject to restoration to a primitive and natural condition, while wilderness areas which are part of the National Wilderness Preservation System must be basically unspoiled by man.

Section 103(a) specifically designates twelve areas as components of the National Forest Wild Areas System. These areas are generally depicted on maps appropriately referred and available for public inspection in the office of the Chief, Forest Service, United States Department of Agriculture.

Section 103(b) provides that within one year from the date of this Act the Secretary shall establish detailed boundaries and plans for each wild area designated in subsection (a). These boundaries and plans must be published in the Federal Register and will not become effective until ninety days after being forwarded to the Senate and the House of Representatives.

Section 103(c) designates certain study areas for potential addition to the National Forest Wild Areas System.

Section 103(d) requires the Secretary to send to the President his recommendations concerning the study areas selected in subsection (c) within five years from the date of this Act. The President then advises the Senate and House of Representatives which may designate an area as a wild area.

Section 103(e) provides that, to the extent practicable, the study wild areas selected in subsection (c) shall be managed in accordance with Section 104 until the President either recommends their incorporation into the National Forest Wild Areas System or recommends against their inclusion.

Section 103(f) provides for review within five years from the date of this Act by the Chief of the Forest Service with opportunity for public involvement of the opportunities for designation of wild areas in each of the eastern national forests and selection as new study areas those lands which contain the potential to be added to the National Forest Wild Areas System as new designated wild areas or as additions to existing designated wild areas or already selected study wild areas.

Section 103(g) provides that within two years of any selection made in accordance with subsection (f) the Secretary shall send his recommendations concerning such selected areas to the President. The President then advises the Senate and House of Representatives of his recommendations, and designation of an area as a wild area may be effective only if so provided by an act of Congress.

Section 103(h) provides that, to the extent practicable, the areas selected in subsection (f) shall be managed in accordance with Section 104 until the President either recommends their incorporation into the National Forest Wild Areas System or recommends against their inclusion.

Section 103(i) requires the Secretary, prior to the submission of recommendations under subsections (c) and (f), to make a specific determination that the area recommended for "wild area" classification does not meet the criteria for wilderness as set forth in Section 2(c) of the Wilderness Act.

Section 103(j) requires the Secretary to accompany his recommendations for each study area as provided in subsections (d) and (g) with a report setting forth specific information regarding, among other things, the characteristics of the area which make or do not make it worthy for classification as a wild area; the patterns of landownership and surface and subsurface rights; the environmental, economic and social consequences of designation as a wild area; and the interrelationship of the area to the total management of the particular national forest.

Section 103(k) requires the Secretary, prior to submitting any recommendation to the President regarding the designation of an area as a wild area, to provide an opportunity for public involvement in the review process by giving public notice of the proposed action in the Federal Register and a newspaper having general circulation in the area of the affected land and by holding a public hearing at a location convenient to the area affected.

At least thirty days prior to a hearing the Secretary must advise the Governor of each state and officials of local governmental units in which the lands are located, and interested federal agencies, multijurisdictional planning and development agencies and environmental protection districts, and invite such officials and agencies to submit their views on the proposed action.

Any views submitted pursuant to this subsection shall be included in any recommendation to the President and Congress with respect to such area.

Section 103(1) provides that the Secretary may recommend modification or adjustment of boundaries of any wild area after public notice of such proposal and public hearings as provided in subsection (k). The recommendations, together with a map and description of the modification or adjustment must be transmitted to the President who shall advise the Senate and House of Representatives of his recommendations, and the modification or adjustment shall become effective only if so provided by an act of Congress.

Section 104 prescribes how wild areas will be administered. It authorizes public use consistent with the ability of the area to support such use, prohibits commercial enterprise, permanent roads, timber harvesting, limits temporary roads, motors, and structures or installation to those necessary to meet minimum requirements for the administration of the area (including measures required in emergencies involving the health and safety of persons within the area), and permits necessary measures for the control of fire, insects, and diseases.

This section leaves no doubt that the management objective will be preservation of primitive and natural values rather than development. The management prescribed parallels that of the Wilderness Act and is stronger for protection in some cases.

Section 105 authorizes Federal acquisition of private in-holdings by donation, purchase, gift, exchange, transfer, or condemnation.

This section allows condemnation of private land in some cases in wild areas. This is extremely important to protect the wild areas system from destructive developments on interior private lands. The Eastern National Forests average about 50 percent private land and ownership of minerals under Federal land is about 50 percent private. The Wilderness Act allows condemnation only if specifically authorized by the Congress.

Section 106 withdraws, subject to existing valid claims, all federally owned lands from all forms of appropriation and disposition under the mining and mineral leasing laws.

Section 107 permits hunting, fishing, and trapping in accordance with Federal and State laws.

This section continues the practices now in effect on National Forest System lands. The Secretary of Agriculture may designate zones and establish periods when no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, or public use and enjoyment.

Section 108 affirms the state and political subdivision right to civil and criminal jurisdiction and its right to tax within the wild areas.

This continues standard relations in regard to National Forest System lands.

Section 109 directs the Secretary of Agriculture to establish a National Forest Wild Areas Citizen's Advisory Committee to advise, consult with, and make recommendations to the Secretary on matters of policy concerning the wild areas system. The Committee shall be composed of nine persons who are not employees of the Federal Government. Each member shall serve for three years and the Committee will meet not less than two times a year.

Section 110 directs the Secretary to report annually to Congress portions of study areas which are recommended or not recommended for inclusion in the System. Any recommendations made by the Citizen's Advisory Committee must also be included in this report.

Section 111 authorizes the Secretary of Agriculture to make such rules and regulations as necessary to carry out the Act.

### TITLE II

Section 201 establishes the Sipsey Wild Area of approximately 12,000 acres within the Bankhead National Forest in Alabama. This section assures permanent protection and enhancement of the resource values which contribute to the public enjoyment of said area. It also provides an equal or greater degree of protection than could be afforded if the area were qualified as part of the National Wilderness Preservation System.

Section 202 provides that the administration, protection, and management of the Sipsey Wild Area shall be by the Secretary of Agriculture and shall be in accord with the provisions of Title I of this Act, except that the management plan for the Sipsey Wild Area shall provide that there shall be no commercial enterprises and no permanent road within such area and, except as necessary to meet minimum requirements for the administration of the area for the purpose of this Act (including measures required in emergencies involving the health and safety of persons within the area) and that there shall be no temporary road, no use of motor vehicles, motorized equipment or motorboats, no landing of aircraft, no other form of mechanical transport, and no structure or installation within any such area.

---

### By Mr. HARRY F. BYRD, JR:

S. 23. A bill to limit the amount of personal funds an individual may contribute to candidates for Federal office in connection with the campaigns of those candidates. Referred to the Committee on Rules and Administration.

Mr. HARRY F. BYRD, JR. Mr. President, I send to the desk a bill and I ask that it be printed and appropriately referred.

Mr. President, this legislation would limit the total contribution that can be made by any individual in a campaign for Federal office. The ceiling I am proposing is $25,000. This legislation is virtually identical to legislation introduced in the last session of Congress by the distinguished former Senator from Kentucky (Mr. Cooper) and me.

Mr. President, it is important that we impose a ceiling on the sums that individual citizens can put into campaigns. This applies to the campaigns conducted by candidates of both political parties. It is not a partisan issue. Campaign spending has gone beyond all reasonable bounds. One way to limit campaign spending is to limit the amount individuals may contribute to a particular candidate.

In some instances wealthy individuals have contributed hundreds of thousands of dollars to political campaigns by dividing their donations among a multiplicity of committees. One man in Texas was reported to have contributed $300,000 to the primary campaign of an aspirant for the Democratic presidential nomination. Later, he gave $275,000 to the campaign of the Republican candidate for President.

I point to this case to emphasize that this is not a party issue.

Other enormous contributions have been reported in connection with the presidential campaign of 1972. Counting the gifts of the gentleman from Texas to whom I just referred, a total of five persons made contributions aggregating more than $3 million.

Contributions of $1 million, $800,000, and $300,000 were reported to have been made to the campaign of President Nixon, and one individual reportedly contributed $375,000 in support of Senator McGOVERN.

I think it is bad for the country when such huge sums are plowed into political campaigns. Enormous sums, spent by individuals in campaigns, in my view constitute a threat to the democratic process.

Let us tighten up our laws dealing with campaign contributions, so that big concentrations of wealth do not become big concentrations of political power.

I think there is a real danger that wealth may become too great a factor in determining the success or failure of political candidates.

I support the position of the distinguished majority leader, Senator MANSFIELD, as set forth in his statement to the Democratic Conference on Wednesday.

Senator MANSFIELD said:

> In my judgment, both Congressional and Presidential campaigns are too repetitive, too dull and too hard on candidates and electorate. Most serious, the factor of finance begins to overshadow all other considerations in determining who runs for public office and who does not, in determining who gets adequate exposure and who does not. It is not healthy for free government when vast wealth becomes the principal arbiter of questions of this kind. It is not healthy for the nation, for politics to become a sporting game of the rich.

A reasonable restriction on individual political contributions, such as I have proposed today, will represent a major step toward restricting the power of wealth in politics.

During the last days of the 92d Congress, former Senator John Sherman Cooper of Kentucky and I cosponsored an amendment to a campaign contributions bill which would have had the effect of limiting individual donations to campaigns. This legislation was not acted upon by the Senate, but with the convening of this new Congress we have a fresh opportunity to impose a reasonable ceiling on big campaign contributions.

I hope we will take that opportunity. I think establishment of a reasonable limit on individual political campaign contributions will help strengthen the confidence of the public in our electoral process and our democratic institutions.

### By Mr. BIBLE:

S. 24. A bill granting the consent and approval of Congress to the California-Nevada Interstate Compact. Referred to the Committee on the Judiciary.

### CALIFORNIA-NEVADA INTERSTATE COMPACT

Mr. BIBLE. Mr. President, I introduce for appropriate reference a bill to grant the consent and approval of Congress to the California-Nevada Interstate Compact.

I introduced this measure in the 92d Congress at the request of the Nevada members of the California-Nevada Interstate Compact Commission. The bill was not acted on in the last Congress, and pursuant to that request I am reintroducing the legislation in the hope that it can be reached for consideration at an early date.

By Mr. MOSS:

S. 25. A bill to provide for the establishment of the Great Salt Lake National Monument, in the State of Utah, and for other purposes. Referred to the Committee on Interior and Insular Affairs.

### GREAT SALT LAKE NATIONAL MONUMENT

Mr. MOSS. Mr. President, I am today introducing a bill which would establish a Great Salt Lake National Monument on Antelope Island in Utah's unique inland sea.

The national monument would occupy all of the island with the exception of the 2,000 acres at the northern end of which the State of Utah has been developing as a State park.

When I first came to Congress in 1959, I set as one of my goals the proper utilization of the Great Salt Lake—preservation of its scenic, scientific, and historic values with accessibility for visitors along with continued commercial development of the brines and minerals of the lake. Beginning with the 86th Congress, and in each succeeding Congress, I introduced either national park or national monument bills, on which extensive hearings have been held in both Utah and Washington. In the 90th Congress, my Great Salt Lake Monument bill passed the Senate, but died in the House.

Along the way, Congress has legislated on the relicted land problem on the shore, to resolve the commercial development objective. It has yet to legislate on the scenic and recreation usage of the lake.

But, the hearings held on my bills reawakened interest in Utah and in development of Great Salt Lake. Residents of the State recognized that the remarkable scientific, historic, and recreational potential of the lake was not being realized, and asked that something be done to make these values available to Utahans and to visitors who come from far and near to view and marvel at the Great Salt Lake.

In 1963, the Utah State Legislature established a Great Salt Lake Authority to recommend usage of the lake and its shores and islands. Later, in the absence of Federal development, the State Park and Recreation Department secured a lease of the northern 2,000 acres of the island and started to develop a State park. Some progress has been made although the State park is still somewhat primitive. A boat ramp has been installed and a marina completed. Six miles of scenic drive have been constructed. Wells have been dug which indicate potable water is available, although the State hauls fresh water from the mainland. Two rangers live on the island with their families and interpret the area for the visitors. The park is open year round, and last year was visited by some 200,000 people.

A 7-mile causeway has been built to a graveled road standard from the eastern shore of the Great Salt Lake. It has not yet been improved to final design standard, and spring rains cause annual washouts.

The Utah Park and Recreation Department will ask the Utah State Legislature, which is now meeting in biennial session for a $20 million revolving fund for State park development, some $5½ million of which will be designated for the development of the State park on Antelope Island. It has always been the objective of the State that any development of road and recreation facilities which is undertaken on the north end of the island be fully compatible, and of equal standard, with the development which the Federal Government would undertake in establishing the national monument. Thus the island would be developed as a unified whole, and its full potential reached at long last.

I hope that as soon as the Utah State Legislature completes its work, and we know what the future plans are for the north end of the island, the Senate Parks and Recreation Subcommittee will schedule hearings on my bill to establish the Great Salt Lake National Monument, so we can move ahead with the task of preserving, and making accessible to all of our people, this most unusual island in Utah's dead sea.

Antelope Island is truly worthy of national monument status. It offers a superb platform from which to see and interpret this unique and scenic lake and its physical history.

The wave-carved terraces from different stages of ancient Lake Bonneville are visible. In addition, there are magnificent views of Great Salt Lake and the other islands and promontories and mountain ranges that stand in and around the basin. The restricted but fascinating lake life, including reeflike algae deposits, and the products of evaporation can readily be interpreted from the island base.

It is also easy to visualize, from the island, the effect of Great Salt Lake, both as a barrier and as a magnet for fur trappers, explorers, Mormon pioneers, and the railroad builders, all major features of the story of America's westward expansion. Promontory Range can be seen. This is the place on which the golden spike was driven in 1869, linking the east and west coasts by transcontinental railroad. Built on the island in 1849 stands the oldest house in Utah, still used for its original purpose as a ranchhouse. It nestles in a grassy grove of trees around the island's largest spring.

Let me quote to you the Department of the Interior's conclusion as to scientific significance:

> Scientific significance is the hallmark of the National Monument caliber for any feature, site or area. On this basis, Antelope Island merits National Monument status in its own right. The Island as a whole comprises a complete topographical unit and it is the record of the drama of earth history which circumscribes the Island from its present shoreline to the crests and promontories standing as much as 2,400 feet above the surface of Great Salt Lake. These are factors which contribute to the scientific significance of Antelope Island. It is doubtful whether any other location surpasses Antelope Island as a scientific exhibit of the story of Great Salt Lake and its ancestral lakes and as a place for its observation, study and enjoyment by visitors.

The State now leases 2,000 acres from the owner of the island which is nearly all in single ownership. The establishment of the monument would require acquisition of the entire island along with relicted land left exposed by the receding waters and extending to a band of water around the island.

Mr. President, the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments recommended in 1963 that Antelope Island, or a portion of it, be authorized for establishment in the national park system.

I introduce for appropriate reference, a bill to provide for the establishment of the Great Salt Lake National Monument in the State of Utah, and for other purposes.

---

By Mr. MOSS:

S. 26. A bill to provide for the establishment and administration of the Canyon Country National Parkway in the State of Utah, and for other purposes. Referred to the Committee on Interior and Insular Affairs.

### CANYON COUNTRY NATIONAL PARKWAY

Mr. MOSS. Mr. President, I am again introducing my bill to establish a Canyon Country National Parkway through southeastern Utah from Arizona to Colorado. The bill was before the 89th, 90th, 91st, and 92d Congresses, but no action was sought for several reasons.

The first and most important reason was that the Canyon Country Park bill was drafted as part of a recreational development package—as a companion piece to two other measures I had introduced, the first to expand the boundaries of Canyonlands National Park and the other to establish by law the Glen Canyon National Recreation Area. Since the proposed parkway would skirt the boundaries of both the national park and the national recreation area, it did not seem practical to consider the parkway bill until the other two were enacted.

Now, as my colleagues know, the Congress has completed action on the first two bills of the package, and the boundary questions have been settled. This clears the parkway bill for consideration.

The second reason I have not pushed the parkway bill in the past is that the Four Corners Regional Commission, which embraces all of the counties through which the parkway would run, has had under preparation a development plan which includes consideration of both the recreation potential and the communications problems—particularly the road and highway needs—of the area. I felt that the conclusions reached in these studies, and the recommendations made, would be of inestimable value in considering the parkway bill.

The development plan of the Four Corners Regional Commission has now been completed and published, and its conclusions are available for background information and consideration in the hearings. So the second reason for holding up the parkway bill has been removed, and the bill is now ready for action.

The Four Corners studies strengthen my conviction that a desert parkway of the type envisioned in the bill is desirable. The parkway would connect the spectacular Glen Canyon Dam with the Canyonlands National Park and the Colorado National Monument. It would traverse what is perhaps the world's most scenic areas, much of which is now accessible only by packhorse.

Let me read to you a description of the recreation resources of the region as outlined in the Four Corners development plan, since much of it is directly applicable to the area in question:

> The Region benefits from abundant natural beauty and a variety of scenic attractions. Numerous mountain ranges, canyons, national forests, state and national parks and monuments, rivers, reservoirs and dams, natural lakes, Indian areas and other allurements provide the Region with a unique set of recreational resources. These, combined with a generally favorable climate, result in a high potential for further development of recreation activities. * * * There is widespread distribution of mountains, canyonlands, and national parks and monuments in the Region and the four states. There are state parks, water recreation areas, Indian areas and other attractions. * * * There are many bodies of water in the Region and sites suitable for boating, water skiing, fishing and swimming. * * *
>
> Many of these recreational advantages are partially offset by some disadvantages. The most important disadvantages are: (1) remoteness from large national population centers, (2) the distance between major attractions in the Region, (3) inadequate development of a highway system linking recreational activity areas, (4) the limited number and quality of accommodations and related facilities and (5) lack of sufficient recreational investment capital. Currently, a number of potential tourists drive through the Region without overnight stays, or with the minimum of delay enroute to and from more accessible or accommodating vacation areas.

With the construction of roads and highways, and the opening up of more of the area to tourists, the number and quality of accommodations would increase, of course, as would the economic well-being of the region. So the parkway would be compatible with the Four Corners development plans and goals in every way.

The parkway would run in a northeasterly direction paralleling the north shore of Lake Powell through the Glen Canyon recreation area for about 100 miles, with connecting spurs out into the recreation area to special points of interest. It would skirt, or perhaps cut across, the northwest corner of Canyonlands National Park and traverse the recreation area west of the Maze. Along the northern boundary of Canyonlands, the road would swing eastward across the Green River and down to the Colorado River near the town of Moab, Utah. It would then proceed northeastward along the bank of the Colorado River to the vicinity of "Dewey Bridge" where it would cross the Dolores River. The route would continue through Glade Park and reach a terminus on route I-70 at Grand Junction, Colo. The entire parkway would total about 400 miles.

There is no direct connecting link between the Lake Powell area and the Canyonlands area. Nor is there any way to cross the interesting country north of Canyonlands, and to see the scenery along the Colorado River north and east of Moab. A road which would allow tourists to drive along Lake Powell to Canyonlands National Park would allow them to enjoy both attractions in one trip, and then, if they wished, to enjoy the splendors of the upper reaches of the Colorado and the Colorado Monument. As a scenic drive, the Canyon Country Parkway would be unparalleled anywhere.

Mr. President, enactment of my bill would be a long step toward making some of the most spectacular scenery in the country more accessible to the people of Utah and the country as a whole, and I am hopeful that hearings can be held at an early date on the measure to establish and administer the Canyon Country National Parkway.

---

By Mr. MOSS:

S. 27. A bill to establish a Department of Natural Resources and Environment. Referred to the Committee on Government Operations.

### DEPARTMENT OF NATURAL RESOURCES AND ENVIRONMENT

Mr. MOSS. Mr. President, the bill I am introducing today to establish a Department of Natural Resources and Environment is not a newly drafted measure, nor does it represent a new concept.

The idea of reorganizing the Federal structure which deals with our national heritage of water, land, minerals, and energy so that today's great tasks in the field can be performed more efficiently has been under consideration for some time.

A task force of the first Hoover Commission urged the creation of a Department of Natural Resources in 1949, but for years the proposal was considered too explosive for action. It roused antagonism both in well-muscled bureaucratic ranks and powerful resource industries.

I first introduced my bill in 1965 when it became apparent to me that, despite the opposition to the proposal, it had to be enacted. The reorganization of the Federal machinery operating our resource development was absolutely crucial if we were to have the comprehensive and innovative resource planning necessary for our survival on this planet.

Hearings have been held on the proposal twice since that time by the Senate Committee on Government Operations. My bill has been refined and adjusted as new problems have surfaced and new agencies have come into being, but a measure has never been reported to the Senate floor for reconsideration.

Today, with the President moving to accomplish as much resource reorganization as possible by Executive fiat, it is even more important, even more timely and necessary, that the Congress take a look at the whole broad field of resource management and conservation, taking into consideration what the President is doing, and what he cannot do because he does not have the authority.

### NEW FACES FOR OLD

It will require more than just a shuffling of old agencies into new patterns and a replacement of old faces with new ones to establish the creative and streamlined ordering of resource activities which the Nation must have.

Also a new dimension has been added to the problem. The policymaking echelons in some of the specialized resource agencies are being swept out as if it were a victor-claiming-the-spoils, instead of the second term of a sitting administration. This disruption is having a devastating effect on the efficiency and morale of professional staffs who see able dedicated administrators, with a lifetime of experience in a field, being replaced by men of little background or expertise. The human problems of bureaucratic change are always enormous—they are being magnified by the ruthless manner in which the power of Executive order is being employed. To what extent such wholesale and sudden firings will affect the direction and policy of ongoing programs remains to be seen. But the effect could be vast.

The President sent to Congress last session a bill which indicated how he feels we should bring together the fragmented and uncoordinated activities now found in the resource area. His measure was based on the Ash Council report of March 25, 1971. To the extent that the President follows this blueprint in any reorganization achieved by executive order, I can for the most part support him. The administration legislative proposal follows my bill generally, except in two major areas which I will discuss later.

### MAJOR COMPONENTS OF NEW DEPARTMENT

My bill would establish a Department of Natural Resources and Environment, with a Secretary, a Deputy Secretary and an Under Secretary of Natural Resources and Environment for Water, an Undersecretary of Natural Resources and Environment for Lands, and an Undersecretary of Natural Resources and Environment for Energy.

Functions would be transferred to it from the Department of the Interior, the Department of Agriculture, the Department of Commerce, the Department of Defense, the Department of Transportation, the Atomic Energy Commission, and a number of independent agencies.

Among land and recreation agencies which would go into the new department are the Bureau of Outdoor Recreation, the Bureau of Sport Fisheries and Wildlife, the National Park Service, the Bureau of Land Management—all from Interior—and the Forest Service, the Natural Resource Economics Division of the Economic Research Service, and the Soil and Water Conservation Research Division of the Agriculture Research Service from the Department of Agriculture.

Among water development agencies would come the following functions: from the Department of the Interior—the Bureau of Reclamation, the Office of Saline Water, the Office of Water Resources Research, and the hydropower marketing agencies; from the Department of Agriculture—the Soil Conservation Service. From the Department of the Army's Corps of Engineers would come the planning, project evaluation, policy formulation and budgeting responsibilities relating to the civil functions of the Corps. The functions of the

Water Resource Council would also be transferred to the new department.

In the energy and mineral resources fields the following functions would come from the Department of the Interior—the Bureau of Mines, the Office of Minerals and Solid Fuels, the Office of Oil and Gas, the Oil Import Administration, the Office of Coal Research, the Defense Electric Power Administration and the Underground Electric Power Transmission Research Project. From the Atomic Energy Commission there would be Raw Materials Management, Uranium Enrichment and planning and budgeting for Civilian Nuclear Power Development and parts of the Plowshare program. The Office of Pipeline Safety would be transferred from the Department of Transportation.

The major scientific and technological components of the new department would be effected by transferring the functions of the Geological Survey of the Department of the Interior and those of the National Oceanic and Atmospheric Administration of the Department of Commerce.

As I have indicated this proposed reorganization of resource functions agrees in the main with the Nixon plan as proposed in S. 1431 in the 92d Congress.

### BOTH RESOURCES AND ENVIRONMENT

The most significant difference between my proposal and the administration proposal is indicated by the difference in name—mine is called the Department of Natural Resources and Environment and it would include the components of the Environmental Protection Agency—the Water Quality Office, Solid Waste Office, Air Pollution Control Office, Pesticides Office, and Radiation Office. The administration proposal retains the EPA as a separate agency.

In other words, the basic thrust of my bill is the placement—within the same Department—of functions governing protection of natural resources as well as those governing development or exploitation of natural resources.

The second major difference is that my proposal places the Bureau of Indian Affairs and the Office of Territories in the Department of Health, Education, and Welfare; the administration proposal places both in Natural Resources.

I realize that there will be differences of opinion about where these functions best belong, and I have an open mind—I am willing to listen to the reasoning of those who object to my allocations.

Some will particularly want to challenge the concept of placing the resource development programs in the same agency with the resource regulation programs—of placing, for example, the programs to develop our land and our water and our energy sources in the same department with the programs directed to the prevention of damage through air and water pollution, solid waste disposal, radiation, or pesticides.

### WHY THIS CONCEPT?

Let me give you an example of why I decided to pursue this concept.

A number of coal-fired electric generating plants are in various stages of development in the Four Corners area of the Southwest. These are designed to utilize the plentiful coal of the region and water from the Colorado River system.

Some plants may be built on Federal lands, and power directed to population centers. The transmission lines must cross large stretches of public land. Therefore, easements for land use and contracts for water use would have to be negotiated with the Department of Natural Resources as they now must be with the Department of the Interior.

Numerous environmental problems are arising and are discussed in the recently released report of the Interior Department. These include: Impact of plant construction on sites; discharge of pollutants into the air; disposal of coal waste; effect of strip mining; location of powerlines because frequently the least expensive route renders a scenic area unsightly; and the return of water to the river system at a temperature higher than that at which it came out.

Would it not be better if these questions could be considered and resolved by the same department that grants permission for use of public property? My answer is "Yes."

Somehow, the technological and political genius of the American people must be harnessed to give us both development and conservation. Otherwise, American society as we have known it must pass into oblivion.

I am concerned about the interaction between protection and development because I recognize that both are essential. In this matter, our Nation is cast on the horns of a dilemma. Like a hero of Greek tragedy, we find only two courses of action open, either of which could be fatal. If we put the brakes on production, we face a sinking standard of living; if we press full steam ahead on production, we may—through pollution—destroy our life-giving environment.

To accomplish this dual task of resource development and environmental protection, I believe we need a Department of Natural Resources and Environment exercising comprehensive authority. It must have the responsibility and the capability of keeping the environment clean while developing sufficient resources to maintain an acceptable standard of living. It must lead the Nation into the new paths that must be found and marked—paths that will permit an advanced industrial society to grow and yet to preserve wholesome living conditions.

That most difficult accommodation must be made in constructive reciprocity; not by check and countercheck which halts development or spews pollution. Stalemate is no solution to the problem. Dynamic accommodation is the answer.

### OVERSIGHT AGENCIES

Moreover, though I propose only one executive department for the natural resources, I do not intend it to be the sole monitor of environmental conditions. I would retain the Council on Environmental Quality, and I have long advocated passage of legislation to create in the Congress a Joint Committee on the Environment. In brief, this would result in the following arrangement:

First, the Department of Natural Resources and Environment would exercise the operating responsibilities of the Federal Government relating to natural resources development and protection.

Second, the Council on Environmental Quality would exercise present responsibilities which include evaluating the state of the environment as well as the operation of the NRE Department. The Council would also continue to prepare annually the official Environmental Quality Report of the President.

Third, the congressional joint committee would have the responsibility of holding public hearings on the report and of recommending to the legislative committees of the Congress such action as it deemed necessary.

In short, we would have a manager—the Department; a watchdog—the Council; and a legislative investigator—the joint committee.

Such an arrangement, I believe, would constitute a rational solution to the problem of organizing the Federal resource management effort to provide most effectively both protection and development.

### SOME FUNCTIONS REMOVED

The second major difference between the Moss proposal and that of the administration, as I have pointed out, is that I would place the Bureau of Indian Affairs and the Office of Territories in the Department of Health, Education, and Welfare; the administration places both in Natural Resources and Environment.

For some years, the argument has been advanced that the Indian people themselves prefer to work with Interior, and would therefore choose to have their governmental relationships center in a Department of Natural Resources and Environment, which is presumably more like home than HEW or a new Department of Human Resources. Recent developments in Washington certainly cast doubt on this assumption.

A second argument for placing the Indian Bureau in DNRE is that Indian lands are important resources, and I cannot gainsay that.

But good arguments must give way to better ones. The soil, water, wildlife, and air of the Indian lands, must, of course, be conserved, as must all of our physical environment. And such conservation will be a responsibility of the Department of Natural Resources and Environment.

The administration's own list of the functions of the Bureau of Indian Affairs and the Office of Territories shows a preponderance of nonresource items. This list includes: economic development, education, public health and safety, job training, job placement, and community services and facilities. Surely these functions are more akin to those delegated to the Department of Health, Education, and Welfare than to any other Federal department. It seems to me that any blueprint for reorganization should logically place them there.

But this is a hard time for decision-making in regard to the future of the American Indian. Our national policy should, of course, be to encourage them to assume a full citizens' role, and to give them all possible assistance in doing so. When the majority of the Nation's Indians decide what help they want from the Federal Government, and in what form and under what aegis, I, for one, will be quick to listen.

So while the exact structure of a new Department of Natural Resources and Environment may be subject to discussion, and some of the constituent elements of such a department may be open to question, there can be no doubt that such reorganization is long past due, and must be undertaken at once. The Congress should move concurrently with the administration in this task. Now is the time for hearings on this legislation. Now is the time to air the problems and the differences, and to harmonize our efforts to establish a single Federal department capable of effective resource management.

Now is the time to designate a single administrator to head one operation in which all agencies would work cooperatively, rather than competitively, toward the preservation of our natural resources and the protection of our environment. We must delay no longer. The job we must do is really impossible with our present administrative machinery.

Mr. President, I introduce for appropriate reference a bill to establish a Department of Natural Resources and Environment, and ask that this bill be printed in full at the close of my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 27

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SHORT TITLE; FINDINGS

SECTION 1. (a) This Act may be cited as the "Department of Natural Resources and Environment Act".

(b) The Congress hereby finds that—

(1) expanding population and a rising standard of living combine to place unprecedented demands on the natural resources of the United States;

(2) the natural environment is suffering a progressive deterioration which affects the air we breathe, the water we drink, the soil which nourishes our food, the areas in which we take our recreation, and the natural beauty of our homeland;

(3) such deterioration demonstrates a failure in the larger sense of our conservation efforts, even though many successful conservation programs have been undertaken during the past many years by Federal, State, and local governments and by private groups;

(4) safeguarding the environment—air, water, and land—is a necessity to maintain conditions under which man and wildlife may continue to exist, to provide the raw materials essential to an expanding standard of living, and to maintain the beauty and usefulness for all purposes of our land;

(5) the responsibility of the Federal Government includes the exercise of leadership in water resources development, land management, ocean resource development, and air pollution abatement, as well as the operation of many programs and cooperation with State and local government and private groups in the carrying out of their resource management responsibilities; and

(6) the Federal agency structure which deals with natural resources grew up during a less demanding period of our history, and must be coordinated and reorganized if today's tasks are to be performed effectively.

### DEPARTMENT OF NATURAL RESOURCES

SEC. 2. (a) There is hereby established at the seat of government, as an executive department of the United States Government, the Department of Natural Resources and Environment.

(b) The Secretary of Natural Resources and Environment may approve a seal of office for the Department, and judicial notice shall be taken of such seal.

### PERSONNEL OF THE DEPARTMENT

SEC. 3. (a) There shall be at the head of the Department of Natural Resources and Environment a Secretary of Natural Resources and Environment (hereinafter referred to in this Act as the "Secretary"), who shall be appointed by the President, by and with the advice and consent of the Senate.

(b) There shall be in the Department of Natural Resources and Environment a Deputy Secretary of National Resources and Environment, who shall be appointed by the President, by and with the advice and consent of the Senate. The Deputy Secretary of Natural Resources and Environment (or, during the absence or disability of the Deputy Secretary, or in the event of a vacancy in the office of Deputy Secretary, an Under Secretary or the General Counsel of the Department, determined according to such order as the Secretary shall prescribe) shall act for and exercise the powers of the Secretary during the absence or disability of the Secretary or in the event of a vacancy in the office of Secretary. The Deputy Secretary shall perform such functions as the Secretary shall prescribe from time to time.

(c) There shall be in the Department of National Resources and Environment an Under Secretary of Natural Resources and Environment for Water, an Under Secretary of Natural Resources and Environment for Lands, and an Under Secretary of Natural Resources and Environment for Energy, who shall be appointed by the President, by and with the advice and consent of the Senate.

(d) There shall be in the Department of Natural Resources and Environment a General Counsel, who shall be appointed by the President, by and with the advice and consent of the Senate. The General Counsel shall perform such functions as the Secretary shall prescribe from time to time.

(e) The Secretary is authorized to appoint and fix the compensation of such officers and employees, and prescribe their functions and duties, as may be necessary to carry out the purposes and functions of this Act.

(f) The Secretary may obtain the services of experts and consultants in accordance with the provisions of section 3109 of title 5, United States Code.

### TRANSFER OF FUNCTIONS TO DEPARTMENT

SEC. 4. (a) Except to the extent otherwise herein provided, there are hereby transferred to and vested in the Secretary:

(1) All of the functions of the Secretary of the Interior, the Department of the Interior, and all officers and components of that Department.

(2) Such of the functions of the Secretary of Commerce, the Department of Commerce, and officers and components of that Department, as relate to or are utilized by the National Oceanic and Atmospheric Administration.

(3) (A) Such of the functions of the Secretary of Defense, the Secretary of the Army, the Assistant Secretary of the Army for Civil Works, and the Chief of Engineers and the Corps of Engineers of the Department of the Army, as relates to or are utilized for civil works and civil regulatory functions: *Provided*, That all civil works construction, operation and maintenance, flood and coastal emergencies, and related activities, which shall be funded by the Secretary, shall be accomplished through and under the direction of the Secretary of the Army and the supervision of the Chief of Engineers.

(B) All of the functions of the Board of Engineers for Rivers and Harbors, Coastal Engineering Research Center, Board on Coastal Engineering Research, Mississippi River Commission, and California Debris Commission.

(4) Such of the functions of the Secretary of Agriculture, the Department of Agriculture, and officers and components of that Department, as relate to or are utilized by the Forest Service.

(5) Such of the functions of the Secretary of Agriculture, the Department of Agriculture, and officers and components of that Department, as relate to or are utilized by the Soil Conservation Service.

(6) Such of the functions of the Secretary of Agriculture, the Department of Agriculture, and officers and components of that Department, as relate to or are utilized by the Natural Resource Economics Division of the Economic Research Service.

(7) Such of the functions of the Secretary of Agriculture, the Department of Agriculture, and officers and components of that Department, as relate to or are utilized by the Soil and Water Conservation division of the Agricultural Research Service.

(8) Such of the functions of the Secretary of Transportation, the Department of Transportation, and officers and components of that Department, as relate to or are utilized for pipeline safety.

(9) All of the functions of the Water Resources Council.

(10) Such of the functions of the Atomic Energy Commission, and officers and components of that Commission, as relate to or are utilized for the following:

(A) the civilian power program: *Provided*, That all research and development programs and related activities, which shall be funded by the Secretary, shall be accomplished through and under the direction of the Commission;

(B) the raw materials program;

(C) the uranium enrichment and related distribution activities constituting part of the Commission's production program; and

(D) the Plowshare program: *Provided*, That all general research and development, device development, explosive effect tests, development of fielding systems, project execution, and related activities, which shall be funded by the Secretary, shall be accomplished through and under the direction of the Commission.

(11) Such functions transferred to the Administrator of the Environmental Protection Agency by paragraphs (1), (2), and (3) of section 2(a), and paragraphs (1) and (2) of section 2(b) of Reorganization Plan Numbered 3 of 1970.

(b) (1) All functions of the Bureau of Indian Affairs in the Department of the Interior, and all functions of the Secretary of the Interior being administered through the Bureau of Indian Affairs, are transferred to the Secretary of Health, Education, and Welfare.

(2) All functions of the Office of Territories in the Department of the Interior, and all functions of the Secretary of the Interior being administered through the Office of Territories, are transferred to the Secretary of Health, Education, and Welfare.

(c) With respect to the programs and activities of the Atomic Energy Commission herein transferred, the functions of the Secretary shall be carried out under the following provisions of the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), and the Secretary shall perform the functions of the Commission set forth therein with respect to such transferred programs and activities, except as otherwise specified below:

(1) Chapter 1, "Declaration, Findings, and Purpose".

(2) Chapter 2, "Definitions", except that the functions of the Commission set forth in subsections j (extraordinary nuclear oc-

currence), v (production facility, z (source material), aa (special nuclear material), and ee (utilization facility) of section 11 shall remain with the Commission.

(3) The following provisions of chapter 3, "Organization": sections 26 (General Advisory Committee), and 27 (consultation with the Department of Defense on atomic energy matters; functions of the Department of Defense).

(4) Chapters 4, "Research", and 5, "Production of Special Nuclear Material".

(5) The following provisions of chapter 6, "Special Nuclear Material"; clauses 53a (ii) and (iii) (making available and distributing special nuclear material); subsection 53c (sale or lease, etc., of special nuclear material, enrichment sources, sales prices, agreements with licensees, use charges); subsection 53d (use charge for leased special nuclear material); subsection 53f (distribution of special nuclear material); section 54 (foreign distribution of special nuclear material); section 55 (acquisition of special nuclear material); section 56 (guaranteed purchase prices); subsection 57c (limitations on distributions of special nuclear material); and section 58 (Joint Committee review).

(6) The following provisions of chapter 7, "Source Material"; section 63 (domestic distribution of source material), except the authority with respect to the issuance of licenses and of criteria governing such issuance; section 64 (foreign distribution of source material), except the authority to make the determination that the activity will not be inimical to the interests of the United States; section 65 (reporting); section 66 (acquisition); and section 67 (operations on lands belonging to the United States).

(7) Chapter 8, "Byproduct Material", except the authority of the Commission with respect to issuance of licenses, establishing exemptions from licensing, and determinations under subsection 82b as to whether foreign distributions would be inimical to the common defense and security.

(8) In chapter 9, "Military Applications of Atomic Energy", the authority in clause 91b (1) relating to delivery of enriched uranium to Department of Defense.

(9) In chapter 11, "International Activities", sections 121 (effect of international arrangements) and 122 (policies contained in international arrangements).

(10) In chapter 12, "Control of Information", subsections 144a (international cooperation pursuant to an agreement for cooperation); 145b (restriction on access to Restricted Data), except that the Commission shall make the determinations relative to access to Restricted Data; and 146b (power to control or restrict dissemination of information).

(11) In chapter 14, "General Authority", subsections 161a (advisory boards), c (investigations, subpenas), d (appointment and compensation of employees), e (acquisition and construction of facilities, etc.), f (utilization of services of others), g (acquisition and disposal of property), k (carrying of firearms), m (materials transactions with licensees), o (reports and records) except with respect to licensed activities, p (rules and regulations), q (easements), r (utility and related services), t (contracts implementing agreements for cooperation), a long-term contract authority), and v (contracts for producing or enriching special nuclear material); and sections 162 (contract exemption authority), 163 (service of advisory committee), 164 (electric utility contracts), 165 (proscribed contract practices), 166 (Comptroller General audit), 167 (claims settlements), 168 (payments in lieu of taxes), 169 (no subsidy), and 170 (indemnification and limitation of liability) insofar as it authorizes and applies to agreements of indemnification with contractors.

(12) In chapter 15, "Compensation for Private Property Acquired", sections 171 (just compensation), 172 (condemnation of real property), and 174 (Attorney General approval of title).

(13) In chapter 17, "Joint Committee on Atomic Energy", section 202.

(14) In chapter 18, "Enforcement", section 229 (authority to issue trespass regulations), which shall apply to any facility, installation, or real property subject to the jurisdiction, administration, or in the custody of the Secretary and utilized in carrying out any of the programs and activities of the Atomic Energy Commission herein transferred; section 230 (photographing, et cetera, of Commission installations), in which the words "property subject to the jurisdiction, administration, or in the custody of the Commission," shall be deemed to include property subject to the jurisdiction, administration, or in the custody of the Secretary and utilized in carrying out any of the programs and activities of the Atomic Energy Commission herein transferred; and section 232 (injunction proceedings).

(15) In chapter 19, "Miscellaneous", sections 251 (reports to Congress) and 261 (appropriations).

SEC. 5. (a) No license under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) shall be required for the conduct, by the Secretary or by persons under contract with and for the account of the Secretary, of the programs and activities herein transferred from the Atomic Energy Commission to the Secretary. In the conduct of such programs and activities, the Secretary shall establish standards and procedures for radiological protection of the public health and safety and the safeguarding of the national defense and security that are consistent with those established by the Commission to govern its own activities. Such standards and procedures shall be established with the advice and concurrence of the Atomic Energy Commission.

(b) With respect to the programs and activities of the Atomic Energy Commission herein transferred, the Secretary shall have all the rights, powers, and duties of the Commission under section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182), in the case of inventions and discoveries, useful in the production or utilization of special nuclear material or atomic energy, made or conceived in the course of or under any contract, subcontract, or arrangement entered into with or for the benefit of the Secretary, to the same extent as if entered into with or for the benefit of the Commission.

### SAVINGS PROVISIONS; MATTERS RELATING TO TRANSFER OF AGENCIES AND OFFICES

SEC. 6. (a) All orders, determinations, rules, regulations, permits, contracts, certificates, licenses, and privileges—

(1) which have been issued, made, granted, or allowed to become effective in the exercise of functions which are transferred under this Act, by (A) any Federal instrumentality any functions of which are transferred by this Act, or (B) any court of competent jurisdiction, and

(2) which are in effect at the time this Act takes effect,

shall continue in effect according to their terms until modified, terminated, superseded, set aside, or repealed by the appropriate officer to whom such functions are so transferred, by any court of competent jurisdiction, or by operation of law.

(b) The provisions of this Act shall not affect any proceedings pending at the time this section takes effect before any Federal instrumentality, functions of which are transferred by this Act; but such proceedings, to the extent that they relate to functions so transferred, shall be continued before such instrumentality. Such proceedings, to the extent they do not relate to functions so transferred, shall be continued before the instrumentality before which they were pending at the time of such transfer. In either case, orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this Act had not been enacted; and orders issued in any such proceedings shall continue in effect until modified terminated, superseded, or repealed by the appropriate officer to whom such functions are so transferred, by a court of competent jurisdiction, or by operation of law.

(c) (1) Except as provided in paragraph (2)—

(A) the provisions of this Act shall not affect suits commenced prior to the date this section takes effect, and

(B) in all such suits proceedings shall be had, appeals taken, and judgments rendered, in the same manner and effect as if this Act had not been enacted.

No suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of any Federal instrumentality, functions of which are transferred by this Act, shall abate by reason of the enactment of this Act. No cause of action by or against any Federal instrumentality, functions of which are transferred by this Act, or by or against any officer thereof in his official capacity shall abate by reason of the enactment of this Act. Causes of actions, suits, or other proceedings may be asserted by or against the United States or such official of any such instrumentality as may be appropriate; and in any litigation pending when this section takes effect, the court may at any time, on its own motion or that of any party, enter an order which will give effect to the provisions of this subsection.

(2) If before the date on which this Act takes effect, any Federal instrumentality or officer thereof in his official capacity, is a part to a suit, and under this Act—

(A) such instrumentality is transferred, or

(B) any function of such instrumentality or officer is transferred,

then such suit shall be continued by the appropriate instrumentality (except in the case of a suit not involving functions transferred by this Act, in which case the suit shall be continued by the instrumentality or officer which was a party to the suit prior to the effective date of this Act).

(d) With respect to any function transferred by this Act and exercised after the effective date of this Act, reference in any other Federal law to any Federal instrumentality or officer so transferred or functions of which are so transferred shall be deemed to mean the instrumentality or officer in which such function is vested pursuant to this Act.

(e) Orders and actions of any Federal instrumentality or officer thereof, in the exercise of functions transferred under this Act, shall be subject to judicial review to the same extent and in the same manner as if such orders and actions had been issued or taken by the instrumentality or officer, exercising such functions, immediately preceding their transfer. Any statutory requirements relating to notice, hearings, action upon the record, or administrative review that apply to any function transferred by this Act shall apply to the exercise of such function by any other officer of the United States pursuant to this Act.

(f) In the exercise of the functions transferred under this Act, the appropriate officer of the Federal instrumentality to which such functions are so transferred shall have the same authority as that vested in the officer exercising such functions immediately preceding their transfer, and such officer's actions in exercising such functions shall have the same force and effect as when exercised by such officer having such functions prior to their transfer pursuant to this Act.

### TRANSFER OF AGENCIES AND OFFICES

SEC. 7. (a) All personnel, assets, liabilities, contracts, property, and records as are determined by the Director of the Office of Management and Budget to be employed, held, or used primarily in connection with any function transferred under the provisions of this Act, are transferred to the appropriate Secretary of the executive department to whom such function is transferred by this Act. Except as provided in subsection (b), personnel engaged in functions transferred under this Act shall be transferred in accordance with applicable laws and regulations relating to transfer of functions.

(b) No transfer of personnel pursuant to this section shall result in any such personnel being separated or reduced in grade or compensation for one year after such transfer.

(c) In any case where all of the functions of any Federal instrumentality are transferred pursuant to this title, such instrumentality shall lapse.

### TECHNICAL AMENDMENTS

SEC. 8. (a) Section 19(d)(1) of title 3, United States Code, is amended by deleting "Secretary of the Interior" and inserting in lieu thereof "Secretary of Natural Resources and Environment".

(b) Section 101 of title 5, United States Code, is amended by deleting "The Department of the Interior" and inserting in lieu thereof "The Department of Natural Resources and Environment".

(c) Subchapter II of chapter 53 of title 5, United States Code (relating to executive schedule pay rates), is amended as follows:

(1) Section 5312 is amended by deleting "(6) Secretary of the Interior" and inserting in lieu thereof "(6) Secretary of Natural Resources and Environment".

(2) Section 5313 is amended by adding at the end thereof the following:

"(2) Deputy Secretary of Natural Resources and Environment."

(3) Section 5314 is amended by deleting "(8) Under Secretary of the Interior." and inserting in lieu thereof the following:

"(8) Under Secretary of Natural Resources and Environment for Water."

"(8A) Under Secretary of Natural Resources. and Environment for Land."

(4) Section 5315 is amended (1) by deleting "(18) Assistant Secretaries of the Interior (5).", and (2) by deleting "(42) Solicitor of the Department of the Interior." and inserting in lieu thereof "(42) General Counsel, Department of Natural Resources and Environment.".

### REPORT

SEC. 9. The Secretary shall, as soon as practicable after the end of each calendar year, make a report to the President for submission to the Congress on the activities of the Department during the preceding calendar year.

### DEFINITION

SEC. 10. As used in this Act, the term—

(1) "function" or "functions" includes powers and duties; and

(2) "Federal instrumentality" means any executive department of the United States or any agency, bureau, office, service, or other entity therein.

### DELEGATION OF FUNCTIONS

SEC. 11. Any officer of the United States to whom functions are transferred pursuant to this Act may delegate such functions, or part thereof, to such of his officers and employees as he may designate, may authorize such successive redelegations of such functions to his officers and employees as he may deem desirable, and may make such rules and regulations as he may determine necessary to carry out such functions.

### EFFECTIVE DATE; INITIAL APPOINTMENT OF OFFICERS

SEC. 12. (a) This Act shall take effect ninety days after the date of its enactment.

(b) Notwithstanding subsection (a) of this section, any of the officers provided for in section 3 of this Act may be appointed in the manner provided for in this Act, at any time after the date of enactment of this Act. Such officers shall be compensated from the date they first take office, at the rates provided for in this Act. Such compensation and related expenses of their offices shall be paid from funds available for the functions to be transferred pursuant to this Act.

By Mr. MOSS:

**S. 28. A bill to clarify the relationship of interests of the United States and of the States in the use of the waters of certain streams. Referred to the Committee on Interior and Insular Affairs.**

### WATER RIGHTS

**Mr. MOSS. Mr. President, I once again offer to the Congress for consideration a bill to clarify the relationship of interests of the United States and of the States in the use of the waters of certain streams. As a result of a study initiated in September of 1968, the National Water Commission in November of 1972 issued its proposed report. On page 5 of chapter 13 dealing with Federal-State jurisdiction in the law of waters is a recommendation that Federal use should conform to State procedures. The recommendation is as follows:**

> *Recommendation No. 1:* The proposed "National Water Rights Procedures Act" should adopt a policy of recognizing and utilizing the laws of the respective states relating to the creation, administration, and protection of water rights (1) by establishing, recording, and quantifying Federal water uses in conformity with state laws, (2) by protecting non-Federal vested water rights held under state law through the elimination of the no-compensation features of the reservation doctrine and the navigation servitude, and (3) by providing new Federal procedures for the condemnation of water rights and the settlement of legal disputes.

**The bill which I again offer for your consideration is a beginning point from which I hope we can initiate a proper forum and hear from the people on this issue.**

**There is a serious situation in the Western States with regard to the continuing problems created by the reservation doctrine of water rights. These problems should be considered and settled. I hope the Congress will give early consideration to this measure.**

By Mr. MOSS:

S. 29. A bill to establish the Lone Peak Wilderness Area in the State of Utah. Referred to the Committee on Interior and Insular Affairs.

### LONE PEAK WILDERNESS

Mr. MOSS. Mr. President, the bill I am introducing today would set aside 32,785 acres in the Wasatch and Uinta National Forests as an addition to the national wilderness system. The bill is similar to the one introduced in the 92d Congress, but its boundaries have been enlarged to include areas south of Dry Creek Canyon, around Twin Forks Peak, and part of White Pine Canyon.

A bill providing for a study of this area was passed by the Senate in the closing days of the 92d Congress, but it died in the House.

The Lone Peak area is one of the few in the country which is close enough to a large city to provide almost suburban wilderness. It is located to the east and south of Salt Lake City, and is only a few minutes drive from its outskirts. The peak is one of the most beautiful in the rugged mountain range which towers over the city, and the area surrounding it is still wild and primitive. Evergreens abound, and the streams are clear and unpolluted. Within an hour or so of leaving the city, one can have hiked or backpacked or ridden by horse into a fresh new world.

Legislation to establish a Lone Peak Wilderness Area has the support of the Sale Lake County Commission, of most of the Utah press, many outdoor and environmental groups in the State, and the public generally.

By Mr. MOSS:

**S. 30. A bill to amend the Wild and Scenic Rivers Act by designating a segment of the Colorado River in the State of Utah as a component of the national wild and scenic rivers system. Referred to the Committee on Interior and Insular Affairs.**

### AMENDMENT TO THE WILD RIVERS ACT

**Mr. MOSS. Mr. President, I am today introducing a bill to amend the National Wild and Scenic Rivers Act to designate 36 miles of the Colorado River in Grand County, Utah, as a component of the national wild rivers system.**

**The stretch of the river covered by the bill flows from mile point 1063 to mile point 1027. It begins at the Utah-Colorado border, and flows downstream to the junction of the Dolores River with the Colorado River in Utah.**

**The wild rivers designation, as this body well knows, is applied to certain selected rivers of the Nation which have remarkable scenic, recreational, geologic, or other values which should be preserved by keeping the river in its free-flowing condition, and its shore environment in its natural state, so that generations to come may enjoy them unimpaired by man-made incursions.**

**This reach of the Colorado River in Utah superbly qualifies for inclusion in the national wild and scenic rivers system. There is one section of it particularly—a 13½-mile section through Granite Canyon—which I consider the most exciting river in Utah. It has a series of rapids which tumble in quick succession through a very narrow and rugged canyon. The rapids have such colorful names as Sock-It-To-Me, Wildhorse, Marble Canyon, Funnel Falls, Skull, and Last Chance. There are scenic side canyons running into the main canyons, up which boats can travel.**

**Many animals can be seen, particularly in the side canyons, including deer, cougar, snowy egrets, Canadian geese, beaver, blue herons and golden eagles. The massive red sandstone cliffs along most of the canyon rise high in the sky, broken by black granite and red and purple shales. It is magnificent country.**

**The bill I am introducing is similar to one passed by the Senate in the 92d Congress. There is no opposition to it, so far as I know, and I hope it can be passed quickly, and acted upon by the House, so we can move to protect this spectacular stretch of water. The region is remote enough to be somewhat protected**

at the present time, but jeep roads are pushing toward it, and unless action is taken it may not long remain in its present wild state.

By Mr. HOLLINGS (for himself and Mr. TOWER):

S. 31. A bill authorizing the Secretary of Defense to utilize Department of Defense resources for the purpose of providing medical emergency transportation services to civilians. Referred to the Committee on Armed Services.

MILITARY ASSISTANCE TO SAFETY AND TRAFFIC

Mr. HOLLINGS. Mr. President, in 1971, more than 115,000 Americans lost their lives in accidents. Four hundred thousand more were permanently disabled and 10 million were temporarily disabled. The loss to the Nation's economy from accidents in 1971 was estimated at over $28 billion. These staggering figures are particularly distressing—especially since this toll could be reduced by the upgrading of medical emergency transportation services. With a view to alleviating such unnecessary loss of life and property, the Department of Defense in 1970 embarked upon a cooperative test program entitled Military Assistance to Safety and Traffic—MAST.

MAST is an interdepartmental effort involving the Department of Defense; Transportation; and Health, Education, and Welfare. The MAST test program has provided to certain selected locations: Military air ambulances, crews, medical personnel, medical equipment, and supplies which while in a continuous state of readiness for military requirements were able to respond to the evacuation of civilian medical emergency cases—motor vehicle accident victims, interhospital transfers and other emergencies where rapid transport of patients to adequate medical care is required and ground transportation is not feasible. MAST operations to date have been confined to three Army and two Air Force sites. Operational experience has proven the value of this concept, and the test phase has generated a good deal of public support for the program. It now appears desirable to expand military participation in the program to the extent it can be accomplished without impairment of the military mission.

Utilizing existing military resources, and without additional cost of the taxpayers, these five pilot programs have proven their worth by rendering valuable emergency service to the metropolitan and surrounding areas of San Antonio, Tex.; Colorado Springs, Colo.; west central Washington State; Phoenix, Ariz.; and Mountain Home, Idaho. There is strong and wide acceptance of this military/civilian endeavor. Based on the success of these pilot programs, other communities with nearby military resources have applied for MAST service, and some, in fact, have worked with the military in preparation for this service. Expansion of this service was, however, withheld for lack of statutory authority, leaving some communities in the lurch. I have in mind the South Carolina and Georgia communities that will be served by the MAST program to be operated at Fort Stewart, Ga. These communities worked closely with the military on the integration of MAST services in their overall emergency medical services plan and expended considerable effort in these preparations including the expenditure of funds for such things as communications equipment. Then, with their goal almost in their grasp and the nearby military units ready, willing, and able, the MAST service was withheld because of lack of statutory authority. This situation remained through the past year despite efforts to provide this authority by amendment to the fiscal year 1973 DOD procurement bill and as part of a House emergency medical services which died in the Senate.

During last year's legislative efforts, both the House and Senate Armed Services Committee chairmen, although not necessarily opposed to recommending this authority, expressed the need for their committees to have the opportunity to properly examine the subject. This bill provides that opportunity, and I know, after careful examination, we will have an opportunity to vote on this MAST authority which will enable expansion of these lifesaving services to those additional communities in which the appropriate DOD resources may now be located and where the community desires this program.

I ask that the text of this bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 31

A bill authorizing the Secretary of Defense to utilize Department of Defense resources for the purpose of providing medical emergency transportation services to civilians.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Secretary of Defense is authorized to assist the Department of Health, Education, and Welfare and the Department of Transportation in providing medical emergency transportation services to civilians. Any resources provided under this section shall be under such terms and conditions, including reimbursement, as the Secretary of Defense deems appropriate.

---

By Mr. KENNEDY (for himself, Mr. BAYH, Mr. BENTSEN, Mr. BROOKE, Mr. CANNON, Mr. CASE, Mr. CRANSTON, Mr. GRAVEL, Mr. HART, Mr. HUGHES, Mr. HUMPHREY, Mr. INOUYE, Mr. JAVITS, Mr. MANSFIELD, Mr. MCGEE, Mr. MCGOVERN, Mr. MONDALE, Mr. MONTOYA, Mr. MOSS, Mr. MUSKIE, Mr. PASTORE, Mr. PELL, Mr. RANDOLPH, Mr. RIBICOFF, Mr. SCHWEIKER, Mr. SPARKMAN, Mr. STEVENS, Mr. STEVENSON, Mr. TUNNEY, Mr. WEICKER, and Mr. WILLIAMS):

S. 32. A bill to amend the National Science Foundation Act of 1950 in order to establish a framework of national science policy and to focus the Nation's scientific talent and resources on its priority problems, and for other purposes. Referred to the Committee on Labor and Public Welfare.

NATIONAL SCIENCE POLICY AND PRIORITIES ACT

Mr. KENNEDY. Mr. President, I introduce today the National Science Policy and Priorities Act of 1973. This bill is aimed at putting science and technology to work on the problems of our society. It provides a 3-year authorization of $1.8 billion for civilian research and engineering programs directed at these problems.

Last August the Senate decisively voiced its approval of this measure when it voted to pass the bill by a rollcall vote of 70 to 8. Taking account of those Senators who were not present, but who were recorded for or against the bill, the vote would have been 82 to 10. In September the House Committee on Science and Astronautics held hearings on the bill as it passed the Senate. Unfortunately, the House was not able to complete action on the bill before the end of the 92d Congress.

I therefore reintroduce the bill today. I plan to hold early hearings on this bill before the Subcommittee on the National Science Foundation, and pledge to do everything in my power to move this measure on to enactment as promptly as possible. I introduced the original version of this bill in August of 1970; and in the two and a half years which have elapsed since then, the problems of society to which this bill is addressed have seriously worsened.

If there is one overriding lesson I have learned in my 4 years as chairman of the National Science Subcommittee, it is that the potential of science is nowhere being matched by its performance.

Engineers can propel nuclear ships around the globe with the energy from a bucketfull of fuel—yet our cities are increasingly beset with power blackouts and brownouts.

We can cruise on the moon's surface—yet we cannot commute from suburb to city without traffic jams, air pollution, and no parking at our destination. We can build beautiful, enclosed shopping malls in the suburbs—yet we cannot begin to cope with the housing crisis in the cities. We can design high-speed computers to process billions of bits of data instantly—yet we cannot teach all our children to read effectively.

Why is it that cities have to be put on pollution alert, so that mothers have to be concerned about their children playing out of doors? Why is it that household appliances continually break down and that their repair is not only costly but often unreliable?

Why is it that thousands of American children burn to death each year because they wear highly flammable fabrics? Why is it that decent housing is increasingly out of reach of more and more of our citizens? Why is it that millions of Americans are undernourished in an age of affluence? Why is it that there are only kidney dialysis facilities for 2,000 of our citizens when 50,000 need such care?

Why is it that we have not been able to use modern technology to reduce the mounting costs of educating our children?

We know that computer aided diagnosis, computer monitoring of serious hospital cases, and technological aids to emergency medical care can save thousands of lives each year—yet why is it that we do not make wider use of these devices?

The list is endless, but the lesson is clear: we have the scientific knowledge, but we have not made the concerted effort necessary to put it to use for the benefit of all our people.

As Shakespeare so aptly put it: "The fault lies not in our stars, but in ourselves." The Nation's scientists and engineers have the skills, the imagination, and the inventive ability to tackle and solve these problems. But we have let them down. We have not given them the go-ahead; we have not provided them with the support and resources to do the job.

We are all aware that productivity in American industry has been lagging in recent years, especially in comparison to Japan and Western Europe. Yet how many realize that part of the answer for this lies in American underinvestment in civilian research and technology. A Department of Commerce study shows that Western Europe, when its gross national product; is only one-third of the U.S. GNP, has a third more technical personnel employed in civilian research. And Japan, with only half the population of the United States and one-seventh of our GNP, had 70 percent as many scientists and technical personnel employed in civilian research and development.

If we make the necessary national commitment to tackle these problems, if we provide the Nation's scientists and engineers with the wherewithal to do the job, I am confident they can solve many of these problems and make a giant step forward on earth toward making this the kind of society we want for our children, and their children to come.

Yet at this time of maximum need—when the Nation's problems with the environment, with health, with economic productivity, and with the quality of life in our society—when these problems need to be tackled with all the talent we can muster, we find technical unemployment higher than it has ever been in history. Although the Government has not been able to provide precise figures on the extent of technical unemployment, our best estimate—based on membership surveys by the technical societies and what Government figures are available—is that last year several hundred thousand scientists, engineers, and technicians were either unemployed or underemployed—by working at jobs well below their skill levels. Thus, of the Nation's approximately 3 million scientists, engineers, and technicians, from 5 to 10 percent were either unemployed or seriously underemployed.

This situation is intolerable. America's strength springs from the skill of its people. Scientists and engineers have a major share of those skills. The Nation must assure them the opportunity to use their skills for the benefit of all of us.

This is the purpose of S. 32, the National Science Policy and Priorities Act. It establishes a framework of national science policy and focuses the Nation's scientific talent and resources on its priority problems.

The principal provisions of the bill are as follows:

This bill establishes national science policy and programs to focus the Nation's scientific talent and resources on its civilian priority problems. It authorizes $1.8 billion over a 3-year period—$50 million to advance the state of the art in priority research areas; $1.2 billion to design and demonstrate civil science systems which can provide improved public services; and $560 million to aid States, communities, companies, and individual scientists, engineers, and technicians in making the transition to civilian research and engineering programs. In addition, the bill creates a mechanism to establish Federal procurement policies and regulations which would foster portable pensions for scientists and engineers to protect their pension credits as they shift from one job to another.

The bill declares as national policy that: First, Federal funds for science will grow in proportion to the gross national product; second, scientific and technical manpower must have continuing employment opportunities at their professional skill levels; third, Federal funds for civilian research and development must be maintained at parity with military R. & D.; and fourth, Federal programs for civilian R. & D. must be focused on meeting national needs in priority areas.

Recent National Science Foundation figures indicate that in 1967 dollars, discounting inflation, total Federal obligations for research and development are as follows: In fiscal 1967, when Federal R. & D. spending reached its peak, it was approximately $16.5 billion. In 1968, the figure for Federal R. & D. spending dropped to $14.3 billion. In 1970, it dropped to $13.3 billion. In 1971, it dropped to $12.9 billion. In 1972, it was $13.5 billion.

The budget for fiscal 1973 did include a modest increase to $13.9 billion in 1967 dollars. But even at that proposed level, the 1973 proposed budget will be 16 percent below what it was in 1967. So over all these years in which national needs for R. & D. have been skyrocketing, Federal expenditures in these areas have been declining in real dollars. We want to try to avoid that by the policy statement.

### TITLE I—SCIENCE POLICY

This title gives explicit authority to the National Science Foundation to develop national policies for applying science to national problems. The bill also broadens the composition of the National Science Board—the foundation's governing board—to include more technical and industrial representation. The $50 million is authorized to the Foundation in order to advance the state of the art in those areas.

### TITLE II—DESIGN AND DEMONSTRATION OF CIVIL SERVICE SYSTEMS

This title establishes a Civil Science Systems Administration within the National Science Foundation and authorizes $1.2 billion to do research, design, testing and evaluation, and demonstration of civil science systems capable of providing improved public services in areas such as health care, public safety, public sanitation, pollution control, housing transportation, public utilities, communications, and education.

Programs would be carried out through contract with industry, universities, nonprofit organizations, and public agencies, and would include provision for transfer of funds to other Government agencies. Over fiscal years 1974, 1975, and 1976 the Administration would be authorized, $55 billion for planning civil science systems, $140 million for applied social research necessary to designing such systems, $790 million for research and design of civil science systems, $105 million for testing and evaluation of such systems, $30 million for dissemination of technical information on such systems, and $80 million for public demonstration of civil science systems.

### TITLE III—TRANSITION OF TECHNICAL MANPOWER TO CIVILIAN PROGRAMS

This title authorizes the National Science Foundation to plan and assist in the transition of scientific and technical manpower from research and engineering programs which have been terminated or significantly reduced, to other civilian-oriented research and engineering activities. Thus, $560 million over fiscal years 1974, 1975, and 1976 is authorized to aid States, communities, companies, and individual scientists, engineers, and technicians in making the transition. Programs include $15 million for research on economic conversion; $95 million to State, regional, and local governments for training of government officials, operating conversion programs, and for hiring unemployed technical personnel to work in government positions; $90 million for community conversion corporations to channel research and engineering programs in hard-hit communities; $275 million for job transition programs to enable companies to hire technical personnel to work on civilian projects for which they are not yet fully qualified—on-the-job training subsidies; $55 million for career transition fellowships to unemployed or underemployed technical personnel to acquire skills in other fields; $20 million for placement assistance to technical personnel who are unemployed or underemployed; and $10 million for developing university courses and curricula oriented toward civilian engineering projects.

### TITLE IV—PROTECTION OF PENSION RIGHTS OF SCIENTISTS AND ENGINEERS
